The following are the names of the pupils who took the highest number of marks in each class in Cavan school, or rather Springeville school, for the month of February, the standing of the three highest being only given:—

Fifth Class.—Hannah Long, 342; Aggie Cassels, 171; David Smyth, 168.

Fourth Class.—Sindy Osborne, 322; Minnie McDowell, 162; William Mitchell, 156.

Third Class.—Ellen Long, 313; William Mabb, 303; Joseph Thompson, 168.

Second Class.—Mary Thompson, 168; Mary Hannon, 171; Thomas Clark, 168.

First Class.—John Clark, 140; George Patterson, 136; Edward Osborn, 107.—Cor.

SWAN'S CORNERS.

A very successful entertainment was given in the Grange Hall here, on Thursday evening of last week, in aid of and gotten up by the members of Rescue Temple, assisted by Mr. J. Ormond and Mr. O. Dixon, of Peterboro'. The hall was crowded by a very appreciative audience. To particularize would take up unnecessary space, suffice it to say that those taking part in the programme performed their respective parts with great satisfaction to those present. Judging from the rounds of applause that greeted Miss Jackson, and Messrs. Ormond and Dixon, their efforts to please were duly appreciated. Mr. Cruikshank appeared several times during the evening, in his "usual happy and go easy style," and received the well merited applause of the audience, more especially for his German songs. He has always endeavored when opportunity afforded, to assist in furthering the cause for which the proceeds of the entertainment are to be devoted. The performance was in every way a success, and as each approached the door to make a departure the expressions of satisfaction were quite manifest. "God Save the Queen," concluded what might safely be said was the best entertainment of the kind yet given by the "Swansonians."

SOUTH HARVEY.

Mr. Purser came to reside in Harvey only recently. He has a lot of land near to Mr. Blewett's and hired, in Peterborough, a young fellow, with light complexion, sandy hair, about 160 lbs weight, five feet eight or nine, to work for him. The young party gave the name of Smith, and said he came from Millbrook. Last week Mr. and Mrs. Purser went to Peterborough leaving the hired man Smith in charge of the farm. After Mr. Purser left Mr. Smith took a suit of broad cloth clothes, worth $40; an overcoat, $12; a gold watch, $40; a gold chain, $20; a breach, $12, a lot of rings, $15; and several other articles, some of a useful and some of an ornamental character; and with these he went his way to that delightful region which is so easily reached in any locality where Police are not entertained. Mr. Smith, morever, tied up the horses in the stable and left them to their fate and for three days, (until the return of Mr. Purser,) they were without food or water. One of them subsequently died. If anyone will acquaint Mr. Purser with anything likely to lead to Mr. Smith's apprehension, they will confer a favour on society.—*Independent*.

SMITH.

Council Meeting.—On Monday, Feb. 10th, the Council met. All the members present. Minutes of the last meeting were read and confirmed. A petition from H. S. Wells and 31 others, praying the Council to grant $100 to drain a pond and improve the road between lots 36 and 37 in the 12th con., leading from the River road to the Burleigh road.—Petition laid over. The Auditors presented and read their report of the receipts and disbursements of the Treasurer for the year 1878, which was adopted, and 150 copies ordered to be printed for distribution. The Clerk was instructed to notify George Kettles to remove his fence and open up the allowance for road between lots 36 and 37 in the 15th con. Ordered by motion that the 5th section of By-Law No. 333 shall be amended so as to read, "That one day's work with a team and driver shall be equivalent to two and one-half days of statute lab our for one man.". The Treasurer was instructed to pay M. E. Sanderson the sum of $2.25 for wood furnished Mrs. Hartley. After verbally appointing 104 Overseers of Highways, 11 Poundkeepers, and 12 Fence-viewers, the Council adjourned until the 24th instant.

Pursuant to adjournment, the Council met on the 24th February, 1879. All the members present. The minutes of the last meeting were read and confirmed. The following By-Laws received the first, second and third readings, and passed:—A By-Law to repeal the 5th section of By-Law No. 333, and to substitute other provisions therefor; a By-Law to divide the Township into Pound and Road Divisions, and to appoint Overseers of Highways, Pound-keepers and Fence-viewers for the current year. A petition from Richard Northey was presented and read, praying the Council to repeal the By-Law limiting the number of taverns in the Township to three and allow such further number as to enable him to obtain a license to keep a tavern in Selwyn. No action was taken in the matter of Richard Northey's petition, and the By-Law limiting the number of taverns in the Township sustained. The sum of $1,300 was appropriated to the general improvements of the roads and bridges in the Township. She sum of $220 each was apportioned to the first, second, third and fourth old Wards, and the sum of $420 to the fifth Ward. The Treasurer was instructed to pay to Dr. Caldwell $2.50 for medicine and attendance on W. R. Cocus and family, and $5 to Richard Warnan for John Clark, an indigent.

OUR INLAND NAVIGATION.

The Editor of the *Review*, taking his cue from a correspondent of the Montreal *Gazette*, has discovered a mare's nest. The assertions he publishes are these:—

1. The Mackenzie Administration, before leaving office, passed an Order in Council transferring the whole of the Trent navigation and works to the Government of Ontario. 2. No conditions were made in the transference providing for compensation for private interests which might be injuriously affected by the transfer. 3. It was made in the interest of the Ontario Government at the coming elections. 4. It is the act in five years of a corrupt and unprincipled Administration. The facts in reply are as follows:—1. This matter was not sprung on the country. For several years it has been favourably discussed in the Ontario Legislature. Two years ago, when the estimates were brought down, Mr. Mackenzie announced on the floor of the House that the Government contemplated adopting such a course, and it was also suggested that the Rideau Canal, on which the annual expenditure is $30,000 and the revenue $6,000, might be disposed of in the same manner. It will be remembered that the Dunjardins Canal was transferred to the town of Dundas in the same manner, and by both these transactions a large annual expenditure has been saved to the country. 2. No private interest can be affected by the change, and if there are any they have a just Government to deal with in the Ontario Government. The navigation works were originally constructed by the old Government of Canada with a view of having water communication by means of the Trent River and a series of inland lakes all the way from Lake Ontario to Lake Huron. The construction of railways has rendered the scheme abortive, and with the exception of a little timber passed over the waters, no business of importance is done. 3. The transfer cannot benefit the political prospects of the Ontario Government. The only benefit to the Ontario Government is that the transfer gives it free access and egress by water to the extensive timber limit which it holds in the district drained by the Trent, and which can be used for colonization purposes. 4. It is the crowning act in Mr. Mackenzie's Administration, which has been marked by economy from first to last. On page 246 of Public Accounts, under the head of Newcastle District Works, it will be seen that the expenditure last year was $6,345.79, and the revenue during the year was only $60.

Diocese of Toronto.

Archdeacon Sweatman, of Huron Diocese, Elected.

The dead lock in the Synod for the election of a Bishop for the Diocese of Toronto, having been unsolved after 23 ballots, a compromise was effected by the election of Archdeacon Sweatman, of Woodstock. The Bishop elect: The Venerable Arthur Sweatman, M. A., was born at London, England, and is a scholar of Christ's College Cambridge. Graduated B. A. (Senior Optime), 1858, and M. A., in 1862. Was ordained a Deacon at St. Paul's Cathedral, London, England 1859, and Priest at the Chapel Royal, Whitehall, in 1860, by the Right Rev. Dr. Tait, now Archbishop of Canterbury, but then Lord Bishop of London. He received his first appointment as Curate to Holy Trinity Church Islington, and from there he was removed to St. Stephen's Church Canonbury, and Master of Islington College. His first appointment in this country was that of Head Master of Huron College, in this city, in 1865, which position he resigned in 1872 for that of Rector of Grace Church, Brantford, where he remained until 1874. From there he removed to London, to take the position of Head Master of the Hellmuth College, which position he occupied until 1876. He was also appointed a Canon of London Cathedral in 1875, but only held this office for one year, when he received the assistant rectorship of Woodstock, and was also created Archdeacon of Brant, which office he continued to hold up to the present time. He was also appointed Examining Chaplain to the Bishop of Huron in 1872, and Secretary of the of the Diocesian Synod in 1873. The venerable gentleman is very popular in this Diocese, and was appointed Acting Bishop in the absence of Bishop Hellmuth on a tour to Europe, from which he has only recently returned.—*London Paper*.

A Plague in Marmora.

(*From the Campbellford Herald.*)

We very much regret to state that an unknown disease, resembling a plague, has broken out in Marmora. The first instance coming under the attention of the doctors was in the case of Mr. Mason, a baker of that village. some time ago, Mr. Mason went to Nespance, and soon after his return he was stand with a violent sickness and in six days died. A relative of the deceased, who nursed him, became affected, and died five days afterwards. The third victim was a woman who visited the house. She was prostrated in the same way, and in forty-eight hours after she was a corpse. There has already been five victims, and many more are ill, and appear to be lingering. The symptoms of the disease are great chillness and pain in the head and back, pains in the armpits and groin, followed by a swelling of the glands in these parts. This is supplemented by severe sickness, and black patches upper upon the skin, under which bloody matter forms. Soon the patient dies, and the body after death, to use the words of a person who saw one of the victims, "is as black as a polished stove." The local physicians, owing to the great fatality and extreme contagiousness of the disease, feared it was small-pox of a very malignant kind; but a demobilization given of it, leads a medical correspondence of ours to believe that it is nothing less than the plague.

Doing up Men's Linen.

A husband complained that his shirt bosom and colars were badly done up, and the onus was referred to a knowing shirt maker, and his answer was well worthy the attention of house-keepers:

"Yes," said the man, "the fools is with your laundress. While doing up your collars, she stretches them the wrong way. Dumo linen is very pliable, and a good pull will stare a fourteen-inch fello a fifteen-inch collar in the twinkling of an eye. She ought to stretch them crosswise, and not lengthwise. Then to avoid burning out your shirt bosom she makes another mistake of the same sort. They ought to be pulled crosswise instead of lengthwise, particularly in the middle front of the bosom. A Congressman pull will save you three of the starched and somewhat wrinkled collars and cuffs, when a good washerwoman will make you three of the same collars and cuffs look as well as new. Then to avoid burning out your shirt bosoms and collars when ironing, she should not use a hot iron. The iron should be just hot enough to smooth the linen without scorching it. Then, if you will have your linen done up in that way, you will find it will last twice as long."

Drunkenness Cured.

A great stir has recently been made in medical circles in Chicago and elsewhere, by the alleged discovery of a sure and certain cure for drunkenness. Mr. Medill, of the Chicago *Tribune*, says:—

"This is one of the most wonderful discoveries of the age. Dr. D'Unger has actually cured 2,000 cases of the worst forms of intemperance. He takes men debauched by liquor for years—takes

B-4-ANY.

The Wrought Steel Steel Scythe, the Finest Tool of the kind in the world. The steel used in this Scythe is worked entirely in our works, and is of a quality not yet in any other Scythe in the market. The Examiner.

PETERBOROUGH, MARCH 13, 1879.

THE TRENT RIVER WORKS.

"Great is Diana of the Ephesians" was shouted by those who sought to raise popular clamour in their own personal interests, irrespective of all else, when they thought their "craft was in danger." The same spirit is shown in these later days by those who try to raise a cry against the transfer of the Trent River works from the Dominion to the Provincial Government. There be those who fear any interference with the somewhat unsatisfactory manner in which these works have been conducted, some because of a possibly direct effect on their office and emoluments, and others on account of a fear that justice to other interests may stop their "craft." These modern Demetriuses having near and allied with them a certain weakly journal, hungry for something to supply the constant necessity to fill its columns, at once find a medium for their clamour. As in the ancient case, so in this modern one, the accusation brought is impossible of proof, as being quite wide of the truth. "Great are the Trent River works," is the burden of the cry; but as no one has proceeded to overthrow or even speak against this goddess of theirs, the about is sure to prove as abortive as the two hours tumult at Ephesus.

The Trent River works may be truly great—transcendently important—in the eyes of those who wish to raise the disturbance, but even though others cannot see with their eyes and feel the same personal interest they do, no one desires to do them an injustice. Yet they accuse the late Premier of the Dominion of too suddenly giving the care of their idol over to quite competent hands, they blame the Provincial Government for accepting the responsibility, and they even particularize one supporter of the Ontario Ministry in the House, Mr. Ferris, of bringing the transfer about for his own particular advantage, political and pecuniary. As for the suddenness, the matter has been under discussion these ten years, and not only the late Reform Government, but that of Sir John Macdonald before it, urged Ontario to assume control of these works. This great desire of the Dominion Ministers, Tory as well as Grit, was unfulfilled by the refusal of the Provincial administration to take the works, till Mr. Mackenzie indused the Mowat Government to accede to the request. The disadvantage of the matter being in obeyance so long is well understood by those urged improvements in the works, for the almost invariable reply to such petitions was the statement, that a transfer to the Local Government was in contemplation. Such an answer was quite common when Sir John Macdonald was formerly in power. The Dominion would not build the Lindsay Lock, nor that at Young's Point, and Messrs Perry and Grover had great difficulty in getting the Whitlaw works repaired. The reader who would learn more of the somewhat ancient history of this matter, is respectfully referred to the Report of the Minister of Public Works for 1866, and to the Consolidated Statutes, Schedule A., and as far in the research there opened up as his interest in the greatness of the Trent River works will lead him. Quite enough has been said to show that Mr. Mackenzie in obtaining the consent of the Provincial Government to assume these works, was only carrying out an old idea, approved of for years by Conservatives and Reformers alike.

The Mowat Ministry in accepting the works could hope for no advantage, political or otherwise. The long refusal shows plainly that there was a doubtful advantage, rather than a benefit in the case. But already the Province has control over works in connection with those transferred and knowing as we do, the disadvantages that have arisen from separate jurisdictions along the navigable line, we can understand the public advantages of having the whole chain in the hands of one administration. Mr. Bolster the Dominion Superintendent, in his last report was so fully cognizant of the trouble we have mentioned, that he even went so far as to "protest strongly" against the repudiation of certain works the jurisdiction of the Local Government, and which are necessary to connect the other constructions [illegible] as an "outlying [illegible] Account." These works [illegible] Government as a grim satire on their own fraudulent pretensions. They were to have dispelled the depression of trade: but they have only deepened the cloud, and increased the bewilderment and trouble of the distressed people. They preached "Canada for the Canadians," and the expenditure of our money within our own border. But they have caused an abnormal importation of heavy consignments of foreign goods that cannot readily, if at all, be disposed of, except at a ruinous sacrifice. Yet these importations will have to be paid for; and that too by a forced and unnatural drainage of money from Canada, that the country particularly at this juncture, can ill afford to suffer. Foreseeing all this, were not the Reform papers more than justified in their demands for the prompt introduction of the government's policy, which, however bad it may prove *per se*, is still worse as an indefinable ghost that frightens the commercial community, and paralizes all business enterprise? Delays are proverbially dangerous; but delay in a case like this is positively criminal,—the more so that there has been no just cause for it beyond the paltry exigencies of party patch-work, which have been preferred beyond even slight consideration for the national welfare. A sad misnomer to call this a "National Policy."

THE ACT RESPECTING GRAND JURIES.

The Legislative Assembly read a third time on Saturday and passed the following Bill respecting Grand Juries:—

1. The provisions in the [illegible] for the purpose of [illegible] Grand Juries [illegible] shall not apply to the County of [illegible] and the Grand Juries [illegible] shall be selected [illegible] as heretofore.

by got to take the whole system, therefore it is better that the Province should. Of course the Ontario Government will enquire into their title, to see that it is quite valid, ere they take hold of the works. In the meantime a certain amount has been placed in the Provincial estimates for these works, and should the title prove all right the same care will be exercised in dealing with the new acquisition as has been shown on other navigable works under the Ontario Ministry. So far from the works suffering, therefore, they are likely to be benefitted by the transfer.

The personal motives imputed to Mr. Ferris, M.P.P., *are as illogical* and absurd as the rest of the howl of the Demetrian demagogues. Mr. Ferris may have been an advocate of the transfer; and he might reasonably have been on the grounds stated above. We do not know, however, but we do know that so far from being "the originator of the job," as stated, the transfer was proposed and urged on the Provincial Government years before Mr. Ferris was in Parliament. Furthermore, we are informed, that Mr. Ferris has not an acre of land between Chisholm's and Percy Landing. But it is urged that Mr. Ferris will promise the reclamation of lands by the removal of dams in order to gain votes among his constituents. How many votes could thus be got? The *onus* presupposes the votes of Conservatives, which is not complimentary to the Tory friends of those who advance it. But the fact is that the most of the lands submerged by reason of the Trent River works belong to the Government, hence the outcry about political influence is an utter absurdity. Neither Mr. Ferris, nor any other single member of the House could remove dams as he saw fit, and even if the government in the interest of the many as opposed to the few should remove any of the works, any who may suffer damage have a means of redress. Those who think Mr. Ferris can use this cry must surely deem it a popular one, that they fear it so much. Why then cannot his opponent, whoever he may be, use the same promises? It is as equally good campaign dodge for the Tory as for the Grit. In neither case could it avail much unless it had some basis of reason, and it is just this possible basis which evidently troubles certain people in this region who deem their "craft is in danger." If there be no such basis, then they have no basis whatever for their complaints.

THE COMMERCIAL CONSEQUENCE.

Long ago we pointed out the necessary effect of the delay of the Dominion Government in bringing down their fiscal policy. The uncertainty that has prevailed ever since the new Ministry took office, now tells very severely in the larger commercial centres, and is consequently felt to a greater or less extent throughout the whole Dominion. In short those who were, according to their own election boasting, to lift the country out of the slough of depression, have done the very opposite by deranging business in every direction. The commercial columns of the Montreal *Witness* the other day, contained the following:

"During the past week the wholesale trade has been extremely quiet in all its branches. There is a great feeling of discontent among merchants of less pronounced political stamp because of the delay in finally settling and making known the tariff changes. Wholesalers and retailers prepared for the change some weeks ago, and since there has been little doing as the former do not wish to push until after the changes are known."

Now a paper like the *Witness* is not likely to weaken the effect of its utterances on trade affairs, by permitting the introduction of anything like political purpose into them; but that will not hinder the ultra-Tory press from bringing even that absurd charge. We, therefore, give another quotation from a journal which cannot be accused of any party feeling against the Ministry. The Montreal *Gazette*, a journal undoubtedly Tory and Protectionist, has this reference:

"Anticipating tariff changes, the dry-goods merchants along the line of the Grand Trunk Railway from Toronto to Sarnia, and along the Great Western Railway, Canada Southern, and Air Line have done a very foolish thing in stocking themselves for a year or more with American cottons. The evil does not rest alone in the fact that these goods will remain for many months on the shelves and may become a burden to them, as there is the aggravation of the cottons having been bought with cash which should have been remitted to our own importers; but, instead of paying their creditors and the Canadian importers, these retailers have devoted large sums of money to the purchase of American cottons, and will ask our wholesale merchants to renew the notes when they become due."

The same causes that produced this effect in the dry-goods trade have been operating in all other branches. The bad consequences are incalculable, and will not be known, if ever, till the chain of adverse circumstances adds link after link to the slavery of business men, and failure after failure gives work to the scores of new assignees so appointed by the new Government as a grim satire on their own

MR. SCOTT,—HIS ORGAN AND HIS INDEMNITY.

The organ of Mr. Scott is in a bad way by reason of that gentleman's connection with the "Salary Grab," and still meanders through a column of its weekly edition in an attempt to free its idol and his Tory colleagues in the House, by a pretence that the Ministry is entirely responsible. In a late issue we explained the precedure in regard to votes in Supply, such as is the sessional allowance to members, and thereby drew aside the thin veil with which the *Review* sought to shield Mr. Scott from a responsibility he *himself* has not denied. The dishonesty of the *Review* is further shown by its puerile criticism of our late article, in pretending to understand us as referring to the gross amount of the yearly estimates, instead of speaking, as we did, of the particular item of membership indemnity, increased in committee from $600 to $800, with the consent and by the aid of Mr. Scott, M. P.P., for West Peterboro'. We have not denied the general principle of Ministerial responsibility in public expenditure; neither have we tried, as our contemporary has done, to misrepresent it. No matter with whom the technical responsibility rests, it is well known, possibly even to *Review* readers that with the Legislature, collectively and individually, remains the actual making of changes in Acts, of whatever sort. If then, exception be taken to any change made, as, for instance, the increase of indemnity, the imputation of blame must rest on *every* member who either supported or did not decidedly oppose such change. Mr. Scott's position on this matter is, that he not only did not oppose the increase, but actually raised his voice in the House in favor of it. For the comfort and credit of Mr. Scott, then, the *Review* had better let this question rest, than to be continually stirring the puddle; for though it may think it is aiding him, its clumsy zeal can only result in his disadvantage. No matter how the "Salary Grab" is looked at, every standpoint shows Mr. Scott as a partisan pleader, and an inconsistent representative.

Mr. Hilliard's Resolution.

We have been so often asked for the full particulars of the resolution moved by Mr. Hilliard at the Lumberman's meeting, that we deem it advisable to give the resolution in full, which was passed at a meeting of the Lumbermen of Peterborough, held in the Huffman House, on Monday evening, Feb. 3rd, to take into consideration what steps should be taken to represent to the Government the interests of the trade in the matter of any contemplated tariff changes:—

"It was moved by Mr. Hilliard, and seconded by Mr. Ullyott, that a deputation be appointed to represent the Peterborough Lumber trade, to go to the meeting of the Lumbermen of the Dominion, to be held at Ottawa on the 11th inst., to consider the contemplated changes in the new tariff, and that the deputation be authorized to use their efforts to have the influence of the meeting represented to the Finance Minister, in favor of *no changes being made in the tariff which will interfere with, or raise the cost of the production of lumber and timber.*"

This is the resolution; we find no fault with; it we are prepared to endorse it, as it has been endorsed by nearly every lumberman in the Dominion—Conservative and Reformer alike. Lumbermen have been probably, the severest sufferers from continued depression in the United States. They have as a rule been cutting down their property for the last four or five years, and lost money on their operations. They are large purchasers of farm produce, requiring for their business nearly everything a farmer produces, and it is quite legitimate for lumbermen, we think they have a perfect right, to see that they are not unfairly burdened by any changes in the tariff. They feel the full weight of all the duties levied on the merchandize and machinery used by them, and the cost comes directly out of their pocket, as they cannot pass the burden on to other shoulders like middlemen, and if a duty is levied on corn, oats, wheat, flour, &c., and an increased duty on pork, they no doubt feel it is a tax specially levelled at them, because whether these oats, flour, pork, &c., are dear or cheap, makes a great deal of difference to them in the cost of their product.

We have no quarrel with Mr. Hilliard the Lumberman, but we must condemn the conduct of Mr. Hilliard the representative of this constituency. Last September before the electors he declared for a duty of 10 cents per bushel on oats and corn, 20 cents per bushel on wheat, and $1 per barrel on flour, all of which he was then magnanimous to say he was *willing to pay*, even although it was pointed out to him by Mr. Bertram and others, that if prices were raised by these duties it would be to the detriment of the lumber business. Now when he is secure in his seat he is not willing to pay the extra duties: this may appear truant to some, any cry will do to gain an election, but ordinary every-day people, and especially those who voted for protection, will be somewhat inclined to call it—well, a political fraud. If conduct like this in public men is to pass unchallenged, it is an invitation by the elector to every trickster to come forward and try his luck as a candidate, the only qualification being who shall make the largest promise.

"GOING BACK ON HIMSELF."

If there is one thing more than another that should make Mr. W. H. Scott, M. P. P. extremely uncomfortable it is the attempted laudations of his Peterborough organ. Its latest essay in this line is claiming a triumph for Mr. Scott because Hon. Mr. Mowat has introduced a bill in which it is distinctly declared that "every Legislative Assembly continues for four years from the day for the return of the writ for Algoma." Now that is what Mr. Mowat contended all along to be the intention of the existing statutes; and what Mr. Scott argued against. How then, can there be anything like a triumph for Mr. Scott? The *Review* may be able by some sort of occult logic to twist the Attorney-General's further enunciation of the same idea into an appearance of "going back on himself," as it says; but ordinary minds cannot see anything but the utmost consistency in his action throughout the whole matter. The name can hardly be said of the *Review*'s idol, who in spite of his contention that there could be no legally constituted House after the 2nd of February, not only failed to bring in a resolution in support of his theorizing, but actually continued to sit, speak and vote in the Chamber, in the contradiction of his own pleadings. Mr. Scott plainly "comes back on himself."

P. S.—[illegible] to shout [illegible] the "Ole policy," for [illegible] the present Government has on the given no other clue to the significance of their [illegible] Scottish

EDITORIAL NOTES.

The Ontario Legislature was prorogued on Tuesday.

Guelph is to be made a city. Peterborough and its suburbs will probably come next.

The Conservative papers are generally careful to say nothing about their "National Policy."

Mr. John McLeod, M.P.P. West Durham, died at his residence in Bowmanville on Saturday evening last. The funeral took place yesterday and was largely attended.

Why don't our town-town contemporary publish the letter received from Mr. Hilliard, in regard to his opposition to the increase of duty on farm produce, or explain his double position?

In the Dominion Parliament on Tuesday afternoon, Mr. Tilley laid the Estimates for the year on the table. The Debate will come up on Friday. Notwithstanding the Governments profession of economy, and their arrangements of figures to show an apparent decrease. There is an actual increase.

Sir George Campbell has given notice that he intends asking Sir Stafford Northcote as a future day whether, if Canada adopts a protectionist policy at a time when England is striving against a similar policy by foreign Governments, Her Majesty's Government will consider it desirable to continue British connection with Canada.

West Peterborough.—The Whitby *Gazette* says:—We are pleased to notice that F. J. Bell, Esq., Deputy Reeve, of Smith, has received the nomination of the Reform party in West Peterborough. We have been intimately acquainted with him for nearly twelve years and feel sure that if elected he will make his mark as he is a man of sterling merit and solid judgement.

Isn't it somewhat strange that the Port Hope Tories, and particularly their journal, the *Times*, are so quiet on the matter of that "boy incapable" in their post office, of whom they cried so loudly at the time of his appointment. Has they become reconciled to his occupancy of the position; or cannot they agree as to which of them shall have it? Whatever the cause we have heard no complaints against his management of the office; and he no doubt has been watched with eager and hungry eyes, by those who were so violently opposed to his appointment in the first instance.

It was noticed by a number of Reform papers that the Napanee *Standard* (Tory *Protectionist*), published an article expressing disappointment with the tariff reference in the Speech from the Throne, at the opening of the Dominion Parliament. It is now argued by the Tory press that this was an evidence of journalistic freedom within their party. Well, granted that it was; how comes it that this was the single example of that freedom and independence of expression that should characterize every newspaper. On their own admission the Tory papers thus prove their utter slavery to party—there being but this one in Napanee that dare speak its mind.

THE ZULU WAR

The Isandula Disaster.

Only meagre accounts of the Isandula disaster have as yet come to hand. It appears, however, that on the 21st of January the main body of the British advance, under Lord Chelmsford, penetrated a considerable distance into Zululand, over 20 miles beyond Rorke's Drift, near which a camp had been established, with a convoy, consisting of 102 wagons, 1,400 oxen, 2 guns, 400 shot and shell, 1,200 rifles, 250,000 rounds of ammunition, and a rocket trough, the whole valued at $300,000. Ten miles beyond Rorke's Drift Lord Chelmsford left the convoy guard and advanced with the remainder of his forces some ten or twelve miles further into Zululand, "to look for the enemy," who, it afterwards turned out, were at the same time 20,000 strong. Lord Chelmsford being well out of the way, they fell upon the convoy. The British fought hard, and retreated gradually upon the camp and its valuable stores, thus getting the support of all their immediate forces. The Zulus fell fast before the deadly rifle; but they carried out their courageous tactics with a bravery which will not be forgotten when the historian comes to tell their story. To hurry an encounter to the death-struggle hand to hand, is the Zulu idea. They advance in a body, the men in the rear rushing into the gaps made in front by the enemy's fire. Then the men, with short knives and shields, sling back their rifles and leap upon the foe. Those who are armed with spears break them off short and convert them into short swords. This is what happened at Isandula and the camp at Rorke's Drift. The overwhelming numbers of the Zulus, taking the troops at a moment when there seems to have been no opportunity of availing themselves of entrenchments or barricades, enabled them to overpower the red-coats. The British, both officers and men, fought and fell where they stood, each of them, however, slaying his two or three to one in the unequal fight. The colours of the regiment and the stores fell to the victors, who thus came into possession of valuable weapons and ammunition, which they could also show to possible allies as inducement to join them. Not less than 51 British officers and 570 men lay dead in the sacked camp before the Zulus carried off the spoils. In the meanwhile Lord Chelmsford was still "looking for the enemy!" When it was all over the news reached him, and he hastened back, to discover that the force he had left in his rear had been annihilated. The Zulus had not held the camp, but had carried off literally everything, that made it a camp. It was an awful scene of slaughter. There was not a living soul in it. There were no wounded to hand and succour. Quarter had neither been asked nor given. Black and white lay together in the death-grip. Both had fought with equal courage and desperation. The sturdy Englishman had met in the athletic Zulu a foeman worthy of his steel. The undernated savage had shown himself a creature upon whom drill and discipline may be as effective in the direction of natural courage as on Europeans. Lord Chelmsford encamped among the dead, making dispositions to meet any renewed attack.

ANOTHER ATTACK OF THE BRITISH.

Capetown, Feb. 18.—The attack that has been so long anticipated was made upon Col. Pearson's command at Ekowe. He was set upon by a large force of Zulus, but after a hot fight the enemy was defeated with enormous loss and pursued to Inhadebie, one of the Zulu military kraals. Col. Wood reports that he captured a large number of cattle. The health of his troops is good.

The attitude of the native tribes in the Transvaal is disquieting. Apparently given confidence by the triumph of the Zulus in their successful attack on the British forces, the chiefs are forming a league it is feared against the English power.

Lisbon, March 8.—A correspondent at Queenstown says Col. Pearson, after repulsing the Zulu attack on February 20th, entered Etonwini. A despatch from Khambula, dated February 24th, says Col. Wood is attacking the Zulu Colenso position, and hopes the latter will soon fall. All hope of a successful issue of Lord Chelmsford's campaign has vanished. The outbreak in Zululand has extended to Basutoland. The chief Sekukuni has declared war against the Boers. The Basutos are reported to be marching on Pretoria. The Boers are concentrating their forces to meet the attack. The Basutos are reported to be marching on Pretoria. The Boers are concentrating their forces to meet the attack. It is reported that Cetewayo has offered to surrender, if

A Marriage in Prison.

Woodstock, March 8.—Mr. Joseph Miller, who is confined in gaol, awaiting his trial at the coming Assizes, charged with attempting to procure an abortion upon Miss Marah Bond, of Norwich, was married to the young lady by the Rev. Mr. Cookman, of Norwich. The ceremony took place within the gaol, and was witnessed by the gaol officials. After they were made man and wife the bridegroom was again placed in his cell, and the bride returned to her home in Norwich.

LINDSAY.

Railway Accident.—There was a bad smash on the Whitby Port Perry and Lindsay Railway on Tuesday. The morning train going north went off the track at what is called the "Big Dump" between Myrtle and Manchester, and five cars tumbled down the embankment. Frank Higgins, mail clerk, Sam. McCaw, conductor, and A. T. Trenouth, express messenger, were injured, and had a miraculous escape from instant death. The mail car had to be broken in and young Higgins taken out, and only just in time to save his life, for the car had caught fire and was filled with smoke to suffocation. McCaw is laid up in Port Perry, Trenouth was taken to his people in Lindsay, and Higgins was brought home to Whitby. All are doing favorably under the care of doctors. The track was soon cleared and cars put on again, and traffic is uninterrupted. A broken rail caused the accident.

Market Fees.—The Lindsay market tolls were sold on Monday last to Mr. Jas. Shannon, of Ops, for $480. Mr. John Doherty pays $1,317 for the Peterborough market tolls.

Vital Statistics.—The number of registrations made with the Town Clerk for the month of February were:—Births, 5; Marriages, 1; Deaths, 2. During the same period there were 26 Births, 6 Marriages and 16 Deaths registered with the Town Clerk of Peterborough.—*Warder.*

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Curative Power.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

Dear Sir,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I consulted it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from [illegible] long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not had any illness until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister,
Fort Elgin, Ont., Aug. 24, 1878.

Ask for Dr. Harding's Constitutional Catarrh Remedy and take no other.

T. J. B. HARDING, Dominion Agent Brockville, Ontario.

For sale by all Druggists at only $1 per Bottle.

The Examiner.

PETERBOROUGH, MARCH 13, 1879.

LOCAL NEWS.

For Farmers.—Those in need of choice samples of wheat, peas, oats and barley should read Mr. McBains advertisement in another column. He has also on hand a lot of Fresh Ground Land Plaster, and Best Goderich Salt, which will be sold cheap. 10-4tas

"Young Scientist."—We have received a copy of the *Young Scientist*, a journal devoted to amateurs, containing scientific experiments and other matter dear to the heart of the scientific boy. It is nicely printed, the information is useful, and comes at only 25 cents per year. Published monthly. Address 176 Broadway, New York.

Gluing.—The snow is melting steadily but rapidly day by day, and the next sensation will probably be the break-up of the ice on the river. People generally take a despondent view of this eventuality, but according to th French proverb, "it is always the unexpected that happens." So we may hope, if we dare scarcely expect, that the ice will be got rid of without its doing much damage.

Scene on the Market.—' How much do you ask for that goose ?' inquired a customer of a market-woman. Seven shillings for the two,' replied the woman. ' But I want only one,' said the customer. ' I can't help it,' answered the woman ; I ain't a-goin' to sell one without the other. To my certain knowledge them 'ere geese have been together for more'n thirteen years, and I ain't a-goin to be so unfeelin' as to separate 'em now.'

Maple Sugar.—An exchange offers the following advice on this subject :—In making maple sugar, the season for which is at hand, it is of the first importance in the management of a sugar bush to preserve the trees from needless injury. Hence the old plan of hacking with an axe must be avoided. Use a half or three-quarters of an inch augur. There is no need of any further incision for the spile or spout. A pipe fitted to the augur hole is all sufficient. Sap is best boiled down in large, flat, shallow pans, managed in such a manner that the sap flows gradually from point to point, and is boiled to the sugaring-off stage by the time it ends the course of pans.

Insolvent Examinations.—Considerable interest was taken in the order made by His Honor the Judge of the County Court of Middlesex some weeks ago, on an application by an assignee to compel the insolvent to deliver up as part of his assets a valuable gold watch, which he carried on his person. In that case it appeared that the assets were very small in comparison with the liabilities, that the time given in question was worth about $100, and that it had been purchased but a comparatively short time before the insolvency. Under these circumstances the Judge ordered it to be delivered up to the assignee as part of the assets, holding that it was not an article of necessary or ordinary wearing apparel within the exemptions allowed by the Act to be retained by insolvents for their personal use.

Weights and Measures.—Every family should be furnished with scales and weights, as well as wooden measures, but as many have not got them we give below a few measures which will be found convenient :—

A heat sixty drops of any thin liquid will fill a common sized teaspoon.

Four tablespoonfuls, or half a gill, will fill a common sized wine-glass.

Four wine-glasses will fill a half-pint measure, a common tumbler, or a large coffee-cup.

Two cups usually weigh one pound before they are broken. Eight large eggs will weigh one pound.

A tablespoonful of salt will weigh about one ounce.

One pint of water or milk will weigh one pound.

One pint of molasses will weigh one and one-quarter pounds.

Three teaspoonfuls of baking powder should weigh one ounce.

One quart of flour weighs one pound.

One quart of Indian meal weighs one and a quarter pounds.

Kindly Living Ago.—The numbers of *The Living Age* for the weeks ending March 1st and 8th respectively, contain "Austrian Railways," *Macmillan's Magazine*; "Mental Physiology," *Edinburgh Review*; "Alison Lottaries," *Cornhill*; "The Professed Letterers," *Temple Bar*; "The Polish Alps," *Cornhill*; "Daniel Stanhope," *British Quarterly*; "Diderot's Plays," *Saturday Review*; "Music and Science," "Railway Rates, the Times Review," *Chambers's Journal*; "Beyond Piers," *Spectator*; "Sir Joshua on Reynolds," "Sound Pipes," by Sir Charles Wheatstone, F.R.S., *Nature*; "Ivy," by Mrs. Oliphant, complete in this number, and "Mr. Gilfil's Love Story," by George Eliot, commenced in this number. Specimen numbers will be sent gratuitously to any one who has not seen the publication, on receipt of postage, 15 cents. The terms of subscription are $8 per annum, or $4 for six months. Remittances may be made at our risk. Address, Littell & Gay, Boston.

Children's Pinafores Very Neat.

Locomotive Overturned.—A locomotive on the Grand Trunk Railway, while shunting cars at Brockville on Saturday afternoon, was overturned by coming in contact with a car which was standing on a switch. The engine was not much damaged, and was soon replaced on the track. The car was also replaced without much trouble.

Licenses Granted.—The following are the names of those to whom licenses were granted by the West Riding Commissioners, at a meeting held by that body on Friday evening last. The licenses extend to the 1st of May :—

Hotel Licenses.—T. Cavanagh, W. Croft, R. W. Reid, J. Wilson, S. Phelps, M. Halpin, Jos. Brault, A. P. Morgan, A. Bastman, J. Sellers, T. G. Chenie, R. Parsor, W. Chamberlain and W. Reid.

Stores.—John Garvey, J. Hogan & Co., John Cameron, Rusk, Elliott & Morrow, (two licenses) G. L. Mitchell, and Georgo Schneider.

Church Notes.—The special services are being continued in the Baptist Church this week :—Rev. W. J. Wallace on Sunday evening preached a very effective sermon on Piety at Home, in the George-street Methodist Church :——Rev. J. W. R. took on Sunday evening and delivered in very able sermon on Church Government, referring more particularly to the proceedings at the late Synod.——On account of the inclemency of the weather, Rev. Mr. Torrance postponed the delivery of his sermon "The First Resurrection."

A Curler's Joke.—The Scotch colony at Wimbledon, during the frosty weather which has recently prevailed in England, has been enjoying itself at curling. Upon a recent occasion, says the London *World*, a keen curler and a true son of Scotia let off a rather good specimen of "wut," on losing a game owing to the bad play of his partner, who happened to be a Sassenach. Turning on him with a sardonic grin, the Scotchman remarked, "Eh, mann, yee'll ne'er mak' a curler in this wearrld, and you'll ne'er see loo in the next."

Ho! for Manitoba.—Mr. Thos. Menzies has concluded arrangements with the Grand Trunk Railway to start special cars, both for passengers, live stock and household goods, on Wednesday, 26th of March, from Peterborough through by special train from Port Hope to St. Bonaface, opposite Winnipeg. From the nature of the arrangements much of the annoyance and delay will be obviated and the trip made in about three days and a half. Full particulars can be obtained from Mr. Menzies, who is going especial by or rates—the larger the party, the more favorable the terms.

Press Grievances.—As nearly all other industries are sending deputations to Ottawa, asking protection from the Government, why not printers press their claims for fair play? The Mitchell *Advocate* suggests that a deputation be appointed to go to Ottawa and demand the following changes : That every man be compelled to take a newspaper ; prepayment of subscription to be compulsory, or, in default, imprisonment in the common jail for one year, with hard labor ; no paper to be published in a town with a less population than 5,000 ; cheating the printer to be a capital offence ; and that no man over six feet in height be allowed to run a hand press.

Complimentary Supper.—A number of the friends of Mr. Wm. McCrone, (who has been for several months in the employ of Mr. Elder, dry goods merchant) entertained him to a farewell supper, at the Croft House, on Thursday evening last, prior to his removal to Toronto. The spread was an excellent one, and all that could be desired. The cover being removed the usual toasts were given and responded to, and a thoroughly enjoyable evening spent. Mr. McCrone has, during his short residence in Peterborough, by that genial bearing which distinguishes him, made a host of warm friends, by whom he will not readily be forgotten, and whose well-wishes attend him in his new sphere.

Robert Burns Confess.—This popular Scottish vocalist and humorist will re-visit Peterborough next week, giving one of his enjoyable entertainments in the Opera House on Tuesday evening. From among a number of very flattering press notices before us we take the following from the Port Hope *Times* of a recent date :—

"The talented gentleman carried out his programme fully up to the expectations of the audience ; his rendering of Scottish Melodies was sweet and pathetic, and he is one of the few singers we have noticed to the Scottish Poet. During the evening, he favored his hearers with various National Songs. The Death of Nelson, &c., &c., was finally rendered. "Tom Bowling" brought out cheer after cheer, and some could help but feel thoroughly moved with his stirring tones in "Bonnie Annie Laurie." Altogether Mr. Corbett has given a great treat to Port Hope and, as he thinks of returning in the Fall of this year, we feel sure everyone who was present on Monday last, will be eager to enjoy not only his Scottish Songs, but also those of England and the Emerald Isle."

Templeton's Salon.—The following sales are announced by Mr. Chas. Singleton, Auctioneer :

Tuesday, March 18th, important sale of horses, cattle and implements belonging to Mrs. Sarah Hamblin, Lot 26, in the 2nd Concession of Douro. Sale to commence at 11 o'clock.

Saturday, March 15.—General Sale at his Auction Room, of dry goods, new and second hand furniture, horses, harness, &c., &c., at 11 a.m.

Monday, March 17.—Mortgage Sale of house and lot on Harvey street, opposite Briton's Cooper Shop, known as the Martin property ; to be sold at Cavanagh's Hotel, at 2 p.m.

Monday, March 17.—Auction Sale of brick house and lot on George street, opposite Bowell's Brewery, and next to the residence of Mr. Aaron Countach, owned by Mrs. P. O. Sale at 2 o'clock.

Tuesday, 25th of March.—Unreserved credit sale of farm stock and implements, belonging to Mr. Matthew Walton, Lot No. 6, in the 12th Concession of North Monaghan. Sale at 11 o'clock.

The Canadian Monthly.—The March number of Rose-Belford's Magazine opens with an account of "Nelson at Quebec," an interesting episode in the life of the great Admiral. There is an abundance of fiction comprising instalment of novels by Wilkie Collins, James Payne, and Walter Besant and James Rice, whose joint tale, "The Monks of Thelema," is drawing near the climax. Mr. Bourinot contributes an interesting parliamentary study under the title of "Forms and Usages." Mr. John Read pays a grateful public tribute to the memory of Charles Sangster, and there are several other pleasing poems. Mr. James Whitman discusses "The Confederation of Canada with Britain in relation to the Canada Pacific Railway." The Rev. Mr. Mellon, in "Wealth and its Uses," contemplates the subject from a standpoint very different from that usually taken. The third "Paper by a Bystander," is an ably written one, those preceding it, as our readers have already learned from several extracts which we have published. In "Round the Table," correspondents deal with the subjects of household decoration and the forming in of gardens. Current literature is reviewed.

Spend Your Money at Home.—The following excellent advice, which we find in an exchange, we judge not to be entirely inapplicable to ourselves :—It is your home ; you cannot live upon it much by taking your money away to spend or invest. There is no way of improving a town so much as by encouraging good mercantile establishments, and all people to contribute to them, and this means to those unless you spend your money at home. Spend your money at home, for that is where your gold is. Spend your money at home, for that is where your children will be educated. Spend your money at home, for that is where you will be found in sickness and old age. Spend your money at home, for that is where you will be buried. Spend your money at home, for that is where your heirs will squander it.

Peterborough Races.

A Successful Meeting—A Very Large Attendance—And Good Sport.

The annual winter meeting of the Peterborough Trotting Club came off on the ice on the [illegible] on Thursday and Friday last. The attendance both days was very good, especially the second day, when, it is estimated, there were between 4,000 and 5,000 people present. Both days proceedings were characterized by good sport, and orderly conduct, and the arrangements were carried throughout to a very successful issue, much credit being due to the very efficient committee and the judges. It is also worthy of mention that the Club allowed neither liquor on the ice, or pool selling in connection with the races. The following is a synopsis of each day's races :—

FIRST DAY.

Green Purse, $60.—There were six entries for this race, namely :—Mr. H. C. Winch's "Rufus," Mr. John White's "Bay Billy," Mr. E. Phelan's "Expression," Mr. Walker Walsh's "Charcoal," Mr. T. Cavanagh's "Lady Kate," Miss Newbalt's "Peterborough Girl ;" the last named being withdrawn after the second heat.

HEATS.

	1	2	3	4
Bay Billy	1	1	1	1
Rufus	2	2	2	2
Expression	3	3	3	3
Charcoal	4	4	4	4
Time	3.59	3.51	3.59	3.52

2.45 Trot, Purse, $80.—In this race the following horses were entered :—A. P. Morgan's "Sunrise," J. J. Rowland's "Bay Billy," Montgomery's "County Boy," and Sewell's "Silver Tail." This race was won in three straight heats by "Sunrise ;" "Bay Billy" coming in second, and "County Boy" third— "Silver Tail" being withdrawn after second heat. Time—2.55, 2.50 and 2.55.

The Dog Race, (Half Mile.)—In this event which created much sport four dogs were entered but only two came to the "mutch." Brownlee's entry by Whitely "Bob" ; Stevenson's entry by Whitely "Jim."

SECOND DAY.

2.40 Class, Purse $80.—The following horses were entered in this race :—"Sunrise," Trout ; "Grandma Day," Union Jack ; "Fox Grove," Stevenson ; "Bay Billy" and "Victor." The horses in this race were driven in two heats, and after the second heat the horses were withdrawn at the request of the owners, leaving the race over until to-day (Friday) when it will be finished.

Running Race.—Mile heats, best two in three, for $20 a side, between Mr. Thompson's "Bay Billy" and Mr. Sewell's "Silver Tail." Won by "Bay Billy" in two straight heats. Time—2.40, 2.39 and 2.38.

The Dominion Purse was not trotted for owing to Daniel's horse being withdrawn.

County Purse, $60.—In this race the following horses were entered :—H. C. Winch's "Boyce," D. G. Heathern's "Skip" "A. Sewer's "Silver Tail" and W. Hetherington's "Brown Barbet," and was won as follows :—

HEATS.

	1	2	3	4
Boyce	1	2	1	1
Brown Barbet	2	1	2	2
Silver Tail	3	4	4	3
Skip	4	3	3	0
Time	3.11½	3.07	3.06½	3.15

THE TOWN PRINTING.

More Outside Opinions—Proclaiming the Profession—Sense of Cheapness—The Height of Folly—The Corporation Fellowship-quest.

(From the Norwood Register.)

FULLY APPRECIATED.—The [illegible], by the proceedings of the various [illegible] Councils published in our County papers, that the children of the typographic order of our contemporary, the Peterborough *Times* are about as much appreciated abroad as they are at home ; for we see that Mr. Reynolds—who, we suppose, is the proprietor—in making application for the printing of the Township of the Counties, in no single instance, besides others to do printing at double prices than accepted. Now we have no desire to do the *Times* proprietor the least injury ; we wish him prosperity, but to acquire this he must mend his ways, at least as far as considering his business is concerned. Let him strive to esteem not prostitute, the noble profession to which he has allied himself, and not seek to injure his brethren of the press. In the words of the wise man of old,—whose counsel we would advise our friend to become more familiar with,—we would admonishingly say to him, ' Happy is the man that findeth wisdom, and the man that getteth understanding.'

(From the Cobourg Star.)

Essence of Cheapness.—They are having a big time about the town printing out in Peterborough, for which job the three journals of that town have tendered, but the Prince heads them all off by its exceedingly low tender. which is even too low to admit of the work being done in a manner which would be satisfactory to the Council and be a credit to the office in which it was executed. The office above mentioned agreed in its tender to do about bills at nineteen cents per hundred ; this is cheaper than the paper alone can be purchased for at the mills, to say nothing of the cost of freight, &c. This puts us in mind of a little incident that once occurred in a town where two dealers in brooms carried on business. No matter how low one would offer his brooms, he was sure to be undersold by his opponent ; both meeting one day, dealer No. 1 said to No. 2. ' I can't see how it is that you can afford to sell your brooms so much cheaper than I do mine, for, between you and I, I steal the material out of which to manufacture them.' No. 2, in answer said, ' I will tell you, between you and I, how I manage to do it ; I steal my brooms ready made.' And the only way we can see that the *Times* can afford to do work so cheap as mentioned in its tender, is by following the example of broom-dealer No. 2. The offices in this town can figure pretty low when it comes to the point, but Reynolds will sell them on figure so low as the price quoted in the Peterborough *Times* tender.

(From the Millbrook Messenger.)

For some time back, there has been a lively time between the printers of Peterborough, over the town printing. That is, the *Times* against the *Review* and Examiner. The publisher of the Examiner submitted his tender to Mr. Barr, of the Lindsay *Post*, and Messrs. Tuley & Co., of the *Review*, referred their tender to Mr. Tracy, of the Port Hope *Times*. Both these gentlemen are thorough first-class printers, and understand the business ; and both have stated that the tenders from the *Review* and Examiner offices, were, if anything on the low side. Having carefully read their replies, we most heartily endorse their decision. It is the height of folly for any man to undertake to do a job that he is going to lose by. For better let it alone. For our part, we make it a rule not to take any job, unless we feel satisfied that we can make a little by it. It is the only true and honest way to do business. We are not much mistaken if the Peterboro' Council consent to receive gratuitous printing from Mr. Robertson, or Mr. Any-body-else. It would if someone approached it to do anything of the kind. In many places, rather than grind the printer down to ruinous prices, in order to encourage his enterprise, they grant him a bonus. We are rather inclined to think that our corporate friends in Peterborough will tell their public philanthropist that if he has anything to *give away*, to give it *directly* to the poor—not indirectly to the rich. And that the Council committee will see that those who need it most-ly shall be the recipients of Councillor Robertson's bounty.

BRIEF MENTION.

—The weather is very like spring.

—Excellent wash for the face—Water.

—Next year will be Leap Year, girls.

—A fare proposition—" Tickets, please."

—March is behaving very well thus far.

—Acknowledging the corn—a corn-cession.

—The boy with his spring marbles is to hand.

—Only five months to strawberry festival time.

—The charge of the Light Brigade—Gas bills.

—The astronomical spring begins on the 17th inst.

—Very few heroes are so awfully handsome off the stage.

—*It is feared that March will go out like an* exultive manageries.

—It is considered proper at this time to begin complaining of spring fever.

—As important question just now—"Shall I put away my skates for the season."

—Mr. Vennor has predicted a cold dip and heavy snowfall on or about the 15th, 16th, or 17th of this month.

—Love requires not so much proofs as expression of love. Love demands little else than the power to feel and to requit love.—(Richter.

—Probably the happiest combination in all this wide world, during these merry winter days, is *half a mince pie* with a boy around it.

—A man in London, England, has gone crazy because he could not ascertain why the tide ebbs and flows. This is a case of water on the brain.

—" Jane," he said, " *I think if you lifted your* foot away from the fire we might have some heat in the room." And they hadn't been married two years either.

—Let every man who is able to buy a farm upon which to bring up his sons, do so. It is on the farm that the best men, morally and intellectually, are turned out.

—There is a kind of physiognomy in the tides of books no less the faces of men, by which a skilful observer will as well know what to expect from one as the other.

—A young man who buries the course of life with elevated sentiments, unbending integrity, and unsleeping vigor, will sooner or later become eminent in some walk of life.

—A young lady was showing her friends how to cut the outside edge the other night on the rink. She landed—well we wont say where—but if that's the outside edge, we don't want any.

—Witty sayings are as easily lost as the pearls slipping off a broken string ; but a word of kindness is seldom spoken in vain. It is a seed which, even when dropped by chance, springs up as a flower.

—He who spends his life in accumulating knowledge which is never at spent to the wants of society is a literary miser. His gainings bear no interest, and he defrauds mankind of their just dues.

—" The Lord loveth a cheerful giver ;" but there's no use chucking a copper cent into the contribution-box loud enough to make the fabric on the back seat think the communion-service has tumbled off the altar.

—A man with a tremendous large mouth went to a dentist to have a tooth extracted. On opening his ponderous jaws, the doctor remarked that he needn't do it so wide, as he preferred standing outside to perform the operation.

—A dentist's advertisement of a new plugging machine says : " Its operations are swift, easy and beautiful, pleasant to the patient, like the humming-bird as it moves from flower to flower to absorb the sweet nectar."

—It is easier for a camel to pass through the eye of a needle than it is for a young woman in a fur-lined silk cloak to walk along without letting it flap open just a little, to show that the fur is more than mere border.

—Give me the friend who has the same love for me as I have, who is ready to " speak up" for me in the midst of enemies, and repeat what he considers my virtues as an offset to the failing they may rehearse, and who will hold fast to his faith in my truth and goodness in spite of defamation.

—A falsehood is the " worm in the bud." In the figure of the poet, the bud may open with the usual beauty and fragrance, so far as the eye can judge, and indeed the fruit may form, but at some point in the history of the flower or the fruit the injury by the worm will appear, and the hidden influence become evident and destructive

Not Deserving of Pity.

Dogmeat speculatrix, to whom money has no exchange value but pleasure,

Purposely will permit a dying by inches with dyspepsia and liver disease, when Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets are offered them for cure on the easiest possible terms.

A Tired Woman's Last Words.

Here lies an old woman who always was tired,
For she lived in a house where help was not hired;
Her last words on earth were, "Dear friends I am going
Where nothing ain't done, nor churning nor sewing.
And everything there will be just to my wishes,
For where they don't eat there's no washing of dishes.
I'll be where loved anthems will always be ringing,
But having no voice I'll get rid of the singing.
Don't mourn for me now, and don't mourn for me never,
For I'm going to do nothing for ever and ever."

A Medley.

'Twas 'After Twelve O'clock'—I stroll'd
Along the shore of 'Dublin Bay,
And, 'As I'd Nothing Else to Do,'
I paused to hear 'Two Bad Men' say:

"The Girl I Left Behind Me,' said
As we were 'Coming Thro' the Rye,'
You are 'A Cross Old Bachelor'
And now 'Good-Bye, Sweetheart, Good-Bye.

"I've Something Sweet to Tell You,' sir,
Though 'Mother Says I Mustn't tell;'
But 'Champagne Charlie' he loves me,
He is 'As good as Gold.' 'Farewell,'

"Oh! Give Me Back My Heart!' I said,
Or, 'Pass Your Kiss Among the Boys,'
Will 'Stand Me on My Little Head,'
He loves you, 'Little Maggie May.

"Now, 'Maggie's Secret,' I must learn;
I must not 'Tell the Maiden's Prayer,'
Else you 'My Mother's Wedding Ring'
She is a 'Dark-eyed Girl.' 'Beware!'

"And I, also 'Tramp! Tramp! Tramp!' 'Tramp!'
'Why Do I Love Thee,' 'Nancy Lee?'
'Grandma's Advice,' take 'Emma Jane,'
So how' Can I Contented Be?'

'But' 'Kiss Me and I'll Go to Sleep,'
This 'Tempest of the Heart' forget,
And 'When the Swallows Homeward Fly,'
I think,' We May be Happy Yet!'

POMONA'S BRIDAL TRIP.

[Our subscribers who have read the former delightful sketches of life at Rudder Grange, will be glad to hear further from that quarter. Pomona, as they will remember, was the servant girl who was so full of dime novel fictions that she began to believe herself a disguised princess or some other yellow-covered literature heroine.]

Our life at Rudder Grange seemed to be in no way materially changed by my becoming a vestryman. The cow gave about as much milk as before, and the hens laid the usual number of eggs. Euphemia went to church with a little more of an air, perhaps, but as the wardens were never absent, and I was never, therefore, called upon to assist in taking up the collection, her sense of my position was not inordinately manifested.

For a year or two, indeed, there was no radical change in anything about Rudder Grange, except in Pomona. In her there was a change. She grew up.

She performed this feat quite suddenly. She was a young girl when she first came to us, and we had never considered her as anything else, when one evening she had a young man to see her. Then we knew she had grown up.

We made no objections to her visitors,—she had several, from time to time,—' for,' said Euphemia, ' suppose my parents had objected to your visits.' I could not consider the mere possibility of anything like this, and we gave Pomona all the ordinary opportunities for entertaining her visitors. To tell the truth, I think we gave her more than the ordinary opportunities. I know that Euphemia would wait on herself to almost any extent, rather than call upon Pomona, when the latter was entertaining an evening visitor in the kitchen or on the back porch.

' Suppose my mother,' she once remarked, in answer to a mild remonstrance from me in regard to a circumstance of this nature—' suppose my mother had rushed into our presence when we were plighting our vows, and had told me to go down into the cellar and crack ice?'

It was of no use to talk to Euphemia on such subjects; she always had an answer ready.

' You don't want Pomona to go off and be married, do you?' I asked, one day as she was putting up some new muslin curtains in the kitchen. ' You seem to be helping her to do this all you can, and yet I don't know where on earth you will get another girl who will suit you so well.

' I don't know, either,' replied Euphemia, with a tack in her mouth, ' and I'm sure I don't want her to go. But neither do I want winter to come, or to have to wear spectacles; but I suppose both of these things will happen, whether I like it or not.'

For some time after this Pomona had very little company, and we began to think that there was no danger of any present matrimonial engagement on her part—a thought which was very gratifying to us, although we did not wish in any way to interfere with her prospects—when, one afternoon, she quietly went up into the village and was married.

Her husband was a tall young fellow, a son of a farmer in the country, who had occasionally been to see her, but whom she must have frequently met on her " afternoons out."

When Pomona came home and told us this news we were certainly well surprised.

' What on earth are we to do for a girl?' cried Euphemia.

' You're to have me till you can get another one,' said Pomona, quietly. ' I hope you don't think I'd go way, and leave you without anybody.'

' But a wife ought to go to her husband,' said Euphemia, ' especially so recent a bride. Why didn't you let me know all about it? I would have helped to fit you out. We would have given you the nicest kind of a little wedding.'

' I know that,' said Pomona; ' you're just good enough. But I didn't want to put you to all that trouble—right in preserving-time, too. An' he wanted it quiet, for he's awful backward about shows. An' as I'm to go to live with his folks—at least in a little house on the farm—I might as well stay here as anywhere, even if I didn't want to, for I can't go there till after frost.'

' Why not?' I asked.

' The chills and fever,' she said. ' They have it awful down in that valley. Why, he had a chill while we was doin' married, right at the bridal altar.'

' You don't say so!' exclaimed Euphemia. ' How dreadful!'

' Yes indeed,' said Pomona. ' He most 'a' forgot it was his chill-day, and he didn't take his quinine, and so it come on him just as we was a-promisin' to love an' protect. But he stuck it out, at the minister's house, and walked home by himself to finish his chill.'

' And you didn't go with him?' cried Euphemia indignantly.

' He said, no. It was better thus. He felt it weren't the right thing to mingle the agne with his marriage vows. He promised to take sixteen grains to-morrer, and so I come away. He'll be alright in a month or so, an' then we'll go an' keep house. You see it ain't likely I could help him any by goin' there an' gettin' it myself.'

' Pomona,' said Euphemia, ' this is dreadful. You ought to go and take a bridal tour and get him rid of them fearful chills.'

' I never thought of that,' said Pomona, her face lighting up wonderfully.

Now that Euphemia had fallen upon this happy [illegible] it was of course useless for me to attempt to [illegible] and put them into execution. [illegible] of a week, she had [illegible] Syracuse, and had started [illegible] a bridal tour. [illegible] nothing but the [illegible] could take [illegible] Utica, only [illegible] Albany, and [illegible] Niagara Falls. [illegible] at the [illegible] a quiet bridal tour about [illegible] a week, and [illegible] at the end of [illegible] Pomona [illegible] to her husband's [illegible] and [illegible] to her [illegible] and [illegible] to her [illegible] and [illegible] to her

Peterborough Examiner.

One Dollar Fifty per annum, in advance — "PROVE ALL THINGS—HOLD FAST THAT WHICH IS GOOD." — Two Dollars per annum if not paid in advance

VOLUME XXIV. THE PETERBOROUGH EXAMINER, THURSDAY, MARCH 20, 1879. NUMBER 12

The Examiner

Is Published every Thursday Morning at the Office George Street, Peterborough.

TERMS:—$1.50 per annum in advance. Postage paid by the Publisher.

J. R. STRATTON, PROPRIETOR.

TERMS OF ADVERTISING.

First insertion, per line 10cents; each subsequent insertion 5 cents.

CAUTION!

Whereas certain interested parties are by false representations seeking to injure my business and obtain my custom, this is to warn my customers and the public generally not to be misled by such representations. I am still doing business in Peterborough, and am opposed to none and Factory and Manufacturing business and cannot close my doors to none. All concerned may depend that I will be prosecuted to the full extent of the law.

Peterborough March 20th, 1879.

THE VERMILION SIGN.

From our Experience during the past year we discovered that numbers of people were unable to readily find our establishment, and as it has been our earnest endeavor at all times to accommodate and oblige our customers in every way possible, we decided to prevent this difficulty in future, and have now put up a sign different to any on the street. It is bright and cheerful, and as it stands out in bold contrast with all the other signs on the street, will be quickly seen by purchasers.

It is gratifying to know that our business is much ahead of what it was this same period last year, and we intend by keeping only first class goods, at reasonable prices; and, by due attention and respect to customers, to work up a business that will compare favourably with any of our large city stores.

THE SHADOW KISS.

"... sit in the bright, cosy parlor—
...y Lady Coquettish and I;
...h, I'd give the world for just one kiss,"
I more than half pleadingly sigh.

Then she roguishly metes me my answer:
"And I tell you, sir, once and for all,
You shall never kiss me till the wedding day,
Though you'd give twenty worlds, Mr. Saul!"

'Twas my fiftieth time to beseech it,
And her fiftieth time to decline,
And try as I would, I could coax her steel
No kiss from this maiden of mine.

So we sit in the cosy, bright parlor,
And she gossips of Lent and the ball,
While the light on the table behind us throws
Our shadows before and the wall.

"Now surely," I once again ply her,
"You could have no objection to this:
Look there on the wall, two shadows there be—
Let my shadow your shadow kiss.

"Very well," and we watch the performance
Of the profiles approaching eclipse;
In a second 'tis done—our shadows have met—
Our shadows and likewise our lips.

"*Sainte vitouche*, my object I have triumphed!"
And she tauntingly says "Not at all!
'Twas only a shadow kiss." Then she resumes
Her chat about Lent and the ball.
—[Courier-Journal.

Lines Addressed to the Electors of the East Riding.

For the Examiner.

Voting for a member, mind what you do,
And choose one who has your welfare in view;
One from among you that's very well known,
Who for uprightnness ye can rely on.
Whose manner is free and always discreet,
Alike unto all he chances to meet;
Whose goodness is real and not a pretence,
And blessed with the gift that's called common sense.

One who knows well how to trim up the land,
And likewise to work as well as command:
For until that such get to legislate,
Things never will be in a healthy state.
Farmers as a class they better should know,
The wants of the country than many who go;
Yes, know better how to economize,
Than some whose chief aim is hunting office.
More money's squandered by such gentlemen,
Than would in the country thousands sustain;
Yet time after time to the poll folks go,
And vote for such, tho' their roguery they know?
A chance of a farmer this time you have,
One, who we believe will not act the knave:
And one whom ye all may very well hazard,
Being a good member, Mr. T. Blezard.

A. G.

Otonabee, March 19th, 1879.

DOMINION PARLIAMENT.

WEDNESDAY.

In the House of Commons, Mr. Holton introduced a Bill to enable the Government of Quebec to construct a bridge for railway purposes across the Ottawa River above the Chaudiere Falls.

A number of returns relating to contracts for public works were laid on the table.

Mr. Landry resumed the debate on the motion proposing a censure on the Lieutenant-Governor of Quebec. For two hours and a half he quoted old documents, newspapers, constitutional and non-constitutional authorities, in fact everything and everybody in support of the motion.

Mr. Rinfret, the Liberal representative of Lotbiniere, Mr. Joly's constituency, in a brilliant speech in French, addressed the House for a brief period. As a French Canadian he urged on his fellow representatives not to assist in aiming such a serious blow as the motion proposed against the Federal system. The Lieutenant-Governor, he argued, had been tried and acquitted by the people of Quebec, and the passage of the proposed resolution would be an undue assumption of power by the Federal Parliament.

Mr. Mills argued from the constitutional phase of the question, and in his well-known calm and deliberate manner quoted authority after authority, proving that Mr. Letellier in dismissing the DeBoucherville Administration had not exceeded the powers attached to his office.

Mr. Hector Cameron contended that the decision of the people of Quebec was not upon the action of the Lieutenant-Governor of Quebec but upon the respective merits or demerits of the rival Provincial parties. He approved of the Government's course in regard to the motion. It was for the House to pass the censure, and the Executive to inflict the punishment.

Mr. M. C. Cameron claimed that if the motion were carried it would be in reality a vote of censure upon the Government for its not taking the initiative in this matter. A Lieutenant-Governor had the same power to dismiss his Ministers for acting unconstitutionally as the Queen had. He warned the majority that there could be a tyranny of a House of Commons as well as the tyranny of a Lieutenant-Governor.

THURSDAY.

A number of returns were brought down, and among the number the Order in Council and papers relative to the appointment of Mr. T. C. Patteson to the Postmastership of Toronto.

Mr. Mills introduced a Bill to provide for the transfer of lands in the territories of Canada.

The debate on the Letellier motion was resumed by Mr. T. White (Cardwell), who spoke for nearly two hours. He ridiculed Mr. Wm. MacDougall as the "independent, impartial, and judicial arbitrator" between the two great political parties.

Mr. Macdougall retorted that the hon. member himself had no right to speak for the people of Quebec, because he had to go to Ontario for a seat.

Mr. Huntington followed, and for over an hour spoke in his usual clear and forcible manner. Before the completion of the first sentence the Tory majority commenced their favorite tactics of interrupting, but were called to order by the Speaker. He criticised at some length the argument advanced in reply to the contention that it was in accordance with the genius of British law to try a man twice for one offence. The preceding hon. member had asserted that the Court was changed now, but surely the laws of a country were not changed with its judges? He twitted the Postmaster-General with not being permitted by the Premier to speak on this question. He warned the Quebec Conservative supporters of the Government that the Premier, as evidenced by this motion, had not forgotten his old love for legislative union, and aimed a blow at the autonomy of the Province of Quebec. He concluded by paying compliments to the ability and reputation of the Lieutenant-Governor and the Premier of Quebec.

Mr. Rykert spoke on the past history of the Reform party, and on every question not pertinent to that under discussion.

Mr. Laurier explained that last year there had been neither an appeal nor approval nor disapproval of Mr. Letellier's conduct by the Dominion Parliament, because it believed such an expression of opinion was unconstitutional. He contended that the Government had brought the question of the dismissal of Mr. Letellier before the House in order to [illegible]

aiming a blow at the Federal system, that system which had been adopted to meet the special and peculiar political exigencies of the Province of Quebec.

The Postmaster-General spoke in defence of the motion, and said that the Quebec Conservatives were those who really defended the liberties of the Province of Quebec.

Mr. Geoffrion criticised the Postmaster-General's statement that two members of the Quebec Legislature who had changed their politics had been bought. If a change of opinion was an evidence of purchase, then the Minister of Finance and Agriculture and over one-half of the followers of the Dominion Government were purchased.

The debate was adjourned at 11:30 p. m.

LONG COURTSHIPS.

There is a great deal to be said against long engagements, particularly by the lady interested, as it is she who must bear all the small annoyance caused by gossiping friends. "Why doesn't John marry Sarah!" asks Mrs. Grundy. "They've been engaged these five years. Evidently he's in no hurry to give up his freedom." These and other remarks come to Sarah's ears, and she finds her position a trying one. Indeed, many of the difficulties and quarrels of lovers are the results of a protracted betrothal. The state of the engaged can never be thoroughly satisfactory to them. They are kept in an exciting mood, which often breeds unfounded jealousies. They enjoy the bliss of loving and being loved, yet they are not quite sure that it is going to last. Somebody else may come along and capture the heart they so highly prize. Therefore engaged people are apt to change their vows frequently, both for the pleasure of listening to what they know already and to gain new assurance that they are first in each other's affections and immovably fixed there. This period of joy and trial may be extended for a reasonable time—four months, and even a year or two—but after that there is the danger of a break in the engagement which may be beyond healing. It is best for all parties concerned that marriage should follow an engagement as soon as possible. But if for any good reason an early marriage is not practicable, engaged people must me very patient with each other. If they are too exacting, and so much pre-occupied with their sentiments that they neglect their ordinary duties, they are apt to get into a morbid state, which will result in their estrangement. A long engagement, to reach a happy ending, must flow on in a peaceful course. Numerous quarrels will finally separate the most tender lovers.

Restoring Lost Fertility.

The one only practicable method of restoring soils that are more or less impoverished, if the question of remunerativeness is taken into account, is by a good rotation of crops, aided by barnyard manure. A correspondent of the *Country Gentleman* recommends the following rotation: Clover, corn, rye, oats, wheat. On this plan clover, which is both a crop and a manure, is brought close to a corn crop with which barn-yard manure should be applied. In most parts of Canada a crop of turnips is that with which barn-yard manure is applied, though we believe in many localities corn might be substituted, partially or wholly, with advantage. We should be inclined to put clover and manuring at the extreme ends of the rotation, and then it would be a mere matter of preference what the intermediate crops were. Clover is as good a preparation for a grain crop as corn or turnips duly manured. To grow corn after clover and then bring on three more grain crops would not be equally good farm practice with a system by which either clover or a manure crop is brought in among the grain. But any method by which both clover and manure are brought into a five years' rotation, will be found restorative and enriching, provided the clover is properly used. The way to get the most good from clover is to plough under the two-year-old roots. They are then at their best, both roots and leaves having done their utmost in the way of depositing plant food in and on the soil. If our farmers would adopt a course by which clover and manure were made the links of a rotation, with grain crops as nearly as possible equidistant, they would find it work well. Clover and manure are the two arms of strength to a farm, and which is the better arm of the two has never yet been demonstrated. Only keep them both at work with regularity and vigor, and the result will be good crops, and a steady maintenance of the fertility of the soil.

Sunshine Cleanings.

"Care to our coffin adds a nail, no doubt,
While every grin so merrie draws one out."

If we would only stop to think and transfer thoughts to actions what an amount of sunshine we might bring into our lives and ot those around us. How prone we are to murmur against our position and the controlling circumstances of our lives, when we ought to look at the other side—the bright side—and be joyously thankful that they are no worse than they are. Why can we not always have a bright smile for everybody, no matter how lowly their lives may be. It will not hurt us and a kindly look may bring joy to some lone heart weary with life's many cares. The remembrance of it may cause some despondent one to take heart again. There are many times in all our lives when a friendly smile is as a real bit of sunshine on the darkest day. Some have many a care, and unconsciously they often add the "coffin nail"—they forget to look for the bright side. But certainly it can make the burden no lighter to wear a gloomy, sad countenance, which can but cast a shadow on some other life, which might otherwise have been "gladly gay." Where the black, thundering clouds [illegible]

A Sensible Mother.

While I contend there is no real harm in a social game of cards, played at home, at the same time I admit there is nothing elevating or refining. I have a bright little boy, who came to me one day and asked if I had an objection to his learning to play euchre, (a pack had been presented by a boy friend.) I evaded the question by telling him I very much preferred he should learn to play the organ, (which, by the way, he does splendidly,) and thought his time could be spent more profitably. "Well, mamma, I suppose I must give it up, as I shall not play against your wishes at present, but I cannot see any harm in it, and some time I shall learn to play."

Perhaps you would say the child should have been punished, and taught obedience and respect to his parents, but I did not think of that. I saw, or I imagined I saw, away off in the dim future, a boy leaving his home, night after night, choosing his companions from the lowest grade of humanity. I tell you the prospect was far from inviting; on the contrary, it was, oh, so dark and dreary. When I saw the look of firm determination, I did not remain long undecided, but told him if he had fully resolved to learn, I knew of no better place than at home, and although not an expert, actually sat down, and instructed him as far as my knowledge extended. After that we had cards at morning, noon and night, or full as often as agreeable. It only lasted a couple of weeks when I heard him telling his little brother that he did not see much fun in euchre. I presume some will say, "The end is not yet," but at all events I feel easier in mind regarding that boy's future than if I had refused him the priviledge of *seeing* for himself.

Beecher's "Life of Christ."

The Beecher business is not by any means concluded. Even the main question, which has generally been accepted as settled, may come up again and be fought out before the courts. When Mr. Beecher contracted with J. B. Ford & Co., the publishers, to write a "Life of Christ," the agreement was that he should receive $10,000 down when he began the work and a fixed price per volume as each was completed. The first instalment was paid and the first volume written when the "scandal," as was irreverently remarked by one of the witnesses, knocked the work "higher than a kite." It is now alleged that Mr. Beecher refuses to refund the money or complete the work, and Mr. Samuel Wilkeson, the irreverent witness referred to, having bought out the right of the publishers, has at last concluded to act in the matter and endeavor to enforce whatever rights he had under the contract. By the action which he has brought he seeks to recover, not only the $10,000 advanced to Mr. Beecher, but also $30,000 to make good the amount expended by the firm of J. B. Ford & Co., in the purchase of plates, etc., as well as exemplary damages, in addition, for the breach of contract by Mr. Beecher. Under the last item it will of course be competent to show that Mr. Beecher rendered the work comparatively valueless by his own act; and the effort to prove this will open the whole conflict.

Analects of Confucius.

To be poor without murmuring is difficult.

To be rich without being proud is easy.

He who speaks without modesty will find it difficult to make his words good.

To have faults and not to reform them—that indeed should be pronounced having faults.

For one word a man is often deemed to be wise, and for one *word* he is often deemed to be foolish. We ought to be careful indeed of what we say.

He who is not in any particular office has nothing to do with plans for the administration of its duties.

When we see men of worth, we should think of equalling them; when we see men of a contrary character, we should turn inward and examine ourselves.

Do not anxiously hope for what has not yet come.

If you wish to know what most engages a man's thoughts, you have only to listen to his conversation.

A little impatience subverts great undertakings.

Every man sees the fault of others, but cannot discern his own.

Better not be than be nothing. True gold does not fear fire.

The full moon does not last, and the brightest cloud soon vanishes.

Grand Junction Railway.

(From the Campbellford Herald.)

The work of grading on the Grand Junction Railway between Campbellford and Hastings is to be continued at once. It is expected to begin to-day, Thursday. Operations will begin at this end of the line, on the river bank, at the west end of the bridge. The road will then be continued on the surveyed line through Mr. Johnson's lot, facing Queen street, and tap the base of the hill just behind the residence of Dr. Byam. From this point it will hug the hill and pass along at its base and cross Sebastopool street about fifty yards west of the residence of Mr. T. McKelvie. Tools necessary for grading purposes are arriving, and the workmen will first direct their attention to the cutting in the hill and the filling of the little swamp leading from Canrobert street. Mr. Bickford's agent called at our office, on Tuesday last, and he informs us that he is now in negotiation with the several parties interested, for the purchase of the right of way between this village and Hastings.

AMERICANISMS.

The foster sister of profanity is slang—just as senseless, just as useless, and almost as wicked—for a great many of the slang phrases used are by those who are too cowardly to use profane language, and therefore use something which approximates as closely as possible to it, saying "darn it" and other slight variations from the original, which in all probability satisfies their consciences, but which is as distasteful to the refined ear and mind as the other mode of expression.

Slang will be heard from the very young ladies whose you have just been admiring, until, like the reptiles of the olden fairy story, these words, or similar ones, have fallen from their lips and your admiration has turned to disgust. How it lowers woman from that high moral position which she should occupy to hear from her lips words and phrases which have their origin in the slums of society and on the boards of low concert halls and theatres, words that are vile and so utterly useless. What is pleasanter than to hear or read sentences in which no superfluous words are used, thoughts expressed in simple but beautiful language? A good deal of the [illegible]

ed up warning persons against obstructing the flow of water in the drain north of Dr. Kincaid's land in the 10th con., and empowering Eli Phili to carry out the same.—Carried. By-laws appointing Pound Keepers, Fence Viewers and Overseers of Highways, were finally passed. Pound Keepers appointed:—Wm. Laing, sr., Jas. Browne, Joseph Green sr., Joseph L. Walton. Fence Viewers:—W. Brownscombe, G. Rivington, R. Northcott, Chas. Brailey, G. Young, W. Collins, R. Patterson, Geo. Lockie, R. Thompson, J. Whitfield, G. Hoosy, and J. Campbell. Road Divisions and Overseers of Highways: Mr. Eyres, road division of 1878, No. 15, divided this year, Matthew J. Johnston having been appointed Path Master from Crawford's bridge to Simpson's, and Mr Eyres from thence to qr. line on the 9th con. A new road division formed from Bennett's corner to river road, Eli Phili, Path Master. Wm. Forster changed from road division No. 22 to No. 12, and appointed Path Master in place of John Harper. F. Sanderson, No. 9, in place of J. Lillico, deceased. Robt. Dunlop for No. 18, in place of G. Fowler. Israel Payne for No. 7, in place of Darcy Dunlop. Andrew Young for No. 23, in place of Wm. Fowler. Jos. L. Walton for No. 24, in place of Mat. Walton. Robt. Sanderson to perform his statute labor in road division No. 5. With the above changes the Pathmasters of 1878 were re-appointed. A By-law to amend By-law for the regulating of animals running at large, poundage, &c., in conformity with the Revised Consolidated Statutes of Ontario, was introduced by Councillor Forster, and read a first time. On the motion of Councillor Howden, Mr. Dobbin was heard before the council respecting a stone fence lately erected by him on the southern part of lot No. 5 in the 11th con., which appears by the survey of G. A. Stewart Esq., P. L. S., to be considerably on the public highway. An order was given for $2 in favor of Mrs. Bush for scrubbing and cleaning benches in town hall. On the motion of Councillor Leary the

The Examiner.

PETERBOROUGH, MARCH 20, 1879.

THE NEW TARIFF.

The new tariff was announced on Friday last; but owing to press of other engagements we have been unable to examine into its details with anything like fulness. We notice, however, that the chief increase of duties is on manufactured articles, in obedience, no doubt, to the closely pressed demands of the manufacturers' deputations, which have besieged the Finance Minister since his return from England. We have already dealt in general terms with the effect of the fiscal changes, by anticipation, on the trade of the country; with the largely increased importations; the looking up of money in them; and the sure results that must ensue from this overtrading. The first effect of protection to manufacturers will be to raise the prices to consumers, for the direct benefit of those who make the articles. This will last till increased competition begins to tell on the trade, when many of those who have put their capital into such ventures will suffer more than they ever did, or could have done by the limited foreign trade; and while the revenue will suffer, the locked-up capital will in many instances become non-productive. As an offset to the protection to manufacturers increased duties are placed on coal and iron. The must have the [illegible] who largely depend on those commodities for the carrying on of business. They will simply be forced to increase the prices of their manufactured articles to cover the advance in fuel and raw material. Thus the money will come out of the pockets of the many who have to buy such articles. The cotton and woolen trade is also largely protected by advances on the import duties on such articles. This is another dip into the purses of general consumers. But while woolen goods are thus protected, wool is admitted free—a manifested injustice to the farmers, who were led to expect protection at least equal to others. The agriculturist is made to pay more for his tools and clothing; but is denied any redress in the shape of a duty on wool. True, a pretence at agricultural protection is made; but what does it amount to? Simply nothing; as was quite inevitable. A duty on wheat and barley does not help the farmer, for the prices of these products depend on their export, the quantities sent out of the country being always enormously in excess of what has been imported by way of trade. The same may be said of cattle, cheese and other products of the farm. So that while heavy duties on these things will in no wise benefit the home producer, the imports must have the effect of injuring the profitable transportation trade carried on by Canada. A duty of fifty cents a barrel on flour is solely in the interests of the millers; and of no effect as far as the farmer is concerned. But a peculiar feature is, that the duty on wheat of fifteen cents amounts to 67½ cents on the barrel of flour ground in Canada, while only 50 cents on a barrel of imported flour, really gives an advantage of 17½ cents to the seller of flour over the Canadian miller. The duties on other breadstuffs will, however, raise the price of food, whereby the large proportion of the people who buy their supplies will suffer, as they will also do from the heavier duties on sugar, tea, coffee, &c. This will fall with unparalleled severity, so far as this country is concerned on the artisan and working classes, and those who depend on fixed salaries. The blow is dealt, too, by those who proposed to be friends of the workingmen! Next to the working classes, the lumbermen will suffer most by an increase in the cost of their supplies. The effect will be the embarrassment and probable ruin of a number of lumbering firms that were already struggling along with great difficulty. The whole tariff seems to be a piece of very clumsy patchwork; for while the whole country cannot benefit by putting money into the pockets of certain favored persons, all parts of the country, and all classes are burdened to a greater or less extent by the increased duties on articles of consumption. Thus while a fifty cents per ton on coal will not give Nova Scotia the Canadian market, the increased price of the necessary is a burden on Quebec and Ontario. In the same way the breadstuffs import will fall heavily on the maritime provinces. Under no possibility can direct trade be created between these eastern provinces and those in the west of the Dominion. Trade to contribute to disintegrate by the necessity of new calculations on the transfer of all commodities; and so it must be injured. Everybody who sells and buys, no matter when, will in part to some or less of vitally unpalatable trouble, while the burden in the end falls wholly on the producing classes as and consuming alike.

[illegible]

better able to judge for themselves, we arrange the items into groups, and give their comparisons. There are, on the list of enumerated articles, many that are of little importance to the general public, as they seldom or never enter into use. We, therefore, select those that the people are concerned about, and ask a careful examination of their condition under the new tariff:

	New Tariff	Old tariff
Agricultural implements not otherwise specified ad	20 p c	17½ p c
Animals, living, of all kind not elsewhere specified..	20 p c	10 p c
Arrowroot	20 p c	17½ p c
Blank books, bound or in sheets	25 p c	17½ p c
Brooms and Brushes	25 p c	17½ p c
Carriages, cars, railway carriages, wagonnes, sleighs and wheels or parts thereof	25 p c	17½ p c
Cement, raw or in stone, from the quarry, per ton, or 15 cubic feet, per ton	$1	free
Hydraulic or water lime, ground, including barrels, per barrel	40 cts	17½ p c
Hydraulic in bulk or in bags, per bushel	9 cts	17½ p c
Portland or Roman Cement, or parts thereof	25 p c	17½ p c
Copper in pigs	10 p c	free
Old and scrap	10 p c	17½ p c
Bone, rods, bolts, ingots, sheets, and planishing, not planished or coated	10 p c	free
Tubing, seamless drawn	15 p c	17½ p c
Wire, round or flat	10 p c	free
Rivets and burrs	25 p c	free
Manufactures of, not elsewhere specified	30 p c	17½ p c
Cordage for ships' purposes	15 p c	15 p c
All other	30 p c	17½ p c
Cotton, manufactures of viz:		
Grey or un-bleached cottons, sheetings, drills, duck, cotton or canton flannels, not stained, painted, or printed	3c per sq yd and 15 p c ad v	17½ p c
On all cotton jeans, denims drilling, ticks, tickings, ginghams, plaids, cotton or canton flannels, duck and drills, dyed or colored cottonades, pantaloon stuffs, and goods of like description	3c per sq yd and 15 p c ad v	17½ p c
On all cotton warding, batting, batts and wadge, carpet warps, knitting yarn, hosiery yarn, or other cotton yarns under number 60, not bleached, dyed, or colored	3c per lb. and 15 p c ad v.	10 p c
Ditto, if bleached, dyed, or colored	3c per lb. and 15 p c ad v.	10 p c
On cotton sewing thread in bundles	3c per lb. and 15 p c ad v.	10 p c
On cotton seamless hose	3c per lb. and 15 p c ad v.	17½ p c
Cotton sewing thread in bundles	15½ p c	17½ p c
On spools	20 p c	17½ p c
All manufactures of cotton not elsewhere specified	20 p c	17½ p c
Drain pipes and sewer pipes, glazed or unglazed	20 p c	free
Drain tile	20 p c	free
Earthenware and stoneware, brown or colored, and Hockingha rw are, cd colorea	25 p c	17½ p c
Earthware, white granite or iron stone ware and C C or cream colored ware	30 p c	17½ p c
Electro-plated and gilt wares of all kinds ad valorem	30 p c	17½ p c
Essences, viz., of apple, pear, pineapple, raspberry, strawberry, vanilla and other fruits per imperial gallon	$1.20 and 30 p c ad v.	17½ p c
Essential oils for manufacturing purposes	20 p c	12 p c
Excelsior for upholsterers use	20 p c	17½ p c
Fire-brick or tiles, for lining stoves or furnaces	20 p c	free
Fruit, dried, viz., apples, currants, dates, figs, plumbs prunes, raisins, and all other not elsewhere specified, per pound	1c	17½ p c
Fruit, green—apples per bbl	40c	17½ p c
Black berries, gooseberries, raspberries, and strawberries, per quart	3c	10 p c
Cherries and currants, per quart	1c	10 p c
Cranberries, plums, and quinces, per bushel	20c	10 p c
Grapes, per pound	1c	10 p c
Peaches, per bushel	40 cts	10 p c
Oranges and lemons ad val	20 p c	10 p c
Fruits in air tight cans not sweetened, including cans per pound	2 cts	10 p c
In air-tight cans, sweetened, including cans, per lb	2 cts	10 p c
Fruit preserved in brandy or other spirits, per imperial gallon	$1.20	$1.20
Furs viz., caps, hats, muffs, tippets, capes, coats, cloaks, and other manufactures of fur	25 p c	17½ p c
Furniture, household or cabinet	25 p c	17½ p c
Gas, coal oil, or kerosene fixtures and parts thereof	30 p c	17½ p c
Hubs, spokes, felloes, etc	20 p c	17½ p c
Do. manufactures of Leather	25 p c	17½ p c
Iron and manufactures of viz., old and scrap, per ton	$2	free
Pig, per ton	$3	free
In slabs, blooms, loops or billets, ad valorem	15½ p c	free
In bars, rolled or hammered, including flats, rounds and squares, band and hoop, sheet, smoothed or polished, coated or galvanized, and common or black boiler, and other plate, Canada plates or squares, nail and spike rods, and all other iron not otherwise provided for	17½ p c	mostly 5 p c
On rolled round wire rods in coils under ¼ an inch in diameter	10 p c	5 p c
On iron rails or railway bars for railways and tramways	15 p c	10 p c
On railway fish plates, frogs, cross points, chairs and finger bars	17½ p c	10 p c
On iron and steel wire not over No. 15, wire gauge	25 p c	5 p c
On tin plates	10 p c	5 p c
On castings in the rough	30 p c	17½ p c
On stoves and other finished castings	25 p c	17½ p c
Iron, sheets, smooth or polished, ad val., sheet, coated or galvanized, sheets common or black, ad val	17½ p c	5 p c
Rails, for railways, carriages locomotives, or for tramways or street Railways	15 p c	10 p c
Rolled round wire rods in coils under ¼ inch in diameter	10 p c	5 p c
All other iron not elsewhere specified	17½ p c	
Car wheels	25 p c	17½ p c
Railway fish plates, frogs, frog points, chairs, and finger bars	17½ p c	10 p c
Forging, wrought, for mills locomotives, or parts thereof, weighing 25 pounds or more	25 p c	17½ p c
Mill irons and mill cranks	25 p c	10 p c
Locomotive engines	25 p c	17½ p c
Locomotives, tires of steel or Bessemer, rough	10 p c	10 p c
Steam engines and boilers and other machinery of iron, or of which iron is the component part of chief value	25 p c	17½ p c
Boiler, tubing, drawn	10 p c	17½ p c
Horse shoes and nails	20 p c	17½ p c
Tacks, brads, spring	20 p c	17½ p c
Lead, pigs, block and bar	10 p c	free
Lead, old and scrap	10 p c	free
Lead, in sheets	10 p c	free
Lead pipe	20 p c	17½ p c
Lead shot	25 p c	17½ p c
Lead, other manufactures	25 p c	17½ p c
Leather, sole and belting, tanned and not waxed, and all upper leather	15 p c	10 p c
Do. dressed and waxed	20 p c	17½ p c
Leather, japanned, patent, or enamelled	20 p c	17½ p c
Leather, all other and skins tanned not otherwise specified	20 p c	17½ p c
Boots and shoes and other manufactures of leather and leather belting	35 p c	17½ p c
Boot and shoe counters, manufactured from leather board per pair	½ cent	
Marble in block, rough or sawn in two	10 p c	free
Marble, slabs only, not specially stamped, containing 15 cubic feet or over	10 p c	free
Marble slabs sawn on not more than two sides	15 p c	free
Marble blocks and slabs sawn on more than two sides	20 p c	free
Nails and spikes, cut, per pound	1c and 10 p c ad val	17½ p c
Nails wrought and pressed, galvanized or not, per lb.	1c and 10 p c ad val	17½ p c
Nails, composition and sheeting	20 p c	free
Oil, cod liver, medicinal	20 p c	17½ p c
Oil, lard	20 p c	17½ p c
Oil, linseed or flax	20 p c	17½ p c
Oil, machine	20 p c	17½ p c
Oil, olive or salad	20 p c	17½ p c
Oil, sesame seed	20 p c	17½ p c
Oil, sperm	20 p c	17½ p c
Oilcloth for floors, stamped, painted, or printed, not otherwise specified	25 p c	17½ p c
Pianofortes—All square pianofortes, whether round-cornered or not, over 7 octaves, each	$35	17½ p c
"—On all other square pianofortes	$20	17½ p c
"—On concert or semi-concert or parlor grand pianofortes	$40	17½ p c
"—Upright pianos	$25	17½ p c
"—In addition to the above specific duties, on the declared value of all pianofortes		10 p c
Plasters, viz., of common stone, per ton	$1	free
Lithographic stones not engraved	20 p c	free
Stone, viz., limestone, sandstone, unwrought marble, per ton of 13 cubic feet	$1 00	free
Stone, viz., limestone, sandstone, rough, per ton	$1 00	17½ p c
Stone, viz., limestone, sandstone, dressed	$2 00	free
Stoves, all other than cooking, parlor, office, and hall stoves, and all stoves for burning coal		
Cooking stoves for burning coal or wood		
Parlor, office, and hall stoves for burning coal or wood		
Tallow	20 p c	17½ p c
Tobacco, manufactured	35 p c	17½ p c
Cigars	35 p c	17½ p c
Snuff	35 p c	17½ p c
Trees, viz., fruit, forest, ornamental, and shrubs	20 p c	17½ p c
Vegetables, viz., potatoes per bushel	15 cts	10 p c
do. tomatoes	20 cts	10 p c
do. all other	20 p c	10 p c
Machines and machinery	25 p c	17½ p c
Clothing, ready made	25 p c	17½ p c
Mustard, ground	25 p c	17½ p c
Ornamental trees and shrubs	20 p c	10 p c

Plates, engraved on wood or on steel or other metal	20 p c	17½ p c
Platinum, manufactured	free	12½ p c
Playing cards	30 p c	30 p c
Salt for the fisheries	free	free
Salt—in bulk	8c per 100 lbs	free
Salt—in barrels, bags, and other packages	12c per 100 lbs	free
Seeds—Flower, garden and other seeds for agricultural purposes in bulk or in large parcels	15 p c	10 p c cwrrents free, 10 p c
Do. in small papers	25 p c	17½ p c
Scales, balances, and weighing beams	20 p c	17½ p c
Iron and steel wire not over No. 15	25 p c	5 p c

RIGHT ABOUT FACE.

We notice by the *Review* that Mr. Geo. Hilliard was one of a deputation who waited on the Finance Minister, and presented a petition signed by 34 Government supporters, praying that a duty of 20 cents per bushel be placed on wheat, one dollar per barrel on flour, ten cents per bushel on oats, fifteen cents per bushel on barley, ten to fifteen cents per bushel on corn, live stock, twenty per cent, and all cured meats, ten cents per pound. This request must have been highly edifying to Mr. Tilley, and if he took the trouble at all to think of the conduct of Mr. Hilliard, he must have wondered at the sudden right about face of that sapient supporter of his. First, Mr. Hilliard, as a lumberman, joins in a memorial, urging that no duties be placed on lumber supplies, of which wheat or flour, oats, corn and pork form a very considerable part. Then, along with 34 other members of the House of Commons, he again approaches the Finance Minister, this time petitioning for the very opposite of what he asked before. If this is a specimen of the deputations that waited on Mr. Tilley while he was hatching his tariff, no wonder it has been called the tariff of abominations, and what was Mr. Tilley to think of the conduct of the member for West Peterboro', that he was trying to sit on two stools, that he had two faces, one for the lumbermen's convention, and the other for his deluded constituents, or perhaps it may have occurred to the Minister of Finance that there was a power behind the throne, his prompter was at his back, his last movements were being regulated by some one pulling the strings, as really something must be done to correct the damaging nature of that resolution moved at the Huffman House. What a spectacle Mr. Hilliard presents to the rising generation, and to the Protectionists who voted for him. It would be interesting to have a daily bulletin to show at what particular point of the compass his tariff ideas are for the time being registered. No doubt Mr. Hilliard will now be well cautioned and schooled by the keeper of his political conscience, told to be a good boy, henceforward there must be no more such erratic movements on his part, giving trouble to his friends. When in Ottawa he must "ask Sir John" before committing himself to anything, when at home consult some other "John." Should it unfortunately happen that neither are available for consultation at the moment, then as a general instruction he will be told to vote the ticket—the whole ticket—and nothing but the ticket, and hold his tongue, as after such an escapade it would hardly do for him to trust his own judgement.

THE TRENT RIVER WORKS.

The Bobcaygeon *Independent* says:—"It is quite apparent that the whole of the "Trent Works, from Scugog and Fenelon, "to Trenton, have been transferred from "the Dominion to the Provincial Govern"ment, and though it is a subject for gen"eral satisfaction that there is now no "divided jurisdiction over these waters, "yet it is also subject for regret that the "Dominion, and not the Provincial Gov"ernment, should have relinquished its "powers. The Dominion had money, and "energy, and a broad and liberal system "of administration, the Province has only "little money to spend, and it counts it "out with the spirit of a bricklayer's "mother-in-law when she buys the "family potatoes."

The *Independent* only regrets that the Dominion did not assume all the Works, instead of the Province doing so. Has the Dominion in the past done so much better with the Works under its control than has the Province with the others? Quite the contrary; as is well known. The *Independent* seems to think more money could be got out of the Dominion Government than out of the Provincial Ministry. We have no doubt of it, under certain conditions of political bargain and sale for which Sir John Macdonald and those associated with him have always been remarkable. In view of a grab game we can readily understand the disappointment caused by the fact of the Mowat administration having the control. True, the Province has not too much money to spend; but that did not prevent the opponents of the Government complaining that no plan had been made for getting rid of what surplus there is. The Provincial Ministry exercises prudent care in expenditure, the *Independent* says "it counts it out with the spirit of a bricklayer's mother-in-law when she buys the family potatoes." This again will hardly agree with accusation of the extravagance sought to be brought against the Mowat Administration by its opponents. The *Independent* further remarks that the transfer is "queer." Doubtless it is, to those who know little or nothing of the circumstances of the case. Even it the transfer will do no good to Bobcaygeon, what then? Bobcaygeon can scarcely be deemed the hub of the Dominion, or even of the Province, that its interests should be deemed paramount. We fully commend the advice of the *Independent* that the result should be watched, a very different procedure from groundlessly anticipating a bad result.

A statement of the revenue collected on the sale of Canadian tobacco for 1873 to the first of January, 1879, gives the following:—In 1873 and 1873, $4,778.62; duty paid in 1873 and 1874, $10,489.05; in 1874 and 1875, $66,743.00; in 1875 and 1876, $1,703.35; in 1876 and 1877, $1,730.95; in 1877 and 1878, $934.45; for the six months ending 31st December last, $627.60. The Department reports

PETERBOROUGH IN PROVINCIAL AFFAIRS.

Votes of its Members During the Late Legislative Session.

The first decision in the House of Assembly of Ontario during the session lately closed, was on the 10th of January, on a want of confidence motion of Mr. Morris, for an amendment to the first paragraph of the address. The House was by this resolution asked to express an opinion on the action of Provincial Ministers, in regard to concerns exclusively and essentially relating to the Dominion. The exercise of their plain rights as citizens of the Dominion, by members of the Provincial Government, was so plain that those who introduced the resolution in regard to it were themselves unable to say a word on a question with which they had no business, and so remained dumb. Their object was evidently to gain some prestige in the country at the coming elections, as those who had supported the then lately triumphant "National Policy," whereas their opponents in the Ontario House had opposed it. Those who voted for this resolution, interfering with what did not concern them is the least as Provincial representatives, are probably now sorry, as it is likely to recoil on them now that many of the electors have very materially modified their views on the "relief of the suffering industries of the country" so partly alluded to in Mr. Morris's motion. The vote was a strictly party one, 33 yeas to 42 nays; and West Peterborough was made to uphold the dragging purely Dominion concerns into the Provincial Parliament. The East Riding was spared this humiliation, its representative not yet having taken his seat.

The next division took place on the 23nd of January, on another want-of-confidence motion made by Mr. Parkhill, on the 13th. This was an amendment to an amendment, moved by Mr. Lauder, and seconded by Mr. Scott, thus forcing a vote before any further amendment could be proposed. Mr. Parkhill's motion was that which led to the long and sharp debate on the question of the reduction of Minister's salaries, and of the sessional indemnity to members. The Ministerialists had to vote it down as a want-of-confidence motion and that, too, without any chance of offering an amendment, owing to the tactics of the Opposition led by Messrs. Lauder and Scott. It was currently reported, and not denied, that Mr. Scott wrote the resolution moved by Mr. Parkhill. The plan was to force the Government party to vote apparently against a reduction of the indemnity, with the hope that it would tie the hands of the Ministry and prevent them from carrying out a reduction later in the session, as was the intention from the first. West Peterborough was forced by its member to aid this second party trick. Again was the East Riding spared by the absence of its representative.

The next division was on the 12th of February, again on an amendment to an amendment, moved by Mr. Meredith and seconded by Mr. Scott. The question here involved was the bringing down of the Public Accounts and Departmental Reports. The original resolution, by Opposition members, asked for the distribution "whether the House be in session or not,"—thus ignoring the Royal representative through whom they pass to the Legislature—an absurd proposition, worthy such men as Creighton and Rosevear, who introduced it. The amendment, by Ministerialists, expressed satisfaction that arrangements had been made to hereafter lay the Public Accounts before the House, at its first session next after the close of the year to which such accounts relate. The amendment to the amendment was *of course* in opposition to this, asked only that the Public Accounts for 1878 should be "in the hands of the people" before the ensuing general elections. This had to be voted down, and the amendment was carried. West Peterborough, it will be seen, now made to actively aid in this dodge, and both it and the East Riding to back it by votes.

It is satisfactory to know that by the employment of extra clerks the Government was able to present the Public Accounts to the House just before the session closed.

The next division was the same day, on an amendment of the previous day, to a motion for the Speaker to leave the chair, preparatory to going into Committee of Supply, another plan of preventing the presentation of further amendments, and constituting a motion of want of confidence in the Government. This time the Leader of the Opposition laid down an unfair calculation of what he called the ordinary expenditure of the Province, and asked the House to condemn the Ministry on his calculation while shutting off any chance of presenting a true one by means of another amendment. The amendment after a debate in which West Peterborough again figured in support of mere party tactics was voted down as a matter of course; but both the East and West Ridings of this county, again, through their representatives, wasting the time of the House, and the money of the country to assist Tory plotting.

On the 19th of February a bill relating to the trial of Civil Causes was thrown out on motion for its second reading. It provided for the trial of all jury cases in *Nisi Prius*, before non-jury cases were brought on. In this matter the judges are now allowed discretionary powers, though they usually bring in jury cases first, as far as practicable. The objection to the Bill was its laying down a cast-iron rule for the judges, thereby greater inconvenience were likely to be caused. The member for West Peterborough admitted that the Bill was too stringent, yet voted for it, as did also the member for the East Riding.

On the 21st of February, West Peterborough voted with the Government in support of the second reading of the Bill to amend the Agricultural and Arts Act, which the East Riding voted the other way.

On the 26th February both divisions of this County voted with Ministers to throw out Mr. Carrie's Bill respecting the sale of land under mortgage, the Premier having a Bill on the same subject to which he added a couple of clauses from Mr. Currie's.

The next division was on the 28th of February, on a motion of the second reading of a Bill, to Amend the Division Courts Act, to which the Attorney-General moved the following amendment:—"That strong opinions have been expressed by many of the experienced Judges of the Division Courts that the enlargement of the jurisdiction of the said Courts would occasion inconvenience, delay and expense to suitors, in matters now within the jurisdiction of said Courts and that any advantage to suitors for larger sums would be at the expense of suitors for smaller sums, and would be open to other objections deemed by the said Judges to be of a formidable character, and, in the opinion of this house in view of the said statements, it is proper that legislation upon the subject be not proceeded with until the country has had an opportunity of fully considering the matters set forth by said Judges."

This very proper and judicious resolution both Ridings of Peterborough were made to oppose.

The Peterboroughs on the 5th of March are again found in line with the Ministry in support of Mr. Creighton's Bill to prevent the spreading of black-knot on plum and cherry trees.

On motions for concurrence in items reported from Committee of Supply, the Opposition again began their party tactics by the introduction of amendments and several times to amend, where by they tried to represent the Ministry and its supporters as opposed to retrenchment, and to earn a cheap reputation for economy to last them through the coming electoral campaign. A general attack was made on the salaries of departmental officers, but no reduction was carried in them, though the gentlemen who had made the attack on the salaries of departmental officers, did not hesitate to vote for the reduction of the salaries of the members of the House of Commons, which was increased to $1,000 in 1873.

The duty on malt has been reduced one cent per bushel. Thus it is seen that the brewers are the only manufacturers in the East Riding who have benefitted! Let us see if beer will be reduced in price to the consumer. We fancy not.

One of the reasons for making food and fuel dearer, it seems, is in order to reduce the duty on malt. This will not make the "Poor Man's Beer" a cent a glass cheaper. It will merely transfer a large amount of money sorely needed by the public treasury into the pockets of the brewers.

OUR OTTAWA LETTER.

The proceedings in Parliament since the opening, up to last week, have not been of great interest, much valuable time and a good deal of money has been wasted. A great many of the inquiries made are in the interest of party, more than in the interests of the country.

THE INSOLVENT LAW

has come in for some little attention. One would naturally expect that a matter of so much importance would be dealt with by the Government; but it is very evident that it is to be left an open question. Such being the case it is very difficult to say what will be the ultimate result. My own impression is that on a vote in the House, put squarely, repeal or no repeal, that repeal would be carried, and the law blotted out. The grand difficulty is what would be put in its place. The best commercial minds in and out of the House would not tolerate a return to the old state of things, when the "grab game" was played. Merchants in Montreal and Toronto see that they would be at a disadvantage in the game, the nearest creditor to a country merchant would many times have him sold out before they would hear about it. Again the least sign of weakness in a country merchant becoming apparent to some creditor, he would in order to be first on the death, sometimes precipitate the [illegible] general results through which [illegible] would not be very much in [illegible] the results from the [illegible] Agents are often all only [illegible] unscrupulous [illegible] unworthy end. [illegible] the debtor will [illegible] on the estate in [illegible] the estate [illegible] to [illegible] [illegible] [illegible]

1879. SPRING. 1879.

NEW GOODS! NEW GOODS!

—AT—

HACKETT & SHIRLEY'S.

This week we have great pleasure in informing our numerous customers of the arrival of our Immense Stock of New Spring Goods, purchased as usual at a great advantage, which only those that buy and sell for cash can do. It is needless for us to dwell on the great advantages of buying and selling for cash, as the public are already aware of the inducements we can offer, and the vast difference of our prices compared with those of credit stores.

TO THE LADIES

DRESS GOODS.

We have devoted special attention to this Department, as we are bound to rank first on the list, even when commenced with city stores.

Our New Dress Goods will be found exceedingly attractive, including all the newest fabrics for the coming season.

Beautiful Bright Lustres in all the newest shades, 10, 12½, 15, 18, 20 cents a yard.

The New Granite Lustres, 25, 25, 30 cts. a yd

The New Melange Cloth, 25, 25, 30 cts. a yard.

The New Debeige Cloth in beautiful shades, 25, 25, 30, 35 cents a yard.

Mantel Serges, in all the new colorings, 15, 20, 25 cents a yard.

New Black Cashmeres.

New Black Cashmeres, 25, 30, 40, 50, $1.00, $1.50 a yard. These goods are a special make, which we control, and will be found superior to anything of the kind in the market.

New Black Lustres.

Useful Black Lustres, 10, 12½ cents a yard.

Rich Bright Lustres, 15, 20, 25 and 30c a yard. Our Black Lustres are to well known to need comment.

New Prints.

Over 500 pieces in Light and Dark colors, no two patterns alike, from 6 cents up.

New Turkey Prints in all the Clans only 15 cents a yard.

New Pekin Spots, Bordered, the newest Goods in the Market, only 15 cents a yard.

HACKETT & SHIRLEY.

Sign of the Golden Lamb.

All their Goods are NEW and WELL SELECTED, and marked at Prices that Never Fail to give Satisfaction.

The Examiner.

PETERBOROUGH, MARCH 20, 1879

LOCAL NEWS.

I. Robinson & Co. are showing a large assortment of fashionable spring hats, in straw and felt, at very low prices.

Railroads.—It is stated on good authority that it is very doubtful whether there is a single line of railway in the Dominion that is paying. It would seem that there must be an end sometime to such a condition of things.

How to Hang Pictures.—The Princess Louise's plan of hanging picture-frames is to have two nails instead of one, making it square over the pictures, and instead of using cord or ribbon she uses wire. Silvered wire is the nicest for the purpose.

If Not Called For Return.—According to the Postmaster-General letters mailed which fail to reach the parties for which they are intended can only be returned to the sender when the request to return is printed on the corner or end of the envelope. A written request to return will not do.

Stopping Papers.—Subscribers who may wish to discontinue taking a newspaper should bear in mind that they must first pay what they owe. Sometimes a copy is returned marked "Refused" while the subscriber's time may have expired from one to twelve months ago. A publisher can send a paper until all arrears are paid, and it is immaterial whether the subscriber takes it from the post office or not: he will have to pay in full.

Westward, Ho!—From all accounts we believe very many of our citizens intend acting practically on Horace Greely's advice—"Go West." Quite a number have already taken their departure and a great many more are making preparations. We trust they may all have their most sanguine expectations realised, and that at no far distant day we shall hear of Peterborough "hops" successfully carving out their fortune in the Far West.

Important Notice.—We beg to call the attention of farmers having sales, horsemen and others wanting bills printed, to the fact that we have every facility for turning out first-class work with despatch. We give free notice in our paper of sales and public meetings when the bill are printed at this office. This alone is often worth as much as the bills, as our paper circulates in every part of the county. If you want any kind of printing done, or wish to advertise, call and get our terms.

Dangerous Counterfeit.—We have been shown one of the most dangerous counterfeits seen for some time. It is a five-dollar note on the Canadian Bank of Commerce, and is so skillfully made that it has passed current at several of the city banks. The "V's" on the face of the bill are of a more pronounced color in the counterfeit than in the genuine, but beyond that there is nothing to guide except the "feel" of the paper. This cannot be described, nor by any one felt, but it may serve as a means of detection in the case of persons much accustomed to handling money. People accepting five-dollar notes of the Bank of Commerce would do well to recollect from whom they receive them.—*London Advertiser.*

The Star Grocery.—As announced in a previous issue, Mr. Thomas Rush has opened out in the Chambers' Bro's old stand, corner of Hunter and Water streets, a first-class grocery, wine and liquor store, to be known as the "Star Grocery." Since opening, business has been very brisk with the new establishment, and the public have already become aware of the cheap goods which are being offered. The whole stock, we are assured, has been purchased on very advantageous terms for cash, and as "The Star" is to be conducted on strictly cash principles, every article is marked down to a very small margin ever cost. We have no doubt but that Mr. Rush will be favored with a liberal patronage, as choice fresh goods at low prices is a very powerful magnet.

Religious Tract Society.—The Public Annual Meeting of the Peterborough Branch of the Upper Canada Religious Tract and Book Society will be held in St. Andrew's Church School Room, Peterborough, at 7.30 o'clock, on Thursday evening, the 20th instant. Besides the addresses of resident friends, the Agent of the Society, the Rev. J. G. Manly, of Toronto, will deliver a Lecture on "Telling the Truth," after which a collection will be made in aid of the Society's good work. The Religious Tract Society [of] which the Upper Canada is an auxiliary is a Bible society, as well as a Book and Tract Society. Its yearly circulation is about 23 millions of publications (or 1,700 millions from the beginning), in 120 languages and dialects, throughout the world, at an annual expenditure of about $700,000 in co-operation with all Evangelical Churches. Seventy-seven persons employed in Canada, besides the Welland Canal agency and the work of general circulation. All friends of Christian Evangelization are invited to attend the meeting. The happy audiences stand astonishing evidences and illustrations, both in the country and elsewhere.—*Bible Society Recorder.*

Not Removing.—Mr. C. L. Baker has determined to remain and continue his business in Lindsay.

Household Furniture.—A sale of Mr. W. H. Pendry's household furniture will take place on *Friday* (to-morrow) at his residence, George Street North.

Peterborough Presbytery.—The next meeting of the Presbytery of Peterborough will be held in Port Hope next Tuesday, March 25th, at 11 o'clock a.m.

Spring Goods.—Our merchants are now receiving the first consignments of their spring goods. Read their advertisements in our advertising columns, and patronize those who let the public know what they have to sell.

For Farmers.—Those in need of choice samples of wheat, peas, oats and barley should read Mr. McIlmine advertisement in another column. He has also on hand a lot of Fresh Ground Land Plaster, and Best Goderich Salt, which will be sold cheap. 10-41m

Personal.—The many personal friends in this town of Mr. John Sutherland, jr., of Cobourg, will learn with regret of that gentleman's removal to Chicago. Mr. J. Whitelaw, another favorite of the members of Protection Fire Brigade, is also leaving Cobourg for Manitoba.

Mission School Entertainment.—An entertainment in aid of the funds of the Mission School will be held in St. Andrew's Church Sunday School Room to-morrow evening, 21st instant. The programme promises to be an attractive and interesting one. An enjoyable time is anticipated.

Sale of Real Estate.—Mr. Stapleton offered and sold at the Stewart House on Monday, the 17th March, the house and lot of Mrs. Martyn, Harvey street, for the sum of $425. Mr. F. J. Jameson, of the EXAMINER office, being the purchaser. Also the house of Mrs. Crowley, nearly opposite the old Spaulding Brewery, for the sum of $260 cash.—*Review.*

Accident.—Mr. John Emmerson, of Ashburnham, met with a severe accident about the 1st instant, in Messrs. McDougall & Lodgate's lumber shanty, in the township of Lutterworth. While dressing a piece of loose timber, the axe struck a partially decayed knot, and going through it, inflicted a very severe wound in the instep of the right foot. Upon being brought to town Dr. Edmond dressed the wound and the patient is now recovering as speedily as can be expected.

Hamilton Corbett.—This eminent Scottish Vocalist gave another of his popular entertainments to a large audience in the Opera House, on Tuesday evening last. There is something peculiarly pleasing in the Scotch lyrics, and Mr. Corbett's conception of them is happy, sometimes inimitable. Those who failed to hear him on Tuesday evening, missed a rare treat in the way of Scotch melody. We bespeak for him a hearty welcome should he be pleased to favor Peterborough with his appearance again.

The Deure Printing.—The Lakefield *News* in alluding to the Douro printing, which has awarded the EXAMINER office, says:—

"We understood when we went to the meeting that we should have somewhat of a battle with our friend, but certainly we were never given to understand that we were to attend an auction sale when the tenders were called for. We have one satisfaction however; Mr. Robertson, who is the chief and only cause of this threat-cutting business in printer's prices, did not get what he wanted although one of his friends tried all he could do for him.

Lecture.—Rev. Mr. Bradshaw, Incumbent of Ashburnham, delivered a discourse in the School Room of St. Luke's Church, on Friday evening last, on the subject of the late Conference of Arch Deacons[S]ecretaries, to the Bishopric of Toronto. The Rev. Gentlemen's remarks throughout were moderate in tone, and eulogistic of the character of the synod in the choice it had made. The room was well filled, and the discourse was listened to with marked attention and evident satisfaction by all present.

Police Arrangements.—The Lindsay *Post* says:—"The Committee of Council appointed to regulate the duties of the town constables have arranged that the Chief Constable shall patrol from 12 o'clock noon, until 12 at night and the Assistant-Constable shall go on duty for the other twelve hours. The Chief says the arrangement practically makes the Assistant-Constable a night-watchman, one who affords no assistance as arrests with few exceptions are made in the afternoon and when the hotels are being closed."

Curling.—A friendly game was played on Friday evening last between the two rinks of the Peterborough Club who had played during the season with the Clubs from Lindsay, Port Hope and Cobourg, with a view of testing the merits of the respective rinks. The following is the result:—

Rink No. 1.	*Rink No. 2.*
G. Dunsford	A. McNeil
A. Hall	W. G. Ferguson
J. Bertram	R. S. Davidson
G. Brown, skip—23	J. F. Dennistoun, skip—13

Majority for G. Brown's rink—10.

Recovering a Lost Note.—About three years ago Mr. Robert Goodfellow, of Monaghan, had a buffalo robe stolen from his cutter, which he had placed in the sheds adjoining the Stewart House. Search and diligent enquiry were made at the time without success. Mr. Goodfellow, however, has since then kept a close watch in hopes of identifying the lost articles. His efforts were rewarded on Saturday, when, by chance, he observed a robe in the Stewart House sheds which bore such a close resemblance to the one he had lost, that he at once claimed it as his property. The party in whose possession the robe was found stated that he had bought it from some one but could not recall from whom. The matter was then left in *statu quo*, until Monday, when the robe was returned to its former owner.

Preparing for Spring.—As will be seen by advertisement elsewhere, Messrs. Fitzgerald & Stanner are now busily engaged in the manufacture of all kinds of vehicles for the spring and summer trade. They have already a large number of orders for buggies and carriages on hand, which are being manufactured in the latest styles, from personal and other inspection of city prices. While many may not be able this season to purchase new carriages, the next best thing they can do is to have their old one repainted and trimmed. This firm are at present making a specialty of this line, and parties interested should call and leave their orders, where for a few dollars they can have a carriage or buggy turned out to look as good as new. In the manufacture of their waggons they are using an "improved patent arm" which is sure to "take" with the farmers. Give them a call.

Cleaning the Sidewalks.—During the past week the Street Inspector has had a number of men cleaning the sidewalks on George street and the principal streets leading thereto, in accordance with a resolution introduced by Councillor Rutherford at a late meeting, instructing that official to have the work done by those in arrears for taxes and unable to pay them. This, besides being a great boon to pedestrians, it enables those poor, who are in arrears for taxes, to pay them, while in reality it costs the town nothing. The snow By-law has been a hobby of Councillor Rutherford's for some time, and we trust he will be able during the present year to promulgate a scheme that will have the support of the other Councillors, so that in future winters the sidewalks, on our principal streets at least, will be kept cleared of snow. Other towns have such By-laws in force and why not Peterborough?

"Weed's Household Magazine."—Every person becomes morally good or bad and intellectually great or small by the thoughts which occupy his mind from time to time. These thoughts are derived chiefly from reading. But, in order that reading may be in the highest degree profitable, there must be a capacity for reading well and a taste for reading, which can only be secured by a supply of appropriate matter, such as will be found in *Weed's Household Magazine*. Indeed, this monthly is edited with a special reference to these needs. Having the best American and foreign periodicals and books published during the past fifty years to select from, Mr. Weed strives to present from month to month a "Scrap Book," containing the choicest treasures of the best minds concerning the various subjects treated. This Magazine is also believed to be the cheapest reading published for the school-room and fireside—a year's numbers being equivalent to more than twelve dollars' worth of bound books: and those who know it best have repeatedly characterized it as "The Prince of Periodicals, which no family can afford to do without." Handsomely illustrated, $2 per year; single copy, 20 cents. But any person who has not seen the Magazine since its recent enlargement may obtain a sample copy for only five cents by immediately addressing the Publishers, S. S. Wood, Tribune Building, New York City.

A Word to Doubters.

There is a good old Baptist maxim that teaches us to "believe every man honest until we know him to be a villain." American common sense to have reversed this law and appears to make every man a villain until he has proved himself an honest man. As with people, so with things. Every article placed in our markets can lay claim to popular favor upon intrinsic merit and value alone. Continued popularity, therefore, is proof positive of intrinsic excellence. Dr. Pierce's Family Medicines are far more popular to-day than ever before. The people have tested them and know them to be genuine and reliable. For the diseases they are recommended for such as Golden Medical Discovery and Pleasant Purgative Pellets are unsurpassed. Both are compounds from roots that can be used in whatever climate of the world. Dr. Pierce's Favorite Prescription is the only medicine for women sold by druggists, and is guaranteed to give satisfaction in every case or money will be refunded. Dr. Sage's Catarrh Remedy has no equal and has obtained for itself the largest sale of any catarrh remedy in the world. Dr. Pierce's Pleasant Purgative Pellets are the smallest, cheapest and best pill in the market. They are purely vegetable, perfectly harmless, and do their work thoroughly. Sold by druggists.

New Signs.—Messrs. Wilson & Davis have this week erected a very large and handsome sign, which is entirely different from any other in town. The letters are painted white on a vermillion background, with a border of blue. It stands out in bold relief from the building and cannot but attract the attention of passers by.

School Trustee Election.—The election for School Trustee for No. 2 Ward, in the stead of Mr. T. G. Hazlett, resigned, took place yesterday. Mr. C. D. Macdonald and Dr. Bell were were nominated but the latter gentleman withdrew his name, the nomination being made without his consent. Mr. Macdonald was therefore declared elected.

Emerald Dramatic Club.—This Local Dramatic Organization gave an entertainment in the Opera House on Monday Evening last, in aid of the fund of the Roman Catholic Library. The hall was well filled, and, if we are to judge from the oft repeated and enthusiastic plaudits of the audience, the performers were successful in the parts which they essayed. About $140 was taken at the door, which will prove a handsome contribution to the laudable object in the interest of which the concert was given.

Caught in the Act.—The *Times* of last Saturday with its usual utter disregard for truth says its tender for the Douro printing was $60. We spoke to Mr. O'Brien, the Township Clerk in reference to the matter, and received the following reply, which speaks for itself:—

Douro, March 17th, 1879.

JAMES E. STRATTON, Esq.:—

Dear Sir.—According to request, I send you a statement of the amount for which Mr. Robertson offered to do the Printing for the Municipality of Douro for the year 1879. The amount was $32.50.

Yours truly,
WM. O'BRIEN,
Township Clerk.

The public can easily see what dependence can be placed on Councillor Robertson's assertions.

Stapleton's Sales.—The following sales are announced by Mr. Chas. Stapleton, Auctioneer:

TUESDAY, 25th of March.—Unreserved credit sale of farm stock and implements, belonging to Mr. Matthew Walton, Lot No. 6, in the 13th Concession of North Monaghan. Sale at 11 o'clock.

SATURDAY, March 22.—Defying the tariff by auction at P. D. Doran's dry good store, George street, opposite Rush, Elliott & Morrow's, in general assortment of dry goods, groceries, boots and shoes, &c. Sale at 1 and 7 p. m.

MONDAY, March 24.—Unreserved Credit Sale of farm stock, implements and household furniture of Mr. J. T. Ray, lot 22, in 2nd Concession of the Township of Smith. Sale at 1 p.m.

WEDNESDAY, March 26.—Important Credit Sale of farm stock, implements, household furniture and farm of Mr. Edward J. Heaney, on his premises, Lot 21, in the 14th Concession of the Township of Otonabee. Sale at 12.30, Lunch.

THURSDAY, March 27.—Mortgage Sale of desirable town property, known as the Chambers Lots. Sale at 2 p.m. at Stewart House.

FAREWELL SUPPER.

To Messrs. E. Elder, G. A. Mitchell and J. C. Kennedy, by the Peterborough Lodge I. O. O. F.

A farewell supper was given at the Morgan House, on Monday evening, to the above named gentlemen, on the occasion of their removal to a different portion of the town dominion, by the members of Peterborough Lodge I.O.O.F. No. 111, of which lodge they were all active members. A large number of the brethren were present. Bro. R. W. Thompson, N. G., the Chairman, after the usual loyal and patriotic toasts had been duly honored, proposed "The Health and Prosperity of Our Guests." It was with pleasure and regret he did so. He was pleased that they had assembled to do honor to their guests, while it was a subject for regret that they are about to leave our midst. After referring to the connection with the lodge of the respective guests, he closed by wishing them much happiness and prosperity in whatever part of the Continent their lot may be cast.

The guests all responded heartily in an extemporaneous manner. To say that they felt pleased would be a very inadequate expression of their feelings. They were proud of the sumptuous repast that had been tendered them by their brothers, and everything connected with it, and all regretted that it was necessary for them to leave this locality, but owing to the change in times it devolved upon them to take the steps that they were doing, however much against their inclination. They assured their many friends that in parting with them they would cherish those feelings of good will that had marked their mutual intercourse for years past. A number of toasts followed and an exceedingly enjoyable evening was spent before the company separated.

Another Banquet.

On Tuesday evening, Messrs. Robert Elder, Geo. A. Mitchell and Charles Walsh, were the recipients of a complimentary banquet in the Huffman House, tendered them by their fellow friends, previous to their leaving town—the former to British Columbia and the last two to Manitoba. Between forty and fifty sat down to the very sumptuous and magnificent repast provided. The chair was occupied by Mr. A. McNeil, and the vice-chair by Mr. Shirley. After the *menu* had been satisfactory disposed of, the usual programme of toasts upon such occasions were given and duly responded to by song and speech, but space we regret will not permit us to give a full report of the proceedings. The eulogistic remarks and flattering encomiums extended to the guests of the evening by the several speakers, evinced the high esteem in which they are held by their companions in this town. The toast, "Our Guests," was responded to by each of the gentlemen very appropriately. They each expressed their regrets at leaving Peterborough and the pleasant associations, and expressed their gratitude and thanks to the[ir] present for the handsome reception they had received that evening. Wherever they might settle down, or in whatever place their lot might be cast, they would cherish with kindly and hearty feelings a remembrance of this evening and the many friends they left in Peterborough. An exceedingly pleasant and sociable evening was spent until song and speech till well on in the wee sma' hours, when the company separated with "Happy to meet, sorry to part and happy to meet again." Mr. Hamilton Corbett, Scottish vocalist, was by invitation present during the evening, and assisted largely in the pleasure of the evening, by the rendition of a number of national and comic songs in character.

TOWN PRINTING.

The Fenelon Falls *Gaz-ette* which always had a favorable word for W. H. Robertson, of the *Times*, has at last found out its man and will, in future, be able to picture him in his true colors. He can now, possibly, understand where the "close competition" arises, of which this same gentleman (?) spoke when in that village a short time ago. After alluding to the unbalancing which the Lakefield Council gave this mendicant publisher, the *Gazette* says:—

"The Fenelon Falls Council lately received a tender from the Peterborough invader, which, when it was produced and glanced at, was circumstantially and unceremoniously cast aside. Mr. W. H. Robertson's prices are so astonishingly low that, if adhered to, we cannot understand how he can possibly make anything out of them, unless, indeed, he exacts payment in advance, when the process becomes clear enough—that is, in the light of the explanation given by the other Peterborough printers."

(From the Lindsay Warder.)

"CHEAP PRINTING.—The result of doing printing for less than the price of the blank paper will be found in the following lines from the Peterborough *Review*:—"'The oppressor's wrong, the proud man's contumely,' was graphically touched in the face of a young man who was hailed by the Sheriff on Saturday week, and handed another writ from the Dominion Paper Company." And this is the individual who can afford to print whole sheet bills for 1½c. per hundred! That nice months' extension must be about up, or the paper company must have heard of the Peterborough *Times* man offering to do work at the above figures. Municipal councils should be careful how, after all, they may be taken in as well as the paper companies. Writing on the same subject in another paragraph the *Warder* says:—"The paper companies should note that this same councillor offers to do printing for less money than the blank paper can be manufactured for. The creditors of any man who would offer to print sheet bills for 1½c. per 100 should have his business wound up at once. The Dominion Company must have heard of it, for this other day, we learn, they caused a writ to be served upon him by the sheriff.

POLICE COURT.

PERSISTENT CASE.—Henry Harrington, of the Township of Emily, was charged at the Police Court yesterday, by M. S. Dean, of Bridgenorth, with committing perjury in respect to a certain chattel mortgage. The Police Magistrate committed him for trial. Bail was accepted—himself in $200, and one surety in a like sum.

A DEM BROKEN UP.—On Monday P. C. McGhee summoned Mrs. Rest to the Police Court for keeping a house for the resort of prostitutes, and Ann Brennan and Margaret McCutcheon for being inmates. Mrs. Rest was sent up for 3 months; Brennan, for 6 months; and Mc Cutcheon for 2 months.

A Wonderful Discovery.

For the speedy cure of Consumption and all diseases that lead to it, such as Bronchitis, Coughs, Colds, Asthma, Loss of Voice, Hay Fever, Asthma, use in the state and about, dry hacking cough, tickling in the throat, Hoarseness, Sore Throat, and all Chronic Affections of the Throat, Lungs and Chest, Shiloh's Consumption Cure is the only medicine that can be used in whatever climate of the world. Shiloh's Consumption Cure has no equal and has obtained for itself the largest sale of any cough remedy in the world. Shiloh's Consumption Cure is the only medicine which will prevent consumption when taken in time. Shiloh's Consumption Cure will break up a cough in less time than any other medicine. Shiloh's Consumption Cure will cure Croup, Whooping Cough and Bronchial Affections. Shiloh's Consumption Cure will relieve Consumption. Shiloh's Consumption Cure is sold on a guarantee. Shiloh's Consumption Cure is not a new discovery but has been tested for years and has proved itself the wonderful medicine it is recommended to be. Shiloh's Consumption Cure is for sale at 50 cents and $1 per bottle. Sold by all druggists. Send for pamphlet. Dr. Shiloh's Catarrh Remedy. Price 50 cents. Sold by all druggists. Send for pamphlet. Dr. Shiloh's Vitalizer. Price 50 cents. Sold by all druggists. Send for pamphlet. Dr. Shiloh's Catarrh Remedy, Dr. Shiloh's Vitalizer, Dr. Shiloh's Consumption Cure, are sold by all druggists in Canada and the United States. Shiloh's Remedies are manufactured by Dr. Shiloh, Rochester, N. Y., and Toronto, Ont. Shiloh's Remedies are for sale by Hackett & Shirley, Peterborough.

BRIEF MENTION.

—Bad colds are common.

—Next year will be leap year.

—Confidence in eggs is increasing.

—Top buggies are again to the fore.

—Spring styles of weather just out.

—Awnings are now being overhauled.

—Town Council meets on Monday night.

—*Music of the future*—promissory notes.

—Keep your feet dry and your head level.

—Thick veils are worn now for fear of tan.

—Only three months to strawberry festival time.

—A sign of prosperity—wearing a new spring hat.

—The solitary horse fly is looking for his companions.

—With a good frost every boy could now have a skating rink in his own yard.

—With all the varieties of canned goods in the market we have yet to hear of canned hash.

—The weather is becoming so warm that it is safe to take the bear toes off the thermometers.

—Spring is here and organ grinders are in pod.

—*Exchanges.* We hope they will have soon.

—The winter cutter which did along the *main* now furnishes a sweet refuse for the setting hen.

—At the request of numerous poets and novelists spring has been unavoidably postponed until next month.

Deer Sir.—Accordin[g] to request, I send you a statement of the amount for which Mr. Robertson offered to do the Printing for the Municipality of Douro for the year 1879. The amount was $32.50.

Yours truly,
WM. O'BRIEN,
Township Clerk.

The public can easily see what dependence can be placed on Councillor Robertson's assertions.

ENNISMORE PRINTING.

To the Editor of the Examiner:

SIR,—In the Peterborough *Review* of the 14th instant, referring to the township printing says: "Douro has taken their printing from the *Times* and given it to another office, Enismore if it was wise should now go and do likewise before it be too late." As the above may cause some wrong impressions to go abroad I take the pleasure of informing the Editor of the *Review* that the *Times* does not do Enismore printing. At our January meeting J. C. Robertson applied to the council for the printing for the *Times*, producing his list which the council did not accept, but passed the following motion:

"Moved by Cornelius Conners, seconded by Michael Gough,—That the contract for printing be given to the lowest tender, and that the Town and Clerk be authorized to receive and dispose of the same.—Carried."

On the Thursday following we received tenders from the three printing offices the *Review* was highest, the *Times* next, although a little lower than that furnished the council, the EXAMINER was the lowest tender and we gave them the printing accordingly. As yet we have no cause to regret our choice, having received so far good satisfaction and we have no doubts will continue to do so. Hoping you will give the above a space in your valuable paper, and oblige,

Yours &c.,
THOS. TELLFORD,
Township Clerk.

Ennismore, March 17th 1879.

THE ESTIMATES.

OTTAWA, March 11.—The estimates for the current year were laid on the table of the House by the Finance Minister yesterday afternoon. The total amount for is $23,427,882.17 as against $23,609,073.84. The increases are for 1878.'79:

Public debt	$270,989.57
Charges of management	54,338.15
Police	1,920.00
Pensions, including superannuation	19,257.32
Militia	12,000.00
Scientific institutions	250.00
Subsidies	723,231.00
Customs	1,233.00
Total increase	326,241.97

The decrease are:

Civil Government	7,792.50
Administration of Justice	15,775.00
Penitentiaries	26,666.65
Legislation	60,250.00
Arts, agriculture and statistics, including census	27,999.00
Immigration and quarantine	51,754.00
Lighthouses and coast service	4,700.00
Ocean and river service	21,779.34
Scientific Institutions	16,360.00
Indians	780.00
North West Mounted Police	12,180.00
Collecting	17,000.00
Excise	39,000.00
Cutting timber	10,255.00
Weights and measures	37,000.00
Public works	104,103.00
Post Office	8,666.00
Dominion lands	44,000.00
Dockyards	697,333.00
Total decrease	241,171.67

The principal increase under the head of civil government are; Governor-General's Secretary's office $2,710; Department of the Interior $6,740; Department of Public Works, $4,050. The item for departmental constituencies is reduced by $23,250. The vote for the Dominion Police force is reduced by $21,000, showing that the force is not likely to be dispensed with as reported.

Under the heading of legislation there is a decrease of $2,500, expenses of committees, extra sessional clerks, &c. A vote of $25,000 in connection with the preparation of the census is asked for.

The expenditure for immigration is reduced by $51,754, principally created by a reduction of $23,800 for the vote towards assisted immigration, including estimated expenses of transporting Mennonites; some $14,000 is saved on the salaries and expenses of travelling agents. The estimated amount for superannuations is increased by $26,000. Militia shows a reduction of $4,000. An increased vote of $20,000 for training the militia is asked for, while $5,000 is asked for the maintenance of guard at Rideau Hall.

A total vote of $5,913,000 is asked for the Canada Pacific Railway, including one million for the Canada Central extension, and $800,000 for the Georgian Bay branch. This latter vote would tend to show that the branch is not to be abandoned. For the Lachine Canal $1,150,000 is asked for, as against $2,000,000 last year, and for the Welland $2,000,000 as against $2,500,000 last year. For the North-West Mounted Police there is a decrease of $12,100. For the collection of revenues on the Intercolonial Railway there is an estimated saving of $100,000, and for the repairs and working expenses of canals, $21,900. On the Intercolonial there is an estimated increase of $30,000.

NORTH MONAGHAN.

ENTERTAINMENT.—A beautiful night, good sleighing, and a varied programme attracted an audience which literally packed Eathen Grange Hall last Friday night. The programme which consisted of songs, readings, ventriloquism, &c., opened by an organ solo, followed by a song by Miss Walsh, given in fine style. A. Sproule next gave a reading which was well received, followed by a song from Miss Nettie Martin who as usual met with success, and was re-called. Ormiston Dixon next appeared, and added fresh laurels to his ventriloquial wreath, holding a convers[a]tion with six imaginary people and various inflnitations. Mr. Medcalf next gave a recitation, followed by Jim Ormond in his dutch specialties, he first sang "Grandfather's Cot," for an encore he gave "Sour Crant," and wound up with a recitation, which made a hit, later in the evening he was seen in swell and character songs. The Hunton's (Harry and Ida,) next made their appearance, and met with the success which they deserved, their singing and setting[ing] wonderful for people so young. A number of songs by Mr. Medcal met with the approval of the audience, and was encored five times. The afterpiece put on by the Peterborough Farce Company entitled, "Dutch Justice" kept the audience in screams of laughter, Billy Dixon as the judge, was capital; while Sid Heathcra as one of the lawyers acted his part to perfection, the other members of the company gave the best of satisfaction.—Con.

AN AUTHORITY ON BLACK EYE.—Harry Hill, the famous "Sport," is said to know as rare about black eyes than the heftiest pugnacite in America. He has given and taken thousands in his time, and he says that the only thing which will remove the tints within twelve hours is Gluss' Liniment Isolate Arnica. 50 cents.

Sold by all druggists. Send for pamphlet. Dr. Gluss' Blood Arnica Tonic. Price $1. Sold by all druggists. Send for pamphlet. Dr. Gluss' Kidney Cure. Price $1. Sold by all druggists. Send for pamphlet. Dr. Gluss' Kidney Cure, Dr. Gluss' Blood Arnica Tonic, Dr. Gluss' Liniment Isolate Arnica are sold by all druggists in Canada and the United States. Gluss' Remedies are manufactured by Dr. Gluss, Rochester, N. Y., and Toronto, Ont. Gluss' Remedies are for sale by Hackett & Shirley, Peterborough.

LAKEFIELD.

(From our own Correspondent.)

—More snow.

—Sleighing is still fair.

—Plenty of crows to be seen flying around.

—"Nine Hour" Holmes gives a ball in the Blakely House, on Wednesday night.

—"Old Sol" has brought to light a varied collection of old boots, bones and oyster tins in our back yards.

—George Gorman has rented the hotel formerly occupied by Mr. Lemby. It will be placed in a thorough state of repair and re-furnished before being opened to the public.

—On *Friday* night, after the concert, some of the "boys" round the village made a collection of all the dry goods boxes belonging to our merchants, and made a huge pile at the corner of Reid and Queen streets, receiving the blessings of the irate owners the next morning.

—Some hungry mortal who had forgotten the eighth commandment, and not having the fear of the law before their eyes paid a visit to the storehouse attached to one of our hotels, a few nights ago, and finding a barrel of beef, helped themselves to all they wished, and also appropriated a large iron pot to carry it off in, the land-lady don't mind the meat so much but would like to have that pot sent home.

—The pupils in the highest department of our village school cost the municipality $15 each per annum. Several attend from outside the section and do not contribute one cent to the school rate, which is considered unjust by our heavily taxed ratepayers. At the School Board meeting last week, an effort was made to impose a small monthly tax on the outsiders who take advantage of our school, but it was defeated on the ground that the *Douro boys' pruences acted as an incentive to stimulate the others.* What a high opinion the School Board have of our village youth, and how flattered the Douronians should feel.

—The third entertainment in aid of the funds of the Lakefield Methodist Church, was held in the F. C. A. Hall on Friday evening. The attendance was not quite so large as at the former ones, caused no doubt by the postponement from a previous evening. The programme was carried out fully and was well received and appreciated, we give it below:—

PART I.

Glee	Choir.
Duet	Miss Clarke & Mr. Wrightson.
Song	Miss Cotton.
Reading	Miss Grundy.
Solo	Miss Coates.
Solo	Mrs. Chambers.
Reading	Mr. Shannon.
Quartette	(Miss Cotton, Miss Coates, Mr. Wright-son, and Mr. Coates.

PART II.

Duet	Miss Kelly and Mr. Wright.
Solo	Mr. Henderson.
Recitation	Mr. Shannon.
Song	R. Wrightson.
Reading	Miss Grundy.
Solo	Mrs. Chambers.
Duet	Miss Carrin and Mr. Wrightson.
Quartette	(Mrs. Peterson, Miss Coates, Mr. Wright-son, and Mr. Coates.
Finale	Audience.

—I have just been looking over the last (1877) *return* from the Register-General of Ontario, for my own curiosity I made an analysis of the Births, Marriages and Death rate for the County of Peterboro' which as it might prove of interest to some of your readers I will give:—

Births	731	144 increase over 1876.
Marriages	154	36 decrease over 1876.
Deaths	351	111 decrease over 1876.

BIRTHS, 731.

Males, 383; Females, 358; pairs of Twins, 9. The highest number of births was in March, being 86. The lowest in December, 37.

MARRIAGES, 154.

In September and February there were 20 marriages, being highest in any one month. August was the lowest with 5.

MARRIAGE BY AGE.

	MALE.	FEMALE.
20 yrs. and under	1	32
21 " "	84	77
30 " "	35	26
35 " "	24	11
40 " "	9	3
45 " "	6	1
50 " "	2	1
55 " "	1	1
60 " "	—	1
65 " "	1	1

DEATHS, 351.

Males, 183; Females, 168. August was the most fatal month, June the least so. Peterboro' county ranks as one of the most healthy in regard to consumption, the death rate being only 5 per cent.

—They were coming from the "Temple" last Wednesday night; the flicker of a half cleaned coal oil lamp lighted them down the stairs; they were the last; they had waited to close shop, see that all was safe for the night. The last flicker of that lamp lit up her loving face as a beacon light to give courage to his faltering heart and wrong hopes. They arrived at the bottom of the stairs. He looked up and down the street to see that their companions were gone. "Jemmie" had left a little ice on the sidewalk in his hurry to get to tea. "Jemmie" was suffering from a hoarse voice owing to a big lump in his throat. "I've long waited for the opportunity." "Oh Lord I'm killed!" was the sudden heartrending cry which arose over the wail of the storm, & he slid some ten feet and brought up against a hitching post in front of the drug store, striking, as a sailor would say somewhere "between wind and water" Birdie screamed but one of our benevolent Physicians chanced to be near and in a few moments administered balm to their wounded souls, by assuring them that our amourous swain was uninjured beyond the sudden shock. Birdie, alas! will have to wait another time and place to hear

"That oft told tale,"

while he blesses the ice, his big feet and ruined prospects, and concludes that the old Scotch quotation.—"The best laid plans of mice and men gang aft agee," must have been meant to apply to him and his misfortune.

HARVEY.

COUNCIL MEETING.—The Harvey council met at the town hall, 10th March. All the members present. Minutes of last meeting read and confirmed. Communications read from G. J. Eason, and others, requesting the road allowance to be opened opposite lots 10, concessions 16 and 17 to the waters of Pigeon Lake. From Richard Gerrard, B. Cherry, and Wm. Ventress, notifying the council that they intend to close up the roads crossing their respective lots. From S. H. Crow, demanding compensation for the north half of the forced road, on the south side of the east half of lot 24 con 16. Also two letters from Jay Ketchum, Esq., concerning the forced road across lot 20 con 17 Harvey. Mr. Ketchum made verbal application for *compensation* for road across lot 17 con. 19 Harvey. Also tenders from the Peterborough *Times* and Bobcaygeon *Independent* offices, for printing and advertising for the current year. The Auditor's presented their report which was received and adopted, and the clerk authorized to procure 200 copies for distribution. The Treasurer was instructed to pay $10 to George Oliver for goods delivered by him to Robt. Johnson. The council made a further grant of $5 as charity to Robt. Johnson, and appointed Chas. McIlmoyle to procure necessaries to that amount. Messrs. Crowe's, Cheetham's, Ventresse's, Gerrard's and Shorey's applications laid over for consideration at the next meeting. W. M. Plaist is to be paid the sum of $75 and the side line road between lots 20 and 21 con. 17 from the marsh west to the rocky ledge, in lieu of forced road across lot 20 con. 17 Harvey. A by-law was passed appointing township officers for the current year. Also re-

FAINT HEART.

She stood before him, tall and fair
And gracious, on that summer's day,
With a rose first rose in her hair,
And on her cheek the bloom of May.
Her rosy cheek and dimpled chin,
And raven lashes drooping low,
Conceal the answer he would win;
It might be Yes; would it be No?

Ah! if 't were No—his throbbing heart
Stood fairly still with sudden pain;
And if 't were Yes, the world so wide
His deep content could scarce contain.
So wondrous fair! how could she stoop
To favor such a one as he?
Ah, sweet suspense that still leaves hope!
Ah, pain of said uncertainty!

He held her hand so white and small,
And moved to press it with his lips,
But ghosted his mind, and let it fall,
With delicate touch of finger-tips.
And took the seat she offered him
Upon the sofa by her side,
Now made the space between them less
Which seemed so narrow, yet so wide.

Then gazing on the perfect face,
The dimpled mouth, the serious eyes,
And, drinking in with eager ears
The music of her low replies,
He let the bright hours drift away,
Nor told the secret of his heart,
But when the shadows lengthened lay,
Rose, all reluctant, to depart.

And stammered forth, with blushing cheek,
An eager, timorous request
That she, for old acquaintance sake,
Would grant the rose-bud from her breast.
She gave it him, with downcast eyes,
And watched him leave her with a sigh,
"So good," she said, "so true, so wise;
Ah, me! if he were not so shy!"

—[Lucy Lee Pinneaus in Atlantic Monthly.

POMONA'S BRIDAL TRIP.

(Continued from last week.)

That'll do, says he, as we had our trunk sent to the station, and walked ourselves. When he got there, he says to me:—

Which number will you have, five or seven?

Either one will suit me, Earl Miguel, says I.

Jigsel, says he, an' we'll make it seven. An' now I'll go an' look at the time-table, an' we'll buy tickets for the seventh station from here. The seventh station, says he, comin' back, is Pokus. We'll go to Pokus.

So when the train come we got in, an' got out at Pokus. It was a pretty sort of a place, out in the country, with the houses scattered a long ways apart, like stingy chicken-feed.

Let's walk down this road, says he, till we come to a good house for a castle, an' then we kin ask 'em to take us to board, an' of they won't do it we'll go to the *next*, an' *so on*.

All right, says I, glad enough to see how pat he entered into the thing.

We walked a good ways, an' passed some little houses that neither of us thought would do, without more imaginin' than would pay, till we came to a pretty big house near the river, which struck our fancy in a minute. It was a stone house, an' it had trees aroun' it, an' there was a garden with a wall, an' things seemed to suit first-rate, so we made up our minds right off that we'd try this place.

You wait here under this tree, says he, an' I'll go an' ask 'em of they'll take us to board for a while.

So I waits, an' he goes to the gate, an' pretty soon he comes out an' says, All right, they'll take us, an' they'll send a man with a wheel-barrer to the station for our trunk. So in we goes. The man was a country-like lookin' man, an' his wife was a very pleasant woman. The house wasn't furnished very fine, but we didn't care for that, an' they gave us a big room that had rafters instid of a ceilin', an' a big fire-place, an' that, I said, was jus' exac'ly what we wanted. The room was almos' like a donjon itself, which he said he reckoned had once been a kitchin', but I tole him that a earl hadn't nothin' to do with kitchins, an' that this was a tapestry chamber, an' I'd tell him all about the strange figgers on the embroidered hangin's, when the shadders began to fall.

It raised a little that afternoon, an' we stayed in our room, and hung our clothes an' things about on nails an' books, an' made believe they was armor an' ancient trophies an' portraits of a long line of ancesters. I did most of the make-believin'; but he agreed to ev'rything. The man who kep' the house's wife brought us our supper about dark, because she said she thought we might like to have it together cosy, an' so we did, an' was glad enough of it; an' after supper we sat before the fire-place, where we made-believe the flames was a-roarin' an' a-crackin' an' a-lightin' up the bright places on the armor a hangin' aroun', while the storm—which we made-believe—was a ragin' an' whirlin' outside. I told him a long story about a lord an' a lady, which was two or three stories I had read, run together, and we had a splendid time. It all seemed real to me.

The nex' mornin was fine an' nice, an' after our breakfast had been brought to us, we went out in the grounds to take a walk. There was lots of trees back of the house, with walks among 'em, an' altogether it was sole-timey an' castleish that I was as happy as a lark.

Come along, Earl Miguel, I says; let us tread a measure 'neath these mantlin' trees.

All right, says he. Your Jigul attends you. An' what might our noble second name be? What is we earl an' earl-ess of?

Oh, anything, says I. Let's take any name at random.

All right, says he. Let it be random. Earl an' Earl-ess Random. Come along.

So we walks about, I feelin' mighty noble an' springy, an' afore long we sees another couple a-walkin' about under the trees.

Who's them? says I.

Don't know, says he, but *I* expect they're some o' the other boarders. The man said he had other boarders when I spoke to him about takin' us.'

Let's make-believe they're a count an' countess, says I. Count and Countess of——

Milwaukee, says he.

I didn't think much of this for a noble name, but still it would do well enough, an' so we called 'em the Count an' Countess of Milwaukee, an' we kep' on a meanderin'. Pretty soon he gets tired an' says he was a-goin' back to the house to have a smoke because he thought it was time to have a little fun which weren't all imaginations, an' I says to him to go along, but it would be the hardest thing in this world for me to imagine any fun in smokin'. He laughed an' went back, while I walked on, a-makin'-believe a page, in blue puffed breeches, was a-holdin' up my train, which was of light-green velvet trimmed with silver lace. Pretty soon, turnin' a little corner, I meets the Count and Countess of Milwaukee. She was a small lady, dressed in black, and he was a big fat man about fifty years old, with a gray'ish beard. They both wore little straw hats, exac'ly alike, an' had on green carpet slippers.

They stops when they sees me, an' the lady she bows and says good mornin', an' then she smiles, very pleasant, an' asks if I was a-livin' here, an' when I said I was, she says she was too, for the present, and what was my name. I had half a mind to say the Earl-ess Random, but she was so pleasant and sociable that I didn't like to seem to be makin' fun, an' so I said I was Mrs. DeSonderoe.

An' I, says she, am Mrs. General Andrew Jackson, widow of the ex-President of the United States. I am staying here on business connected with the United States Bank. This is my brother, says she, pointin' to the big man.

How d'ye do? says he, a-puttin' his hands together, turnin' his toes out, an' makin' a funny little bow. I am General Tom Thumb, he says in a deep, gruff voice, an' I've been before all the crowned heads of Europe, Asia, Afrim, Amerim, an' Australia,—all o'h but one,—an' I'm wettin' here for a team of four little with-ebin cows no bigger than tall cats, which is to be hitched to a little hay-waggon, which I am to ride in, with a little pitchfork an' real farmer's clothes, only small. This will come to-morrow, when I will pay for it an' ride away to exhibit. It may be here now, an' I will go an' see. Good-bye.

Good-bye, likewise, says the lady. I hope you'll have all you're thinkin' yours hopin', an' much too, but less of you'll like it. Farewell. An' away they goes.

Well, you may be sure, I stood there thinkin' enough, an' mad too when I found her talk about my bein' all I was a-thinkin' I was. I was sure my husband—meanin the make-believe husband—had told all. It was too bad. I wished I had jus' said I was the Empress Eugenie an' bounced it out.

I rushed back an' found him smokin' a pipe on a back porch. I charged him with his perfidity, but he vowed so earnest that he had not told these people of our fancies, or ever had spoken to 'em, that I had to believe him.

I supos', says he, that they're jus' makin'-believe—as we are. There aint no patent on make-believes.

This didn't satisfy me, nur as he seemed to be so careless about it I walked away, an' left him to his pipe. I determined to go take a walk along some of the country roads an' think this thing over for myself. I went aroun' to the front gate, where the woman of the house was a-standin' talkin' to somebody, an' I jus' bowed to her, for I didn't feel like sayin' anything, an' walked past her.

Hello! said she, jumpin' in front of me an' shuttin' the gate. You can't go out here. If you want to walk you can walk about in the grounds. There's lots of shady paths.

Can't go out! says I. Can't go out! What do you mean by that?

I mean jus' what I say, said she, an' she locked the gate.

I was so mad that I could have pushed her over an' broke the gate, but I thought that if there was anything of that kind to do I had a husband whose business it was to attend to it, an' so I runs aroun' to him to tell him. He had gone in, but I met Mrs. Jackson an' her brother.

What's the matter? said she, seein' what a hurry I was in.

That woman at the gate, I said, almost shakin' as I spoke, won't let me out.

She won't? said Mrs. Jackson. Well, that's a way she has. Four times the Bank of the United States has closed its doors before I was able to get there, on account of that woman's obstinacy about the gate. Indeed, I have not been to the Bank at all yet, for of course it is of no use to go after banking hours.

An' I believe, too, said her brother in his heavy voice, that she has kept out my team of little oxen. Otherwise it would be here now.

I couldn't stand any more of this an' ran into our room where my husband was. When I told him what had happened, he was real sorry.

I didn't know you thought of going out, he said, or *I would have told you all about it.* An' now sit down an' quiet yourself, an' I'll tell you jus' how things is. So down we sits, an' *says he, jus' as calm as a summer cloud.* My dear, this is a lunatic asylum. Now, don't jump, he says; I didn't bring you here, because *I thought you was crazy*, but because I wanted you to me what kind of people they was who imagined themselves earls and earl-esses, an' all that sort o' thing, an' to have an idea how the thing worked after you'd been doing it a good while an' had got used to it. I thought it would be a good thing, while I was Earl Jigsel and you was a noble earl-ess to come to a place where people acted that way. I knowed you had read lots o' books about knights and princes an' bloody towers an' that you knowed all about them things, but I *didn't suppose you did know how* them same things looked in these days, an' a lunatic asylum was the only place where you could see 'em. So I went to a doctor I knowed, he says, an' got a certificate from him to this private institution where we could stay for a while an' git posted on romantics.

Then, says I, the upshot was that you wanted to teach a lesson.

Jus' that, says he.

All right, says I; it's teached. An' now let's git out of this jus' as quick as we kin.

That'll suit me, he says, an' we'll leave by the noon train. I'll go an' see about the trunk bein' sent down.

So off he went to see the man who kept the house, while I fails to packin' up the trunk as fast as I could.

Weren't you dreadfully angry at him? asked Euphemia, who, having a romantic streak in her own composition, did not sympathise altogether with this heroic remedy for Pomona's disease.

No, ma'am, said Pomona, not long. When I thought of Mrs. General Jackson and Tom Thumb, I couldn't help thinkin' that I must have looked pretty much the same to my husband, who, I knowed now, had only been makin'-believe to make-believe. An' besides, I couldn't be angry *very long* for laughin', for when he come back in a minute, as mad as a March hare, an' said they wouldn't let me out nor him nuther, *I fell to laughin' ready to crack my sides.*

They say, said he, as soon as he could speak straight, that we can't go out without another certificate from the doctor. I told 'em I'd go myself an' see him about it, but they said it couldn't, for *they done* that way *everybody* who ever was sent here would be goin' out the next day to see about leavin'. I didn't want to make no fuss, so I told them I'd write a letter to the doctor an' tell him to send an order that would soss show them whether we could go out or not. They said that would be the best thing to do, an' so I'm goin' to write it this minute,—which he did.

How long will we have to wait? says I, when the letter was done.

Well, says he, the doctor can't get this before to morrow mornin', an' even if he answers right away we won't get our order to go out until the next day. So we'll jus' have to grin an' bear it for a day an' a half.

This is a lively old bridal-trip, said I, dry falls an' a lunatic asylum.

We'll *try* to make the rest of it better, said he.

But the next day wasn't no better. We staid in our room all day, for we didn't care to meet Mrs. Jackson an' her crazy brother, an' I'm sure we didn't want to see the mean creatures who kept the house. We knew well enough that they only wanted us to stay so that they could get more board-money out of us.

I should have broken out, cried Euphemia. I would never have staid an hour in that place, after *I found out what it was, especially* on a bridal trip.

If we'd done that, said Pomona, they'd have got men after us, an' then everybody would have thought we was real crazy. We jus' made up our minds to wait for the doctor's letter, but it wasn't much fun. An' I didn't tell no romantic stories to fill up the time. We jus' sat down an' behaved like the commonest kind o' people. You never saw anybody sicker of romantics than I was when I thought of them two loons that called themselves Mrs. Andrew Jackson and General Tom Thumb. *I* dropped Miguel altogether, an' he dropped Jigsel, which was a relief to me, an' I took strong to Jonas, even callin' him Jone, which I consider a great deal sifter and commoner even than Jonas. He didn't like this much, but said that if it would help me out of the Miguel, he didn't care.

Well, on the morain of the next day I went into the little front room that they called the office, to see if there was a letter for us yet, an' there wasn't nobody there to ask. But I saw a little pile of letters under a weight on the table, an' I jus' looked at these to see if one of 'em was for us, an' if these wasn't the very letter Jone had written to the doctor! They'd never sent it! I rushed back to Jone an' tells him, an' he jus' sat an' looked at me without sayin' a word. I didn't wonder he couldn't speak.

I'll go an' let them people know what I think of 'em, says I.

Don't do that, said Jone, catchin' me by the sleeve. It won't do no good. Leave the letter there, an' don't say nothin' about it. We'll stay here till afternoon quite quiet, an' then we'll go away. That garden wall isn't high.

An' how about the trunk? says I.

Oh, we'll jus' take a few things in our pockets, an' look up the trunk, an' ask the doctor to send for it when we get to the city.

All right, says I. An' we went to work to get ready to leave.

(To be continued in our next.)

A Japanese Christian Party.—We are pleased to chronicle the Sacramento Statement that on the fifteenth anniversary of their marriage, the audience of our friends, Mr. Hon. W. E. Otis, was invaded by a large number of friends, when they were presented with several valuable articles of plate, &c.

Mr. Yellowlees officiating in the most pleasant manner as host. A most pleasant evening was spent, and the affair passed off in a very happy manner. We are desirous of adding our congratulations, and hope our good friends may long flourish and live to enjoy the esteem of those about them, and the love of their interesting little family.

LADIES' COLUMN.

Bread-Making.

For many of the following hints I am indebted to Marion Harland:

It is not a pleasant thing to state, but it is a stubborn fact, that upon thousands of tables, in otherwise comfortable homes, good bread is an unknown phenomenon. I say phenomenon, because it would indeed be no marvellous estrangement of cause and effect were indifferent flour, unskilfully mixed with fat yeast, badly risen, and negligently baked to result in that pride of the notable housekeeper—light, sweet, wholesome bread. There are households where home-made bread is not used at all, because it is 'so troublesome and uncertain,' the mistress preferring to feed her family, growing children and all, upon the vari-colored sponges bought at the bakers—sponges inflated with sal volatile, flavorless and dry as chips when a day old, and too often betraying, in the dark streaks running through the interior of the *loaf*, want of cleanliness in the kneader. Yet these are all well-to-do people, who submit to these abominations partly because they do not know how badly off they are—chiefly because it is their way of doing, and they see no reason for changing. 'I have been a housekeeper for thirty years, and have always mixed my bread just so,' returned a mistress once, when I mildly set forth the advantage *of setting a sponge over night.* 'I put in flour, yeast and milk, if I have it,' and give them a good stir; then set the dough *down to rise.* Our folks don't fancy very light bread; there don't seem to be any substance in it, so to speak. Mine generally turns out pretty well, *It's* all luck after all, about bread.' 'Luck' rules the baking, and upon the shoulders of this invisible are laid the deficiencies of the complacent cook. Cheap flour and laziness are at the bottom of more mishaps in the bread line than any other combination of circumstances. You cannot by any stress of art produce excellent bread from poor flour. It is no economy to purchase it for this purpose. It is judicious to lay in two barrels at a time, and to use the best only for bread-making.

Next week we shall give minute directions for making bread.

An Sin Outdone.

The Princess Louise loses no opportunity to make herself admired and esteemed by the people of Canada. She is constant in good works, especially in church matters, Sunday schools, and for the relief of the poor. She recently entertained at Rideau Hall all the teachers and pupils of the Sunday School connected with the church which she attends The servants were dismissed, and the hungry children were served by the Princess, the Marquis and their suite. Addressing a pretty little girl, the Princess asked her if she would not take more cake. The little guest declined with awe, and her hostess, tearing that bashfulness was standing in the way, pressed her again. Again she declined. Her Highness, struck by the sweet modesty and childlike simplicity of the pretty creature, cut a large slice from the cake, and said, 'Well, my dear, you must at least take this home as a present from me; let me put it in your pocket.' The child hesitated, blushed, and exhibited a decided unwillingness to accept the proffered gift, and the more unwilling she seemed, the more charmed the Princess be, came with her innocent look and bashful diffidence. Using a gentle force, she found the pocket of her young visitor, when, lo! to her infinite astonishment, she discovered that it was already filled to overflowing with cake which this bland little Heathen Chinee had stealthily abstracted from the table.

The Need of Change.

Moodiness in woman may almost always be traced to an overtaxed condition of the system, to too much care, and to too long continued monotony in daily pursuits. A wife and mother surrounded by only cares is acted and re-acted upon by the same sights sounds and labors until the freshness and vivacity of the spirit become worn out. We are so constituted that our natures demand for *their enjoyment* of life, and for the vigorous exercise of our powers, change, variety and relaxation. For lack of these the interest in life diminishes; the mental horizon narrows life becomes contracted and seems not worth the living. Then come various unhappy moods and take possession of the mind. To learn to control and banish unhealthy moods is one of the tasks that must be undertaken by every woman who would lead a happy and useful life. The first step is to recognize their existence and influence. Reason must be called to the aid to declare that feelings of despondency, hopelessness, complaint and discouragement are but the result of a mood, and therefore can be resolutely held in check. If one can only bring one's self to make the frank acknowledgment mentally, 'I feel mean, cross and ugly to-day,' and then to restrain speech and action accordingly, the battle is half won. But vigorous action must be resorted to in order to dispel the mood, and for this nothing is so effective for women as to leave home, even if but for an hour. Get away where other influences will act upon the mind and body. If despondency and a complaining mood are dominant, go to see some fellow-creature who is in real distress; the remedy is almost a specific for such a mood. Above all things, moods need to be dealt with objectively. Don't go to introspection; don't think about yourself; don't set it down to a sinful heart, or to an religious or irreligious cause. The cause of moods is a purely physical one, and must be reached through the physical nature. Change of occupation, of surroundings, of air and exercise are the remedies for moods.—*St. Louis Evening Post.*

Trifles.

Very short hooped skirts are worn with short walking dresses.

Spring bonnets will be much larger than those worn this winter, and will tie closely under the chin.

Crown braids of light fluff strands of slightly crimped hair are worn once more.

Short, close-cut curls and idiot fringe make up what is called the mediæval style, and are much admired in France and England.

Turbans of soft embroidered cashmere are worn by young ladies.

Cotton cassocns will be the popular fabrics for spring wash dresses. They come in various colors and shades.

A doubled shade of old-fashioned purple is again in demand.

Perfectly plain undressed kid is superseding embroidered gloves, both in Paris and in London. Mitts still remain in favor for dinner wear.

There is a lady living in Chicago so superstitious that she will not wear a No. 13 shoe.

A Connecticut man recently paid 'Lord' one a dollar. My wife has left me and I want to advertise that I am not responsible for her debts.

The Boston *Globe* can't see no reason why a woman shouldn't have the ballot box if she wants it, after the election is over and there is no further use for it.

One of the wedding presents of the Duchess of Connaught is a silver chatelaine, with numberless appendages in polished silver. Among these is a cigarette case, a thing for which it is to be hoped that the bride has no use.

Miss Harriet Hosmer is complimented by the World, of London, as the greatest of the few female sculptors the world has ever seen, and one of the very few among those who have produced strong work and not mere prettiness.

The little chandelier vases that give such a graceful finish to street costumes, are to be made of foulard this summer, it is said, and adorned with knotted tassels of chenille, or a crimped mossy fringe of twisted silk.

The first importation of spring bonnets consists of soft English straws, fine smooth chips and rough chips, and ivory white, beige brown, grey and black. The shapes are quite large with ample square crown, and a broad brim that flares widely above the forehead, but clings close to the side.

And now we hear of a New York lady who has a small dog house in the corner of her boudoir. It is described as of finely-carved teak wood, stained glass windows at each side, and when the cherished occupant retires for the night, the 'portiere' is considerately and tenderly let down. The couch is an elder-down silken cushion, with lace-bordered coverings.

A young Spanish girl is an attractive object. Give her a becoming dress and place in her hand a fan, and she becomes almost irresistible. One cannot but marvel at the witchery and grace of a fan, a thing of paper, lace or silk, becomes in her hand. *It* must be an accomplishment born with them, for the tiniest child handles hers with equal ease. They have as many fans as Flora McFlimsy had bonnets, for no costume is complete without a fan to match.

Cure Your Horses.

It is to the interest of all who own horses to keep them in a healthy and sound condition; experience has proved that 'Darley's Condition Powders and Arabian Heave Remedy' is the most efficacious, and has been used by thousands who will cheerfully confirm this statement. For Heaves, Coughs Colds, and all diseases which affect the wind of horses it has no equal, nor is it equalled as a condition medicine; it purifies the blood, corrects and improves the appetite, and softens the skin; in fact so great is the improvement in the condition and appearance of the animal as to have led many to doubt if it could be the same horse. Remember the name and see that the signature of Hurd & Co. is on each package. Northop & Lyman, Toronto, Ont, proprietors for Canada. Sold by all medicine dealers.

Two Questions Easily Answered.

Why should men wear beards? Because they are a great protection to the throat and lungs, and add much to their personal appearance. Why should we use 'Bryan's Pulmonic Wafers?' Because when used for coughs, colds, tickling in the throat, hoarseness, &c., they act like a charm. Ministers and lawyers use them, physicians recommend them, and singers and public speakers say they are the very best medicine in existence for the cure of such complaints. Sold by all medicine dealers at 25cts. a box.

The Disease at Marmora.

(Campbellford Herald.)

As previously stated in these columns, though the inference might lead the public to think otherwise, the disease at present affecting the district an out Marmora is small-pox of a very malignant type. Its appearance has created much alarm in the neighborhood, and communication in every possible way, with the infected region, for a time was stopped. Many rumors respecting the mortality have been afloat, but we fear, they have been somewhat exaggerated. Whether there have been ten or one hundred deaths it is difficult to say, the statements made by individuals coming from Marmora being of such a conflicting nature, that no line can be drawn whereby we may gauge an assertion with safety. It is said that a physician of Belleville went to Marmora, recently, to ascertain the nature of the malady, and that he pronounced it one of the worst kinds of small-pox he had ever seen. Crediting them with whatever it is worth, persons who have witnessed the bodies of victims to this much dreaded disease, declare that they have turned perfectly black, a feature that is hardly known in the ordinary cases of small pox. This statement may or may not be true,—enlarged imaginations have carried about all sorts of rumors. Precautions are being taken against the spread of the disease; and the Corporation of Stirling has adopted the following resolution:

'Small-pox having assumed the form of epidemic in the north part of Rawdon and Marmora, all persons having been exposed to the same in any form are hereby forbidden to be or travel in the Corporation of Stirling, on *any* pretense whatever, and *any person so* doing will be prosecuted to the full extent of the law.'

Mitchell's Belladonna Improved India Rubber Porous Paster.

There never has been a time when the healing of so many different diseases has been created by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when scientifically compounded, is full of electricity, and when combined with the pure medicinal gums, is found to be one greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of RHEUMATISM, TICODOLOREUX, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a long seated Consumption.

Prepared by GEORGE B. MITCHELL Lowell, Mass

PETITT'S EYE-SALVE.

An Infallible Remedy for all Diseases of the Eye (acute or chronic), Granulated Lids, Sore Lids, Inflammation of the Lachrymal Canals, Films, and Weaknesses of the Vision from any cause.

The American Eye-Salve is presented the public with the assurance of its efficacy as a curative of the most diseases of the eye acute or chronic inflamation whether indeed by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ. Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, where weakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effective remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness such in its appliances, being used externally, and, of course, harming the pain and danger, which consequently attends the introduction of minerals and eye-washes. Burrowns and Old Country Scums, of scrofulous origin, or resulting from whatever cause, yield to the American Eye-Salve. It is used successfully for Piles. Its soothing effect is immediate, permanent cure requires but a few applications. The proprietors of "Dr. J. Petitt's American Eye-Salve," while nothing new and hundred 'Sanatory for making a more perfect box for the Eye Salve, have changed the Trade Mark on the cover so as to prevent imposition with the Out on the Eagle. Observe the name, Petitt's, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

Important Announcement.

W. J. LARMOUR,

In returning thanks to his numerous customers for the very liberal patronage bestowed on him since commencing business, begs leave to announce that he will **commence this week to sell off the balance of his Winter Stock** of Boots, Rubbers, Felt Goods and Moccasins at a Small Advance on Cost, to make room for his Spring Stock, which is now being manufactured.

The Custom Department.

This branch of my business is now the largest enjoyed by any similar establishment in the Province, and being under my own supervision, it will continue to receive that careful attention which has placed it in its present position. It will continue to embrace the Latest Styles, the Best Material and the Finest Workmanship, at reasonable prices. *My motto in future shall be as in the past:—*

"Ahead in the Boot and Shoe Line."

A Cash Business.

With all parties who have not paid their accounts promptly in the past, I have determined to do a strictly cash business, and from this date no new accounts will be opened. All overdue accounts and notes must be settled at once, otherwise they will be placed in suit for collection.

February 1st, 1879.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.
(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly; or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$25 40	Each.
"	6	" " "	22 60	"
"	8	" " "	17 75	"
"	10	" " "	15 85	"
"	12	" " "	13 95	"
"	15	" " "	12 65	"
"	20	" " "	10 60	"

In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

MESSRS. POUSSETTE & ROGER,

AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

INFORMATION FOR PHYSICIANS.

RUPTURED AND DEFORMED PEOPLE.

Grand Medal and Diploma at the Centennial, Philadelphia; Grand Medal at the Universal Exhibition, Paris, France. Recommended by a large number of our leading medical men.

Charles Clothe's Patd Spiral Truss Pad has been the result of many years' study and material experience. Its perfect adaptability for Rupture is proven by the thousands now in use. Among its many advantages are, gentle, constant and even pressure; it gives to the motion of the body without friction; complete ventilation (as shown in engraving); a clamping apparatus which does not open (as all oval pads) but closes the aperture of Hernia, hence only one-third pressure is required. It is this latter feature that has made this truss so eminently successful and proved a Radical Cure of from 50 to 70 per cent. of cases treated. This Truss cured persons of over 20 years of age. Only one belt round the waist, *no leg straps* and no springs required for its use.

Appliances for straightening Spinal Curvature, Hip Disease, Bow Leg, Wry Neck, Club Foot, etc., made on most scientific principles. Price same as at my office.

CHARLES CLUTHE,

Surgical Machinist, Hamilton, Ontario, will visit Peterborough again about the month of June. Date announced shortly.

Feb. 12, 1879. 1-26t

50,000 Bill Heads Just Received

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and *spirits were seriously affected.* When your Agent came to Walkerstown in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Fort Elgin, Ont., Aug. 24, 1878.

Ask for Littlefield's Constitutional Catarrh Remedy and take no other.

MANHOOD: HOW LOST, HOW RESTORED!

We have recently published a new edition of **Dr. Culverwell's Celebrated Essay** on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., *resulting from excesses.*

☞Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically.*

☞This Lecture should be in the hands of every youth and every man in the land.

Address, **THE CULVERWELL MEDICAL CO., 41 Ann Street, New York.**

Post Office Box 1586. 2 ly.

TO CONSUMPTIVES.—The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address R.A. WILSON, 149 Penn St., Williamsburgh, N. Y

PILES.—Dr. Tobey's Celebrated Pile Remedy is the best ever known for Piles of every kind (*Bleeding, Itching, Blind, Protrud, Etc.,*) and all diseases of the Rectum, whether from old or recent standing. It gives instant relief, and in most cases a speedy permanent Cure. It is the only remedy ever discovered for which this can be truthfully claimed. In fact, in almost every case where one application is made, the patient will feel a benefit. Only a trifling expense, and can be sent by mail on receipt of price. Dr. T.'s Pile Ointment is only 50 cents.

PIMPLES.—Your Complexion, Hands, Arms, Feet, Limbs, Head, Face, Body, Etc., Etc., made perfectly pure, soft, white and beautiful by using Dr. Tobey's Celebrated Pimple Remedy. It is the only remedy ever discovered for Pimples, Blotches, Blackheads, Flesh Worms, Etc., Etc., and can be sent by mail on receipt of price. Dr. T.'s Pimple Remedy is only 50 cents.

THE —VERMILION— SIGN.

From our experience during the past year we discovered that numbers of people were unable to readily find our establishment, and as it has been our earnest endeavor at all times to accommodate and oblige our customers in every way possible, we decided to prevent this difficulty in future, and have now put up a sign different to any on the street. It is bright and cheerful, and as it stands out in bold contrast with all the other signs on the street, will be quickly seen by purchasers.

It is gratifying to know that our business is much ahead of what it was this same period last year, and we intend by keeping only first class goods, at reasonable prices; and, by due attention and respect to customers, to work up a business that will compare favourably with any of our large city stores.

DANCING.

BY MACK.

"To be, or not to be," a query dancer:
"That is the question," let us have an answer.
Whether the shapes danced by Terpsichore;
For dreadful pegs meant to save your bacon;
Whether head blots and sausages soon kicked
To rest the heaven of the troubled mind.
If the dance tends by tools, much more vile
thought
Will take the mind by such misdirection taught
And wile it from the path it would pursue,
And lead the heart a dance it never knew.
The rapturous thoughts of many a girl or boy
Give physical expression to their joy.
In airy meeting of the willing feet
While music fines their feelings to its beat.
Must our young people much dancing forgo,
Because some dancers, whose minutes are but low
And stand of making vice to virtue yield?
See virtuous positions banished from the field!
For vice would only have to show its face
And worth and virtue would retain their place:
And maps armed with Parkman's brave,
And crowd at that they seek not to put down;
Why shrink to lop the rotten limbs we see,
Nor tell the bigot "Woodman spare the tree";
If this strange rule to pleasures were applied
The good from all that's good would be denied.

* * * * * * *

"Methinks the glare of yonder chandelier
Shines much too bright or I am much too near,"
Was groaned by envy cooped by jealousy
In one whom ridicule forbade to waltz.
"On with the dance let joy be unconfined;"
So Byron's too, and from his corpse mind;
If [illegible] on dancing [illegible]
Some preach 'gainst dancing from a cause as lame.

PORT HOPE.

RE-APPOINTED.—The *Times* states that Mr. A. White, for many years General Freight and Passenger agent of the Midland Railway, has been re-appointed to his old position.

Bobcaygeon.

AN OLD WOMAN BURNED TO DEATH. —Wednesday morning about four o'clock a small dwelling a few yards from Wm. Jackson's house, at the Scotch line, six miles from here, was burned down. An old lady named Mrs. Fletcher, over ninety years of age, was burned to death. Mrs. Fletcher lived alone in the house. The fire was not discovered until the house was all in flames, and too late to rescue the unfortunate woman. The cause of the fire is unknown.

LINDSAY.

A CENTENARIAN.—On Saturday morning last a sprightly old man entered Weese's bazaar and purchased a pair of French calfskin boots and a plug of tobacco, and chatted for a while in as lively a tone as any person in the prime of life. In conversation with Mr. Geo. Weese he said his name was Little and that he lived for a number of years in Darlington township and had now removed to Lindsay. He was born in Ireland on Christmas day, 1776, and is now in his 103rd year. He has full possession of all his faculties and to convince Mr. Weese of the preservation of his sight took up a paper with fine print and read in a full clear voice without the assistance of spectacles. His present wife is 98 years of age and is almost as hale as himself. The worthy couple expect to live for a decade or more. They are stopping with Mr. Robert Brown, bill poster, who is the old lady's son.—*Post.*

ENNISMORE.

COUNCIL MEETING.—The council met in the Town Hall on Monday, the 10th instant. All the members of the Council present. Daniel Costello, Esq., Reeve, in the chair. Minutes of last meeting read and confirmed. Moved by Robert Calvert, seconded by Paul Costello,—That By-law No. 168, for the purpose of regulating statute labor, be read a first time.—Carried. Moved by Councillor Conners, seconded by Michael Crough,—That By-law No. 168 be read a second time.—Carried. Moved by Paul Costello, seconded by Robert Calvert,—That By-law No. 168 be read a third time, passed and the corporate seal attached to the same.—Carried. Moved by Paul Costello, seconded by Robert Calvert,—That By-law No. 169 for the appointing of pathmasters, fenceviewers and poundkeepers be read a first time.—Carried. It also received its second and third readings and the corporate seal attached to the same, appointing 32 pathmasters, 9 fenceviewers and three poundkeepers. Moved by Councillor Conners, seconded by Robert Calvert,—That Paul Costello and Michael Crough examine the line between the 8th and 9th lots in the 8th con. to see if they can purchase a road allowance at a reasonable rate and report to the Council at its next meeting.—Carried. Moved by Paul Costello, seconded by Michael Crough,—That John Corkery be allowed to perform all his statute labor on the 8th con. line.—Carried. Moved by Councillor Conners, seconded by Paul Costello,—That the Clerk be authorized to notify all parties owning the fence between lots 6 and 7 from the 6th to the 8th con. line that they be removed off the road allowance.—Carried. Moved by Paul Costello, seconded by Robert Calvert,—That By-law No. 170, for the purpose of opening up part of the road allowance between the 7th and 8th con. from lots 5 to lots 9, be read a first time.—Carried. This also received its second and third readings, passed and the corporate seal attached to the same. Moved by Michael Crough, seconded by Paul Costello,—That this Council prohibit any person from purchasing gravel without an order from the Council to purchase the same.—Carried. Moved by Paul Costello, seconded by Michael Crough,—That the Clerk notify Garret Sallliver, jr., and Cornelius Conners to move their fences between the south half of lots 7 and 8 in the 9th con. without delay of the right of way in accordance with survey. by T. B. Clementi, P. L. S.—Carried. Moved by Michael Crough, seconded by Paul Costello,—That the time for the return of the Collector's roll be extended to the 15th day of April next.—Carried. Moved by Michael Crough, seconded by Paul Costello, That by-law No. 171 for the purpose of opening the road allowance between the 8th and 9th con. from lot 6 to Pigeon Creek be read a first time.—Carried. It also received its second and third readings, passed and the corporate seal attached thereto. On motion of Paul Costello, the Council adjourned. The Assessor having notified the Council that he intended assessing the township more on a cash basis than it had been in the past, it was therefore in anticipation of said change that By-law No. 168, affecting statute labour was passed by the council. The following is the scale on which statute labour will be based for the ensuing year:—All names of not value than $300, and not exceeding $500, one day; all names of not value than $500, and not exceeding $1000, two days; all names of not value than $1000, and not exceeding $2000, three days; all names of not value than $2000, and not exceeding $3000, four days; all names of not value than $3000, and not exceeding $4000, five days; PETERBOROUGH, MARCH 27, 1879.

A FRAUD ON THE FARMERS.

Agricultural implements are made 7½ per cent dearer than they were before the "National Policy" was inaugurated. Corn, used by the farmers for feeding, costs 7½ cents more per bushel. Brick for building is 2½ per cent dearer. Lime 22½ per cent. China and porcelain are increased 2½ per cent; clocks or parts thereof 17½ per cent; coal, which many farmers now use, 50 cents per ton. Cotton cloths of all kinds are increased in price, the seamless bags used by every farmer. Cotton clothing is put up 12½ per cent, and spools and all other manufactures of cotton 2½ per cent. Drain tile cost 20 per cent more now than formerly; and earthenware and stoneware from 7½ to 12½ per cent more according to quality. What plated ware the farmer wants will now cost him 12½ per cent more than before. Furs for winter wear are increased 7½ per cent. Furniture will cost no less than 17½ per cent more. The nuts, spokes felloes &c., that go into the farmers waggon, buggy, cultivator or hay rake are increased 2½ per cent. Boots and shoes will cost him 7½ per cent more. Iron of all kinds, will take an amount out of his pocket largely additional to what it cost before. For instance castings to refit his machines are increased 2½ per cent, stoves 7½; scales, balances and weighing machines 12½; wire nails, 12½; wood screws, 17½; bolts, nuts, washers and rivets, 20, iron furniture and hollow ware, 7½; all hardware, horse shoes and nails, tacks, brads, &c., 12½ per cent. If he want a watch, or his wife or his daughters jewelery of any kind he must now pay 2½ per cent more than it would have cost him before he was "protected." An addition of 2½ per cent is put on the mustard that goes on his table. Nails of all kinds will cost him more, and so will oil cloths for his floor. If he wants to put an organ in the house for the musical education and domestic happiness of his family, he must pay an additional tax of 10 per cent, beside from $10 to $30 added to the cost of the instrument. Paints and colors will cost him 2½ per cent more than formerly, while paintings, engravings, drawings or prints for the decoration of his parlour will demand an additional 20 per cent. Paper and envelopes will cost him 7½ per cent more than under the old tariff. Plaster of Paris is increased 2½ per cent; putty, 7½; salt, 12 cents per hundred; seeds, 15 per cent; shingles, 2½ per cent; shovels, spades, hoes, forks, axes, scythes, saws and all such like tools 12½ per cent; cutlery and firearms, 2½ per cent. Sugar is greatly increased in price, having both a specific and *ad valorem* duty placed on it, as have also syrups and molasses and tea. Tinware is increased 7½ per cent. So are trunks, satchels, valises and carpet bags. Varnish is put up 2½ per cent besides having a specific duty placed on it of 20 cents per gallon.

This is how the farmers are taxed, while they really get nothing to make up for it.

AMUSING INCONSISTENCY.

Poor Scott! Poor Hillyard!—Their party paper claims that they have been hardly dealt with because of criticisms passed at a meeting in Selwyn, at which neither of the poor, dear creatures was present. Though these fragile fellows have taken public positions, a friendly journal rules that they be exempt from public discussion of their acts and utterances, except when they are present. This theory would really enable them to occupy all sublime heights of simple exclusion of their natural positions. As it is, we find ourselves in the position of having to criticise [illegible] exemption must include from allusions to the representative men of the opposite party unless these men are individually on the spot? Do Tory speakers regulate themselves so? It is exceedingly amusing to hear a charge of unfairness on behalf of Mr. Hilliard, who voted to censure the Lieutenant-Governor of Quebec, when that gentleman is in a position that prevents his being heard in his own defence. Is Mr. Hilliard to be cowed off as mildly as a sucking dove, though he helps along interference in the concerns of the Provinces of Quebec, with which affairs he has no more to do than a member of the French Assembly, or the New York State Legislature? Mr. Scott, too, is unfortunate in having the term "dishonorable tactics," coupled with his name. It reminds one of the hand he took in the filibustering which characterized the Opposition throughout the late session of the Provincial Legislature, as will be seen by reference to our record of his votes. He is to be allowed to indulge in the trap practice in Parliament, in order to try and embarass his opponents; to even support the reduction, without cause, of public servants salaries, when they can't defend themselves; yet unless his high presence permits, no one is to discuss him or his public performances! "Me led" Scott, and "me led" Hilliard should not have ordinary criticism come between the wind and their nobility. "Positively, ah, it's too doosed yaw knaw!"

THE DUTY ON PORK.

An elaborate argument is attempted by a Tory protectionist paper to show that the price of barrelled pork has not been increased by the *new tariff*. Of what use then was the re-adjustment? We are told that the price of cured pork and lard has been raised. This is a clear burden upon the thousands who use these articles. Of course the inference is that the producer will be benefitted to the extent of the increase; but at the best it is taking the money out of one class of the community for the pretended enrichment of another. The amount of home fed pork has never been sufficient to supply the demand. "But," says your Protectionist, the new order of things will encourage the raising and fattening of vastly greater numbers of hogs for market. If it does the excess of supply will soon bring prices down to, or even below the old level; for the surplus product is handicapped, so far as an export trade is concerned. The whole system of trade is thus deranged to no good purpose whatever. Probably the worst feature in the case, so far as the farmer is concerned, is the tax on the western corn used for fattening. This will at once far more than eat up the estimated gain of sixty cents on each hog. Any farmer can easily calculate his loss by considering the number of bushels of corn it takes to fatten one hog, and multiplying it by seven and a half cents, the duty upon and increased cost of each bushel. Now that they can apply a practical estimate, the farmers will see that Protection means money out of their pockets at every turn.

REDUCTION OF SALARIES.

As we expected the Opposition amendments relating to reductions in official salaries are being referred to as a movement in favor of "economy." It is very strange though that the desire for economy did not arise in the Tory mind till the last session of Parliament. For instance Mr. Scott and his colleagues did not think of economy when they favored the increase of their own indemnity as members. Oh no! They waited till Parliament was about being dissolved, when they knew no change could fairly be made, and then attacked the salaries of old and experienced members of the civil service, whose efficiency even they could not impeach. This was neither fair to the officers nor to the country; for it was a needless imputation on the one hand, and an attempt at deception on the other. In no case could it be shown that any of these gentlemen received more than payment for the duties he performs. Indeed such a thing was not attempted by these pretended economists. Their chief plea was that because living was cheap, the public servants could stand a reduction; but now that the "economical" friends at Ottawa of these Ontario economists have raised the price of living, even that poor excuse will not endure. It is rather an unfortunate admission that made by a Tory paper, that as the Tory Protectionist pledges have been fulfilled, so would the Tory promises of economy. The Protectionist pledges have indeed been fulfilled; but how and to whom? Every industry was to be protected, and everybody benefitted. Has this been the case? Far from it; and so with this clap-trap about economy. The Tories if they went into power could not make the reductions they have proposed in Opposition; and even if they did it would be anything but economy to recklessly cut down the salaries of the best public servants in the employ of the Province. No one of the Opposition motions in this regard will bear common-sense examination.

WEST PETERBOROUGH.

Owing to unforseen private circumstances, Mr. Bell finds it incumbent on him to retire from the candidature in this Riding It must be admitted that to every man must be conceded the right to judge as to the time and labor he is able to bestow, to fairly perform his share of the duties encumbent on a candidate. After due consideration, Mr. Bell is reluctantly compelled to state to the committee that his private business would materially hinder him in pursuing the canvass, and in consequence he considered it best to let the committee know so that some one not hampered in this respect, may be placed in the field. Mr. Bell had excellent prospects of success, and hence many will be sorry to learn of his withdrawal, since Mr. Bell could not devote the necessary time to the canvass. His withdrawal so early, will enable the committee to make other arrangements, without interfering with the prospects of the final result. There need be no fears on the part of friends, nor jubilancy on the part of opponents, that another candidate will hesitate to contest the riding. Another candidate will soon be in the field, and Reformers would do well to remember that there is time enough. The elections will not take place before June. There is therefore two full months for preparation and canvass. The Riding is compact, and success almost certain—under reasonably prudent action—so great is the genetal feeling of discontent over the trickery and deception practised in the late contest, and over the humiliation and dishonorable policy of the Government

OTHER DISHONEST TACTICS

The following letter appears in last week's issue of the *Irish Canadian*. :—

LETTER FROM WESTWOOD.

To the Editor of the Irish Canadian.

DEAR SIR,—Scarcely had the excitement attending the last General Election died away, when we find ourselves in the throes of another. I do not marvel indeed at some of your correspondents protesting with vigour against being dosed to death with politics. And yet, although Peterborough East has been the scene of many a stubborn battle between contending factions, the contest now impending shows no abatement either in excitement or in interest. The Candidates who now grasp our hands, smile on our wives, and caress our babies, are, on the side of Conservatism, Mr. Henry Calcutt of Ashburnham, and on that of Reform, Mr. Thomas Blezard of Otonabee. That the readers of your journal may be able to pronounce an intelligent verdict, I will briefly examine the claims of the latter.

When I tell you that Mr. Blezard is a Grit Orangeman; that he joined the Orange Association with a view of revolutionizing it, because of its "truckling to Popery;" and that he is now the "Master" of a number of Orange lodges as leader, as over the head of John Knox proceed. I fancy I hear somebody say that this is sufficient recommendation; and that, without further comment, we should fling our "bonnets in the air, and in one long, loud, Irish shout cry: "Hurra for Blezard."

But there is another strong claim which Mr. Thomas Blezard has upon Reformers, particularly those of that stripe called "Double Reformers." When Mr. John O'Donohoe of Toronto a sterling Reformer, contested this Riding for the Local Legislature, what course did Mr. Thomas Blezard, the "Reformer," pursue on that occasion? Did he vote for Mr. John O'Donohoe, the Reformer? Oh no! Mr. Thomas Blezard's stomach threatened to march to the front in actual rebellion at the idea of its owner, to such like ever touching patriotism, by "having to swallow the Pope, breeches and boots."

One would think that the foregoing would be sufficient to secure every Catholic vote for Mr. Thomas Blezard: but the sum of his claims is far from being exhausted, although I propose to add but one more at present. A few years ago our Riding was contested for the Local Legislature by two Irish Catholics—Dr. O'Sullivan on the side of Conservatism, and Mr. James Hogan on that of the Reform. What line of policy did Mr. Thomas Blezard adopt? Just then? Mr. Hogan swallowed the entire gospel according the *Globe* and James Stratton. Bootees and stockings to his represented six feet six inches of the most orthodox Clear Gritism. Did Mr. Thomas Blezard vote for this strapping specimen of a Reformer? Not a bit of it! There was residing in Norwood a ferocious Clear Grit Orangeman named Sargeant, better known as "Scullabogue" Sargeant, a man—pardon the misnomer—who by the most frantic and incendiary appeals to the basest passions of a perverted nature, has managed to array, in all the bitterness of sectarian strife, neighbour against neighbour; and this was the gentleman whom Mr. Thomas Blezard trotted out, in the hope that two Catholics being in the field, his *portage* might ride in on the wave he had lashed into fury. "Scullabogue" received the votes of a few such men as Mr. Thomas Blezard; Mr. Hogan received an emphatic command to remain and keep him company; and Dr. O'Sullivan became our member by a majority of over 300.

This will do for the present. I may, however, before long furnish you with a few additional reasons why our Riding should be represented in the next Local Parliament by Mr. Thomas Blezard.

Before beginning those I desire to enter my protest against the shameful treatment meted out to Mr. James Miller of Otonabee, by the so-called Reform Convention. Had this old and consistent Reformer been selected, he would doubtless receive the votes of ever man like

A CATHOLIC REFORMER.

The object of the writer of the foregoing is obvious, and disreputable,—disreputable even though the means which are adopted to further the end in view were honest means. It is disrepatable to endeavor to stir up religious and sectarian animosities where such feelings have no right to obtain in any degree whatever. To foment these jealousies and animosities is the object of the writer of the above letter,—and the attempt is a clumsy one. The arch-deceiver, we are told, not unfrequently finds it effective, in the furtherance of his infamous designs, to tell half the truth. The difference, in this case, between the last-named individual and the correspondent of the *Irish Canadian* is that while Satan tells half the truth, the "I. C. Reformer" tells no truth—or, at most, whatever glimmer of truth there may be only serves to make the surrounding darkness of falsehood more visible.

Had it so happened that Mr. Blezard had cast every vote of his lifetime against a Catholic, that, in itself, should not prove any barrier to him in his election to the Legislature, for the fact of his not voting for a Catholic candidate, in a political election, should no predicate anything in regard to his religious feelings. But the case has not happened so,—it is notoriously the reverse. During his career as a public man, Mr. Blezard has been repeatedly, time and again, found strenuously supporting the election of Catholic aspirants for both municipal and parliamentary honors. In the mater of municipal elections particularly has this been the case,—in fact we have ascertained, and our proof for what we say is indisputable, that Mr. Blezard has happened to support every Catholic who has presented himself for election in the Township of Otonabee since he has had a vote to cast.

We cannot well bring ourselves to think that the writer of the above letter was cognizant of the actual facts of the case upon which he writes; if he was, the elasticity of his conscience must be something shocking. Can it be that he is not aware that, during the election campaign when Messrs. Sargeant, Hogan and O'Sullivan were the candidates, Mr. Blezard not only actively assisted in the canvass for Mr. Hogan, but actually seconded his nomination, and certainly had no part or interest in the bringing forward or subsequent support of Mr. Sargeant?

Mr. Blezard's sole reason for his opposition to Mr. O'Donoghue was that he was an outsider. Mr. Blezard holds the opinion that when men competent and willing to discharge the duties of parliamentary representatives can be found within a riding, it is better to support such an one than an outsider.

In regard to the phrase—"having to swallow the Pope, breeches and boots" which, the correspondent alleges, was made use of in reference to the candidature of Mr. O'Donoghue, we have Mr. Blezard's most explicit denial of his ever having used such an expression. This denial, however, is unnecessary, for those who know Mr. Blezard best are well aware that he is not wont to indulge in expressions of this nature.

This writer also seeks to make a point against Mr. Blezard by informing the Catholics of the Riding that he is an Orangeman, forgetting in his haste, or his ignorance, or his dishonesty to tell them, that Mr. Blezard's opponent, Mr. Calcutt, is also an Orangeman.

When a man stoops to political trickery he must needs have some wit to support him: this writer should never stoop.

THE NATIONAL POLICY.

How it is Regarded by British Statesmen and Journals.

The Ministerial reply to John Bright's question concerning the changes in the Canadian tariff was of the nature anticipated. It was to the effect that the Dominion of Canada can do as it pleases while it keeps within the provisions of the British North American Act.

The Conservative, Liberal, and Independent papers both daily and weekly, unite in condemning the protectionist policy of the Canadian Government. The Times, in a second article, and the *Bullionist, Economist, Spectator*, and *Standard* reiterate the opinions which have been previously cabled. The general feeling is that England must allow Canada full liberty of action, and that Canada will soon discover her mistake, from which she will be the chief sufferer.

PETERBOROUGH IN PROVINCIAL AFFAIRS.

Votes of its Members During the Late Legislative Session.

(Continued.)

In our consideration of the votes of the Peterborough members in the Legislative Assembly last session, our last reference was to the series of Opposition resolutions against concurrence in the Estimates, whereby they hoped to get a name for retrenchment by moving for reductions of Departmental salaries on no ground whatever. As this is a matter out of which the opposition will probably try to make party capital during the coming campaign, we may have occasion to refer to it again and specially. We will therefore dismiss it at this time, and pass on to later divisions.

On the 5th of March, on the vote for miscellaneous expenses coming up, an Opposition resolution and amendment were moved, expressing vain regrets with reference to the difficulty between the government and the printing contractors, and inferentially blaming the government. For both these useless and merely party resolutions, West Peterborough was made to vote, the East Riding again escaping through the failure of its representative to vote at all.

A motion was then made to cut off the item for salary and expenses of the Division Court Inspector. West Peterborough also voted for that.

It was then moved that the resolution be referred back to have the item of $2000, for salary and travelling expenses of Inspector of Registry offices reduced by $500. This was carried on a division of 43 to 35.—the member for West Peterborough voting for it, though he spoke against it, when he saw that a proposed reduction was really likely to take effect.

The resolution as amended having been brought in was carried on a division, the member for West Peterborough voting *against* it.

On the 7th of March on the resolution for expenses of legislation coming up for concurrence, the Provincial Treasurer moved, seconded by Hon. Mr. Pardee, that it be referred for the reduction of the item of $1500 for the Speaker's salary by $250. Mr. Scott moved, seconded by Mr. Lauder, that the reduction be $500, and on the division being taken. East and West Peterborough voted for the amendment. When the Bill had been returned from committee with the proposed amendment made in it, Mr. Scott again, seconded by Mr. Lauder, moved its recommitment that the item of $400 for the salary of the Clerk of the Crown in Chancery be struck out. An amendment, also against concurrence in the item, and proposing to attach the duties of the office to that of the Clerk assistant of the House, was ruled out of order as interfering with the expenditure of public money recommended by the Crown. Another amendment was then proposed, which while concurring in the item, expressed the opinion that the duties of the Clerk of the Crown in Chancery might be attached to some other office or officer, and thereby a saving effected. Against this the Peterboroughs were made to vote, as also against the motion as amended.

On the same resolution another clap-trap motion was introduced calling attention to the increase from 1868 to 1871, and again to 1878, for sessional writers, messengers, and papers, while at the same time admitting concurrence. This was simply another implied censure of the Government, and as such was of course voted down; but the Peterboroughs were again made to give purely partizan votes.

On the resolution respecting the expenses of the Court of Chancery coming up for concurrence, Mr. Deacon moved, seconded by Mr. Scott, for a reduction of all salaries exceeding $800 (those of the best officers) by ten per cent., but that no such reduction be made in salaries under $800. West Peterborough voted for this absurd proposition; but the East Riding member did not vote on it.

On the resolution for the expenses of the Court of Queen's Bench, a similiar *ad capitandum* motion was made by Opposition ists with an additional proposition, to strike out the item of $700 for the salary of the assistant to the Clerk of Process. West Peterborough also voted for this the East Riding again not appearing in the matter.

On the resolution for expenses of the Court of Common Pleas, another Opposition motion for a ten per cent. reduction of salaries over $800 was made, and got the vote of West Peterborough.

On the resolution for payments to Superior Court Judges, a supporter of the Government moved recommitment to strike out the payment to the Judges under 35 Vic. cap. 5. An amendment for concurrence, and stating that there is no reason to warrant the discontinuance of the allowance was presented. West Peterborough voted against this, and immediately after in favor of another amendment presented in which concurrence was proposed, and the opinion expressed that the good faith of the Province is pledged to a continuance of the allowance. An amendment moved by the leader of the Opposition, in favor of a representation to the Dominion Government with a view to have the allowance hereafter assured by the Dominion, and not continued to appointments hereafter made, was agreed to unanimously.

On the resolution respecting expenses of Criminal Justice an Opposition motion was made to strike out the $1500 for salary of J. W. Murray, detective officer; and West Peterborough was forced to give the usual party vote. The same occurred on motions to strike out the salary of the Police Magistrate at Clifton, and Fort Erie, and that of the Stipendiary Magistrate at Parry Sound, both of which propositions West Peterborough was made to favor.

On the 8th day of March, on motion for the third reading of the bill to amend the Assessment Act, Mr. Bell moved for its recommitment for instructions to repeal Section 25 of the Assessment Act, respecting lawns, paddocks, gardens and pleasure grounds,—an unconsidered proposition which was properly voted down; but West Peterborough voted for it.

On the same day West Peterborough was made to declare for two instead of three Inspectors of High Schools, to reduce all salaries over $800 in the Education Depository; for reducing the salaries of the Minister and Deputy Minister of Education, and all salaries of more than $800 in the Education Department; for cutting off the third assistant physician in the London Asylum; for the reduction of the salary of the warden of the Central Prison, and against the advantage of a Central Prison where prisoners may be employed, instead of idly crowding the County jails; for reducing the salaries of the President and Professor of Agriculture in the Agricultural College, and striking out that of the Assistant English and Resident Master, and against the employment at the college of thoroughly competent professors; against the maintenance of the School of Practical Science; for reducing the item for immigration, and against an expression of pleasure that the *per capita* expense of bringing immigrants has been reduced; for the non-insurance of Provincial property, and against the principle of placing a small sum at the disposal of the Government as necessary gratuities for officers whose services may be dispensed with during the year; and for the reduction of the vote for unforseen expenses by $20,000.

On the 10th of March, the member for West Peterborough moved and voted, with only seventeen others, to give Mayors of towns separated from the county, a seat on the board of county selectors of jurors. On the same day he voted, with the majority, against introducing the ballot into school trustee elections, and against a motion for holding school trustee nominations and elections in the city of Toronto, at the same time and in the same manner as the municipal elections, and for Aldermen, Mechanics only getting two votes in its favor, the member just voting for 5; again, to prevent the Lieutenant-Governor of Quebec, lately dismissed, being called on to testify before the Committee of Privileges, and to allow the Committee to sit while the House was in session; and finally to vote in favor of the Bill to amend the Act respecting the Legislature of Ontario and Quebec, and the Boundaries of the Provinces of Ontario and Quebec.

Act, who had lived six months on his land, cleared five acres, and properly fenced it, the right to sell his land.

This is the record of the votes of East and West Peterborough during the session, whereby it will be seen that one Riding appeared comparatively seldom, whereas the other was almost constantly represented in the division lists. That the East took so little part in the session's legislation is perhaps just as well. At any rate there is scarcely any use in discussing the point seeing that the person who pretended to represent it during the last Parliament has retired from the scene, and is desirous of quitting political life. The West Riding however, will be called on to pass judgement on the part it has been made to play by its member, who is about to seek re-election. It was thought when he went to parliament that he would be a man to hold himself above party trammels and petty partizan pretences. Particularly was this expected of one who was elected by so very narrow a majority as one electoral vote, seeing thus, that at least one half his constituents were opposed to the party of which he was a candidate. But it seems he did not have the good taste to see this, or that he chose to ignore it, which is much worse. He has, particularly during the last session, completely sacrificed his character for moderation, his former record for candour if not for complete independence of thought, and established a name as a partizan puppet and a thoroughly inconsistent politician. In proof of this we shall have more to say before election day.

OUR OTTAWA LETTER.

Government days (Tuesday and Friday) only being devoted to the debate on the tariff; it will no doubt drag along for the next week or two. It is not very interesting to listen to, the talk is all on one side and the argument on the other. The Government people draw rosey pictures of

WHAT WILL HAPPEN;

but it is always going to be, but never is On the other side the theoretical and logical argument is sound to the core, and its soundness in practice has a splendid illustration in the progress of commercial affairs, as they have developed themselves since the adoption of Free Trade principles in Great Britain. In answer to the question,

WHY THE LONG DELAY IN INTRODUCING THE N. P.?

our Tory friends were wont to say, that the matter required great and grave consideration, that the preparation of an entirely new tariff that would not require much amending in the House, was no light task. Granted. Well, to assist in the work, the Secretary of the Manufacturer's Association, a commissioner from Washington, and if rumor is not at fault, an ex-Finance Minister, were called in and after they had completed their labor, another ex-Finance Minister greater than the other ex, or even the present incumbent, was called in to revise and correct. The people of Canada have the result before them, and such a result! I venture to predict, that when this precious tariff comes to be discussed as to its items, it will be so altered and amended, that its best friends will not know it. It is well to bear in mind that this tariff has two objects in view, objects which are completely at variance with each other. It's first object is to

ENCOURAGE AND SUPPORT HOME MANUFACTURE,

and consequently stop importations; and its second, to raise an additional revenue by duties levied upon importations. It is as might have been expected

FULL OF ABSURDITIES

and stupid blunders, even though concocted by great men. Take the case of flour and wheat as an illustration. Flour can come in from the United States, the only country we would in the nature of things import it from, at a duty of 50 cts. per barrel, while the wheat needed to make a barrel will have to pay the duty and increased freight, at least 75 cents. In other words the tariff discriminates against the Canadian miller in favor of the United States miller. And they call that protection. Well, it is protection, but the protection is to the American against the Canadian. Almost any number of cases of a similiar kind can be pointed out. In constructing the tariff, it would appear they listened to each deputation and promised to fix things to suit them. The separate deputations only thought of their own particular business, without paying any attention to how it might affect others. So the Government apparently made things to suit each, and then made a percentage

INCREASE ALL ALONG THE LINE IN ARTICLES WE CANNOT, OR DO NOT PRODUCE.

In doing this they never appear to have seen the stupid absurdities it would develope. Take as an example all that class of goods composed of wood and iron, the general advance in the duty on these articles will not compensate for the advance in the raw material iron, and the manufacturers are no better off now than they were before. In many cases much worse. Tables have been prepared which show that on the whole the advance in the duty has been greater in the articles we import from Great Britain, than those we import from the United States. We are thus made to

DISCRIMINATE AGAINST THE MOTHER COUNTRY,

which protects our commerce on the high seas at her own cost, in favor of a country to whom we owe no favors. But the tariff is full of discrimination. It discriminates in favor of the rich against the poor. It discriminates in favor of the producer against the consumer. It will lead to the formation of rings and combinations to pillage by authority of law, the farmer and working man, and make him not only pay more than his share of the necessary revenue; but larger amounts to enrich the already rich manufacturer.

Much time has been taken up by Parliament in

SQUABBLING ABOUT DISMISSALS FROM OFFICE

by this Present Government, and its predecessor. It is noticeable that most of the violent attacks are made on the Hon. Mr. Huntingdon, late Post Master General. The Ministerialists hate him on account of the part he took in

THAT LITTLE INDISCRETION,

known as the Pacific Scandal. He don't love them very much. The Ministerial supporters true to their Tory instincts are great at bringing charges, in and out of the House, they are, however, slow to prove them. During the recent Campaign, I heard them asked why the charges they made were not formulated in the Parliament, and a Committee asked in the House to investigate them. They replied that they could not get a fair Committee—a fair Committee, everything to Tory ideas, means, one having a large majority on their side—Well they are in a majority now, and I am surprised beyond measure, that they do not accept the challenge to appoint a Committee, to investigate the charges made, after they formulate them. They know they could not substantiate the charge, and dare not ask the Committee. We, in this community were told after the elections, and the chieftain again in power, that things in the Departments were in a muddle, and that

WE SHOULD SEE WHAT WE SHOULD SEE.

Then the way that they talked, one would have thought that Mr. Mackenzie would have been impeached, and Mr. Cartwright, taken up for robbing the treasury. Now we are wondering why these things are not brought to light. The High Court of Parliament is assembled, and the small but able Opposition stand ready to move any and every charge. When made in the proper way. Time for the Ministerialists have not accepted the challenge. Nor will they. Proof is not so much in their line as assertion. Parties here outside of Parliament, who take an interest in

PROVINCIAL POLITICS,

as well as Dominion, now look forward with confidence, to the [illegible] Ontario, [illegible] that the [illegible] a vote [illegible] [illegible] [illegible]

HACKETT & SHIRLEY.

Every person in want of Dry Goods should bear in mind the following facts.

No Advance

On Hackett & Shirley's popular 8½c Kid Gloves, over 100 dozen to select from. 4 Buttons Kid Gloves in all the new tints, only $1.00 per pair

Silks! Silks!

The Examiner.

PETERBOROUGH, MARCH 27, 1879

LOCAL NEWS.

I. Robinson & Co. are showing a large assortment of fashionable spring hats, in straw and felt, at very low prices.

Being a Good Business.—Mrs. E. Brown has been doing quite a large business in selling the Holman Liver Pad, which is giving very general satisfaction. If you are afflicted call and get one.

Fall Wheat.—Reports from all parts of the county are very favorable regarding the prospects of fall wheat. Having been exceedingly well protected from the frost during the winter, it is expected to be an extra crop.

The Rink still continues to be well patronized, although the action of the management in admitting skaters on only three nights in the week, during the remainder of the season, is loudly censured, particularly by the ladies.

The Weather.—Winter, after having been routed for a few days, has returned with the usual accompaniments of cold winds and frequent falls of snow. The early spring, of which some of the would-be weather-wise gave notice, has gone like a "fleeting show."

"A Lunatic at Large."—The following from the Lindsay *Warder* is some what past :—

"A lunatic in Peterborough, calling himself J. C. Robertson, has been writing to the clerks of the various municipalities in this County offering to do their printing for the current year at prices that wouldn't pay for the material. J. C. R. ought to be taken in hand by his friends and looked up."

Registering Debentures.—The Act, Chapter 178, page 1808, of the Revised Statutes of Ontario, calls upon Registrars to provide a book for the registration of debentures issued by the corporation, or upon their sale or exchange in private hands. Every holder of a debenture should register it, as some solid claim for the recovery of its value can then be entered for it in case of loss by fire or accident.

When to go to Manitoba.—J. W. Warren writes from Manitoba to the Palmerston *Telegraph* :—" I warn all men of families not to start before the first of June, as the roads are impassable until then, and the weather is not certain ; but after that the roads are good, the weather fine, and the nights warm. If persons come to Winnipeg and depart out east of it, it *will* cost them a good deal. A small room rents for ten or twelve dollars a month. Wood costs from six to seven dollars a cord. In regard to stock, you will buy ten per cent. cheaper in June than in April. Young men could get along in April or May.

Civic Printing.—The Executive Committee found amongst the tenders sent in for the city printing *several that are evidently* of the kind known as "scalp bids." The experience of the Corporation warned the Committee of the necessity of guarding against that class of tenders ; *for having formerly* suffered the inconvenience of failure on the part of its contractors for printing,it was trifled with by one of that class no later than last year. He had bid for the work at a price below the actual rate; than current amongst journeymen ; and instead of having been raked out in advance because of the low rate of his bid, was given the contract—to throw it up in a short time afterwards, after trifling with the Council and incommoding the city business. The "lowest tender" is never accepted by business men as the sole determining consideration in letting contracts, and no body, or individual, who bids a contract with a proper regard to the prompt and faithful execution of the work, would let it at a price manifestly below what it can be done for. Security is not what is wanted in such a case, but performance. Where the performance is brought clearly in doubt by the insufficiency of the price, to proceed in the letting because of security is simply no less performance and to gain a lowest. —*Cor. Toronto Telegram.*

A World-Wide Reputation.—Dr. R. V. Pierce, having acquired a reputation in the treatment of Chronic diseases resulting in a professional business far exceeding his individual ability to conduct, some years ago induced several medical gentlemen jo associate themselves with him, as the Faculty of the World's Dispensary,the Consulting Department of which has since been merged with the Invalid's Hotel. The organization has now been completed and incorporated under statute, as created by the legislature of the state of New York, under the name and style of the "World's Dispensary Medical Association." We clip the following from the *Buffalo Express* :—

"A branch of the " World's Dispensary Medical Establishment " is to be established in London, a step which the continually increasing business of the Dispensary has rendered necessary. Dr. R. V. Pierce, the chief consulting physician of the institution, has been in this city for the past week, and has completed the arrangements for the London branch. Dr. R. V. Pierce is a gentleman of medical skill and large experience, and has been very successful in the treatment of chronic diseases. He has associated with him in the management of the Dispensary Dr. Sage, who has had charge of the Buffalo branch for some years, and who is a gentleman of medical skill and large experience."

Baptisms. There were seven baptisms in the Baptist Church on Saturday evening.

Personal.—Mr. M. Knowlton is recovering his health, and expects before very long to be entirely restored to health.

Athletic Sports.—We learn that the members of the Peterborough Boating Club are already making arrangements for celebrating the Queen's Birthday by the usual athletic sports.

Business Cards and Billheads.—In this department of Job Work we are now better than ever prepared to execute the finest styles of printing at figures very much below former rates.

Legal.—Mr. H. T. Beck, son of Rev. J. W. B. Beck, of this town, has commenced the practice of law in Toronto, having entered into partnership with the firm of Fitzgerald *&* Fitzgerald. The new firm will practice under the firm name of Fitzgerald, Fitzgerald *&* Beck.

For Farmers.—Those in need of choice samples of wheat, peas, oats and barley should read Mr. McMullan advertisement in another column. He has also on hand a lot of Fresh Ground Land Plaster, and Best Goderich Salt, which will be sold cheap.

Round the World.—An excursion will leave New York on the 15th of July for a trip around the world. Tickets are placed at the modest sum of $1,000, and the journey is to be made in ninety days. Mr. Thos. Mannles is agent for the sale of tickets in this town, from whom all information can be obtained.

The Provincial Exhibition.—At the meeting of the Agricultural and Arts Association at Ottawa, the date of opening the Provincial Exhibition in that city was fixed for the 23rd September. The Association decided to invite the co-operation of the Eastern and Western Dairymen's Associations with a view to bringing about a union exhibition of dairy products at Ottawa in connection with the Provincial Fair.

Carpenter Missionary.—On Tuesday, the 18th instant, the annual election of officers of Corinthian Chapter, No. 35, G. R. C. Royal Arch Masons took place, when the following Companions were elected office-bearers for the ensuing year :—

Companion Henry C. Winch ..... Z.
Ex-Companion E. H. D. Hall ..... H.
Companion James Jardine ..... J.
" Dr. Fraser ..... S. E.
" George L. Mitchell ..... S. N.
" Duncan Cameron ..... P. S.
" Walter Paterson, Jr. ..... Treas.
" John Dinwoodie ..... Jan.

"The Beehive."—Mr. Bagnley has removed his stove and tinware store from Simcoe street to the shop two doors north of T. Mannles George street, where he is opening out a full line of all goods in his business, which will be sold at moderate prices. The establishment will in future be known as " The Beehive Stove and Tin Works." With increased accommodation and facilities, Mr. Bagnley promises better satisfaction than ever to his patrons.

Vital Statistics.—We observe by the annual report of the Registrar-General of Ontario, that Peterborough ranks almost first among the towns and cities in the province where the returns of vital statistics are at all complete, and where the Registrars are endeavoring to enforce the law. In each department of the town over which Mr. Macdonald has control, efficiency in discharging the *duties is very* perceptible, and we congratulate him upon the favorable mention he has received from the Registrar-General.

Auroline.—Messrs. Mitchell *&* Robinson, hairdressers, etc., are introducing a new preparation for the hair, under the above name. Auroline is free from all objectionable qualities. It cleanses, softens, strengthens and improves the hair, and is an valuable in winter for its *quick drying and stimulating* sensation as it is in summer for its refreshing and cooling action. It is an invaluable preparation for the nursery as well as for the toilet of the adult. Call and get a bottle, at their Hair Dressing Parlor, Hunter street, next to the Stewart House.

An Indignant Lady.—Scene, a bookstore. *Enter a lady*—"Give me my Harper's *Bazaar*,if you please." " Yes, ma'am, 12 cents, if you please." "If,is that ? I never paid but 10 cents before." "Yes, ma'am, but the new tariff puts a heavy duty on periodicals, and we have to charge more for them." " And is that what they call the national policy ? I've heard the same thing in the dry goods and grocer stores to-day, but my husband hasn't has his wages raised as expected when he voted for Hilliard. If I have anything to say about it, and I think I have, he won't make such a fool of himself again. I think mighty little of the national policy."

Reform Government in Ontario.—The *Globe* Printing Company has just issued a small pamphlet containing the speeches of the Hon. Oliver Mowat, delivered at Woodstock, before his constituents, and at Toronto before the Young Men's Reform Literary and Debating Club. The former is a review and defence of his administration, and the latter gives a *synop*sis of the legislation accomplished under Reform Government in the Province, as well as their administration of Public affairs. Both of the speeches alluded to are considered to be amongst the most able and eloquent ever delivered by the hon. gentleman, and should be *carefully read by every lover of good* Government.

Mission School Entertainment.—*The* entertainment in aid of the Mission School library took place in St. Andrew's School Room on Friday evening last, and was well attended. Geo. Edmison, Esq., occupied the chair. To say that those who attended were highly pleased is not at all amiss, for the audience were favored with an enjoyable programme, which was carried out in good style. The singing of Mrs. Chambers and Mr. Davis was excellent, showing a sweetness of voice possessed by few unprofessional singers. The instrumental portion of the programme was well maintained. The Misses Mack and Clarkon, in the absence of Mr. Heathfield, presided at the piano. The entertainment was very successful—the amount realized being a trifle over $30 00.

Chicago Complimentary.—There is only one thing that a Chicago newspaper hates worse than St. Louis and that is a rival paper. The *Times*, the only really religious paper in Chicago, enlarged itself last week, and the greeting it gets from its co-laborers is something refreshing and unique. It shows the cordial good feeling that can exist among rivals, without a tinge of that rancor that might show itself in a less blessed place than Chicago. " Old Storey," says one paper, " wanted more room for his lies, so the *Times* is enlarged." " If the *Times* were not the sewer of the whole country it would not need enlargement," calmly remarks another. " The *Times* appeared yesterday in a reduced form," remarks a contemporary ; " hard times have forced it *to drop its supplement* and add a quarter of an inch on its pages instead." " Enlarging a mule's ears don't add to the value of a mule, although Storey seems to think so," and thus they go. This is merely the Chicago way of being complimentary.

Don't be too Frank.—Certain bores, who think it an evidence of being a good fellow to call a gentleman, with whom they have only a slight acquaintance, by their first names, may be edified upon *reading* that a decision on politeness was recently given by the Supreme Court at Boston. A hotel clerk sued his employers, who had discharged him before his time was up, they alleging that he had injured their business by being too familiar with guests in addressing them by their Christian names or surnames only. The allegation was admitted, and the court said,

"To address a person by his Christian name, unless the parties have been intimately connected, socially and otherwise, is uncalled-for familiarity, and therefore insulting to the party so addressed. To address a party by his surname only, shows a want of respect, and would imply that the party so addressed was beneath the party addressing ; therefore, it is discourteous, and would be considered insulting. To speak of employers by their surnames only shows a great want of respect on the part of the employee toward the employer. While it may be necessary for a person to address his junior clerks or under servants by their Christian or surnames, for employers so shows a want of respect, and the party so addressed would naturally evade contact in the future with anyone who had ever treated so addressed him."

Politeness, added the court, costs nothing ; but the want of it had cost the *plaintiff* the loss of his situation. The complaint was dismissed with costs.

Templeton's Sales.—The following sales are announced by Mr. Chas. Stapleton, Auctioneer :

THURSDAY, March 27.—Mortgage Sale of desirable town property, known as the Chambers Lots. Sale at 2 p.m., at Stewart House.

SATURDAY, March 29.—Assignee Sale of two houses and Lot No. 4, North of Shuter street and West of Park street, belonging to Edward Vinette. Sale at Stewart House at 3 p. m.

Valuable Farm, being Lot 32, in the 10th Concession of the Township of Smith, containing two hundred acres—Known as the Shea Farm. Sale at Cavanagh's at 2 p.m.

Half Interest in a farm, being Lot 1 in the 9th Concession of the Township of Douro, Known as the Farley Farm. Sale at Stewart House at 2 p.m.

MONDAY, March 31.—General Credit Sale of Farm Stock and Implements of Mr. John Cowgat, on his premises, Lot 31, in the 12th Concession of the Township of Smith. Sale at 1 p.m.

TUESDAY, April 1.—General Credit Sale of Horses and Cattle of Mr. David Germain, on his premises, East Half of Lot 7, in the 4th Concession of the Township of Douro. Sale at 11 a.m. Lunch at noon.

WEDNESDAY, April 2.—Important and Unreserved Credit Sale of Farm Implements and Stock, the property of Mr. Thos. Hall, on his premises, Lot 24, in the 4th Concession of the Township of Smith. Sale at 10 a.m. Lunch at noon.

THURSDAY, April 3.—General Credit Sale of Horses and Cattle of Mr. Thos. Hall, on his premises, Lot 24, in the 4th Concession of the Township of Smith. Sale at 10 a.m. Lunch at noon.

FRIDAY, April 4.—Important and Unreserved Credit Sale of Farm Stock and Implements of Mr. Wm. Hall, on his premises, Lot 24, in the 4th Concession of the Township of Smith. Sale at 10 a.m. Lunch at noon.

Lacrosse.—A project is on foot for the organization of a Lacrosse Club in town.

School Board.—The next regular meeting of the School Board will be held next Tuesday evening.

Election.—A number of young men are off for Manitoba. Let's hope that " Sitting Bull" won't chaw 'em up.

Crowded Out.—Our county correspondence and a quantity of other matter is unavoidably crowded out this week.

Rifle Association.—The members and others interested are requested to attend the annual meeting, in the Police Court Room, on Wednesday evening next, 2nd April, at 7.30 p.m.

Returned.—*Mr. F. Lane* has returned from his visit to Manitoba. We believe it is his intention to commence business at Emerson at an early day.

Convalescing.—The numerous friends of Mr. W. J. Larmour will learn with pleasure that he is favorably recovering from his recent illness, and expects to be able to attend to business in a short time.

That Horse.—Can't we get that horse question settled now? What farmer has got $20 more for his horse because of the N. P. ? 20 per cent. duty ! Don't all speak at once.

Band Social.—A social dance under the patronage of the Fireman's Band took place at the Cheste House last Friday evening. A very pleasant evening was spent by the members of the Band and friends.

St. John's S. S. Entertainment.—We understand arrangements are being made for another entertainment in aid of the building funds of St. John's Church Sunday School. The date will be announced shortly.

New Firm.—By reference to a card in our advertising columns it will be seen that Messrs. Haggart *&* Gilbert have entered into partnership as Auctioneers, Commission Merchants, Land and General Agents. We wish the new firm every success, believing they will give perfect satisfaction to those entrusting them with their business.

Special Sermons.—In the George Street Methodist Church on Sunday next, special sermons will be preached, morning and evening, at 11 a.m. by the Rev. Mr. Watson, of Toronto, and at 7 p.m. by the Rev. Dr. Nelles, President of Victoria College, Cobourg. Collections on both occasions will be in aid of the Educational Society of the Church.

Rounsine's Brick Works.—The *Review* says :—" Mr. John Carnegie, of this town, and Mr. A. Urquhart, of Ottawa, have entered into partnership for the purpose of carrying on the manufacture of brick and tile, in the above works. With increased capital at command it is to be hoped these works have now a prosperous career before them."

Revival Services.—Very interesting and largely attended revival services are still being held in the Baptist Church. Rev. Mr. Moore's manner of conducting these services is pleasing and the matter substantial. As this is altogether likely to be the last week of these meetings a large number will, no doubt, avail themselves of the opportunity of hearing the rev. gentleman.

Valuable Acquisition.—The Port Hope *Times* says :—We are pleased to observe that Mr. Chas. D. Macdonald, the able and efficient Clerk of the Town of Peterborough, has been elected to a seat in the Public School Board of that town. Mr. Macdonald is a thoroughly practical business man, and will prove a valuable acquisition to the Board, however capable it may be,

Notice to Business Men.—The wide circulation of the EXAMINER makes it one of the best advertising mediums in the country, and the EXAMINER is constantly in receipt of gratifying evidences of the benefit which accrues to advertisers by the presentation in its columns of their announcements to the people. Business men desirous of reaching the public will find that the columns of this paper will answer the required purpose.

Important Fact.—EXPORTERS to the United States should take care that on and after the 1st of April their invoices contain, as separate items, the cost of drayage, packings, etc., or the statement that these expenses have been included. The old rule in the port of entry, in case of omission, are absolutely required to add these charges, and collect duty thereon.

Fighting.—A row of no mean dimensions took place on Aylmer street, in front of the Baptist Church, on Saturday evening, while the services were being conducted inside. One of the pugilists receiving a severe cut on the temple. If the police could only ferret out the names of those concerned and bring them before Mr. Hatton, they would be justly dealt with.

Entertainment.—Mr. Ormiston Dixon intends placing before the public shortly an excellent entertainment, assisted by a number of local amateurs. As Mr. Dixon has so frequently assisted in entertainments in Peterborough and vicinity with that good grace becoming the Prof., the date of the entertainment will be sufficient to secure him a well-filled house.

Extensive Sale.—Mr. W. Evans, of Lot 27, in the 3rd Concession of Otonabee, being about to remove to Manitoba, has instructed Messrs. Haggart *&* Gilbert to dispose of his entire farm stock, implements, household furniture, *&c.*, on the premises, on Monday, the 7th of April. The farm, containing 160 acres of excellent land, will also be disposed of at the same time and place.

In Regard to Stoves.—The Dominion Stove Association met at Toronto, on Friday, and decided to advance the price of stoves and stove ware 20 per cent. in Ontario, and 25 per cent. in Quebec, where prices have been lower than in Ontario. Every member at the meeting, except one, was Conservative, but a vote of censure was unanimously passed on the Government for its "meddling and muddling" tariff.

Ordered Clothing.—Messrs. Madison *&* Green have received a splendid assortment of cloths for the spring and summer. They keep nothing but the newest and most choice goods in the market, and as they say themselves, their prices "can't be beat." Their ord ered clothing business has assumed extraordinary proportions under the able superintendence of Mr. Madison. Call and see the work for yourself the next time you are in Peterborough.

A Contradiction.—We have received a communication from Mr. Tighe, of Douro, contradicting the statement made in a late issue of this paper, to the effect that the body of his son, who so unfortunately met his death while in the woods, was left in the sleigh at Lakefield, while those in charge got " merry" at playing cards for the drink. We received the information from a reliable source, and if, as Mr. Tighe says, there was a number in the room playing cards when those in charge of the body entered the hotel, probably this may account for one correspondent being misformed.

Pedestrianism.—An amateur pedestrian contest will take place this afternoon and evening in the Drill Shed, commencing at four o'clock. Competitors will be allowed to walk or run, and the prize—a cup—will be given the one covering the greatest distance. Prizes will also be given those covering twenty-five miles. A large number have entered, and a lively contest may be looked for. The contest is under the patronage of the Cricket, Boating and Foot Ball clubs, and the proceeds are to be divided between the three. Besides very good sport, the object is a laudable one, and we hope to see it liberally patronized. Tickets 25 cents, good both afternoon and evening.

Sale of Town Lots.—Any person desirous of securing valuable, and pleasantly located building lots, will have an excellent opportunity of doing so on Tuesday 15 of April next, when Mr. Chas. Stapleton will offer for sale by public auction, fifteen desirable building lots, and one ten acre park lot, the property of Duncan McDonald, Esq., situated in the north part of the town, adjoining the residence of the late Alex. Smith, Esq. From posters printed at this office, containing a descriptive plan of the property the location, boundaries and *con* tents of each lot can be seen, and parties contemplating purchasing homesteads cannot wish for a more favorable opportunity, as property in this part is yearly increasing in value.

Scourging Premises.—During the last few weeks Messrs. J. D. Tully *&* Co. have been making extensive alterations and improvements in their premises. The shop has been extended back twelve feet and extra shelving, drawers and counters added. A portion of the extension has been converted into a Prescription depart ment, which is kept entirely separate from the other departments, and is shut out from the front part of the store by a neat partition, the upper part of which is composed of enamelled and stained glass—the lower portion being tastefully painted in white and gold. The front part of the shop has been entirely renovated ; the wood work painted and grained, and the walls and ceiling tastefully papered, especially the latter, which presents a handsome appearance. The change has made quite a difference in the appearance of the store, and the taste which Mr. Tully has displayed is extremely creditable to him and cannot fail to draw still better custom, especially as he is noted for selling only pure articles—the first consideration in the purchase of medicines.

The Physical Paradise.

It has been said that the utmost in the course of life is to be truly the servant of God and death. To die, that is to say, so that the end can be generated from inspired thoughts, is the act of the highest order of intelligence. [illegible] [illegible] [illegible]

ALBUM SELECTIONS.

[The following album selections we believe will prove very acceptable to many of our readers, who, at times, may be considerably "at sea" for verses for autograph albums.]

Go, little book, thy destined course pursue,
Collect memorials of the just and true,
And beg of every friend so near
Some token of remembrance dear.

My Album's open! Come and see.
What I want you waste a line on me!
Write but a thought,—a word or two,
That memory may revert to you.

Remember me: 'tis all I ask,
But, if remembrance proves a task,
Forget me.

It may occur in after life
That you, I trust, a happy wife,
Will forever happy hours retrace,
Recall each well-remembered face.
At such a moment I bet ask:—
I hope 'twill be a pleasant task—
That you'll remember as a friend
One who'll prove true e'en to the end.

When the golden sun is setting
And your heart from care is free,
When o'er a thousand things you're thinking,
Will you sometimes think of me?

DAME NATURE, impartial in all her ends,
When she made some the strongest,
To justice those, to make amends,
Made woman's tongue the longest.

Let not our friendship,
Like the roses, wither:
But, like the evergreen,
Last forever.

MAY happiness ever be thy lot,
Wherever thou shalt be,
And joy and pleasure light the spot
That may be home to thee.

THINK of me in the hour of leisure;
Think of me in the hour of care;
Think of me in the hour of pleasure;
Spare me one thought in the hour of prayer.

WHEN in the course of human life,
Five things observe with care:
To whom you speak, of whom you speak,
And how, and when, and where.

MAY we ever see thy pathway
Brilliant as we see it now,
Wearing virtue's brightest laurels
On thy fair and gentle brow.

I had a heart, a heart 'twas true;
It has gone from me and flown to you.
Care for it well as I have done;
You have two and I have none.

MANY years may come and go,
Many faces greet the sight;
But among them none can show
One like you to me so bright.

LOVE drew your image on my heart of hearts
And memory preserves it beautiful.

WHEN you, my love, a blossom,
When summer skies depart,
I'd place you in my bosom
And wear you near my heart.

——— is your name,
And single is your station;
Happy will be the man
Who makes the alteration.

In memory's casket
Drop one pearl for me.

POMONA'S BRIDAL TRIP.

(Continued from last week.)

About five o'clock in the afternoon, when it was a nice time to take a walk under the trees, we meandered quietly down to a corner of the back wall, where Jone thought it would be rather convenient to get over. He hunted up a short piece of board which he leaned up ag'in the wall, an' then he put his foot on the top of that an' got hold of the top of the wall an' climbed up, as easy as nuthin'. Then he reached down to help me step onto the board. But jus' as he was agoin' to take me by the hand: Hello! says he. *Look a-there!* An' I turned round an' looked, an' if there wasn't Mrs. And.ew Jackson an' General Tom Thumb a-walkin' down the path.

What shall we do? says I.

Come along, says he. We aint a-goin' to stop for them. Get up, all the same.

I tried to get up as he said, but it wasn't so easy for me on account of my not bein' such a high stepper as Jone, an' I was a good while a-getting a good footin' on the board.

Mrs. Jackson an' the General, they came right up to us an' sot down on a beach which was fastened between two trees near the wall. An there they sot, a-lookin' steady at us with their four little eyes, like four empty thimbles.

You pesser be goin' away, says Mrs. Jackson.

Yes, says Jone from the top of the wall. We're agoin' to take a slight stroll outside, this salubrious evenin'.

Do you think, says she, that the United States Bank would be open this time of day?

Oh, no, says Jone, the banks all close at three o'clock. It's a good deal after that now.

But if I told the officers who I was, wouldn't that make a difference? says she. Wouldn't they go down and open the bank?

Not much, says Jone, givin' a pull which brought me right up to the top o' the wall an' almost clean down the other side, with a jerk. I never knowed no officers that would do that. But, says he, a kind o' shuttin' his eyes so that he shouldn't see he was lyin', we'll talk about that when we come back.

If you see that team of little oxen, says the big man, send 'em roun' to the front gate.

All right, says Jone; an' he let me down the outside of the wall as if I had been a bag o' horse-feed.

But if the bank isn't open you can't pay for it when it does come, we heard the old lady a-sayin' as we hurried off.

We didn't lose no time agoin' down to that station, an' it's lucky we didn't, for a train for the city was comin' jus as we got there, an' we jumped aboard without havin' no time to buy tickets. There wasn't many people in our car, an' we got a seat together.

Now, then, says Jone, as the cars went a-bussin' along, I feel as if I was really on a bridal-trip, which I must say I didn't at that there asylum.

An' then I said:

I should think not, an' we both bust out a-laughin', as well we might, feelin' sich a change of sarroundin's.

Do you think, says somebody behind us, when we got through laughin', that if I was to send a boy up to the cashier he would either come down or send me the key ot the bank?

We both turned aroun' as quick as lightnin', and if there wasn't them two Iuserties in the seat behind us!

It nearly took our breaths away to see them sittin' there, staring at us with their thimble eyes, an' a-wearin' their little straw hats, both alike.

How on the livin' earth did you two get here? says I, as soon as I could speak.

Oh, we come by the same way you come—by the ten-per-ary stairs, says Mrs. Jackson. We thought if it was too late to draw any money to-night, it might be well to be on hand bright an' early in the mornin'. An' so we followed you two, jus' as close as we could, because we knew you could take us to the very bank doors, an' we didn't know the way ourselves, not never havin' had no occasion to attend to nothin' of this kind before.'

Jone an' I looked at each other, but we didn't speak for a minute.

Then, says I, here's a pretty kettle o' fish.

I should kinder say so, says Jone. We've got these here two Iuseries on our hands, sure enough, for there aint no train back to Pokus to-night, an' I wouldn't go back with 'em if there was. We mus' keep an' eye on 'em till we can see the doctor to-morrow.

I suppose we must, said I, but this don't seem jus' as much like a bridal-trip as it did a while ago.

You're right there, says Jone.

When the conductor came along we had to pay the fare of them two Iunction, besides our own, for neither of 'em had a cent about 'em. When we got to town we went to a smallish hotel, near the ferry, where Jone knowed the man who kep' it, who wouldn't bother about none of us havin' a scrap of baggage, knowin' he'd get his money all the same, out of either Jone or his father. The General an' his sister looked a kind o' funny in their little straw hats an' green carpet slippers, an' the clerk didn't know whether he hadn't forgot how to read writin' altogether; the man put down the names of General Tom Thumb and Mrs. ex-President Andrew Jackson, which he wasn't ex-President anyway, bein' dead; but Jone he whispered they was travellin' under nomsyn dess pleasuye (I told him to say that), an' he would fix it all right in the mornin'. An then we got some supper, which it took them two Iuseries a long time to eat, for they was all the time forgettin' what particular kind o' business they was about, an' then we was showed our rooms. They had two rooms right across the hall from ours. We hadn't been inside our room fourminuets before Mrs. General Jackson come a-knockin' at the door.

Look a-here, she says to me, there's a unforseen contingency in my room. An' it smells.

So I went right in, an' sure enough it did smell, for she had turned on all the gases, besides the one that was lighted.

What did you do that for? says I, a-turnin' them off as fast as I could.

I'd like to know what they're made for, says she, if they isn't to be turned on.

When I told Jone about this he looked real serious, an' jus' then a waiter come up-stairs an' went into the big man's room. In a minute he come out an' says to Jone an' me, a-grinin':

We can't suit him no better in this house.'

What does he want? asks Jone.

Why, he wants a smaller bed, says the waiter. He says he can't sleep in a bed as big as that, an' we haven't none smaller in this house, which he couldn't get into if we had, in my opinion, says he.

All right, says Jone. Jus' you go down stairs, an' I'll fix him. So the man goes off, still a-grinnin'. I tell you what it is, says Jone, it wont do to let them two Iuseries have rough to themselves. They'll set this house afire or turn it upside down in the middle of the night, if they has. There's nuthin' to be done but for you to sleep with the woman an' for me to sleep with the man, an' to keep 'em from cuttin' up till mornin'.

So Jone went into the room where General Tom Thumb was a-sittin' with his hat on, a-lookin' doleful at the bed, an' says he:—

What's the matter with the bed?

Oh, it's too large entirely, says the General. It wouldn't do for me to sleep in a bed like that. It would ruin my character as a genuine Thumb.

Well, says Jone, its nearly two times too big for you, but if you an' me was both to sleep in it, it would be about right, wouldn't it?

Oh yes, says the General. An' he takes off his hat, an' Jone says good-night to me an shuts the door. Our room was better than Mrs. General Jackson's, so I takes her in there, and the fust thing she does is to turn on all the gases.

Stop that! I hollers. If you do that again, —I'll—I'll break the United States Bank to-morrow!

How'll you do that? says she.

I'll draw out all my capital,' says I.

I hope really you wont, says she, till I've been there, an' she leans out of the open window to look into the street, but while she was a-lookin' out I see her left hand a-creepin' up to the gas by the winder, that wasn't lighted. I felt mad enough to take her by the feet an' pitch her out, as you an' the boarder, said Pomona, turning to me, histed me out of the canal boat winder. But I didn't do it, for there wasn't no soft water underneath for her to fall into. After we 'greed to bed I kep' awake for a long time, bein' afraid she'd get up in the night an' turn on all the gasses and smother me alive. But I fell asleep at last, an' when I woke up, early in the mornin', the first thing I did was to feel for that lunertic. But she was gone!

Gone? cried Euphemia, who, with myself had been listening most intently to Pomona's story.

Yes, continued Pomona, she was gone. I give one jump out of bed and felt the gasses, but they was all right. But she was gone, an' her clothes was gone. I dressed, as pale as death, I do expect, an' hurried to Jone's room, an he an' me an' the big man was all ready in no time to go an' look for her. General Tom Thumb didn't seem very anxious, but we made him hurry up an' come along with us. We couldn't afford to leave him nowheres. The clerk down stairs—a different one from the chap who was there the night before—said that a middle-aged, elderly lady came down about an' hour before an'asked him to tell her the way to the United States Bank, an' when he told her he didn't know of any sich bank, she jus' stared at him, an' wanted to know what he was put there for. So he didn't have no more to say to her, an' she went out, an' he didn't take no notice which way she went. We had about the same idea about him that Mrs. Jackson had, but we didn't stop to tell him so. We hensed up an' down the streets for an hour or more; we asked every policeman we met if he'd seen her; we went to a police station; we did everything we could think of, but no Mrs. Jackson turned up. Then we was so tired an' hungry that we went into some place or other an' got our breakfast. When we started out ag'in, we kep' on up one street an' down another, an' askin' everybody who looked as if they had two grains of sense, —which most of them didn't look as if they had mor'n one, an' that was in use to get 'em to where they was goin'. At last, a little ways down a small street, we seed a crowd, an' the minute we seed it Jone an' me both said in our inside hearts: There she is! An' sure enough, when we got there, who should we see, with a ring of street loafers an' boys around her, but Mrs. Andrew Jackson, with her little straw hat an' her green carpet slippers, a-dancin' some kind of a skippin' fandango, an' a holdin' out her skirts with the tips of her fingers. I was jus' agoin' to rush in an' grab her when a man walks quick into the ring and touches her on the shoulder. The minute I seed him I knowed him. It was our old boarder!

It was? exclaimed Euphemia.

Yes it was *truly him*, an' I didn't want him to see me there in sich company, an' he most likely knowin' I was on my bridal-trip, an' so I made a dive at my bonnet to see if I had a rail on; and findin' one, I hauled it down.

(To be continued in our next.)

Matters Grave and Gay.

HARPER'S MONTHLY.—A correspondent in the Province of Ontario sends this:—

'Your anecdote in the February number respecting old Father Taylor's prayer, reminds me of something of the same kind that occurred here in our little town, not a hundred miles from the capital of the Dominion, during the excitement of the last election for the Dominion Parliament. It will be necessary for your readers to know that parties here are called Reformers and Tories, and that at the time referred to the Reformers held the reins of government.

"There lives in a neighboring town an exminister who is a very pronounced Reformer, and one Sunday during the excitement he came here to supply for our minister. During the service, after praying for the Queen, he went on thus: 'And now, O Lord, in this crisis of our country's history, we pray Thee, who has the hearts of all men in Thy keeping, to so influence the people that they shall send to the Legislature *men who will enact laws in Thy fear, and promote that "righteousness which exalteth a nation," and who will eschew sin which is a disgrace to any people.*'

"That same week the Tory paper here came out and declared that the preacher had taken politics into the pulpit, and *prayed for the success of the Reform party!*

In a leading church in the diocese of Huron Canada West, there has lately been some difficulty in obtaining a sufficient supply of gas, through a defect in the main, or other cause. The manager at the gas-works sent a boy to the church with instructions to see the sexton and ascertain wh ethe they we re getting enough light. The boy arrived after service had commenced, and not seeing the sexton, walked boldly up the aisle and accosted the rector, who was reading the service, and asked, in a frank and perfectly audible tone: "*Say, boss, how are ye off for gas?*" The answer was not heard, but there were reasons why most of the congregation indulged in a smile.

Enterprise and sympathy are pleasantly intermixed, as it were, in Jacksonville, Florida, where an undertaker closes an advertisement in the local paper with the following consolatory invitation:

"When any one, by the hand of Providence is divested to an Undertakings Establishment, come directly to us, and SAVE MONEY."

Without lawyers and witnesses we couldn't have very much court, and it not infrequently happens that those who go upon the witness stand get the better of ye lawyer man. For instance, in Pittsfield, Massachusetts, this legal legend is remembered:

A certain lawyer, who had a reputation as being very astute at cross-examination, asked a female witness: 'Madam, are you now living with your first or second husband?'

'*That's none of your business!*'—sharp and short.

With an air of offended dignity the lawyer turned to Judge Brigham, who remarked, with a smile: 'I think the witness is about right in that, is she not?'

A correspondent at Ithaca, New York, sends us the following, copied from a stone in a graveyard a few miles from that town:

While on earth my knee was lame.
I had to nurse and head it;
But now I am at a better place,
Where I do not even need it.

That was not bad in a country debating society, where the subject considered was: 'Is it wrong to cheat a lawyer?' After full discussion the decision was: 'Not wrong, but too difficult to pay for the trouble.'

Writing by Telegraph.

A new invention of a practical character has just been made by Mr. R. A. Cowper, a well-known English mechanical Engineer. It is a real telegraphic writing machine. The writer in London moves his pen, and simultaneously at Brighton another pen is moved, as though by a phantom hand, in precisely similar curves and motions. The writer writes in London, and the ink marks in Brighton. Those who have seen the instrument at work say that its marvels are quite as startling as those of the telephone. The pen at the receiving end has all the appearance of being guided by a spirit hand. The apparatus is shortly to be made public before the public Society of Telegraph Engineers. A facsimile of the writing machine shows that the words are formed without any lifting of the pen, and are perfectly legible.

Use of Wheat in England and Scotland.

Very little wheat was used during the earlier periods of English history by the poor in England and none in Scotland. Rye bread and oatmeal in 1596 were the staple diets of the servants in great families. In the reign of Henry VIII. the gentry kept the wheat for their own tables; their households were usually obliged to content themselves with rye, barley, and oats. In a monopoly granted by *Charles II. in 1636*, barley bread is stated to be the usual food for the ordinary sort of people. In 1727 a field of eight acres sown with wheat in the vicinity of Edinburgh was reckoned so great a curiosity, that it excited the attention of the whole neighbourhood. In 1770, no loaf bread was to be met with in the villages and country places of Scotland, oat cake and barley bannocks being universally used; but about the commencement of the nineteenth century a change began. Every village began to have its public baker of wheaten bread. In England, private baking was the rule; and even up to 1814, there was not a single baker in Manchester. All the chief towns of Great Britain have now several bakers' shops, and baking in private houses has very much diminished.

The Late John Lightfoot.

The Millbrook *Messenger* in recording the death of the late John Lightfoot, Esq., which occurred at Millbrook, on the 2nd instant, at the advanced age of 74 years, says:—

"Mr. Lightfoot was a native of Yorkshire, England, and came to this country many years ago. He was a most respected inhabitant of this place, and some years ago, he bought a farm about five miles East of Millbrook, in South Monaghan, which with the aid of his children, he worked most successfully. He was a moving spirit in the establishment of the Cheese Factory, at Fairdale; of which Company he was President for a number of years, and, we believe, was principal stockholder at the time of his decease. Having purchased the two cottages opposite the Methodist Church, he concluded to again take up his residence amongst his many friends in Millbrook, and last summer he and his respected partner came to the village to reside, leaving their son, Mr. John Lightfoot, to carry on the farm. Not long, however, was he destined to live a retired life among the living, for after a short but severe sickness, he was called to his rest, on the morning of the 2nd of March, at the ripe old age of seventy-four years. His remains were followed to the grave by a large concourse of sorrowing friends. Over fifty conveyances followed the bearer. Mr. Lightfoot, as a husband, father or neighbor, had few equals, and was always looked upon as a kind, good man.

The Jury Law.

The new Bill passed by the Legislature as amendment to the jury law, will remedy many defects in the present jury system, as well as render it less expensive. By this measure the Grand Jury panel is reduced from 24 to 15. The Act shall not come into force until a day named by the Lieutenant-Governor by his proclamation. In introducing this Bill Mr. Hardy said the total yearly saving that would be effected to the counties would be $1,220, and to the Province $45,000. There should, however, be deducted from this amount the cost of a full panel of forty-eight jurors which it would be necessary to provide in seventeen counties. That cost would be per county $133.50, or to the Province $4,976. Deducting the amounts, the net average saving that would be effected to the counties per annum would be $1,086, and to the Province $40,000, or one-third of the entire amount now paid in connection with the jury system.

Taxes in Russia.

In Russia taxes are collected in this way:—A peasant, representative of a district, comprising several villages, is charged with the duty of collecting a certain amount of money, and it is the business of the people to distribute the taxes amongz themselves as they like best. For the prompt collection, in the first place, the representative is responsible, and in case of tardiness he is imprisoned for a week with common criminals, and furnished with food at the cost of three cents a day. A district is obliged to pay for all its members, whether they are actual residents, or have gone elsewhere, or are in the army. In case a tax collector is unable to do his duty, he reports to the authorities; then the police appear armed with rods, and if the rods do not secure the desired result, the property of delinquents is sold at auction.

Tramps.

A Montreal paper thinks that as soon as the spring fairly opens Canada will be invaded by tramps. Many of the Northern States have 'shut down' on them. They have left them but one alternative, "either go to work or go to jail." The consequence is their number is greatly decreased. Almost practically shut out of the north, as soon as emigration weather sets in a large number of them will try Canada. It will, therefore, be well to be beforehand with them and let them know as soon as they arrive that we have no 'harbor of refuge' for sturdy beggars, that they must go to work or be sent to jail, or back to the country whence they have come. Our municipalities would do well to take the matter up and adopt such preventionary measures as will prevent or lessen at least an invasion of the country by able-bodied mendicants.

After friendship and love come benevolence and that compassion which unites the soul to the unfortunate.

How courageous kills laugh of some people; how jarring that of others, like playing on a worn out piano.

Gems of Thought.

One smile for the living is worth a dozen tears for the dead.

Laziness is a premature death. To be in no action, is not to live.

A man owes his success in his life work to the women who walks beside him.

The sweetest thing on earth is a little child when it has learned to know and love.

The innocence and purity of childhood brings bitter heart pangs to the sin-hardened man and worldly woman.

It is better to wear out than to rust out. We must not only strike the iron while it is hot, but strike until it is made hot.

People who cannot heartily love and hate will never command the first or know the cleaning influence of the latter.

If the loved ones could come back to earth only long enough to be forgiven, it would relieve many a remorseful heart.

The object of all ambition should be to be happy at home. If we are not happy there, we cannot be happy elsewhere.

Tears are the gift which love bestows upon the memory of the absent, and they will avail to keep the heart from suffocation.

'It is a curious fact that on the track of knavery a misplaced switch will be found somewhere, and it is sure to wreck the train.'

Show me the man who cares no more for one place than another, and I will show you in that person one who loves nothing but himself.

Good pictures are great teachers. A fine work of art hanging in one's house, speaks to him constantly in language of tender beauty that wins its way to the heart.

The eloquent speech made by Mr. Blake at the banquet to Mr. Mowat is thus referred to by the Stratford *Beacon*:—*His* eloquent speech at the banquet to Hon. Mr. Mowat, leaves no room for doubt as to his intentions. He said emphatically that there never was no time in which he felt a keener interest in the success of the Liberal party than the present and pledged himself to do all he could to secure the return of the Mowat Government to power. This may be taken as a pledge that Mr. Blake will not only render his powerful assistance in the forthcoming elections for the Legislature, but take his place in the Dominion Parliament at an early day.

St. Thomas *Journal*:—A country blacksmith came out of one of our hardware stores yesterday swearing like a 'survival' of the army in Flanders.

'What's the matter, Mr. J——?' one of his friends asked.

'Matter,' he replied, 'matter? Why iron's gone up, and nails have gone up, and coal has gone up, and every d—n thing I use has gone up! *If this is what they call the National Policy, I've got enough of it.*'

'Well, but *didn't you know* that that was just what the *National Policy* was going to do for you?' the smithy's friend asked.

'No, I didn't,' he answered, with another oath; 'do you suppose that if I did that I'd be fool enough to go in for it? Not much I can tell you'—and he went tearing up street like a locomotive let loose.

The Indemnity Question.

From the Owen Sound Advertiser.

Some time ago we ventured to give expression to a hope that the Ontario Government would, before the close of the session, bring in a motion for a reduction of the indemnity to members. The Session is now about to close, and no such motion has yet been introdooced. While we believe that the Government were *justified*, under, the circumstances, in opposing the Opposition amendment to reduce the salaries, we also believe that if they do not make a move in this direction themselves, it will tell very strongly against them when they come before the people. The cry for reduction is an extremely popular one, and we think it would be very injudicious for the Government to leave the matter as it now stands. Such is the nature of the popular mind that it is often very difficult to defend an action before them that is in itself perfectly defensible. In the interests of the Reform Party we deem it our duty to call attention to this matter.

We sometimes hear persons say, 'my boss is sadly out of condition, and I cannot tell either what is the matter with him, and how to get him into better order:' they appear to be ignorant of the fact that there is within their reach a remedy safe, sure, and effectual in all cases. Many persons who deal in horses use large quantities of it, and testify that its effects are most satisfactory. One horse dealer informs us that his horse's condition and appearance are so much improved by its use that they sell more readily and for higher prices. The article is 'Darley's Condition Powders and Arabian Heave Remedy.' Nothing else is equal to it for the same purpose. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Bryans Wafers (the great public remedy) have now been in use for over twenty years, hence it cannot be said that they are on trial. They have been thoroughly tried, and pronounced (on the authority of those whose lives and health they have preserved) to be a sure, harmless and eminently *salutary* preparation, and if taken in season will invariably cure colds, coughs, sore throat, and all bronchial affections. One fair trial will convince the most skeptical. Sold by all medicine dealers at 25 cents per box.

The Great Shoebonees Remedy

The Great Shoebonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicinal plants and herbs; the various properties of these different ingredients, when combined are so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys Digestive, Organs, Nervous System, &c., restoring their functions to healthy action, and being purely vegetable, is as harmless as nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a summer restorative it stands unrivaled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to Bilious Colic, Dysentery, Indigestion, &c., should take the Shoebonees Remedy. Price of the Remedy in pint bottles $1; Pills, 25 cts. a box. Sold by all medicine dealers.

ELECTRICITY.

Thomas' Eclectric Electric Oil.—Worth Ten Times its Weight in Gold.—Pain Can not stay where it is used.

It is the cheapest medicine ever used. Un does cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rheumatism, neuralgia, contraction, of the muscle stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of chronic and bloody dysentery. One tea-spoonful cures colic in 15 minutes. It will cure any case of ague that it is possible to cure. Six or eight applications is warranted to cure any case of excoriated nipples or bolls and breast. For sprains, if applied, often and bound up, there is never the slightest discoloration o the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts, and corns, and worms in every country they can tear or bleed.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the name of Harvey & Co. blown in the glass of the bottle, and take no other. Sold by all medicine dealers. Price, 25 cts. Manufactured by S. N. THOMAS & LYMAN, Toronto, Ont., Proprietors for the Dominion.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 6 per cent half yearly; or 6½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$22	60	Each.
"	6	"	20	00	"
"	8	"	17	75	"
"	10	"	15	55	"
"	12	"	13	65	"
"	15	"	12	05	"
"	20	"	10	00	"

In every case the bor ower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

VEGETINE

SAVED MY LIFE.

BOSTON, Dec. 17, 1872.

H. R. STEVENS, Esq.

Dear Sir,—May I ask the favor of you to make my case public?

In 1851, while on picket duty in the army, I was taken with a fit, which lasted all night. Was taken into camp, and dosed with whiskey and quinine. After this had *fits* every day, and was taken to Newborn Hospital, and there treated by the attending physicians. I grew worse, and was sent home. Remained in poor health for four years, treating with many physicians, and trying many remedies. Finally Scrofula made its appearance on different parts of my body, and my head was so diseased as to be frightful to look at, and painful beyond endurance. After trying the most eminent physicians without improvement a change of climate was advised.

Have been to the hot springs in Arkansas twice, each time giving their treatment a thorough trial. Finally came back to Boston, discouraged, with no hope of help. Life was a burden to me in my situation. My disease, and the effect of so much powerful medicine, had so damaged my system, that the action of my stomach was apparently destroyed, and my head was covered with ulcers, which had in places eaten into the skull-bone.

The best physicians said my blood was so full of poison they could do no more for me. About this time, a friend who had been an invalid told me VEGETINE had restored him to perfect health, and through his persuasion I commenced taking VEGETINE. At this time I was having *fits* almost every day. I noticed the first good effects of VEGETINE in my digestive organs. My food set better, and my stomach grew stronger. I began to feel encouraged, for I could see my health slowly and gradually improving. With renewed hope I continued taking the VEGETINE, until it had completely driven disease out of my body, it cured the *fits*, gave me good, pure blood, and restored me to perfect health, which I had not enjoyed before for ten years. Hundreds of people in the city of Boston can vouch for the above facts.

VEGETINE has saved my life, and you are at liberty to make such use of this statement as pleases you best; and I beg of you to make it known, that other sufferers may find relief with less trouble and expense than I did.

It will afford me great pleasure to show the marks of my disease, or give any further information relative to my case, to all who desire it.

I am, sir, very gratefully,
JOHN PECK.
No. 50 Sawyer Street, Boston, Mass.

REV. J. P. LUDLOW WRITES:

178 BALTIC STREET, BROOKLYN, N.Y., Nov. 14th, 1874.

H. R. STEVENS, Esq.

Dear Sir,—From personal benefit received by its use, as well as from personal knowledge of those whose cures thereby have seemed almost miraculous, I can most heartily and sincerely recommend the VEGETINE for the complaints which it is claimed to cure.

JAMES P. LUDLOW,
Late Pastor Calvary Baptist Church, Sacramento, Cal.

VEGETINE.

SEE RESTS WELL.

SOUTH POLAND, ME., Oct. 11, 1876.

MR. H. R. STEVENS,

Dear Sir,—I have been sick two years with liver complaint, and during that time have taken a great many different medicines, but none of them did me any good. I was restless nights, and had no appetite. Since taking the VEGETINE I rest well, and relish my food. Can recommend the VEGETINE as what it has done for me. Yours respectfully,

MRS. ALBERT RICKER.

Witness of the above,
MR. GEORGE H. VAUGHAN,
Medford, Mass.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a Reverend Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, ESQ., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects warned to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The used "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkertown in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Fort Elgin, Ont., Aug. 24, 1878.

MANHOOD:

HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

☞Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

☞This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York.
Post Office Box 4586. 3-1y.

TO CONSUMPTIVES.—The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address E. A. WILSON, 162 Penn St., Williamsburgh, N. Y.

PILES.—Dr. Faber's Celebrated Painless Remedy is the best ever known for Piles of every kind (*Bleeding Itching, Blind, Internal, &c.*) and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Chronic cases readily yield to it. No surgical operation required. Try it and relieve your sufferings Only 50 cents for a large package. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ABER, 25 Ann-St., N.Y. 49-6m

PIMPLES.—I WILL MAIL (FREE) the recipe for a Simple Vegetable Balm that will remove TAN, FRECKLES, PIMPLES and BLACKHEADS, leaving the skin soft, clear and beautiful; also directions for producing a luxuriant growth of hair on a bald head or smooth face. W. H.
Office, Auctioneer.

PARTING.

Weep not that we must part
Partings are short, eternity is far.
Life's but one brief share,
And they that say love ends wit life are wrong.
List to thine own heart's cry—
Love cannot die.

What thoughts so far away!
What thoughts are still with me, and with me mine,
And absence has no power
To lessen what by nature is divine
List to thine own heart's cry—
Love cannot die.

Then weep no more, my love;
Weeping but shows of trust in me is small
Faith is by calmness proved.
For know this truth: Love cannot rot at all
Unless thine own part cry—
Love cannot die.

CONTEMPORARY OPINION.

The National Curse.

(From the Toronto Tribune.)

Taxes on food, taxes on fuel, which did not before exist, and which ought not therefore to have formed any part of a "readjustment" scheme have been imposed; and by whatever sophistry it may be explained away, these imposts constitute an actual increase of taxation which will not only prove both onerous to the whole country but oppressive to certain large classes of the community, whose oppression is not for the general advantage, but for the personal profit of a few individuals.

(From the New York Times.)

Mr. Tilley has evidently aided American tariffs to some purpose; he has appropriated their worst features, regardless of their injurious consequences, and of the revolt of business intelligence against them. The follies and wrongs from which we are trying to emancipate ourselves, Canada exultingly copies under the guidance of its Tory Ministers. * * Fallacies of which intelligent people here are ashamed are reproduced there as evidence of Canadian statesmanship.

(From the Chatham Banner.)

The duty on sugar is increased something over a cent per lb. which will add to the burdens of the people nearly $1,500,000—not to add to the revenue of the country, but to go into the pockets of two sugar refiners, who are allowed to import raw sugars at lower duties than ever, and charge 1c. to 2c. per lb. more for refined than better article is now furnished at to the consumer.

From the Tilsonburg Liberal.

There are less than one thousand printing offices in the whole Dominion, so that it cannot support a manufactory of printing presses. As there is only one type foundry, and the business will not warrant the establishment of another, this one foundry will have an entire monopoly of the business, which means dearer printing material and dearer books and papers for the people.

(From the Brantford Expositor.)

It is true some pampered industries will be benefited temporarily, but it is at the expense of the farmers and laborer, who are already sufficiently burdened. Curses loud and deep are muttered by credulous victims who assisted in foisting such an incubus on their own necks, and the time is impatiently awaited when old scores can be wiped out at the polls.

From the Strathroy Age.

The promise to the farmer has been kept, but at what cost? His agricultural instruments, his clothing, his hand tools, his machinery, his earthenware, his everything in fact, many of them necessities—as absolute requisites to him as daylight—are increased in cost to further the grand conception—the National Policy.

(From the Simcoe Reformer.)

We feel sorry for those of our farmers who have been duped with the humbug of agricultural protection; and they will feel sorry and ashamed of themselves we fear, when they find out by experience how much they have lost, and how little they have gained by the National Policy.

(From the Sarnia Observer.)

The farmers and industrial classes represent nineteen-twentieths of the taxbearing community, and we fail to see in what single particular they will find compensation under the new policy for the additional burden of taxation that has been placed upon their shoulders.

(From the London Post.)

The consumer will have the further consolation that in paying enhanced prices for all he wants, by the system of drawbacks adopted as a feature of the National P. he will be patriotically helping our manufacturers to supply other countries with cheap goods.

(From the London Standard.)

The Government is now accomplishing the impossible feat of increasing the revenue, raising prices to manufacturers and sellers, lowering them to the consumers and buyers, and protecting everybody at the expense of nobody.

(From the Waterford Star

If only those who were deluded into supporting Sir John's crazy hobby had to suffer, it would serve them right; but unfortunately in this instance the innocent must suffer equally with the guilty until the latter learn the result of their folly.

(From the Clinton New Era.)

Agriculture, implement manufacturers, blacksmiths, foundrymen and others will at once raise their prices, which they are compelled to do, as there is already the sharpest competition among them and they had cut their prices down to the lowest point.

(From the Port Colborne Free Press.)

And worst of all, it appears to us that the N. P. will materially injure the trade of the Welland Canal, through the duty placed on grain, and the extra trouble it will give to shippers of grain from the Western States to Liverpool.

(From the Stratford Beacon.)

The whole arrangement is a cruel and mean attempt to hand over the control of all our interests to a few greedy grasping, grinding manufacturers, whose object it is to build up colossal fortunes at the expense of the many.

(From the Dundas Banner.)

How about the mechanic and the working man? Have they been protected? Are their wages to be raised? Or are they to be allowed to work on at the old figures and pay 25 per cent. more for the necessaries of life?

(From the Berlin Telegraph.)

It means the enrichment of the few by the injury of the many, whose wages will not be increased, but who will have to pay more for all articles of home consumption, in the shape of breadstuffs, meat, cottons and woollens.

(From the Bobcay Times.)

Canada has flashed away a considerable amount of money. It never takes long to commit a colossally disastrous blunder, but it takes years and generations of patient, self-denying toil to repair the mischief it makes.—*Detroit Free Press.*

Brutal Murder.

An Old Man Kicked to Death at Ingersoll.

A gloom was cast over the usually quiet town of Ingersoll, on Wednesday the 20th ult., by a most brutal and cold-blooded murder, which was committed in the Royal Hotel there, by a young man about twenty-five years of age, named Charles Moore. The unfortunate victim thus called away at a moment's notice was Reuben Smith, an old man between fifty and sixty years of age, and the cause assigned for the committal of the deed is a feud which has existed between the murderer and his victim for some time past. It appears that Smith was formerly employed by Mr. George Kempshill, liveryman, and whilst so employed Moore and he had a quarrel which resulted in Smith striking the other with a neck-yoke, and this blow seems never to have been forgotten. Yesterday afternoon Smith was sitting in the reading room of the Royal Hotel, apparently in a sort of half doze, when Moore came in and pulling him over kicked him brutally in the head and face, breaking the bridge of his nose and blacking his eye and severely cutting the other. The bar-tender who witnessed the occurrence immediately called out to Moore to desist, which he did, and putting on his coat walked away, and left deceased lying on the floor. Assistance was procured, and the old man was carried into the washroom of the hotel, but he lingered only a few minutes, and then died. Moore afterwards gave himself up to Constable Heeney, who conveyed him to Woodstock Jail. Moore, who is a painter by trade, and is well known in the town, has been drinking very hard of late, and was very drunk at the time of committing the deed. The deceased, who was generally known as "Old Rube," was a quiet, inoffensive old man, and has lived around Ingersoll for a number of years. Great excitement prevailed in the town during last night.

The jury, after hearing the evidence, returned a verdict of manslaughter against the prisoner, Charles Moore, who was commited to Woodstock jail to await trial.

New Powers to be Vested in Mortgagees.

Mr. Mowat, the Attorney-General of Ontario, has introduced a Bill in the House of Assembly to clothe mortgagees with certain powers now commonly inserted in mortgages.

In the first place, it is proposed that where the principal money, secured or charged by deed hereafter to be executed, be not paid within the specified period or after it is stipulated in the agreement or mortgage, or after any interest on such principal shall have been in arrear for a time agreed upon, or in the event of any omission to pay any premium or any insurance which by the terms of the deed ought to be paid by the individual entitled to the property subject to the charge, the following powers shall be conferred to the same extent (but no more) as if they had been in terms conferred by the person creating the charge, viz:—

1st. A power to sell or concur with any other person in selling the whole or any part of the property by public or private auction, subject to any reasonable conditions he may think fit to make and to rescind or vary contracts for sale or buy in and re-sell the property from time to time in like manner.

2nd. A power to insure, and keep insured, from loss or damage by fire the whole or any part of the property (whether attached to the freehold or not) which is in its nature insurable and to add the premium paid for any such insurance to the principle money secured at the same rate of interest.

The Bill also provides that the receipt for the purchase money given by the person exercising the power of sale shall be sufficient discharge and that the purchaser will not, of necessity, have to see that the purchase money is properly applied.

A notice is to be given before the sale, but the purchaser will not be required to enquire into the circumstances of the sale of any property. The purchase money arising from the sale is to be applied, firstly, to defray all expenses attendant upon the sale, or attempted sale; secondly, in the discharge of all interests and costs; thirdly, in payment of all moneys then due in respect of such charge, the residue being paid to the person or persons entitled to the property, subject to any charges of the legal representatives.

The person vested with the power of sale has the right to convey or assign to the purchaser all the estate and interest therein, which the individual who created the charge had power to dispose of. In conclusion the Bill provides that the owner of charge may demand the title deeds and conveyance of the legal estate.

Fashionable Dressing for Church.

There is no greater hindrance for the spread of the Gospel in our midst than the prevailing custom of dressing excessively for church. It seems strange that women should choose God's house for the place of dress parade; and stranger still that the daughters of Zion, who are commanded to "adorn themselves in modest apparel," should come before the Lord with lofty looks and high heads and nodding plumes, keeping step with the giddy votaries of fashion.

This Delilah of worldliness has been robbing the church of her strength, while she has been sleeping; and she has need to arouse herself, or her enemies will prevail against her. For whatever may be the effect upon those who are guilty of these practices, it is very clear that the church cannot afford to turn her sanctuaries into show rooms of fashion. That church sells her birthright for less than a mess of pottage, which, for the sake of a favored few who tread her aisles in costly array, closes her doors against the masses, and crowds the children of the poor out of her Sunday schools. And surely this will be the legitimate result wherever fashionable dressing prevails in church. We are glad to see that a few have been aroused to the importance of dressing plainly for the sanctuary.

"I thank God for a fine gospel," said an old church member, suddenly carried away by the eloquence of the preacher. "Then you may thank Him for a fine congregation," replied the preacher, quick and ready. "I thank God for the gospel, and not for the congregation," said the old man, with a twinkle in his eye. "Then you may thank Him for a fine congregation," replied the preacher, quick and ready. "I thank God for the gospel, and not for the congregation," said the old man, with a twinkle in his eye.

Displaced Confidence.

A Belgian bridegroom being about to start for Paris on his honeymoon tour, was informed by his bride that she though of concealing several thousand francs worth of lace about her, hoping by its sale to pay the cost of their journey. The bridegroom was not smitten with this frugal project, and pointed out that there were custom house officers and a female searcher at Ecquelines who were sometimes struck with an unaccountable fancy for examining passengers' pockets. This he said being a timid man, and his bride, to humor him, promised to give up her plan; but of course she secreted the laces all the same without telling him about it. As the train approached the French frontier the husband reflected that if his wife were not searched, his fears would be mocked at as having been groundless, and he would start on his married career with prestige impaired. This was not desirable—the rather was it essential that he should from the very outset assert his infallibility. So when the train stopped at Ecquelines, and the passengers alighted, the Belgian bridegroom left his bride's side for a moment, and sliding up to a *douanier*, whispered, "I think if you search that lady yonder you may find some lace." The *douanier* winked, and the happy bride was accosted with an invitation to walk into the female searcher's room. She turned pale and tottered, but was led away, and five minutes later dismal sounds of hysterics were heard. Then the *douanier* re appeared, and said to the horrified husband, "Thank you, sir; it's a good capture. The lady will be taken to prison, and half the fine will go to you."

A Lady's Reasons for Not Dancing.

1. Dancing would lead me into crowded rooms and late hours, which are injurious to health and usefulness.

2. Dancing would lead me into very close contact with very pernicious company, and evil communications corrupt good manners.

3. Dancing would require me to use and permit freedoms with the other sex, of which I should be heartily ashamed, and which I believe to be wrong.

4. My parents and friends would be anxious about me if I were out late, keeping company with they know not whom.

5. Ministers and good people in general disapprove of dancing, and I think it is not safe to set myself against them. If a thing is even doubtful, I wish to be on the safe side.

6. Dancing has a bad name, and I mean to study things that are pure and lovely and of good report.

7. Dancing is generally accompanied with drinking, and I see drinking produces a great deal of evil.

8. I am told dancing is a great temptation and snare to young men, and I do not wish to have anything to do with hurting them either.

9. Dancing unfits the mind for serious reflection and prayer, and I mean to do anything that will encourage me from my God and Saviour.

10. There are plenty of agreeable, clean and cheerful amusements which I know some of the children of God engage in with them that I do engage in.

Tariff Notes.

As a result of the new tariff, an oatmeal manufactory at Stratford is to be closed down.

Says the *Globe's* Ottawa correspondent: "The would-be spoilers of the people are quarrelling among themselves like a pack of wolves over the dead body of a fallen comrade."

Mr. W. W. Ogilvie, proprietor of the flouring mills at Montreal and Goderich, has demanded the removal of the duty on American grain, and declares that, unless his request is heeded he will be compelled to close his mill at Goderich, which is supplied almost entirely with American grain.

The ladies who read Harper's Bazaar and the Young Ladie's Journal know who pays the duty. The advance in price convinces them.

Nails are now selling for $3.25 per keg. They could be had two weeks ago for $2.75. Those who contemplate building this spring will doubtless like the change.

We observe that some of our rural friends have difficulty in crediting our statement, that under the new tariff "the farmer would be taxed sitting and "standing, walking and sleeping, *alive* and *dead*." Plainly, the doubting Thomases have not yet got all the beauties of the new tariff into them. Coffins are taxed 20 per cent., brass nails for coffins 20 per cent., plated ornaments therefor 30 per cent., and everything else that *is* necessary for making up a funeral, except the corpse, in proportion. Not contented with robbing the consumer from the time he draws his first breath till he dies, the protectionists even rob his widow and orphans by increasing the funeral expenses.—*Globe.*

We understand from one of our leading wholesale grocers, that the effect of Mr. Tilley's sugar legislation will be the raising of the price of all grades of refined sugar at least two cents per lb. At that rate Messrs, REDPATH, DRUMMOND, DUSTAN and Co, at the end of five years, will be able to send on a good many "ten thousands" to aid in keeping the present Government in power. And so, also, "their sisters, their cousins and their aunts" in the cotton, furniture and other industries which are protected at the expense of the hardworking and too often indigent consumer. There is, however, the consolation that the people will not be long in discovering the fraud that has been practised upon them, and that when the day of reckoning comes it will be sharp, prompt and decisive.—*Ottawa Free Press.*

Our Far West Provinces.

The school teachers of Selkirk county, Man., have an association.

A stage is now running between Winnipeg and St. Vincent. Fare $10.

The body of Mr. William T. Lindsay has been forwarded from Winnipeg to his home in New Brunswick.

A war is waged between the Winnipeg bakers, the result of which is that 25 loaves are sold for $1.

Upwards of seventy persons have made application for the office of caretaker of the Winnipeg Public School.

The Emerson *Journal* reports that Louis Riel is still staying at the house of Mr. Norman Gingras, at Smuggler's Point.

The Merchants Bank is not going to open a branch at Emerson at present, and the Emersonians are looking around for another institution.

The Hudson Bay Company propose to re-name the steamer Olympia, running between New Westminister and Victoria, B. C., the "Princess Louise."

The train containing the emigrants from the vicinity of Montreal has safely arrived at Winnipeg. A large number immediately proceeded to the little Saskatchewan.

The Baptist and Episcopal Methodist Churches at Emerson have been tendered for the use of the immigrants, should many arrive before the sheds are erected at that place.

A little boy found a loaded revolver lying around his father's house in Winnipeg, recently, and whilst playing with it the weapon went off, the ball lodging in his knee.

St. Patrick's day was celebrated in Winnipeg by the members of St. Patrick's Society in a most joyful manner. An address of congratulation was also presented to his Grace the Archbishop Tache.

A petition has been drawn up and signed by the residents of Beautiful Plains district, praying that in the event of the Province of Manitoba being extended west to the 102° longitude, the present restriction in the liquor trade be continued.

The train which arrived at St. Boniface on the 16th instant was detained at St. Vincent for twenty-four hours. There were one hundred passengers on board, the majority of whom were immigrants for the little Saskatchewan.

Talk with the boys.

No works of counsel and cheer pay better than those spoken to boys whom you meet occasionally on the street or at your home, or at your place of business. Boys like to be recognised by those older than themselves. And boys are a great deal more impressible than they commonly have credit for being. If you see a boy doing some foolish thing or some wrong thing—puffing a cigar that is a little shorter than he is, reading a dime novel or a flash paper, making sport of some poor unfortunate or quarrelling with a companion—don't pass him by with a sneer wondering that boys will be so silly or so vicious, but stop and say a wise and kindly word to him. Tell him how he can do better and why it is. He never had such a word as that from you possibly from no one else. A word of that sort just now may change his course of life. Or if you see a boy doing a manly or gentlemanly act interfering to protect a weaker one rising to give a seat to some one older than himself or showing himself attentive to his mother, say a word of hearty commendation to him. Let him see that his well doing is noticed and approved. There are sure returns for such work as this.

Millbrook.

FAREWELL SUPPER.—On Monday evening last, a large number of the friends and acquaintances of Dr. P. E. Kidd, tendered him a farewell supper on the eve of his leaving this village for Midland City, a place which we earnestly

PETERBOROUGH, APRIL 3, 1879.

TARIFF TINKERING.

The Tories who place party before truth are trying their best to find excuses, for their manifest failure, to square their Protectionist promises with the absurd performance in tariff tinkering. Some of them even go so far as to deny that there has been any increase of the prices to the consumer: in spite of the fact that their cry for Protection was chiefly based on a desire to keep out cheap foreign goods, against which they declared the home manufacturer could not compete. The best denial of their assertion on this head is to be found, in the actual purchase of articles of all descriptions. Sugar went up a cent a pound immediately, on the promulgation of the new tariff; and bread was increased a cent a loaf in the cities. The same is true of dozens of things of common purchase, which we could mention. But where is the use of trying to prove a truth that every buyer has found out, and which has been explained over and over again by the sellers as due to the "National Policy?" The explanations of those who oppose Protection are clear and complete as regards the effect of a tariff, framed for the purpose of fostering particular interests. A duty on imports clearly adds to their price. Take for instance the corn our farmers must have for feeding purposes. Say it sells in the United States at thirty cents per bushel. In addition to this the Canadian buyer must pay the cost of carriage, and now a duty of seven and a half cents on each bushel. The simple fact is that corn rose ten cents per bushel in the Toronto market, just after the introduction of the new tariff. Is not this sufficient proof? Anti-Protectionists have never denied that increased prices of such commodities as can be produced at home cannot last. Our readers will probably remember THE EXAMINER'S division of a Protectionist reign into three parts:—(1) The time of high prices; (2) that of reduced prices by home competition; and (3) that of commercial collapse, as the result of producers cutting each other's throats. Tory papers are now taking separate declarations of the Reform press in regard to these distinct periods of Protection as contradictory statements: but so far from such being the case, they are pointing plainly to the disappointment that must sooner or later overtake each and every class of the community, by reason of the country being put on the insecure basis of feverish speculation, instead of being allowed to work out its natural and safe course. Already this country experiences the folly of Legislation meddling with purely commercial concerns; as every country that has tried the experiment has experienced before, and by which examples Canada should have been warned. So far from the interests of the various industries being equalized, most of them complain of injustice done to them. The Finance Minister is daily besieged by deputations from all quarters, representing all branches of trades, and representations are made to him of the hardships wrought by his paternal tariff. In attempting to foster certain industries, all more or less visionary, he has destroyed sense and hoplessly crippled many that had already been established on a pretty secure foundation. The policy of the Ministers being Protection, they are bound to protect those interests which now find themselves pressed down, or acknowledge their inability to finish the policy they were elected to carry out. The cessation of extensive house production and competition will bring about further appeals for legislative interference, in behalf of those who will suffer from it. The policy will then call for more changes in the tariff, to meet the new circumstances, and then the patchwork will go on to the endless disarrangement of trade, and the hopeless entanglement of business in all lines. This can only end in another grand financial crisis; if indeed it does not result still more seriously in revolutionizing the social and political condition of the Canadian people. Communism has ever been a close attendant on Protection, as witness the riots of last year in the United States; while the Canadian Confederation has not been welded so firmly as to stand much of an undue strain, to say nothing of the danger of adopting a policy in Canada antagonistic to that of Britain, we would ask all in Canada who love British connections, all Canadians who desire to see the New Dominion prosperous and permanent, all residents of the country who wish to see its commercial and financial condition firmly established and safely active, to study well the direction in which Protection is leading us.

A FEW INSTRUCTIVE FIGURES.

The anomalies, contradictions, and utter absurdities of the new tariff are so apparent, and its complete failure as regards the ante-election promises of those responsible for its inception and support is so glaring, that the *Mail* is forced in its defence to say that it is a revenue tariff. The chief organ of the Tories tells us, and the declaration is echoed and re-echoed by the minor journals, that a great increase of duties had become a necessity owing to the deficits in the Dominion exchequer during Grit rule. We are told that the Reform Government wasted the revenue of the country to such an extent that it was reduced to the verge of bankruptcy, and that if the Mackenzie government had remained in power it would have been forced to increase the tariff to raise a sufficient revenue to meet the requirements of the Dominion. If such were the case, why not let the late government remain in power to carry out its policy of a revenue tariff? No, the present Ministry went into power pledged to protection in plain contradistinction to a revenue tariff, and to defend their fiscal policy as demanded by revenue requirements is to acknowledge that their protectionist utterances were false and fraudulent—or in plain and forcible English, that they lied to the electors. But let us see what their cry concerning the bad state of the finances amounts to. The deficits of the four years ending July 1st, 1878, are but little greater than the payments made during the same term to the reduction of the public debt of the country.

In 1875-6 the deficit was	$1,980,758
" 1876-7 "	1,669,823
" 1877-8 "	1,135,146
Total deficit	$4,485,929
In 1878-9 the surplus was	$ 905,814
Net deficit	$3,582,115
The payments on Sinking Fund were	$3,152,946
Real deficit	$ 330,469

This is far from being a bad showing during a time of unparalleled depression. Indeed the Dominion came through the hard times probably better than any other country in the world. Certainly a deficit of less than half a million offers no valid excuse for the very poor terms obtained by Mr. Tilley for his late loan, as compared with those floated by Mr. Cartwright; or for the unpatriotic detraction of their country's credit indulged in by Tory politicians, which detraction, combined with their protectionist pledges, was the cause of Mr. Tilley's failure on the English money market.

It is worthy of remark that the deficits continued falling from year to year, while the public debt was being steadily lowered. Though we have not yet the figures for 1878-9, it is not unfair to suppose that the deficiency under Reform management would have dwindled still lower, if indeed in increased revenue by the revival of trade on the basis of the old tariff did not entirely wipe out the difference between the gross deficit and the payment on account of sinking fund. We cannot therefore, see where the necessity for increased tariff rates come in. At least there was no need for the enormous increase made by the Tory government; and no reason whatever for it, except to fulfill purely protectionist pledges made during the effort to secure the Treasury Benches by false representations of the country's financial condition, and fraudulent promises to men willing to grasp at any specious hope during a time of dire depression.

EDITORIAL NOTES.

It is emphatically denied that Lieut.-Governor Letellier is about to dissolve the Quebec Legislature.

The price of oatmeal has already advanced one dollar a barrel. This is political economy with a vengeance—taxing the breadstuffs of the poor.

It was the Port Hope *Times* that declared Sir John Macdonald would not be so insane as to put a duty on coal. What does it think of him now?

A Chicago lady applies for a divorce on the ground that her husband is in the habit of thrashing her boarders, and so rendering it impossible for her to support him.

It is a compliment to Lakefield school that outside pupils are drawn to it. They evidently go their for the purpose of more rapid progress: and thus are made to act as an incentive to others. Nothing is ever lost by free schools.

The Dominion is stirred with excitement over the National P. from one end to the other. The protests from New Brunswick are becoming more violent and the threats of secession will probably gather force from the fact that the price of bread in St. John was increased on Saturday.

Mr. Trow, M. P., has received a telegram from Walter Thompson, a large oatmeal manufacturer of Mitchell, Ont., stating that if the proposed duty on oats were carried out he would have to close up his factory and remove to the Western States. Mr. Thompson we believe, is a Conservative.

Our farmers are being gloriously undeceived on the N. P. They now see that the price of everything consumed is going up, while they can get no more for their produce. The stock feeders who have to buy Indian corn are particularly disgusted, and now know who will pay the duty.

Lady Elizabeth Campbell, sister of the Marquis of Lorne, is to be married next month to Mr. Eustace Balfour, and it is said the wedding tour will include a visit to Rideau Hall. The wedding will take place at the Duke of Argyll's Scottish Seat, Inveraray Castle. Lady Elizabeth Campbell, the Duke's eldest daughter, is married to Earl Percy, eldest son of the Duke of Northumberland.

The correspondent of the New York *World* writes that the bride of the Duke of Connaught has a sweet and winning face, although very pale. The bridesmaids, however, were not exactly as they ought to have been. There was one lady at the wedding whose fair face attracts never-failing admiration wherever it is seen—the Princess of Wales, as beautiful as on the day when she stood at this same altar sixteen years ago.

The Provincial Assembly of Nova Scotia has decided by a large majority, backed by the sentiment of the people, that the Legislative Council is too useless and too costly a body to maintain. The Upper House, however, refuse to be no more; and it is not known what the Ministry will do in the matter. One way to get over the difficulty is to refuse supplies, another to wait for the dying off of a majority of the Legislative Councillors who vote for the maintenance of the Upper Chamber. Notwitstanding the whole of the influences that sway Nova Scotia politics, we are unable to say which is the most likely course to be taken.

The Protectionists are asking for a fair trial for their "National Policy." Is it fair though that the trial should be at the expense of those least able to bear it. It was all very well for manufacturers to cry out for protection to their millions; but now the crushed farmers, artisans, and laborers must not say a word in favor of protecting them against the greedy rich who will be richer. This is what is called a "fair trial!"

Protectionist papers are trying hard to show that the price of tea and coffee has not been increased by the new tariff. Even if such were the case, the contention is beside the mark, for before the election the party now in power promised "a free breakfast table" to the "poor man," by doing away with the tax on tea, coffee and sugar, and putting heavier duties on articles exclusively bought by the rich. Instead of this the taxes on the poor man are made more severe, and those of the rich are actually lightened in comparison. Is it because of the political power of money? It looks very much like it.

The tax of fifty per cent. against patent medicines is one which will be borne almost entirely by the poorer classes of the community. Long experience has proved the efficacy of certain liniments, remedies for coughs, colds and preparations for the cure of diseases easy of diagnosis. Many persons unable to afford the expense of consulting a doctor and who do not know the names of the simple remedies of which the patent medicines are composed, relied on the well known pills, powders or liquids to restore them to good health after a slight disturbance. The increased price will simply make them suffer longer before purchasing, and thus diseases which might have been prevented at the beginning, will continue till they injure the persons attacked. Then the doctor's will have a chance to kill or cure.

The Hamilton *Spectator*, renewing its attacks on Mr. Charlton for his alleged tergiversation, asserts that Mr. Thomas White is not open to such a charge, because he was a protectionist from 1867 to 1870. The *Spectator* does not and dare not deny that since 1870 Mr. White has repeatedly at meetings of the Dominion Board of Trade, both spoken and voted against protectionist proposals and in favor of a revenue tarif. That he was a protectionist before that time proves nothing except what everybody knew before—that he "is everything by turns and nothing long." Mr. White has little cause to thank the *Spectator* for recalling one of the protectionist episodes in his chequered political career.

Housewives and others who buy tea, have only to take one-tenth of the price paid and add a further two cents in case it is black, and three cents if it be green, to find the tax imposed upon it by the new tariff. The item on tea alone will be found to be very considerable during a year, and very far indeed from the "free breakfast-table cry" used so freely by Tory candidates during the election campaign. And not only is the tea made dearer: for the sugar to sweeten it is increased in price, and so is the pot in which to make it, the cups to drink it from, the table on which it is served, the chairs placed round that table, as well as the stove, and the fuel for its preparation. Small encouragement this to matrimony.

The *Review* declares that the transfer of the Trent River works from the Dominion to the Ontario Government is "illegal, unconstitutional, corrupt and improvident;" but fails to support any charge in the indictment with argument. It simply asks a number of conundrums that have no bearing on its contention. If the transfer be illegal or unconstitutional there is an end of it, as the Ontario Government will not assume the works without the title is undoubted. We have already shown that the petty accusations of corruption are as so much moonshine; whereas everyone admits that the vesting of all the works in a single Department is the very opposite of improvident.

Late strictures of the *Review* on Upper Canada College are best answered by the students turned out by that institution. We need not go out of this town to find those both able and willing to defend it as their *alma mater*, against any insinuations as to its course of instruction. The legality of the way in which it has hitherto been maintained has never been objected to. When a new Act bearing upon the subject was introduced by Mr. Scott, it met with no opposition from the Ministry; but was at once agreed to. Upper Canada College is an existing property of the Province; and the only question legitimately growing out of the fact is this:—Whether is it better to abruptly do away with it, or to maintain its efficiency as a popular school, and thus draw in as large a revenue as possible to prevent Provincial loss. During the next Parliament, or later, this question can be dealt with on its merits but not now.

The South African War.

CAPE TOWN, March 11.—A British steamer landed the first reinforcement at Durban, Natal, on the 5th inst. A troop ship with the 57th Regiment arrived at Durban on the 10th inst. The relief of Ekowe will be attempted shortly. An unsuccessful endeavour was made yesterday to communicate with the Ekowe garrison by signal. King Cetewayo's brother Oham's overtures for submission were a ruse to cover his retreat to Swaziland The reports that Cetewayo will send messengers to sue for peace are false. A body of Boers to surround the river Tete on the 8th inst., stole some horses and fired on the colonial forces, who repulsed them with a loss of 30. All is quiet in the Transvaal.

LONDON, March 30.—A Cape Town despatch says it is reported that the rebellious Basutos have already deserted their chief.

Col. Wood is entrenched at Pongolo, waiting for reinforcements, in consequence of several unsuccessful attempts to dislodge the enemy in the mountains.

A woman named Louisa A. Hudson, has been found guilty of bigamy at the Cobourg Assizes. She married one Graham lately, her first husband being in Erie, Pa. Owing to the fact that Hudson had ill-treated her and neglected to provide for her, the jury, although convicting her of bigamy, and the judge sentenced her to one week's imprisonment, only.

OUR OTTAWA LETTER.

During the past week the tariff debate has been dragging along. The House evidently has had no appetite for any other business, and until the tariff bill is passed nothing much will be done. In the end what other legislation there is to do will be done in a hurry, or left undone. The debate has not been very interesting, it is true that some very able speeches have been made, and the subject has been particularly well handled by the Opposition, and that under discouraging circumstances. Every speaker must have felt that he was talking to men that had their minds made up, and were determined to put the thing through regardless of consequences. There is one thing in connection with this tariff that the people of the Province of Ontario will do well to note, and that is that the coming elections in that Province will be accepted as an indication of approval of the N. P., should they go against Mr. Mowat's Government. The Government here will not be so ready to accept Mr. Mowat's success at the polls as a condemnation of that policy, and its detestable tariff; but the Hamilton *Spectator* is no doubt right when it asserts that the people of the Dominion will. I can understand the turn over last September, hard times had pressed upon the people for four years, each year it was hoped that the times would improve, but they did not, they grew worse in fact. Hope deferred, made the heart of the people sick, they did not apparently consider well the causes that had brought the hard times about, they did not discover that the fault and cure lay with themselves, not with the Government. How ready mankind individually are to blame everybody and everything but themselves for their non-success in any undertaking in which they may engage. The Tory leaders saw this restless desire for change, and this disposition to cast blame anywhere but on themselves, that had manifested itself, and

THEY TOOK A DISHONEST ADVANTAGE

of it, and found the soil ready to receive the pernicious seed. It blossomed and bore abundant fruit. All this I can understand, especially when I recall the promises made. How bank stock would go up, manufacturing industries spring up like mushrooms in a night, public confidence restored, commerce revived, and all the other blessings that were to rain down upon us. Have bank stocks improved, compare the stock list and you will get your answer, no. Where are the indications of increased activity in manufacturing? Has public confidence been restored? ask the merchants in Toronto and Montreal. They will tell you that things were never worse than now. Has business revived? ask any merchant and you will get your answer. Have the farmer's products increased in price? let them answer for themselves. The electors of Ontario will do well to remember this: It has frequently happened here that in discussing this N. P. policy with a member who is ready to vote for it, when he is pushed hard in argument, that he will say, well the people sent me here to vote for it. That style of men, and there are lots of them in the Tory ranks, are ready to turn round and charge any failure in the policy to the people. Well, when all was doubt and gloom, and the people had come to the conclusion they could not be worse off, and they had rich rosey promises, it is not, perhaps, much to be wondered at, though much to be regretted that they made the venture. Everything was undefined and shadowy. But now the people can take the true measure of the beast, and note all his deformity, they can and will soon be made to understand what increased taxes mean. Taxes be it remembered that don't go into the public treasury, but into the pockets of the already rich manufacturers.

LET THE ELECTORS OF ONTARIO REMEMBER

that if they would condemn this natural monstrosity they must work to return Reform candidates to the Provincial Parliament, if they wish to endorse it let them do otherwise. The Dominion Government have forged the chains to bind the farmer and the laboring man, if the farmers and laboring men in Ontario would rivet them on, let them vote for the Tory candidates, but if he will rebuke the men who propose to chain him to the chariot wheel of the manufacturer, let him vote and work to secure the return of the Reform candidates.

THIS BEING LENT

we are socially a little subdued, none of the light fantastic—what none, well hardly any. Dunners are the order of the day, or rather night. The forty days of feasting, rather than fasting will soon be over and society will come forth renewed and strengthened—for new conquests.

LORD LORNE

has been making the personal acquaintance of every Senator and member. He comes up to his office and takes them in turns by appointment, gives them fifteen minutes or half an hour. They find it mutually pleasant and profitable to exchange ideas. A rather good joke is told of one of the members, and as he told the story himself, it will not hurt to repeat it. The member originally came from the Highlands, and upon being presented to Lord Lorne, he asked him if he spoke Gaelic. His Excellency replied that when a boy he could, but that he had forgotten it. "Well," said the member, "would your Excellency permit me to tell you a story?" "Certainly," said Lord Lorne, "Well," said the M. P., "There was a Campbell went to visit a Fraser, and said the Campbell to the Fraser, 'can you speak Gaelic.' 'No, said the Fraser.' 'Why mon,' replied the Campbell, 'I thought I was speaking to an educated gentleman, but I find I am not.'" Lord Lorne smilingly said, "I should like to have an hour's conversation with you *at some other time.*" When the member told the story he wound up by saying, "Why, I was not with his Excellency three minutes."

We still have sleighing in the country, and the winter is spinning itself out, a good many here have got a realizing touch of the N. P. the coal bin has got empty and they find coal "has ris" but for the length of the winter they would not have made this discovery until next summer, but must close to catch the mail.

ALPHA.

ELOPEMENT EXTRAORDINARY.

A Gardener Skips Out with the Handsome Wife of a Citizen of Port Hope—They Take with them Nearly $600 Troubles of a Deserted Husband and Wife.

(From the Port Hope Guide.)

Some excitement was created in town to-day, by the disclosure of an elopement which took place on Saturday night. The names of the contracting parties to the little romance, although known, are for good reasons withheld from publication at present. It appears that a gardener who lives outside of the corporation, has been secretly paying his addresses to another man's wife, who resides in town, for some time past, and, as has often been the case before, the matter culminated in the manner described below:

The gardener came in totown on Saturday, and not returning home his anxious wife instituted a diligent search for him yesterday (Sunday) morning, but alas! all in vain,—for a well-known citizen was on the war path about the same time in search of his beloved wife, who also mysteriously disappeared from home on Saturday night, and it shortly transpired that the absent ones, after purchasing tickets for Goderich, left town together that same night.

It is further reported that the missing wife took with her about $70 worth of household goods, consisting of plate, bedding, etc., and $700 in cash. The poor deserted Gardener's wife greatly bewails her loss, and could not be prevented for some time that her lost husband had not been drowned; while the bodily-used citizen vows revenge, and has taken legal advice with a view to the early arrest of the departed lovers.

The Serious Side of the Story—Statement of Condition of the Gardener's Family etc.

Further enquiry into the Eddy-Ellis elopement case reveals but few additional particulars, beyond the sad fate of the deserted gardener's wife, who, it appears, has four children to care for, without any visible means of support, unless it be her own labor; all, to make the matter still worse, it is rported to-day that the landlord has plad a watch over the estate, her horses, pats, household furniture, &c., &c., in lieu of rent, which he alleges has not been paid for a year. Much sympathy is expressed by some of our citizens for the mother and children, and the former highly spoken of by those associated with her. On the other hand it appears we little of good can be said for Mr. Ellis paramour, while her betrayed husbd affects to know nothing of the intimacy which must have previously existed between the unfaithful couple, and it is as he laments the loss of his money as w as his wife.

LAKEFIELD.

(From our own Correspondent.)

—Large umbers of Lumbermen are passing thugh the village, on their way home, the anties having broken up.

—Theres not been such a large number of custm logs at the water mill for years, as apresent.

—A spial meeting of the Village Council wi held in the council chamber on Friday evening, but no business of importance was transacted.

—Mr. L. Beatty, who has been on a visit to his friends in this place for the past few weeks, left on Monday for his home in the far "Nor West."

—On Monday afternoon, a son of Mr. Isaac Wilson of this village, received a severe wound in one of his ankles, by the axe slipping whil chopping, he was placed under Dr. Bell's care who is attending to it.

—Some of the light fingered gentry are still around the viage, as Mr. F. Waldron had two beehives taken from his butcher shop, nd as yet has been able to find no race of them. Housekeepers should see that all is secure at night.

—On Friday evening a few friends entertained John Dinwoodie, Esq., Reeve of Lakefield, to a complimentary supper at the Bixby, on the occasion of leaving for the summer to take charge of a mill at Longfld, near Orillia. Between 30 and 40 sa down, R. C. Strickland Esq., occupied the chair, W. C. Sanders Esq., the Vice cair. After the good things provided hd been discussed, the Chairman demaled attention, and gave the first toasts the "Queen and the Royal Family". uich was received with cheers. Governor-eneral, by the Vice Chair, Song by DSmith. "Canada our Home" by the Chir. Song (Canada for me) from Mr. Wrightson. "Army and Navy", from the ice Chair, responded to by Mr. Urquhrt and W. A. Sharp. "Our Guests", wh a few remarks from the Chair. Mr Dinwoodie, on rising was received wn cheers, and in a few well chosen wors, thanked those present, for the compliment paid to him. Trusting he wou see his way clear to remain in Lakefield as he preferred to make it his home beter than any place he had ever been, bu if not he would always hold it and hs friends in kindly remembrance. Song Mr. Wm. Graham "Trade and Commerce," fom the Vice Chair, brought replies from Messrs. Wallace, McWilliams, Smit and Chrift. "The Medical Profession', by the Chair, replied to by Drs. Bel and Cauldwell. "Agriculture", fromthe Vice Chair, replied to by Messrs. Nelson and Wallace. Song, Mr. Wm. Graam "The Ladies", by the Chair, answered in short speeches by Messrs. Dr. Cauldwell, Casement, Wm. Graham, Shearer, Sherin and T. Horner Song. Mr. Gerham. "Other Guests", was replied to by Mr. James Dinwoodie. Song. Mr. Wrightson. "Our Village Council", by the Chair, brought replies from the Reeve and Councillors Horner, Nelson, McWilliams and from the clerk Mr. Sanders. "The Press" responded to by Mr. Wrighton of the "News." The toast of our Hos and Hostess, brought the evening to an end.

KEENE.

(From our Correspondent.)

—Business dull.

—Mr. Blezard is the popular Candidate.

—A Masonic lodge is about being organized in this village.

—A new tin shop has been opened out we wish the proprietor Mr. Martin every success.

—The ice still remains good. Pedestrians and teams are still going to and fro upon the Lake and River.

—Spring is near at hand, Painting, Graining, Paper-hanging, &c., will soon be all the rage. Anything in that line will be cheerfully done by James Kerr, Painter.

—Mr. Thomas Hazlitt, son of John Hazlitt, Esq., of this township, in company with Mr. Thos Atchison left last week for Manitoba. We hope the young men will be successful in the prairie province.

—The ice in the river is breaking up.

—Marriages are of frequent occurrence

—Slush and mud.

—Nearly everyone suffering from a severe cold.

COBOURG.

STEALING FROM AN EMPLOYER.—At the Spring Assizes on Friday, Arthur Kidd, a young man of rather prepossessing and respectable appearance, was arraigned on a charge of larceny from the dry goods store of Cole, Sanders & Rose. The young man was a clerk in the store and sold goods to the amount of $30 to the Oscar family, of Rice Lake, without acquainting the firm. The rule of the house was that they gave no credit, and the young man Kidd had no authority to sell goods to any person on credit. There were also several articles found in his trunk, but he said he had paid for them from time to time by depositing the money in the till. The trial caused considerable excitement here, as the young man was a prominent member of the Young Men's Christian Association and was highly respected. His Lordship's charge was strong against the prisoner. The jury came into Court in about an hour with a verdict of guilty. He was afterwards sentenced to twelve months in gaol. It is said he has stolen goods amounting to between three and four hundred dollars.

Woodstock.

The McCabe Murder Trial.

WOODSTOCK, March 31.—The principal topic of conversation to-day is over the disagreement of the jury in the McCabe-Bower, poisoning case. Those believing both the prisoners guilty think that a verdict of guilty should have been returned, others that a verdict one way or the other, and not put the country to the expense of another trial. The jury stood eight for conviction and four for acquittal.

A MODERN MIRACLE.—It has long been stated as a scientific proposition by medical men that a third stroke of paralysis is necessarily fatal. What then shall be said of John Appell, of North Banford, Conn., who had twelve, and who is to-day a strong vigorous man! The phenomena is described by Mr. Appell to his constant application of Giles' Liniment Iodide Ammonia. Sold by all druggists. Send for pamphlet. DR. GILES, 451 Sixth Avenue, N. Y. Trial size 25 cents.

The Examiner.

PETERBOROUGH, APRIL 3, 1879.

LOCAL NEWS.

5 Bill-Heads.—We have on hand a very large stock of bill-head paper. Those in want of such would do well to call and examine stock and compare prices before giving orders elsewhere.

Harbingers.—Robins and crows and other spring birds have made their appearance. Indications are that spring will soon open, and most of the snow having gone off gradually, there is little fear of damage by floods.

Spring Hats.—An inspection of Mr. S. Hyman's stock of hats will repay every intending purchaser. The stock embraces the most fashionable designs, and the prices range to suit the taste. Young men will find a very superior quality of fine goods.

The Maple Sugar Season.—The maple sugar days have come, the sweetest of the year, when little cakes and big ones, too, are sold so awfully dear. Any person who desires to squander his substance in riotous living can now go at buying all the maple sugar his family can consume.

The Event of the Season.—Mr. Ormiston Dixon's unique entertainment is announced for Tuesday evening, April 15th, when he will be assisted by a large number of leading amateur vocalists in town, and also by the Peterborough Dramatic Company. Tickets 25c. and 35c. Mr. Dixon is certainly deserving of a full house and we hope he will receive one.

Bank Holidays.—A few years ago an Act was passed abolishing all the bank holidays that had long been observed in Canada except Christmas and New Year's Day. A measure is now before the House of Commons to increase the number during the year to five, by adding the first Monday in June, July and August respectively, to those now existing. The bankers, we believe, have asked for the measure.

A Little Scene.—A gentleman in Hamilton called on his bookseller the other day, and, placing the the usual forty-two cents on the counter, asked for *his* "American Science Monthly." Bookseller—"I—ah—ahem—presume you are aware, sir, that under the new order of thing—" Customer—"Good Heavens, when is all this going to end? This is the sixth time since ten o'clock I have been mulcted on the new order of things."

Town Printing.—The Lindsay *Post* says:—"The Town Council of Peterborough, have by a large majority rejected a motion to re-open the printing question, as urged by the *Times*, and contained the contracts made with the *Review* and EXAMINER on fair and honest figures. The *Times* put in a crooked tender at such ridiculous figures that ten cents on the dollar could not be paid, and the whole Council, except two, condemned it as a fraud."

A New Idea.—The following item is being passed around:—"The Kingston girls have a new way of letting the fellows know that they are willing to be sacrificed on the altar of matrimony. In a new church recently erected there, several stained glass windows have been presented by the ladies of the congregation. one of them bearing the following:—"Miss Almeta Theresa Lyon," and immediately below this the Scriptural quotation: "He that seeks me early shall find me."

The Phrenological Journal.—In our reading of the THE PHRENOLOGICAL JOURNAL AND SCIENCE OF HEALTH for April, we were struck by the general tone of the magazine. Its aim is to elevate, and it is pure in character in every department, while entertainment and instruction are skillfully blended, so that its matter is exceedingly interesting from beginning to end. Indeed the PHRENOLOGICAL JOURNAL is a capital illustration of what can be accomplished in the way of making science pleasant to the general reader.

"Grip" Progressing.—*Grip*, Canada's Punch, comes to hand this week in an enlarged and improved form. It is now eight pages, and in addition to the cartoon, which is as good as ever, it gives several telling sketches, besides a plentiful feast of wit and humor in the reading matter. In politics *Grip* is independent, and hits all round vigorously. No doubt the improvement in the paper will make it more popular than ever, and greatly increase its subscription list, as the price is still only $2.00 per year, and 5 cents per number.

To Correspondents.—Persons sending us notices of births, deaths and marriages would, like the writers of news items, give their names as guarantee of genuineness. We have this week received several communications which are unsigned and will not be published. To one correspondent we might say that we are not so particular about the form in which some items reach us, as we are always willing to put them in proper shape for publication; but we cannot undertake to do everything from the composition of your doubtful epistles. Correspondents cannot wish to appear more wise in omitting their proper form for the press.

Pedestrianism.—Another walking match is on the tapis, but definite arrangements have not yet been completed.

Personal.—*The Ottawa Free Press* of Saturday says:—"Col. Angus Urquhart, late of Hawkesbury, left the city yesterday to take up his residence in Peterborough, Ont.

Millinery Opening.—Miss Delaney's Millinery and Mantle Rooms are now open with all the novelties of the season, in spring and summer goods.

Ashburnham Council.—The next meeting of the Ashburnham Council will be held in the Village Council Chamber next Monday evening.

New Hotel.—We are informed that Messrs. Garvey & Dolan, who lately purchased the Ryan property, on George-street, are preparing to erect a handsome three storey hotel with Mansard roof, on the vacant lot opposite the market.

F. H. and C.—Our down town contemporary thus lays claim to the three cardinal virtues of Christianity, in relation to political ethics:—"Faith in Sir John and Mr. Tilley's tariff; Hope that it may work out all right, and Charity solicited from friend and foes to the newly-fledged prodigy.

The Grand Central Hotel, on Broadway, New York, is a big house, and it takes a great many people to fill it. In order to do the latter, and to please everybody, the hotel is now kept on the both plans—the American at $2.50 to $3.00, and the European $1.00, and upwards per day. An elegant Restaurant at moderate prices, is conducted by the Hotel.

Counterfeit Tens.—A second issue of forged ten dollar bills on the Ontario Bank has been detected. They are stamped "Peterboro" in blue across the face, and the words "British American Bank Note Company, Montreal and Ottawa," omitted in the first issue, are supplied. The paper is rather poor, but the counterfeit is nevertheless a very dangerous one and difficult to detect.

High Singing.—Our Hamilton and American exchanges mention in the highest terms of praise the very remarkable vocalization and compass of voice, altogether phenomenal, of a young Canadian lady, of Hamilton, Ont., Mrs. E. G. Caldwell. At a recent concert at Rochester, N. Y., she reached with remarkable ease and with a full and clear voice the extreme F. in alto. Her interpretation of "Polka Staccato" and a Swiss air, and especially the brilliant ballad "Lo, Hear the Gentle Lark" were all enthusiastically encored.—*Le Canadian Musical, Montreal.*

Fate of a Spring Poet.—An amateur courier of the Muses brought in a "pome" on Spring, the other day, for publication. It was composed of twenty-seven stanzas, the following being the first:

Spring, Spring, beautiful Spring.
How thy beauties I like to sing—
Over the mountain, over the lea,
Spring, I love you wherever you be

It is needless to remark that the young man went out of the sanctum with a Fall—down stairs. The pressman knows whereabouts in the cellar to bury amateur poets.

Interviewing.—The editor of our evening contemporary have been interviewing the various manufacturers in the town as to how the N. P. is working. They are endeavouring to take as much comfort out of it as possible, but the answers received in most cases from manufacturers are that while the prices of the raw material will be materially enhanced it will be some time before the manufactured articles rises accordingly, as the market in most cases is largely over-stocked. Very few expect to be much benefitted while the majority believe it will be detrimental to the country.

Writing for the Press.—Waste no time on introductions. Don't begin by laying out your subject like a Dutch flower garden, or telling your motives for writing. The key note should be struck, if possible, in the very first sentence. A dull beginning often damps an article; a spicy one whets the appetite, and commends what follows to both editor and reader. Above all, stop when you are done. Don't let the ghost of your thought wander about after the death of the body. Don't waste a moment's time in vindicating your production against editors or critics, but expend your energies in writing something which shall be its own vindication.

To our Subscribers.—Some time ago we appealed to those of our subscribers who were in arrears for a settlement of their subscription, and very many of them heartily responded to the request. Still there are a great many who have apparently paid no attention to the matter. We would again remind them that *we must have money*, and while we are always willing to be lenient to those in arrears, still there is a limit to everything, and we commence to feel as though many who have taken the EXAMINER for years are imposing just a little too much on good nature. We are now sending out statements of accounts to all those in arrears, and we expect and require an immediate settlement.

Hints for Housekeepers.—As an agent for rapidly extinguishing fires in chimneys, a French chemist recommends the burning of a few grands of "carbon de sulphide" on the hearth. The combustion of this subject produces large volumes of carbonic and sulphurous acid gases, both of which are effectual extinguishers of flame. The compound is said to have been experimentally tried by the Paris firemen and with good results, since it is stated that within the space of three months they succeeded by its use in extinguishing 251 fires out of 319, and that, without deranging or damaging apartments in any way.

A Dishonest Tender.—The Port Hope *Times* says:—We have been shown a tender for printing sent to one of the municipalities in this Riding by W. H. Robertson & Co., Peterborough. The quotations given are so low that we cannot help drawing the inference that Messrs. W. H. Robertson & Co. hope by some dishonest fluke to get the best of the innocent municipal authorities, or that they neither intend to pay for their labor or paper. We have no objection to Mr. Robertson endeavoring to extend his business, but we think he ought to give prices at which he can *honestly* do the work. In this case, as in many others, his efforts will fail to bring him a cent, as the body referred to have treated his tender with the contempt it deserved.

A Gentle Nudge.—An American editor thus nudges his delinquent subscribers:—"We don't want money desperately bad, but our creditors do, and they, no doubt, owe you. If you pay us, we'll pay them, and they'll pay you." That's our case exactly. If we had not to pay other people we would not care whether we had one dollar or one thousand to our credit in the bank, and there is not a subscriber on our books from we would not willingly lend the $1.50, $3 or $4.50 they owe us for an undefinate period, but paper bills must be paid, rent, fuel, taxes, dry goods, etc., etc., etc., all have to be paid for, and as we neither own a bank nor a gold mine, we would like those of our subscribers who owe us anything, no matter how small the amount, to remit it AT ONCE. Accounts are now being sent out, and we expect a liberal response.

St. John's Church S. S. Concert.—The entertainment in aid of the Building Fund of St. John's Church Sunday School will be held in the Opera House on Friday evening, 18th inst. In addition to a very attractive programme, the Committee have secured the services of Mrs. E. O. Caldwell, of Hamilton, who is spoken of in the highest manner as a vocalist of culture and merit. The St. Catharines *News* in reporting an entertainment lately in that place has the following reference to Mrs. Caldwell:—

"Then came Mrs. Caldwell, and with her all that redeemed the evening. She sang "Staccato Polka," but how to describe it, or convey an idea of the singing to our readers is beyond our power. She has a voice of remarkable purity —*timbre*—compass; it is doubtful if there is any other in Canada her equal, everything considered. The "Staccato Polka" was indeed a most wonderful exhibition of voice culture, the mellow trillings of the flute, the bell-like tones of the piano, were reproduced perfectly, little peals and eddies of melody glanced and whirled on every side, while in some passages there seemed a grove of singing birds determined on keeping the air resonant with sweet sounds, and at the close they all united in one great volume of harmony that filled the building from stage to dome, finally subsiding in one clear note upon G, in alto, like a tone of silver from a trumpet of gold. The effect was electrical—bouquets fell around the gifted songstress as she gave "The Old Song" as her encore."

Simpleton's Salve.—The following sales are announced by Mr. Chas. Stapleton, Auctioneer:

TUESDAY, April 8.—Unreserved Credit Sale of Farm Stock and Implements of Mr. Lewis Montrey, on his premises, Lot 14, in the 6th Concession of Enniskerre. Sale at 12 noon. Lunch.

FRIDAY, April 4.—Important Credit Sale of Farm Stock and Implements of Mr. Robert Paterson, on his premises, Lot 1 in the 7th Concession of the Township of North Monaghan. Sale at 1 p. m.

SATURDAY, April 5th.—General Sale at his Auction Room, of new and second hand furniture, dry goods, horses, harness, etc. Sale at 11 a.m.

Auction Sale of Farm. That desirable farm in the Township of Emsdorough, known as the Kearn's Farm, being E of Lot 30, in the 7th Concession of said township. Sale at the Stewart House at 3 p.m.

TUESDAY, April 8.—Unreserved Credit Sale of Farm Stock, Implements, &c. of Mr. R. H. Orde, on his premises, Lot 13, in the 11th Concession of the Township of Otonabee. Sale at 1 p.m.

WEDNESDAY, April 9.—*Some Fish* Credit Sale of Farm Stock, Implements, &c. of Mr. Michael Lee, on his premises, on the Gore of Lot 4, in the 6th Concession of the Township of Dummer, about 4 miles and a half from Warsaw Chapel. Sale at 12 noon.

THURSDAY, April 10.—*Some Fish* Credit Sale of Farm Stock, Implements, &c. of Mr. Patrick Quinn, on his premises, Lot 10, in the 6th Concession of the Township of Dummer, about 4 miles from Warsaw Chapel. Sale at 12 noon.

School Board.—There was no meeting of the School Board on Tuesday evening, a quorum not being present at 8 o'clock.

Vital Statistics.—The registrations for the month of March, in the town of Peterborough were:—Births, 16; Marriages, 9; Deaths, 5.

Lumbermen and others requiring Tents should call on I. Robinson & Co., who can supply them with all sizes and qualities at very low prices.

Paralytic Stroke.—On Tuesday afternoon Mr. Joseph Brank received a severe stroke of paralysis, and lies at present in a very precarious state.

Open Temple.—The members of Peterboro, Lodge, I. O. G. T., will hold an open Lodge on Monday evening next, in the Orange Hall, Water Street. The public are invited.

First Prize Essayist.—We learn with pleasure that Mr. J. M. Lydgate has been awarded the first prize on Essayist at the recent examination at the University, Toronto.

Promotion.—We notice by an announcement in the Canada Gazette of the 25th ultimo that Lieut. John Dixon has been promoted to the captaincy of No. 1 Company, 57th Batt., vice William Johnston, deceased.

Easter Holidays.—The Easter vacation for the Collegiate Institute and Public Schools of the town will commence on Monday next and continue during the week. School will again commence on Easter Monday.

Spring Assizes.—The Spring Assizes for the County of Peterborough open in this town on the 15th instant, before Mr. Justice Morrison. The Court will be held in the Council Chamber, as the Court Room has not yet been completed.

Phlogophite.—Said Squire Egan at the rink the other evening, when explaining the peculiar and occult beauty of his evolutions on the ice:—"There are some things," says he, "which are brilliant without being magnificent; and other things which are magnificent without being brilliant,—my form of skating ranks in the latter order."

Passed Away.—We boys this week to record the death of Christopher Burton, Esq., at his residence Township of Smith, on Tuesday last, at the advanced age of 72 years. Deceased was one of the oldest settlers of the township; was universally respected, and for many years filled the office of Township Clerk, and other municipal positions of trust.

Charlotte-street Methodist Church.—The anniversary meeting of the Sabbath School in connection with this Church took place on Monday evening last, and was very largely attended. During the evening, songs and recitation were given by the children of the school; and short addresses were delivered by Rev. Messrs. Watson, Wallace and Harper. A most enjoyable time was spent.

Spiritualism.—The spiritualistic seance announced for the Opera House, on Friday evening last drew quite a large house, —many feeling considerably cold when they found that "the small admission fee" was 25 cents. As in other towns, the principal medium failed to put in an appearance, and a few stale tricks were attempted by the party who acts as advance agent, but is apparently "the whole show" himself.

The Castleton Tragedy.—At the Assizes opened in Cobourg, on Thursday morning last, the case of THE QUEEN *vs.* MARVIN WELTON, was commenced. Upon hearing the evidence, the jury retired, and after a short absence returned a verdict of "Guilty." On Tuesday he was sentenced to four years imprisonment in the Penitentiary, the Judge remarking, if he thought he had anything to with the ruin of the young girl he would have sentenced him for life.

The Golden Rest.—Mr. Samuel White having this spring laid in the finest stock of boots and shoes yet brought to town by him, is now offering them at extremely low prices. The stock is large, choice in variety and style, and being purchased in the best markets will be sold at extremely low prices. The custom departments still maintains its well-earned reputation of being "A No. 1," and when we state that this branch is personally supervised by Mr. White, it is enough to recommend it to those needing a comfortable, well-fitting, and well-made article.

Fire Alarm.—On Monday evening about 6 o'clock a fire alarm was sounded, caused by a large volume of smoke which issued from the roof of the store occupied by Mr. Henry Best, George Street. The Fire Brigade turned out with an alacrity that would be creditable to many paid brigades, but fortunately their services were not needed, as the smoke was only from a defective chimney. Horses were attached to the engine for the first time, Mr. Robert White having kindly loaned the pole, whiffletrees, &c., until Mr. T. Fitzgerald completes his contract.

ALL-FOOLS' DAY.

"Laugh dull care away
With merry All-Fools' day!"

The festival of All-Fools' Day is the oldest festival of which there is any record, and in former ages ushered in the glad new year, which commenced at this period, the time of the vernal equinox. The custom of playing practical jokes upon April fools is said to have originated among the Persians, who were wont to give themselves up to the wildest expressions of joy at the coming of another year. The ancient Romans abstained from pleading causes upon the first of April, and Roman ladies were wont to bathe beneath myrtle trees, to crown themselves with flowers, and offer sacrifices to Venus, the Goddess of Love and Beauty. Plutarch refers to the Roman "Feast of Fools," which was another name for the Quirinalia.

PEDESTRIANISM.

The Walking Match in the Drill Shed.—A Six Hours Contest.—Mr. H. Spenceley the Winner.—He Makes 34 Miles and 6 Laps.

The Walking Contest on Thursday afternoon and evening last, in the Drill Shed, caused more interest in athletic circles than anything occuring in town for some time. Ever since J. D. Henderson, the great long distance walker was here last summer, a large number of our citizens, both young and old, have been practising walking whenever an opportunity offered, but it was never thought we had so many aspiring pedestrians until a six hours *go-as-you-please* contest was announced to take place under the auspices of the Cricket, Football and Boating clubs. A track was measured around the shed, sixteen laps to the mile, well padded with sawdust and surrounded by ropes. In the centre and at the south end seats were erected to accomodate a large number of spectators. At the north end were stationed the scorers, one for each man. Twenty-one gentlemen entered for the contest, but when time was called at 5 p. m. only eighteen toed an appearance. Each of the contestants were neatly dressed in athletic costumes, and presented a fine appearance as they took up their positions around the track ready for the signal to start, which was given by *G. C. Rogers Esq.*, at 5-15 p. m.

J. and M. Spencely, M. Barry, F. Heeslop and D. Gilbert each started off on a run, the others following up at a brisk walk. For the first two hours and a half each of the contestants displayed good powers of endurance, but when this time had elapsed, two of the number, E. Gale, and F. Heeslop retired after covering 15 miles 13 laps and 13 miles 9 laps respectively. Another hour passed when fatigue became apparent on the countenance of several of those who had not had any previous practice or training. At 8.45 Jos. Joyal retired, followed at 9.15 by A. D. Braithwaite, the first making 17 miles and the latter 21¼ miles. At 9.45 four more retired—*D. Gilbert, M. Barry, E. Snyder, and* Jas. Billington—leaving but ten to continue on their self-imposed task, till the end of the six hours, when they retired from the track with the following record:—

Names.	*Hour of retiring.*	*Distance.* MILES. LAPS.
E. Gale	7 15	13.....13
F. Heeslop	7 15	13.....13
Jos. Joyal	8 15	17.....09
A. D. Braithwaite	9 15	21.....09
D. Gilbert	9 45	22.....09
M. Barry	9 15	20.....09
E. Snyder	9 45	17.....09
Jas. Billington	9 45	22.....05
W. Drury	10 15	30.....09
R. S. Cook	10 15	21.....09
J. C. Robertson	10 15	33.....13
J. Corbery	10 15	29.....09
M. Spencely	10 15	34.....09
N. Lemay	10 15	25.....14
J. Fanning	10 15	29.....09
Chas. Glasgman	10 15	32.....10
W. W. Smith	10 15	30.....08
J. Spencely	10 15	33.....11

Mr. John Corbery walked throughout the whole six hours fair heel and toe style, never leaving the track and being the only one who abstained from running. Mr. Drury walked until the last half hour, when he broke into a trot which he kept up until he retired.

The Band of the Fire Brigade was present during the evening and enlivened the proceedings, and cheered on the competitors, by playing lively airs in their usual excellent style.

Somebody's Child.

Somebody's child is dying—dying with the flush of hope on his young face and an immortality yearning to live and take an honored place in the world beside the companions of his youth. And somebody's mother is thinking of the time when that dear form will be kissed where no kiss of hope and happiness has been given before, when her home will be like a tomb, and when the world to the mother's heart will be dead. Somebody's child is dying—dying with the flush of hope on his young face and an immortality yearning to live and take an honored place in the world beside the companions of his youth. And somebody's mother is thinking of the time when that dear form will be kissed where no kiss of hope and happiness has been given before, when her home will be like a tomb, and when the world to the mother's heart will be dead.

George-street Methodist Church.

Annual Sermons in Behalf of the Educational Institutions of the Methodist Church of Canada.

As was announced in these columns last week the annual sermons in behalf of the Educational Institutions of the Methodist Church of Canada were preached in the George St. Church on Sunday morning and evening.

In the morning the Rev. C. Watson, of Toronto, occupied the pulpit and preached an eloquent discourse to a large congregation, the text being taken from the first chapter of Colossians, commencing at the ninth verse. The burthen of the reverend gentleman's remarks went to impress upon his hearers the necessity for continuous study of the Bible, in order to obtain that knowledge which was necessary unto the life of a Christian. The subject was set forth in a vigorous, pleasing and effective manner, and was listened to throughout with marked attention and evident satisfaction.

In the evening the church was again well filled, when the Rev. Dr. Nelles, Principal of Victoria College, at Cobourg, preached. The rev. gentleman took for a text the fourth and fifth verses of the tenth chapter of the Second Epistle to the Corinthians:—

"For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strongholds:

"Casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ."

Modern times, began the preacher, were remarkable for great men of thought: this remark might apply to all times since the Reformation—not that we were to understand that there were no vigorous thinkers and learned men in the times of the unreformed church; but thought in these times was in subjection to the authority of the church; if a man presumed to express his thoughts regarding the science of chemistry, those thoughts must be approved by the church; it was an ecclesiastical chemistry—and so with the rest of the natural sciences. Then came the great reformation of the old Saxon Reformer. Luther finds the Bible in monasteries locked and chained to the desk; he unlocks the book and translates it to the people; and a new life at once sprang up. The Reformation appeared like a caged eagle which for centuries had been beating against its prison door. Luther opened the prison door and set the bird free. Great and good results followed—not unmixed with evil it might be, for evil was incidental to all reforms; but the good results far outweighed the evil. One great result was the enrichment of the human intellect—the progress of the sciences and arts, the establishment of schools and colleges, the publication of books, and magazines, and newspapers, and the free expression of thought. These were sense of the glorious results of the Reformation. But along with the liberty of the free expression of thought came the possibility of the abuse of that liberty. This was a danger; but where would we escape from danger? There was danger on the sea, and danger on the land, danger in being learned, and danger in being ignorant. There was danger in this free expression of thought. Along with it had come a revolt, not only from the authority of the church, but from the authority of Christ; and that is what we had to correct,—to correct the abuse of human thought. There was ample traces in the literature of our time of this revolt from the authority of Christ; and those things which should be in accord with the truth were the opposite. One could scarcely take up a periodical without finding traces of this revolt. What was to be done? What was our duty? How were we to work? Not by going back—by returning the eagle to captivity. We did not want to put literature and science under subjection again. We would not find it effective to rail at the investigations and discoveries of science. How then, shall we work? By preaching the old Gospel still. We did not expect a new Gospel. We might have new light thrown on the old Gospel; there was room for progress in the explanation of the truth by learned men. But it would be strange if all this many years we had misapprehended the meaning of the Gospel. For more than eighteen hundred years it had been preached, and millions of souls had been converted by it and sent to glory, and he would still preach the same old Gospel if he had a house-ful of sceptics to listen to him. He would not come down to controversy, but would appeal to the heart. It was not the first time the Church had met this kind of opposition. In the middle of the 18th Century the same opposition had been offered, and Methodism was found to be the best thing to meet the scepticism of those times. Some of those present might live long enough to see these men come back again to the Church with bleeding feet and aching brows, and with hunger and thirst in their souls, crying "Give us oil, for our lamps are gone out." But we must endeavor to keep the Church in the van of the science and literature of the times. We must seek a wider culture for the Christian ministry, and see that the Church be competent to put forward men in the highest walks of learning. One of the great vices of the Church was that it let down its succouring and sympathizing hand to the gutters and dens of the earth to uplift the poor, the unfortunate, and the needy, whom the philosopher and the literary man neglected: it delighted to go down into these places with its cheery words of love. And another marvel was that it could go with equal felicity into the high places,—wherever the learned man stood, there the Gospel was to confront him. Christianity was the only religion in the world that could stand the inspection of science,—a form of divine truth that dare look at the sun. He would not have any one there make a mistake regarding the educational institutions of the Church. Do not imagine that they had a new way of making ministers. A minister was called by the Holy Ghost. He did not mean when pleading for a cultivated ministry that those who came to preach to them should turn the pulpit into a rostrum. The pulpit was not the place to teach science or display rhetoric. They did not educate ministers that they might be able to preach something better than the Gospel,—but the Gospel better, and if a minister be truly educated he would be able to preach the Gospel more powerfully and more pleasingly, so as to conciliate the intellect, the conscience and the heart. He did not mean to say that men could not preach well who had not been educated at school. There were many remarkable instances that proved this not so. (The reverend gentleman here paid a high tribute to the Rev. Mr. Harper, Pastor of George-street Church, as an instance of this.) But we must not judge all by an exception. We must lay our plans broadly for all those who come. Then, they needed men to edit their magazines and reviews—men who could give good science for bad science, and good literature for bad literature. He would not delay to say that money was needed for this purpose, and the people must come with noble liberality to the aid of the educational institutions of the Church. The rev. gentleman concluded his discourse with an earnest insistance of the necessity of a deeper spiritual life in the Church, holding up as models the lives of Paul, and Wesley, and Whitfield, and others of the prominent men in the history of the Church.

A Conversation and What it Illustrates.

The following conversation took place in one of our flour and feed stores the other day where a customer buying for the first time under the new tariff, asks to have the increased price explained:—

CUSTOMER.—"What is corn chop worth this morning?"

DEALER.—"$1.80 a hundred."

CUSTOMER.—"Why it was only $1.65 the last time I purchased it."

DEALER.—"Yes; but since the National Policy came in force, the duty on corn has been raised 7½ cents per bushel."

CUSTOMER.—"I will see what Carnegie about this." Exit customer, and grand tableau at the *Review* office shortly afterwards.

Peterborough Cricket Club.—The annual meeting was held on Tuesday last, when the following officers were elected:—

PRESIDENT—C. A. Weller.
VICE-PRESIDENT—Hon. R. Hamilton.
CAPTAIN—T. Rutherford.
SECRETARY-TREASURER—E. B. Rogers.
GENERAL COMMITTEE—W. H. Rackham, T. A. Hay and J. Jardine.

The Joint Committee of the Boating and Cricket Clubs reported that they had decided that the Cricket Club were to hold their sports on the 24th of May, and that the Boating Club were to hold their sports next year, and that for succeeding years the two clubs amalgamate for the purpose of holding their sports. Committees were appointed to arrange for the athletic sports on the Queen's Birthday, and also to try and make arrangements for a new ground.

An Honest Medicine Free of Charge.

Of all medicines advertised to cure any affection of the Throat, Chest or Lungs, we know of none we can recommend so highly as DR. KING'S NEW DISCOVERY for Consumption, Coughs, Colds, Hoarseness, Hay Fever, Hooping Cough, Bronchitis in the throat, pain of chest, and all diseases of the throat, chest and lungs. We have sold it for years, and have never known it to fail in a single instance to give perfect satisfaction. We do not hesitate to say it is the best medicine in use, and we will refund the purchase price to any one who buys a bottle and is not benefited. Trial bottles free at Lamb's Drug Store. Regular size $1.00.

MERE MENTIONS.

—Now the promenaders throng the streets again.

—Maple sugar ought to sprout this kind of weather.

—Girls should not flirt when in the galleries of churches. It is not right, and people notice them.

—One of the Princess Louise's charms, says the lady who edits *Harper's Bazaar*, is a great profusion of beautiful hair.

—This is the season of the year when venerable hens enter their second childhood, and are broiled for spring chickens.

—The farmer's play season is about over, and already he is maneuvring the palms of his hands for a grapple with spring plowing.

—A young man feels that he has not lived in vain when he finds his picture exhibited in the show case of a photograph gallery.

—"Comet" gentle spring, ethereal mildness, come," and bring a fan, a glass of soda water, and some cough medicine with you.

—When you see a man just ahead of you with a new spring overcoat it is some consolation to remember the old saying, "Pride goeth before a fall."

—Men who have been too feeble to bring in the fuel all winter will soon be able to go up the river three or four miles and sit all day on a damp stone, fishing.

—Man can do many things, but there's one thing he can't do; he can't button on a new collar just after cutting his thumb-nails, without looking up in the air.

—The photographist said, "If you only be pleasant; now—smile a little." The visitor smiles. "My dear sir, that will never do; it's too wide for the instrument."

—A new prophet has arisen, who says that farmers may go afield with plough by April 1st, and that by the 15th a good bite of grass may be had from the pastures. So mote it be.

—Of course no woman ever did such a thing, but supposing now for the sake of argument, as it were, that a woman was to go to church for the purpose of showing off her new sacque, would it be sac-religious, so to speak?

Medical Meeting.

A meeting of the medical men of the Newcastle and Trent Medicine Division, was held yesterday afternoon in this town, for the purpose of re-organizing the Division Association. The following officers were elected:—

PRESIDENT.—Dr. Herriman, Port Hope.
GENERAL SECRETARY AND TREAS.—Dr. Waters, Cobourg.
LOCAL VICE-PRESIDENTS.—Dr. Boucher, Peterborough; Dr. Hamilton, Port Hope; Dr. Willoughby, Colborne.
LOCAL SECRETARIES.—Dr. Bell, Petarborough; Dr. Burnet, Cobourg; Dr. Halliday, Grafton.
COMMITTEE ON BY LAWS.—Drs. Boucher, Bell and Fraser Peterborough.

Dr. Hamilton of Port Hope, read a very interesting paper on "The Diagnosis of Croup", which elicited considerable discussion.

Drs. Fraser and Hunter, promised to bring interesting cases before the next meeting of the Association.

It was decided to hold the next meeting of the Association at Cobourg, on the first Wednesday in June, after which the meeting adjourned.

A Contradiction.

To the Editor of the Examiner

DEAR SIR,—It has been freely circulated through the East Riding, that I am secretly and openly using any influence which I have with my Irish Roman Catholic neighbors in favor of Mr. Calcutt, the Conservative candidate, and against Mr. Blezard, the Reform candidate. I need scarcely say that there is not one word of truth in it, and I fearlessly appeal to any elector, if they ever heard me say I was ever opposed to Mr. Blezard. With regard to Mr. Calcutt, that gentleman never asked me for my vote or support, as he knows that I always support a Reform candidate, no matter what his creed may be, and I will continue to do so unless I see a better party, but as I see no prospects of that, I will stick to the good old cause. I am supporting and will support Mr. Blezard, because he is one of ourselves—a Farmer, and a supporter of the Mowat Government; a Government, Ontario may well be proud of. It would be a sorry day for Canada, if the present Ontario Opposition should by any means gain even a temporary control of the Treasury benches.

I remain, yours truly,
JAS. MILLER.

Otonabee, March 31st, 1879.

General News.

The dry-good stores of London are to close at six o'clock the year around, Saturday's excepted.

The duty on woollens is so arranged as to tax the quality bought by the poor man 30 per cent, and the rich man's article about 5 per cent.

The farmers produce wool for sale, but it is admitted free. He must buy his woollen cloth, and this is subject to almost prohibitory duties.

In his address to the Grand Jury at Montreal lately, Chief Justice Dorion said that the greater proportion of crime might be traced to intemperance.

Sir John Macdonald is aptly described by the Montreal *Post* as a "trick-o'-the-loop," when you think you have him you don't have him.

Toronto grocers find fault with the duty on sugar, which is a tax levied on the whole community for the sake of a millionaire monopolist.

A special emigrant train is to leave Belleville on Tuesday, April 8th, for Manitoba direct.

The Belleville Board of Education ask an appropriation of $12,750 this year for school purposes.

The water will be drawn off the Welland Canal, between locks 2 and 26, on the 31st inst., for the purpose of making necessary repairs on the Canal.

There is a child in Inniafil that has a father and mother, two grandfathers and two grandmothers, two great grandfathers and four great grandmothers.

Deer are being killed by the dozen at Hepworth, Owen Sound, by parties of hunters. The constables are on their track, as the fine is very heavy for killing out of season.

The sum of $14,000 was received in payment for tickets and freight at the Grand Trunk Railway office at Ottawa, from the party who recently left that city for Manitoba.

The Highland settlers above Stokes' Bay are clearing away vigorously and looking hopefully forward to the "good times coming" when cleared farms, good roads, and the Stratford & Huron Railway will be the order of the day.

A clergyman while driving away from a missionary meeting at Smith's Falls, on Friday, lost a satchel containing $160 of missionary money and other articles. It is supposed that the satchel, which was strapped on the back of the cutter, was stolen by some person on the road.

SPECIAL OFFER.—$7 FOR 63 CENTS; a special offer to the readers of this paper. The AMERICAN DIAMOND DICTIONARY, containing 30,000 words, orthography, pronounciation, and definitions, according to the best English and American Lexicographers, illustrated with nearly 200 engravings; satisfies the wants of the scholar, and at the same time is just what a plain learned person needs. It is decidedly the best dictionary ever printed. Contains 700 double column pages. Superbly bound in cloth and gilt. Type clear and handsome. Sent free to any number of this paper upon receipt of 63 cents to pay actual postage and packing charges. This great offer is good for 60 days only, and is made solely for the purpose of introduction. Buy two dictionaries or will be sent to one address. This appears but once. Order now. Send currency or 1 ct. postage-stamps. Address, HOUSEHOLD PUBLISHING CO., 20 Dey Street, New York.

MARRIED.

BRADEN—FIFE.—On the 25th of March, by the Rev. Mr. McCullough, at Keene, at the residence of the bride's father, Mr. Edwin Braden, to Ella, second daughter of Wm. Fife, Esq., all of Otonabee.

GOODFELLOW—CAMPB

THE LAST LAP.

I'm on my last lap, boys,
And have not won the race;
I've done my level best, boys,
And kept a steady pace;
But now I leave the track, boys,
I can not stand the pace.

Cheers, rousing cheers, for them who win,
Renown and wreaths and gold,
Whilst friends crowd round with open hands,
And I'm out in the cold.
I'm left out in the cold, boys,
With aching feet and sore;
And, oh! the aching of my heart
But that will ache no more.

I'm on my last lap, boys,
But have not won the race;
And those had better leave the track
Who cannot stand the pace.

I felt so strong at starting,
My sinews seemed of steel;
My nerves, my bones, my muscles, all
Were sound from head to heel.
My shoes they surely chafed my feet.
And— Well, I hardly know—
The track was soft, the air was foul,
I scarcely had a show.

I'm on my last lap, boys,
But have not won the race;
And those had better leave the track
Who can not stand the pace.

At times I'd forge a bit ahead,
And then I'd fall behind;
Some jeered me as I toiled around,
A few good souls were kind.
I've tramped this track for weary years;
I've done my level best
For half a century of laps,
And now I go to rest.

I'm on my last lap, boys,
But have not won the race;
And those had better leave the track
Who can not stand the pace.

I've no pile to leave behind,
No trophies, and no fame;
No prizes for my little breed,
Save, perhaps, an honest name.
It's been a woful strain, boys,
But now I'll have some ease;
One lap to all eternity,
And go it as you please.

I'm on my last lap, boys,
But have not won the race;
And those had better leave the track
Who can not stand the pace.

POMONA'S BRIDAL TRIP.

(Continued from last week.)

Madam, says the boarder, very respectful, to Mrs. Jackson, where do you live? Can't I take you home? No, sir, says she, at least not now. If you have a carriage, you may come for me after a while. I am waiting for the Bank of the United States to open, an' until which I must support myself on the light fantastic toe, an' then she tak up her skirts, an' began to dance sig'n. But she didn't make more'n two skips before I rushed in, an' takin her by the arm hauled her out o' the ring. An' then up comes the big man with his face as red as fire. Look here! says he to her as if he was ready to eat her up. Did you draw every cent of that money? Not yet, not yet, says she. *Yer did, yer purse-proud cantelope*, says he. You know very well you did, an' now I'd like to know where my ox-money is to come from. But Jone an' me didn't intend to wait for no sich talk as this, an' he tuk the man by the arm, an' I tuk the old woman, an' we jus' walked 'em off. The boarder he told the loafers to get out an' go home, an' none of 'em followed us, for they know'd if they did he'd a batted 'em over the head. But he comes up alongside o' me, as I was a-walkin' behind with Mrs. Jackson, and says he: 'How d'ye do, Pomona? I must say that I felt as if I could slip in between two bricks, but as I couldn't get away, I said I was pretty well. "I heared you was on your bridal-trip, says he sa'in; is this it? It was jus' like him to know that, an' as there was no help for it, I said I was. Is that your husband? says he, pointin' to Jone. Yes, says I. It was very good in him to come along, says he. Is these two your groomsman and bridesmaid? No sir, said I. They're crazy. No wonder, says he. It's enough to drive 'em so, to see you two, an' then he went ahead an' shook hands with Jone, an' told him he'd know'd me a long time; but he didn't say nuthin' about havin' histed me out of the winder, for which I was obliged to him. An' then he come back to me, an' says he, Good-mornin', I must go to the office. I hope you'll have a good time for the rest of your trip. If you happen to run short o' luxuries, jus' let me know, an' I'll furnish you with another pair. All right, says I; but you must's bring your little girl along.

He kinder laughed at this, as he walked away, an' then he turned around an' come back an' says he, Have you been to any the-ay-ters, or nothing, since you've been in town? No, says I, not one. Well, says he, you ought to go. Which do you like best, the the-ay-ter, the circus, or wild beasts? I did really like the the-ay-ter best, havin' thought of bein' a play-actor, as you know, but I considered I'd better let that kind o' thing alide jus' now, as bein' a little too romantic, right after the 'sylum, an' so I says, I've been once to a circus, an' once to a wild beast garden, an' I like 'em both. I hardly know which I like best—the roarin' beasts, a-prancin' about in their cages, with the smell of blood an' hay, an' the tower in elephants; or the horses, an' the music, an' the gansey figgers at the circus, an' the plendid knights in armor an' flashin' pennants, all on fiery steeds, a-ploughin' up in the sides of the ring, with their flags a-flyin' in the grand entry, says I, real excited with what I remembered about these shows.

Well, says he, I don't wonder at your feelin's. An' now, here's two tickets for to-morrow night, which you an' your husband can have, if you like, for I can't go. They're to a meetin' of the Huds n County Entermological Society, over to Hoboken, at eight o'clock.

Over to Hoboken! says I; that's a long way.

Oh no, it aint, says he. An' it wont cost you a cent, but the ferry. They couldn't have them shows in the city, for, if the creatures was to get loose, there's no knowin' what might happen. So take 'em, an' have as much fun as you can for the rest of your trip. Good-bye! An' off he went.

Well, we kep' straight on to the doctor's, an' glad we was when we got there, an' mad he was when we left Mr. Jackson an' the General on his hands, for we wouldn't have no more to do with 'em, an' we couldn't back out from seein' to their goin' back. I thought at first he wouldn't lift a finger to get us our trunk; but he cooled down after a bit, an' said he hoped we'd try some different kind of institution for the rest of our trip, which we said we thought we would.

That afternoon we gawked around, a-lookin' at all the outside shows, for Jone said he'd have to be pretty careful of his money now, an' he was glad when I told h m I had two free tickets in my pocket for ow in the evenin'.

As we was a-walkin' down to the ferry, after supper, says he:

Suppose you let me have a look at them tickets.

So I hands 'em to him. He reads one of 'em, and then he reads the other, which he needn't 'a' done, for they were both alike, an' then he turns to me, and says he:

What kind of a man is your boarder as was?

It wasn't the easiest thing in the world to say jus' what he was, but I give Jone the idea, in a general sort of way, that he was pretty lively.

So I should think, says he. He's been tryin' a trick on us, and sendin' us to the wrong place. It's rather late in the season for a show of the kind, but the place we ought to go to is a potato-field.

What on earth are you talkin' about? says I, dumfoundered.

Well, says he, it's a trick he's been playin'. He thought a bridal trip like ours ought to have some sort of a outlandish wind-up, an' so he sent us to this place, which is a meetin' of chaps who are sayin' to talk about insect's,—precisely potato-bugs, I expect'—an' anything stupider than that, I s'pose your boarder as was couldn't think of, without havin' a good deal o' time to consider.

It's jus' like him, says I. Let's turn round and go back, which we did, prompt.

We gave the tickets to a little boy who was sellin' papers, but I don't believe he went.

Now then, says Jone, after he'd been thinkin' awhile, there'll be no more foolin' on this trip. I've blocked out the whole of the rest of it, an' we'll wind up a sight better than that boarder as was has any idea of. To-morrow we'll go to father's an' if the old gentleman has got any money on the creeps, which I expect he has, by this time, I'll take up a part of my share, an' we'll have a trip to Washington, an' see the President, an' Congress, an' the White House, an' Congress, an' the lamp always a-burnin' before the Supreme Court, an'——

Don't say no more, says I, it's splendid!

So, early the next day, we goes off jus' as fast as trains would take us to his father's, an we hadn't been there more'n ten minutes, before Jone found out he had been summoned on a jury.

When must you go? says I, when he come, lookin' a kind o' pale, to tell me this.

Right off, says he. The court meets this mornin'. If I don't hurry up, I'll have some of 'em after me. But I wouldn't cry about it. I don't believe the case 'll last more'n a day.

The old man harnessed up an' took Jone to the court house, an' I went too, for I might as well keep up the idea of a bridal trip as not. I went up into the gallery an' Jone, he was set among the other men in the jury-box.

The case was about a man named Brown, who married the half-sister of a man named Adams, who afterwards married Brown's mother, an' sold Brown a house he had got from Browns grand-father, in trade for half a grist-mill, which the other half of was owned by Adams's half-sister's first husband, who left all his property to a soup society, in trust, till his son should come of age, which he never did, but left a will which give his half of the mill to Brown, and the suit was between Brown an' Adams an' Brown again, an' Adams half-sister, who was divorced from Brown, an' a man named Ramsay, who had put up a new over-shot wheel to the mill.

Oh my! exclaimed Euphemia. How could you remember all that?

I heard it so often, I couldn't help remembering it, replied Pomona. And she went on with her narrative.

That case wasn't a easy one to understand, as you may see for yourselves, and it didn't get finished that day. They argued over it a full week. When there wasn't no more witnesses to carve up, one lawyer made a speech, an' he set that crooked case straight, that you could see through it from the over-shot wheel clean back to Brown's grandfather. Then another feller made a speech, and he set the whole thing up another way. It was jus' as clear to look through, but it was another case altogether, no more like the other one than a apple pie is to a mug o' cider. An' then they both took it up, an' they swung it around between them, till it was all twisted an' knotted an' wound up, an' tangled, worse than a skein o' yarn in a nest o' kittens, and then they give it to the jury.

Well, when them jurymen went out, there wasn't none of 'em, as Jone tole me afterward as knew whether it was Brown or Adams as was dead, or whether the mill was to grind soup, or to be run by soup-power. Of course they couldn't agree; three of 'em wanted to give a verdict for the boy that died, two of 'em was for Brown's grandfather, an' the rest was scattered, some goin' in for damages to the witnesses, who ought to get somethin' for havin' their char-ac-ters ruined. Jone he jus' held back, ready to jine the other eleven as soon as they'd agree. But they couldn't do it, an' they was locked up three days and four nights. You'd better believe I got pretty wild about it, but I come to court every day an' waited an' waited, bringin' somethin' to eat in a basket.

One day, at dinner-time, I seed the judge a-standin' at the court-room door, a-wipin his forrid with a handkerchief, an' I went up to him an' said Do you think, sir, they'll get through this thing soon?

I can't say, indeed, said he. Are you interested in the case?

I should think I was, said I, an' then I told him about Jone's bein' a jury-man, an' how we was on our bridal-trip.

You've got my sympathy, madam, says he, but it's a difficult case to decide, an' I don't wonder it takes a good while.

Nor I nuther, says I, an' my opinion about these things is, that if you'd jus' keep them lawyers shut up in another room, an' make 'em do their talkin' to theirselves, the jury could keep their minds clear, and settle the cases in no time.

There's some sense in that, madam, says he, an' then he went in court ag'in.

Jone never had no chance to jine in with the other fellers, for they couldn't agree, an' they were all discharged, at last. So the whole thing went for nothin'

When Jone come out, he looked like he'd been drawn through a pump log, an' he says to me, tired like,

Has there been a frost?

Yes, says I, two of them.

All right, then, says he. I've had enough of bridal-trips, with their dry falls, their lunatic asylums, an' their jury-boxes. Let's go home and settle down. We needn't be afraid now that there's been a frost.

Oh, why will you live in such a dreadful place? cried Euphemia. You ought to go somewhere where you needn't be afraid of chills.

That's jus' what I thought ma'am, returned Pomona. But Jone an' me got a disease map of this country an' we looked all over it carefully, an' wherever there wasn't chills there was somethin' that seemed a good deal wuss to us. An' says Jone, If I am going to have anything the matter with me, give me somethin' I'm used to. It don't do for a man o' my time o' life to go changin' his diseases.

So home we went. An' there we is now. An' as this is the end of the bridal-story, I'll go and take a look at the cow an' the chickens an' the horse if you don't mind.

Which we didn't,—and we gladly went with her over the estate.

Promise vs. Practice.

'It is my policy,' said Sir John last summer 'to transfer the duties from such articles as tea, coffee, sugar and tobacco, which Canada cannot raise, and place them on such articles as can be produced in the country.' This was the bribe offered for the workingman's vote. 'If you do have to pay any more for manufactures, at all events you will get your tea and sugar and tobacco cheaper.' But the new tariff, while it does put on the taxes on manufactures of cotton and woollen, and leather and iron, and wood, has caused no reductions in price in articles of food, and has made no nearer approach to the 'free breakfast table' about which some Tory orators had so much to say. Sugar will be one-fifth more, the duties on tea are higher, there is no reduction on coffee or tobacco, while a tax has also been placed on coal and other necessaries of life.

I. O. O. F.

The returns of the subordinate lodges of the Independent Order of Oddfellows of Ontario, for the year ending December, 1878, show the Society to be in a very good condition. The operations of the year are thus given by the Grand Secretary:

Initiated	1697
Admitted by card	171
Re-Instated	78
Total	1946
Died	76
Withdrawn	1262
Suspended for non-payment of dues	1292
Expelled	39
Total	1745
Increase	201
Present Membership	12334

The relief statistics for the same time are as follows:

Number of Brothers to whom were paid Sick Benefits	2020
Number of Widowed Families relieved	120
Amount paid Sick Benefits	$20217 95
" " Relief of Widows	2220 00
" " Charity	2221 00
" " Burying the Dead	2220 00
Total Relief	$26,879 77

The total number of lodges in the Province is 188; and their receipts for the year, $104,-126.20. The Widows' and Orphans' Fund now amounts to $68,121.65; the Contingent Fund to $10,343.88; and the General Benefit Fund, $213,884.71.

Since the Grand Lodge session last August, the following lodges have been organized:

Argyle Lodge, No. 212	Napanee
Zephyr " " 213	Zephyr
Orford " " 214	Clifford
Freestone " " 215	Stonesville
Elmira " " 216	Elmira
St. Bridgets " " 217	St. Bridgets
Enterprise " " 218	Mount Charles
Rainbow Degree " 13	St. Thomas

Triplet Maxims.

Three things to love—courage, gentleness, and affection.

Three things to admire—intellect, dignity, and gracefulness.

Three things to hate—cruelty, arrogance, ingratitude.

Three things to delight in—beauty, frankness, and freedom.

Three things to wish for—health, friends, and a contented spirit.

Three things to like—cordiality, good humor, and cheerfulness.

Three things to avoid—idleness, lequacity, and flippant jesting.

Three things to cultivate—good books, good friends and good humor.

Three things to contend for—honor, country and friends.

Three things to teach—truth, industry, and contentment.

Three things to govern—temper, tongue, and conduct,

Three things to cherish—virtue, goodness, and wisdom.

Three things to do—think, live, act.

Sugar Beet Culture.

Lieutenant-Governor Chandler said in his address to the members at the opening of the New Brunswick Legislature:—"A large amount of intelligent consideration has been recently directed to the subject of the cultivation of the sugar beet in different parts of the world. With a view to encourage and facilitate the fair trial of so interesting an experiment as the culture of the sugar beet in this Province my Government has ordered the importation of a quantity of pure and reliable seed and due notice will be given upon its arrival. The proposed manner of distribution, together with the probable expenditure in this direction, will be submitted for your consideration. I sincerely hope the cultivation of sugar beet in this Province may prove successful and remunerative."

The N. P. and British Connection.

(From the Toronto Globe.)

Either the protectionist tariff must be abandoned, or we must boldly say that to maintain it is of more importance than to maintain the Imperial connection.

(From the London Times.)

Since the Canadians wish to have this tariff, they must have it and go their own way; but the result is none the less deplorable.

(From the Toronto Mail.)

If British connection is injured by it, then so much the worse for British connection.

(From the Toronto Mail again.)

Sentimental drivel about the old flag.

(From Mr. Sam Day, Tory Candidate, East Elgin.)

I don't give a d—n for England.

LAKEFIELD.

(From our own Correspondent.)

—More snow.
—Better roads.
—Thawing again.
—No news, items this week are like angels visits "few and far between."
—Lumbermen are rushing in their supplies to the shanties while the roads are good.
—On Saturday morning while on his way to Young's Point, Dr. Bell met with a mishap, his horse taking fright, unsetting him, and bolting home. Result, a few bruises, mixed up medicines, and a dilapidated cutter.
—On Saturday afternoon a man called Quinlan, cadging for Mr. Ludgate, while on his way north near Burleigh bridge, got off his load to run behind and warm his feet, the horses started on and he tried to jump on the sleigh to get the reins, but slipped and fell on the stake, injuring himself internally, he was brought back to Youngs' Point and attended by Dr. Bell who was there, and then conveyed by stage to his home in Ashburnham.

SELWYN.

(From our own Correspondent.)

A meeting of the patrons of the Selwyn Cheese Factory, was held in the Temperance Hall on Friday the 21st, to make arrangements for the next season's make. The patrons expressed their satisfaction with the way Messrs. Moore & Elliott had managed the affairs of the Factory for the last two years, and the necessary arrangements were made for the next season. Messrs. Moore & Elliott making the cheese for 11 cents per lb. After some discussion as to the appointing of a committee, the chairman declared the meeting adjourned until the 9th of April at 7 o'clock p.m.

Mr. J. W. Moore, senr., has sold his farm, we understand for $3,900, and is leaving for Indiana.

The Temple is doing better than usual, as there is a great deal of interest manifested by the members in the literary part of the proceedings.

PORT HOPE.

A WALLET TAKEN FROM THE ROOTS OF A CEDAR TREE.—About half-past three o'clock this P. M., we received the intelligence that a young man named Frank MacEvoy, while cutting down a small cedar tree or bush near the Grand Trunk station, discovered at the roots a leather pocket-book about four inches thick, which when opened was found to contain a large number of twenty dollar bank-notes. The wallet also contained an ivory-handled pencil.

The pocket book and money appear to have lain where found for a number of years, and many and various are the speculations indulged in with regard to the mysterious placing of so much wealth in this strange resting place. The question naturally suggests itself—who placed it there? We understand that the Police Magistrate was informed of the finding of the money, and no doubt steps will be taken by the authorities to throw as much light as possible, on this mysterious affair.—*Guide.*

YOUNG'S POINT.

(From our own Correspondent.)

—More snow.
—Good sleighing.
—The Robin was seen here last week.
—The Tories around here intend voting Grit next election, being disgusted with the new tariff.
—Mr. Darcey, of the Burleigh Hotel, intends giving his customers a cool reception next summer, having laid in a double supply of ice.
—Mr. Walters, of the Public Works Department, Toronto, was here last week. It is said there is to be a new swing bridge built over the locks and the dam and slide repaired.
—Harry Wells, the Miller, is doing a good business, working late and early. He turns out good work and has a smile and good word for every one.
—Dr. Bell, of Lakefield, while on the way here to see a patient, let his horse run away. The horse took fright at a cow, bolted and threw the Dr. out, returning to its owner's stable. Fortunately only the usual damage was done.

Gleanings From Many Sources.

The polling in Prince Edward for the repeal of the Dunkin Act has resulted, in a majority of 510 for the repeal.

When Mr. Masson fell in a fit in the House of Commons the other day, his necktie was opened by those attending him. From that moment to this his breastpin, which he valued at $200, cannot be found. Mr. Masson, it ought to be added, sits on the Ministerial side of the House.

In the Senate on Monday, Hon. Mr. Alexander expressed his opinion that the taking of the census in 1871 had been unnecessarily expensive, and that by taking advantage of the existing municipal machinery the censure of 1881 could be taken with accuracy and a very large amount saved to the country. All sensible persons will agree with him.

London Advertiser:—Mr. Mowat goes to the country as strong as ever. He was, and justly confident that his administration of public affairs has received the approval of the public hitherto, and will receive it still more definitely on the election day. He has done his work as an honest and able statesman, and need have no fears for the result.

The Principal of the public school at Ailsa Craig being cited before the trustees of the school to account for alleged cruelties toward the many of the children, did not or would not offer any apology or his conduct. He told a parent who was present, and who objected to his child's nose being placed on a given point in the centre of a circle on the blackboard for half an hour for each offence, that if he were there he would put his nose inside the circle also. So far as the partialities, impartialities and nicknames, with other unheard-of modes of punishment, went, he seemed to set his employers at defiance.

False Pretences.

The St. John *Telegraph*, the ablest and most influential journal in New Brunswick, after speaking in general terms of the new tariff, goes on to say: "But we will defer a full consideration of the tariff until we are assured of the form which it will finally assume. We said that the election could not have been carried on the most outrageous tariff now promulgated. Need we say that Confederation could never have been carried here had the idea that such a tariff could ever have been forced on the Maritime Provinces been credited? Then we were told how low the *per capita* tax would be and how low the tariff would be kept. We were to have cheap food, fuel, etc., so as to manufacture cheaply and send up our goods to the Upper Provinces. Now all this is reversed, though the Government now in power is almost identical with that which carried Confederation. This opens up a wide field of remark, but we cannot enter on it at present."

THE CENSUS.

A blue book just distributed gives the censuses of Canada from 1608 to 1876, and contains much interesting information. Some of the religious statistics are worth noticing. The contents of this volume constitute the complement to the censuses of British North America. It is divided into two different parts. The first gives the totals of the censuses of 1851, 1861 and 1871 in their proportionate relations to population and territory. The second gives the general statement of the movements of population or vital statistics from the earliest settlement of Europeans in Canada. A table showing the results of investigations regarding human longevity in Canada closes the volume. Montreal in 1851 had a population of 57,715; in 1861 of 90,323, and in 1871 of 107,225. Quebec in 1851 had a population of 42,052; in 1861 of 59,990; and in 1871 of 59,699. Toronto in 1851, 30,775; in 1861, 44,821; in 1871, 56,072. Ottawa, 7,760 in 1851; 14,669 in 1861, and 21,545 in 1871. London, 7,035 in 1851; 11,555 in 1861, and 15,826 in 1871. The total population of the provinces is compared as follows:

	1851.	1861.	1871.
Ontario	952,004	1,396,071	1,620,851
Quebec	890,261	1,111,566	1,191,516
Nova Scotia	193,800	252,047	285,594
New Brunswick	276,854	330,551	387,800
Totals	2,312,919	3,009,535	3,485,761

The statistics of the denominations are:

	1861.	principal religious 1871.
Baptists	189,846	239,343
Catholics	1,372,923	1,492,883
Church of England	466,466	494,744
Methodists	441,021	567,091
Presbyterians	472,496	545,095

Wooly Horses.

Wooly horses are not so rare as many suppose, no such great curiosities either, there are many to be found in various parts of the country, but we doubt if they will ever prove as valuable to their owners as the one exhibited by Barnum, we imagine their owners would consider them more valuable without the wool, for this rough and wooly state of the hair indicates that the horse is not in a healthy condition—probably hide-bound, or suffering from some disease which occasions this unnatural appearance; in such cases use "Darley's Condition Powders and Arabian Heave Remedy," it purifies the blood, corrects the appetite, removes all obstructions from the liver and lungs, and gives to the coat a sleek and shining appearance. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Consumption.

Consumption, so prevalent and so fatal, is dreaded as the great scourge of our race; and yet, in the formative stages, all pulmonary complaints may be readily controlled by using "Bryan's Pulmonic Wafers." They will relieve the worst cough in a few minutes, and have a most beneficial influence on the bronchial and pulmonary organs; but they must be used in time. Public speakers and singers will also derive great benefit by using them Sold by all druggists and country dealers. Price 25 cents per box.

Mitchell's Bellandona Improved India Rubber Porous Paster.

There never has been a time when the healing of so many different diseases has been treated by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when scientifically compounded, is full of electricity and when combined with the pure medicinal gums, is found to be one greatest healing mediums ever brought before the human race

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of RHEUMATISM, TICDOLOREUX, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a long seated Consumption.

Prepared by GEORGE E. MITCHELL Lowell, Mass

The Great Shoshonees Remedy

The Great Shoshonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicine plants and herbs; the various properties of these different ingredients, when combined as so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys digestive, Organs, Nervous System, &c., restoring their functions to healthy action, and being purely vegetable, is an harmless a nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It [illegible] and unequalled remedy for [illegible] of the Kidneys, [illegible] medicines of the [illegible] over. As a [illegible] rivaled; it [illegible] to [illegible] against the [illegible] disease to which it is subjected by a high temperature. Persons who are subject to Bilious Colic, Dysentery, Indigestion, &c., should take the Shoshonees Remedy. Price of the Remedy in plat bottles $1; Pills, 25 cts. a box. Sold by all medicine dealers.

INFORMATION FOR PHYSICIANS.

RUPTURED AND DEFORMED PEOPLE.

Grand Medal and Diploma at the Centennial, Philadelphia; Grand Medal at the Universal Exhibition, Paris, France. Recommended by a large number of our leading medical men.

Charles Cluthe's Pat'd Spiral Truss Pad has been the result of many years' study and material experience. Its perfect adaptability for Rupture is proven by the thousands now in use. Among its many advantages are a gentle, constant and even pressure; it gives to the motion of the body without friction; complete ventilation (as shown in engraving); a clamping pressure which does not open (as all oval pads) but closes the aperture of Hernia, hence only one-third pressure is required. It is this latter feature that has made this truss so eminently successful and proved a Radical Cure of from 50 to 70 per cent. of cases treated. This Truss cured persons of over 90 years of age. Only one belt round the waist, no leg straps and no springs required for its use.

Apparatus for straightening Spinal Curvature, Hip Disease, Bow Leg, Wry Neck, Club Foot, etc., made on most scientific principles. Price same as at my office.

CHARLES CLUTHE,

Surgical Machinist, Hamilton, Ontario. will visit Peterborough again at out the month of June. Date announced shortly.

Feb. 12 1879. 1 26t

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a revered Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very distressable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Fort Elgin, Ont., Aug. 24, 1878.

We will pay Agents a Salary of $100 per month and expenses, or allow a large commission to sell our new and wonderful invention. *We mean what we say.* Sample free. Address. SHERMAN & CO., Marshall, Mich. 7-13ins.

MANHOOD:

NOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

☞ Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

☞ The Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York.

Post Office Box 1568. 1-1y.

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dread disease, *Consumption*, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address REV. A. WILSON, 149 Penn St., Williamsburgh, N. Y.

PILES.—Dr. Faber's Celebrated Pain-less Remedy is the best ever

known for Piles of every kind (*Bleeding Itching, Blind, Pascent, &c.,*) and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Chronic cases readily yield to it. No surgical operation required. Try it and relieve your sufferings Only 50 cents for a large package. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ABER, 31 Ann-St., N.Y. 52-6m

PIMPLES.—I WILL MAIL (FREE)

the recipe for a Simple Vegetable Balm that will remove TAN, FRECKLES, PIMPLES and BLOTCHES, leaving the skin soft, clear and beautiful; also instructions for producing a luxuriant growth of hair on a bald head or smooth face. Address, inclosing 2c stamp, BEN. NANCKLY & Co., 30 Ann-St., N.Y. 52-6m

ERRORS OF YOUTH.—

A gentleman who suffered for years from Nervous DEBILITY, PREMATURE DECAY, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and full directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience, can do so by addressing in perfect confidence, JOHN B. ODDEN, 42 Cedar St., New York. 52-6m

The Beautiful Spring has Come.

BY MRS. M. A. KIDDER.

Lift up your hearts oh thankful poor,
And also your joyful hands,
The Spring has come! let every voice
Be heard throughout all lands.

Lift up your hearts, oh rich and great,
For all the blessings given,
As down descend, and kindness rains
Life giving, come from heaven.

Lift up your hearts, ye hoary-haired
That near the shining shore;
Eternal spring will soon be yours,
And rest forevermore!

Lift up your hearts in thankfulness
Sweet children and fair youth,
As Spring puts on her robes of green,
Put on the robes of truth.

Lift up your hearts ye songsters bright,
In sadness without words,
And all created things rejoice
In chorus with the birds!

Oh! glorious Spring! oh gladsome Spring,
In royal garments dight,
By old and young, by rich and poor
Art thou forever blest!

Curiosities of Courtship.

The Curious Methods Some Men Took to Obtain Wives.

Courtship, it will be admitted, is a very ancient practice and prevails everywhere. And yet whatever may be the inner and concealed lines on which it is conducted, the external and visible ones vary with country, age and circumstances. In some lands it is an affair of the state, and with certain people it is a mere matter of family arrangement; with others the adjustment of a few financial questions. In such instances the true fire and inspiration of love—the "stound"—which give life to the forms of courtship, are of necessity absent. The following curiosities of courtship in its various phases may interest our readers:

WILLIAM DRUMMOND, THE POET,

Wooed and won Miss Cunningham, a beautiful and accomplished young lady, who died when the wedding-day was fixed. This melancholy event so overwhelmed the poet with grief that he never ceased to pour fresh tears over her grave. At least for many years after the death of Miss Cunningham life seemed to Drummond "a nought, a thought, a masquerade of dreams." He lived in a state of celibacy till the age of 47, when he married Elizabeth Logan, a lady in whom he traced many strong resemblances to her whom he first loved, and by whom he was so greatly charmed.

SHE LOOKED LIKE HIS FIRST WIFE.

A gentleman in Nottingham looking from his window one day, saw a lady pass who looked very much like his late wife. He made haste after her, and having succeeded in obtaining all necessary information she was married to him because of the likeness which she bore to one whom he had tenderly loved.

Reported virtues have sometimes paved the way to the most romantic attachments. Col. Hutchinson, Governor of Nottingham Castle and Town in the time of the civil war, being at the house of Sir Allen Apsley, was greatly pleased with a child of a pleasant and vivacious spirit. One day when looking on a shelf, he found a few Latin books, and asking whose they were, he was told by the young miss that they were her eldest sister's. He at once wished to see her; but as she was gone from home, he was not likely to have his wish fulfilled. Meanwhile gentlewomen who had been Miss Apsley's companions used to tell him how reserved and studious she was; and these reports so inflamed his desire to see her, that he began to wonder why he should have such a strong impulse toward one whom he had never seen. There scarcely passed a day but some accident or discourse still kept alive and strengthened his wish to see her. Once in a company at a gentleman's house, a certain song was sung which was said to have been written by Miss Apsley, who, by-the-by, was greatly praised by two or three gentlemen in the party. He (Mr. Hutchinson) heard all this, and said to one of the gentlemen: "I cannot be at rest till this lady return, that I may be acquainted with her." The same evening while they were at supper, some statement was made which gave him the impression that the young lady was married; he was taken ill immediately, and had to leave the table. He, however, learned shortly after that his impressions were wrong. Afterwards they were fortunate enough to meet, and a friendship at once created which ripened into strong affection. Devotedly attached to her, she became to him a most admirable wife and companion, and lived to be the writer of the "History of the Siege of Nottingham Castle."

Another instance of

LOVE ARISING FROM REPORTED VIRTUES

Is related of the Rev. Joseph Gilbert, who was so charmed with the writings of Miss Anna Taylor, and the eulogium of her personal merits pronounced by those acquainted with her, that without having seen her, he addressed a letter to the young lady, inquiring whether any peremptory reasons existed which might lead him to conclude that a journey undertaken with the purpose of soliciting her heart and hand could not possibly be successful. After a little correspondence, the journey was permitted and an interview was obtained, which ripened into happy wedded life.

The celebrated John Newton, of Olney, fell in love with a Kentish maid

AT FIRST SIGHT.

The girl was under 14 years of age; but such was the impression she made on young Newton, that his affection for her appears to have equalled all that the writers of romances have imagined. When in distant parts of the world, the thought of her checked him in a profligate career. When sinking on the coast of Africa into a wretched state of slavery and when ready to put an end to his life, the thought of her aroused him to energy and inspired him with hope. All the oppression and scenes of misery and wickedness through which he had to pass never banished her for a single hour from his waking& bought for the following seven years. When he lived in London, he would repair twice a week to Shooter's Hill, and from the top of the eminence eagerly blessed by a distant view of the distant [illegible] which [illegible] lived. Not that [illegible] the spot itself, which was in sight, [illegible] remote; but it gratified him even to look towards the spot. She considered because the bright star of his life.

The Rev. Joseph Hall, [illegible] of Worcester, [illegible] author of "Contemplation of the Old and New Testament," obtained a wife in a very singular manner. In walking from church one Whit-Monday with a grave and reverend minister of the name of Grandidge, he saw a comely modest gentlewoman standing at the door of a house where they were invited to a wedding dinner. Mr. Hall inquired of his friend whether he new her. "Yes," said Mr Grandidge; "I know her well, and

I HAVE BESPOKE HER FOR YOUR WIFE.

She is the daughter of a gentleman whom I much respect, Mr. George Wiandif, of Bretenham; and out of an opinion I have of the fitness of the match for you, I have already treated about it with her father, whom I found very apt to entertain it." Mr. Hall, too, it seems was equally apt to entertain it; for he says: "Being advised not to neglect the opportunity, and not concealing the just praise of the modesty, piety, good disposition and other virtues that were lodged in that seemly presence, I listened to the motion as sent from God." On this motion Mr. Hall acted; he spoke the necessary words; and at last with due prosecution, happily prevailed, enjoying the society of that charming helpmate for the space of forty-five years.

THE CELEBRATED GEORGE WHITEFIELD

Began his courtship in a singular fashion. His biographer pronounces him one of the oddest wooers that ever wooed. When Whitefield was in America, and had under his charge the Orphan House in Savannah, 'it was much impressed on his heart that he ought to marry in order to have a help-mate in his arduous work.' He had also fixed his mind on the young lady whom he intended to ask to become his wife. So he addressed a letter to her parents and inclosed another to herself. In this letter to the parents he stated that he wanted a wife to help him in the management of his increasing family, and then said: 'This letter comes like Abraham's servant to Rebekah's relations, to know whether your daughter, Miss E——, is a proper person to engage in such an undertaking; and if so, whether you will be pleased to give me leave to propose marriage to her. You need not be afraid or sending me a refusal; for I bless God, if I know anything of my own heart, I am free from that foolish passion the world calls love.' He wrote in a similiar strain to the young lady, asking her, among many other questions, if she could leave her home, and trust in Him for support who feeds the young ravens: and bear the inclemencies of air both as to heat and cold in a foreign climate; whether having a husband she could be as though she had none. He also told her that he thought the passionate expressions which ordinary courtiers use ought to be avoided by those who would marry in the Lord; and that if she thought marriage would in any way be prejudicial to her better part, she was to be so kind as to send him a denial; that she need not be afraid to speak her mind, as he loved her only for God.

The letters were not as successful as Abraham's servants. The parents were not very anxious to send their daughter on such an adventure; and Whitefield continued for a longer space in his bachelor condition. Some time after he essayed another courtship with a widow in Wales after the same style. The mode in which Rebekah was chosen for Isaac seems to have been Whitefield's ideal of obtaining a wife. The week after he was married he went on one of his evangelistic tours, and left his newly wedded wife to muse alone amid the Welsh hills in the second quarter of their honeymoon.

HOW A PAINTER WON A WIFE.

Thomas Gainsborough's young friend (a commercial traveler in his father's establishment) had a sister, Miss Margaret Burr, an extraordinary beauty. That Miss Burr should wish to have her portrait painted by her brother's friend, is not a matter of wonder. Neither is it a wonder that the sittings were numerous and protracted, for such they were declared to have been. The likeness was at last finished, and pronounced by competent judges perfect. The young lady greatly admired the painter's skill, and in glowing terms expressed her appreciation of the portrait, and in doing so gave the artist the gentlest possible hint that perhaps in time he might become the possessor of the original. On that hint Gainsborough spoke the magic word, and after a short courtship, was rewarded by her hand, and each last brightness to the other's life.—[Chambers' Journal.]

Contemporary Opinion.

Stores and the N. P.

(From the London Advertiser.)

As the details of the "National Poultice" Tariff come to be considered with reference to different industries, the gross injustice of the whole arrangement appears more glaring than when it is considered as a whole, bad enough as it is in the latter case. The effect of it already on the stove trade has been to increase the cost 20 per cent. to the retail dealer, printed circulars to that effect, signed by all the leading makers in Ontario, having been issued. This, of course, will have to be paid ultimately by the consumer, as are all the duties. But this does not represent the full measure of the increase: for in addition to that amount specifically, there is a reduction in the term of credit given the retailer. Formerly, the settlement was in notes at six months. Now, however, this is changed, and hereafter settlements must be made with notes redeemable in *four months*. So that it will be seen the real increase, while nominally of twenty per cent. will in reality, amount to 25 per cent. Who's to pay this will be realized, if not to the satisfaction, at least to the conviction, of the purchaser, who will hereafter find his bill for a stove made out for $18.75 where it was formerly only $15, and in the same proportion whatever may be the cost of the stove. This is rendered necessary by the duty on raw material.

PETERBOROUGH, APRIL 10, 1879.

THE LETELLIER AFFAIR.

The question of the constitutionality of Lieutenant-Governor Letellier's action in dismissing the De Boucherville Ministry has assumed a new phase, which threatens to bring about a crisis in the political history of the Dominion. The whole trouble has arisen from the intensity of party feeling imported into the question by the French Canadian Conservatives, led by the men who had been dismissed by the Lieutenant-Governor. The mistake was in allowing the cause of the representative of the Crown to be brought in at all, and in permitting the imputation to him of motives other than of an exclusively public character. This mistake led the question entirely beyond constitutional law, and made it utterly impossible to discuss it upon its merits. The first point that arises in considering this matter is the utility of a Lieutenant-Governor at all, if he has not the power of dismissing his Ministers when they are at variance with him and with the best interests of the people of the Province. Is he a mere nobody, who must acquiesce in the acts of the Ministry, no matter how contrary such acts may be to the welfare and wishes of the people? Surely not. Else why pay so large a sum each year for a mere figure head. The salaries of our Lieutenant-Governors are paid with the understanding that these gentlemen in some way are a safeguard to the people whose money they receive. Is this, a merely visionary sentiment? If so, each Province can save money and just be as well governed without any Governor.

The Lieutenant-Governor of a Province is of some use; or he is not. If he is, it is surely to stand between the people and the Ministry in defence of the former, in much the same way as the Ministers stand in the way of the exercise of undue power on his part. The will of the people of the Province is the acknowledged basis of conduct in Provincial affairs. In case of a conflict between the Administrative and Executive powers the question at once arises:—What is the will of the people? Provision is made for forcing the Executive to appeal directly to the people. But if it be the Administration that carries matters with a high hand, are we to believe there is no remedy? Must the Executive in such a case remain powerless to force an appeal to the people such as is permitted on the side of the Administration? Assuredly the intention of our constitution permits of no such one-sided conflict—showing power of redress on the one hand, but hopeless subjection to tyranny on the other. In case then of an irreconcilable differences between the Executive head and the Administrative body, should the latter hesitate to invite the popular verdict we take it to be the plain and unmistakable duty of the Lieutenant-Governor to call upon his Ministers to resign, that he may find advisers willing to adopt his views and to appeal to the country for a decision upon them, and when he has found such new Ministers his task is done, and he retires from the arena—or rather he never comes into it, but remains in that dignified, though powerful retirement that befits his exalted position. The people then decide as between the new Ministers and their predecessors, and thus solve the question or questions at issue. The popular will being expressed, the business of the Province goes on in accordance therewith.

In Quebec the new Ministers called in by the Lieutenant-Governor were sustained at the polls, and are now carrying on the business of the Province, in accordance with the popular will expressed in the proper and only effective manner. But the name of the Lieutenant-Governor of that Province is still dragged into the discussion, and the motives that prompted his action in dismissing his late Ministers are speculated upon as though they could be determined and be laid down palpably as a basis for argument on a grave constitutional question. The people of Quebec who are the rulers of that Province, have decided against the late Ministers, and that their dismissal was quite proper in the public interest. Who then but these same people of Quebec has the right to say nay to their decision. The stout valid French Conservatives of the Province have consented for the gratification of party remorse to yield their Provincial rights, and have insisted that the Dominion Parliament, (the majority of the members of which have little or no real acquaintance with Quebec affairs) has the power to pronounce upon the question. Largely controlled by men of the same party as the persecutors of Mr. Letellier, the Parliament of the Dominion, by a strict party vote presumed to interfere in the internal affairs of the Province of Quebec, by passing an opinion on this subject. This was wholly unnecessary, for the decision, as well as the appointment of a Lieutenant-Governor lies within the Governor-in-Council. Besides, if the House of Commons be asked to pass on such matters, where is its interference going to end? It was clearly the duty of Dominion Ministers, if honestly of the opinion they express, to bring about the dismissal of Lieutenant-Governor Letellier promptly and independently of Parliament. Why they asked a vote in the House at all is incomprehensible, unless indeed it was to commit their following in order to prevent their taking independent steps afterwards. Following the vote it is to be expected that we should find a recommendation by the Ministry to the Governor-General to dismiss Lieutenant-Governor Letellier. This, however, he refuses to do, but refers it to the British Government; and now we have the spectacle of those who not only permitted, but advised Dominion interference in the affairs of Quebec, crying out loudly against British interference in the concerns of the Dominion. We have questioned the jurisdiction of the Dominion Parliament. In the same way we question that of the British Ministers. It is a matter for the settlement of which provision has been made by the British North American Act; and the only answer possible to a reference such as has been made is, that it is a purely Canadian question, to be settled in Canada. Indeed the British Ministry would be wrong in expressing an opinion either for or against Lieut.-Governor Letellier; just as the Dominion Parliament was wrong in so doing. But now we see a conflict of opinion between the Governor-General and his Ministers, for whereas they favor acting presumably on the advice of Parliament, the instant dismissal of Mr. Letellier, he refers it to the British Government. While he puts off his decision they are of opinion—and their majority in the House has said it—that a great wrong is allowed to continue. Their course in this is to insist on a decision, or resign their positions to get a new and unmistakable expression from the people of the Dominion. This, the proper way of proceeding, would show how utterly ridiculous is the interference that has taken place already in Quebec's Provincial affairs, for then we would have all the constituencies in the Dominion, outside as well as within Quebec, called on to decide on a question that does not concern them in the slightest degree. This whole Letellier persecution has been a farce from beginning to end.

INTERVIEWING OUR MANUFACTURERS.

Our daily contemporary, getting doubtful, apparently, of its protection theories, now they are in full operation, has taken to "interviewing," and appropriately publishes what it has to say of these interviews on the first of April. The different headings under which the interviewer writes of our local industries are: "The Auburn Mills," "Leather," "Brick and Tile," "Lead, Marble, and Marble Workers," and to judge by the rather labored article, he cannot have received any great consolation. We would advise a pursuit of the course entered upon a little further, and that he makes the enquiry what the N. P. has done to better the circumstances or condition in life of those who are engaged in the following local industries:—Lumbermen, Millers, Builders, Masons, Carpenters, Canoe Builders, Blacksmiths, Tailors, Shoemakers, Butchers and Bakers; and when this list is finished we will be glad to give our contemporary another list. In the meantime we wish to make some remarks on the instalment already given to us. Taking them in reverse order we have

THE MARBLE WORKERS,

and can imagine the small grain of comfort the interviewer received on visiting the establishment of Messrs. Byrne & Soules, when he was promptly informed "*The change in the tariff would do them no good, at any rate.*" "Oh! biff" said he, "we hope the N. P. is going to make better times." "We can't see it," was Messrs. Byrne & Soule's reply, and then we are treated to an imaginary argument, in which, of course, the *Review* interviewer has the best of it on paper.

MARBLE.

Oh, yes, but it be understood there is in existence in Peterborough a Marble Company, the whole extent of whose operations seems to have been that Mr. H. C. Rogers, in 1865, purchased on the recommendation of Mr. Strickland, Lots 31 and 32, 6th Concession of Belmont, believing there was marble thereon, and Mr. Rogers now believes we will very soon have Canadian marble worked. Very encouraging, truly.

LEAD.

Mr. Rogers, had also something to do with the Galway Mining Company. The lead has hitherto remained in mother earth, but speaking from his stool in the Post Office, Mr. Rogers is of opinion that, with 10 per cent. protection, the directors will make an effort to raise the capital necessary for the profitable working of the mines. So this industry is, like the marble, still in embryo.

BRICK AND TILE.

The interviewer opens this part of his subject with the remark, that "the supply of brick has exceeded the demand, and as a consequence the manufacturers have not been in a flourishing condition of late." This is hardly original, and has not the right protectionist ring about it, but appears rather as if culled from our Canadian Sentinel. No one could more heartily wish success to the late proprietor of the Brick and Tile Works than ourselves. Mr. Rousaine deserved to succeed, but the works have passed, out of his possession into that of the interviewer himself, and it will be interesting to go somewhat into the details of this business. First, then, what foreign competition have Canadian brick and tile works to contend against? In this country made a slaughter market for foreign bricks and drain tile. The figures taken from the Trade and Navigation Returns for the year ending 30th June, 1878, show that there was imported into the Dominion, of bricks for building, to the value of $8,515; paying a duty of 17½ per cent., equal to $645.26. Of drain tiles to the value of $947, paying no duty, or a total of $6,862—hardly so much as the product of a small brick work. Well, how is the N. P. to keep out this terrible inflow of foreign brick and tile. The duty on brick has been raised from 17½ to 20 per cent., to keep out $6,215 worth, and drain tile has been taken from the free list and placed in the 20 per cent. to keep out $347.00 worth of drain tile, with which the Yankees were flooding our markets and ruining the home makers. Was this also done in the interests of the former?

LEATHER.

Pursuing his enquiries, our interviewer was next told by our local tanners, "that they could not reap much benefit from the change of tariff," which we think is likely to be correct; particularly, when it is borne in mind that we export more leather than we import. On sole leather, the tariff remains the same as before; on Morocco shoes it has been reduced 7½ per cent.; on upper leather, sole and belting—tanned and not waxed, it has been raised 5 per cent., and on all other kinds 2½ per cent. Evidently if the tanners wanted increased protection, they didn't go about getting it in the right way.

AUBURN MILLS.

We come now to the last on the list, as to which the interviewer approached Mr. Dennistoun. The business of manufacturing woollens is one that the present government has taken under their especial care and has given the manufacturers all they asked for, so we don't wonder in the least at Mr. Dennistoun being satisfied and according the *Review* some crumbs of comfort. Under the old tariff woollen goods were admitted at 17½ per cent. *ad valorem*, while wool and dye stuffs are all admitted free; now the tariff has been advanced to 7½ cents per lb. and 20 per cent. *ad valorem*. This change we cannot characterise by anything milder than a piece of the grossest and most unfair class legislation. It has the effect through the working of the specific duty, of charging that part of the population who purchase the coarser and cheaper fabrics for every-day wear, a duty of from 35 to 40 and even 50 per cent., while the rich man who buys fine goods and broad cloth will only pay 22 to 25 per cent. Is this justice? The incidence of taxation should press lightest on the poor, and these luxuries and commodities indulged in by the rich should be taxed highest. But here the very reverse is the case. We are retrograding with a vengeance. While we have the strongest possible desire to see the Auburn Mills succeed, we at the same time cannot but object to the whole community being taxed to put money in the pockets of Messrs. Bertram and Dennistown. During the last election campaign Mr. Bertram never denied but what an increase in the duty on woollens would benefit him, temporarily, as one of the stockholders in the Auburn Mills. His contention was that a duty of 17½ per cent. was sufficient, and that it was not in the interest of the general public that it should be increased, placing his argument on the fact that 17½ per cent. of the gross product of an ordinary woollen mill was nearly sufficient to pay all the wages, and that it was more than sufficient to pay the wage list of a cotton mill. Take the position of the Hudon Cotton Mills to-day. It has been published that they made a profit of 25 per cent. on their capital of $300,000, with the tariff at 17½ per cent., and yet the N. P. declares this is not enough; that henceforward they will have one cent per square yard and 15 per cent. *ad valorem*, equal to about 35 per cent. on grey cottons. No wonder they are preparing to double their capacity, and probably double the dividends, but it will be at the expense of every housewife who buys a yard of cotton. We trust the interviewer will continue his good work; that he will take up the different local industries we have named, and tell us what the N. P. is to do for all of them. So far we think, he has failed in shewing forth its great merits, and we would ask him to make another essay, there is no saying what strange fish he may net! Come, now, put on another bait.

"WHAT THE TORIES CALL EXTRAVAGANCE."

Among the expenditures of the Reform Government for which their opponents seek to condemn them, by counting it in the general outlay, is the money given the municipalities of the Province through the settlement of the Municipal Loan Fund matter, by a comprehensive scheme praised by the Conservatives themselves as an excellent ending to a great difficulty. The Government of Sandfield Macdonald was evidently afraid to deal with it, lest they should stir up opposition in the different localities interested; and so it remained for Reformers to settle the problem by wise and liberal legislation. It will be remembered that the commutation of the indebtedness of municipalities which had borrowed from the fund and were unable to pay, was made up to the other municipalities not so indebted by a distribution to them of a part of the large surplus lying useless. Indebted municipalities which had spent their loans in works for the benefit of the whole country, such as railways, were allowed an advantage on account of public spirited ness. The money thus given to the people, to whom it belonged, was applied to the building of roads and bridges, schools, the payment of municipal debts, such as railway bonuses and other extended liabilities, town halls and other public buildings, town and village improvements, harbor improvements, drainage, county buildings, bonuses to mills, &c., parks, agricultural societies, burying grounds, and the opening up of new and unorganised districts. The use of the money in this way saved the municipalities from just so much extra taxation in raising the amounts by the levy of a local rate. It will be seen from this that the Conservative attempt to raise the bug-bear of "direct taxation" is calculated to tell to the credit of Reform administration of the finances rather than against it as the Tory figure manipulators had hoped, when they began their work of falsification.

"A Duty on Wool".

It will be remembered by many of our readers, that the Tory journal of this town, in discussing Mr. Bertram's utterances on the tariff question, had the bad taste to refer to that gentleman's connection with the manufacture of woolen cloths, and to accuse him of, desiring the free importation of wool, against, as it then declared, the interests of the farmer. It then strongly urged the rights of the farmers to demand a duty on wool as well as on other products of the farm. The Tory candidates at the last election, in both Ridings of this County, were in favour of a duty on wool, at least they led the farmers to infer as much by their clamping wool in the list of commodities to be protected under "a National Policy." Well now, if Mr. Bertram was wrong in desiring the free admission of wool, what must be said of the new tariff, which allows it to come in free? Where are all the promises of the *Review*, Mr. Hilliard and Mr. Dennistoun to the farmers that they should borrow duty on wool? Do it understand just here, that we do not advocate a duty on wool for protecting purposes any more than on any other commodity; but we do hold that those men who were elected on the express understanding that they would support such a duty are wrong in not insisting on its being levied.

OTTAWA.

(From our own Correspondent.)

The tariff debate has not yet been closed—the discussion must soon, however, end. Nothing new is being brought out. What is being said has been quite as well said before, and the public are tired of it. When the items are taken up there will be a fine opportunity to expose the many absurdities that abound in the precious document.

If the tariff debate has been dull we have been amply compensated—that is, those of us who like things to be lively—by the Letellier affair. During the early part of last week it was well understood in this community that the dismissal of Lieutenant-Governor had been advised and that the Governor-General was considering the matter. Early on Thursday that "little bird" had whispered round that when the House opened something was to take place that would be interesting, consequently there was a full attendance of members on the floor of the House, and a large audience in the galleries. Upon Mr. Speaker taking the chair *Sir John Macdonald* arose. Immediately the hum in the House ceased and that expectant and impressive silence that proceeds and attends

AN IMPORTANT MINISTERIAL EXPLANATION

came over the occupants of the floor and galleries. Sir John Macdonald addressing Mr. Speaker, said:—

"Before the orders of the day are called I desire to make a statement to the House. With reference to the resolution come to by the Senate last session, and by this House some little time ago, with regard to the conduct of Lieut.-Governor Letellier, I have to state that I waited on His Excellency the Governor-General, and informed him that after the resolution of the Senate last session, and of the House of Commons during the present session, it was the opinion of His Excellency's advisers that the usefulness of Lieut.-Governor Letellier of Quebec was gone, and that it is in the public interest deemed to be expedient that he should be removed. His Excellency was thereupon pleased to state, that as the Federal system, introduced by the Constitutional Act of 1867, was until then unknown in Great Britain or her colonies, there were no precedents to guide him, and as the decision in this case would settle for the future the relations between the Dominion and Provincial Governments, as to the position of the Lieutenant-Governors, that he therefore deemed it expedient to submit the advice, and the whole case, and the attendant circumstances, to Her Majesty's Government, for their consideration and instructions."

This explanation of the situation was received with mingled cheers and hisses. From the fact that the same explanation was made in the same words by Mr. Campbell in the Senate, it is safe to assume that the exact words to be used in making the communication had been agreed upon between the Governor-General and his Prime Minister. You will note that Sir John Macdonald in communicating the decision of the Cabinet to his Excellency does not charge that the Governor Letellier had been guilty of any violence of the constitution or any act of wrong doing of any kind, but that his "usefulness had gone." As Sir John and his government never could have thought that Mr. Letellier had been useful, he would have hit the nail better in the head if he had said, this man is our political enemy and we demand his dismissal. Another thing to be noted, is that His Excellency, in his reply, says he will not only seek advice but *instructions*. Your correspondent is not learned in constitutional law, but it appears to him that a good deal bearing upon our constitutional rights lies behind and is involved in that word instructions. Had His Excellency said this is a very important matter, I have no precedent to guide me, and my action now, will establish me for the future, I must have time to well consider the matter. He could then have sought advice *sub-rose*, and the action taken in the end would have been his own, and not the action of others not responsible to the people of this country. It must be borne in mind that the question involved is not one where there could be any conflict between imperial and colonial interests, but one simply of administration of the domestic affairs of the Dominion. As matters stand at first sight, it would almost appear that His Excellency the Governor General was violating our constitution, but the subsequent conduct of his Prime Minister clears His Excellency, for he by remaining in office must be held to have advised His Excellency to make the reference to the Queen in the way it has been done. The people of this country can have no quarrel with the Governor General in this matter. The Ministry are responsible for what has taken place, and they, and they alone, must be held to account. It is unfortunate for His Excellency that he has a Prime Minister cowardly enough to seek to throw the blame that attaches to himself, on him.

On Friday early in the day the Members gathered early at the House and animated discussions were carried on by knots in the House and corridors. All committee work was put on one side, it being understood that the supporters of the

MINISTRY WERE ABOUT TO MEET IN CAUCUS,

which they did commencing at 11 o'clock, and continuing in conference until after two. I cannot tell your readers what took place, but the "little bird" has whispered to me that the meeting was stormy, much fury talk was indulged in by the followers of Mr. Mousseau who expressed their determination to bring a motion before the House of Commons reflecting on the Governor-General. Sir John Macdonald explained, promised what he would do in future, but they would not yield. As a last shot he told them that if they persisted in their determination he would send in his resignation. Under this threat as they could not expect anything from the Opposition, and did not relish the idea of going to the country with the tariff in their hands, they with curses not loud but very deep submitted, and peace was proclaimed. How long it will last is another question, as the malcontents appear to have a perfect craze in this Letellier matter. In moving the adjournment of the tariff debate, Mr. Oatmet put the case very forcibly before the House as did Mr. Cockburn. Sir John in reply got off some clap-trap about the Queen being Sovereign here as well as in England, and that we are safe in her hands. This is simply bosh. Does not everybody know that every Governmental Act of Her Majesty is done by the advice of her Ministers, and consequently that if our local acts of administration are to be referred to Her Majesty for supervision, her decision being by the advice of Her Ministers, it becomes their act, and as they are not responsible to the people of Canada it looks very much like a blow at responsible government in this Dominion. As Sir John Macdonald's party steadily opposed the establishment of responsible government in Canada in years gone by and as he has never apparently taken kindly to it, his action is not much to be wondered at. The new tariff is

IRRITATING THE PEOPLE IN ENGLAND,

they are annoyed at our folly in adopting a policy that is an injury to our people at large and them, they will begin soon to ask, why do we protect these people? They do not consider us. They talk of fostering direct trade with China in tea, with the West Indies in sugars, this is all right in its way, but they expect us to protect this trade with our navy, to use our foreign consuls and agents, to protect those sailors and shipping in foreign ports, while their merchant marine is engaged in the carrying trade the world over, and we are to pay all the expense—happy privilege—all this was foretold during the contest which culminated in the 17th September last and what was then proposed, appears to be in a fair way to come about and this Letellier business most likely to help matters. One thing is I think very certain and that is that the educating trickster sets at the head of the Government is fast losing cast, and his reign is not for long, if he be wise now that the stormy waters are beginning to blow, he will sink with dignity, and thus save the government harsh speech, and edge it with "his sickness, his cousins and his aunts." It is positively sickening to hear some of the members speaking that the country has demanded this policy of protection. Where did the question originate with the people or in the U. E. Club? Who sent the administration (and paid them) out to persuade the people that protection was the thing they needed? Did not these very men and their henchmen all over the country persuade the people who were smarting under the depression, that they had the cure and if they were elected they would apply it. Now that some of them begin to see that the thing is likely to turn out badly, they are ready

TO TURN UPON THE ELECTORS,

and say it is your policy, and in supporting it we are only carrying out your wishes. This won't do gentlemen, it is much too thin, the people of Canada will hold you responsible for the policy and every failure and injustice it involves. I recently took a glance through a file of your neighbour the *Review* to see what its eloquent(?) editor said and wrote before and during the contest, when he was aiding Mr. Hilliard and Mr. Burnham in the campaign, in East and West Peterborough. I of course, found as I thought, the old stock arguments learned from Mr. Fraser, and Senator Macpherson's phasphiet. That the farmer would get more for his produce and pay no more for what he required to purchase. That the laboring man would have abundant work and good pay, while all he wanted to feed and clothe his family would be no dearer, in a word, everybody, Grits included, reluctantly would be prosperous and blessed, and want and anxiety would flee the land. Has all this come about, or does it look likely that it will come about?

DOES NOT THE PRICE OF WHEAT IN ENGLAND STILL RULE THE PRICE IN CANADA

despite our Legislature? Are cottons, woolens, tea, sugar, hardware and all the other things the farmer wants, as cheap as before this National Policy was introduced. Has the laboring man had more work and better pay this last winter? Has he been protected? Have the Custom House officials been instructed to stop laboring men from coming into this country from the United States to compete with our laborers? Hardly, for it is only recently that an advertisement by a carpenter appeared in papers in the United States, inviting their laborers, (travelling expenses paid) to come and work on the Canada Pacific Railway, which is being built with our money.

By and by when the Ontario election contest comes on these same people will accuse Mr. Mowat of extravagance in increasing the annual expenditure in Ontario, they will not be so ready to show that there has been a look of wisdom or forethought in the expenditure, or that we have not in all cases got the worth of our money, that is the real question, not what we spent, but how did we spend it? There is a sufficiently large surplus on hand, and it is a rather curious idea that we in this new country are going to benefit by hoarding our money. So long as we

KEEP A REASONABLE SURPLUS ON HAND

let us make all the good investments we can—that will tend to the advantage of the people of Ontario. Mr. Mowat has wisely granted aid to Railways knowing that the only way within the scope of the Local Parliament to raise the price of what the farmer has to sell and reduce the cost of what he wants to buy, is by cheapening transport from and to his door. Educational institutions have been fostered, and the whole complicated machinery of the Education Department has been managed with skill. Benevolent asylums to educate the deaf and dumb, to shelter the blind and care for those affected with lunacy, have been built and well maintained. All these things and many more have been done, and still we have a good surplus. This surplus the opponents of Mr. Mowat's Government are anxious to put their hands upon. The electors had better keep the honest, tried and trusty servants that they know, than to take new hands, especially just now.

The Dominion Parliament has now been in session nearly two months, and

VERY LITTLE HAS YET BEEN DONE,

while much remains to be done. There is the Life Insurance Bill, and the Insolvent Act. The latter is again to be polished up. The Hon. J. J. C. Abbott, is engaged licking the amendments into shape for the government. The former being a new departure, will require a good deal of care in its preparation, and the working organization—more patronage,—and there are a number of hungry applicants ready. Your correspondent remembers having a talk with the promoter of this scheme during the last session of the last Parliament, having known him years ago, and seeing him in Ottawa, I asked him what axe he had to grind? Why said he I came here to recommend to Mr. Cartwright a scheme that will furnish money to build the Pacific Railway, and pay off our national debts, apparently Mr. Cartwright could not have seen that *there was millions in it*, as my friend said, as nothing then came of it. He however, carried it to another market where they are ready to buy any kind of nostrum, and provide the seller with a good berth.

Then we have the "rag-baby to consider, he or she is to be immediately introduced by Mr. Wallace the paternal author of the bantling. It is the natural outcome of our following in the wake of the United States in our fiscal legislation that this thing should be introduced, I fancy, however, that the baby will be put to sleep for this season by some kind of "soothing syrup," so the "down town merchant" can still rest in peace, as the currency will not yet be disturbed. Mr. Wallace with charming frankness tells us, that his friends think him a fool on this subject, as his friends are on the government side of the House, there is hope that the baby may be killed out right. I am quite certain that Mr. Cartwright would strangle it at once—he is not used to babies.

Before your readers see this, Mr. Mousseau will no doubt have given notice that he will at some future day move the following motion:—

Be it resolved that this House is of opinion that the fact of submitting the advice of the Privy Council of Canada to the review of Her Majesty's advisers in England upon questions which are purely of an administrative character under the British North America Act of 1867, is subversive of the principles of Responsible Government granted to Canada.

When it comes up some tall talk will be indulged in by the mover and his friends, and

SOME FINE WRIGGLING WILL BE DONE

by the chief juggler, but as the Governor-General has—so it is said—promised to have an answer to his reference in three weeks, the motion may stand until that time. Nobody is in much doubt; but that the answer will be, we cannot interfere in your domestic affairs, you must settle the matter yourselves. But everybody wonders why Sir John advised the Governor-General to make the reference—few there are who doubt but he did—unless it was to try and befool his followers and make them believe that it was not his fault that they could not get Mr. Letellier to devour, but that of the Governor-General. The old style of the wily schemer who done the double shuffle; but it won't work now, as you will see. The Oppositionee yet have made no sign in the Letellier embroglio.

ALPHA.

THE LARGEST FARM IN THE WORLD.—The largest farm in the world is 170 miles square, and is situated in Ellis county, Kansas. Its proprietor is a wealthy Englishman named George Grant, who named his estate Victoria, in honor of his Sovereign. Vast herds of cattle, and a cavalry brigade of mounted sheriffs roam over the face of this great farm, on which the only remedy employed for broken, inflammation and the like, is Giles' Liniment Iodide Ammonia. Sold by all druggists. Send for pamphlet. Dr. GILES, 454 Sixth Avenue, N. Y. Trial size 25 cents.

The Governor-General is to visit Montreal on the 24th of May.

A BARGAIN.

Any one wishing to purchase a good Farm of

100 ACRES,

—IN THE—

Township of Dummer,

With substantial and commodious buildings, will please call on the undersigned, who will show the property and give terms of sale.

Apply to [illegible]

1879.—SPRING.—1879.

ORMOND & WALSH

Are now fully prepared with their Spring Supply of newly imported

Field, Garden and Flower

SEEDS.

Purchasers of Seeds must now be convinced of the disappointment experienced in buying seeds from boxes or packets already put up and placed in stores on commission, and in many instances transferred from place to place for years, before being sold; the disappointment experienced, not only from their non-vegetative power, but from the small quantity contained in each paper. To prevent these disappointments, Messrs. ORMOND & WALSH sell the whole of their Seeds by Weight, at a fair and moderate price, with a guarantee of their

Freshness and Vegetative Power.

Special care has been bestowed in the selection of Flower Seeds. Stocks, Asters, Balsams, Phlox Drummondi, Larkspurs and Portulacas have been received in the original packages, as imported. Other kinds in great variety.

Messrs. ORMOND & WALSH are Agents for Mitchell Brothers, of Port Hope, and will have constantly for sale, during the Spring and Summer, all descriptions of

BEDDING OUT PLANTS,

And also HOUSE PLANTS of the best description, in great variety, in blossom, and at very low prices.

TERMS STRICTLY CASH.

Munro & Alexander.

The Examiner.

PETERBOROUGH, APRIL 10, 1879.

LOCAL NEWS.

For Manitoba.—Mr. Walter Walsh left town on Tuesday morning for Manitoba with a car load of emes—eighteen in number.

Baptisms.—There were seven baptisms in Baptist Church on Friday evening last, service being conducted by the pastor, Rev. D Muldhern.

Lumbermen and others requiring Tents should call on L. Robinson & Co., who can supply them with all sizes and qualities at very low prices.

Good Friday.—To-morrow being Good Friday, is will be generally observed as a public holiday. Divine service will be held in each of the churches.

Ashburnham Gossail.—There was no meeting of the Ashburnham Council on Monday evening last, the Reeve being absent at Ottawa, attending to his Parliamentary duties.

Personal.—The Rev. Alex. Bell has so far recovered from his recent illness as to be again able to attend to his ministerial duties, having occupied the pulpit of his own church on Sunday last.

Wm. Wells.—On Friday and Monday evenings the Rink was well patronized, the ice being in good condition for this season of the year. On Friday evening the harp and violin enlivened the proceedings.

Canadian Press Association.—This association will hold its annual meeting in Kingston on the 22nd of July next. Visits will be made to the principal places of interest surrounding the "Limestone City."

Counterfeit Bank Notes.—A number of ten dollar bills of the Consolidated Bank are in circulation in Peterboro,' hand we again warn the public against accepting them, as there is no such legal tender in existence.

Peterborough Cemetery.—Mr. Wm. English recently shipped ten cances to England, and has now another order on hand from Boston, Mass. Mr. English manufactures a good, substantial article, and his efforts are being appreciated both at home and abroad.

Delinquent Subscribers.—The Lindsay *Post*, following the example of a number of its contemporaries, published last week a number of delinquents to that paper, or more commonly called "dead beats." Two of them are now residents of Peterborough, and are apparently *able to owe it*, and so too.

Easter Eggs.—Our butchers have been making special efforts this spring to provide a very large supply of the choicest meats, in this and adjoining counties, for the Easter market. As will be seen by advertisements in another part of this paper, Messrs. Winch, Howden, and Wainwright have each, with their usual enterprise, out done former efforts in their preparations to supply the wants of their customers and the public generally. The most fastidious tastes, we feel bound to say, can be easily satisfied at either of these gentlemen's stalls, and those wishing the best of meats for their Easter dinner should pay them a visit.

Palm Sunday.—The appointment of the Sunday before Easter has been known for ages in Christendom as "Palm Sunday." It is celebrated by the Episcopal and Roman Catholic Churches in honor of the triumphant entry of Jesus Christ into Jerusalem, when the Jews cut off branches from the trees and strewed them in the way through which He went upon it. As for both on the fourth century this custom was the practice in the East and Italy, though precisely at what time the Church first began the custom of blessing the palms is uncertain. It was an early practice, which is now followed in some Catholic countries, to form a procession, which would remove people the servers, a clergyman or incense in a censer, and a cross, and on set to represent the Saviour, while in others the Eucharist or the Host would be carried before the people. Many of the customs existing in England prior to the Reformation were abolished or fell into disuse in the reign of Edward VI. These still exist, however, as Oakum, Lincolnshire, a curious custom, it was formerly the owner of the Broughton estate gave him the parish of the Oakter Church during the reading of the first lesson and cradle a "yule" three times and then throw it out in the church. During the second lesson he repeated the same number holding the whip upside to which he has attached a number of twenty pieces of silver. Formerly before the minister he wore the wide three times around his head and repeated in a loud voice the same number of times, and then thre

THE LAST HYMN.

The Sabbath day was ending, in a valley by the sea,
The signed benediction touched the people tenderly,
As they rose to face the sunset in the glowing Orient west,
And then hastened to their dwellings for God's blessed boon and rest.

But they looked across the waters, and a storm was raging there;
A fierce spirit moved above them—the wild genius of the air—
And it pealed, and shook, and tore them, till they thundered, groaned and beamed,
And, alas! for any vessel in their yawning gulfs entombed.

Very anxious were the people on that rocky coast of Wales,
Lest the dawn of coming morrows should be telling awful tales,
When the sun had spent its passion, and should cast upon the shore
Bits of wreck, and swollen victims, as it had done before.

With the rough winds blowing round her, a brave woman strained her eyes,
And the spy along the billows a large vessel fall and rise,
Oh! it did not need a prophet to tell what the end must be,
For no ship could ride in safety near the shore on such a sea.

Then the praying people hurried from their homes and thronged the beach,
Oh! for power to cross the water and the perishing to reach!
Helpless hands were wrung with sorrow, tender hearts grew cold with dread,
And the ship, urged by the tempest, to the fatal rock shore sped.

"She has parted in the middle! Oh! the half of her goes down!
God have mercy! in heaven far to seek for those who drown!"
Lo when next the white, shocked faces looked with terror on the sea,
Only one lone shivering figure on the spar was seen to be.

Nearer the trembling watchers came the wreck tossed by the sea,
And the man still clung and floated, though no power on earth could save.
"Could we send him a short message? Have'a a trumpet, Shout away!"
'Twas the preacher's hand that took it, and he wondered what to say.

Any memory of the sermon? Firstly? Secondly! Ah, me!
There was but one thing to utter in the awful hour of woe.
So he shouted through the trumpet, "Look to Jesus; Jesus can yet save her!"
And "Ay, ay, sir," rang the answer o'er the waters loud and clear.

Then they listened. "He is singing! 'Jesus, lover of my soul;'"
And the words brought back the echo, "while the nearer waters roll;"
Strange! indeed, it was to hear, "till the storm of life be past,"
Singing bravely from waters, "Oh, receive my soul at last."

He could have no other refuge! "Hangs my helpless soul on Thee;"
Leave, oh, leave me not." The singer dropped at last into the sea.
And the watchers, looking homeward, through their eyes with tears made dim,
Said, "He passed to glory with Jesus in the singing of that hymn."

What to take to Manitoba.

The following communication from a late number of the *Globe* will be of interest to many who are contemplating removing to Manitoba:—

"Very little correct information on the above subject has ever been given intending emigrants to the Prairie Province through the 'press' of Ontario, while people and "press" of Manitoba have been industriously promulgating the idea that emigrants should convert all their effects into money here before starting. Now, this is an erroneous idea, and one that entails great loss of money to the emigrant, as well as an immense amount of inconvenience and loss of time upon his arrival there. I have made several trips to that country, and the most unsatisfactory one was that in which I was one of a party of four, who hired two cars in Hamilton for Fisher's at a cost of $75 per car. In one car my partners and I put four horses, harness, two waggons, two sleighs, harrows, two pigs, two dogs, one passenger, who was allowed to go in the car free of fare to attend to stock, besides all the household goods of two large families, from books, etc, to ordinary cooking utensils, and small implements of husbandry, oats and pressed hay. Everything small was securely packed in boxes, and some goods in the family pork barrel. Nothing was sacrificed and "given away" at an "auction sale," except tables, chairs, stoves, plano, ploughs (Ontario ploughs are useless there), and such furniture as would hardly be suitable for a new country. The result was highly satisfactory. We found upon our arrival there that we were better off than when we left home, while those people to be found there, as well as in older countries, ready to extort an outrageous price out of new-comers for the necessaries required by them, saw at a glance that we were no game for them. We found that our position was much better than that of many a settler who entered the country with fully as much cash as we should have had had we sacrificed our goods at an auction sale before starting. Our horses, worth here $90 each, were there worth $130 each, and in fact at that particular time (the spring of 1877) could not be replaced at $156 each; while our waggons stood us in place of western waggons at $100 each. Had they been sold here they would probably have brought $50 to $60 each. Our other goods had also gone up in value correspondingly, while the the store of groceries and boots we had were a perfect treasure as compared with Manitoba prices. We were also ready to set up our waggons, spread the canvas covers, and commence camp life at once, thereby saving large hotel bills, while our own horses enabled us to go about hunting up lands without incurring livery hire; and in a very few days we were comfortably situated on our land, with the most of our old familiar home comforts from Ontario around us, presenting a striking contrast to the meagre furnishings and stout of the neighbor who left here with more money than we did, expecting to purchase what he wanted there, but sadly disappointed in his expectations. A man who sells his effects here by auction, even at good fair prices, and adds to the proceeds the cost of a car, cannot possibly replace the articles in Manitoba for the same amount of money. It is all very well for people in Manitoba to advise intending settlers to take nothing with them except their money. It simply means cash at $150 per pair, horses $250 to $300 per team, harness $40 (such as can be bought here for $30), and other things at from 25 to 40 per cent over Ontario prices. To all intending emigrants who think of getting rid of their stock, household goods, etc., by auction, I would say: Either hire a car yourself or join with a neighbour in hiring one; put in your horses, that is, a team of good workers, not too heavy, your waggons, sleigh, bedding, books, dishes, harrows, axes, forks, spades and shovels, hoes, rakes, ropes, milk-pans, pails, buffalo robes, horse cloths, chains, ox-yokes, lanterns, lamps, coal oil cans, small grindstone, carpenter's tools (the more the better), sewing machines, grain bags, plough harness, roll of leather, plenty of yarn (woollen yarn is sadly missed by Ontario people in that country), all the oats you can wedge in between boxes, &c., and don't forget the dog if you have a good one. The native dogs are a miserable lot of curs. Leave nothing for the auctioneer to throw away except the chairs, tables, stoves, &c. Pack all small goods securely in good strong boxes, and send a trusty reliable man along with the car, have him posted as to passing the Customs' entry on entering the United States territory, and when you arrive in the Prairie Province you will find, after having paid all expenses, upon taking an inventory of your effects at Manitoba prices, that you are worth more dollars than you were before commencing to pack up in Ontario. A car will hold much more than many imagine, and by taking waggons, &c., apart, they occupy very little space. When your household goods are packed in boxes, an ordinary box car will hold two large family's effects, and often leave room to spare, which it is well to be ready to fill with groceries, pork, boots, clothing, leather, &c., &c. The wisdom of the above will quickly present itself to the Hudson's Bayite, who arrived there with his pedlar full of money, but who ever since has regretted that he left so much behind that could so easily have been taken along. A car (Fisher's, now costs about $200 from Central Ontario to St. Vincent, the American town on the boundary of Manitoba. My advice to nearly all intending emigrants is to try the one plan, take your old well-tried stock and tools, stick to your own household goods as much as possible, and you will find that your removal will have much of its hardship taken off, while your family will feel the change less, and move quickly glide into the usual routine of Manitoba life. Above all, keep out of the Government buildings at Dufferin—they are "fairly alive" with vermin, and hundreds of settlers curse the day they ever entered those buildings. Better camp out in the most disagreeable weather than run the risk of carrying off a few thousand of those Government creepers that stick to their victims closer than a brother.

The Reciprocity Crase.

The Reciprocity craze, as might have been expected, has cropped up at the annual meeting of the Associated Chambers of Commerce which is being held in London this week. Mr. Henry, of Bristol, on the opening day of the gathering, supported a proposal in favor of the latest commercial craze by what Lord Beaconsfield would call a good deal of paperflowers and irrepressible 'hair-brained charter.' To the credit of an Association which affects to be commercial or nothing, his resolution was rejected by an overwhelming majority, the members evidently recognizing that the term 'Reciprocity' really means the taxation of the whole community for the benefit of a few. In imposing heavy duties upon English manufactured goods foreign countries inflict as much injury upon themselves as upon us, and so far from curing our injury by adopting a policy of retaliation we should only aggravate that injury. Germany, for instance, is endeavoring to prevent the importation of English steel rails by imposing heavy prohibitive duties; but this will surely have the effect of putting a stop to railway enterprise, rather than encouraging it, in the Vaterland. America, where railway enterprise is the one thing needed for the development of the country's vast resources, has long since adopted the same foolish policy, but if she would buy more rails we should require more workmen, and consume more of Americans food. As to the complaints of certain industries in this country being ruined because our manufacturers cannot compete with the foreigner, that may be their misfortune, but the general public can hardly be expected to suffer to the extent of paying more for their goods on that account. England cannot expect to monopolize the industries of the world, and though, for that reason, some of her traders may expect to be beaten by foreign competition the aim of her people ought to be to buy in the cheapest market, whether it be a home or foreign one. The industries which then suffer, may reflect that other necessaries and requirements of life] are made cheaper by competition, and if the difference is not made up to them in this way it is more than compensated for by the increased quantity of our productions which the foreigner takes in exchange for his goods.—*Hampshire Independent.*

The Tiger.

His whole frame is put together to effect destruction. In cutting up a tiger you are impressed with this. His tendons are masses of nerve and muscle as hard as steel. The muscular development is tremendous. Vast bands and layers of muscle overlay each other. Strong ligaments, which you can scarcely cut through, and which soon blunt the sharpest knife, unite the solid, free-playing, loosely-jointed bones. The muscle is broad and short and obtuse. The claws are completely retractile. The jaws are short. There are two false molars, two grinders above and the same number below. The upper carnivorous tooth has three lobes and an obtuse heel; the lower has two lobes, pointed and sharp, and no heel. There is one very small tuberculous tooth above as an auxiliary, and then the strong back teeth. The muscles of the jaw are of tremendous power. I have come across the remains of a buffalo killed by a tiger, and found all the large bones, even the big strong bones of the pelvis and large joints, cracked and crunched like so many walnuts by the powerful jaws of the fierce brute. The eye is peculiarly brilliant, and when glaring with fury is truly demoniac. With his bristles rigid, the snarling lips drawn back, disclosing the formidable fangs, the body crouching for his spring, and the lithe tail puffed up and swollen, and lashing restlessly from side to side, each muscle tense and strung, and an undulating movement perceptible like the motions of a huge snake, a crouching tiger is a sight that strikes a certain chill to the heart of the onlooker. When he bounds forward, with a roar that reverberates among the many labyrinths of the interminable jungle, he tests the steadiest nerve and almost daunts the bravest heart.

Irresistible Weapons.

A wife's irresistible weapons are those of love and affection, and she makes a great mistake when she endeavors to coerce man by any other. These weapons are a sure pull if he has anything human left in him. Forbear mutual upbraidings. It is the mother who moulds the character and destiny of her child as to exterior, therefore let calmness, peace, affection and firmness rule her conduct towards her children. Children are great imitators; whether they have scolding or peaceful mothers, they are generally sure to learn from the examples set before them. And then the consequent joy or sorrow is transferred to other families. Therefore let mothers take heed to their conduct. It is not possible to exercise too much judgement and prudence before entering on married life, Be sure that the affections on both sides are so perfectly intertwined, that the two form, as it were, one mind.

Canadian Items.

Five deaths from small-pox at Montreal last week.

Hochelaga has passed a by-law to raise $30,000 on debentures.

Owing to Mr. James Gunn's want of success in Henry V. at Ottawa, the management have withdrawn the piece from the Board.

The Governor-General will visit Kingston after the prorogation of Parliament, and lay the corner stone of the new Queen's College building.

The third quarterly meeting of the Presbytery of Montreal, was opened on Tuesday morning. The Rev. Mr. Farlong, of Lochrie was chosen Moderator.

The 53rd Battalion, Sherbrooke, has sent in a supplementary claim against the city of Montreal for $90 in connection with the 12th of July troubles.

Now that the documents necessary to give effect to the working of the St. Catherines Street Railway are ready, the work of construction will shortly be proceeded with.

One of the largest fairs ever held in Wellington County, was held in Elora on Tuesday. There was a large number of buyers present, and good prices were averaged. Twenty-two carloads of cattle were shipped.

Twenty-one civil cases and eleven criminal constitute the docket for the Spring Assizes at Owen Sound; County of Grey, which were opened by his Lordship, Chief Justice Wilson on Tuesday. There is a case of murder, Queen vs. Arnold, to be tried.

A horse ran away in Princess street, Kingston, on Tuesday, and fell with such force as to drive his head into a large sawdust, where he became fixed. He was several times given up for dead ere he could be dug out, but eventually recovered.

Hon. Mr. Morris has been chosen as their candidate for the Local by the Conservatives of East Toronto.

The Grand Trunk authorities have decided on placing a line of steamers between Sarnia and Chicago.

Shame on the tariff that takes the pennies of the poor man to swell the pounds of the rich.—*Hamilton Spectator.*

The laboring classes will be ruined by the tariff, which will not increase their wages [illegible] 50c to the cost of living.—*Hamilton Spectator.*

Time and strength would fail us, should we attempt to compile a catalogue of all the evils which will speedily fall upon Canada as the result of the midsummer madness by which the voting population was seduced from sound economic doctrine gravious to the fatal 17th of September last.—*Hamilton Spectator.*

Our Far West Provinces.

Emerson, Manitoba, is literally crowded with emigrants.

There is some talk of forming a building society at Portage, La Prairie, Man.

An effort is being made to run H. M. S. Pinafore, into the Port of Winnipeg.

The water is reported to be pretty deep and rising, and on the ice at Emerson.

The machinery and boiler for the new grist mill at Fleetwood, Man, has arrived.

Hay is very scarce, and brings $15 per ton at Prairie City on the Little Saskatchewan.

Boyne River, Loyal Orange Lodge, No. 1499, was organized at the Boyne, Winnipeg, on Monday night.

A brisk business is being done in horseflesh at Winnipeg. Large consignments arrive every day.

Mr. A. W. Wright, of the Toronto *National*, is in Winnipeg, where he is delivering lectures on the N. P.

Splendid samples of British Columbia wheat grown at Cache Creek in that Province have been received at Winnipeg.

The protest against the election of Mr. Chas. Nolin, M. P. P., for St. Anne's, Man., will be heard on Monday, 7th April.

Two separate batches of emigrants arrived at Portage, La Prairie, during the week, and report many others coming.

Mr. Lewis Johnson, of Pembina, Man., will put in 60,000 lbs. of oats, at the Fort, for the very low figure of $1.17 per 100 lbs.

Two traders from the regions north of Lake Manitoba with loads of furs on dog-sleighs arrived at Portage La Prairie during the past week.

Winnipeg's bootblack has commenced the summer's campaign, and is improving the shining hour and muddy boots on the street.

Owing to the N. P. tariff, the price of oats has perceptibly risen at Winnipeg, and speculators have purchased 10,000 bushels to supply the market.

The Hudson Bay Company are going to station a small trading post at Turtle Mountain, about 125 miles south of Portage La Prairie, Man.

The License Inspector of Winnipeg has laid an information against James Tarser & Co., which will test whether the commercial travellers can sell liquors in the Province of Manitoba without a license.

A mail clerk is to be placed on the St. Paul & Pacific trains south from St. Vincent. When this official is appointed, the delay which now occurs in the transmission of mail matter at Pembina will be obviated.

The Winnipeg Chief of Police recently made a raid on the bakers of that city, and in one day confiscated 160 loaves, which weighed light. Every shop in the city contributed to the assortment, which was handed over to the hospital.

It's only March, and yet Mr. Longbottom, the gardner waltzed into the *Free Press* office yesterday with some good sized green onions, grown at his place, and which were only planted two weeks. These are the first of the season. Winnipeg *F. P.* of 29th of March.

Following the example of the butchers and bakers, the shoemakers of the city of Winnipeg have now combined to do a cash business after the first of April. The forfeit for an infraction of the rules laid down is $100.

The Marquette *Review* says that Selkirk is taking time by the forelock, and moving to Portage La Prairie. The first building arrived from there during the past week, and is now located on one of the principal thoroughfares of the western city.

Hints About House Cleaning.

In a general house cleaning, carpets that do not require to be taken up should be loosened at the edges, and the dust removed there from, and a good lookout made for moths. If there are any traces of moths wash the floor with benzine or spirits of turpentine, and put the carpet down quickly, and the insects will very soon get their quietus.

Straw matting should be washed with a cloth dampened in salt water. Take care to wet it but little, for if matting is soaked through it is liable to become brittle and soon give out. If Indian meal is sprinkled over it, or damp sand, and then thoroughly swept off, it will operate with a very good effect.

In washing windows, a narrow-bladed wooden knife, sharply pointed, is the best thing with which to take out the dust that harbors in the corners of the sash. Dry whiting will polish the glass nicely, and a weak black tea, with some alcohol, is the best liquid with which to wash the glass. For a few days before the cleansing takes place, save all the tea grounds; then when needed, boil them in a tin pail with two quarts of water, and use the liquid on the windows. It takes off all the dust and fly specks. If applied with a newspaper, and rubbed off with another paper, they look far better than if cloth is used.

If there are old feather beds in the house, and no machine renovator at hand, put them out in the first heavy, drenching rain that falls. Let them become thoroughly wet and then turn the bed several times; then dry them in the sun, and when one side is perfectly dry beat it with sticks to lighten up the feathers, and turn up the other sides to dry; either placing boards under it, or putting the beds on the piazza roof, if one is at hand.

To take out the stains from either mattresses or feather beds, make a paste of soft soap and starch, and spread over the spots; when dry, scrape off with a knife, washing it with a damp sponge as it falls off; if not clean, put on another paste. This application, if repeated frequently, until all discolorations are gone, will purify any bedding. Cockroaches can be kept away with powdered borax. Keep it in a tin pepper box, and sprinkle it wherever they go. Paris green is recommended, but it is a poison, while the borax is harmless. Sprigs of wintergreen, or ground ivy, will drive away small red ants, and branches of wormwood will make black ants vamoose the ranche.

Scald your bedsteads in the hottest soapsuds you can apply; if there are traces of bugs apply kerosene with a small paint brush. It is a sure cure. Tenants of city houses are often annoyed by bugs and cannot tell whence they come. Perhaps the border of the wall paper might divulge their source, or the crevices of the window frames disclose their haunts. Apply kerosene, and they will no longer trouble you. Carbolic acid may be applied. If pure, the odor is not so disagreeable as that of coal oil.

Papering and painting are best done in cold weather, especially the latter, for the wood absorbs the oil or paint much more than in warm weather, while in cold weather it hardens on the outside, making a coat, which will protect the wood instead of soaking into it.

In papering walls be sure to remove all the old paper and paste, and scrape them perfectly smooth. The best paste is made of rye flour, with two ounces of glue dissolved in each quart of paste; half an ounce of powdered borax will make the paste better. People now generally understand how dangerous it is to paper a wall over old paper and paste. Many deaths have arisen from this cause, and the air of many sleeping rooms has been thus poisoned.

In whitewashing, a pound of glue dissolved in hot water, and diluted with four gallons of cold water, to which is added six pounds of whiting, will be found to answer a better purpose than common lime. Wood work can be washed with this glue size, and one coat of paint on it would last for years. A little chrome yellow will give a light lemon-colored tint to the wash.

A cheap paint for the floor can be made which a strong, smart woman could apply to any floor; five pounds of French ochre, one-fourth of a pound of glue, and two gallons of hot water. Dissolve the glue in a small quantity of hot water; when wholly melted add the rest of it, stirring it slowly until well mixed. Then stir in the ochre and apply while hot, with a good-sized brush. When well dried apply one or two coats of boiled linseed oil. This paint dries very quickly, hardening in fifteen to twenty-four hours. It is very cheap. An oaken box can be given to new pine floors and tables by washing them in a solution of copperas dissolved in strong lye, a pound of the former to a gallon of the latter. When dry this should be oiled and it will look well for a year or two; then renew the oiling.

Grease can be extracted from floors by applying a paste of wood ashes and quick-lime, to be kept on several days and then washed off. Stains on wall paper can be cut out with a sharp pen-knife, and a piece of paper so nicely inserted that no one can see the patch.

Ink stains on wood can be removed by a solution of oxalic acid. Cover the spot with bits of acid, turn on a spoonful of water and place a heated flat-iron over it; when the hissing ceases the ink will have disappeared.

Kerosene and powdered lime, whiting or wood ashes will scour tin with the least labor. Kerosene and whiting will also clean silverware, door-knobs, hinges, &c. Wet the flannel slightly in oil, dip in the whiting and rub hard; wash off with chamois skin or newspaper. Spots can be taken out of marble with finely powdered pumice stone. Mix it with soft soap, cover the spots with it and let remain for twelve hours; rinse with clean water, and wipe dry with a cloth. Soap-stone hearths should be first washed in pure water and then rubbed with powdered marble or soap-stone, put on a piece of the same stone. Gray marble hearths can be rubbed with linseed oil and no spot will show. If gilt frames are varnished with copal varnish, they can be washed with cold water without injury. Lace curtains should never be ironed. Wash and starch them, using in the rinsing water a tablespoonful of powdered borax. This makes them very stiff. When wet spread on a sheet, either on the floor or bed, and pin down every two or three inches. Let them dry for several days and they will look very nice.

Carelessness.

Many persons neglect their horses' health and conditon until it is too late, when at a trifling expense and no trouble the horse might have been saved if attended to in time.—To all who may have occasion to use an article of the kind we would confidently recommend "Darley's Condition Powders and Arabian Heave Remedy;" it is without doubt the best preparation in use, as thousands who have used it testify. Remember the name and see that the signature of Hurd & Co. is on each package. Northop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Bryan's Pulmonic Wafers.

For over twenty years "Bryans Pulmonic Wafers" have maintained their reputation for curing coughs, colds, and pulmonary diseases. Those suffering or threatened with any of the symptoms of bronchitis, or any of the pulmonary complaints, should at once give them a trial. They give almost immediate relief, and if taken in time generally effect a cure. Remember that a common cold or cough, if not attended to in time, often leads to that distressing and fatal disease—consumption. Sold by all druggists and country dealers at 25cts. a box.

By all accounts the Letellier business is virtually settled, but how settled seems to be known only to the Cabinet and the French Canadian leaders. Mr. Mousseau is said to be entirely satisfied, and the threatened opposition to the Government on the estimates has therefore been averted. That such opposition was threatened we happen to know, and great curiosity now exists to discover the nature of the concessions Sir John must have made to ward off the impending danger—if danger there really were. It is generally conceded that the matter is to be referred to England; and that the Governor-General has consented to forward the Lower Canadian "case" without seeking to prejudice it. We give these statements for what they are worth, but there is reason to believe they are not far wide of the mark. At any rate they are not the product of guess work.

PETITT'S EYE-SALVE.

An infallible remedy for all Diseases of the Eye, such as Sore Lids, Granulation of the Lids, Ulceration of the Lachrymal Canals, Films, and Weaknesses of the Vision from any cause.

THE AMERICAN EYE-SALVE is presented the public with the assurance of its efficiency as a curative of the most diseases of the eye acute or chronic inflamation whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, where weakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effective remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness safe in its application, being used externally, and, of course, lessening the pain and danger, which necessarily attends the introduction of minerals and eye-washes. Ringworm and Old Chronic Sores, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE-SALVE. It is used successfully for Piles. Its soothing effect is immediate, permanent cure requires but a few applications. The proprietors of "Dr. J. PETITT'S AMERICAN EYE-SALVE," while making new and improved machinery for making a more perfect box for the Eye-Salve, have changed the Trade Mark on the Wrapper, Circulars, Advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

ELECTRICITY.

Thomas' Eclectric Electric Oil—Worth Ten Times its Weight in Gold—Pain Cannot stay where it is used.

It is the cheapest medicine ever made. It does cure common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rheumatism, scarulg is, contraction of the muscle stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of chronic sun bloody dysentery. One tea-spoonful cures Colic in 15 minutes. It will cure any case of piles that it is possible to cure. Six or eight applications is warranted to cure any case of associated nipples of inflamed breast. For ulcers, if applied, often and bound up, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts, and corns, and wonderous every dancing time on wax or heart.

BEWARE OF IMPOSITIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. E. Thomas is on the wrapper, and the names of Harrison & Lyman are shown in the bands, and take no other. Sold by all medicine dealers. Price, 25 cts. PORTEROF & LYMAN, Toronto, Ont., Proprietors for the Dominion.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.
(LIMITED.)
CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly; or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$25	40	Each.
"	6	"	"	20	67 "
"	8	"	"	17	75 "
"	10	"	"	15	85 "
"	12	"	"	13	95 "
"	15	"	"	12	66 "
"	20	"	"	10	90 "

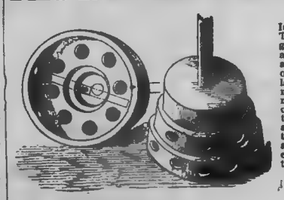
In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,
MESSRS. POUSSETTE & ROGER,
AT THEIR OFFICE, WATER-ST., PETERBOROUGH.
Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric
IMPROVED CHURN DASHER.

(Patented July, 1878.)



Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent. more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward, of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed.—no machinery about it to get out of order.

For Dashers, Rights, Etc., address—
A. W. TULLY, Smith.
Or W. TOOLE, Peterborough.

INFORMATION FOR PHYSICIANS.
RUPTURED AND DEFORMED PEOPLE.

Grand Medal and Diploma at the Centennial, Philadelphia; Grand Medal at the Universal Exhibition, Paris, France. Recommended by a large number of our leading medical men.

Charles Cluthe's Patd Spiral Truss Pad has been the result of many years' study and material experience. Its perfect adaptability for Rupture is proven by the thousands now in use. Among its many advantages are, a gentle, constant and even pressure; it gives to the motion of the body without friction, complete ventilation (as shown in engraving); a clamping pressure which does not open (as all oval pads) but closes the aperture of Hernia, hence only one-third pressure is required. It is this latter feature that has made this truss so eminently successful and proven a Radical Cure of from 50 to 70 per cent. of cases treated. This Truss cured persons of over 20 years of age. Only one belt round the waist, no leg straps and no springs required for its use.

Apparatus for straightening Spinal Curvature, Hip Disease, Bow Legs, Wry Neck, Club Foot, etc., made on most scientific principles. Price same as at my office.

CHARLES CLUTHE,

Surgical Machinist, Hamilton, Ontario, will visit Peterborough again about the month of June. Date announced shortly.

Feb. 12 1879. 1 382

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a revered Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects caused to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very distressable, and a choking sensation often preventing me from lying long. I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I procured three bottles Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Fort Elgin, Ont., Aug. 24, 1878.

Ask for LISTOLDALE'S CONSTITUTIONAL Catarrh Remedy and take no other.

MANHOOD:
NOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York. Post Office Box 4586. 2-1y.

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address E. A. WILSON, 162 Penn St., Williamsburgh, N. Y.

PILES.—Dr. Fahrer's Celebrated Pulmonic Ointment is the best ever known for Piles of every kind (Bleeding Itching, Blind, Internal, &c.), and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Internal cases readily yield to it. No surgical operation required. Try it and relieve your sufferings. Only 50 cents for a single box. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ASHE, 22 Ann St. N.Y. 52-52

PIMPLES.—I WILL MAIL (illegible) KILL PIMPLES and Flesh Worms, make the skin soft, clear and beautiful, and the complexion faultless, for procuring a large Sample Box of my Remedies. Send 10 cents for postage. Address, DR. LAMPERT, 12 Ann St. N.Y.

ERRORS OF YOUTH.—A (illegible) for the (illegible) Young Men who are suffering from the Errors of Youth, Premature Decay, Nervous Debility, Lost Manhood, &c. Address, with stamp, DR. WILLIAMS, 162 Fulton St. N.Y.

An Awful Moment.

Up springs the like a startled fawn,
Her hair in several grave fashions,
And through the azure of the eye
An anger, throbbing spirit shines,
A flash it on the Persian brow,
Her crushing heart gave palpitation—
The boy has put the hoodoo down,
And it contains her Hoodoo Mint!

A Spring Madrigal.

Bird voices tremble on the breeze,
The groves are all a-bloom,
The buttercups peep thro' the grass,
The Spring, the Spring has come!

O lady fair! O lady fair!
Put on your sweetest frills;
And you, young man, with saffron face,
Get out your box of pills.

Roasted to Death.

"If there be a man so kind to me, will he shoot me in the head or cut my throat?" was the cry raised by Nicholas Schillinger as he lay in agony, the victim of an accident on the Lehigh Valley Railroad. The Buffalo & Western Express train from Philadelphia and New York, due at this city at 1.15 a. m., left on time. The engineer and fireman had been changed. The engine was one of the best upon the road, and the engineer, Schillinger, one of the oldest employes of the company, had taken his seat at the lever. Henry Stevenson, for the past half-dozen years upon the payroll of the company, was in the fireman's seat. The signal was given, and the long train, loaded with human freight, started off at a thirty-mile run. It was bounding along through the suburbs of the city at the usual even speed when it entered a cut at the northern boundary of Wilkesbarre, Pa. It had never been considered a particularly dangerous place, and no watchman had ever been stationed there. The train had proceeded a few hundred yards into the cut when, as the fireman said, the engine began to go up and down, and, an instant later, it had plunged headlong into the right bank of the cut. The engine tender doubled over upon top of the engine-house, and buried in the ruins were the engineer, Nicholas Schillinger, and Henry Stevenson, the fireman. The pipes, filled with scalding water and steam, were broken, and their contents turned upon the poor unfortunates lying under the engine. The baggage car of the train alone left the track, but the suddenness of the stop produced several severe contusions and great fright. Ladies fainted and men were thrown over the backs of seats and upon the floor. The voices of the engineer and fireman crying piteously for help almost drowned the noise of the escaping steam. Schillinger was a German, and, in his broken accents, he pleaded to be killed, and when he found his appeals for deliverance from his terrible position unavailing, he cried like a child till unconsciousness and death hushed his voice. The fireman was lying very close to him, but in a more favorable position. The willing hands of succor were greatly baffled for some time. The escaping steam was so dense that nothing could be seen around the wreck but the fragments, and when assistance did come the brave engineer was past all human aid. The fireman with great difficulty was extracted, but died that evening. Your correspondent visited the families of the men. Stevenson, before his death, lay upon his bed writhing in agony and praying for the end to come. "Why was I not killed at once and put out of this misery?" was the oft-repeated ejaculation. He said he was compelled to breathe the furnace flames, while the steam had so scalded him that the flesh hung in shreds upon the upper portion of his body. His hands were burned to the bone, and the finger-nails dropped off. Schillinger, the engineer, was scarcely recognizable by his old comrades. He leaves a wife and daughter. Stevenson had a wife and two children.

Beecher's Position.

How It Has Been Affected by the Great Scandal in Which He Figured.

What has been the effect of the great scandal upon Henry Ward Beecher's daily life and work? There is no difference to be detected in and around Plymouth Church, save that he exhibits less of that exuberance of spirit which welled out of every line of his countenance and every word of his mouth, and which was responded to and assisted by his arms, his body and his legs. His congregation are greater than ever. His flock is seemingly as much devoted to him and fascinated by his words. His pews sold lately for about the same average of fifteen years back, save, of course, the one year when $100,000 was raised for him. His mission schools are prosperous, his Sunday school is overflowing. The people of Brooklyn talk no more about the scandal. Tilton has gone to New York. Moulton has taken up his abode in another city. Mrs. Tilton is in seclusion in Williamsburg. Beecher keeps on with his church work the same as ever.

But outside of Plymouth Church and Brooklyn? Ah! there the effect of the scandal crops out. Mr. Beecher is no longer the public man that he was. Time was when he made the chief speech at the New England dinner—and what a speech it was! bubbling with wit, sparkling with humor, noble for its eloquence, admired for its sentiment—a perfect speech. Since the scandal broke, Mr. Beecher has not been invited to the New England dinners. He speaks no more at banquet boards, at college commencements, at church dedications and statesmen's funerals. He does not seek these things his friends say. They are not offered to him, reply his enemies. No longer does he discuss from Plymouth pulpit the vital political questions of the day. Some remarks on the Chinese problem uttered in a lecture have been quoted recently. But it is now more than a year since any word of his attracted public attention; and then he was misquoted in an incidental reference to the labor question; it was the first for years then a year before that time. It looks to the wise Metternichs of English thought as though Mr. Beecher is endeavoring to attract an English attention at parish, and that by endeavoring to give to Plymouth Church the very best work of which he is capable, and it is quite likely that the public and the press (Continued on Fourth Page.)

A Checkered Career.

Camillo Donnarumma, who was distinguished in his native land by the title of baron, shot himself in the head at New York on the 11th inst. He was born at Naples in 1814. In 1847 he arrived in this city with Adelina Patti's father. In the following year he was in a managerial capacity with the Fay Italian Opera Company. He failed and studied medicine, and subsequently was unfortunate in mercantile speculations. In 1860 he returned to Naples in the hope of readjusting the remnants of the broken fortunes of his house. He succeeded but indifferently and returned to his wife, two sons and daughter. It appears that Baron Raffaele Donnarumma father of the deceased, in 1831 had loaned to the reigning Italian Bourbon Government the sum of $365,000, which, compating interest and compound interest, would amount at the present time to about one million dollars. During General Garibaldi's sojourn in this city he was frequently the guest of Donnarumma. The latter's youngest son is an actor, and is known by the professional name of Ralph Delmore. He was also a fresco painter.

Make Friends.

Life is very critical. Any word may be our last. Any farewell, even amid glee and merriment, may be forever. If this truth were but burned into our conscience, and if it ruled as a deep conviction and real power in our lives, would it not give a new meaning to all our human relationship? Would it not make us far more tender than we sometimes are? Would it not oftentimes put a rein upon our rash and impetuous speech? Would we carry in our hearts the miserable suspicions and jealousies that now so often embitter the fountains of our loves? Would we be so impatient of the faults of others? Would we allow trivial misunderstandings to build up strong walls between us and those who ought to stand close to us? Would we keep alive petty quarrels, year after year, which a manly word any day would compose? Would we pass neighbors or old friends on the street without recognition, because of some real or fancied slight, some wounding of pride, or some ancient grudge? Or would we be so chary of our kind words, our commendations, our sympathies, our comfort when weary hearts all about us are breaking for just such expressions of interest or appreciation as we have it in our power to give?—*Rev. J. R. Miller in Sunday School Times.*

THE MONAGHAN MURDER.

A London man confesses to the Crime before he is hanged in Texas.

A late Texas paper states that a man named Grennie was hanged there a short time ago, and that on the scaffold he confessed to the Monaghan murder, which took place in Warwick township three years ago. It will be remembered that three young men drove up to Monaghan's former residence in Warwickin a disguised state, and immediately commenced battering on the door. Monaghan got out of bed, and had reached the door with a gun in his hand when one of the party turned and fired, the old man succumbing from the effects of the shot in a short time. Grennie, "Bob" Murray, the notorious London rowdy, and another person were arrested and tried on the charge. Murray had previously decamped, but Grennie and the other, after a long trial at Brantford, were acquitted, although the evidence was strong against them. The mystery has now been cleared up, and the guilty one has at length received his deserts.

How to Make Cologne Water.

With no trouble at all, any one can make in her own storeroom a better article of cologne than that which is usually bought, by thoroughly dissolving a fluid drachm of the oils of bergamot, orange, rosemary, each with a half a drachm of neroli and a pint of rectified spirits. As good as can be made out of cologne itself, however, is also prepared simply by mixing with one pint of rectified spirits two fluid drachms each of the oils of bergamot and lemon; one of the oil of orange, and half as much of that of rosemary, together with three-quarters of of a drachm of neroli and four drops each of the essences of ambergris and musk.

'Where ignorance is bliss, 'tis folly to be wise.' The trouble with the present generation is that it wants to know too much. It is prying into everything. Not only is it searching into the past and destroying many beautiful fabrics that have long been cherished, but it is peering into the future and discovering all sorts of unpleasant things that are in store for us there Now, most people may stand nearly anything that can be done with the past, but they dislike to suffer the ills of the future before their time. There is no need of anticipating trouble merely for the pleasure of enjoying it beforehand. Some sort of law should be made to prevent scientific men from picking out the secrets of futurity to terrify us with them now.

Of 23,612 clergymen belonging to the Church of England, 8,615 were graduated at the University of Cambridge, 7,682 at Oxford, 1,761 at Dublin, 655 at Durham, 176 at the University of London, and 1,646 are enrolled as non-graduates.

A young woman was recently divorced in London for the second time from the same husband. She had married a man named Goldsmith, a wine merchant and after obtaining a divorce on the ground of cruelty and adultery, had made up and married him again. It didn't turn out any better than before, and the second divorce was granted on the same ground as the first.

A man went into a clothing store the other day and after picking out some very fine cloth, said: "I want to make my father a present of an overcoat. Just measure me for one. Of course it will be too big for him, but it's pretty much worth the cloth, and as the old gentleman is dead, I'll have to wear it myself." [Laughter.] Just make [illegible]

North Monaghan.

COUNCIL MEETING.—The council met pursuant to adjournment, on April 7th. All the members present. The Reeve in the chair. Minutes of last meeting read and confirmed. Several petitions for charity were received, and the following grants made: Mary J. Bush, 100 lbs flour; C. LaFontaine, 200 lbs; John Daw, 100 lbs; Ben Kennedy, 50 lbs; and Mrs. Tinslin, 100 lbs. On the motion of Councillor Leary, seconded by Councillor Foster, it was resolved,—That Math. J. Johnston's road division be extended from Crawford's corner north to James Irvine's lot, that the Clerk do change the name of M. J. Johnston to that of John Johnston, as Pathmaster, and that the balance of Rivington's beat be added to that of Wm. Brownscombe's beat. A by-law authorizing the Trustees of No. 2 School section to borrow the sum of $200 by debentures or otherwise, as named in the minutes of last meeting was finally passed. By-law for registering the ren...ng as large of animals in the township of Monaghan, was read a second time, and a third time, and 200 copies were directed to be printed in pamphlet form, should the expense not much exceed that of sheet form. The following orders are given on the Treasurer. Mr. Joseph Hunter $3.00 for cordwood for use of Town Hall. The Reeve and Councillors $4 each for service up to date, and Clerk $15. Mr. John Patton was employed to make certain repairs about the ventilation on the roof of the Town Hall, Council adjourned to Monday the 26th May, then to meet as a Court of Revision on the assessment roll for the present year, and should time permit, for the discharge of other township business.—Com.

Dummer.

COUNCIL MEETING.—Council met at Warsaw, on March 22, 1879. All the members present. Minutes of last meeting read and confirmed. On motion a new road division was formed from lots 16 to 22 inclusive, on the 9th line. Moved by Daniel Wigmore, seconded by David Drain, that William Wason be, and is hereby appointed a Commissioner to negotiate an amicable settlement, without prejudice, of an alleged claim of William Kidd, against this Corporation for a certain number of feet of land, said to be covered by the Town and Agricultural Hall, Warsaw; and he is hereby instructed to cooperate with the Agricultural Society, or with a Commissioner appointed by said Society as joint owners in said settlement. Said Commissioner to act under the directions of James F. Denistoun, Esq., the Township Attorney, in the case; and that the Corporation Seal be attached to this motion to give it the force of a By-law.—Carried. On motion the Treasurer, F. T. Lamedee, was instructed to make a formal demand on the late Treasurer for all balances, Bank Discounts, Renewals, and all incidental expenses connected therewith, also vouchers not authenticated. The following by-laws were passed:—One to establish a road and one to appoint Pathmasters, Pound-Keepers, and Fence Viewers. On motion the Council adjourned to May 31st, to meet at the Old Town Hall as a Court of Revision.—Com.

School Intelligence.

The following reports of examinations and honor rolls in several of the schools throughout the county have been kindly contributed by the teachers:—

Springville School.

The following is a report of the pupils who took the highest number of marks in each class for the month of March, in S. S. No. 9, Cavan, and 4, North Monaghan, (called Springville school,) Mr. A. J. H. Strike, teacher.

Fifth Class.—Aggie Cromie, 257; Hannah Laing, 247; William Laing, 231.

Fourth Class.—Frederick G. Clark, 265; Minnie McDowell, 257; Susie Cromie, 255.

Third Class.—William Preston, and Joseph Thompson, 316 each; Evan Laing, 308; John Patterson, 302.

Second Class.—Mary Thompson, 279; Grace Emerson, 269; Minnie McNeely, 225.

Part Second.—Louis McDowell, 263; George Patterson, 256; Amie Elliot, 254.

Williams School.

The names of the pupils who obtained the greatest number of perfect recitations during the month of March, are as follows:—

Senior Fourth.—1st, Margaret P. Wood; 2nd, Wm. J. Bismard.

Junior Fourth.—1st, Sophronia Harris; 2nd, Hugh W. Gillespie.

Senior Third.—1st, Mary J. Kaisel; 2nd, Margaret A. Wood, Margaret Robertson, Alice G. Wood.

Junior Third.—1st, John Dixon; 2nd, Jane Tucker.

Senior Second.—1st, Walter Garnet; 2nd, James Bean.

Junior Second.—1st, James Kite; 2nd, John LaRoche.

Senior First.—1st, Michael Smith.

S. S. No. 7 Otonabee.

The following is the Honor Roll of this school for March, 1879.

4TH CLASS.—1, John W. Mein; 2, Duncan MacFarlane; 3, John A. Drummond.

3RD CLASS.—1, Maggie Rutledge; 2, Willis Mein; 3, John McFee.

JR. 3RD CLASS.—1, James Drummond; 2, Christina Thompson; 3, Geo McFee.

2ND CLASS.—1, Eddie Howes; 2, Thomas McDermott; 3, Annie Montgomery.

SR. 1ST CLASS.—1, Donald McFarlane; 2, John Coswell; 3, Lilly Kindred.

HISTORY, (special).—1, Bessie Bennet; 2, John W. Mein; 3, Duncan McFarlane.

The names of the first three only, in each class, are given.

S. S. No. 4, Dummer.

An examination was held in School Section No. 4, Dummer, on Friday the 28th March, 1879. The pupils' spelling and Arithmetic were tested on the average for the quarter, a second being daily by W. Bruce, teacher. [illegible] [illegible] [illegible]

PETERBOROUGH, APRIL 17, 1879.

THE FARMER AND THE N. P.

It must be rather trying to those farmers who voted in perfect good faith for the National Policy, believing, as they were told, that it would raise the price of grain, to find that relatively with the price in England and the United States it has neither raised or lowered it by one single cent per bushel; and that they cannot now expect any advance except in so far as there is an advance in the markets of the world. The great benefit to accrue to this country from keeping out Yankee produce is now seen to be a delusion of the very worst kind, foisted on the farmer by designing knaves and honest fools. What is not a delusion, as the farmers will soon find out, is the increased price they will have to pay for cottons, woollens, sugar, etc., and for every tool and implement used in their operations. This, also was a part, and a very important part of the so-called National Policy.

It has not, and cannot be denied, that when any country produces more of a commodity than the population can make use of, a protective tariff cannot raise the price, that being regulated by the price obtained abroad; and to bring home to our farmers how they have been cheated by spurious promises incapable of fulfillment, we subjoin a list of the exports and imports of the Dominion for the year ending 1878, dividing them into the three great classes of agricultural production:

GRAIN, ETC.—EXPORTS.

Barley	$ 4,498,834
Beans	76,390
Indian Corn	3,673,929
Oats	1,046,285
Peas	1,984,115
Wheat	11,631,198
Rye	379,199
Other Grains	6,698
Flour of Wheat	2,757,698
Indian Meal	4,859
Oatmeal	154,257
Meal, all other	4,308
Malt	480,798
Total	$30,151,474

IMPORTS.

Barley	$ 137,343
Peas and Beans	15,729
Indian Corn	3,533,619
Oats	650,441
Wheat	6,310,125
Rye	77,398
Other Grains	611
Flour of Wheat	1,866,191
Flour of Rye	8,435
Indian Meal	619,390
Oatmeal	22,988
Meal, all other	4,960
Malt	3,892
Total	13,449,825
Excess of Exports	$16,697,579

CATTLE, ETC.—EXPORTS.

Horses	$1,877,893
Horned Cattle	1,914,773

DAIRY PRODUCE, ETC.—EXPORTS.

Butter	$2,474,197
Cheese	4,121,261
Eggs	647,144
Total	$7,742,602

IMPORTS.

Butter	$112,765
Cheese	156,698
Eggs	7,393
Total	276,744
Excess of Exports	$6,963,858

It will be seen, therefore, that we exported more than we imported in one year: of grain and flour, $12,673,879; of animals, $2,941,230; of butter, cheese and eggs, $6,963,898; making a total of $22,619,007,—actually over twenty-two and a half millions of dollars; and, if we add $330,066 worth of potatoes exported over and above import, the total would be within a few dollars of twenty-three millions. In wheat and flour we exported over and above what we imported, no less than $6,012,567; in connection with our business in wheat, the figures show that while we paid at the rate of $1.15½ per bushel for what American wheat we imported, we received $1.39 for the same wheat when exported, leaving on 6,115,-993 bushels, the amount of $1,410,269 in the hands of Canadians for freight and profits; and yet it is a predictable result of this delusion that the winners who

JOHN A. AND THE TORY PRESS.

Sir John Macdonald has again been leading his followers both on the floor of the House and in the press, round a very sharp corner. It is clear from the British North America Act that the dismissal of a Lieutenant-Governor, following the procedure of his appointment lies with the Governor-General and his council, conjointly and inseparably. In the case of Lieutenant-Governor Letellier, of Quebec, the Governor in Council either did or did not arrive at a decision. It is said by supporters of the men now composing his council that no decision has yet been arrived at. Then why was it necessary to make a statement to Parliament at all? Was it either expedient or advisable to announce anything short of a final decision of Mr. Letellier's retention in or dismissal from office. But Sir John, for some reason or other, did make a statement to the House to the effect that the matter had been referred to the British Government, at the desire of the Governor-General, and against the wishes of the Cabinet. Thereupon arose a mighty cry of indignation from supporters of the Ministry against the Marquis of Lorne personally, for presuming to go against the advice of his Council, and to refer to England a matter the determination of which lies within our own Canadian constitution. But it turns out that the organs were deceived into too honest an expression by their Chieftain. Sir John has been forced by the tide of circumstances to make a second statement to the House, wherein he acknowledged that the reference to England was not against the advice of the Ministry. Now the Tory papers that were so earnestly indignant at the Marquis of Lorne, have to acknowledge that he has not withstood the advice of his Cabinet as they accused him with doing, as though that were a crime in itself; and they further see that their wrath at the idea of submitting purely Canadian questions to British Ministers turns on the head of Sir John, whose purposes they thought they were serving by blaming the Governor-General. But these journals have neither the decency to say that their indignation was hurled at the wrong head, nor to acknowledge the insult they have offered to the Queen's representative in heaping unrestrained and wholly unmerited abuse on his head. The party and its head are more to them than loyal and honorable conduct.

PROVINCIAL EXPENDITURE.

Besides the revenue from internal sources the Province of Ontario, according to the terms of the British North America Act receives a certain sum yearly from the Dominion. This is composed of a lump sum of $80,000, and eighty cents per head of the population. According to the last census this latter rate brings in $1,116,182 per year. Now that the boundaries of the Province have been settled and a large extent of territory brought in, the computation of eighty cents per head will be the basis of a considerably increased population. Thus, our receipts in this way will go on increasing as our population, new territory is opened up, and our vacant lands settled by a growing population. It will be seen then that it is greatly to the advantage of the Province to carry out a most liberal land policy; to open up our new districts by encouraging railways, and to build colonization roads for the purpose of aiding the speedy and permanent settlement of the country within all its vast bounds. It has been found by experience that about $600,000 is ample for the defraying of the actually necessary expenses of government, thus leaving a large margin every year, to be expended in other useful ways. Besides this yearly overplus the Reform Administration has had the expenditure of amounts suffered by the Sandfield Macdonald government to accumulate from year to year, on account of uncertainty then as to the settlement of the boundary and the financial affairs of Ontario and Quebec, when they were combined as the old Province of Canada. But it was never intended that those moneys should go on continually increasing. In proof of this we have only to point to the $1,500,000 voted by the Sandfield Macdonald government as a fund from which to assist railway projects. But that Ministry reserved to themselves the power of distribution,—of giving grants to just such railways as they saw fit, the amount of such grants and of dealing it out at just such times as would suit themselves. It is easy to see what influence this gave the Ministry in demanding support from such companies, and such localities as asked for railway funds. With their well-known principle of "supporting their supporters," it is easy to see that money would be granted only on condition of the election of a thick and thin supporter of the administration. Against this power of bribery and coercion on the part of the Ministry, the Reform Opposition, then led by Mr. Blake, protested. An appeal was made to the country on this point, and the Reformers were so strengthened in the House that in a very short time Mr. Sanfield Macdonald was forced to resign, and Mr. Blake became leader of the government. He followed out the plan of aid to railways approved of by Parliament, added $400,000 to the fund for the purpose, and established a railway reserve fund. Now, only such roads get grants of money as can establish good claims to such aid before the people's representatives in Parliament assembled. The same is the case with all other grants of money made by the Reform Government, and which the Opposition now count up as excessive expenditure. They have been made with the approval of Parliament composed of members opposed to the government, as well as those supporting it. Had the former at the time of voting moneys to railways municipalities, asylums, hospitals, charities, and to carry out educational and other reforms, protested against such expenditure, there would have been some show of honesty in their now complaining of the outlay. But so far from opposing the grants when they were voted, they had to acknowledge the wisdom of the plans for the fructification of which the money has been spent. They daily are quizzed for the ridiculous preaching for the expenditure they were political to condemn. Had only an utterly hopeless, thankless opposition patiently appealed to the people, they would have had a prediction of the ultimate triumph, and demanded the outlay of the very moneys they now count in their attempt to make people believe the administration has been extravagant. As already stated, the outlay of the province on the annual expenditure is about $600,000. The whole question then depends on the wisdom or folly of keeping the expenditure at the minimum, or, as to how far it is wise to depart from it, in the interests of the people. The Parliamentary representatives of the people are the correct judges of this; under Reform rule they are allowed to determine, and have determined how, and in what sums the money of the people shall be spent from year to year. They have wisely approved of the government's propositions for securing its outlay in such ways as to provide permanent advantages to the country, and at the same time keep down the taxes of the people. For, in nearly every instance of votes, from the surplus revenue of the Province, the money has been laid out in providing for some necessary or advisable thing, for which, had the government not made provision the municipalities would have had to be taxed to raise the amount. Thus the people have been provided with good schools, and other necessary institutions, without any increase whatever in their taxation. In view of this, and of the general approbation of Parliament in the government measures, it is absurd, indeed, that the Opposition should now make any objection to the amount of money of the Province expended for the Province, and doubly absurd are their alarmist references to increased taxation, seeing that the wise distribution of the Provincial funds by Ministers, with the approval of Parliament has kept down taxation, and at the same time secured the much needed expenditure of money in the Province, during a time of great business depression, and otherwise financial stagnation. But the Opposition needed an election cry, and have chosen that of "extravagance," as the most likely to serve their purpose. That they could not find one with less absurdity mixed up with it; is the best proof of how little objection can really be found with the administration of Provincial affairs by the Mowat Ministry.

CROWN LANDS EXPENDITURE.

In noticing the report of the Crown Lands Commissioner, the *Review* undertakes a little criticism, on the financial basis, on which it and other Tory papers seem to have a peculiar cease. Its strictures in this respect are as weak as they are carping. For instance it takes exception to the Treasurer's statement of the receipts as $445,191, by commending the commissioner's division of the amount into two sums, thus distinguishing between revenue proper and special, or trust funds. Now everybody knows that while the Commissioner is supposed to be thus careful of details in his report, all that is expected of the Treasurer is to gather a general financial statement from all the Departments. In so doing he did quite right in placing the full amount as receipts. That there was no attempt on the part of Ministers to mislead is shown clearly by the ample explanation of the Commissioner; and the *Review's* insinuation is therefore as futile as it is mean in intention.

The payment of certain sums to officials in this region of country is also referred to in most contemptible fashion. No attempt is made to show that there was the slightest suspicion of wrong in either the amounts or the manner of their payment; but the gratuitous insult is offered to Messrs. McWilliams and Bick, (who are named), that there is "no wonder these gentlemen are supporters of the powers that be!" No wonder indeed,—seeing the inducements held out to them by this Opposition organ. It surely cannot mean to insinuate that these gentlemen are Conservatives, and would not support the Reform Government were it not for the money they get from the Department! Such an idea is not very flattering to Conservative honor; and is especially unkind coming from a paper of that party.

Notice is then taken of increased payments last year as compared with 1871 for contingencies, such as extra clerks, &c. This is evidently done with the intention of leading the unthinking to suppose that the outlay should not be any more now than it was seven years ago; this indeed being the absurd basis on which the whole Opposition cry of increased expenditure, extravagance, &c., must rest; if it can rest at all. But the *Review* itself furnishes a partial explanation of increased outlay when it acknowledges the increase in the number of locatees on free grant lands, which extension of business must have caused extra correspondence and extra work in the Department. When we follow out the comparison fully we find that in the Crown Lands Department the salaries paid in 1871 were $31,494, and in 1877 $41,780. The townships opened for free grant locations numbered only 55 in 1871, while in 1877 they numbered 92 The persons located were 1,113 as against 1,914; the acres located and sold to locatees 156,558 as against 226,335. In 1871 only 40 miles of colonization road were made, while in 1877 there were 110 miles constructed; while the miles repaired during the respective years were 122 and 194. The letters registered in the Department in 1871 numbered 17,902; while in 1877 they had reached 19,014. Is not all this sufficient to account for the comparatively small increase in the expenses of the Department?

The *Review* winds up its list of half-uttered complaints with a reference to the Burleigh road not having justice done to it. Now, it is a very easy matter to declare that more might, or even should have been done for any particular work; but such a complaint comes with very ill grace from a source whence are constantly emanating cries against the increase of Provincial Expenditure beyond what it was in 1871. But consistency was never a Tory attribute.

LOCAL INDUSTRIES.

The *Review* seems hurt, and complains that we adopt an unfair course in discussing what their interviewer has to say about our local industries, and further that we only notice part of his work. To set his mind at rest we beg to inform him that our article referred to was written on what appeared the first of April. We have another ready on the second instalment, given us on the 4th inst, but for want of space have to withhold it this week. In the meantime we invite the attention of our Peterborough interviewer, to the statistics of our agricultural productions, published in another column, and we will guarantee not to make fun of him, unless of course his remarks of themselves are an inducement that a mere re-statement of them is laughter provoking.

A duty corresponding to nearly 40 per cent. has the United States on cotton bandages as certain of our manufacturers in Canada.

THE CROWN AND ITS COUNSELLORS.

Either the late John Macdonald advised the Marquis of Lorne to dismiss Lieutenant-Governor Letellier, or he did not. He either advised the referring of the matter to England, or he did not. If he advised the dismissal in conjunction with all his colleagues, as he himself at first stated, that advice has (to say the least of it,) not been followed. The only doubt existing on this point is as to whether the Governor-General distinctly refused to concur in it, or asked on his own behalf that it should be referred to the British Colonial Office. If the latter be the case, the French Canadian Conservatives were not without reason in the complaint that the question is one that should be constitutionally settled in Canada. But if the Marquis refused to entertain the proposal of Mr. Letellier's dismissal, it is not impossible that his Ministers would then advise the reference to England, a proposition he under the circumstances could not very well refuse to entertain. The second statement of Sir John Macdonald to the House of Commons, that the reference to England was not against the advice of the Ministry, and that the Ministers were responsible for it, seems to point the idea that the Cabinet rather than the Crown's representative sought delay by the invocation of extraneous advice. Indeed, in so doing, the Ministers would only be following out their former practices in the same matter, for it was by their encouragement, if not direct advice, that the opinion of the House of Commons was asked on the case, though it is entirely outside the province of that body as a tribunal. Other circumstances also seem to indicate this view. If it were a mere arrangement between the Governor-General and his Cabinet, this reference to England, why should a statement have been brought down to Parliament at all? It is surely time enough to disclose the Executive will, when that will has been made up. The mere fact of a declaration by the Premier to the House leads to the inference that there existed more than a small matter of indecision on the part of the Executive, whereas the necessity that compelled the Premier to make a second and modified announcement to Parliament is proof of the existence somewhere of a powerful will, not in complete consonance with that of himself and colleagues in the Ministry. Whence came the force that drove Sir John Macdonald to acknowledge to the House that he had, only a few days before, deceived it and the public? Time will tell.

The evil done to the Dominion was analagous to that done the Province of Quebec, when the personality, other than his official identity, of the Governor was alluded to, and the attempt made to make him singly responsible for acts his advisers must take upon themselves while they hold office. The attempt of Sir John Macdonald to cast on the Marquis of Lorne the reference of the question to England, (even if it be at the request of the Governor-General,) was not only cowardly and highly discourteous, but also subversive of that loyalty, to the Crown which shields it from party rancour and popular rage. The truly loyal, patriotic or statesmanlike Minister, rather than invite insult to the Crown, will cheerfully assume responsibility for every act, until the point is reached when he deems that odium attaches, and then he will give place that the Crown may call others to its counsels more willing to shoulder the blame. In doing otherwise, Sir John Macdonald adopted a course as extreme and certainly more dangerous in its consequences, than the worst that has been said of the official act of Lieut.-Governor Letellier in dismissing his Ministers.

EDITORIAL NOTES.

The editor of the Philadelphia *Times*, having pondered over the matter for fifty-one years, finally concluded that single-blessedness was not the thing. He was married Wednesday.

The St. John *Telegraph*, an influential paper, remarks that the National Policy "spares nothing which contributes to the welfare, happiness or intelligence of the poor man and is especially framed to protect a privileged class."

When discontented murmurings begin to rise in Britain against Canada, the people of the Dominion may well begin to feel alarmed at the danger of a relentless, if not rude severance of the tie that binds us to the Mother Country, and of our alternate drifting into the arms of "Our American Cousins." Yet this is the actual state of affairs at present, the British Government having been mesmeralised from different parts of the country to use its influence for a modification of the Canadian fiscal policy, so that it will not bear so heavily against British trade.

ANOTHER MILL STARTED.—We are pleased to add another to the long list of manufactures, which have started since the advent of the National Policy. Mr. Macdonald informs us that Point St. Charles Saw Mill, commenced running to-day in full blast, and that he will employ quite a number of hands in the manufacture of lumber, shingles, &c.—*Review.*

Well, this mill has now been running every season since its erection—three years—and if this is the sort of new manufacturing establishments that are to be resuscitated by the advent of the N. P. the farmers have been exceedingly well duped at the last election. It is now in order for the new mills of Messrs. Hilliard, Dixon Estate, Ullyott & Co., and Macdougall & Ludgate too, to commence there season's work, and they will "add to the long list of manufactures, which have started since the advent of the National Policy."

This is how an item of news, long here, has been licked into shape as an "effect of the National Policy in Canadian Industries":—Mr. John Carnegie, and a Mr. "Urquhart, of Ottawa, have entered into "partnership for the purpose of carrying "on the manufacture of brick and tile "in the old Romaine Brick Works, Peterboro." Such are the items being given by Tory papers as instances of the revival of industries under Protection, such papers giving long lists relating to places other than that in which it is published, and where of course, its absurd inferences would be at once detected and exposed. The item about the brick works in this town is but one of many. It has been copied into most of the Protectionist papers at a safe distance from Peterborough as an instance of an industry, ruined by the late nefarious tariff, springing into life as soon as protection is granted. Now, every one in Peterborough knows full well, Mr. Romaine among the number, that the tariff as regards brick and tile had nothing whatever to do with his want of success in bringing in new skin from his ventures, to pay for the outlay his energy led him to make. People here also know, and none better than the new proprietors, that had their energy upon the business not succeeded, they could have found here hundreds of others ready to step into the vacancy, and would have taken the risks.

SPRING ASSIZES.

The Spring Assizes for the County of Peterborough, opened in the new Court Room, on Tuesday afternoon, before Mr. Justice Matheson. Mr. James Henderson, Q.C., of Belleville, taking charge of the Crown business.

Besides the members of the local Bar, there were present, Hector Cameron, Esq., Q.C., and Hon S. Smith, Q.C.

THE GRAND JURY.

Alex. Bertram, Esq., Foreman, and Messrs. T. E. Bell, Samuel Elliott, John Erskine, Geo. E. Shaw, Angus McMartin, Patrick Mohoe, Spanham Sheldrake, Wm McBain, Ernest Shipwith, Adam Johnston, Henry Garbutt, James Carter, Denis Bawley, Thos. Dolan, John W. Fife, William Leah, Wm. Yelland, Thos. R. White, Matthew Knox, James L. Hughes and Thomas Rorke.

His Lordship then addressed the Grand Jury, congratulating them on the fine, handsome court room they now had, with its excellent seating capacity, light and ventilation, and drew a comparison between it and the old one. He also congratulated them on the fact that there were no criminals in jail, the sheriff having presented him with the customary pair of white gloves, on such occasions. He hoped this state of affairs would long continue, and that other judges should be met with the same reception. Although there were no prisoners in custody, still he regretted there were two cases where the parties were out on bail—one for manslaughter and the other rape. Both being out on bail, it went far to show that the crimes were not regarded in that light which the generality of such cases were. As to the case of manslaughter he was not acquainted with the facts and could not speak definitely. If they thought sufficient violence had been offered to justify the taking of the life of another, then they could ignore the charge, but, if on the other hand, the evidence did not show this violence, then they could bring in a bill of manslaughter or even murder. If they had doubts, the better way was to allow it to come before a Petit Jury. As to the case of rape, their finding should depend altogether on the evidence, which in most cases was generally given by the prosecutor. If she was proven to be a woman of virtue and good repute much weight should be attached to her evidence, but, if on the other hand, she was not a person of good repute, and they had doubts of the veracity of the evidence and that a Petit Jury could not convict under it, then he thought it best to ignore the charge, as the ventilation of such cases was not in the interest of public morality. They would have to pay a visit to the jail, but except they desired to make suggestions it was not necessary that they should report, the Inspector of Prisons now attending to matters of this kind.

The first case taken up was

BERTRAM *et al* vs. BAGULEY.—This was a case brought by the plaintiffs as executors of the late Thomas Lamin, to recover from the defendant, J. J. Baguley, the sum of $224. This sum Mr. Baguley claimed as due for extra services rendered by him while in the employ of the estate as book-keeper and general manager, and which sum he placed to his credit when closing his account in the ledger. J. F. Dennistoun, Q. C., for plaintiff; C. A. Weller, for defendant. Verdict for defendant.

BREEN vs. FISHER.—This was a case of seduction, brought by John Breen, of the township of Cavan, against Joseph Fisher of the same township, for the seduction of Mary Ann Breen. There being no defence in this case, it was merely before the court for the assessment of damages. D. G. Hatton, Attorney, for plaintiff; Hector Cameron, Q. C., Counsel. Verdict for plaintiff, $500.

The Grand Jury brought in a true bill against Wm. H. Little, on a charge of rape.

WEDNESDAY.

HALL vs. MCKEE & DAVIDSON.—This was a suit brought by Sheriff Hall, as assignee of the bankrupt estate of Thos. Eastland, to recover from the defendants the sum of $895 paid to them by Eastland, prior to his making the assignment. The contention being set up by the plaintiff that Eastland was insolvent at the time such payment was made, and consequently that the defendants should rank as the other creditors, and the money received by them become an asset of the estate. Dennistoun Bros. & Hall, for plaintiff; Moore & Sawers and Hector Cameron, Q. C., for defendants. Verdict for defendants, on plaintiffs' evidence.

THE QUEEN vs. LITTLE.—Charge of Rape. Case was dismissed, the Judge ruling there was no evidence to go before the jury. W. H. Scott, Q. C., for defendant.

THE QUEEN vs. RODDY.—During the afternoon the Grand Jury brought in a true bill of murder in this case, the hearing of which is expected to commence this morning. A full report of the evidence will be published in our next issue.

GRIFFIN vs. PETERS.—Libel case. Not concluded at the time of our going to press.

Cleaning Yards.

To the Editor of the Examiner:

DEAR SIR,—From the lateness of the season it will be impossible to get our yards cleaned out for some time during this month, and would it not be wise for public intimation to be given where rubbish may be drawn to. Meanwhile some of the open lots are the receptacles. Can our corporation not see the propriety of having such fenced in. The attention of the Council to this matter will be of great benefit to the citizens generally and

HUMANITAS.

Peterboro', April 13th, 1879.

A BENEVOLENT WORK.—The Methodist Church of New York is constantly engaged in providing for the increase of its borders. To a separate organization has been committed the work of extending the influence of the church. Rev. Wm. P. Corbitt, the famous revivalist, is chairman of this committee of extension—and he used to be a martyr of neuralgia. His cure he ascribes to Giles' Liniment Iodide Ammonia. Sold by all druggists. Send for pamphlet. Dr. GILES, 451 Sixth Avenue, N. Y. Trial size 25 cents.

GLASGOW WAREHOUSE
HUNTER STREET.

J. ERSKINE

The Examiner.

PETERBOROUGH, APRIL 17, 1879.

LOCAL NEWS.

Town Council.—The next meeting of the Town Council will be held next Monday evening.

Fitting Up.—Mr. A. Bysanko, dentist, has during the past week been engaged in fitting up a reception room.

Personal.—Messrs. Hilliard and Burnham have been busying during the Easter Holidays. Parliamentary life appears to agree with them.

Brigade Meeting.—The Ashburnham Fire Company will meet in the Council Chamber this (Thursday) evening at 7.30 p.m. Members to wear their uniforms. A full meeting is desirable.

The Rink.—Friday evening last was the last evening of the season on the ice. An unusually large number took advantage of the occasion.

Pedestrianism.—Mr. Walter Stewart, of this town, was successful at Port Hope in the six hours pedestrian contest, taking first prize in good style.

British Weston.—On Monday Messrs. Cornegie & Urquhart, commenced the manufacture of brick and tile at the "Peterborough Brick Works."

St. John's Church Concert.—Remember that Mrs. E. G. Caldwell, Hamilton's favorite singer, will assist at this concert to-morrow evening. We are assured a rich treat is in store for those who attend.

Agricultural.—At a meeting of the Directors of the West Riding Agricultural Society on Saturday, a resolution was passed, granting the necessary $700 to secure the holding of the Central Exhibition in the town this year.

Good Friday.—This day was a general holiday in town, and services were held in almost all the Churches. The band of the Fire Brigade played several fine selections during the afternoon.

Scarlet Chapter.—The West Riding of Peterborough Scarlet Chapter opened in the Orange Hall, on Monday evening last. After routine the Chapter adjourned till this evening for the transaction of business.

St. George's Day.—A special meeting of the St. George's Society will be held this evening, at 8 o'clock, in Mr. Holm's office, on Simcoe Street, to reconsider the determination as to celebrating St. George's Day by a dinner, and to make arrangements for one, if feasible.

Who Pays Bills?—The Canada Christian Advocate, organ of the Methodist Episcopal body in Canada, makes the following announcement:—"Owing to the new tariff, which imposes a tax of from fifteen to twenty five per cent. on Sunday School literature, we have been obliged to lengthen the price of our Sunday-School publications."

Skating Rink Closed.—At a meeting of the Directors of the Skating Rink, on Wednesday evening last, it was decided to close the Rink for the season, and have the entire building renovated, and the outside rink closed in with boards and fences. Water-pipes will also be laid from the rain for flooding purposes. The financial statement shows the club to be in a good position. The Curlers' can now put their "stones" away for the season.

Hot Sharp.—On Wednesday night last, the tannery of Messrs. Chant & Johnson, in Ashburnham, was entered and robbed of $41.35. It is supposed that one of the employees named Chase, who had recently been engaged by them from Brookville, was the thief—as his whereabouts since the yesterday afternoon are not known. He had only been in their employ a short time, and left his situation to "better himself," no one suspecting anything wrong. Payment was stopped by Cheques sent from the Windsor at the arrival. The robbery evening Chase borrowed $20 from Mr. Sampson, for carrier, the loss of which he is particularly silent.

The South Ontario Meeting.—On Saturday afternoon last, a meeting was held in the Police Court Room, for making arrangements for the meeting of the Fruit Growers' Association, to be held in Peterborough, on 30th July next. Shortly before 2 o'clock, Mr. Clifford, secretary, Jos. Caswell, Hon. R. Hamilton, A. C. Rankin, T. S. Nutt, H. Collins, John Stewart, A. Smith, Wilson, and G. Fitzgerald. The meeting decided to request Fruit Growers throughout the Province to forward to the secretary lists of fruit for exhibition:—Showing to be sent (1) Transient Fruits; (2) Fruits of Spring; (3) Fruits of Autumn; (4) Fruits of Orchard; (5) Fruits of Garden and Field. The following committee was appointed to receive reports from each Township in the County of Peterborough.

The Pulpit.—The Rev. Mr. Harper will (D. V.) preach next Sabbath evening in the Baptist Church.

Blind.—The streets have the usual supply of mud to adorn them, he is generally the case about this season of the year.

Reinforcement and others requiring Tonic should call on I. Robinson & Co., who can supply them with all sizes and qualities at very low prices.

Personal.—Mr. E. A. Snyder, eldest son of Mr. W. Snyder, of Ashburnham, will leave in a few days for Toronto, to pass his examination to enter the North West Mounted Police force.

Sermon to the Young.—The Rev. Mr. Wallace will preach a sermon for the especial benefit of the young, in the George-street Methodist Church, on Sunday evening next.

Grand Central.—Why not make up your minds, at present, what Hotel you are going to stop at when you arrive in New York? The Grand Central, on Broadway, is now kept on both the American plan at $2.50 to $3.00, and the European plan at $1.00, and upwards, per day. An elegant restaurant, at moderate prices, is conducted by the hotel.

Tea-meeting.—Our readers will bear in mind the concert to-morrow evening in behalf of the building fund of St. John's Church. The programme is a very select and entertaining one, and we feel sure a better way of spending a pleasant evening will not easily be found.

Deserting a Fire.—The Embro Expositor man describes a recent conflagration in that village thusly:—"The blazing oil soaked fortunately, the burning fluid smoked, the sparks and burning goods leapt high into the heavens, surging and twisting like some serial phantasmagoria, carrying on the wings of the wind and descending on the house-tops far and near like some pyrotechnical display."

St. John's Church Vestry.—A vestry meeting of St. John's congregation, which was largely attended, was held in the new school room on Monday evening last. Mr. Geo. E. Shaw, Mr. J. E. Belcher and Dr. Geo. Burnham, jr., were elected by delegates to the synod. The Rector nominated Mr. G. E. Shaw as his Church Warden, and the meeting unanimously elected Mr. A. P. Poussette as the other. The meeting then adjourned for two weeks to receive the audited report of the Church Wardens.

Glasgow Warehouse.—Outside the millinery show rooms, perhaps there is no other establishment in town whose a visit is more thoroughly enjoyable; at the Glasgow Warehouse. Especially attractive this season is the large stock which Mr. Erskine has received, and which is replete in all departments. Berlin wool work and fancy goods have been marked at greatly reduced prices, and as this stock is the cheapest and best selected of the kind in town, purchasers can rely on receiving decided bargains.

Larceny.—A traveller, while stopping at the hotel of Mr. Roper, in Millbrook, on Thursday last, had his misfortune to have his over-coat, which he left hanging in the hall, carried off by one of the light-fingered gents who are at present pauperizing the country. On Friday Mr. Roper was bothered at the hook out for his man, but returned home without any clue to his whereabouts. A pair of gloves that were in the pockets of the coat were given to the conductor for his ride to Peterborough, as security for the money.

Loafers.—For the past few weeks the loafing brigade has been out in full force, and the members have taken possession of the sidewalks in the business portion of the town, particularly the crossings on Hunter and George streets. We believe there is a By-law in force in reference to this matter, and if this is to be allowed to lapse, we suggest to the Town Council the propriety—nay, necessity—of adopting some stringent measures for the suppression of this nuisance. It is a disgrace to our town that a lady cannot walk out in the evening without being insulted at our principal street corners by a band of loafers. This matter should be attended to at the Council meeting on Monday night, and the policemen instructed to deal with them corner gentry without mercy. A few examples would, no doubt, have a very salutary effect.

A Lamentable Accident.—Mr. Wesley Baxter, son of Mr. James Baxter, of Otonabee, was killed on Saturday last, while chopping in Mr. W. Doyell's wood. The unfortunate man was working for Mr. Doyell, and on that day went, accompanied, west to work alone, bringing lunch with him. In the evening about sunset, Mr. Samuel Doyell, son of Mr. W. Doyell, went to the woods to see Baxter, when he found his body lifeless and cold. As no one was near him at the time, the manner of his death cannot be clearly determined; but from what was seen, it was evident that the tree he had been chopping (ash) in falling on another tree and lodged, and in its rebound struck a limb from the latter must have swung backand struck him, killing him instantly. He was a quiet, inoffensive young man, about 30 years of age, and leaves a wife and one child to mourn the sad event. His body was interred in the Methodist Cemetery, Peterboro', on Monday.

"Botford's Monthly."—The *Rose-Belford Canadian Monthly* for April contains three critical articles on classical English authors, Sterne, Addison, and Keats. Under the title of a "Pressing Problem," a Canadian writer discusses the kindred subjects of pauperism and almsgiving. Articles of special interest in the Dominion are "Halifax," as described by James Whitman; and the "Duration of the Legislative Assembly," discussed historically and constitutionally by A. H. Dymond. There are several good pieces of poetry; including sonnets by John Reade, an imitation of Horace in the Scotch dialect, by Douglas Brymner, and a description of "Niagara" in blank verse by Nicholas Flood Davis. There are the usual instalments of continued stories by Wilkie Collins, James Payn, Walter Besant and James Rice. The publishers announce the retirement from the editorial chair of Mr. Stewart, whose place will be taken by Mr. G. Mercer Adam, formerly connected with the magazine.

"When Found, Make a Note of."—Our Saturday contemporary, with its usual combination of vile construction and impertinent vulgarity, endeavours to imagine that we were incorrect in our statement, that the Examiner printing had been awarded the Examiner and *Review* offices. Well, we have no desire to compare our veracity with the reputed editor of that sheet, but for his especial benefit, we take the pleasure of informing this "mere cuss" of Connellior, that we published the following item at the request of the respected Reeve of Smith-more, made in the presence of Mr. Carnegie, of the *Syrup* fame:—

"Entrance Printing.—The printing of the Township of Smithmore has been awarded to the Examiner and *Review* offices."

If the *Times* desires to question our remarks on any subject, we have not the least objection to his doing so in a fair, square, open manner, and we will discuss at any time any public question as a journalist should do, but will not descend to such tactics as the Editor of the *Times* and its contributors are noted for.

Destroyed by Fire.—Shortly after eleven o'clock on Monday night, a fire broke out in the rear of the building occupied by Messrs. Hesbach and McKee, as a furniture ware room, on the corner of Brock and George Streets. An alarm was at once given and the Brigade with commendable promptitude were soon upon the scene, and had two streams playing, but owing to the inflammable nature of the building and their surroundings it was a difficult task to master the flames. This was evidently accomplished, but not till all the buildings in the rear were totally destroyed and the brick buildings badly damaged, especially the shop occupied by Mr. Glass, which was completely gutted. The cause of the fire is unknown, but supposed to be incendiary. Messrs. Heubach & McKee had an insurance of $300 on a stock of $6000 a portion of which was removed, but considerably damaged. Mr. Glass loses a portion of his stock and furniture. Mr. Langford loses a quantity of tools, and the Misses O'Brien who occupied rooms over Langford's and their furniture damaged by removal. The building is owned by the Burnham Estate and was insured for $2,000.

Harper's Magazine.—The May number of *Harper's Magazine* is very richly illustrated, containing over one hundred engravings that may confidently challenge comparison. The illustrated subjects offer unusual opportunities for pictorial treatment. At the outset the reader, in "A Postmaster Captain," is transported to that wonderful region known as "the Eastern Shore," on the Chesapeake Bay. Col. Waring's third Tyrol paper takes us from Botzen to Waldbruck, then unveils the wonders of Gardner Teal. The Art paper of the Number is devoted to "The Study of Art in Boston"—an admirable and comprehensive treatment of the subject by George P. Lathrop, with twenty-eight fine illustrations. Julian W. Hour contributes an interesting paper on "Sketching Rambles," and "The Piano and Its Associations." The poem of the number, the romantic ballad by Lathrop, is "Down Where's beautiful paper accompanies upon Ayre—now the theatre of a political conservation on the question of the day—and the Rev. Dr. Deems's sermon on the subject of "Sunday Observance." The Editor's Drawer is as full as ever of humorous matter, and the Monthly Record of Current Events is complete to the date of publication.

Destitution.—Outside the millinery show rooms, perhaps there is no other establishment in town whose a visit is more thoroughly enjoyable; at the Glasgow Warehouse. Especially attractive this season is the large stock which Mr. Erskine has received, and which is replete in all departments. Berlin wool work and fancy goods have been marked at greatly reduced prices, and as this stock is the cheapest and best selected of the kind in town, purchasers can rely on receiving decided bargains.

Larceny.—A traveller, while stopping at the hotel of Mr. Roper, in Millbrook, on Thursday last, had his misfortune to have his over-coat, which he left hanging in the hall, carried off by one of the light-fingered gents who are at present pauperizing the country. On Friday Mr. Roper was bothered at the hook out for his man, but returned home without any clue to his whereabouts. A pair of gloves that were in the pockets of the coat were given to the conductor for his ride to Peterborough, as security for the money.

Loafers.—For the past few weeks the loafing brigade has been out in full force, and the members have taken possession of the sidewalks in the business portion of the town, particularly the crossings on Hunter and George streets. We believe there is a By-law in force in reference to this matter, and if this is to be allowed to lapse, we suggest to the Town Council the propriety—nay, necessity—of adopting some stringent measures for the suppression of this nuisance. It is a disgrace to our town that a lady cannot walk out in the evening without being insulted at our principal street corners by a band of loafers. This matter should be attended to at the Council meeting on Monday night, and the policemen instructed to deal with them corner gentry without mercy. A few examples would, no doubt, have a very salutary effect.

A Lamentable Accident.—Mr. Wesley Baxter, son of Mr. James Baxter, of Otonabee, was killed on Saturday last, while chopping in Mr. W. Doyell's wood. The unfortunate man was working for Mr. Doyell, and on that day went, accompanied, west to work alone, bringing lunch with him. In the evening about sunset, Mr. Samuel Doyell, son of Mr. W. Doyell, went to the woods to see Baxter, when he found his body lifeless and cold. As no one was near him at the time, the manner of his death cannot be clearly determined; but from what was seen, it was evident that the tree he had been chopping (ash) in falling on another tree and lodged, and in its rebound struck a limb from the latter must have swung backand struck him, killing him instantly. He was a quiet, inoffensive young man, about 30 years of age, and leaves a wife and one child to mourn the sad event. His body was interred in the Methodist Cemetery, Peterboro', on Monday.

"Botford's Monthly."—The *Rose-Belford Canadian Monthly* for April contains three critical articles on classical English authors, Sterne, Addison, and Keats. Under the title of a "Pressing Problem," a Canadian writer discusses the kindred subjects of pauperism and almsgiving. Articles of special interest in the Dominion are "Halifax," as described by James Whitman; and the "Duration of the Legislative Assembly," discussed historically and constitutionally by A. H. Dymond. There are the usual instalments of continued stories by Wilkie Collins, James Payn, Walter Besant and James Rice. The publishers announce the retirement from the editorial chair of Mr. Stewart, whose place will be taken by Mr. G. Mercer Adam, formerly connected with the magazine.

"When Found, Make a Note of."—Our Saturday contemporary, with its usual combination of vile construction and impertinent vulgarity, endeavours to imagine that we were incorrect in our statement, that the Examiner printing had been awarded the Examiner and *Review* offices. Well, we have no desire to compare our veracity with the reputed editor of that sheet, but for his especial benefit, we take the pleasure of informing this "mere cuss" of Connellior, that we published the following item at the request of the respected Reeve of Smith-more, made in the presence of Mr. Carnegie, of the *Syrup* fame:—

"Entrance Printing.—The printing of the Township of Smithmore has been awarded to the Examiner and *Review* offices."

If the *Times* desires to question our remarks on any subject, we have not the least objection to his doing so in a fair, square, open manner, and we will discuss at any time any public question as a journalist should do, but will not descend to such tactics as the Editor of the *Times* and its contributors are noted for.

Easter Sunday.—This chief of Christian festivals was observed in the various churches by appropriate sermons. Large numbers attended the services.

Endangered.—The Wesleyan Sentinel-Review has been enlarged to a 48 column paper. It is one of the most readable and best papers in Ontario. May it have a long and successful career.

The Bellamy Movement.—The Directors of the Mechanics Institute offer a reward of ten dollars for the conviction of anyone found mutilating or injuring any of the periodicals or books found in the reading room of the Institute.

Entertainments.—Peterborough and Cornwall Templars have announced entertainments to take place at their respective lodge rooms on Friday evening, the 25th instant. The committees are actively engaged making necessary arrangements.

The last Grip.—"John A. standing under an umbrella, clean and dry, while the Mounds of Lorne is out in the storm of abuse which is falling, appears in *Grip's* last cartoon. John A says: "My dear Marquis, one of us deserve the abuse, but you don't surely expect Tupper to abuse me, do you?"

A New Venture.—We have much pleasure in announcing that Messrs. Messenger & Sandercock have lately added another branch to their business, namely, that of manufacturing jewelry. As the want of such an establishment as this in town has been long felt, we have no doubt but that the new venture will be liberally patronized by the public.

St. Luke's Church.—At the vestry meeting of St. Luke's Church, Ashburnham, held in the school room on Monday evening, Messrs. John Burnham and H. T. Strickland were re-elected Church wardens. Votes of thanks to the various officials of the Church were unanimously passed. The lay delegates of last year, Dr. H. C. Burritt and Mr. H. T. Strickland were re-elected. A resolution was carried that representations be made to the Bishop elect in order to secure Mr. Bradshaw's services for St. Luke's Church alone.

LOCAL MELANGE.

—Robins and sparrows have arrived. This is a sure sign that the winter is over.

—The saw mills are being put in readiness for the season's operations.

—This being Court week a large number are in town a-courting.

—Lent is over, but there are according to report, quite a number of umbrellas still keeping Lent most religiously.

—The snow has nearly all disappeared, and mud is beginning to take the place of slush upon the streets and county roads.

—It is about time that the hand-organ, with "Spring, Spring, beautiful Spring," and a monkey attachment put in an appearance.

—The *Golden-Eye* and *Whistle-Wing* are about being repaired and put in good running order for the season.

—There are only fifteen practising *de*tors in Peterborough.

—The echo's have re-opened after the Easter holidays.

—It has been suggested that a sidewalk should be erected from Hunter-street to the entrance at the Rink. Those who are skatorially inclined will cheerfully second the motion.

THE "UNIQUE."

Mr. Ormiston Dixon's "Unique" entertainment, given in the Opera House on Tuesday evening last, drew forth a moderately large and decidedly appreciative audience. The beneficiary is one who is well known, and who, in return for his cheerful and distinguished assistance at almost every concert of a local character that has taken place here for some considerable time past, deserved even a larger greeting than was tendered him on this occasion. In the role of a ventriloquist, we have rarely if ever seen Mr. Dixon equalled,—never excelled. In his imitations he is particularly fine in the "saw" and the "piano" are perfect,—and his precision and versatility in mimicry are wonderful. He is, as it were, "to the manner born." First on the programme came a musical "musical sketch," (written by Mr. Jas. Ormond), entitled, "Dutch vs. Irish," which was conducted by Mr. Ormond and Mr. W. Dixon. Introduced in the sketch was a very pretty melody, in the Dutch accent, "Only an Emmigrant," —words and music by Chas Baker, Boston. Little Miss Cameron sang (in character), "The Beggar Girl;" in such an engaging manner as to draw forth the continued plaudits of the audience, and as an encore, gave "Castles in the Air." But a child, Miss Cameron has a conception of her subject much beyond her years,—her "Beggar Girl" being extremely pleasing. Gifted with a sweet voice and considerable scope, proper cultivation should make of her a vocalist of no ordinary ability. The quartette—"The Buccaneers"—by Messrs. Hilton (treble), Rush (tenor), Bark (alto), and Elliott (bass), was warmly received, and although loudly recalled, they did not again favor the audience. Miss Martin sang "Little Dolleen," and, receiving an encore, gave "Write to Me Often," and, later on in the evening, "Killarney." Miss Martin is so well known as a singer, that comment on her performance is almost needless. Her fine full voice and graceful bearing were, if possible, more forcible. She became a recitation by Mr. E. L. Hunt, "Henry of Navarre," always a difficult subject to render,—even to the professional elocutionist,—Mr. Hunt apportioned himself no slight task in assaying it. Some of the passages came very well, and showed a degree of histrionic power, but a want of evenness marked the rendition throughout. That old and always mirth provoking ditty, "Hannah, How's Your Maw?" was capitally sung by Mr. Jim Ormond, and "brought down the house" in the most boisterous manner, and called for an encore, "Tired Mary Ann." The entertainment was concluded by the farce of "The Irish Tutor," which was performed by members of the Peterborough Dramatic Club. This sketch, on the whole, was very fairly produced, but the defects of some of the players in their "lines" marred the effect greatly. To hear the prompter hoarsely whispering the "cue" is always distressing, and causes the finest scene to fall flatly,—provoking the same feeling as in experienced when inspecting a picture with a hole pierced through the canvass, which permits one to take in the rear wall behind.

Altogether we have to congratulate Mr. Dixon on the success of his "Unique."

SPORTS.

Judging from the interest that is already being manifested in the various field sports, the young men of our town are looking forward to a season of great activity in that line. Already organization meetings of the Cricket, Lacrosse, Foot Ball and Boating Clubs have been held, and the "theys" are now only awaiting the arrival of "weather," (which this year, is "long on the way,") to commence operations.

THE FOOT BALL CLUB.

In this sport, it is to be regretted that the two clubs (the "Association" and "Rugby") cannot decide on either one of the games, and amalgamate. The number of young men taking part in this game would be sufficient to make an excellent club, which would be likely to do credit to the town; but divided,—an indifferent team will be the result. At the annual meeting of the Association Club, held at the Cosmo Rooms on Monday evening last, the following officers for the ensuing season were elected:—

President—T. Lodgate.
Secretary-Treasurer—R. M. Orr.
Captain—W. O. Ross.
Committee—J. C. Robertson, J. Dolan and W. J. Sherwood.

It is expected that matches during the season will take place with the Port Hope, Carleton (Toronto), and Cobourg teams. The first practice of the season will take place on the Cricket Ground on Saturday afternoon next.

THE LACROSSE CLUB.

A meeting was held in the Cosmo House, on the evening of Friday last, for the purpose of organizing a club in this our "National Game." Quite a number were present, and it was resolved that a club should be formed, to be called the "Peterborough Lacrosse Club." Upwards of twenty names were entered on the membership roll, and after some discussion relative to grounds and other matters, the meeting adjourned till Thursday, evening, the 17th instant, to meet again at the same place, when the the election of officers will take place, and such other steps taken as will place the project on a sound footing. It is desirable that all those taking an interest in the game should be present at the meeting in the Cosmo House, to night.

THE BOATING CLUB.

This club is preparing for a more vigorous season with the "opens" than ever. Several new boats have already been decided on to be ordered from Toronto, and entire new crews will be gone into as soon as the ground is passable. We may be permitted to suggest the desirability of arranging boating matches for a regatta, in which oarsmen from all parts of the province might be allowed to compete, at some date during the summer. Such an event would add new energy to the pastime of the oar here, while it would at the same time be a matter of no little

THE CRICKET CLUB

is also in good shape, and quite a number of match games will likely take place during the season.

ASHBURNHAM COUNCIL.

The Ashburnham Council met on Tuesday evening last. Present—the Reeve and all the Councillors.

ACCOUNTS.

The following accounts were presented.

J. Craig, Road Overseer	$22 75
J. Friend, repairing Town Hall	2 00
T. McMurchy	50
Per Charity	4 00
Mrs. Swanson	6 00

On motion of Mr. Calcutt, seconded by Mr. Mowat, the accounts were ordered to be paid.

Moved by Mr. Ward, seconded by Mr. Mowat,—That Councillors Rogers and Calcutt be a committee to make all necessary arrangements with the Peterborough Fire Committee in the interests of the village.—Carried.

The Council then adjourned.

MURDERED.

A Young Man from Young's Point Cruelly Murdered.

The body of Benjamin Young, one of the late Wm. Young's Point, was brought here by train on Monday from Rice Gatchaw. He left home about two years ago and has been lumbering or working near Rice Lake since that time, and from all accounts had saved some money for which it is believed he was murdered, by a chum, with whom he associated. The body was found in an open field, outside the city, where it evidently had been taken after the terrible deed. He had just received his wages a few days previous to his being found, from his employer, amounting to about $60, and afterwards was last seen alive in the company of this associate whose name we have not learned. Up to this time the latter was known to be without a dollar, having his time away in the city. Immediately after he was seen to spend money freely, and was arrested on suspicion, but we have not learned whether he has been so closely connected with the murder as to be committed. The murderer must have been almost a fiend, as the dead body contained five cuts in the face, one on the arm, and a contusion on the back of the head. When the body was found all his money was gone; but for some reason his watch, a cheque, and other valuables, had not been taken. He was unmarried and about 30 years of age.

THE EASTER MARKET.

Splendid Display of Meats by Our Butchers.

A visit to the market and the stalls of the outside butchers on Saturday last, gave decided proof of the pains taken by the butchers in providing the finest meats in the country for the Easter Market. In quantity as well as quality was the display excellent, and the general opinion expressed was that a finer collection of meats had never been made in Peterborough. The stalls in the market house were literally laden with choice quarters, joints, cuts &c., and deservedly attracted a large number of spectators.

MR. WINCH'S STALL.

As usual, Mr. Winch had taken special pains in catering for the occasion, and had secured the country, if we may so speak, in search of the best animals. That he was successful is quite evident from the excellent quality of meats which he had on exhibition, the appearance of which was enhanced considerably by the neat decorations of flowers, rosettes, evergreens, bunting, &c. A steer fed by Jas. Campbell, Esq., which netted a dressed weight of 1,733 pounds, took a leading place in the display, and was highly spoken of, as was also a sheep weighing 140 pounds fed by Robert Grundy, Esq., of Manvers, and a Devon heifer, fed by Thomas Blezard, Esq., of Otonabee. Besides these were a large number of excellent beeves, sheep, spring lambs, calves and spring porkers, with a quantity of bologna, sausages, spiced and fancy meats, &c.

MR. HOWDEN

had also displayed a good deal of enterprise in providing for his patrons, his display being exceedingly creditable. The chief attraction at this stall was the prize steer purchased from Mr. Thomas Ray, of the Township of Ops, President of the County of Victoria Agricultural Society. It netted 1,710 lbs. Besides this animal there was a steer fed by Mr. Carruthers of Haldimand, a Devon heifer fed by himself, and a number of sheep and lambs from the best breeders in the County. He had also some nicely fed veal and a quantity of bologna, sausages, spiced and fancy meats. The whole was tastefully decorated with artificial flowers, rosettes, evergreens, bunting, &c., giving the stall a nobby appearance, and supporting the display made in the opposite stall by Mr. Winch.

MR. INGLANTE

had not taken the same trouble in decorating his stall than either Mr. Winch or Mr. Howden had done, but the quality of the meat shows reflected credit on the feeders, the principal ones being Messrs. James and William Miller, Mr. Henderson and John Stark, of Otonabee; and Thos. R. Mann, of Smith.

MR. R. WAINWRIGHT'S STALL.

The display made by Mr. Wainwright in both quantity and quality bore favorable comparison with that in the market house, and his patrons we feel sure had no need of going elsewhere to supply their Easter dinners. He had slaughtered for the occasion some excellent animals, a descriptive account being given by an advertisement in our last issue.

MR. HEATHER'S STALL.

In this stall a very fair display was made, and while perhaps the animals were not so highly fed as those in some of the other stalls, still nicer meats could scarcely be desired.

THE MESSRS. COB

had also a fine assortment of meats for their patrons to choose from, and judging from the large number present during the days their efforts were tangibly appreciated by the number of sales made.

FREE MENTIONS.

This looks like spring again.

A dissipated man is dizzy-pated.

Now look out for April showers.

To prevent sea-sickness—Go a-foot.

Business troubles, especially the lazy.

It's too early for stories of ten pound trout being caught.

Some men are like brooks—they say always running.

All the life to which flesh is heir can be cured by last-ills.

Railroads have more ties binding them to this earth than sea-mortal thing.

The sweetest season of all the year is undoubtedly the maple sugar season.

Of all furious-looking places a skating rink struck by a spring thaw is about the foriornest.

Why is a merchant who does a strictly cash business never at rest? Because his work is never done.

The very best and kindest way in which to look at the faults of your friends is to shut your eyes.

A merchant can get along without advertising; so can a wagon without grease, but it goes hard and soon wears out.

A bachelor cynic remarks that it is singular how early in life a child gains the reputation of resembling the richest and best being of his relatives.

Young men who are too genteel or lazy to work, generally manage to marry awful-mams, dress-makers, or milliners!

The birds have begun to sing, but they don't throw their whole soul into the music like they would if they had a sure thing on spring.

The uniform of the Zulu warrior consists of a chest protector. There is an advantage in this: there are no coat-tails to impede one's progress while the enemy are in pursuit.

A subscriber asks, "Is the moon dead?" Can't say; but if you ask the man in the moon you may be able to get the desired information.

In an fur hats is concerned there will be but little change from last year's style. Ladies will continue to wear interrogation marks on their foreheads—and gimlets at the elder.

Cigar manufacturers desire an increased duty on cigars. This is perfectly absurd, and if the request is granted the people of Canada won't have a good foreign cigars to smoke, except those made in the country. Let them take to cheroots.

"How to catch a husband," is the title of an article in a lady's magazine. But the theory propounded is entirely wrong. Any married woman will tell you the best way to catch a husband is to catch him by the hole, but should he happen to be bald-headed, why patch him by the scruff of the neck.

"The Rising Generation Conservative Club of Fool Edge" is the elaborate name which they have taken unto themselves. At Hunter-street on last, on the dark last. Each member was "duly sworn" and they will stick to the end of their natural lives.

Long prosperous, and they will stick to the end of their natural lives.

Long prosperous, and they will stick to the end of their natural lives.

Long prosperous,

A Literary Curiosity.

The following, said to be an accurate Yale correspondent, is one of the most remarkable compositions we have ever met with. It evidently has considerable of merit in the way of poetry in its own. Examination :—The initial capitals spell "My heart is to the glorious Queen of China." The words in italics, when read from top to bottom and bottom to top, form the Lord's Prayer complete :

Make known the Counsel truths, our father
Who in the realms dost Rejoice thou always ;
Our life thou art of many Souls of Queen !
Assuage our grief in love for Christ, we pray,
Name thy potent power of Empire and glory
Lord,
Tent all our sins and holiness of the mighty.
Indeed hope, free a man, and thou who wast trust-
ed,
Stupendous God ! thy grace and power noble
heaven ;
In Jesus' name let all the world please,
Now Father Lord, our Queen, thou always ;
Thou Christ, Lord, Jesus, Queen ! Victoria Queen
Save vile to grace in time to all, my Sir,
Assume to day all and all to day !
Greatness our will, we live for ever more,
Looking the very being, evil in nature,
O God, thy will be done, from earth, as Heaven,
Realizing on the throne, let me Christ,
In earth from sin forever and forever.
Oh ! as Servant, we pray, Thy Kingdom come,
Unless in prayer I love thee Christ Queen,
Save to your last duty the Queen,
Cursed to naught, we're not a righteous of joy
Raised against heaven ; in us, Jesus we can favor.
O give us grace and hear us in thy way ;
Amen on us with thy love and give us peace.
Lord and this the that rise against us day.
Oh ! grant each day our trespass as many cause ;
Forgive our evil deeds that act we do,
Continue us daily of them to our shame.
Make us who heavenly bread ; forgive us, too,
Temptation lead, we'll subtlety why names !
In thy forgiveness we as sinners say, the,
Bless for us and our trespasses go high.
Thy Son, our Saviour, died on Calvary.
—*Baltimore Sun.*

Murder in Markham.

An Old Woman found Beaten to Death.

A woman sixty-five years of age, named Catherine Thompson, who has been living alone for four or five years in the 7th concession of Markham, was found dead in her house on Monday by Mr. McDowell, of Unionville. She has for some time been receiving help from the council. From appearances she must have been dead two or three days. Her head was fearfully cut with a sharp instrument and beaten with a chair which was covered with blood. A box had been broken open which had contained two purses of money, one of which was emptied and the other, containing $35, was left untouched. It is supposed she was murdered for her money. As yet there is no clue to the guilty party. An inquest is in progress.

Goldsmith Maid.

I gave $30,000 for her and sold her in about a year, in 1870, for $35,000. It is hard to say what she would have brought at her best. She has been taken from the turf. She will have a colt this month. "Who is the colt by?" By General Washington, a young stallion of perfect form, great vigor and fine blood. He has the blood of old Lady Thorne and General Kent in his veins, and was selected as the best partner for the mare that could be found in the world. The colt will be worth $10,000 in gold the day it is foaled. Of course it will be valuable; the world will look with great interest to the performances of the coming horse. If there is anything in breeding he will be wonderful. It was not known whether the Maid would breed or not, as she is 32 years old, but when she was taken from the track a gentleman offered to give $1,000 for the chance of her breeding and pay all her expenses. Mr. Smith, however, determined to own the colt himself, and had her put on his own breeding farm. The colt will be born this month. She is as vigorous, healthy and active as she ever was.—[Budd Doble in Atlanta Constitution.

We find the following in the Springfield, Mass., *Republican* :

"New Hampshire, Kansas, Minnesota and Colorado now give women the right to vote at school elections. Some surprise is manifested that there is not a more general turnout of women to vote, where the right has been granted. The fact is that suffrage is a public duty, the exercise of which has to be braced up by habit, the same as that of most other duties. The same fact is noticeable in European countries where suffrage has been given to the people under constitutional monarchy or otherwise—they come to the practice and exercise of it slowly. The right to vote is one of those moral privileges which one must avail himself or herself of by effort and habitually. Most people are engrossed in the material cares of life, women as well as men, and we never have believed that there was among the sex such hunger for political rights as to inspire a general rush to the polls at the first opportunity. But we believe it is best for the state that the whole moral and intellectual strength of the community be availed of for the purpose of government and that is why we want to see women given the privilege and acquire the habit of voting.'

Is not the general argument here really in favor of compulsory voting?

Fish and Game.

The Protection Laws of the Province.

The looseness with which some parts of the game laws are regarded has prompted us to publish the prohibitory seasons as a warning note :—

FISH.

Whitefish, 1st Nov. to 10th Nov.

Salmon trout and lake trout, 1st Nov. to 10th Nov.

Speckled trout, brook or river trout, 15th Sept. to 1st of May.

Bass, 15th May to 15 June.

Pickerel (Dore), 15th April to 15th May.

Maskinonge, 15th April to 15th May.

GAME.

Deer and caribou, 15th December to 15th September.

Moose, 15th December to 15th September.

Partridge, 1st February to 1st October.

Duck, 1st January to 1st September.

Woodcock, 1st January to 1st August.

Snipe, 1st May to 15th August.

Quail, 1st January to 1st October.

Beaver, 1st May to 1st November.

Fishing without licenses is prohibited. Each person guilty of violating these regulations is liable to fine and costs, and in default of payment is subject to imprisonment. No person shall, during such prohibited times, fish for, catch, kill, buy, sell, or have in possession any of the above mentioned kinds of fish or game. Game cannot legally be disposed of one month after the beginning of the periods limited for their protection.

Don't all go West.

Advice from an Eastern Man in California.

(*San Francisco Letter.*)

There are yet many wealthy men living in San Francisco, who have made their fortunes; and on the other hand, there are thousands here who once were very wealthy, but who have become very poor. Where wealth is accumulated quickly there are, of course, many opportunities to lose it quickly. The man who comes to the Pacific coast and expects to double immediately into wealth is quite liable to be disappointed. The country is overrun with adventurers, and thousands of them have no occupation. California is a poor place to come to look for work. You can scarcely walk along the streets without being asked by some person for a bit with which to buy something to eat. Almost all the men in this country who are now wealthy once were very poor and fought and struggled in very humble positions. San Francisco is overrun with boys from the east who have come here expecting to find some soft job. If a young man with good health, however, and has ready to turn his hand to most anything, he can make a good start. It requires pluck and perseverance to succeed in California.

Being myself a young man as you think I started out a couple of years ago in San Francisco. My capital was about $2,000 on arriving here, and although I could get a chance to do, and being whatever he could find a landlord who would keep him. But he was plucky, and after a while he bought a ship. He finally went over to the Sandwich Islands and came back and delivered a lecture on them. This made him prominent and after that his efforts were appreciated and his name became famous. So it was with John Harte and many others. Brain-handling has raised more people in this country than it has made.

A Thrilling Narrative.

The following, says the Yarmouth, N. S., *Herald*, is an extract from a letter recently received by one of his friends from Captain Angus Smith, of Barrington, master of the barque Forrest, of St. John, N. B. The events happened on a passage from Baltimore to Londonderry :—

"When you get this get down on your knees and thank God that we are alive to-day, for I have passed through the most trying scenes of my life. This has been the roughest passage without exception, that I have ever made across the Atlantic, and I have crossed a great many times. Gales of wind we don't mind so much when we have a good ship under us and plenty of sea room. But there are other dangers. We had nothing but a continuation of gales from the time we passed Cape Henry until we arrived here. But that was nothing. On Tuesday the 11th of February, a day to be remembered by me as long as I live, it blew a terrific hurricane, the seas rousing mountains high, our ship laying to with only the lee clew of the mainsail and canvas in the mizzen rigging, upper dead-eyes in the water most of the time, expecting to, have to cut away our masts every minute. One sea broke on board, smashing the skylight and cabin door and windows, filling the cabin with water, breaking the stove and cotton washing the panels out of the fore cabin, and destroying nearly all of our dry stores. I had to get casks of oil over the sides to keep the ship from foundering. It was the heaviest gale of wind and roughest sea I ever saw. But that was nothing. At two o'clock at night, in the darkness, and fury of the storm, a light is seen under our bow, which proves to be from a large ship laying to on the port tack. We were laying to on the starboard tack. The sight was fearful. The two ships were coming together, and soon as they struck both must go down instantly. Can you imagine our feelings, expecting every moment to be our last? The scene was terrible. No pen can describe it. The crash comes. We pass on the weather side. Not a voice is heard from either ship. Every one is waiting his doom. But God in His great mercy heard our prayers and saved us. Our yards caught the other ship's rigging. The foreyard and maintopsail yard broke in halves. The mizzen topmast and rigging were carried away but the hull never touched. Had they struck but once both ships must have sunk in mid ocean; and not a soul could have escaped to tell the tale. How they went clear, God only knows, for I cannot tell. The thought of it now makes me tremble."

The Price of Corn.

How it Works Both Ways.

The following from the Burlington *Hawkeye*, conveys a sound moral in a merry way, and after being laughed at may as well be soberly pondered by farmers and others who are slow to see that the laws of trade "work both ways." "No," the honest farmer remarked, in tones of the deepest dejection, "the big crops don't do us a bit of good. What's the use? Corn only thirty cents. Everybody and everything's dead set agin the farmer. Only thirty cents for corn. Why, it won't pay our taxes, let alone buy our clothes. It went buy us enough salt to put up a barrel of pork. Corn only thirty cents! It's a swindle on the farmer, that's what it is. It ain't worth raisin corn for such a price as that. It is a mean, low robbery." Within the next ten days that man had sold as much more of his corn than he had intended that he found he had to buy corn to feed through the winter with. The price nearly knocked him down. "What?" he yelled, "thirty cents for corn! Land alive—thirty cents! What are you giving us? Why, I don't want to buy your farm, I only want some corn! Thirty cents for corn! Why, I believe there's nobody left in this world but a set of graspin', blood-suckin' old miscrs. Why, good land, you don't want to be able to buy a national bank with one corn crop! Thirty cents for corn! Well, I'll let my carriage horses run on corn stocks all winter before I'll pay any such unheard-of, outrageous price for corn as that. Why, the country's flooded with corn, and thirty cents a bushel is blamed robbery; and I dont see how any man, looking at the crop we've had, can have the face to ask such a price."

A Secret Worth Knowing.

Some horse dealers have discovered that by the use of 'Darley's Condition Powders and Arabian Heave Remedy' their horses are so much improved in every respect that they will readily sell for from $25 to $60 each more than they would otherwise, and at a cost of not more than $1 each. We consider this a secret worth knowing, and one which all who own horses should not fail to profit by; it is unquestionably the best horse medicine ever sold. Remember the name, and see that the signature of Hurd & Co. is on each package. Northop & Lyman, Toronto, Ont., Proprietors for Canada. Sold by all medicine dealers

Is Your Throat Sore?

Is your throat sore, are you annoyed by a constant cough? If so, use promptly 'Bryan's Pulmonic Wafers.' They will give you instant relief. They relieve the air passages of phlegm or mucous, and allay inflamation, and no other remedy can be had for coughs, colds, or any complaint of the throat or lungs, and if taken in time their efficacy will soon be proved. Sold by all druggists and country dealers at 25 cents a box.

The Tories and Lord Lorne.

(*From Sir John Macdonald's first Speech.*)

I waited on the Governor-General and informed him that after the resolution of the Senate adopted at the last session of Parliament, and a resolution of the House of Commons during the present session, it was the opinion of His Excellency's advisers that the confidence of Mr. Letellier, as Lieutenant-Governor of Quebec, was gone, and advised him that in the public interest it was expedient that he should be removed from his office. His Excellency thereupon was pleased to state that as the Federal system introduced under the British North American Act of 1867 was until then unknown in Great Britain and her colonies, there were no precedents to guide us to a decision in the present case and settle for the future relations between the Dominion and Provincial Governments, so far as the office of Lieutenant-Governor was concerned, and therefore he deemed it expedient to submit the advice offered him and the whole case, with attendant circumstances to Her Majesty's Government for their consideration and instructions.

(*From Mr. Cauchon's Speech.*)

He did not wish to blame the Government for what had been done, but he rose as a representative of the people, whose rights he thought [illegible] the case of the Dominion as having been trampled upon by the [illegible] by the Governor-General, who, he believed, had acted unconstitutionally. The Letellier question—the Quebec question, as it was called—had now entered on a new phase. This was no longer a party question regarding which dog-eat-dog in opinion; this question had gone up, disapproved from the face of the Dominion. The present issue was this:—The Governor-General who was now Governor-General had believed, or had acted so as to lead them to believe, [illegible] that he had the authority to refuse the advice of his Ministers in regard to a matter of local importance, one purely of simple administration, regarding which Imperial interests were not in the least concerned, and which, according to their knowledge, at least in his own humble opinion, ought to be settled by this Government—by His Excellency under the advice of his Ministers.

(*From Sir John Macdonald's second Speech.*)

I would have been pleased, I would have been gratified, and I think it would have been well if our advice had been at once accepted. I thought so, and we unanimously thought that it would have been for the interests of the country that Mr. Letellier should be removed. That advice has not been rejected; but the representative of the Queen, who is the first estate in this land, has said that he would like to submit this matter to his Sovereign and to our Sovereign, and to ascertain what the advice of the Sovereign would be. We are just as safe, sir, in the hands of the Queen, as we are in the hands of the Queen's representative.

(*From Mr. Mousseau's Speech.*)

The new Governor-General was here, and he thought His Excellency must be taught a lesson.

(*From the Ottawa Citizen.*)

We feel that His Excellency's decision, dictated as we have said by motives at once honorable and conscientious, to refer the matter to the Imperial authorities is unfortunate. It at once suggests the question, "Have we, as Canadians, any individual power to make precedents applicable to our system of local self-government, and must all inter-Federal irregularities, if the term may be so employed, be remedied by our own constituted authorities, or by Imperial law officers?"

(*From the Montreal Gazette.*)

There have been evidences of the most painful character lately of the tendency towards the revival of personal as distinguished from responsible or parliamentary government, and it may be that the old battle, which was so heroically fought, and, as everybody supposed, won, may have to be fought over again. If this is the case, we have no fear for the result.

(*From the Ottawa Herald.*)

The whole thing only serves to show how anomalous is our quasi-independent position, and how at any moment the attenuated bond of British connection may be snapped apart. We are not among those who are afraid to look this issue squarely in the face. It must come sooner or later. Perhaps this crisis may bring it on sooner than was expected.

(*From the London Herald.*)

A young man of mediocre ability and no legislative experience, he was sent to Canada to remove him from the very unpleasant position to which Court etiquette compelled him to submit. On public occasions he could not walk beside his wife, and dare not even venture to sit down in her presence were any other member of the Royal Family present.

(*From the Quebec Canadien.*)

The act of the Marquis of Lorne is one of arbitrary interference in the exercise of responsible Government in Canada. Nothing can justify it. We shall have to bid adieu to popular liberties if the will of Parliament can be thus fettered continually by he who represents the Crown in our midst.

(*From the Hamilton Spectator.*)

It is safe to say to his Excellency respectfully, and at the same time firmly, that this is a constitutionally governed country in which the Queen reigns only, and that the step he has now taken is one which cannot be looked upon as having any other than a dangerous tendency.

(*From the Montreal Minerva.*)

We have now two outrages instead of one. That's all, and the young man who represents the Queen at Ottawa is no better than the pirate who represents the Queen at Quebec—and England demands our affection!

(*From the Toronto Mail.*)

The action of the Governor-General was an unexpected exercise of Executive power. So was the act of Governor Letellier.

(*From Sir John Macdonald's third Speech.*)

I beg leave to state to the House that the Hon. Postmaster-General, my colleague, will sail by the next Canadian steamer to England for the purpose of supporting the advice given by the Government for the removal of Lieutenant-Governor Letellier. He may, perhaps, be accompanied by another gentleman. At all events, he goes next Saturday. I need scarcely say, *Mr. Speaker*, that the fact of our holding the position we do at this moment shows that the Governor-General did not make that reference against our advice, and the fact of our remaining in office shows that we hold ourselves responsible for the act of the Governor-General.

General News.

The first boating spin of the season has been taken on the bay at Toronto.

The ice on the river at Belleville broke up 44 days later this year than last.

Wm. Roe, one of the York pioneers, died at his home, Newmarket, on the 7th instant, aged 84 years.

In Halifax, the other day, a boy was fined $40 for stealing $76; thus making $36 by the transaction.

The Berlin Town Council is sued for $1,500 damages by Mr. F. Colquhoun, on account of injury to his property caused by the filling up of the road in front of it. The matter is left to arbitration.

On the 1st of April the new cash system came into force at Winnipeg. The day before all branches of trade did a large business, everyone getting a good supply on the credit system.

Last fall a carpenter in St. John's Ward, Toronto, started to build a boat in his cellar, devoting all his leisure moments to the work. The boat was finished a few days ago, when the carpenter made the crushing discovery that he could not get the craft out of the cellar. He finally solved the riddle by taking away a portion of the side of the house.

The Waterloo train lost its passenger coach the other morning a little way from the station, and the driver not missing it ran into the main line at Berlin and got his engine off the track. The brakeman had been left behind on the passenger car, which accounted for the train running too far.

At Springfield, Ill., the other day, one of the members of the Legislature was complaining of his room at the hotel, and saying how barren it was of the ordinary conveniences of life. "Why," said he, with indignation, "there isn't even a Bible to rest your razor on!"

A one-armed street singer was lately canonized in Paris, and his body was followed to the grave by 300 beggars.

The Port Hope *Guide* calls the editor of the Cobourg *World* a 'thing.' Brotherly love and professional courtesy will ever be triumphant in spite of the great consequence of Ab.

Two gentlemen recently shot 170 ducks and 17 geese in two days at the St. Clair Flats.

An action for $2,250 damages has been entered by Richard A. Foster, of Picton, Ont., against John Taylor, official assignee.

One day last week a lad eleven years old, named Pendle, living in Hespeler, stole a watch from the pocket of a gentleman in a doctor's surgery, while the gentleman was absent in a room with the doctor. He afterwards confessed, and was sentenced to jail for ten days.

A young gentleman of Oakville recently attempted to walk a mile in ten minutes, but failed to do so by half a minute.

A man at Sharon recently cut 300,000 shingles in 17 days. This is on an average nearly 18,000 per day.

The employees of the Ottawa Post Office are pitted against the employees of the health in that city for a three hours' walking match.

There is every probability of a strike amongst the sailors at Port Hope. The men hold out for $35 per month, but the masters only offer $16.

Young Davis, who recently participated in the twenty-mile race at the Hamilton Drill Shed, was offered the magnificent sum of $1.40 by the management at the conclusion of the race.

A young couple whilst walking along the track near Bowmanville engaged in the agreeable occupation of sparking, their attention was suddenly diverted from each other by being precipitated into the cattle guard, which in their all absorbing occupation they had not noticed.

The ice on the bay at Kingston is still solid, but there are occasional soft spots to be found. A farmer recently found one of these as he was crossing the ice-bridge with his team of valuable horses. The horses were, with difficulty, saved.

The managing committee of an entertainment in one of the Kingston churches recently constituted to admit children to the show free. To show their appreciation of the munificence of their entertainers, some of the youngsters deprived one lady of her cardinal red silk handkerchief and another of a valuable pocket-book, with a small sum of money in it.

Arthur township by-law for $10,000 to the Arthur Junction Railway was carried on Friday by a majority of seven. There was great rejoicing at the village over the result, as this completes the financial scheme for the building of the road.

A cow recently gave birth to a strange freak of nature at Stayner in the shape of a calf with two faces. The body is perfectly formed, but the head has two mouths four eyes, but only two ears; it takes food in either mouth, and swallows it without difficulty.

The Reformers of Grenville have renominated the Hon. C. F. Fraser as their candidate at the approaching election for the Local Legislature.

Winter lingers in the lap of spring, as it were.

The University race was won on Saturday last by Cambridge, whose crew came in two lengths ahead.

At a public meeting of the Council, held April 4th, it was decided to hold the celebration of the inauguration of the city of Guelph on the 23rd inst.

Reports from the unfortunate city of Memphis indicate that the most of the better class of citizens have made their arrangements to spend the summer at the North, in the anticipation of an epidemic, when the warm weather comes.

The thirty-sixth contest between Cambridge and Oxford came off to-day (Saturday), and was won by the former in splendid style.

It is stated that the Pope sent an autograph letter to Queen Victoria welcoming her to Italy.

A raid was made on a gambling den in the neighborhood of the Don, Toronto, and the proprietor fined. A number of respectable young men are said to be implicated.

The Reformers are hard at work in Toronto canvassing and organising.

The Merchants' Bank of Canada has recovered the greater part of the money stolen from it by it's Owen Sound manager and a confederate last Christmas. It is said Scott, the manager in question, has also become insane as well as Wilder, his confederate.

The excitement attending "the great walking contest" at Gilmore's Garden was not by any means lessened when suddenly one evening a portion of the gallery, densely packed with spectators, fell with a great crash upon the crowd beneath. There was at the time not far from 10,000 people in the Garden, and a disorderly throng, noisy and unmanageable, surged around the entrance. The excitement that followed the accident was intense, and it seemed at first as if a deadly panic was inevitable. It was little short of miraculous that only about fifteen persons were injured by the wreck of the gallery. As soon as the excitement had been somewhat quelled, the wounded removed, and the debris cleared away, the pedestrians resumed their walk as if nothing had happened; and the result of the noted "six days' walking match" has since been discussed all over the country by those who favor as well as by those who disapprove such contests. Whatever possible benefit to individuals, or to mankind in general, may result in walking matches, it seems manifest that entertainments which attract rough and disorderly crowds—whether inside or outside the show-room—and which cultivate in the spectators a fondness for mere physical endurance, regardless of injurious results, can not have a wholesome influence. The necessity of physical culture, the advantages of abundant exercise, and the importance of American men and women increasing their bodily strength and vigor, are indisputable; but do walking matches, as now conducted, accomplish or even tend toward these results?—*Harpers Weekly.*

Mitchell's Bellandeen Improved India Rubber Porous Paster.

There never has been a time when the healing of so many different diseases has been created by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when scientifically compounded, is full of electricity and when combined with the pure medicinal gums, is found to be one greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of RHEUMATISM, TIODOLOREUX, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a long fasted Consumption.

Prepared by GEORGE E. MITCHELL Lowell Mass

The Great Shoshonees Remedy

The Great Shoshonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicine plants and herbs; the various properties of these different ingredients, when combined as so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys digestive, Organs, Nervous System, &c., restoring their functions to healthy action, and being purely vegetable, is as harmless as nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and cleanses the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds at competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a summer restorative it stands unrivaled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to Bilious Colic, Dysentery, Indigestion, &c., should take the Shoshonees Remedy. Price of the Remedy in pint bottles $1; Pills, 25 cts. a box. Sold by all medicine dealers.

MONEY TO LEND.

The Peterborough Rea Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly; or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table :—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$23 40	Each.
"	6	"	"	20 00	"
"	8	"	"	17 75	"
"	10	"	"	15 95	"
"	12	"	"	14 60	"
"	15	"	"	13 00	"
"	20	"	"	10 60	"

In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

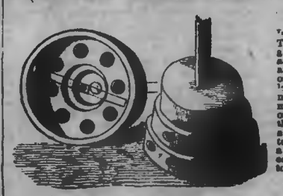
MESSRS. POUSSETTE & ROGER,

AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.



(*Patented July, 1878.*)

Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than any thing of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed,—no machinery about it to get out of order.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a revered Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very distressable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister,

Fort Elgin, Ont., Aug. 24, 1878.

Ask for Littlehale's Constitutional Catarrh Remedy and take no other.

MANHOOD:

HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York.

Post Office Box 4586. 2-1y.

TO CONSUMPTIVES.—The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address R. A. WILSON, 149 Penn St., Williamsburgh, N. Y.

PILES.—Dr. Fahrney's Celebrated Pile Ointment is known for Piles of every kind (*Bleeding, Itching, Blind, Protrud, Etc.*) and all diseases of the rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Thousands are daily [illegible] to it. No surgical operation required. Try it and relieve your suffering. Sent by Mail for a large Box for $1. Address [illegible] and receipt of price. For sale by all druggists. Dr. J. ASHER, 39 Ann St., N.Y. 20-6m

PIMPLES.—I WILL MAIL (FREE) the receipt for a Vegetable Balm that will remove Pimples, Blotches, Blackheads, Flesh Worms, Skin Rash, Chapped Hands, Rough Skin, Scurf, Dandruff, Itching Humors, Scaly Eruptions, and Baby Blemishes, leaving the skin clear, soft and beautiful. THE SHOOTING CASE.

E. H. Roddy's Trial for the Shooting of William Montgomery.

A TRUE BILL OF MURDER FOUND BY THE GRAND JURY.

The Petit Jury failing to Agree, are Discharged, and the Prisoner admitted to Bail on his Own Recognizance.

Ever since the night of the 14th of December last, the date of the said occurrence, whereby the unfortunate William Montgomery came to his death, public speculation has been rife as to what punishment would be inflicted upon the Hawkes [illegible] man as whose hands this accident met with his untimely end. As the time of the trial drew near this feeling grew more intense and when it became known that the Grand Jury had brought in a true bill of murder, the excitement intensified, and on Thursday morning, the day set for trial, the court room was filled at an early hour to its utmost capacity, in fact so much interest was manifested that large numbers had to go away unable to gain admission to the building. Upon opening the court the prisoner, who had been committed to jail the previous day upon the finding of a true bill by the Grand Jury, was placed in the docket and the indictment of the crime of which he was charged read over to him, and to which he pleaded "not guilty."

Jas. Henderson, Q.C., of Belleville conducted the case on behalf of the Crown, the Hon. Sidney Smith, Q. C., appearing on behalf of the friends of the deceased. The prisoner was defended by Hector Cameron, Q. C., of Toronto, and W. H. Scott, Q. C., of the firm of Scott & Edwards of this town. After a number of jurymen (about fifteen or sixteen,) had been challenged by the counsel on both sides, the following were sworn in as

THE JURY.

George McKeiver.	Jas. D. Buck.
Horatio Conning.	Wm. Roseberry.
George T. Emon.	Davis Porter.
Alex. Gillespie.	Jno. Thompson.
Wm. Leonard.	Wm. Harper.
John Bailey.	Gabriel Doman.

OPENING ADDRESS BY QUEEN'S COUNSEL.

In opening the case Mr. Henderson addressed the Jury, stating that the case was of a most serious character and required their careful attention. The charge of murder implied that the killing had taken place after premeditation or with malice aforethought. It was not necessary for the crown to prove malice—it rested with the prisoner's counsel to refute or disprove it. But the crown was prepared to prove from threats that had been made that there was malice. Witnesses would be called to prove that the prisoner had threatened to shoot Montgomery, and although his learned friends for the defence might say those were idle threats still the animus may have been lurking in the mind. He then recounted the circumstances of the murder in detail, and wished the jury to remember that while he would admit Montgomery was a violent man,—a man of strong passion while under the influence of liquor,—a fact of which the prisoner must have been cognizant, he had been a guest and visitor at the prisoner's hotel, that he was in the habit of staying there, that he had been taken into the prisoner's confidence, and was in partnership with him grooming an entire horse. These facts might be used in argument by his learned friends to show that there was no malice, but he mentioned it so that the jury might carry it with them to show that there may have been a motive in the act of shooting in this particular case. The crown proposed to show that at no time during the occurrence was the prisoner unable to leave the house, and that had he been a prudent man he would not have remained there. If the crown established this, and showed that Roddy was not driven to the extremity of taking a life—that he could have avoided it—then it would be their duty to bring in a verdict of murder. The crown proposed to establish that this was a case of murder, that 25 or 30 people who were within a few yards of the room, were kept outside while the quarrel was proceeding, and till after the fatal shot was fired. Evidence no doubt would be brought forward to show that after the deceased was shot Roddy showed signs of repentance and went for a doctor. He would be sorry to say anything to prejudice the prisoner, by all means let him have the benefit of every doubt, but it was his duty to see that justice was fairly meted out. It rested with the jury to weigh well the evidence, and bring in a verdict accordingly.

EVIDENCE FOR THE PROSECUTION.

THOMAS FORTYE, sworn, said, I live in Peterborough and have known the prisoner at the bar for years. Knew Montgomery by sight. Saw him last alive on the evening of the 14th of December last, about half-past six. At the time of the row I was in Bertram & Co's back store, which is adjacent to Roddy's. My attention was drawn by the noise at Roddy's. When I came out I saw Leplante.

[The Crown Counsel here produced a plan or draft of the bar-room, hotel and yards in rear, and requested witness to point out the place where he was standing. It was then passed to the jury, who had the position of the doors, counter, &c., in the bar-room pointed out to them.]

Leplant was standing at the door and told me not to go further as there was likely to be a row. I could see Roddy behind the bar. I could only see Montgomery's hands, when he struck the counter. Could not see Allen, who was bar-tender for Roddy. Montgomery was talking in a very loud voice. Could not distinguish what was said. I was standing about a minute, when Montgomery either threw or shoved a brass coffee pot that was sitting on the bar at Roddy. Roddy then drew a revolver and fired across the counter. Could not tell at what. Allen was outside the counter, on the same side as Montgomery. After the shot was fired Roddy commenced to move to the end of the bar. Montgomery then sprang on the counter on his hands and knees. Roddy then fired the second shot. Did not wait to see whether Montgomery was shot or not. Leplante left at the same time I did. Could not make out any thing Roddy said except telling him to shoot both. Didn't know what character of cartridge Rochford being the first shot was fired, but think he fired no blank cartridge. Could not possibly have escaped without Montgomery catching him.

Cross-examined by Mr. CAMERON,—The character of the language Montgomery was using at the time was violent. Could not say what the words were. Saw the bottle knocked off the counter. The bottle was a brass one. Its size was about 18 inches in length by about 10 or 12 in diameter. It contained hot liquid of some kind. Montgomery was on his hands and knees, apparently stooping down towards Roddy when the second shot was fired. Could not say whether Montgomery had hold of Roddy. After the second shot was fired I went away. I was standing in the yard at the rear of the bar-room, in the open air. There was ice on the ground. If Roddy had run out he would have found it difficult to escape falling, and Montgomery most likely would have caught him.

Cross-examined by Mr. HENDERSON,—Montgomery was on his hands and knees on the counter when the shot was fired. He could easily have reached Roddy. I did not see him catch Roddy.

EDMUND ALLEN, sworn, said, I was in the employ of Mr. Roddy as bar-tender on the 14th of December last. Knew deceased for a number of years. Sometimes Montgomery would stay at Roddy's and sometimes not. Montgomery travelled an entire horse for Roddy. The horse belonged to Roddy. Montgomery paid expenses and got half the profits. There had been a settlement. A dispute occurred on the night of the 14th of December, about the amount due Roddy. Roddy told Montgomery if he would pay him he would throw off $25, and would give him a receipt in full upon payment of $75. The first time I saw him that day was about 2 o'clock. Gave him a drink then. He came into the bar at about five or ten minutes past six. There were a number in the bar room at the time—perhaps a dozen or more. The first I heard of Montgomery was when he accused Roddy of stealing a bottle of whiskey. After some talk the party who took the bottle, gave it to him and told him he took it in a joke. Montgomery said he would allow no man to do that to him. I could not say whether Roddy asked Montgomery to leave the bar before he asked the others. They all left except Montgomery. Roddy closed the front door and, I think, barred it at the time. When Roddy ordered the crowd out, some went outside and some went into the sitting room. From the end of the bar to the sitting room door is about five or six feet. The sitting room door was locked, but could not say who locked it. The front door was barred also, but the back door was open. I opened the back door to go out, and when I returned did not close it. After the people left, Roddy still insisted on Montgomery's leaving, but Montgomery said he would not—that he did not give a d——n for him or any landlord in the country. Roddy then said he would send for a constable, and Montgomery said he did not care for him or the constable. The door to the sitting room was not then locked. After Roddy said he would send for a constable Montgomery became very much enraged, and took off his coat. When Roddy returned to the bar room from the sitting room, Montgomery made towards him and took hold of a marble match box that was sitting on the counter. He had it in both hands, and when about to throw it, said "You son of a b——h, I will kill you." I caught his arm and the box fell. Leplante then came in and endeavored to get Montgomery out, and while doing so was struck by Montgomery. I told Leplante I would try and get him out. Montgomery then threw a tumbler at Roddy but missed him, and afterwards struck the coffee kettle containing hot water and hot coffee, and knocked it off the counter towards Roddy. There were tumblers and decanters on the kettle, which were knocked off at the same time. Could not see Roddy then for steam. Did not see Roddy with a pistol in his hand. A pistol was always kept in the bar. It was there before I went to live at Roddy's. Had never examined it. The first shot was not fired at Montgomery. It passed between where Montgomery and I were standing, and over our heads. After the first shot was fired Montgomery jumped on his hands and knees upon the counter, threatening all kinds of vengeance. When the second shot was fired—which stunned Montgomery, Roddy ran out and Montgomery followed, and and slipping on the ice at the back door, fell. He then came in and said, "My God, Ned, I'm shot." He asked for a drink and I gave it to him, after which he asked to be taken to bed. Roddy and some one else went for medical aid, after which Roddy gave himself up, and Montgomery was removed upstairs to bed. The revolver was given me some time afterwards by Charles Ridley. I did not feel alarmed for my life, but was afraid Montgomery would have killed Roddy. He was terribly enraged and appeared like a wild beast. I was afraid if Montgomery had caught Roddy he would have killed him. It never crossed my mind to call in assistance at the time. Could not say who locked the door going into the sitting room. Roddy put the key into the door, but could not have locked it, as when the door was shut the key would be on the sitting room side.

Cross-examined by Mr. SCOTT—Roddy asked for some one to go for a constable, and afterwards went out into the sitting room. When he came back he went behind the bar. When Roddy left to call a constable, Montgomery took off his coat and hat. He appeared very furious after this, and was like a wild beast. [The match box was here produced and handed to the jury for inspection. It weighed 19 pounds.] He was using blasphemous language and threats. [The language here repeated is unfit for publication.] After he attempted to throw the match box at Roddy he ran around the end of the bar to get behind it, and Roddy had to jump over the counter. He then came out and Roddy jumped over again. This was repeated three or four times. It was after this that the coffee kettle was knocked over. After coming out from behind the counter he kept close to the counter and attempted to catch Roddy. It would have been impossible for Roddy to have escaped. The outside front door was fastened from the inside. The doors opened one in and the other out, leaving a square space between the two. About five minutes elapsed from the time the row commenced till the shots were fired. Roddy was sentenced and subsequently Montgomery was a very powerful man, and took Roddy and I would have been nothing in his hands. He would not have needed any weapon to have caused bodily harm to Roddy. Have attended bar for Roddy for about two years. Montgomery had the reputation of a fighting man and a bully. Had heard of several escapes in which he had been. Roddy must have known him to be such a character, and was aware of deceased having been sent to Central prison for an aggravated assault.

[The Crown objected to these questions, as being outside of the charge. The prisoner's Counsel contended they were for the purpose of showing that deceased was a dangerous man.]

Cross-examined by Mr. HENDERSON—Roddy jumped over the counter and back again three or four times. He could not have escaped. Roddy did not have his coat off that evening. The bar was about three feet or upwards in height.

THOS. LEPLANTE, sworn, said:—He lived in Peterborough and knew the prisoner, and the late Wm. Montgomery. Remember the evening of the 14th of December. Was in the sitting room about half past six. I went into the bar from the sitting room, and had just entered when all were ordered out. I returned by the sitting room and met Mrs. Roddy who was crying and asked me for God's sake to go in and get Roddy out, as she was afraid Montgomery would hurt him. I then went out through the kitchen into the yard, and from that to the bar. When I came into the bar, Roddy and Montgomery were arguing about some money. Roddy said, "Bill you owe me $100; give me $75 and I will let you off." I tried to get Montgomery out, when he turned around and struck me. I then went outside and watched what was going on in the bar-room. Heard Roddy say "stand back, or I'll shoot." Shortly after Thos. Fortye came up and I told him to go no further as I thought there would be shooting. Heard loud words between Roddy and deceased and saw the coffee-kettle thrown off the counter. Heard the first shot fired, and shortly afterwards heard the second. Did not see Montgomery pick up the match box. Roddy had his coat on. When I first went in there were between 20 and 30 people present. When I was outside I saw Roddy jumping over the bar three or four times, and Montgomery pursuing him. I did not see Roddy attempting to get out of the back door. Could not say what language Roddy was using to Montgomery. Could not say whether the people were in the house or not. Don't know whether the room door was locked or not. Could not say whether Roddy might have escaped. Montgomery was very close to him. Heard no call for help, but heard Roddy ask some one for God's sake to go for a constable. It was not a severe blow Montgomery struck me. When he struck me I was trying to get him out of bar.

Cross-examined by Mr. SCOTT,—I was standing near the back door when Montgomery struck me. When Montgomery left me he made for Roddy. He made a race for him behind the counter. Roddy jumped over the counter and Montgomery jumped after him. Roddy jumped back again, and Montgomery followed. Roddy was near the end of the counter when Montgomery first attempted to catch him. This jumping took place before the coffee-kettle was upset. Roddy would have been running a risk had he attempted to get out. When I first went in Montgomery was quiet, but afterwards became violent. Montgomery had the reputation of being a fighting man.

The Judge here remarked that there could be no charge of murder shown, and that further evidence to establish threats having been previously made could not be entertained on a charge of manslaughter.

JOHN MINORE, sworn, said:—I live in Peterborough, and remember the night of the 14th of December last. I left work and when proceeding home I met two men who said there is going to be a row—Montgomery is there. I opened the door and heard deceased's voice. I spoke to him, and he answered saying, "Hallo, candy man." I asked him to come out. I was speaking to him about something that occurred the previous night at Bridgenorth. He said he was going to have satisfaction. I asked him to leave, saying he had a dangerous weapon in his pocket,—referring to a black bottle. Don't know what was in the bottle. Deceased had on his overcoat, and I took the bottle from him.

Cross-examined by Mr. CAMERON,—I heard only one shot fired. After I took the bottle out of his pocket I left it in one of the stalls. I came back and heard deceased accusing Roddy of taking the bottle. I said, "William, I have your bottle, come and tell me your grievance." Roddy was trying to get him out of the bar, and Montgomery refused, saying he had never been put out of a bar-room and he never would. He was indulging in strong language. Did not hear him threatening Roddy. Montgomery bore the reputation of a dangerous man when under the influence of liquor.

DR. R. W. BELL, sworn, said:—I am a medical practitioner, and reside in Peterborough. I held a post mortem examination on the body of the late Wm. Montgomery. Dr. Kincaid was the first physician attending and sent for me to assist in attending him. I only made a slight examination of the wound, as Dr. Kincaid had probed it before I arrived. The shot entered the right breast, penetrated the liver and finally lodged in the vertebræ. Dr. Hoodgen assisted me in making the examination. I found the body in a perfect condition.

Cross-examined by Mr. CAMERON,—He was a powerful man, and I found all the organs healthy, except as far as they were injured by the ball.

DR. R. KINCAID, sworn, said:—I am a medical practitioner and a Coroner for the County. I attended deceased after he was shot. I found a bullet wound, and at the time supposed the direction that the bullet had penetrated the liver. When I was first called on to the Montgomery, he stated on my opinion of his case and I [illegible] it would be fatal and that he had better prepare for death. He said these words [illegible] a statement. He did not appear to realize the danger. Deceased made a statement to Mr. Fortune, the magistrate who had been sent for.

Cross-examined by Mr. CAMERON,—Was present when the statement was made. He did not apparently credit my statement that his case was fatal. He had hopes of living as he said if a fire was kept up he would be all right. On Sunday afternoon he asked if there was no hope for him. He appeared to be anxious to make a statement, and asked to have those in the room removed. His mother did not leave the room, and I did not like to ask her to leave. He said he "was sorry for Roddy—sorry [that] it had happened; and that they [were] good friends." He seemed as though he desired to make a further statement, but did not do so. Deceased was the best built man he had ever seen.

Cross-examined by Mr. HENDERSON,—I think at the time the declaration was made he believed he was a dying man, although afterwards he rallied and said if they would keep a fire on he would get all right.

ROBT. FAIRBAIRN, sworn, said:—He was summoned to take a statement from deceased. Before taking the statement I asked him if he believed he was dying. The words "I think I am a dying man," were uttered in answer to my question to him.

Mr. CAMERON objected to this statement being put in as evidence, as the deceased had immediately after making the statement expressed the opinion that he would recover.

Mr. HENDERSON claimed that when the statement was made the deceased believed he was dying, and if afterwards he rallied and had hopes of recovery, it did not affect the case.

His Lordship thought from all the circumstances it would be unjust to admit the statement as evidence, and quoted precedents to establish his ruling.

GEORGE JOSEPHUS, sworn said:—I am Chief Constable of the town of Peterborough. Remember the night of the 14th of December. I was at Roddy's Hotel. When I entered there was a crowd of people. They were all excited. Some said Roddy was shot, and others said Montgomery was shot. When I entered the bar I saw Montgomery, who said, "George, I am shot," I laid my hand on his shoulder and said "you are not shot." He said 'I am'. He had neither hat nor coat on. I afterwards saw blood on his shirt, and then believed he was shot. Roddy then came in and said, "I did it, I give myself up." I hurried to get a medical man, and got Joseph Green to drive me up to Dr. Kincaid's. When there, and waiting for the doctor to put on his overcoat, Roddy came in after the doctor. Afterwards Roddy told me he could not help it, that he believed Montgomery would have killed him. I have arrested Montgomery several times. He never showed any opposition and always came with me quietly.

JOHN CRONIN, sworn, said:—I was at Roddy's tavern the night Montgomery was shot. I believe I was the last man who left the bar-room, when Roddy ordered the crowd out. I had a quarter of mutton with me, and Roddy offered to make a bet as to the weight. I told him I had no money and would not make a bet. Montgomery

The Examiner.

PETERBOROUGH, APRIL 24, 1879.

OUR LOCAL INDUSTRIES AGAIN.

The pottery business, garden stuff, agricultural implements, machinery, carriages, the produce trade and our merchants, are the different local industries, we have yet to notice of those interviewed by the *Review* man, and from which he endeavours to get a verdict favorable to the working of the N. P. It is not because we attach any particular importance to the opinion of the interviewer, or value the correctness of his deductions, but because the subject itself is important enough to warrant its discussion. First, then, we have

THE POTTERY BUSINESS,

as to which our interviewer asks Mr. Robt. Westcott how he likes the *N. P.*, and the answer is "he didn't think it would help prices any." This is satisfactory enough to the purchasers of pottery,—but Mr. Westcott thought it would increase annual sales. It seems the Rochester people send some flower pots over here, and the duty, being raised from 17½ to 25 per cent., is expected to keep them out. The total amount of both crockery and earthenware imported into the Dominion from the United States is $45,890, of which Ontario takes $37,359—not a very formidable amount, certainly, and, therefore we are inclined to coincide with Mr. Westcott's opinion that the additional 7½ per cent. protection to this industry will not help prices any.

GARDEN STUFF.

Mr. Mason is the authority under this head, and it would appear that gentleman's opinion of the N. P. has been changed since last September from "He couldn't see how it would do any good," to, "He doesn't think it will do any harm, anyway." If Mr. Mason continues advancing at the same rate in his opinions, the interviewer will be a very ancient looking individual indeed before he obtains much comfort from that quarter. But, stop; we had nearly forgotten that the great National Policy of making a differential duty on seeds in bulk and in papers is to have the effect of causing the papering to be done on this side of the lines—and our interviewer striking an attitude of mental wonder at its far-reaching effect remembers that the *Review* may come in for a share of the printing and consequent sale of paper. Passing along we meet some of our market gardeners, and again the question is put, "How do you like the N. P.?" "All right." Now, we submit, this is not definite, and it is no mazed up with the early and first-dish, helping to pay our taxes that we wish he would go a little deeper into this lode—evidently that part of his us e is not exhausted. Then we come to Mr. Stone—late Stone & Bailey—who replies to the question by a little pantomime,—pointing his thumb over his shoulder and shaking his head, which is very suggestive. Mr. Stone doesn't know what the effect will be, and has no good word to say for the N. P. If the interviewer will enquire more particularly at this establishment we have no doubt he will be told, what nearly everybody knows full well, that the business of importing early fruit and vegetables from the United States affects our home producers very little, the season in the United States being nearly over before it begins in Canada; and even the *Review* will not claim that those of our citizens who desire an early dish of strawberries should be denied the luxury because we will have some of our own four or five weeks afterwards.

AGRICULTURAL IMPLEMENTS.

If there is one class of manufacturers more than another of which we in Canada ought to be proud, it is our agricultural implement makers; and we have in Peterborough two establishments of provincial reputation. There was a third, of which the interviewer plaintively remarks "It has gone up." Was this because he himself had an interest in it? as he had in still another which also went up a few years ago. Considering the onerous and appalling taxation imposed by the N. P. on this class, we don't wonder the interviewer had some misgivings in approaching either. Both manufacturers, or his wife, might have a mortgage on the premises, and be ruined before he got out; he could not possibly have the heart to tell what up with that interest would have declined, that the commencement of the season found Napanee have commenced ploughing, and a few have done some sowing.

governments, and asked to take a seat; when his courage rose. They had not much faith in the N. P., which is altogether likely, when we consider the extra duties imposed on their business. Let us see what these are: The additional demands of the present tariff are: 50 cents per ton on coal, $2 per ton on pig iron, 12½ per cent. on bar iron, 12½ per cent. on bolts, nuts and washers, 30 per cent. on varnish, 7½ per cent. on paints, 7½ per cent. on oils, 7½ per cent. on rubber goods, and so on. We estimate it will cost Mr. Peter Hamilton the what material he uses, at least $1,200 per annum, and when iron goods rise to their ordinary price will be 25 per cent. more. The exports and imports of implements for the year ending 1878 were just about balanced. One noticeable feature being $82,430 exported to Australia, a trade just beginning. But the most hopeful feature to agricultural implement makers was the large orders received by some of them from Paris, where the reapers, mowers, &c., attracted great attention; and just when they were beginning to compete with the whole world successfully, down comes this protection tariff on their heads, crushing out in place of fostering this Canadian industry, while to add insult to injury, there is a pretence of giving them protection by charging 7½ per cent. additional on imported implements. All the mowers, reapers and threshing machines brought into Ontario last year was only $6,238 worth.

MACHINERY.

Mr. William Hamilton had the honor of a visit from the interviewer, as a representative of this important local industry, and his establishment is well worth a visit. His specialty is making saw mill machinery, and his reputation in this line is unrivalled for excellent work. He also manufactures other machinery, engines, boilers, &c., his work going to nearly all parts of the Dominion. This is one of our local industries that deserves our best wishes. Mr. Hamilton is characterised as an excellent mechanic and a keen, shrewd business man. His opinion ought to be worth something, but to use the words of the interviewer, it was "no go;" he would not be interviewed on the National Policy. "He did not like it, he does not like it, and he won't like it," says the *Review* man, "until he sees that it is a good thing." Rather a cool way to set over an adverse opinion. Mr. Hamilton has good reason to dislike the National Policy. He has no competition in his line from either the United States or Great Britain. His principal customers, the saw mill owners, are severely hurt by the National Policy, without any attempt at compensating them, and he has to pay additional taxes on all his raw material: coal 50 cents per ton, pig iron $2 per ton, 12½ per cent. additional on bar iron, boiler plate, bolts, nuts, files, &c. Taking a very moderate estimate of the quantity of material used, it will cost Mr. Hamilton at least $1500 per annum additional duty, and when iron goes up in price a great deal more. And this is the kind of protection afforded to one of our most valuable local industries.

CARRIAGES.

The carriage-makers with whom the interviewer converted were not much alarmed at the increase of duties on their raw material, and thought the increased duties on what was required for an ordinary buggy would amount to between one and two dollars. We would like very much to see the figures for this estimate, as after the most careful investigation the lowest figure we can place it at is between three and four dollars, and that, too, with carriage hardware lower than it has ever been in the present generation. The interviewer is careful not to give the name of the carriage-maker from whom he got his information. We know some of them in Peterborough who are terribly disgusted with the new tariff, the additional duties are 12½ per cent. on axles, springs, iron and carriage hardware of all kinds; 2½ per cent on hubs, spokes, &c.; paints, oils and varnish all taxed more or less; everything, in fact, they use except moss. We have sometimes heard the opinion expressed that a great many American carriages are brought into this country. We imported for the year ending 1878 into Ontario $21,234, and into the whole Dominion $85,634; while we exported $58,409, of which $18,730 went to the United States, and $20,344 to Australia. The trade from Australia came to us through our being represented at the Sidney Exhibition. Here we had an export trade begun in carriages as in agricultural implements, of a very valuable character, when in steps the National Policy again with its taxation on all goods used by carriage-makers, crippling them to an extent that will probably kill off the trade. And this, too, is called helping our local industries.

THE PRODUCE TRADE.

The interviewer here approaches Mr. Cluxton, no doubt with confidence, remembering that Mr. Cluxton advocated a duty on grain in the election of 1872. Well, Mr. Cluxton's opinion is favorable, and as we have been able to record no distinctly favourable opinion of the N. P. given to the *Review* questioner, we make him over this one, fully and freely. Mr. Cluxton says the N. P. is "Just the thing we want to build up the country. The duties could not fail to steady prices, and in many instances enhance them." We will be obliged if Mr. Cluxton will condescend to particulars, and inform his friend what particular articles of farm produce have been raised in price in the Dominion, over and above what they are selling at in other countries. Has wheat gone up 15 cents per bushel? Mr. Hilliard promised it would go up 20 cents. Has barley advanced 15 cents, or oats 10 cents, or peas 10 cents? Has pork or wool advanced on account of any change in the tariff? We will be glad to know it, and at the same time tell us how our millers are to be built up. The fact is the tariff will neither hurt nor help the local produce trade. They are simply middlemen, earning a commission on what produce they handle.

OUR MERCHANTS.

Under this heading our interviewer does not say who he examined but treats us to a mixed dissertation on tea, sugar and hardware, and a queer melange it is, something, like what he says of the duties on hardware, "rather mixed." Merchants as a class are not interested in the tariff the same as manufacturers, they buy and sell, and whether the article dealt in is dear or cheap, they must have their profit out of it. Tea, the interviewer says, is about the same duty as before, but he forgets to tell us that there is a differential duty imposed on tea coming from the United States, thus giving a practical monopoly of the tea trade to one or at most two importing houses in Montreal. Sugar, he says, has only advanced half a cent per lb., but, according to the opinion of those long in the trade, the new tariff will soon give us cheaper sugar, both manufacturers being refining. This is a question asked and about the opinion of which we intend to find what up with that interest would have declined, that the commencement

Mr. Hilliard's Maiden Speech.

On Friday last, Mr. Hilliard made his first speech in the House of Commons, the occasion being the debate on the duty of 50 cents per barrel on flour. He is reported as follows, in the *Mail*:—

"Mr. Hilliard, as one who was conversant with the milling interest, approved of a duty of 15 cents per bushel on wheat and 50 cents per barrel on flour. The reason why the duties were considered was that the duty on wheat would keep out of our own market the lower grades of American wheat, which entered our markets and displaced so much of our better qualities of wheat. This country had been overflowed with inferior grades of American flour. Under their system of milling and the markets they possessed they manufactured three grades of flour. They made a high grade which was only suitable for their own market, and from that manufacture they derived sufficient profit to enable them to carry on business. They could thus afford to send lower grades into the Dominion without nearly any profit thereon. But the duty of 15 cents per bushel on wheat would keep those grades out of Canada and keep the local market for our farmers. This duty was therefore a protection to the farmers. It gave our markets to our own wheat growers, and rendered it unnecessary for them to send their product to foreign markets, where it met with the competition of foreign wheat. Moreover Canadian millers could not send their flour to the United States in consequence of the 20 per cent. duty. In regard to the quantity of wheat necessary to make a barrel of flour, he said that with fair wheat and fair machinery, our millers would manufacture a barrel of flour from four bushels—fifty pounds to the bushel—and eight pounds. A few days ago a practical miller informed him that from the crop of 1877, a barrel of flour was made from four bushels and five pounds. With that quantity and the advantage of no duty on offal he considered the duties of 15c. per bushel on wheat and 50c. per barrel on flour were not inconsistent.

THE CENTRAL EXHIBITION.

A meeting of the Executive Committee of the Central Exhibition was held in the Police Court room, Peterborough, on Friday last, when the following gentlemen were present, viz:—James Campbell, President, in the chair, and Messrs. Porter, Bowmanville; Wilmot, Newcastle; Foot, Port Hope; Carruthers and Lapp, Baltimore; Deacon, Lindsay; and Ball, Cleveland, McClelland, Walton, and Dean, Peterborough. The President laid before the committee the bond of Mr. Toker as Treasurer, which on motion of Mr. McClelland, was accepted.

The Secretary stated that the West Riding Agricultural Society had passed a resolution guaranteeing the $700 required under the Millbrook resolution.

Mr. CARRUTHERS presented the following resolution from the West Northumberland Agricultural Society, viz:

Moved by JOHN PRATT, seconded by GEO. COCKBURN,—That this Society, along with the Township of Hamilton Society, will and do guarantee to the Central Exhibition to be held at Peterborough, the sum of $100 as proposed at the late meeting held at Millbrook on the 5th inst., provided that no party shall be allowed to exhibit at the Central Fair unless they are a member of one of the contributing societies in the district comprising the Central Exhibition.

Objection was at once taken to the condition attached to this resolution, as unnecessarily contracting the number of exhibitors even to the length of prohibiting those who were willing to pay $2 to the funds in order to compete.

Mr. CARRUTHERS at once explained that it was not intended to exclude such persons as had hitherto been allowed to compete, but simply to prevent every one from exhibiting, whether they were members of a contributing society or not without charge, but notwithstanding this, a long discussion ensued upon the basis adopted at Millbrook, and upon the first rule of the exhibition, practically going over the same ground as at Millbrook, and as the following resolution and first rule adopted prove, ending where the discussion began.

Moved by Col. DEACON, seconded by Mr. CARRUTHERS, that this committee accept the resolution passed by the Society of the West Riding of Northumberland, with the exception of that part of it which says that no party will be allowed to exhibit at the Central Fair unless they are members of one of the contributing societies in the District, as the adoption of that recommendation would narrow the area of the exhibits, and this committee decide that the sum of two dollars shall entitle any person to exhibit as heretofore.—carried

Moved by Mr. MCCLELLAND, seconded by Mr. CLEMENTI, that rule one read as follows:—Members of all societies, within the district, contributing, directly or indirectly, not less than $50 to the Guarantee Funds of this Association, and who shall have paid their annual subscription for the current year before the 1st day of September, and all other persons resiting the sum of $2 to the Treasurer shall be members, and as such shall be entitled to the advantages and privileges conferred on members under the rules and regulations of the Exhibition.—Carried.

The rules of the Cobourg Exhibition were taken up and passed, one by one, with only the following important amendments, making them read as follows:—

RULE 2.—Any member can compete for any or all of the prizes offered at the Central Exhibition *free*. Ladies may compete *free* in classes 27, 28 and 29, provided the head of the family to which they belong be a member of the Society.

RULE 10.—Members and all others (except exhibitors) will be charged 25 cents every time they enter the grounds.

RULE 11.—Exhibitors on bringing their exhibit to the grounds will be passed in free. On each subsequent entry to the grounds they will have to pay the usual entry fee of 25 cents.

And RULE 18 had the following addition made to it:—"The Judges shall ascertain the names of the owner of the prize animal or article, and write such name across the prize ticket."

It being six o'clock, the Committee adjourned for an hour. On resuming, it was decided to take the *Prize List* of the last Peterborough Exhibition as the basis of the one for the present year and revise it.

On motion of Mr. FOOT, seconded by Mr. LAPP, Messrs. Bell, Clementi, and McClelland were appointed a committee to procure the prize list for Poultry, the amount not to exceed $120, unless contributed to from outside sources.

The rest of the prize list was then gone carefully over, and adopted with several amendments and additions, which it is unnecessary to specify here.

Moved by Col. DEACON, seconded by Mr. BELL,—That the president and Messrs. Walton and McClelland be a sub-committee for the purpose of making the necessary arrangements in the matter of printing and advertising, and that the President and Messrs. Walton, McClelland, Clementi, Dean and Bell form a committee for the reception and care of stock; the receipt of rent for stalls, &c.; the appointment of constables, and other purely local matters, and that the proceeds of the rent of stalls, &c., be appropriated to the use of the local Society.—Carried.

The committee, having appointed members to look after various items during the Exhibition, adjourned at 11 p.m., subject to the call of the President.—*Review.*

Bodies Recovered.

Port Hope, Ont., April 21.—The body of one Robert Hills, a sailor, missing since last November, was discovered today floating in the new harbor between a schooner and the wharf. An inquest was held this afternoon and a verdict returned of found drowned.

Oshawa, Ont., April 21.—The sudden disappearance last October of one Rumsey, and the subsequent finding of his hat on the bank of Columbia pond, led to the supposition that he had drowned himself. The pond was dragged with a view of recovering the body, but without success. On Sunday last, while out shooting, Mr. Gifford came upon the body of Rumsey, sitting upon a log quite close to the pond. He had only been in this country about a month, and had been labouring hard.

SPRING ASSIZES.

On Thursday after the conclusion of the Roddy trial, the two remaining cases on the calender were taken up,—the first being:—

BOOTH vs WALKER.—An action brought by plaintiff to cover wages from defendant, for whom he had been engaged during last summer in making cheese. As the plaintiff failed to make the cheese according to contract, defendant refused paying him. Judgment reserved. H. Cameron Q. C. and D. G. Hatton for plaintiff; Geo. Edmonson for defendant.—

THE QUEEN vs HARRINGTON.—Action for perjury. After hearing evidence the jury gave verdict of "not guilty," without leaving their seats.

GRAND JURY PRESENTMENT.

During the progress of the Roddy trial the Grand Jury brought in the following presentments:—

The Grand Jury of our Sovereign Lady the Queen, beg leave to present:—

That after the many recommendations of former Grand Juries, calling for improvements in the Court House, they are pleased that it falls to their lot to be able to join with your Lordship in congratulating the County Council and their Architect on the liberal manner in which the improvements have been carried out for the increased comfort and health of her Majesty's Judges and those attending this Court. They are pleased that your Lordship was able to state that it is one of the finest Court Rooms you have seen in the Province.

They would recommend for the better furtherance of the business of the Court, that the accommodation set aside for the Petty and Grand Juries be reserved for that purpose only, and that no one should be allowed to stand in the passages.

The Grand Jury visited the jail and found every satisfaction with the way in which its affairs were conducted by the officials in charge, but would suggest that able-bodied men undergoing sentence might be put to breaking stones or some other employment for the benefit of the community whose laws they have broken.

ALEX. BERTRAM,
Foreman.

Peterborough Spring Assizes, 1879.

In reply the Judge expressed the pleasure he felt in the lightness of the Calendar which the Grand Jury had to dispose of. He spoke of the improvements made in the Court room in flattering terms, but suggested the placing of seats nearer the witness box, so that they could the more readily hear the evidence. As employment for the prisoners in jail undergoing sentence he recommended the breaking of stones for use of streets and roadways, and thought that the care-taken of the prisoners while in jail was much better than most of them received when out, and consequently imprisonment was no punishment at all.

He then discharged the Jury.

North Victoria.

(From the Globe.)

The Reform Convention of this riding has nominated Mr. S. S. Peck, of Minden, as the Ministerial standard-bearer. The other names submitted to the meeting were those of Messrs. Niven, Fitzgerald and Dickson. Mr. Peck was chosen on the first ballot, and his nomination was at once made unanimous. His absence from the meeting rendered it necessary to wait for his acceptance or rejection of the nomination, and the convention adjourned for that purpose after passing a resolution expressive of confidence in the Mowat Government and of the hope that Mr. Peck will consent to run. Should he do so he will be an exceptionally strong candidate, especially in the northern part of the constituency, for the development of which he has laboured with great zeal and success. His opponent will be Mr. John Fell, Reeve of Somerville, who is the nominee of the Conservative Convention.

The Miner's Strike.

LONDON, April 21.—7,400 colliers in Belgium have struck.

The Durham miners have finally resolved by 22,633 to 294 to continue the strike.

A correspondent at Newcastle-on-Tyne commenting on the firmness shown by the Durham colliery strikers, says that in the great strike of 1844 the miners were less possessed of means even than now, yet were able to hold out four months. Now as then, the battle will be fought out on the moral rather than the financial grounds and when the worst passions are aroused, and the strongest prejudices offended of 40,000 to 50,000 men the end is difficult to forecast.

Reign of Terror in Russia.

A correspondent writing from St. Petersburg, says the terrorism of the revolutionary government established by the Nihilists inspires the greatest alarm here, and the measures taken by the authorities are regarded as totally insufficient to cope with the evil. The revolutionary propaganda is believed chiefly to proceed from the universities and colleges, and it is said new restrictions are to be imposed on the young men entering those institutions, but it is rightly pointed out that such a measure would only strengthen the opposition to the existing order of things. The plan of attacking the Nihilists through the press has also been abandoned, as it is felt that so powerful and widespread an organization is not to be crushed by newspaper articles. The true remedy, it is urged, would be the grant of liberal institutions to Russia. A striking demonstration in this sense took place the other day at a banquet given to the celebrated novelist Tourgeniff. An eminent St. Petersburg advocate, M. Spassovitch, made a brilliant speech on this occasion, in which proposing a toast to the youth of Russia, he defended them against their accusers, and pleaded for liberal reforms as the best guarantee of the future welfare of the country. This speech was warmly applauded by many distinguished representatives of the educated class in Russia, who were present; but it has been received with volleys of abuse by the Government papers, who call M. Spassovitch a Polish revolutionist, and accuse Tourgueniff of total ignorance of Russian affairs.

A Letter from Deare.

To the Editor of the Examiner:

DEAR SIR,—It is amusing to watch the movements of a political party in this Riding, known by the name of Liberal Conservatives, who are attempting to get political support by resorting to the most disputable and unjustifiable means. The letter published in your valuable paper, culled from the *Irish Canadian*, and purporting to have been written by a Catholic Reformer from Westwood, was not the production of any gentleman around that neighborhood, but was written by a penny-a-liner supposed to be connected with the paper referred to. To accuse Mr. Blezard of "bigotry" which cry some of the party have thought proper to raise against him, to gain the Roman Catholic support, is, to say the least, unjust, and should be condemned. This same party are endeavouring by every possible means that they can contrive, to raise one cry among the Roman Catholics, and one of a different nature among the Protestants, and this with the hope that both will unite in order to defeat Mr. Blezard. How such a cry can possibly be made use of against Mr. B. is something I cannot conceive, Mr. Calcutt also being an Orangeman, and coming from one of the most rampant Orange families that ever put foot on Canadian soil. But, Mr. Editor, I think there is intelligence enough among the free and independent electors of East Peterborough to treat such appeals to their prejudices with that contempt which they deserve. In conclusion I would ask my co-electors to assert their intelligence, and never trust themselves with the party of compromise and "humbug," and the party of corruption and bribery, but fully believe Canadian affairs can best be managed by the Reform party, and that party only. Yours &c.,

[illegible] CARRUTHERS.

Deare, April 21st, 1879.

A Testimonial.

To the Editor of the Examiner:

DEAR SIR,—Having been under the necessity of late to go to the market to make purchases at the headed a family, in observing matters, I found that the people of the town require protection. On Saturday last I saw potatoes for sale by the bag. I also saw them sold at the rate of $1.35 per bag, the buyer being assured that each bag contained one bushel and a half, or 90 lbs. weight. I afterwards saw two of those bags weighed, and they contained respectively 72½ lbs. and 74 lbs., or 145½ lbs., instead of 180 lbs. as they should by law. In this transaction the purchaser was cheated outs of 34½ lbs of potatoes. Now as they were purchased at $1.25, you will readily see that thus amounted to over 45 cts. on the two bags of potatoes. On the Saturday previous I was eye witness to the same kind of a transaction, when the loss to the purchaser was in proportion, a trifle greater. Now, Mr. Editor, should the people of the town not have a little protection against such injustice. A bag of potatoes is always understood to consist of one and a half bushels, and I ask is it right or just that any man should be allowed to palm off on an innocent purchaser 72 lbs. instead of 90 lbs., and yet subject the full amount of pay for 90 lbs? Should not the market Clerk, or Constable be compelled to see that our citizens be not cheated by men who would cheat themselves out of future happiness for the sake of 45 cts. The prices asked for potatoes just now, and the difficulty many of our citizens have in securing means to pay for them, almost make it imperative on the part of our Town Council to see that our citizens obtain justice in these things.

I need not moralize on the action of the seller; as I have too often found that their consciences are of the india rubber type, the elasticity depending largely on the opportunity to make a copper, notwithstanding that one of the commandments says something about not stealing. I do wish that our councillors shall take this matter up, and make it compulsory to mark each bag with its weight, and then if people will buy by the bag, they will know how much they are getting.

Yours, &c.,
OBSERVER.

Peterboro', April 22nd., 1879.

SEED BARLEY.

The undersigned offers for sale about one hundred Bushels of GOOD CLEAN BARLEY, suitable for Seed.

1879.—SPRING.—1879.

ORMOND & WALSH

Are now fully prepared with their Spring Supply of newly imported

Field, Garden and Flower SEEDS.

Purchasers of Seeds must now be convinced of the disappointment experienced in buying seeds from boxes or packets already put up and placed in stores on commission, and in many instances transferred from place to place for years, before being sold; the disappointment experienced, not only from their non-vegetative power, but from the small quantity contained in each paper. To prevent these disappointments, Messrs. ORMOND & WALSH sell the whole of their Seeds by Weight, at a fair and moderate price, with a guarantee of their

Freshness and Vegetative Power.

Special care has been bestowed in the selection of Flower Seeds, Stocks, Asters, Balsams, Phlox Drummondi, Larkspurs and Portulacca have been received in the original packages, as imported. Other kinds in great variety.

Messrs. ORMOND & WALSH are Agents for Mitchell Brothers, of Port Hope, and will have constantly for sale, during the Spring and Summer, all descriptions of

BEDDING OUT PLANTS,

And also HOUSE PLANTS of the best description, in great variety, in blossom, and at very low prices.

Peterborough, April 9, 1879. 15-tfn

The Examiner.

PETERBOROUGH, APRIL 24, 1879.

LOCAL NEWS.

Navigation.—The *Chippewa* is being made ready for navigation when the lakes open.

Coming.—Mr. Chas. Clethe, surgical machinist, will be at the Choate House, May 1st and 2nd.

The Moore Farm.—This farm was sold by the Masterin Chancery, on Saturday afternoon, and brought $41.25 per acre.

St. George's Day.—Yesterday was the anniversary of England's patron saint. The anniversary was observed by a dinner at Chamberlain's Hotel.

Bill-Heads.—We have on hand a very large stock of bill-head paper. Those in want of such would do well to call and examine stock and compare prices before giving orders elsewhere

The Small Pox in Hastings.—From the Warden we learn that the sanitary measures taken to prevent the spread of small-pox in Marmora have been successful. No new cases are reported, and the speedy extinction of the disease is expected.—*Intelligencer.*

Examinations. We learn that the examinations for entrance to the Collegiate Institute will be held on the 8th and 9th of July next, and the Intermediate examinations on the 8th, 9th, 10th, 11th and 12th of July. The examinations for second class teachers will be concurrently with the intermediate examinations.

Signs of Prosperity.—The EXAMINER has added to its well-equipped establishment another fast printing press and a quantity of new type. We are pleased to observe this evidence of prosperity on the part of our enterprising and ably conducted contemporary.—*Lindsay Post.*

Purchased.—Messrs. Duncan A. and Donald McFarlane, of Otonabee, have purchased the farm of Mr. John Kent, composed of the East half of Lot No. 11, in the 7th Concession, adjoining the village of Keene, for $6,000 cash. This is said to be one of the best wheat farms in the township.

Per the North-West.—Messrs. R. J. Bird and George Walker have purchased the stock-in-trade of Mr. Robt. Walker, of this town, and are busily engaged packing the same for transportation to the Great Lone Land, where they intend trying their fortunes. They have the best wishes of their many friends.

Oddfellowship.—A [illegible] has been issued by the Grand Master of the R. W. and Lodge I. O. O. F. recommending and requesting the observance of the 28th day of April, 1879, by appropriate exercises and thanksgiving to Almighty God for the many blessings vouchsafed to this order during the past year.

Vennor Again.—Our own national prophet is in the fire with a prediction of cold and wintry weather at the close of April. He says: "Summer, or any nice up to the middle of July, will give abundance of rain and with a temperature below the average. August, September and October will be the finest months."

Base Ball.—At the meeting of the Pine Grove Base Ball Club, held at the Stewart House on Wednesday evening, the following officers were elected :—President, M. Halpin; Secretary-Treasurer, M. Tierney; Captain, Jas. Callaghan; Committee, J. Coughlin, F. Sutherford and M. McDonald. The Club will commence practice about the 1st of May.

Examiner Printing.—We have this week received a communication from Mr. Telford, Clerk of Ennismore, with regard to the printing of that township, as the statements of her Saturday contemporary are so rarely credited, our friend might not have gone to any trouble. The matter being of no public importance, we are obliged to waive the publication of the same.

Bad Bills.—An exchange says:—"An [illegible] executed counterfeit upon the Dominion Bk note, Toronto issue, was yesterday detected at the Deputy Receiver-General's office in this city. With the exception of one little detail the bad note was so cleverly executed as almost to force the conviction that it was printed from the original and genuine plates." Better look out for them.

The Sturgeon Point Hotel.—The *Post* says that Oppenheimer Crandall is having extensive improvements made in the Sturgeon Point Hotel property. The pic-nic hall is being divided off in rooms which will increase the sleeping accommodation of the hotel materially, and two [illegible] arrivers are to be erected in a couple of months. A bathing and engine will, on the opening of navigation, be set up on the Point for the purpose of supplying two fountains to be erected in front of the building, with water. Other improvements are talked of, which goes to show that the Oppenheimer hotel and the Point above are both going [illegible]

Lumbermen and others requiring Tents should call on I. Robinson & Co., who can supply them with all sizes and qualities at very low prices.

Millinery Opening.—Mr. W. G. Townsend's millinery rooms are now open, with a full line of Spring and Summer millinery, in all the latest styles.

Children's Strike.—The following Sprinkler have been fixed upon as route for the strike to the Hartlet House for the coming year :—The strike near the dam, 2636 each ; next on John-ay ave, 999 ; and the others 250.

Resolution.—The Fire Brigade have been presented with $50 by the Burnham Estate, for their efficiency in saving the buildings on the corner of George and Brock streets, at the fire on Monday, 14th instant.

Change.—Mr. Chas. Shaw of Kingston takes the Welly.—On Tuesday a number of wagons containing implements, household furniture, etc., passed through Peterborough on their way to Omemee to join the emmenton train that left for Manitoba yesterday.

Mrs. Bowman's Concert.—We understand a benefit concert is to be given Mrs. Bowman, Lady Lieutenant's Hall, on Wednesday evening next, 30th instant. The programme will be filled part in by the best town talent and a number from a distance. The programme, it is expected, will be an excellent one. We venture to prophesy a full house.

Shooting Stars.—Many housekeepers seem to be unaware of the fact that there is a stringent bill in force against the shooting of any kinds of birds, of prey, and the consequence is that numbers of small but very useful members of the feathered tribe are wantonly killed. A few examples should be made of careless "sportsmen."

Death.—T. E. Fitzgerald, Esq., was elected Deputy-Reeve of Smith, on Monday, by acclamation. The vacancy occurred by the appointment of Mr. F. J. Bell as Clerk, in the place of the late Mr. Burton. Mr. Wm. McIlmoyle, junior, was elected Councillor by acclamation, caused by the resignation of Mr. T. E. Fitzgerald as Councillor.

Wallace Point Bridge.—The new bridge over the Otonabee River at Wallace's Point has been completed in a ve[illegible] manner by the contractor, Mr. Chas. Wyane. Already it is hearing its good fruits by the large amount of traffic passing over it. Mr Wyane has taken up his residence in Peterborough, and intends giving his attention to contracting and bridge building.

Merchants and Visitors.—Who have desired, as a rule, to live at a Hotel where the business centre, and to take a portion of their meals down town, while in New York, can do so on the Grand Central Hotel, on Broadway, in new hotel on both the American plan at $2.50 or $3.00, and the European plan $1.00, and upwards per day. An elegant Restaurant, at moderate prices, is conducted by the Hotel.

Preparing for Convocation.—The premises formerly occupied by Messrs. Hesbeck & Mc-Kee, and damaged by the late fire, are now undergoing repairs and will be ready for occupation in a week or so. In the the meantime they are offering their stock below manufacturers prices, in their present temporary quarters, Brecon & Hutchinson's old stand, two doors north of Lorrmon's Bank and Shea Store.

Cobourg Regatta.—On Saturday of last week Mr. James R. Barber, Superintendent of the Cobourg, Peterborough and Marmora Railway, arrived at Harwood from Cobourg with a locomotive. This was the first trip this spring. He reports the road in good repair and will commence excursions [illegible] soon as the lake opens. The ice was breaking fast, and it is expected the lake will be free by this time.

Smashing Windows.—At the last meeting of the Council the Mayor drew the attention of them present to the frequency of late of windows being smashed, and suggested that a By-law be passed offering a reward for the conviction of offenders. It was found, however, that there was a By-law of this character in force, and that rewards would be paid by the Treasurer upon certificate of the Clerk.

The Band.—The following programme of pieces will be played by the Band on Saturday evening :—

Quick Step—" March of the Cameron Men"
Valse—" The Messenger of Love."
Polka—" Fairpheasure."
Selection—" Ernani."
Galop—" The Carwitch."
" GOD SAVE THE QUEEN."

Robbery.—The residence of the Rev. Chas. Fish, Cobourg was "burglarized" lately. The thieves effected an entrance through a back window and stole a large amount of clothing, about $60 worth, principally children's. Mr. and Mrs. Fish think they were chloroformed, as they were decidedly sleepy and dull all day Wednesday. The light-fingered gentry also carried all the clothes they could find into the hall down stairs, and there rifled the pockets, but very little was found.

North End Fire Alarm.—In compliance with a resolution passed at a late meeting of the Fire Brigade, the Captain made application last Monday evening to the Council for a fire alarm bell for the north end of the town. It is to be hoped the Fire Committee, to whom the application has been referred, will give it their most favorable consideration. The outlay would be small in comparison to the convenience this alarm would be, not only to the members of the Brigade who live in the Third and Fourth Wards, but to the ratepayers, who in nine cases out of ten cannot hear the present alarm.

Lacrosse.—At a meeting of the Peterborough Lacrosse Club, held in the Choate House on Monday evening last, the following officers were elected for the current year :—

PRESIDENT—A. D. Braithwaite.
VICE-PRESIDENT—Jas. Mowbray.
SECRETARY-TREASURER—W. Baillie.
CAPTAIN—John Corkery.
MANAGING COMMITTEE—James Dolan, W. Guillet and W. Sanderson.

The Club starts with a membership of about forty. The first practice of the season will take place sometime next week. A meeting of the Club, to confer about grounds, etc., will take place at the Choate House on Friday evening.

Serious Accident.—On Saturday morning last, a man named Andrew Woodward, formerly of Lindsay, who was employed in Brown Bros., shingle mill at the south end of the town, met with a very serious accident, having his left arm completely torn off. He had been engaged as fireman, but that morning had changed places with the sawyers in order that he might become familiar with the working of the machine, and when in the act of adjusting one of the blocks, his arm was brought in contact with the saw and completely severed above the elbow. Doctors O'Sullivan and W. H. Burritt, were called in and performed the necessary operation of amputation. He is now recovering as well as can be expected.

Church Notice.—The Rev. Donald Ross, lately appointed by the Home Mission Committee of the Presbyterian Church, as missionary to Manitoba, occupied the pulpit of St. Paul's Church, both morning and evening, on Sunday, and the Rev. Dr. Gregg, of Knox College, Toronto, preached both morning and evening in St. Andrew's Church ..... The Rev. F. R. Wallace gave his promised sermon to young men on Sunday evening ..... The Rev. Mr. Harper and the Rev. Mr. Mulhern exchanged pulpits on Sunday evening ..... Mrs. E. O. Caldwell, assisted in the singing at St. John's Church last Sunday evening, in anticipation of which, the church was crowded to its utmost capacity. Her singing of the anthem, "Hear me, Father," was exceedingly good.

The Town Clock.—This very valuable public servant has received new faces during the past week, and although, we cannot say the new ones are cleaner than the old ones, we believe their inward workings are just as visible as they were with a fairer countenance. Mr. Malcom has been appointed to see after her future management and outside initiations and order, and in him we have a certainty that her ticks will be more regular, and her tongue more ready to reveal her secret thoughts than it has done many times. Our present city fathers at least appear willing to show a fair face to our sister village of Ashburnham and her citizens. This is as it should be, as nature frowns enough on them, without preventing them reading the paces of time to their dark destiny, when the National Policy do more for them than it has done.

Open Air Refreshments.—Now that the summer season is about setting in, and we have a Band of whom any town may well feel proud, we may be allowed to suggest that a suitable place be provided for them to play in the open air—say one evening in the week. The Band are willing, in fact, we believe, are anxious to furnish the citizens with an entertainment during the summer, and surely the heat the citizens can do is to provide them with a suitable place. Whether the Court House Park will be decided upon, this summer we cannot say, but if so, we trust the Agricultural Grounds might be secured if application was made. We should think the directors would have no hesitation in granting it at the disposal if a guarantee was given that no damage would be done the sheds and fences by those frequenting the grounds. [illegible] to be formed to take the matter in hand and we think they will find no difficulty in securing such arrangements as will enable our citizens to enjoy themselves one evening in the week, listening to the music of our new 24 piece Band. The members of the Band are also of opinion that some such arrangements should be made, as it is equally as disagreeable to them as to spectators, thumping up the principal portion of the evening, played when playing out of doors, according as it may seem at present. Who will take the matter in hand?

The Rain.—W. J. Lamoreaux's stock of advertisement, announcing receipt of spring stock headed in too late for this week's issue.

The Pulpit.—Rev. T. T. Hill, of Cobourg, will preach next Sabbath morning at the Charlotte St. Methodist Church, and in the evening at the George St. Church.

Promoted.—Rev. Mr. Harper starts on to-day to Montreal to assist in the examination of students of the Wesleyan Theological College of that place. The rev. gentleman's high scholastic [illegible] will fit him to perform the office to which he has been called.

Ashburnham Fire Company.—At a meeting of the Ashburnham Fire Company, held on Tuesday evening, the following were elected officers for the current year :—G. C. Reeves, Captain ; F. Adams, Lieutenant ; H. A. Peck, Sec.-Treas. The Company will meet at the Drill Shed for practice on Monday evening next, at six o'clock. A few new members are wanted.

Concerning by Auction.—In another column Mr. L. Fisher announces his intention of disposing of the whole of his stock of Groceries, and will sell by auction every Wednesday and Saturday afternoon until the whole is sold. As Mr. Fisher is about going into the flour and feed business more extensively than formerly, and intends devoting his whole attention to that alone, the stock will be sold at whatever it will bring.

Literary and Ornamental Entertainment.—The Centrevilles are making extensive arrangement for their literary and dramatic entertainment to be held on the evening of May the 2nd. Besides counting the services of the best local talent and the Peterborough Drumond Castle song, they have also secured the services of Mr. George Cruikshank, Keene's favorite comic singer, who will appear in all the latest specialties of the day. For further particulars see programmes, which will be issued shortly.

Sprot.—On Thursday night last, the cooper shop at Hall's mills, occupied by James Connel was destroyed by fire, and on Monday night the residence of Mr. Robert Kinghorn, Edinburgh street, met with a like fate. In both cases buildings were wooden ones, and although the alarms were promptly answered by the Firemen their efforts were fruitless, except in preventing the flames from spreading to the adjoining buildings. The loss on the cooper shop is about $150, insured in the Queen's for $75. Mr. King, here had an insurance of $300.

St. John's Church Concert.—The concert in aid of the building fund of St. John's Church, given in the Opera House on Friday evening last, was one of the most enjoyable entertainments of the kind that has yet taken place in our midst. The auditorium of the hall was well filled by a select and appreciative audience, and all the appointments of the occasion's programme carried out in such a admirable manner as to elicit the approbation and applause of all present. The programme was opened with a glee, from "Obiron in Fairyland," by the Choir of St. John's Church, which was executed in fine style. Next came a solo, "Spanish Polka," by Mrs. Caldwell. In Mrs. Caldwell we have a vocalist of very exceptional ability. She is possessed of a soprano voice of great compass and of wonderful purity, and which has been enriched by [illegible] cultivation. The "Spanish Polka" was a subject calculated to test, as well as to exhibit, the singer's capabilities, and her performance was well equal to the task. A sweeter strain we have not listened to, and the rapturous and continued applause that formed the response of the audiences to her effort, testified their admiration. As an encore, she gave "Down the Burn, Davie Love," and resolved on in the evening, "Lo, hear the gentle Lark," "I Know a Maiden," and others. The piano solos by Mrs. Lewis were excellent, and brought forth the approbation of the audience. The duets, "Spring Returning," by Messrs. Rush and Elliott ; and, "Grenada che Bianca Luna," by Mrs. Caldwell and Mr. Geddes, were each pleasing. Mrs. Bowman sang "Once Again," in her usual good form, and receiving an encore, responded with "Jamie Love." Mrs. Bowman's performances have been so frequently dwelt upon in these columns, it is needless to particularize. She is always pleasing, and never disappoints. Mr. Davis sang the "Yeoman's Wedding Song," and as an encore, "Thy Sentinel am I," each in fine style. The singing of Mr. Geddes in "My Queen," and "The Blue Alsatian Mountains," was highly and deservedly applauded. The performance was concluded with a charade, the incidents of which were interesting, and the different characters therein happy in their representatives. Too much credit cannot be accorded Mrs. Hutson and her valuable corps of assistants, for their successful efforts in placing before the lovers of classic music in our midst such a sumptuous feast.

TOWN COUNCIL.

Council met pursuant to adjournment on Monday evening. Present—His Worship the Mayor, and Councillors Cahill, Smith, Paterson, Mills, Buller, Yelland, Robertson, Deane, Griffith, and Rutherford.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS.

From John Carnegie, transmitting a copy of a resolution passed at a late meeting of Town Trust Commissioners, asking payment of balance due on account of last year's demand. Referred to Finance Committee.

From E. Burnham, President, and William Eastland, Secretary, of the Property Owners' Association, expressing their dissatisfaction at the manner in which the Police Court accounts had been dealt with, and asking that the question of the Police Magistrate's right to retain certain fees be referred to Jas. Bethune, Q. C., for his opinion. Received.

From the Auditors, a supplementary report on the School Board accounts.

From A. McNeil, Captain of the Hose Company, on behalf of the Fire Brigade, asking that a fire alarm be placed in the north part of the town. Referred to Fire Committee to report at next meeting.

From Wm. Eastland, and Edgr. Pearce, asking the reconsideration of their application for $169 cash, for services as auditors. Received.

PETITIONS.

From Patrick Macnamarra, in reference to the dangerous state of a drain on Park Street, opposite his residence. Received.

From Wm. Deacon, asking for a license for a butcher shop on the corner of Reid and McDonnel Streets. Granted.

From John Corkery, Secretary of the Board of Separate School Trustees, asking that a sidewalk be laid down on the north side of Murray Street, from George to Aylmer. Received.

From E. Tierney asking to be relieved of the payment of Statute labor tax, as he had during the past two years paid taxes on the livery stable. Referred to Finance Committee.

From James McClelland and others asking that a sidewalk be laid on the west side of Donegal Street. Received.

ACCOUNTS.

R. White	$23 60
Wm. Hoin	1 75
Wm. Skelly	2 85
Adam Hall	3 60
Pension for yearly salaries	850 00
Jos. Munro	1 25
Wm. Hetherington	1 25

The accounts were referred to the Finance Committee with power to order their payment if found correct.

FINANCE COMMITTEE.

Councillor Cahill, Chairman of the Finance Committee, read the following report :

The Finance Committee beg leave to recommend the payment of the following accounts :

Geo Compson	$ 40 00
A. Cornish, funeral expenses	14 00
J. McCarthy, Hook and Ladder	1 60
J. R. Stratton, on account	20 00

Your Committee also recommend that the Firemen's Band be paid the usual grant of $150, to be paid quarterly.

Your Committee further recommend that the account of Mr. Geo. Hilliard for $270 be fixed at $20,000, and that an income of $200 charged against the late Rev. John Rogers for the same year be struck off, and that the Treasurer be instructed to refund the defendant amount thereof.

Your Committee further recommend that the Clerk be instructed to get 150 copies of the Auditors' Report printed in pamphlet form, and sent to each Ward and the work to be done in two weeks.

Councillor Rochester objected to the payment of Mr. Stratton's account.

Councillor Deane took objection to that part of the report relating to Mr. Hilliard's assessment. If Mr. Hilliard was to have his assessment lowered, then every other ratepayer had a right to come to this council and ask for a reduction of their assessment of past years. This was a matter that should have been settled long ago, and this council should not deal with it.

Councillor Cahill said the matter had been before the Finance Committee for the past two years. The reason why it had not been disposed of before was, that on the assessment last made a mistake in the assessment of another large estate in town, the committee thought it advisable not to take action on Mr. Hilliard's application, until that estate had paid their taxes, as under the circumstances they could have come to the Council and said unless you lower our assessment, we will take advantage of the error of the assessors.

Moved by Councillor Mills, second by Councillor Deane, that the portion of the report relating to Mr. Hilliard's assessment be not adopted.

In support of his motion Councillor Mills read a clause from Shoreham's Manual, in reference to the finality of assessments, and contended it would be dangerous for the Council to interfere in this matter.

Councillor Paterson moved in amendment seconded by Councillor Deane, that the auditor's Report be not published this year in pamphlet form, but that it be published in abstract in terms of the papers, and that the recommendation to pay Mr. Stratton $20 on account be struck out.

Councillor Smith said the statutes required the publication of the auditor's report. He [illegible] was passed annual for at least years he [illegible] Finance Committee [illegible] first observed in the north-west corner of the shop adjoining the boiler room, and spread, owing to the inflammable nature of the building and its contents, with astonishing rapidity. In fact it had [illegible] before any effort to stay its progress was given that all hopes of saving it were lost. The Brigade turned out with alacrity and in fifteen minutes from the first strokes of the bell, and in two minutes [illegible] engine on the bridge, had two streams playing on the flames. Their chief endeavors were directed to the saving of the dwelling house adjacent, in which they were successful, and it was by no means an easy task, as the heat was almost unbearable. At one time the tongues of flames on Aylmer street were in imminent danger from flying cinders, and it was only by the most powerful watering and prompt application of water by means of pails that the danger was averted. W. J. Baxter's cabery from its close proximity narrowly escaped ignited and once was in ashes.

The cause of the fire remains a mystery. The workmen had been employed during the afternoon and up till ten o'clock at night in steaming timber. At half-past ten Mr. Toole left the building, giving instructions to the men in charge s ot to put on any more fire, and to wait for an hour and see that everything was right before leaving, which instructions, it is said, were carried out, there being no signs of fire when the engineer left.

The boiler room was supposed to have been fire proof, and Mr. Toole thinks it very improbable that the fire originated from the furnace. He is more inclined to think it the work of an incendiary, or possibly as it has been conjectured spontaneous combustion, in the corner of the building from which the [illegible] were first discovered issuing was used as a [illegible] room, where a quantity of oil for machinery purposes was kept.

Mr. Toole estimates his loss at about $2000, divided as follows on shop and machinery, $800 ; on stock manufactured and in process of manufacture, $1,000. Mr. Barrie's loss is about $400. Unfortunately neither gentleman had any insurance.

Home.

(From our own Correspondent.)

—News items still rather scarce.

—Ploughing has commenced in this neighborhood. Last week quite a number of the farmers around here commenced to plough, and next week a number of others propose following suit.

—It is generally considered that spring has not fairly set in.

—Good Friday and Easter Sunday were observed in the usual manner.

—The roads are improving.

—Last week Rev. R. McCulloch and Mrs. McCulloch, were summoned to Beanaville, to attend the funeral of Mrs. McCulloch's brother, Rev. Mr. Hawkins. This is the third death in the family within a few months. Sincere sympathy is felt for Mrs. McCulloch, by a large circle of friends ; to this we desire to add ours.

—On Thursday, 10th inst, the funeral of the late Ellwood Nelson, eldest son of Mr. G. Nelson, of this village took place. The deceased was about twelve years of age, and a general favorite. We extend our sympathy to the bereaved parents.

Lakefield.

(From our own Correspondent.)

—Mr. Cox, Licensee Inspector for West Peterboro', paid our village a visit on Monday, and inspected our hotels for the usual purpose before granting them licenses.

—John Dinwoodie, Esq., returned last week for the purpose of engaging men to work in the Saw Mill at Longford, of which he is in charge. All were glad to see "John" back, and as he has engaged 22 men here who were only too happy to work under his superintendence, and at his wages, his visit has not been for naught.

—Our popular steamer the *Ornider*, having been repainted and improved was returned to her native element on Saturday last. As the ice on Clear and Stony Lakes will hold for some time yet, it is not likely she will "fire-up" for some time, but in case she gets a chance to Young's Point for a paying trip she will be on hand. The *Chippewa* is also ready for the water, and will be launched this week.

—The walking wants has not yet reached Lakefield ; but since the Indians arrived at their usual camping place at Hague's Point, every boy in the village has been armed with a bow and arrows, and although the bosom of all are loyal, we have not heard of any game being killed, but parents have to mourn a few broken windows.

—Perambulators and troops are now to be seen on our sidewalks.

—" How many can you skip ?" seems to be the ambition of our little school girls, while not engaged in their studies.

—Some boys taking that "farmer's pig" to pound on Tuesday, caused some amusement to those who happened to notice the occurrence.

—" Quoit pitching " has started, and serves to keep some of our young men out of mischief.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, New York City.*

Boschee's German Syrup

can now be purchased right at home, it is the most successful preparation ever introduced to our people. It works like a charm in all cases of Consumption, Pneumonia, Hemorrhages, Asthma, Severe Coughs, Croup and all other Throat and Lung Diseases. No person has ever used this medicine without getting immediate relief, yet there are a great many poor, suffering, unfortunate people going about our streets with a consumptive cough, and hundreds of consumptives coming from their homes, that will not try it. If you die it is your own fault, as you can go to your Druggist, J. D. TULLY & Co., and get a sample bottle for 10 cents and try it; three doses will relieve any case. Regular size only 75 cents.

The Greatest Remedy Known.

DR. KING'S NEW DISCOVERY for Consumption is certainly the greatest medical discovery ever placed within the reach of suffering humanity. Thousands of cases have been cured, now let it prevent their probe for this wonderful discovery, to which they owe their lives. Not only does it cure Incipient Consumption but Coughs, Colds, Asthma, Bronchitis, Hay Fever, Whoop[illegible] and all other affections of the Throat, Chest and Lungs yield at once to its wonderful curative powers as if by magic. We do not ask you to buy until you know what you are getting. We therefore earnestly request that you call on J. LANE & Co., and get a trial bottle free of charge, which will convince the most obstinate of its wonderful merits, and that we will sell a regular size dollar size bottle will for.

BIRTHS.

RIDLEY.—On the 15th instant, the wife of Mr. C. F. Ridley, of a son.

DIED.

ANDREWS.—At Haywards, on Monday, the 21st April, Rev. Wm. Andrews, aged 68 years—and in the 35th of the ministry.

McCAMMUS.—On the 16th April, at Bobcaygeon, Capt. Mc. Elder Forbes, beloved wife of W. McCammus, M.D., aged 37 years.

Boschee's Anti-on Salve.

The Best SALVE in the world for Cuts, Burns, Bruises, Sores, Ulcers, Boils, Felons, Corns, Warts, Chilblains, Chapped Hands, Fever Sores, Tetter, Chapped Lips, Cancers, Salt Rheum, Scalds, Piles, Fever Blisters, Scald Head, Sore Eyes, Barber's Itch, Ringworm, Frost Bites, and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by J. D. TULLY & Co., and get a trial box free.

A BIG BLAZE.

Twelve Flouring Mills and Barrels Activity Consumed by Fire—Loss between $2,000 and $7,000—No Insurance.

[illegible] one of the most extensive fires which has occurred in this town for some time took place resulting in the total destruction of Toole's Flouring Mills, and the adjoining building used as an Archery, by the [illegible] first discovered in the north-west corner of the shop adjoining the boiler room, and spread, owing to the inflammable nature of the building and its contents, with astonishing rapidity. In fact it had [illegible] before any effort to stay its progress was given that all hopes of saving it were lost. The Brigade turned out with alacrity and in fifteen minutes from the first strokes of the bell, and in two minutes [illegible] engine on the bridge, had two streams playing on the flames. Their chief endeavors were directed to the saving of the dwelling house adjacent, in which they were successful, and it was by no means an easy task, as the heat was almost unbearable. At one time the tongues of flames on Aylmer street were in imminent danger from flying cinders, and it was only by the most powerful watering and prompt application of water by means of pails that the danger was averted. W. J. Baxter's cabery from its close proximity narrowly escaped ignited and once was in ashes.

The cause of the fire remains a mystery. The workmen had been employed during the afternoon and up till ten o'clock at night in steaming timber. At half-past ten Mr. Toole left the building, giving instructions to the men in charge s ot to put on any more fire, and to wait for an hour and see that everything was right before leaving, which instructions, it is said, were carried out, there being no signs of fire when the engineer left.

The boiler room was supposed to have been fire proof, and Mr. Toole thinks it very improbable that the fire originated from the furnace. He is more inclined to think it the work of an incendiary, or possibly as it has been conjectured spontaneous combustion, in the corner of the building from which the [illegible] were first discovered issuing was used as a [illegible] room, where a quantity of oil for machinery purposes was kept.

Mr. Toole estimates his loss at about $2000, divided as follows on shop and machinery, $800 ; on stock manufactured and in process of manufacture, $1,000. Mr. Barrie's loss is about $400. Unfortunately neither gentleman had any insurance.

VEGETINE.

The Very Best Medicine
—FOR—
DYSPEPSIA AND INDIGESTION.

NEWTON, N. H., March 27, 1877.

MR. H. R. STEVENS :—

Dear Sir.—Since I take the pen to praise that [illegible] of medicine, Vegetine. When I began to take Vegetine two years ago with such marked benefit, my opinion then was it was a substantial effect, and would prove beneficial to me as it had [illegible] before. Thinking that some of those who read the testimonial which I wrote at that time, might think the same, I write now to assure [illegible] that my opinion remains the same to this date. Since I began to take Vegetine, almost two years ago, I have gained steadily until the present time, at which I can say, by my former health, and consider myself cured by Vegetine. Two years ago I was so low my friends had no hope of my recovery. I had for eight months, and given up to die by eight doctors, some of the most skilled in this State. They said I had several diseases, including consumption, and had [illegible] and several others, equally fatal, and [illegible] to die. Vegetine, taken as a last resort, [illegible] me through, and to that I owe my life, [illegible] my health began to improve, I have made a [illegible] of about [illegible] pounds, and have [illegible] to [illegible] Vegetine [illegible] and [illegible] the [illegible] two cases of [illegible] of every [illegible] are known to me personally. When [illegible] to me early [illegible] and in the [illegible] it [illegible] a [illegible] [illegible] and [illegible] [illegible] [illegible]

"I GATHER THEM IN."

Nigh to a grave that was newly made
Leaned a feeble old man his age to evade:
His work was done and he seemed to wait
The funeral train through the open gate:
A relic of by-gone days was he,
And his locks were as white as the foamy sea—
And these words came from his lips so thin,
"I gather them in! I gather them in!"

"I gather them in! for man and boy,
Year after year of grief and joy.
I've builded the houses that lie around
In every nook of this burial ground,
Mother and daughter, father and son,
Come to my solitude, one by one—
But come they stranger, or come they kin,
I gather them in! I gather them in!

"Many are with me, but still I'm alone!
I am king of the dead, and I make my throne
On a monument slab of marble cold
And my sceptre of rule is the spade I hold.
Come they from cottage or come they from hall,
Mankind are my subjects—all, all, all!
And then they're gone, and no more they sin,
For I gather them in! I gather them in!

"I gather them in, and their fate you know
Is here, down here, in the Earth's dark breast!
And the solemn sound—for the funeral train
Is wend meekly over that solemn plain:
And I said to my heart—when this song is told,
A mightier voice than the sexton's old
Will thrill o'er the last trump's dreadful din,
'I rather them in! I rather them in!'"

The Late Benjamin Young.

How the Slaughter Body was Found and Identified—Evidence on the Inquest—Arrested on Suspicion.

From the Saginaw Weekly Courier, April 10.

Tuesday morning a man named John Storr, who resides near the corner of Johnson and Thirteenth streets, went into a field on Jacob Hoyt's farm, from the Deerfield road, in Buena Vista, just beyond the city limits, for the purpose of picking up some wood. When at a point about sixty rods south of the Deerfield road, and ten rods east of the track of the Flint & Pere Marquette R'y, in the marsh swale that runs through the field, discovered what at first appearance he supposed to be a dead dog, but on investigating further he found it to be the body of a man. He at once left the spot and notified W. H. Lockyer, constable and health officer of the township, who visited the spot and found the body about ten inches under water, lying on the stomach, face downward, with the arms stretched out. The hat was lying on the east bank of the wale, some eighteen or twenty feet from the body. A lady's linen handkerchief, much soiled, was found about eight feet distant from the body, with the name "Mrs. H. J. Hay" across the centre in indelible ink. Another white pocket handkerchief was found near the body but with no marks upon it. The body was apparently that of a man about 30 years of age, five feet seven inches in height, weighed about 175 pounds, with brown curly hair, sandy mustache and goatee, and recently shaved. The body bore considerable evidence of having met

A VIOLENT DEATH.

There were no less than five cuts on the head, having evidently been made with the angle of a blunt instrument, a conclusion on Storrer, on the head of the elbow. The man was well dressed, having a red flannel shirt, overalls, over which was a pair of black pantaloons, and vest and coat of the same material, dark cloth hat, and shoes. The remains laid at the undertakers, and the news of the supposed murder having been spread through the city rapidly, hundreds of people gathered to view the remains, which were identified about 1 o'clock by Patrick Crowley as that of a young man named Benjamin Young, who had formerly boarded with him, and he his testimony at the inquest Mr. Crowley stated he met him a week ago Friday, as near as he could recollect, at the J. L. & S., depot, opposite this city. He was subsequently identified by others and also by papers found in the pockets of the man

THE INQUEST.

The inquest was commenced at Coleman's undertaking establishment at 3 p.m., at which time Dr. C. H. Lample and Dr. C. H. Ramon made a post mortem examination of the body.

The first witness was John Steve, the young man who found the body, and who stated he found the body of deceased back of the T. & P. R. R'y, about one hundred yards from the city line, in the open field, in Mr. Hoyt's land about 7 a.m., lying on his face, his legs under the water. He saw no blood or evidence of a struggle about the spot. The ground in the vicinity where the body was found was quite soft, and he did not stop to look for footprints.

Patrick Crowley was sworn and testified that he knew the deceased and had known him about two years. First saw him at his place on Potter street. He did not know where the deceased resided at the time of his death; believed him to be a single man, and his name to the best of his knowledge was Benjamin Young. Deceased had boarded with witness off and on about a year, and came to Saginaw from Peterborough, Ont., thought a man named William Condon, living near Zilwaukie, was a relative of Young's, and that deceased had a relative named Patrick Condon living in Jeromeville, Wisconsin did not remember the date exactly, but thought he saw deceased a week ago last Friday at the J. L. & S. R. R. depot, where he talked with him nearly half an hour. Deceased stated to witness that he was going to stop at Crowley's having come down that afternoon from the north end of the road. Witness testified that Young was a steady, sober man, and possessibly disposed; generally had plenty of money and paid his bills promptly. He had not seen him before for eight or nine months as near as he could recollect. Deceased told witness that he had a draft or check which he intended to get cashed at Saginaw City. Young did not come to Crowley's as he had stated he intended to at the time he left him at the depot.

William H. Condon, who had been notified of the finding of the body, was called, and testified that he lived in Zilwaukie, had viewed the remains, and they resembled Benjamin Young, particularly the color of the hair and whiskers. Witness had been acquainted with Young only until he came to Saginaw about two years ago last fall. Young was a cousin of the wife of witness, and came here from Young's Point, Peterborough county, Ont. He had been to witness twice since he first saw him, to about a year ago. Witness did not know where he had been since, nor where he had been working. He wrote to Young some time last fall suggesting him to be near Roscommon, but the letter was returned. Young could not write himself. Deceased had a brother named William Young, who resided in Isabella county, near Mt. Pleasant. Deceased was a sober and industrious young man so far as he knew, was a single man, about thirty years old.

Dr. C. H. Lample was sworn and testified that he made a *post mortem* examination of the body of deceased, assisted by Dr. Ramon. Found five cuts on the head, two on the lower jaw, one penetrating the lower lip an inch in depth, breaking off the incisor of the left upper jaw. Also a wound beneath the left eye, about an inch in length extending along the malar bone, laying it bare. Another cut over the left eye, being a perpendicular cut about the center of the optic and extending to the bone. Also, another wound over the right eye about the same length and in same position as that over the left, extending to the bone. The bones of the nose were broken, and on the left side of the nose was a rupture of the skin about one inch in length, and a similar one on the right side of the nose but not so long. On the right side of the head was found a contusion of the temporal muscle, and also a cut on the left forearm below the head of the elbow, about an inch and a half long, severing the external cephalic vein, and about three [illegible] an inch deep. No further external injuries were discovered, and no internal injuries were found. The wounds in the head and face seemed to have been made by some blunt instrument, probably by the angle of a heavy weapon. The wound in the left arm was probably produced by some small cutting instrument, probably a pocket knife, and corresponding holes were found in the sleeve of the coat and shirt. The bruise on the head was probably caused by a fall or from the blow of a heavy weapon. It was the opinion of witness that deceased died from the shock produced by the injuries, and loss of blood. In the judgment of witness deceased had not been dead over forty-eight hours, and perhaps less. The body was quite cold.

James Conroy, a medium sized man, rather tall, and not what could be considered stoutly built, with dark hair, moustache, and small goatee, 30 years old, a single man and a Canadian, though he has, according to his own statements, been in the States some years, was called to the witness stand, and his evidence was of such a conflicting nature that at its conclusion the Coroner had him placed in custody.

There is no evidence thus far elicited tending to criminate him, but in view of the circumstances of the case and the terrible nature of the crime, the authorities are justified in exhausting every means in their power in their efforts to ferret out the perpetrators and bring them to justice. Conroy had served a term in the Detroit House of Correction, having been sent from Bay City some two years ago. He came to the States from St. Sylvester Ont., but has lived here off and on some time, though quite ignorant, apparently, of the names of hardly any of our citizens or of the streets in the city. He worked last summer in a barber shop on Potter street, and has worked for Mr. Powers, at his farm in Birch Run.

CONCLUSION.

At this writing (1 o'clock) there has been no further developments leading to anything whereby a clue could be found. The efforts to ascertain the stopping place of Young while here have been futile, although diligent search has been made. It is hardly possible that he could have stopped at a hotel or boarding house in either city and the fact not easily ascertained. The general theory is that he must have stopped at some place of questionable repute, and was murdered and robbed, as the fact that he had quite a large sum of money in his possession is well established. There are an hundred rumors afloat, but the *Courier* has given all the facts thus far elicted that are entitled to the slightest credence.

Farmers as Legislators.

(From the London Advertiser.)

In the present Congress of the United States there are said to be 341 lawyers; 24 merchants; 13 bankers; 16 farmers; 10 editors; 9 manufacturers; 7 doctors; 5 railroad men; 3 clergymen; 3 insurance men; 3 lumber dealers; 2 professional office-holders; 3 miners; 1 carpenter; 1 stone cutter; 1 miller; 1 surveyor; 1 live stock dealer; 1 ticket agent; and 10 without regular occupation. The farmers constitute fully one-half the population of the country, and political economists maintain that upon their labors the prosperity, nay, the very existence, of the nation depends. Yet their share in the representation is absurdly out of proportion to their numbers and their place in the body politic.

It is much the same here. We cannot quote the exact statistics, but it is very well known to every one who has given attention to the subject that the agricultural element in our legislatures, whether Dominion or Local, is ridiculously small. This is to be regretted, because it is of great importance that every class in the community should be represented in Parliament according to its proportionate numbers; not to obtain class legislation, but to secure due attention to every national interest. It is particularly unfortunate that farmers should fail to have their due share of Parliamentary honors, not only because of the importance of their calling, but because of its connection with other lines of business in the country. This is so intimate, that legislation for the advancement of agriculture is not class legislation. Not merely calculated to benefit farmers, but all others. All other businesses prosper or decline as agriculture flourishes or is depressed. On this account, if there were even a preponderance of farmers in Parliament, the fitness of things would excuse if not justify it.

The matter is very much in the hands of the farmers themselves. If they demand their fair share of representation, they will get it, for the simple reason that they have the power to enforce their demand. Farmers have only to act in a body, and they can carry any measure they please. It was they who created the National Policy at the last Dominion election. Had they gone in solid phalanx against it, there can be little doubt it would have met with the defeat it so richly merited. But it gained the suffrages of the farmers, and these gave it an easy victory.

We do not say, elect a farmer irrespective of all other considerations. Far from it. On the principle that a drowning man will clutch at a straw, there can be little doubt that the weak and unscrupulous Ontario Opposition will make use of this and every other influence that can be pressed into their service We know of one constituency in which there is a one-saw arrangement of this kind. If Reformers bring out a farmer, the Opposition will bring out a town man; but if the Reformers choose a town man, the Opposition will run a farmer, and raise the agricultural cry with about as much sincerity as the N. P. cry was raised at the last Dominion Election.

Being a farmer is only one of many claims a man ought to have on our support before we vote for him. We will not forget to scrutinize his principles, while we honor his calling. A wrong vote is just as mischievous when given by a farmer as it is when given by anybody else. Therefore, let us first satisfy ourselves that he is a good man and true; then if he be a farmer, so much the better.

There are several good and sufficient reasons why rural constituencies ought to select farmers to represent them, if they can in justice to all the interests and considerations involved.

1. It is the right and duty of farmers to have a certain share in the representation of their country.

2. Their influence is needed to secure strict economy in the public service.

3. Class-legislative measures needed to promote agriculture, and of these none are so well fitted to judge as farmers.

4. Farmers hold the purse-strings of the nation, and ought to keep a good look-out where the money goes.

5. They owe it to their sons to demonstrate that there is as direct and accessible a road to Parliament from the farm as there is from the lawyer's office.

We could say much in support of these reasons, but space does not admit now, and the subject is a good one to take up again when there is an opportunity to do so.

Moderate Drinkers.

In New York there has been formed a Society called "The Business Men's Society for the Encouragement of Moderation in the Use of Intoxicating Drinks." The President in his address gives the following, as the principles upon which the Society has been formed:—

"Recognizing the great evils proceeding from intemperance, and also the fact that extreme abstinence views will not be entertained by a large class whose instincts and habits entitle them to the name of good citizens, we seek to utilize the influence of this class in mitigating these evils. We are fighting the same enemy that the most extreme total abstinence advocates are contending against, but we choose rather to flank the enemy than to uselessly hurl our forces against his strongly intrenched position and have them repulsed in a gallant, but vain, attempt to storm the works. We aim to sustain the stage of those who are feeble, by a friendly word to such as would passage refuse to listen to more radical counsellors, to strengthen the resolutions of those who are weak, by a series of pledges, among which is one which discourages the thirsty custom of 'treating' so common with Americans; and by cultivating a taste for lighter and more wholesome beverages, do a work of true temperance which all good citizens can commend." These were four pledges proposed. The white pledge bound the signer not to drink during business hours. By that modified engagement the man was not deprived of the social pleasure of [illegible] our citizens' [illegible]. The blue pledge promised "not to offer the glass to another nor to drink at another's expense." The next pledge was the red, white and blue. It binds the signer to drink nothing stronger than wine or beer, and these only at meals and in moderation. The President in his address suggested that total abstinence should be tried for a specified term, and if not convinced at the expiration of that time that it was better to do without anything in the shape of intoxicating liquor, then he urged the adoption, with great care and determination, of one of the moderation pledges which would be found best suited to their circumstances.

Smith Council.

TOWN HALL, Bridgeworth, April 8.—Council met in special session—all the members present. P. J. Ball tendered his resignation of the office of Deputy Reeve of the Township of Smith. On motion of Mr. Garbutt, seconded by Mr. Middleton, his resignation was accepted, and he was appointed Clerk and Treasurer of the Township of Smith. On filling the necessary declaration the newly appointed Clerk entered upon the duties of his office. A by-law confirming the appointment of Clerk and Treasurer and fixing the salary at $200, and the Treasurer's bonds at $2,000, passed its several readings, was signed by the Reeve and the corporate seal attached. On motion of Mr. Fitzgerald, seconded by Mr. Garbutt, the following resolution was passed:—

Whereas,—At this our first meeting, after the demise of our late esteemed Clerk and Treasurer, whose faithful service for upwards of twenty-seven years, has endeared him not only to the members of the Council and their predecessors in office, but to the public generally, we deem it our duty to place on record our appreciation of his services as an officer, and his merits as a man. Therefore,

Resolved,—That we deeply regret the loss of our esteemed friend, Christopher Barton, Esq., whose mature judgment, and long experience in municipal matters was so great an assistance to us in our deliberations, and that we tender to the afflicted relatives our sincere condolence, and earnest sympathy in their sad bereavement, and assure them that he will always be remembered by the members of this Council and the inhabitants of the Township, with respect and regard, and

Resolved,—That a copy of the foregoing resolution signed by the Reeve and certified by the Clerk, be transmitted to the relatives of the deceased.

Mr. T. B. Fitzgerald tendered his resignation of the office of Councillor for the Township of Smith. On motion of Mr. Middleton, seconded by Mr. Garbutt, his resignation was accepted. After ordering the Clerk to call a public meeting of the electors on Monday 21st. inst., for the purpose of nominating candidates to fill the vacancies, the Council adjourned.—Com.

General News.

The Lindsay Council, after a long consideration, have refunded tax money collected from County Judge Dean on his salary.

If you have tears to shed prepare to shed them now; carpet dusting is at hand.

A Tory oatmeal miller in Galt is said to be so disgusted with the tariff that he emphatically declared the other day that "Sir John and the Dominion might go to——and he would go to Texas."

What a Manitoba fever has taken possession of the people! Seekers after fortune go to the North-west this season from every Province of the Dominion. Manitoba may yet be the seat of Canadian empire.

The Quachita *Telegraph*, of Louisiana, says "The sublime indifference shown by many of the patrons of this paper as to the state of its finances calls for comment: We are too proud to beg, but it is highly probable we shall have to resort to stealing to make a living."

The small boy of a clergyman in Portland Me., was detected by his mother in the act of "ornamenting" with his jack-knife a costly inlaid table by a deeply cut carving of his ideal steamboat. A day or two after the lady saw him from the door looking with admiring eyes at his partially-completed work, and heard him say: "By George! I wish I had got the smokestack on before she licked me."

The measures taken to prevent the spread of small-pox in Nova Scotia have been successful, no new cases having been reported, and the disease is gradually dying out.

A new grievance against the tariff has been discovered, and Mr. Mercer, the representative of South Waterloo, trembles at the prospect of meeting his constituents. It appears that owing to the limited extent of the German population in Canada it is impossible to print Lutheran tracts at reasonable prices, and all such useful literature has hitherto been imported from Cleveland by the pastors of Lutheran churches. A petition setting forth this grievance is being prepared.

Somebody Says.

"There is something peculiarly attractive in a horse. His intelligent eye and ear, his lofty carriage, his free and graceful motion, his vast strength, his obedient temper, and his indispensable use, all endear him to us. We have to look at his fine proportions, and take in the inspiration of his energy and power," but it is only when the horse is properly cared for—when he is free from disease, or unsoundness of any kind that he will exhibit these points of attraction, and without which he is of little value. A package of "Dorley's Condition Powders and Arabian Heave Remedy," should be in possession of every man who owns a horse, to be used in case of emergency. Don't fail to get it. Remember the name, and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all Medicine Dealers.

Foot Mats.

Cut all your woollen scraps of cloth and flannel into pieces half an inch wide and three long. Black, white, and colored—a great many. Get a ball of jute twine for ten cents, and set up on strong steel knitting needles, five stitches, and knit one row. Knit the first stitch on the second row, and between the needles, at right angles with the stitch, put a piece of your cloth, and knit another stitch. Then turn the end of the cloth that points toward you out between the needles, leaving both ends of the cloth sticking from you, and so all the way across, two stitches for every tuft of cloth. Having knit one row of tufts, knit one plain row of the twine to get back again to the side of the mat where you began. The ends of the cloth must be from you as you put them in. My mat is one yard square. The centre is of black and the border of bright colors, knit in strips, nineteen inches and nine tufts, one hundred rows of tufts in length. It is inexpensive, all it costs being the twine. Be sure you ask for jute string.

Bank of England Notes.

Few of the persons who handle Bank of England notes ever think of the amount of labor and ingenuity that is expended on their production. These notes are made from pure white linen cuttings only, never from rags that have been worn. They have been manufactured for nearly 200 years at the same spot, Laverstoke in Hampshire, and by the same family—the Portals, who are descended from some French Protestant refugees. So carefully is the paper prepared that over the number of clips into the pulp made by each workman is registered on a dial by machinery, and the sheets are carefully counted and touched to each person through whose hands they pass. The printing is done by a most curious process in Mr. Cox's department within the Bank building. There is an elaborate arrangement for ensuring that no note shall be unduly like any other in existence. Consequently there never was a duplicate of a Bank of England note except by forgery. It has been stated that the stock of paper notes for seven years is about 24,000,000 in number, and they fill 12,000 boxes, which, if placed side by side, would reach three miles. The notes, placed in a pile, would be eight miles high; or if joined end to end, would form a ribbon 18,000 miles long; their superficial extent is more than that of Hyde Park: their original value is over £3,000,000,000; and their weight over 113 tons.—*Paper Consumers' Circular.*

Bryan's Pulmonic Wafers.

After war, pestilence and intemperance—colds lead to the greatest destruction of human life, mainly because it is considered by many to be of no consequence, and hence systematically neglected, until a simple, curable disease, is converted into a fatal pulmonary one. Every one troubled with what is called a slight cold or cough, should immediately use "Bryan's Pulmonic Wafers." they allay irritation at once, and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all druggists and country dealers at 25 cents a box.

Political and Other Notes.

It is not expected that Parliament will adjourn until the third week in May.

Mechanics who work in marble do no bless the N. P.

John A. now wants protection on the Letellier question.

What will the harvest be if this weather continue a few months longer?

"When do you intend starting for Manitoba?" is the prevailing interrogatory just now.

It will probably prove a source of satisfaction to the supporters of the Hon. Mr. Mowat's Government that Mr. Morris has been again nominated for East Toronto. Next time he will go before the constituency with the *prestige* of a third defeat.

A Parliamentary Companion for '79 has just been issued by Mr. Mackintosh, editor of the *Citizen*, and will shortly be in the hands of the booksellers. It is said to be enlarged and improved. To all who take an interest in politics this work is indispensible for reference.

The hectoring tone adopted by the *Mail*, and other organs of Sir John Macdonald against England, in regard to the tariff and Letellier matters, is believed by many to be not unconnected with the chargin evinced by the Premier at the success of those influenced in England, that have hitherto prevented his being sworn in as a member of the Privy Council. Backed by an enormous majority, he thinks to bring the British lion on his knees and extort from his fears that which he could not succeed in drawing from his magnanimity.

The duty which the newly-framed tariff places on dairy salt and cheese cotton has caused much bitter feeling among the dairymen of this country, and of Ontario in general. It is well known that Canadian salt is not used by nor is it suitable for the use of dairymen. Liverpool salt is entirely used by the dairymen of Canada, who will now have to pay a large amount more for it, thus placing them at a disadvantage in competing with the American and English cheese manufacturers.

A report comes that the Hon. Mr Joly and Sir Francis Hincks have been selected to represent the Quebec case in London, and it must be admitted the choice of those gentlemen—assuming that the report be true—is eminently wise and judicious. No one is so well acquainted with all the circumstances that conduced to the dismissal of the late Boucherville Cabinet, and no one is better able to place those circumstances in succinct and proper form before the Imperial authorities than Mr. Joly, and, perhaps, no abler exponent of constitutional law and practice, especially as regards the colonial possessions of the Crown, could possibly be chosen to plead the case of Lieutenant-Governor Letellier, than one who has long served both Britain and England—Ex-Governor Sir Francis Hincks.

The editor of the Winnipeg *Standard* went out on a trip of one hundred miles on the Canada Pacific, and though he had faced many dangers, he did not enjoy a moment's pleasure after learning that the train carried a large amount of nitro-glycerine, and hearing the stories of the workmen of the utter destruction of every animate and inanimate object within its deadly range. The editor says:—

They have a story—it is a fact, by the way—of one of the native men having started from the lake with a package of this rock destroyer on his back. He went out from the camps all right, but from that day to this nothing has ever been heard or seen of the glycerine or the man. Some hold that the man scarred and it and ran away, but by far the greater part believe that both men and package were blown into infinitesimal atoms—leaving no vestige of either behind. The fact will undoubtedly crystallize in this latter shape.

The Great Shoshonees Remedy

The Great Shoshonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicine plants and herbs; the various properties of these different ingredients, when combined so as constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys digestive, Organs, Nervous System, &c., restoring their functions to healthy action, and being purely vegetable, is as harmless as nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases, arising from its impurities. It stands far ahead and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a summer restorative it stands unrivaled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to bilious Colic, Dysentery, Indigestion, &c., should take the Shoshonees Remedy. Price of the Remedy in pint bottles $1; Pills, 25 cts. a box. Sold by all medicine dealers.

Mitchell's Belladonna Improved India Rubber Porous Plaster.

There never has been a time when the healing of so many difficult diseases has been vested by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when chemically compounded, is full of electricity and when combined with the pure medicinal gums, is found to be one greatest healing medicine ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one a dozen Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming, supporting and strengthening qualities of all other Plasters. Many who have been relieved of RHEUMATISM, NEURALGIA, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plaster contain, and which belong only to the genuine, these spurious thing to a healthy condition.

They are very safe and reliable, and very effective; and a cure can be WEAK BACKS, PAINS in the SIDE AND BREAST, and are invaluable to those who have a CHILLY or LANGUISHING feeling, and other parents COMPLAINTS. Some cure all as they believe they are [illegible] by the use of them of a few [illegible] Manufactured by GEORGE E. MITCHELL [illegible]

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly, or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following tables:—

Each $100 will be Repaid by	Equal Annual Instalments of	$	c.	Each.
5	"	23	40	"
6	"	20	00	"
8	"	17	75	"
10	"	15	80	"
12	"	14	30	"
15	"	13	20	"
18	"	12	60	"
20	"	12	00	"

In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

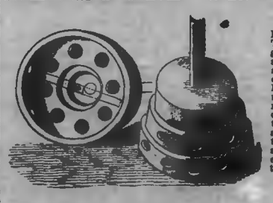
Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.

(Patented July, 1878.)



Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed.—no machinery about it to get out of order.

For Dashers, Rights, Etc., address—

A. W. TULLY, Smith.

Or WATSON, Peterborough.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a revered Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be too good to be true.

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very distressable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathesome disease, Catarrah, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister,

Fort Elgin, Ont., Aug. 24, 1878.

Ask for Littlejohn's Constitutional Catarrh Remedy and take no other.

MANHOOD:

HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

☞Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the appliances of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

☞This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York. Post Office Box 4586. 2-1

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address REV. A. WILSON, 149 Penn St., Williamsburgh N. Y.

PILES.—Dr. Fisher's Celebrated Pile Remedy is the best ever known for Piles of every kind, (*Bleeding, Itching, Blind, Internal, &c.,*) and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a speedy and permanent Cure. It is prescribed by all physicians who are acquainted with it. Certificates readily yield to it. No surgical operation required. Try it and relieve your misery at once. Only 50 cents for a large package. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ABER, 83 Ann St. N.Y. 49-52w

PIMPLES.—I WILL MAIL (free) the recipe for a Vegetable Balm that will remove PIMPLES, BLACK HEADS, and leave the skin soft, clear, and beautiful. Any lady having pimples or blotches on her face, by sending a two cent stamp to Box 2959, Boston, Mass., will receive the recipe by return mail. Address

Loved and Lost.

'Tis true 'tis every word stamps good,
With tender sheer and pathos fraught,
That went up to the ears of God
A sainted, heavy sighs;
Who sang the song, or wrote the words
Is nought, and so forget;
Kind spirit, some heart-broken tongue,
And a fair face, that's over!

The white sun of her youthhood
To smile a fond memory gives,
In the form of a wife and mother
Those remained there;
While any sweet face of the fireside
A little mind, with visage drawn,
And forehead wrinkled lady.)

When May-time blushed from shore to shore,
The Summer's bright conquest,
When every flower and leaf and tree
Of wild and fruitful nature,
We laid her where the Spring-times wept,
And Autumn hued the leaves,
The moaning golden hours that slept
So fair, so calm, so cool,
The hills, long, through the hands,
A story for lovers and never,
Patient, her in the ever,
Forever and the

What the Papers are Saying.

(From the St. Catharines News.)

All the hands on the Government scow at Thorold but three have been dismissed, and these three are Orangemen, while five of those who were dismissed are Roman Catholics, against whom no charge of wrong-doing has been made, and some of whom had been in the Canal Service over twenty years. The other three dismissed men were Protestant Reformers; and in the room of eight men the same number of new hands have been taken on, every man being it is said, an Orangeman. Even if the new men are not all Orangemen the facts are bad enough.

(From L. D. Sawyer & Co., to the Spectator.)

You say "Mr. L. D. Sawyer states distinctly that there has been no reduction of wages in his establishment, or any intention or thought of such reduction since the introduction of the new tariff, or on account of such tariff." There are two mistakes here. In the first place Mr. L. D. Sawyer said nothing to you on the subject. Some other person connected with the establishment may, but he *did* not. In the second place, there has been a reduction made in the wages of some of our men since the introduction of the new tariff.

(From the Montreal Witness.)

A complete though painful answer to those who believe that the English people are convinced against their will that a protective policy will render a country that adopts it prosperous, is to found in the intelligence conveyed in a special cable from London that Dominion bonds have since the adoption of the new tariff fallen two per cent. It must be remembered that only a few days since news was received of increased demand for foreign bonds, in consequence of the lack of confidence in home securities.

(From the Stratford Beacon.)

Scarcely a day passes without some official being dismissed to make room for the relative or friend of a Cabinet Minister. Last week the assistant auditor of the Intercolonial railway was sent about his business to make a place for the brother-in-law of the Minister of Justice, and the ticket agent at Moncton to make a vacancy for the brother-in-law of the Minister of Finance.

(From the Kingston Whig.)

At once to punish Lanark and to cajole the Queen city the defeated Selkirk is now moving his family and effects, bag and baggage, to Toronto, that peradventure by these means he may propitiate enough support again to win his present seat if only by the skin of his teeth as he did before.

(From the Toronto Globe.)

It now appears that the reduction of wages in foundries and agricultural implement factories is rapidly becoming general, and the Ministerial organs are kept busy in first denying reports to that effect, and subsequently explaining them away.

The Sugar Refining.

(From the Toronto Globe.)

There is yet another beautiful feature about the Redpath monopoly, which we have not ventilated as yet. Old grocers well recollect the time when it was just as much as three business were worth to question the weight or the quality of Mr. Redpath's sugar. More than once it happened in Toronto that an unfortunate grocer who ventured to remonstrate was summarily struck out of the firm's list of customers, and curtly told that he should not have any sugar at all. Of course this would inflict sufficient annoyance and loss upon the defender to force him out of the business. It will be seen therefrom how wise in their generation are those "influential Conservative grocers in Hamilton who, taking fright at the renewal of their servitude, have been getting up a petition to Mr. Tilley about the sugar duties. If those grocers, albeit both Conservative and "influential," had allowed their names to be published as dissatisfied with the rule of Redpath, they would have been likely to incur condign displeasure, and if the supply of their sugar had not been stopped altogether they might easily have been made to suffer somewhat for their indiscretion. This, too, explains how it was that certain Toronto grocers, notoriously opposed to Redpath, and the N. P. as well, became all of a sudden willing to "roar you as gently as a sucking dove" on the sugar question. They knew well enough that they would catch it sweetly on their fingers if they put themselves forward as protectionists. Is it right that this should be so? Is coercion to be allowed to dictate who shall and who shall not conduct the grocery business—for that is what it amounts to?

The Campbell Divorce Case.

The Ottawa correspondent of the *Free Press* says:—There has been another turn in connection with the Campbell divorce case. From some cause, it is difficult to understand what, certain of the Senators exhibit a very strong animus against Mrs. Campbell. There seems to be a fixed determination on their part to prevent a judicial separation of the badly matched pair. The latest phase is a notice of motion by Senator Campbell to refer the case to the Supreme Court to hear the evidence and report to the Senate. Further particulars by applying on the premises, or by letter to Peterborough P.O.

WILLIAM YOUNG. March 18th, 1879. 12-3

CANADIAN ITEMS.

Two hundred emigrants, fifty Germans and one hundred and fifty English, arrived at Bonaventure depot yesterday morning from Halifax. They were booked for Toronto.

It is very probable that the Barrier Grays and Reserve Guards, from St. Albans, Vt., will visit Montreal on May 24th. The 65th Rifles and 6th Fusiliers are obtaining new uniforms for the occasion.

The Nepanee town council have offered a bonus of $4,000 to a woollen manufacturer who proposes removing them from Guelph. The proposed thrush factory scheme in Napanee is proceeding satisfactorily, all the $30,000 of stock having been subscribed.

The recruits for the Manitoba Mounted Police will leave for the scene of their labours on the 1st of May. Others furnishes 35 of the whole number and Montreal about 37. The remainder of the force is from the West. The men are all said to be of fine physique and young.

The other day a man called at the residence of Mrs. Masseear at Scotland, Ont., and left a bottle of wheat purported to be medicine, stating that the village doctor had sent it, and that the lady, who had been ailing for some days, was to take a teaspoonful at intervals during the day. Mr. Masseear was away from home, and his wife knowing that no medicine had been ordered, determined to await his return before taking it, and it was fortunate that she did so, for on the contents of the bottle being analysed it was found to contain a mixture composed of vitriol and other deadly poisons, one of the prescribed doses of which would have resulted fatally within ten minutes. The doctor denied that he had sent the villainous compound, and no trace of the man who left it has been found.

Steps are being taken for the release of John McPherson and Thomas Burke, who were sentenced to the penitentiary last May for causing the death of Mrs. Hela Bennett, in the Township of Pickering. It is now claimed that several of the witnesses were thoroughly unreliable, and that the father of the woman perjured himself at the trial. In support of this latter contention an affidavit is published in the Whitby *Chronicle*, taken on his deathbed by the foreman of the jury at the inquest, to the effect that Miller, the father's name, swore at the inquest that his daughter had said she had no idea who the parties were, while at the trial he testified that his daughter told him she recognized McPherson as on of the parties who had entered the house on the night of the outrage. It also appears that the deceased woman herself was addicted to drink, and of loose morals, and that her husband, who, next to his father-in-law, was the most important witness at the trial, was and is a thoroughly abandoned character. McPherson and Burke, before their conviction bore good reputations, and are very respectably connected.

The Selkirk, Man., *Inter-Ocean* will shortly be issued daily. Newspapers in the Prairie Province are pushing and enterprising. The *Emerson International* has increased its size to eight pages, and the Winnipeg *Free Press* issues a double number every Saturday.

The remainder of the two hundred tons of ore taken out by Mr. Pusey was brought to Belleville over the North Hastings railway on Saturday. The ore has been taken out of the Seymour Mine, Madoc, and is to be sent to Buffalo where it will be smelted and the quality thoroughly tested. Mr. Pusey intends to make contracts with manufacturers in the United States for supplying them with this ore and will probably have a large number of men engaged in the work of getting it out at an early date.

General News.

The New York *World* has a general review of the business of the United States, showing a prosperous outlook and returning confidence.

The New York *Herald* has a cablegram, which must be taken with more than the proverbial grain of salt, stating that it is probable that England will have to abandon her trade with China owing to American enterprise having killed English rivalry in that part of the world.

A petition signed by all the Catholic Bishops of Canada has been presented to the Imperial Government, praying that the Queen, having formerly granted a charter to the Catholic University of Quebec, may grant the same great boon to the Dublin Catholic University.

The following are the ages of some of the principal Canadian politicians:—Sir A. T. Galt is 62, Sir Francis Hincks is 72, Sir John A. Macdonald is 64, Speaker Blanchet is 50, Speaker Wells is 44, Lieut.-Gov. Caucheu is 64, H. L. Langevin is 53, John O'Connor is 55, J. C. Aikins is 56, George Brown is 61, Alexander Campbell is 57, William McMaster is 68, D. L. McPherson is 61, Edward Blake is 46, Mackenzie Bowell is 56, R. J. Cartwright is 44, L. P. Holton is 62, Mr. Huntington is 52, Alexander Mackenzie is 57, Mr. Masson is 46, David Mills is 43, C. F. Fraser is 41, A. S. Hardy is 42, A. W. Lauder is 45, William Macdougall is 57, Mr. W. B. Meredith is 39, Oliver Mowat is 59, T. B. Pardee is 49, C. S. Wood is 49, Dr. Tupper is 56, Adam Crooks is 52.

At a meeting at Frankfort yesterday of the German Social Political Association 250 delegates from all parts of the empire were present. A debate on protection generally was adjourned, but the meeting by 52 to 50 adopted a resolution opposing the proposed duties affecting agricultural interests.

A meeting was held at Rome lately of representatives of Republican associations, pursuant to the call of Garibaldi, who presided. It was resolved to agitate for universal suffrage, and for the abolition of the deputies' oath of allegiance. The meeting sent a greeting to their brethren of Italy unredeemed.

In the House of Commons, Sir Stafford Northcote, Chancellor of the Exchequer, said it was possible there had been an advance of troops in Afghanistan, but the Government had not sanctioned the advance upon Cabul. He also said that the Government had received no information that the Sultan had decided to refer the Greek frontier question to the decision of Europe.

The thousand pounds of bullion has been shipped from Halifax to Montreal in bar, as an experiment.

Aylmer is to have a new [illegible] a mile round.

THE GRAND JUNCTION.—From a gentleman who has lately passed over the line of the Grand Junction Railway we learn that work on the grading between Campbellford and Hastings is going on rapidly. Operations are retarded by the frost not being yet out of the ground, on which account the number of men employed is limited, although as many are engaged as can profitably be given work. The contractors, our informant says, appear to be very anxious to push forward the work.

AGRICULTURAL.—Although the weather continues dull and unpleasant, farmers whose lands lie high are taking advantage of the prevailing dryness to sow barley, a large acreage of which has been sown within a few days past. It seems probable that the area of barley planted this season will be fully equal to, if not grater than that of last year.

The following incident happened in one of the public schools of this city:

Teacher—"Define the word 'evaporate.'"

Scholar—"It means to hollow out."

Teacher—"Construct a sentence in which the word is properly used."

Scholar—"The baby excavates when it gets hurt."—*Philadelphia Bulletin.*

A lover, who had "gone West" to "make a home" for his "Birdie," wrote to her: "I've got the finest quarter section of land (160 acres) I ever put my foot down on." Birdie wrote back: "Suppose you buy another quarter section, John, so we can have a lawn around your foot!" John "made a home," but Birdie never was mistress of it.

Owing to Mr. Joly's departure for England in connection with the Letellier question, the opening of the Quebec Legislature will be delayed until June.

The poll was held on Thursday, last, in Charlottetown, P. E. I., according to the Canada Temperance Act of 1878 which resulted in the adoption of the Act by a vote of 857 to 233.

Make no man your idol, for the best man must have faults; and his faults will insensibly become yours, in addition to your own. This is as true in art as in morals.

No man ever regretted that he was virtuous and honest in his youth, and kept aloof from idle companions.

Guelph, Ont., was inaugurated as a city on Wednesday, with an appropriate ceremony.

The by-law respecting the Dunkin Act has been carried in the County of York, so far as heard from, by a majority of 825.

Several of the Montreal Volunteer Battalions will have new uniforms for the 24th May.

EDITORIAL NOTES.

Ottawa *Free Press*:—It is becoming increasingly evident that the main influence brought to bear against the building of the Ottawa Bridge, is moved less by fear of that project than by the impetus which the grant of the amended charter would give to the building of the Toronto and Ottawa Road. It is satisfactory to find that this fact is fully appreciated all along the line between this and Toronto, both by Conservatives and Reformers—notably by the Conservative member for Peterborough in the Local, who is leaving no stone unturned in his efforts to secure the Ottawa and Ottawa Road, the charter prayed for.

Be it remembered that the Tory position on the Quebec Constitutional question is this:—Sir John's personal advice has been the immediate dismissal of Lieut-Governor Letellier; the reference to England is acquiesced in as a matter of courtesy to the request of the Governor-General. We particularly wish those of our readers who are Conservatives, to put a pin there; for, if we mistake not they will shortly see the organs of their party frantically trying to get out of that position, swallowing their plainly expressed opinions, and denying their present clear declarations. Just wait and watch.

How does it come that manufacturers have still to be bribed by local bonuses and exemption from municipal taxation, just the same as before they had encouragement by a Protection tariff? A few short months ago Protection by the nation was held forth as the one thing needed to establish "ringing savils, busy looms and smoking chimneys" in every corner of the land. Municipalities were led to believe that they would be freed from persecutions of bonus-hunters and tax-exemptionists; and that the N. P. Government would do all the encouragement, to the creation of factories without municipal outlay or the loss of taxes But things are just the same; and one is led to doubt, from increased clamour for bonuses and relief from taxation, if the manufacturers have got any encouragement at all from the Dominion. The spectacle of N. P. advocates trying to aid bonus-grabbers and tax-shirkers, also leads to a suspicion that they have no abiding faith in their own prescription. Poor manufacturers! Poor Protectionist politicians! They badly need municipal bonuses and freedom from municipal taxation to save them from destruction amid the ruins of their own hideous temple!

Protectionist papers point boastfully to the fact that the price of coal has not risen, though a duty has been imposed on its importation. Why has it not risen? By their very reference they acknowledge that there is something anomalous as regards coal, and that the first tendency of an import duty is to raise prices. But so far from coal being merely no dearer since the imposition of the duty, it should have been very much cheaper. Prices were never known to be so low in the United States as they are at the present time. Stove coal sells at New York—a considerable distance from the mines, be it remarked—at from $2.70 to $3.75 per ton. The consumers in the United States get the benefit of these very low rates, and so would those in Canada, but for the tariff. Even with a duty of fifty cents per ton, coal should be sold in Canada at a lower rate than ever before; but it is not. The dealers make the duty an excuse for sticking to the old prices; and the Protectionist papers have been helping them in their imposition on the public by claiming credit for them that they did not make coal dearer, instead of selling it cheaper, as they should do. So do the people always suffer under Protection. It protects the fraudulent at the expense of the honest and the poor.

Mr. James Young, ex-M. P. for South Wentworth, has accepted the Reform nomination for North Brant in the coming election for the Local Legislature, and was chosen by a large majority to succeed Mr. Wood in an able speech, and has already taken his seat in the Provincial Parliament. He is a thorough debater and advocate of the Government.

Farm and Household.

Good Layers.

A prominent writer on poultry matters says: "For laying hens, select large, strong healthy birds, of the Leghorn varieties, with large square bodies, without regard to fine points, such as pure white flat earlobes, or very yellow legs, or combs with just five points, or plumage that is perfectly white in the white variety, or without a white speck in the brown. It is not that these points are detrimental to the health or the vigor of the birds, but a constitution has too often been sacrificed to them, which often results in a strain of enfeebled though handsome fowls. The Leghorns are acclimated American breeds, which originated from birds brought from the Mediterranean, and they have been in this country by circumstances that have given them a pre-eminent position for the farmer, when birds such as are above recommended are selected. Other breeds, or crosses from them, are much better than the Leghorns, or any other of the smaller breeds. Chickens that the result of Dorking cock and Brahma hens are larger and mature much earlier than the other. Moreover they are hardy, fleshy, tender and fine flavored. Houdans in place of Borkins are also good to cross on Brahmas, or to breed with the first mentioned cross, as they keep up the size and quality. "Plymouth Rocks" are also a good table fowl, and are good to cross with the above.

How to Pack Butter.

It is suprising that some of our enterprising owners of creameries have not made themselves acquainted with this simple Danish method of packing butter, and by experiment determined its practical application here. It consists simply in packing in tin cans from 2 to 10lbs., and soldering them airtight. Thus packed, prime butter will stand a long ocean voyage, and reach a distant market as fresh and aromatic as when sealed up. The cost of packing will be slightly more, but this extra cost will be more than recompensed, even in our home market, by preventing the great deterioration it suffers in holding for a better market. The Danes have simply applied to butter-packing the method used by our fruit preservers; and fruits are much more perishable than butter, yet this plan has been used for fruits with entire success. We trust this method will be thoroughly tested by a large number of creameries during 1879, and that it may be the means of greatly extending our exports.

A Good Hint.

If you want the strawberry bed that has borne you a good crop one season to bear well the next year, you must work it out thoroughly and manure well as soon as it is through bearing. Don't put off until the bed is filled with weeds and grass. First plow or spade the ground between the rows, cutting the rows down narrower; then work the rows out well with a fork potato-digger, and scatter in them a good quantity of well-rotted compost, guano or poudrette. It is a good plan to draw fresh earth in among the plants. —*Fruit Recorder.*

Make Your Son Industrious.

Fathers, bring up your sons to be industrious—to labor. It is essential for a young man to learn a trade, even though he does not intend to obtain a livelihood by it. He will then have something upon which to fall back in case of need. Should misfortune in years come to assail him, he will have something on which to rely—the skill which

The Examiner.

PETERBOROUGH, MAY 1, 1879.

PROVINCIAL EXPENDITURE.

Of late the *Review* has been publishing tables of figures, with the intention of insinuating into the minds of its readers the idea that much more money has been spent by the Reform Administration of the Province than was expedient. We say "insinuating," for even the *Review* is not reckless enough to make a direct statement to that effect, based on any of its figures. Its comparison of the expenditure under Sandfield Macdonald's Administration, and that of his successors, in drainage loans, schools, and public works and buildings, are clearly to the advantage of Reform Ministers. What it calls an "over expenditure" under these heads by the Mowat Government has been just so much more money actively employed for the good of the people of the Province. Even the most rabid Oppositionist cannot reasonably aver that the annual average of $76,468, loaned on drainage debentures since 1871, as against $28,333 annually for the three years previous, was not just $38,135 more each year devoted to the permanent improvement of land within the Province. It is not very long since the *Review* itself spoke in high terms of praise concerning the advantages of drainage. Is it better then to use money in encouraging so good a work, or to hoard it up uselessly? We feel certain that the answer of every intelligent citizen will be in favor of the putting of the money of the Province to such good use, for the benefit of the Province. It must be remembered that this money has not passed wholly and absolutely from the Provincial funds. On the contrary it is loaned, as a fair rate of interest to municipalities, by them to be re-loaned to such owners of land as desire to avail themselves of so good an opportunity of draining their farms. The lands so improved furnish ample security for the amounts advanced. A double advantage is thus secured in the investment of Provincial funds in a safe and profitable manner, and in the enhancement of the value of lands improved by the use of the money so invested. For the extension in a practical manner of this wise policy, the Mowat administration deserves the support of every lover of his Province.

In the same way the annual expenditure of $239,490 for common schools, and of $78,713 for higher educational institutions, as against $173,361 and $52,905 under Sandfield Macdonald, represents an annual average increase of $91,935 towards improving and keeping in a thoroughly efficient state that system of education in the Province of Ontario, which justly evokes the pride of its people, and the admiration of the whole civilised world. It means that just so much less has been asked each year from the ratepayers of the different municipalities for the proper working of their schools. Where would have been the sense of holding this money idle and taxing each and every township, village, town and city, just so much more for school maintainance? The *Review* deserves no credit for generosity for excluding from its calculations the expenses of the Educational Departments, the Depository, *Journal of Education*, and cost of inspection; for an examination of these items tells in favor of the administration it seeks to assail. Its remark concerning the increase in the cost of inspection is of a piece with all and every of its insinuations regarding the outlay of money by the Mowat Government. An increase in the number of schools, and in the work called forth by them, easily explains a greater outlay of money; if the efficiency of inspection is to be kept up. It is well to remember too that the new system of school inspection was introduced by the Sandfield Macdonald Government, and has been wisely followed out by their successors.

As for public buildings and works: The annual average increase of $76,468 under Reform Administration, was not so much more devoted to the establishment of permanent property of the Province, all of which is in existence to show for the outlay. The money is not lost; for there is substantial value representing it on every side. Even in this district there are works that present themselves as monuments to the wisdom and prudence with which the Mowat Government has spent the money of the people for the good of the people. What else would those who pretend to complain of the outlay have done with the money? It was on hand to be used; and how better could it have been used? Would not the Province be worse off to-day if it had all this money and lacked the good things which it has procured? The comparison is like that of two farmers, one of whom lays out part of his money in safe and paying investments; part in educating his family and providing necessities and comforts for them; part in improving his farm and putting up good buildings on it; reserving another part for future demands that may arise; while the other man fears to lend his money on any security, neglects his family morally and physically, is to miserly to keep his farm and its appurtenances in order, and all that he may gloat over an accumulation of a useless hoard. Which is the true picture of the true Canadian farmer and the true Canadian Government? Surely not the miserably miser.

It is perfectly true that all the money expended during the last seven years for drainage loans, schools, public works, and railways, and by surplus distribution could have been "saved." But at how great a cost? No drainage improvements; no school advancement; no asylum and prison extension or other public necessities; no railways; and no settlement of the important interests to which the surplus was devoted. Just fancy for a moment the disgraceful and utterly chaotic state of the Province did it lack all these advantages given by wise Reform Administration, and then understand the sheer folly and complete madness of Opposition contentions. True all these things, or most of them might have been obtained by taxing the municipalities for the money to furnish them. But the very men that cry out about Provincial expenditure also talk in horrified accents of the high taxes. They would have the Provincial money unexpended, municipal taxes lowered, and yet procure popular necessities and advantages, without outlay. Can absurdity go farther?

THE WEST RIDING.

By announcement in another column and by posters, it will be seen that a convention of all those in favor of the retaining in power of the Mowat Administration will be held in the rooms of the Young Men's Reform Association, on Saturday the 3rd of May, at 2 o'clock p. m., for the selection of a candidate to contest the Riding in opposition to Mr. Scott.

But little time now remains for the work of nomination and organization, and what does remain should be utilised in active and careful preparation, so that after the smoke of battle there may be neither regrets nor reproaches for dereliction of what is so manifest a duty. The Mowat Ministry well deserves the public confidence. The Opposition cannot successfully gainsay this fact. There will be no stone left unturned, however, to overturn the Government in order to obtain control of power in Ontario for the Conservative party. Under these circumstances it becomes the duty, not only of every Liberal but every independent admirer of good government, to give the men who will support the Mowat Government an active and a hearty support in the canvass and at the polls.

The *Times* says that Mr. James Hogan is going to contest the Riding as an independent candidate, but we cannot believe that this gentleman is willing to allow himself to be made a tool of by a clique of which we will have more anon, should he be a candidate. In the meantime we hope to see all the prominent Reformers of this Riding at the convention on Saturday. Let there be no apathy in the ranks, so that West Peterborough once more may return a supporter of the Mowat Government.

THE FARMERS' SALT RAISED IN PRICE.

"We tell you," and the Tory orators shouted themselves hoarse as they said it, "that the consumer does not pay the ex-"tra duty. The idea is absurd—an ex-"ploded theory of Adam Smith and "Bastiat. Why, when the protective "duty is put on, competition will spring "up, and this will keep the prices down "to a proper level. There is no danger "of the consumer having to pay the "duty." So they argued, and so all who ventured to disagree were held up to derision as speculative theorists—people altogether too idealistic for this practical age. Well, the National Policy came into force, and with it a duty ranging from eight to twelve cents, per hundred lbs on salt. On the Tory theory, this should make no difference to the consumer. Its only effect would be to give the salt trade exclusively to the Canadian manufacturers, but it should not increase prices, because competition would keep the cost at a reasonable point. Let us see what the facts are! On Wednesday, the 16th of April, the salt manufacturers of the Huron district held a meeting at Clinton, at which a *general increase in price was agreed on*. The result is that a circular is sent out by the manufacturers to the dealers, stating that quotations have been raised. The ordinary salt in use by farmers and working people has been placed at an increase of fifteen cents per barrel over the former price, and this sum—dear it who may—will have to be paid by the person who uses the salt. Free traders may be theorists, but their theories possess the virtues of being sound, as the great body of consumers in Canada will find to their cost.

Will the *Review* interviewer trot out and enquire if the price of salt is not increased by the operation of the National Policy. We shall see, what we shall see!

John A. knew what he was about when he appointed so many official assignees. The liabilities of insolvents last quarter were $2,000,000 over the corresponding quarter of last year.

The county of Carleton, N.B., has adopted the Scott Temperance Act. A vote for the adoption of the Act in King's county, P.E.I., on May 20th, and in the county of Lambton on the same day.

Mr. R. W. Phipps has finally weighed the Macdonald-Tilley Government in his balances, and, like a good many sensible men, with, perhaps, better balances, he has found it wanting. Mr. Phipps in his last contribution to the Globe formally withdraws from the people to which he says he was only allied for particular purposes.

As a consequence of the B. P. the cultivators of Western Canada have raised the price 15 cents per barrel.

In the House of Commons, on Tuesday evening, a Bill repealing all insolvent laws, was passed by a majority of 57. The excitement was intense.

Grip points out in its cartoon that we can import Kanuyism, the rag baby, and all the other evils from the United States, without duty, but nothing of use is permitted to enter free.

At a meeting of the Reform Association of East Toronto on Thursday evening last, it was resolved that the name of the Hon. Mr. Mowatt be submitted for approval to a mass meeting of the electors of that division. It was announced that Mr. Leys declined to run, for personal and business reasons.

The Protectionist papers are now cruel enough to blame those with whom the "National Policy" is playing the mischief for having speculated and been bitten. Just as if Protection was not the direct promoter of speculation as opposed to legitimate and honest trading. All trade under the present tariff is a species of gambling—a grab game in which the cleverest rogue stands the best chance to win.

The Toronto *Telegram* very neatly puts the situation in this light: The Tory journals never tire telling the people what cheap Government they had when Sandfield Macdonald was in power, and what expensive Government they have with Mr. Mowat in power. But the trouble is that the people cannot have Sandfield Macdonald back again if they wanted to, and that if they turned out Mr. Mowat they would have to fall back on weak and inexperienced substitutes."

Mr. Blezard is meeting with excellent success in his canvass in the East Riding, and with the united action of the agricultural community, of which Mr. Blezard is a prominent member, will be triumphantly returned on the 5th of June. Let the entire Riding who wish to repel the onset of a determined and unscrupulous enemy emulate the example of their leader, and rally to the support of their standard bearer. Vigilance is the price of liberty, and activity—hard and united work—is the price of victory. Herein let the friends of good government fail not. The way to avoid all after claps of regret and reproach, is to organise and work unflaggingly till, not merely on, or just before, election day, but from now until the last vote is polled. If the honest yeomanry of the East will only do so, and appearances indicate that this is their intention, there need be no apprehension that Mr. Blezard will be triumphantly returned, and the farmers will have in their representative a gentleman who will represent them with credit to himself and advantage to them.

HANLAN IN ENGLAND.

His chances for the coming match with Hawdon on the 5th May.

Toronto, April 28.—The *Globe* has the following cablegram: 55 Cheapside, E. C., Saturday April 26, 1879.—I proceeded to Newcastle on Wednesday and found Hanlan quite despondent. He had a hard time training and is suffering from the effects of bilious attack. His friends and backers are alarmed. A conference was called and those present were anything but pleased at present appearances, but they say "We hope for the best. If Hanlan is well he can defeat Hawdon if not better we shall pay a forfeit as we will not allow Han'an to row when he is physically unfit. We still hope all will come right, but the present prospects are gloomy, bad weather, cold, and his indisposition have not been encouraging.

ANOTHER ACCOUNT.

The *Mail* has the following: Newcastle, April 29.—Hanlan was somewhat better yesterday, and was able to take his usual practice. At ten o'clock he and John Bright got afloat; they took an easy row upon the ebb, from the Suspension Bridge to the head of the Meadows, where they turned, and at a pretty good pace rowed back again. Hawdon got afloat shortly afterwards, and in company with John Higgins, of Shadwell, the ex-champion, who is here coaching the Delaval man, started from Scotswood, and took a fast spin from that point down to the Meadows and back. At four o'clock a whole batch of scullers went out, including Hanlan, Hawdon, Higgins, Bright and Kirton, who all rowed down the river, Higgins and Hanlan going along side each other for about half a mile. Higgins tried in vain to draw out the Canadian, who maintained an easy swing of from twenty-eight to thirty without hurrying himself in the least. He kept on about even terms with the English Champion all the way, but evidently declined to be hastened into a racing pace. At Paradise brickworks Hanlan and Bright turned and came up at a rattling gait until reaching Scotswood Bridge, where the Canadian dropped down to a paddle. Hanlan rowed in his new Swaddle & Winship boat, which he pronounced the best he has ever sat in. Higgins is now looking after the welfare of the Delaval trainer, and announces his determination to do all he can to help him along. He says he wants to see Hanlan disposed of.

THE LATEST.

Newcastle, April 29.—Hawdon has been a sufferer as well as Hanlan, having been troubled the last four or five days with a nasty cough. The Canadian is about all right again, and each day witnesses an improvement in his condition. Unless something very unexpected should occur, there is now no reason to doubt that he will be perfectly fit on Monday next. This morning, unattended, he had a sharp row, in which he scarcely ever got over thirty-two strokes to the minute, and on the return journey he struck a much slower pace than that. In the afternoon Hanlan put off in the Lord Dufferin. He rowed at 32 strokes to the minute, finishing at 36. The spin was a very satisfactory one, and made a decidedly good impression upon a lot of old and good judges. Several bets were made during the day at 7 to 4 on Hanlan, but takers finally asked 2 to 1.

Nihilism in Europe.

Rome, April 29.—It is stated the Pope will shortly publish a document inviting all the European Governments to unite in purging society of the evils which beset it and join in and endeavour to stamp out Socialism.

London, April 26.—A Berlin despatch says Denmark has conferred with the Russian ambassador on the expediency of adopting common measures against Socialists.

London, April 27.—A Berlin despatch says porters to guard the doors of houses, and preventing the posting of placards in St. Petersburg, as required by General Gourko's regulations, cannot be obtained, because the Nihilists threaten all who undertake the service with death. Gourko has apparently been removed from the dictatorship of St. Petersburg on account of the impracticable nature of his orders. A peasant has been arrested with a letter in his possession containing a detailed plan of the attack upon the winter palace and the prison in which Solovieff is confined. Although the letter was probably a hoax the entire garrison was called out. The Czarevitch has received anonymous letters warning him to go abroad. Murders continue to be reported.

As the weather grows warmer the lobster dainty begins to assume the dignity of a dream ender.

The Ontario Convention has commenced the consideration of Reformatory Prisons, up and down. Only the Speaker of the Assembly and the Premier will be exempt from the operation of the new law.

The Crisis in Egypt.

Paris, April 28.—*Le National*, referring to the statement that French and English men-of-war have been ordered to be ready to start for Alexandria, says there are always at Toulon a certain number of ships ready to protect French interests in the Mediterranean. The instructions sent to the ships with a view to Egyptian eventualities are special and technical precautionary measures which it would be premature to interpret as warlike preparations. France expects the Egyptian question will be settled diplomatically.

London, April 28.—The *Pall Mall Gazette* believes England and France have addressed to the Khedive an identical note which will probably put a new complexion on affairs. The Sultan has already informed the Khedive that permanence in his present course will probably involve him in disastrous consequences.

A Paris correspondent says: The note sent to the Khedive demands the appointment of an English Minister and a French Minister not removable without the consent of England and France. If the Khedive refuses, strong measures will be adopted.

The *Standard* says positively the Khedive cannot pay the interest on his debts.

Lakefield.

(*From our own Correspondent.*)

—The village is very dull, no news and very little business doing.

—Gardening and house-cleaning occupy the attention of most of our inhabitants at present.

—The steamer *Chippewa* has again gone to the bottom, much to the disgust of the painters employed upon her.

—The river has been rising for the past few days, and now seems to have attained the usual high water mark.

—The rain of Saturday night and the present warm days is bringing up the grass, which will prove a boon to both farmers and cattle after the long winter and late spring.

—A petition containing about eighty names of ratepayers of this place has been sent to the License Commissioners of the West Riding, requesting them to grant the number of hotel licenses fixed by the village council after the repeal of the Dunkin Act.

—A special meeting of the village council was held in the council chamber on Monday evening. Councillor Garbutt in the chair. Reeve being absent. Several tenders for the lumber required by the council for the ensuing summer were opened and read, that of Ross & Co., was accepted, pine plank $6, per thousand. stringers 1½ cents per foot. Ross & Co., and R. C. Strickland & Co., were notified to have the track and switches leading to their mills placed in a state of repair. It was also directed that the concession line from Church street to the water's edge be opened up at once. The council then adjourned until their next regular meeting.

European Items.

A Belgrade despatch says the Albanians have been forced to retreat from Kurilamlie. They carried off a wounded Servian and roasted him alive.

A Constantinople despatch says Osman Pasha, Minister of War, has promised Servia to send troops to the frontier immediately to check the incursions of Albanians.

A large meeting was held last night at Topeka, Kansas, to consider what shall be done with the colored immigrants from the South. A considerable sum was subscribed and sent to Wyandotte.

President Grevy, on Saturday, signed 307 pardons of Communists.

A St. Petersburg despatch says it is contemplated to increase the Russian army by 150 battalions.

It is stated that the Pope has disavowed the action of the Belgian bishops in opposing the proposed Educational Bill.

It is stated that Garibaldi's proposition for the purchase of a million rifles to arm the nation collapses through a disagreement among its promoters, respecting the object in view.

It is stated that the chief object of the Chinese mission to St. Petersburg has failed, Russia having refused to surrender Kuldja and the negotiations have been broken off.

A comet is signalled from the Arcetri observatory at Salsburg. At present it is said to resemble a star of the 8th size. Astronomers calculate that it will be large enough to be seen with the naked eye about the end of may.

A Berlin despatch says the announcement that Germany has designated Capt. Zembsch, a distinguished naval officer, as Consul-General to Samoa, is much commented upon. The Government, without intending to annex the Island, is firmly resolved to prevent the Americans from establishing their sway there to the detriment of other nations. A dispute between Germany and the United States is not impossible.

CANADIAN.

Canadian ten cent pieces have been counterfeited and are in circulation in Waterloo county.

The North River is clear of ice through Lachute. It is likely navigation will commence on the Ottawa River in a few days.

Packer the Ville Marie Bank thief, tried to escape while being conveyed to the Penitentiary. He only took the look off his shackles.

The Muskoka *Herald* thinks that a factory for the production of the extract of hemlock bark would prove a paying speculation in Gravenhurst.

The Methodist church at Galt will be formally opened on the 11th of May.

Twenty liquor licenses have been issued in Port Hope.

Galt property-owners have adopted a by-law to raise $45,000 by the issue of debentures. Only one vote was polled against and 87 for it.

On the afternoon of Wednesday, the 23rd, the dwelling-house of William Crawford, of Marmora, was entirely destroyed by fire. Loss about $1,000; no insurance.

The last annual dividend of the Hudon Cotton Mills at Hoobelaga was, we believe, twenty-seven per cent., and with such a profit as that the proprietors were justified in making preparations for enlargement under the old tariff. The concern, which divided every year a sum greater than one-quarter of the capital invested, should have had little complaint to make against the duty of 17½ per cent. in their favour. Doubtless the new duty of over thirty per cent. will give them still more enormous profits; but the people who pay the increased prices for goods could have cheerfully endured to see the cotton lords getting rich at no accelerated speed.

Rody, the Eloper.—At Port Hope, on Friday, the Eddy-Ellis case came up for examination at the Police Court. No one appearing to prosecute, Eddy was discharged, and a few hours afterwards he bought a ticket for himself, wife and family and left for Manitoba. It is said that Mrs. Ellis wished to accompany him, but he refused to allow her. It is understood that after the cheque on the Bank of Montreal in this city had been cashed in Port Hope, that the money was divided equally between Ellis and Eddy, after paying all expenses. And now the curtain may be dropped on this little romance in real life.

Trent River Works.

Speaking of the Trent River works the Trenton *Courier* says:—The works, before the great flood of 1874, were useful in bringing down cribs of timber. Since then they have been useless for this purpose, and only saw logs and loose sticks can be floated down. Saw logs can be brought down the stream as well without the dams as with them, and perhaps better. The only possible interest to Trenton in these works is in connection with the Trent and Georgian Bay Canal. The estimate of Mr. Boyd for the construction of a barge canal is five million dollars—a small sum for such a purpose, when the shortening of travel, three hundred miles in consequence. We hope the people may revert to the Donnelson if they cannot get a sufficient sense of Chinese to appreciate the consideration of this other. Here is an object worthy of the attention of Mr. Blake and the Ontario Government. If the [illegible] will only [illegible] the [illegible] will be [illegible] and the work will be [illegible] [illegible] [illegible]

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes,—56 lbs, 112 lbs, and 224 lbs. (The bags are all of a superior quality of linen and suitable for bedding or other domestic use.) It is sold by persons of wide experience that one ounce of imperfection in quality of butter and other dairy products has been the use of common grades of Salt; and the difference in cost is slight when compared with the difference in quality. If dairymen and others will consider that, for example, only 2½ lbs of salt are required to make 20 lbs of cheese, and only 1 oz. of salt to make 1 lb. butter, they will recognize of how small importance must be the first cost of one of the most important ingredients in the manufacture of all dairy products.

☞We know that having once used it, you will continue to do so.

The Examiner.

PETERBOROUGH, MAY 1, 1879.

LOCAL NEWS.

The Springbrae Tram and Suspender team is coming and can be consulted at the Charlotte House, June 2 and 3.

Parenthood.—Mr. Leon Dion was raised with a pair of twins on Sunday afternoon, and we are glad to learn that he is now somewhat better.

Good Shooting.—Mr. Medora Sherman's Red Stocking Minstrels, assisted by the world-renowned Andy Shower and his wonderful troupe of trained dogs and monkeys, will give one of their entertainments in the Opera House here, this evening.

Slight Trouble.—The 7th Army pack let in the north-part of the town lately, offered for sale by Mr. D. Mellish, was purchased last week by Mr. John Bellton for the sum of $400.

Street Cleaning.—The scavengers are at work cleaning the streets. The average work of one of them is a shovel full a minute, with ten minutes interval to note the degree of offence.

Better Government.—A By-law for the better government of the town, received its first reading at the last meeting of the Town Council. It has been suggested that a clause providing for "the better government of canoe meetings of the Council" be added, at its second reading.

The Little Birds.—Remember the little birds that [illegible] from the sunny climes to make our spring time bright and cheery with their melodious. Let every one put in a plea for these songsters of the grove and see that they are not destroyed. They are the farmer's and gardener's best friends, and help to fight the worms and insects.

Another Lead-mark Removed.—We have this week to announce the death of Wm. Reid, Esq., one of the oldest and most respected residents of the township of Cavan. He died at the residence of his son, Mr. Valentine Reid, Mount Pleasant, on Sunday last, his remains being followed to their last resting place, on Tuesday, by a large concourse of friends. Mr. Reid leaves a large circle of relatives and acquaintances to mourn his loss.

Red Stockings.—The Belleville Ontario of Saturday in speaking of the Red Stocking Minstrels performance of the previous night, says:—

"The opening part can be greatly improved on, but several of the features of the second part were highly amusing. Andy Shower gave a capital exhibition of plate throwing, and performed a great deal of juggling. Master Medora Sherman, the boy soprano, sang in a very pleasing manner, and was encored. Master Sherman has a very fine voice, and with proper training will make a good singer. The performance was very well received by the audience, which was a large one, and the company will no doubt do a good business here."

Steamer Chamberlain.—The new steamer for the Lower Lake, stopped on a stick of hewn timber and the ice breaking, he left in and was drowned. He was employed in Mr. Gelt's sheaty.

"The Gainsville."—The Gainsville purpose holding a literary and dramatic entertainment in their hall on Friday evening, May 2nd. Besides rendering the best local talent, they have also obtained the services of Mr. George Orsdell, Shank, Keane's favorite comic vocalist, and the Peterborough Dramatic Company.

The Rag Baby.—[illegible] that the tariff is dispensed of, the next subject for the electorate to consider is the "[illegible]" currency. In the meantime we request our readers to remember that there is no deception in the bargains which H. White is now offering in boots and shoes. Call and see his spring stock.

Wire and Gold.—A hotel war based on gold prices. In order to accommodate both classes of travellers, the Grand Central Hotel, on Broadway, New York, is now kept on both plans, the American at $2.50 to $3.00, and the European at $1.00, and upwards, per day. An elegant Restaurant, at moderate prices, is conducted by the Hotel.

I. O. O. F.—The sixtieth anniversary of Oddfellowship was celebrated in Lindsay on Friday evening last by an open lodge. The entertainment, which consisted of vocal and instrumental music, readings, &c., interested a large and select audience. The president, Bro. Hall, made a very satisfactory statement regarding the financial position and prospects of the institution.

"Grip" shows Sir John and Mr. Tilley in the characters of hangers-on around a managerial animal man or something of that sort. The N. P. elephant is caressing a tragi baby elephant, and Sir John remarks: "A fine spring calf, Sam. Don't kill it. Let it thrive. Who knows but it may be our big end next time we go through the country?" The cartoon is suggestive.

New Furniture Factory.—Messrs. [illegible] and William McLee have leased the large new building erected last fall [illegible] Reside recently, and are at present fitting it up with machinery suitable for the wholesale manufacture of furniture, to which business they are about commencing. They intend also to carry on the business of a planing mill as well. We wish them success in their enterprise.

The Fairbairn Family gave their farewell entertainment in Boston on Friday evening last. The Boston Journal says Tremont Temple was well filled, and the audience composed a large delegation of Scotchmen in Highland costume. The same paper speaks very highly of the programme and concludes by saying that Miss Bessie Fairbairn's organ playing was a very pleasing feature. In this connection it may be mentioned that Miss Fairbairn has been presented with a handsome instrument by the Estey Organ Company in recognition of her skill. The Family are now en route for Canada.

The Foresters Anniversary.—The 17th of June, being the first anniversary of the establishment of the High Court of Canada, I.O.O.F., will be generally celebrated throughout Ontario wherever the order has been established. The members of the new Court established a short time ago in Peterborough are arranging for an extensive celebration on that day, in which they expect to be joined by several courts from a distance. After marching in procession through the principal streets they will repair to the Agricultural Grounds, where athletic games and sports will be participated in. Full particulars will be announced in due time.

Adjourned Vestry Meeting.—The adjourned vestry meeting in connection with St. John's Church was held on Monday evening last, when the report from the Auditors, on the Church Wardens' accounts, was received and adopted. Steps were taken to have the Rectory Fund vested in sthe proper authorities. A special meeting was held immediately after the Vestry, at which a resolution was passed raising the pew rents twenty per cent. The parish being chiefly in arrears on the Synod assessment for the Widows' and Orphans' Fund, a subscription list was opened and these present subscribed almost enough to wipe off the indebtedness.

Juvenile Pageant.—We have before us two juvenile papers which we can heartily recommend. The first, *Golden Hours for the Young*, is a non-denominational publication, suitable for any Sunday School; the other, the *Sabbath School Presbyterian*, as its name indicates, is better adapted for Presbyterian Schools. Both are printed on fine paper, and are beautifully illustrated. From a cursory but careful examination we are constrained to say that these periodicals are better adapted to Canadian Sunday Schools than the American or even English publications of similar character. Specimens sent free on application to the publisher, C. Blackett Robinson, 5 Jordan-street, Toronto.

Rose Hill.—A contemporary says:—"The principal changes in the playing rules this year include: The reduction of the pitcher's space from six by six to six by four feet. The prohibition of the practice of turning the pitcher's back to the batter before delivering the ball. The calling of every unfair ball pitched a "ball," count nine "balls" are called, when the striker is entitled to a base. The order of striking is changed so that the player on the roll falls into the place who completed his turn at the bat next first to bat in the succeeding innings, instead of as formerly, the first player on the roll after the third hand out. The foul bound catch and the bound catch on the third strikes are abolished. The umpire no player can be destroyed out on a ball caught after it touches the ground. There are some minor changes, but none that materially affect the game."

Reeve's Centenary.—With pleasure we inform our readers that the "Centenary" of Ireland's greatest Irish poet is going to be celebrated in Peterborough, on the 26th of May, in a way befitting the keeping of his memory, viz: by a grand concert, where his own immortal melodies will form the chief part of the programme. Thomas Moore was born in Dublin, May 28th, 1779; died February 25th, 1852. Moore's principal poems: "Lalla Rookh," "Irish Melodies," "Loves of the Angels," "Lasrafel, captivation," "Epicurean," "Alciphron," "Memoirs of Captain Rock," "Memoirs of Sheridan," "Life of Byron," "Life of Fitzgerald," "Life

Diamonds, Cherries, Kisses.

A million little diamonds
Twinkled on the trees,
And all the little maidens said,
"O, if we could but please
Pick, while they hold their hands outstretched
To catch the diamonds gay,
A million little sweethearts
And stole them all away.
—*Marquis of Lorne.*

A million bright red cherries
Hangiog on the trees,
And all the little urchins said,
"Oh! ain't they just the cherries?"
But, while they held their hands outstretched
To catch the cherries red,
The good old farmer's dog appeared,
And the little rascals fled.
—*New York Express.*

A million soft, sweet kisses,
Beneath the spreading trees,
And still the whispered words,
"Do go, dear, if you please!"
But, while I held her head in mine
And clasped her closer yet,
A woman spoke upon us
And scared us "to pieces!"
—*Boston Post.*

The Grand Junction.

(From the Campbellford Herald.)

The site for the station in this village has been selected, and the preparation of the grounds is now being proceeded with. Its location is on the Cummings estate, on Sebastopol street, just under the hill, a lot west of the residence of Mr. T. McKelvie. Mr. Ferguson, the gentleman engaged building the road, says it is as convenient a spot as could be chosen, and that for a grain storehouse, it will offer unequalled advantages. Grading is going on rapidly, and there are now about one hundred and twenty men at this part of the work alone. With these employed on the bridge, the number of workmen, we believe, will shortly reach one hundred and seventy-five.

Lumbering.

A telegram from Ottawa states that a "good many men are being sent up to the drives" this spring. The rate of wages being paid is $14 to $18 per month, quite a decrease from those of former years when $25, $30 and $35 a month were paid. There will be more difficulty experienced in getting out timber than was at first anticipated, as the snow has been going away gradually while the ice on the rivers and lakes still holds firm. But there may be some heavy rains yet, which will cause the water in the rivers to rise so as to make it easier for the timber to be got out."

The Princess Louise.

The storm that has burst upon the Marquis (the demonstrations of His Excellency in the Terry press anent the Letellier affair) has not touched the Princess, who pursues the even tenor of her busy and blameless life. She is about the city every fine day visiting the schools and charities and leading a band at church bazaars. On the fine afternoons she goes sketching to the Chaudiere Falls or to the Gatineau Valley, accompanied by some of the ladies of her suite. Her walking powers are renowned, and few even of the sterner sex can keep up with her as her tramps on the heavy roads about New Edinburg. Her walking costume is singularly neat—to wit, a jaunty hat, kept in its place by an elastic band; a bright "comforter" with loose trimmings about her neck; a short sacque of plain material over a half-mourning lindsey dress, boots made for mud, and a small unbrella case. The Princess is a devoted artist, and every mail to England carries home "bits" of the romantic views that abound in this region. On wet afternoons she works at her easel, on which she is now finishing an admirable portrait of *Mrs. Scott-Siddons*, who gave readings here a few days ago, and was the guest of Rideau Hall.—*New York Paper.*

How to get Rid of Potato Bugs.

A correspondent of the Guelph *Mercury* says:—"The time will soon be here for planting potatoes, and no doubt the potato bugs will make their appearance, and for their destruction I propose the following plan:—Get a quantity of small potatoes sprouted, planted in any old shallow boxes with four or five inches of soil or saw dust if handy, to grow them in, ready before the time of planting the general crop. Take these out to your patch and secure them from cattle, etc. They will be in advance of those you plant two or three weeks and will attract the bugs to them. You can keep them well coated with Paris green and you will see the result. You will get rid of them with less trouble than the old way. No doubt many have seen the bugs flying around to find the first potato that makes its appearance in your potato patch the first few warm days. These few potatoes grown in doors will act as bait.

A Beautiful Horse.

There is nothing that can contribute so much to render the horse beautiful and elegant, to improve his condition and make him all that is desirable, as "Darley's Condition *Powders and Arabian Heave Remedy*;" it has been used by many persons who own valuable carriage and other horses with decided success, and so well pleased are they with it that they always keep it on hand in case of emergency; it may be given at all times with perfect safety. Remember the name, and see that the signature, of Hord & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all Medicine Dealers.

Bryan's Pulmonic Wafers.

The first approaches of consumption are so insidious that thousands remain unconscious of its presence until it has brought them to the verge of the grave. The immediate use of "Bryan's Pulmonic Wafers" upon the first appearance of the cough, pain or soreness of the throat or chest, would generally preclude a fatal result; therefore, when you take a cold, use "Bryan's Pulmonic Wafers," and thus prevent the necessity for taking them in more dangerous complaints. To be obtained of all druggists and county dealers at 25 cents a box.

Spelling the Sign.

A Floyd county man halted his team on a crossing to read a large sign stretched across the road. He read:—"Ketch all, r-o-a-d road, railroad; cr-o-s-s cross, sl-i-g sling, crossing; railroad crossing; look look, out out, f-o-r for, t-h-e the, on on ——" and before he could say 'g'or even think of a word beginning with it, the end of the world struck his rag antidelupe; he saw his horse wandering off in different directions into the infinity of space; he was vaguely conscious of saddle rigs and broken tires, and shattered springs and harness things, and fragments of songs like a whirlwind sings, and when he came crashing down on his neck and bolged through the top of a freight car and wrecked a job lot of agricultural implements, he would have given all his wagons was worth to know what the rest of that sign was.

Dream—From a Man's Standpoint.

(Detroit Free Press.)

Like the rest of mankind, I cannot rest when I have anything to say until it is said.

I think 'Annie Laurie's' article in No. 11 is deserving of the praise of every true, candid-minded, earnest young man; in fact, every youth, who is not actually blind to the allurements of the stylish beauty, to the merits of his worth. If the girls were a little more sensible, thought less of extravagant dress and "style" of amusing, deprecated the needless mercenarility of the gay youths who pay their homage at beauty's shrine, would it not be a salutary check on the nerve-unbalancing, fevelory and deceptiveness which so characterizes fashionable society, and make the young men more thoroughly appreciate character, and not constant appearance?

[illegible] men [illegible] dress [illegible] [illegible] [illegible]

Peterborough Examiner.

The Examiner.

PETERBOROUGH, MAY 8, 1879.

WEST PETERBOROUGH.

The announcement that Mr. Jas. Elliott of Smith, has become the candidate of the *Liberal* party in this Riding, will be hailed with pleasure by the friends of good government. It was believed up to the late convention on Saturday, that Mr. G. A. Cox, would have been able to see his way to the acceptance of the nomination, but on Saturday, he finally concluded that to place more on his already overworked mental and physical constitution would be a wrong to himself, that no party should urge. He has a very large office business, and his own personal affairs, must of necessity require time and attention, and when to this is added the Presidency of the Midland Railway Company, his time must be severely taxed. His admirers, however, thought he might be induced to undertake this contest, as after the election he would have no parliamentary duties for about a year. Mr. Cox could not see his way to undertake the labour and annoyance of an election, and therefore, declined, to the regrets of all.

The convention then resolved in nomination Mr. Jas. Elliott, when his nomination was made unanimous. Mr. Elliott accepted, and is already at work, determined that success must be beyond a pee adventure. As our readers, and the Reform party, are already well acquainted with Mr. Elliott, it is almost unnecessary on our part, to more than announce his candidature. He is a well-to-do farmer, of uncommon energy and determination. His enterprise is well known in every section of the county, where he has established numerous cheese factories and conducted them with universal success to the satisfaction of all the patrons. He is a young man able and willing to devote his time and talents to public affairs, and being one of the people, cannot but secure their support and confidence. Mr. Elliott is a farmer who holds a first place among agriculturists, and does not come before the electors under any false colors or pretences. There is enough of him to be useful, and no superfluous quantity to be in the way of anybody. He has also a claim on business men, being intimately connected with our town in business relation; and hence he occupies a position that few candidates do,—of representing the great working classes,—the agriculturist, the merchant, the mechanic, and the labourer. Brought up on the farm, he knows what labour is, and will be ready with a farmer's carefulness to watch over the income and outlay of our provincial affairs. Not schooled in the chicanery of the partisan, he will be as free to accept the good and refuse the evil in legislation and expenditure as any man could be, and will have the good sense to act no double part for sinister purposes, or waste the time of the House in discussing buncombe resolutions for the meanest political motives. Mr. Elliott, in short, is just the man to send to our Local House. He has extensive experience as a business man, holds a large stake in the country as a farmer, and is one who must suffer if the affairs of the Province are mismanaged. He is free from any accusation as an adventurer, waiting to secure place and emoluments to make up for wasted time and misapplied talents, as he has a competence already, and can have no other than the public weal as a motive to induce him to enter political life.

Nothing now remains but to go to work with a will. The time is short,—four weeks' work must end in a victory, and we much urge our Reform friends everywhere to be up and doing. Our opponents will have nothing undone that labor and cunning can devise, and all this must be met by earnest, active, untiring work; and, as sure as our friends do this, they must succeed. They have a good candidate, and we do earnestly urge that he do good work for him, and secure a triumphant victory for themselves. His address to the electors will be found in another column, and we ask for it a careful perusal.

The Mowat Government after six years of rule, stands to-day unchanged, much less convicted of the perpetration of a single "Job."

NON-REPRESENTATION OF WEST PETERBOROUGH.

Mr. Scott, according to the local organ at his control, was to have done great things for Peterborough in obtaining Legislative aid towards the construction of the Toronto and Ottawa Railway. What did he do in this direction last session? Simply nothing at all. He was too busy in helping along the discreditable party tactics of the Opposition, whereby the time of Parliament was wasted and the session prolonged, quite unnecessarily, and at immense cost to the Province. What has he ever done of any account for the line of railway in which this locality is so deeply interested? Can he or his political friends show that his alleged influence has helped him to effect anything for which he can claim special credit? Far otherwise. He does not possess grasp of mind sufficient to carry out the affairs and follow up the interests of the company of which he is an officer, but alone to combine with these duties, those of a legislator, and certainly he has not proved himself even ordinarily successful as a Parliamentarian. In this he has disappointed even his personal friends, of whom he has probably as many in the Reform ranks as in the Tory party. He has since his entrance to the House dispelled the hopes and forfeited the respect of former admirers, by allowing himself to be made the easy tool of more designing politicians, and a mere special pleader for the party with which he has allied himself. A useful party hack, nothing more, he has dashed the expectations of the many who expected, and not unreasonably, that he would take a foremost position at least in the ranks of the Opposition, such as his talents as a speaker and a lawyer deserve. But instead we see him made a secondary instrument in the hands of men much his inferiors in all except party trickery and attention to personal ambition. Mr. Scott would have been a dangerous, and we believe successful, rival to those who have all along aspired to the first places among the Ontario Opposition, had he not been weak enough to subject himself to their plottings, where by he has been weakened while the chief conspirators held aloof from the pits of inconsistency into which they thrust him. They were thus at once serving party ends and disposing to a considerable extent of a rival, while Mr. Scott was only displaying his mental weakness. This is plainly seen in the party briefs which he accepted in regard to the Farmers' Sons' Franchise, the Orange Bills, the Sessional indemnity, &c. All his parliamentary speeches have shown careful preparation; but at the same time such preparation as is given by engaged counsel to the case of a client. His eloquence has been the medium for thoughts scarce his own, instead of being the independent outflow of personal conviction and independent opinion. Such a course might be tolerated in a member elected by acclamation as an admittedly party pleader, or even in one returned by an over-whelming majority as the representative of an unmistakably Tory constituency. But Mr. Scott, should have remembered that he owed his seat in the House to but one of a majority, and that he might without injustice be called the representative of a single elector. In becoming the pack-horse to bear the more unsavoury burdens of his party, he ignored the feelings and ran counter to the honest political convictions of at least one-half of the electors of the West Riding of Peterborough, for whom he pretended to speak. Elected as it were by an accident, he might, at the very least, have acted in better taste. This, however, is a question between him and the individual electors whom he has done the very opposite of representing. Not so the effect of his conduct in the House. There, by voice and vote, he has proven himself the plastic instrument of a ring of party tricksters, instead of being the independent delegate of an intelligent constituency, looking to him to present its views and consider its interests before yielding to any outside influences. Such a member does not best suit West Peterborough.

Masters, stand by a Government which has stood by you, and made Ontario one of the best Governed Provinces on the Continent.

THE PETERBOROUGH'S.

It will be well for the electors of West Peterborough, and of the East Riding as well, to remember Mr. W. H. Scott's former utterances, in favor of an increased representation of the farming interest in Parliament, and apply the principle practically at the approaching elections, by voting for the farmer candidates, Messrs. Blezard and Elliott. Both are intelligent and enterprising agriculturists, active alike on their farms, and as public-spirited men; and no one will presume to question their fitness for the representative positions in which their fellow-electors desire to place them. Either of them can far better represent the constituency for which he has the nomination than can Mr. Calcutt or Mr. Scott.

Both candidates in the East are now men so far as Parliament is concerned, but any comparison of their positions in the community is largely in favor of Mr. Blezard, whose manly address to the electors is characteristic, and in strong contrast to the way in which Mr. Calcutt appears before them. Mr. Blezard has a mind of his own, can produce a why and wherefore in every case, for the opinion he holds, and none who know him—as most electors in the Riding do—will hesitate to trust him as a man who will intelligently and carefully consider any question on which he may be called upon to vote. While reasonably offering support to the Mowat administration for the good it has done, and which gives promise of good to come, Mr. Blezard as a true man, holds himself free to support good measures from whatever party they may emanate. And what he says he will assuredly do. As between him and Mr. Calcutt the electors cannot well do other than elect Mr. Blezard as their representative by a most telling majority.

In the West Riding Mr. Scott has been tried, and found wanting in that very expectation of moderation, his accidental election on a former occasion should have assured in him, the many who were willing to believe in him as a somewhat independent member, who would not entrap the opinion and convictions of that half of his constituents who voted against him, have been sadly disappointed. Instead of trying, by conciliate by a fair and impartial course, those who formerly opposed his election, and those who held aloof from voting because of personal regard to him he has gone out of his way to make himself a rampant partisan, and a Tory advocate even to personal inconsistency. With the record he has made, the Reformers of the West Riding would not be true to themselves did they not do all in their power to defeat the man who has flaunted his accidental position, in the face of more than half his constituents. Mr. Scott has himself to blame, that he now finds every Reformer in the Riding vigorously opposed to his re-election, as the man who regarded in no way whatever those who were formerly inclined to regard him with the utmost possible favour. It is his own fault that men who were not disposed to oppose him before, are now working vigorously and diligently against his return. The pure party fight, about to be fought out in the West Riding, is of Mr. Scott's own seeking. The Reformers would be less than men had they not taken up the gage so dedantly thrown down by Mr. Scott himself on behalf of the party, we believe to be in the minority in West Peterborough, on the true political questions now being considered. It is the plain duty of every Reform elector of the Riding to vote and work earnestly against the return of Mr. Scott; not only for their own honour, but also for the good of the constituency. This they can effect by the election of Mr. Elliott, a man truly representative of the constituency, and one who can do at least as much for it and the Province as Mr. Scott; and much more than the latter has been able, or has even tried to accomplish during his term. The town and county can be better served by Mr. Scott out of Parliament, and better by Mr. Elliott in the House. Let the electors of the West Riding then vote for Mr. Elliott on the 5th prox., and thus place both gentlemen where they will do most good.

Let every voter remember the 24th day of June, and rally to the support of an able and Christian Statesman, and his worthy and proved Colleagues.

MR. SCOTT'S BETTER POSITION.

Not long ago his special organ tried to show the Reform electors of West Peterborough that it would be to their interest to return Mr. Scott, a Conservative, because of his personal interest in the Toronto & Ottawa Railway. They were asked to sacrifice their political convictions in the indulgence of hopes regarding their railway interests. Thus a direct insult was offered to them, by an implied doubt of their political integrity, and of their ordinary intelligence as well. It was a species of bribe thrown out; and that it was thought necessary is *prima facie* evidence that Mr. Scott's political position, needs very questionable bolstering. Common-sense will teach the electors of West Peterborough that the best thing they can do towards advancing the Toronto & Ottawa Railway scheme is to suffer Mr. Scott, to use his personal interest therein, independently of any direct connection with the Provincial Legislature. This can best be done by electing as their representative another friend of the road, other than Mr. Scott, who will then be able to devote more of his time to the railway project, and at the same time have the advantage of a helper in the representative of the Riding. Mr. Scott as a member of the House cannot say as much or do as much for a project in which he is personally interested as he could outside. This has already been proved, for he has already felt his hands tied by reason of the ready impression, that he was using his position as a member to further his personal ends as a Director and shareholder in the Company. If this railway is to be a plea in the coming election by all means free Mr. Scott from the fetters that bind him as a member of Parliament; elect another friend, but not an officer, of the Company; and let Mr. Scott have free scope to use his great personal influence and well-known persuasive powers in the lobbies, where they will do most good, especially when there is a certainty of his efforts being seconded by a member of the House, free to act without suspicion, which Mr. Scott, unfortunately for himself, the railway and his constituents, has not been able to do.

On the Stump in West Peterborough.

Mr. Scott has commenced stumping the Riding, and the first shot fired in town was in the Opera House on Monday evening. The speech made calls for little comment, his arguments having been fully exploded some time ago by the EXAMINER. He gave a synopsis of his doings during the term he sat in Parliament, and presented all the charges he could bring against the Mowat administration, drawing a comparison of the expenditures between the Governments of Sandfield Macdonald and Oliver Mowat, and characterised Mr. Mowat as being woefully extravagant, while John Sandfield Macdonald was so economical that when he went out of power he left a surplus of something over four millions of dollars in the Treasury. But he forgot to tell the few electors present, that we have more than four millions there now, after spending over two millions in aid of railroads, over three millions in distributing aid to Municipalities, the very surplus left by the Sandfield Macdonald Government. The Mowat Government have paid back to the people in aid of Municipalities; in aid to Agricultural Societies, Charities, Hospitals, Asylums, and in other ways in which moneys are laid out by Governments, for the benefit of the people over twelve million dollars, and yet we have four millions in the Treasury still. But his arguments were so absolutely pointless and valueless that it would be sheer waste of time and space to notice them. He made some absurd charges against Hon. Messrs. McKenzie and Blake which could be easily refuted but it is scarcely worth while under the circumstances. He gave a passing notice to the EXAMINER acknowledging its fairness in criticism from a party point of view. Mr. B. A. Morrow, presided. There were about 300 present and the meeting throughout was the tamest ever witnessed in West Peterborough. There was not even a cheer at the close for the Queen, the candidate or the chairman. Mr. Scott is meeting with a rather cool reception throughout the Riding.

Haulan Victorious in England.

The great boat race, between Hanlan, of Toronto, and Hawdon, of Newcastle, England, has been decided, and the Canadian boy has shown the superiority of that style of rowing for which he is famous, and which the Tyneside has refused to despise when Hanlan first appeared to practice on their waters. This is a victory over which all Canadians will feel proud, for although Hawdon is not technically the "champion" of England, there is scarcely no reasonable doubt of the ability of Hanlan to outrow any man who may be pitted against him. The plucky little fellow—the aquatic monarch—will receive a royal welcome on his return to his home in Canada.

EDITORIAL NOTES.

At the Conservative convention of South Victoria, Mr. W. L. Rumel, ex-warden of the county, was nominated for the Ontario Assembly.

Concerning the indemnity, the *Mail* says of Mr. Scott, that he was "committed to the increase, accepted it, pocketed it, and made no protest against it." Electors of Peterborough, vote against Mr. Scott.

On our first page will be found two editorials, "The Benefits (?) of Quebec Oats," and "The Indemnity of Members of Parliament." The former showing the inconsistency of the *Review*, and the latter the unmanly course the member for West Peterborough was driven to play for party politics, in the indemnity to Members of of Parliament, in the last session.

The electors of West Peterborough will do well to remember that Mr. Scott was one of the foremost and most insistent of the salary-grabbers, and stood prominently forth against the reduction of the membership indemnity. His utterances and his votes are on record to show that he believes in the higher salaries of Ministers and the $800 sessional allowance. Read the *Review's* denunciations of such men, and vote against Mr. Scott.

The *Review* lately spoke of "a new insect pest," and stated that because of it "probably our farmers will soon have to give up growing peas." Now, any schoolboy, raised in the country, could have told the *Review* that the "pest" is the pea-weevil, which has been common throughout Ontario for a dozen years and more, and has never interfered with the growing of peas. The knowledge of farming which the *Review* doesn't possess is voluminous.

Tory journals are boasting that sundry articles from abroad are still sold in Canada at prices the same as before the introduction of the new tariff. Where then is the protection promised? The country is still flooded by these foreign imports and the home manufacturer must cry out for more protection. There are but two possibilities:—If foreigners reduce prices so that their wares continue to come in at the old rates, the protective tariff has failed of its object; if prices are kept as before, the Canadian consumer must pay the duty as an extra cost.

The Tory press is trying hard to impress on the minds of the people that those who have increased the prices of their goods since the imposition of higher duties are perpetrating a fraud on their customers. It seems plain that increased charges on goods imported, can be met only by raising the price; but Tory writers imply that such is not the case, by declaring that the merchants are dishonest. At any rate the increase is made because of the National Policy; and if the merchants, as asserted, only use it as a pretence, still the fact remains that the N. P. encourages fraud in business. Now the Insolvent Act has been repealed on the plea that it encouraged business frauds; therefore the N. P. should be repealed on the same ground, according to the hypothesis of its own friends.

The Conservatives evince a desire to drag the National Policy into the Provincial election campaign. The only advantage, they can hope to gain by so doing, is to call off the attention of Reform speakers and writers from the refutation of the absurd statements of the Opposition concerning the Provincial finances. Reformers need not object to the brief presentation, of the idea that the people disgusted with the farce called the "National Policy" of the Conservative Government at Ottawa, are not likely on that ground to help its boastful supporters, in Ontario. But the true issues are upon strictly Provincial affairs with which the N. P., has nothing to do. The effort to introduce such extraneous discussion, only shows the weakness of the Tory cause in the Province.

As was confidently predicted by the Reform press before the general elections for the Commons, the manufacturers in all directions have cut down the wages of their workmen. Handicapped as they are by a duty on coal and iron, the makers of agricultural implements either had to make up their loss by increasing the price of their machines, or cutting down expenses in some direction. Prices could not be raised owing to the lively competition already existing under the old tariff, and the impossibility of forming a combination among the very many establishments in the country. Therefore a general cutting down of wages has been the result of the "National Policy," which was to have done so much for the workingman. Not only are the wages lowered in the actual amount; what is received now has less value as a purchasing power, dollar for dollar, than it had before, owing to the increased price of nearly everything the workingman has to provide for himself and his family in the way of food, clothing, books, and other necessities or comforts. The man who was before able to get these things with some degree of confidence in his ability so to do has now to pare and pinch in many ways, and to undergo the harrassing thought of privation every day of his life. The hard times of the working classes have become harder since the advent of the N.P.

Support a Ministry which has returned millions to the Municipalities to be expended in local improvements, and save the people to this extent from the burdens of local taxation.

The Goderich and Ottawa Railway.

The Port Perry *Observer* says: "A full "staff of surveyors has just gone out to "Goderich to look over the route for "the proposed Goderich and Ottawa "Railway, and parties most capable of "judging are decided in the opinion "that a comparatively short time will "carry it through. The line will doubt-"less pass through Port Perry or its im-"mediate neighborhood." And of course the Government will be asked to come down with two or three thousand dollars per mile, to aid the promoters of this scheme, or the enterprise will have to be abandoned, and the *Observer* and the member for Peterboro who have been bewailing the financial condition of the Province, and endeavoring to make the electors believe that we are just upon the verge of having to resort to direct taxation to meet current expenses, will not only approve of such an appropriation but will in order to secure aid for their pet scheme, prove conclusively that the Government has an immense sum of money on hand which should at once be spent upon works of this kind. Both the *Observer* and Mr. Scott will do all that lies in their power to get Government support to this for the proposed road, and should the conference be held, they will assuredly fill up their patriotic harangues and condemn the ministry for their unwillingness, in wasting the people's money for the benefit of their political friends.—*Ontario Reformer.*

EDUCATIONAL COLUMN.

(CONDUCTED BY JAMES COYLE BROWN, ESQ.)

It is proposed to devote a column, more or less, of the EXAMINER to educational matter. In the beginning the column will be chiefly occupied with the lessons of the Third Reader. This is the book in which the study of Literature, properly so called, ought to begin. Good books to which to refer are scarce and dear, and the library of many Teachers in country schools is too limited to supply information on all doubtful points. Much time, too, is necessary to master thoroughly all the points that ought to be brought out in teaching the lessons. It is to be hoped that the teachers will criticise keenly, but kindly, what is offered by each to assist all in their important work. They are requested to cut out the columns as they appear, and to make a book of them for ready reference.

I.—The Wreck of the Hesperus, Page 38.

The author, Henry Wadsworth Longfellow, was born at Portland, Maine, February 27th, 1807. At the age of fourteen, he entered Bowdoin College, Brunswick, where he graduated with honors in 1825. He studied law, established a chair of Modern Languages in Bowdoin College, and became Professor of the same. Since 1835 he has been Professor of Modern Languages, and Belles-Lettres at Harvard University. "Evangeline," "Courtship of Miles Standish," "Hiawatha," "The Golden Legend" and "The Spanish Student," are among his longer poems. He wrote many short poems, some of them very beautiful.

WORDS IN THE LESSON LIABLE TO BE MIS-PRONOUNCED.

Hesperus, hurricane, amain, Galilee, whooping, bridle, gorse, abroad, aghast.

NOTES ON PROPER NAMES.

Hesperus is the name of the evening star. In this piece it is the name given to a vessel.

The Lake of Galilee is in Palestine; it is oval in shape, and is about 14 miles long, by 7 wide, and is 653 feet below the level of the sea. The River Jordan runs through it from north to south. On its eastern shore are cliffs, 2,000 feet high, furrowed by ravines; on the west, the descent is more gradual and the hills more distant. It is noted for its violent storms which arise in a few minutes, and sweep across its waters with great fury; and for being the scene of some of the most wonderful of our Saviour's Miracles.

"Norman's Woe" is a reef of rocks on the northern coast of Massachusetts, between Manchester and Gloucester. About forty years ago, a vessel called the Hesperus was actually lost there.

"Spanish main":—In the early history of America, the Spaniards claimed exclusive right to that portion of the ocean traversed by them in their passage to and from America; hence it received the name of "Spanish main."

DERIVATION OF NON-SAXON WORDS.

Hesperus—L. and Gr., Hesperos, the evening star.
Schooner—Dutch, schooner.
Company—Fr., compagnie.
Fairy—Low L., fataria, from fatum, an oracle, fate
Day, dawn—L., dies, the time of light.
Bud—Ger., butze.
May—Fr., mai—L., maius, sacred to Mai the mother of Mercury.
Stood—L., sto, to stand.
Pipe—L., pipo, to chirp.
Veering—ital., virare, to turn, from L. and Gr., gyrus, a circle.
Pray—Fr., prier, from L., precor, to ask.
Port—L., portus, a harbor.
Midnight—L., medius, the middle, nox, night.
Scornful—Fr., escharn, from old Ger., skern, derision.
Gale—Gael., gal, a gale.
Frothed—Ice., frauð, froda.
Vessel—L., vascellum, from vas, a vase.
Shuddered—Dutch, schuddern.
Cable—L., capulum, a halter, from capio, to take.
Tremble—L., tremulus, from tremo, to shake.
Coat—Low L., cottus, from cotta, a tunic.
Fog—Dan., sne-fog—thick falling mist.
Bound—Low L., bodina, a limit
Sound—L., sono, to sound.
Distress—L., dis, stringo, to draw tight.
Anger—L., ango, to press tightly.
Corpse—L., corpus, the body.
Face—L., facies, form.
Sky—Dan., Swz. and Ice., sky, a cloud.
Lantern—L., lanterna, anything in which a light is placed.
Lake—L., lacus.
Fitful—Ital., fitta, a stab, from L., figo, to pierce.
Gust—Ice., gustr.
Surf—Old Fr., surfiot, the rising of billow upon billow.
Carked—Fr., carde, L., carduus, a thistle.
Crest—L., crudulus, from crudus, from cruor, blood.
Rattling—Old Ger., ratteln.
Form—Fr., forma, from L., formo, from fero, to bear.
Close—L., claudere, to shut.
Save—Fr., sauver, from L., salvo, from salvus, safe.

THE MEASURE AND FORM OF STANZA.

The piece is written in the form of a ballad or song, containing a narrative; such songs were common and much used in olden times. The metre is peculiar or tambling metre; being made up of Iambic Tetrameters, Iambic Trimeters, Anapæstic Metre, and Dactylic Hexameter.

NOTES, FIGURES OF SPEECH, &c.

Stanza 1.—Line 4—"To be with him as a companion."

Stanza 2.—"Fairy flax," so called because of its delicate blue flower. "Dawn of day," referring to the soft rose-tint of morning light. Lines 1, 2, and 3, each contain a simile.

Stanza 3.—Line 1—Contains a Personification, "veering flaw," i. e., sudden gusts of wind coming from different quarters.

Stanza 4.—"Up," equivalent to "at that time," or "just then." There is an Ellipsis in line 2.

Stanza 5.—"Golden ring," a large circle of light, which often encircles the moon before a storm. "Whiff"—a sudden puff. In line 3 there is a Personification.

Stanza 6.—Line 3 refers to the sound made by the wind as it drives the snow or hail and rain against the water. "Brine," the sea, so called on account of its saltness. Line 4 contains a Simile.

Stanza 7.—"Amain," suddenly or vehemently. Lines 3 and 4—as the vessel driven with the wind, entered the trough of the sea, it would seem to stop and fall backwards as it met the next wave, then it would seem to spring over the wave into the trough on the other side. In line 3 there is a Simile, and also a Personification.

Stanza 8.—"Weather"—outlive.

Stanza 10.—"A fog-bell," a bell so arranged that the waves swing it, causing it to give forth its warning.

Stanza 11.—The sound of guns refers to the practice of firing a gun every minute by a ship in distress; it being a call for help.

Stanza 12.—"Gleaming light"—likely referring to a fire made by wreckers, who lived by the plunder of shipwrecks.

Stanza 13.—The helmsman in time of storm is very often tied to the helm. Line 3—As the light fell upon the snow, it was reflected by it.

Stanza 15.—Relation of "last"—"swept first." "Like a ghastly ghost"—the vessel encountered in snow, seemed like a ghost being viewed in a ghost, the deception being strengthened by the darkness and the motion of the vessel. "Swept"—drifted quickly. Line 3 contains a simile.

Stanza 16.—Relation of "watchman"—"some human guest." "Hard," the force of the blow as the driving of the waves. The blow of the sea can be distinguished by this only by the line of foam-work, which [illegible] if the ship is [illegible] Chronicles of the Sea [illegible] ship, but if heavily [illegible] the sea [illegible] the ship [illegible] the ship [illegible] the ship

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes—56 lbs, 112 lbs, and 56 lbs. (The bags are all of a superior quality of linen and strength for installing or other domestic uses.) It is sold by persons of wide experience that one cause of inferiority in quality of butter and other dairy products has been the use of common grades of salt; and the difference in cost is slight when compared with the difference in quality. If dairymen and others will consider that in manufacturing, only 2½ lbs of salt are required to make 100 lbs of cheese, and only 1 oz. of salt to make 1 lb. butter, they will see the importance of their chief consideration to be first cost of one of the most important ingredients in the manufacture of all dairy products.

☞We know that having once used it, you will continue to do so.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

The Cultivation of Roses.

"Roses are her cheeks,
And a rose her lips."

The best way for ladies to cultivate this rare species of roses is by studying and practising the rules of hygiene, as taught in the People's Common Sense Medical Adviser, only $1.25. Address the author, R. V. Pierce, M. D., Grand Invalids' Hotel, Buffalo, N. Y. If suffering from those painful weaknesses incident to the female organism, use Dr. Pierce's Favorite Prescription—a never-failing remedy for these complaints.

Free of Cost.

DR. KING'S NEW DISCOVERY for Consumption, Coughs and Colds, Asthma, Bronchitis, Hay Fever, and all Throat and Lung Affections, Call and get a trial bottle free of cost at the store of F. LANE & Co. If you have a severe cough or any affection of the throat or lungs by all means give this wonderful remedy a trial. As you value your existence you can not afford to let this opportunity pass. We would not advise and would not give this away unless we were sure it would relieve those who are calling for it. Many thousands have already been cured by it. There is no medicine to equal it. Thousands who were dying for it, could they still have one-half the same that Dr. King's NEW DISCOVERY will cure. For sale by F. LANE & Co., Druggists, Peterborough.

Baby Life.

There is a grandeur of Mountains, glens and ocean, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up. Sleeplessness, nervousness, fretfulness set with disease, when there is no organic disease existing, and that which causes many thousands annually would find relief in August Flower with quite as much benefit as in the direct cause of severity—give proper rest, or else quieting medicines, such as Kidney-Wort, Hop Bitters or the Vegetine, Purification of the Blood, and other strengthening agencies. These cases of August Flower will prove its wonderful effect. Sample bottles 10 cents. Try it.

Hooker's Cherry Syrup

cannot be surpassed right at home, it is the most reliable. It is more than a cherry in all cases of Coughs, Colds, Asthma, Bronchitis, Hoarseness, Sore Throat, Croup, and all other throat and lung affections. No person has ever taken it without being benefited. Its wonderful success has made it the most popular remedy in use. Price 25 cents a bottle. Sold by druggists. Manufactured by H. H. HOOKER & Co., Proprietors, 187 Broadway, New York.

The Examiner.

PETERBOROUGH, MAY 8, 1879.

LOCAL NEWS.

Stationery.—Mr. Chas. Gilchrist, delivery overseer, was in town during the past week presenting persons for spearing fish.

S. C. and D.—The leading qualities of Larmour's Boots are Style, comfort and durability—excellence that have earned for his custom department a provincial reputation.

A Hint.—An exchange says:—"When you send a finger to a young lady, cut a small ring out, no matter what. This ensures the office the sale of another paper. She has got to see what it was it is taken a week to find out."

Rosemary is now the watchword of the day, both in political and social circles. Those who wish to contribute in the purchase of bonds and shares should call on S. White, who is now showing a splendid stock at very low figures.

Read Here.—We have printed this past week for several township auditors excellent forms of road lists, for the use of path-masters in returning particulars of statute labor. The use of such forms is necessary, and every municipal clerk should have them.

Safety Gratifying.—The motion having been introduced in the House of Commons for a redemption of the indemnity, we should see where the "salary grabbing" in the Dominion Parliament. The Tories were the money hunters in the Provincial Legislature.

"Go West."—The popular phrase, "Go West," has been put in practice to a much greater extent during the last few months than Mr. Greeley ever imagined it would be. Several have left these parts this week for Winnipeg and Manitoba, among these Mr. John Cosley.

"The Wicked City."—As it is fashionable now-a-days for cities upon being incorporated to assume some peculiar delinquint, we would suggest when Port Hope becomes incorporated she will be known by the title of "the Wicked City." At least from the events which have transpired in that town during the past few weeks, we believe she can fairly claim to rank as the Gomorrah of Ontario.

Spearing Fish.—Messrs. Robert Franklin and Thos. Marsden were charged by Inspector Gilchrist and tried before Mr. Hatton, on Monday, for spearing suckers in Bass Lake in contravention of the fishery law, and were fined $20.32. Richard Nurse and William Thompson, of South Monaghan, were fined for the same offence, $20.32. Wasn't this rather dear fishing?

All is not Gold, &c.—We hear of several mechanics who, a short time ago, left this town for Manitoba and Dakota, writing home anything but cheerful news of the prospects for work in the Far West this season. Every trade is overrun, there being, as one writer of Three men to do one man's work." No doubt many of them will return during the summer, wiser as well as poorer from their experience.

Fire Brigade.—The annual meeting of the Fire Brigade was held on Tuesday evening last, when the following officers were elected:—Captain, A. Moffatt; Lieutenant, J. Brownlee; Secretary, J. W. Jenkins; Treasurer, D. Bella; Foreman, Geo. Graham; Branchmen:—W. S. Cooke, W. Scully, and W. W. Smith. In the Hook and Ladder Company, W. Hetherington was elected Captain, and E. Hughes, Lieutenant.

While in New York this spring or summer, you need not pay twice for meals that you only get once. In other words, as the Queen's Royal Hotel, on Broadway, is now conducted on both plans, the American $2.50 or $3.00, and the European $1.00 and upwards, per day, which allows you to take your meals at the elegant restaurant, attached to the hotel, at moderate prices, or to take a room only, and pay for what meals you get.

The Queen's Birthday.—This national holiday falling this year on Saturday, it is generally understood, that the same will be observed on Monday, 26th. The Cricket Club are making extensive preparations for its celebration, by athletic sports and games, and have issued their posters announcing the same. A very large prize list is open for competition, and the prizes are of such a character that must ensure a large number taking part therein. A procenade concert will be held in the evening, the day's proceedings terminating with a grand display of fire works.

Lakefield and Funston.—The *News* fears that Lakefield, which grew up because of lumbering and lived on that industry, will now die for want of sustenance. The same fear is expressed by the *Gazette* in reference to Funston Falls. Both papers cry out for manufactories. It is evident that neither of these papers have much faith in the N. P. as a means to encourage industrial enterprise. These and other places in the country are learning the utter hollowness of the Protection lot cry. What a fraud it is, anyway!

City of Guelph.—At the meeting of Guelph into a city, on Wednesday last, the Mayor conducted his inaugural address by saying most of the cities of this Province have some distinction in addition to their corporation name:—Toronto, the "Queen City of Hamilton, the "Ambitious City;" London, the "Forest City;" Kingston, the "Limestone," and so on. Guelph, as most of you are aware, was named after the Royal Family of England, and the corporation have thought proper, in view of this fact, to designate ours the "Royal City."

The Sturgeon Point Hotel.—Com. Crandell has secured the services of Miss Montserrat as manager of this hotel during the approaching season. Miss Montserrat had charge of the Mount Julien Hotel last year, and in that capacity was extremely popular—especially with the Peterborough people, who were the best patrons of the hotel. As the Commodore purposes conducting the hotel mainly for the enjoyment of the people of Lindsay and the Midland district he has done well in selecting so manager one so well and favourably known in this section.

Entertainment.—Mrs. Bowman's concert on Wednesday evening last was fairly well patronized, and the entertainment was very successful. The piano solos and duets of the Misses Officer's were well received and their touch must make them the envy of many of those who have spent years in practice. Mr. Sanders, in his comic songs received continued applause. The piano solo of Mrs. Roberts and the songs of Mrs. Pullen were well rendered. Mr. Mc. Pirie was unfortunate from the effects of a severe cold, she did not do herself justice. Mrs. Bowman's singing needs no comments. The duet by Mrs. Bowman and Mrs. G. R. Sprouls is entitled to mention. The Glee Club also took part in the concert and assisted in making it a very enjoyable one.

The Phrenological Journal and Science of Health for May lies on our table. We are impressed, by even the cursory examination which has been given it, that its peculiar merit is the furnishing of practical instruction in the readers in a clear, straightforward, manliest manner. Although no inconsiderable amount of learning is indicated, the amount of the subjects which come within its sphere is always simple and adapted to every class of readers. A very interesting story, entitled "Uncle Jimmie, the Cripple," is continued, and the young people who read the *Phrenological* must be pleased with it; a sketch of Elihu Burritt, the celebrated linguist, follows, and there are fresh chapters on "Boats and Mind," discussing the sources of human conduct, the relative importance of the faculties, and the manner in which Phrenology grew into a system. In the department of the Science of Health, we have a crisp discussion of theories, some very appropriate comments on Wells, and an outline of the Training of Girls, which every mother, and father, too, should carefully. It is replete with living truth. The other departments, Botanical, Industrial, etc., are as well filled as usual. S. R. Wells & Co., Publishers, 737 Broadway, New York.

The Springville Times and Reporter, which is shortly to be published at the Ontario County town, Vol. 1 and 1.

Shorthand.—About every other article the *Review* winds up, with some person "to the contrary notwithstanding." Give us a change, if you can.

Lodge Election.—The Examiner this week issues two thousand five hundred copies. The benefits of advertising in this paper must be apparent to every business man.

Personal.—We are pleased to state Mr. John Bertram is recovering from the effects of a fall from a scaffolding last week, and will shortly be able to attend again to his duties.

Personal.—Messrs. Hesbrett and McKee have removed to the old stand where all their friends and those requiring a good article in the furniture line can be supplied at prices suited to the times.

Bicycled Off.—Mr. Thomas Rutten, of Gamegeboro, has purchased the stock-in-trade of F. Lane & Co, and is now in possession of the same. Mr. Lane will leave for Emerson, Manitoba, about the latter part of this month. In the meantime he requests all those indebted to him to call and settle without delay.

R. C. Entertainment.—A musical and literary entertainment will be given in the Union Church, Asbury, by the Rev. J. W. Cannon, assisted by the children of the Bible Christian Sunday School, on Monday evening next, commencing at 7.30 o'clock. Admission only 10 cents.

Local Tramps.—Mr. Chas. Clarke, Surgical Machinist, of Hamilton, paid a second visit to Peterborough on Tuesday and Friday of last week. He reports the visit as being very successful having made a number of sales. Those requiring his services may not be able to visit him during his stay here, should read his advertisement in another column.

The Caravanella.—The entertainment under the auspices of Carnwell Temple, last Friday evening, was entirely successful. The attendance was so large that many were unable to obtain sitting or even standing accommodation. Financially it must have been as satisfactory to its promoters, as it was enjoyable to those attended.

"A New Industry."—The *Review* implies that the *N. P.* is the cause of the new furniture factory about to be established in Peterborough by the Messrs. McKee. The building has been erected nearly a year, and the firm say that they could before the readjustment compete successfully with their American neighbors.

Chancery Sale.—Remember the Chancery Sale of the valuable farm belonging to the estate of the late Thomas Mans, in the Township of Smith, on Monday next, the 12th inst., at Mr. Weller's office (over the Bank of Toronto), at two o'clock p. m. We believe this is a first-class and very desirable property. For particulars see advertisement in another column.

Complimentary.—Mr. M. Knowlton, being at present on a visit to Peterborough, his numerous friends are making preparations to give him a complimentary benefit some evening next week. It is expected that Mr. Carswell, of Oshawa, will deliver an address on the occasion. An interesting programme is expected. Full particulars will be given in bills as soon as arrangements are perfected.

Moore's Commissary.—We learn that the Committee of the "Moore Festival" are endeavoring to secure the services of Mrs. Caldwell, of Hamilton,—who lately appeared before a Peterborough audience—to assist them in the celebration of Moore's Centenary. The choir will meet for practice in the Firemen's Hall, to-night, at 8 p.m. All interested would do well to bear this in mind.

Friendship Lodge.—At the regular meeting of Friendship Lodge, No. 146, I. O. G. T., held on Tuesday evening, May 6th, the following officers were installed for the ensuing quarter:—Jas. T. Kammerson, W C T; Alice Lemaire, W V T; Robert James Kent, W S; Thomas Risdon, W A S; James Hope, W T; Robert Hamilton, W F S; Wm. White, W M; Jenny McFee, W D M; James Stratton, W C Maggie Neisbecott, W I G; Cole Barrett, W O G; Alice Kingdon, W R H S; Hannah Mann, W L H S; D. Pentland, P W C T.

Oddfellowship.—The Oddfellows of this town celebrated the sixtieth anniversary of the foundation of Oddfellowship in America, and the sixth anniversary of the opening of Peterborough Lodge, by an entertainment in the Lodge room last evening. There was a good attendance of the members who were accompanied by a number of friends. Mrs. Bowman Mr. Galletly, Mr. J. Ormond, Mr. T. G. Rush, and several others assisted in the entertainment. The Lodge room was neatly decorated, and the proceedings were of a most enjoyable nature.

Teachers' Convention.—The semi-annual meeting of the Peterborough Teachers Association will be held in the Collegiate Institute building, Peterborough, on the 22nd and 23rd instant. An interesting programme is being prepared. Dr. McClennan and J. M. Buchan, M. A., High School Inspectors, have consented to attend the meetings and deliver addresses, on the evenings of the 22nd and 23rd. Trustees, teachers, and friends of education are respectfully invited to attend.

Pedestrian Tournament.—A grand Provincial "go-as-you-please" pedestrian match, will take place in the drill-shed on the 22nd, 23rd, and 24th of May. There will be excursions on the Grand Trunk as far west as Belleville, and as far west as Toronto; also on the Cob Pet. and Mar. R. R., in connection with Caledonia's "Scots men's; and the Steamers of the Northern Lakes and the Midland R. R., all at reduced rates. A first-class hand will be in attendance, and everything is being done to render this match a perfect success. 19-1in

Absconded.—Mr. J. A. Montgomery, a well known jeweller of Port Hope has absconded, leaving liabilities to the amount of nearly $10,000, to effect which his assets are under $2,000. One of the worst features of the case is that it is now discovered he has for some time past been freely using other peoples names on his paper without their knowledge or consent—or impliain words he has forged notes to the amount of nearly $6,000. The authorities learning he was in Stratford telegraphed to the police to arrest him, and they accordingly arrested a man giving his name as Jas. A. Montgomery, of Port Hope, but who subsequently turned out to be a brother of the defaulter, a shoemaker by trade, who resides in Princeton, and who was apparently under the influence of liquor at the time. From all the facts so far obtained, the transaction appears to have been premeditated. The defaulter is still at large, but it is expected the brother will be arrested as an accomplice.

SCHOOL BOARD.

The Board of School Trustees held their regular monthly meeting on Tuesday evening last, in the school room. Present—James Stevenson, Esq., Chairman, and Messrs. Edwards, Macdonald, Towle, Erratt, Shaw, Wright on, Hinnison, Menzies, Carlisle, Dumble.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS.

From C. D. Macdonald, Town Clerk, transmitting a resolution passed at a late meeting of the Town Council, asking the Board to send in their estimate of expenses for the present year. —Received.

From Miss Maggie Flavelle and Miss M. E. Sanderson, asking a reconsideration of their salaries while teaching in higher rooms.

From the Principal, on behalf of the Teachers, thanking the Board for the congratulatory resolution passed at the last meeting.

The Secretary stated he had during the past month received as fees the following:—From the Institute, $73.80; from the Public School, $6.30.

The Principal's monthly report was read, showing the attendance as follows:—

	On Roll.	Average.
Collegiate Institute	148	142
Central School	293	253
South Ward School	156	136
Third "	177	89
Auburn School	74	35
Total	1395	917

From the Principal, announcing that the semi-annual meeting of the county of Peterborough Teachers' Association would be held on the 22nd and 23rd inst., and asking for the use of a room for the holding of the same.—Request granted.

An account from Messrs. Toker & Co., was received, amounting to $13.20, was read and referred to the Committee on School Supervision.

FINANCE COMMITTEE.

Mr. Shaw, Chairman of the Finance Committee reported. The committee were unable to report definitely as to estimates for the year, [illegible]—be the same, and [illegible] from all information gathered, it will require for the support of the Institute about $4,500, and for the Public School, $3,200. The [illegible] be submitted at next meeting.—Received.

TENDER FOR STATIONERY.

Mr. Dumble, Chairman of the Committee on School Supervision reported, that the tender for supplying stationery for the year, had been awarded to Messrs. Toker & Co.

PAYMENT OF SALARIES.

Mr. Towle, Chairman of the Committee on the Revision of Salaries reported. The report was in substance the same as that presented at the last meeting of the Board, and published then in the EXAMINER.

It was moved by Mr. Macdonald, seconded by Mr. Carlisle.—That the report be received; by adding that the salaries of Mr. Jeffers be reduced to $2,100; J. Dixon, to $700; and B. Hart to $700, the reduction to take place after the first of July next.

The consideration of being put was declared lost. The original motion was then put and also declared lost.

The following are the yeas and nays on both resolutions:

FOR THE AMENDMENT.

Yeas—Messrs. Edwards, Macdonald, Carlisle, and Menzies. Nays—Messrs. Towle, Erratt, Shaw, Hinnison, Dumble and Wrightson.

FOR THE REPORT.

Yeas—Messrs. Shaw, Erratt, Towle and Wrightson. Nays—Messrs. Dumble, Hinnison, Menzies, Carlisle, Macdonald and Edwards.

MISCELLANEOUS.

On motion of Mr. Erratt, the Treasurer was authorized to lay before the Board at each regular meeting statements showing receipts and expenditures during the month.

On motion of Mr. Dumble, it was agreed that the future meetings of the Board be held in the Council Chamber.

Mr. Shaw gave notice of motion that at the next meeting he would move that the Principal receive after the 1st of July next $1,200 per annum.

The notice of motion pursued by Mr. Shaw at the last meeting in reference to the establishment of a Nursery in connection with the Collegiate Institute, was then taken up and carried.—Friday afternoon in each week being set apart for the purpose.

The Board then adjourned.

TOWN COUNCIL.

Council met pursuant to adjournment on Monday evening. All the members present. In the absence of the Mayor (through indisposition) Councillor Smith was on motion called to the chair.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS.

From Geo. L. Mitchell, Chief Engineer, in reference to the Third Ward Fire Engine.—Referred to the Fire Committee.

From Robert Hamilton, asking that repairs be made on the street leading from Smith-street Bridge to the boundary.—Received.

From the Treasurer, a statement of receipts and expenditures for the month of April.

From Jas. Edwards, Treasurer, stating that he had been served with a protest by E. Burnham, President of the Property Owners' Association, in reference to the rebate of Mr. Hilliard's taxes.—Received.

From Donaldson Bro's & Hall, asking the immediate payment of Mr. J. R. Stratton's account.

After some discussion Mr. STRATTON was on motion heard before the Council. He stated that the Council had refused to allow or recognise the assignment of Mr. Palmer, and afterwards the printing was give the *Review*, *Times*, and EXAMINER offices, the contract being ignored, and he claimed under these circumstances he was entitled to be paid fair rates for any printing that may have been done at the EXAMINER office, and that he was not bound by rates named in the Palmer tender for any particular class of printing. The rate charged was a fair one, and he was satisfied that the account as rendered should be referred to any printer in Ontario, but one.

The minutes were referred to, and Mr. Stratton's statements borne out.

Mr. Stratton signifying his willingness, the matter was referred to the Town Clerk to have it settled.

From A. Cox, Licouse Inspector, demanding payment of the amount of the account previously presented.

MR. HILLIARD'S TAXES.

Councillor CAHILL moved that the communication from Mr. Edwards be received.

Councillor MILLS moved, seconded by Councillor DENNE.—That so much of the report of the Finance Committee at last meeting as relates to the remission of Mr. Hilliard's taxes be rescinded.

The matter was held over and disposed of at a subsequent stage of the meeting.

PETITIONS.

From Abraham Ball and others, asking for improvements on Dowsie street.

From Samuel Hall and others, asking for a sidewalk on Palmer-street.

From Jas. Dolan and John Garvey, asking to be allowed to make certain changes in the sheds at rear of shop occupied by Mr. Comstock.

From Wm. Brayshaw and others, asking for improvements on Aylmer street.

In disposing of the petitions for street repairs it was

Moved by Councillor CAHILL, seconded by Councillor RUTHERFORD.—That the committee appointed at the last meeting of the Council to assist the Street and Bridge Inspector be known as the Street and Bridge Committee for the present year, and that all applications for street improvements be referred to them, and that no work be undertaken until approved of by the Council except the ordinary repairs, which shall be done by the Street Inspector.—Carried.

ACCOUNTS.

M. O'Donel	$ 5 10
Toker & Co., books and stationery	7 00
Toker & Co.	7 20

The accounts were referred to the Finance Committee.

STREET AND BRIDGE MATTERS.

Councillor MILLS, Chairman of the Street and Bridge Committee submitted the following report:—

The Chairman of the Street and Bridge Committee, with two members of the Committee and the general Superintendent of the same, were present and examined the drain opposite Mr. Rutherford's carpenter shop, and we found a drain cut by the side of the road, and a quantity of water running through the same. The said drain is widening each year, and the road is now very dangerous. Should an accident occur there the town would be called upon to make good the damage. It was agreed by the member present that notice should be served on Arthur Rutherford, requiring him to restore the road into its former position, and the water be turned into its original channel. The Committee deem it desirable before presenting their report to examine streets and bridges in some as petitions are received for further improvements. They cannot state the amount of money which will be required, until an examination of the same is made. The report recommended the adoption of a form for the accounts to be kept by the Street Inspector, and also recommended the purchase of a quantity of gravel, as the present supply would soon be exhausted.

Councillor MILLS moved the adoption of the report.

Councillor RUTHERFORD objected to the adoption of the report, and gave a history of the water table on Dublin street. The work had been done to reclaim low land in that part of the town, by the Council of 1875.

FIRE, WATER AND GAS COMMITTEE.

Councillor PATERSON submitted a report of the Fire, Water and Gas Committee, which recommended the selling of the present Engine House and Fire Hall to the Mechanic's Institute, and the erection of a new engine house and hose tower at a cost not exceeding $2,500. The present engine house could be sold for $1,200. The proposed site of the new engine house and hose tower was on Hunter street, on the property of James Hall, at the creek, at present occupied by John Halpin.

Councillor CAHILL favored the report, but thought that instead of issuing debentures, the $2,500 needed might be raised by taxes. He suggested the laying over of the report till next meeting for consideration.

Councillor RUTHERFORD also favored the adoption of the report.

It was finally laid over till next meeting.

MR. HILLIARD'S TAXES.

Councillor MILLS moved, seconded by Councillor DENNE.—That that portion of the Finance Committee's report of last meeting relating to Mr. Hilliard's taxes be rescinded.

This motion provoked considerable discussion, the substance of which was merely a repetition of that of the last meeting.

The motion was declared lost.

STREET SCRAPING.

Moved by Councillor CAHILL, seconded by Councillor TAYLOR.—That the Street Inspector be instructed to allow Mr. Towle to have a portion of the street scrapings to fill in on the site of his former workshop.—Carried.

NEW SIDEWALK.

Councillor ROTHERFORD, moved, seconded by Councillor RUTHERFORD.—That the Street Inspector be instructed to lay down a new sidewalk on the north side of Murray street, from George to Aylmer.

Councillor DENNE objected to this motion as out of order, and the objection was held good.

MARKET SQUARE.

Moved by Councillor PATERSON, seconded by Councillor DENNE.—That the Inspector be instructed to have the mud scraped off the Market Square, and the sidewalk continued from the south end of Mr. Bradburn's building to the sidewalk on the south side of the Square.

Both this and the preceding motion were held over as notices of motion.

FINANCE COMMITTEE.

Councillor CAHILL read and submitted a report from the Finance Committee recommending the payment of certain accounts, and stating that the contract for supplying pine plank and scantling for the ensuing year was awarded to Mr. Wm. Davidson at the following rates: $8.50 per thousand feet for pine plank, and $8.50 for scantling.

SUPERANNUATION MEMORIAL.

Mr. Denvir, Local Licence Inspector, was instructed to have all the monies outstanding for licenses collected at once.

BUILDING MATTERS.

Mr. GARVEY was heard in reference to the applications of Messrs. Bates & Garvey, for the privilege of tearing down the old sheds and erecting new ones in their stead.

The matter was reconsidered and referred to the Building Inspector with power to act.

TOWN CLOCK.

Moved by Councillor MILLS, seconded by Councillor DENNE.—That a committee be appointed to examine into the easement of the situation and repairs of the clock, with power to have all papers produced and if necessary to examine witnesses under oath and report the same at the next meeting of this Council, and that said committee be Messrs. Mills, Douglas, Griffith and Taylor.—Lost.

Moved in amendment by Councillor CAHILL, seconded by Councillor PATERSON.—That the present Fire Committee be relieved of their duties, and that Messrs. Mills and Denne be appointed in their stead.—Carried.

The Council adjourned for one week.

HANLAN AGAIN VICTORIOUS.

The Toronto Boy shows the Englishman what he can do.

He Beats Hawdon by over Five Boat Lengths, after having played with him throughout the Race.

Of all the many struggles for supremacy that have taken place on the Tyne, it is doubtful if any ever created more, if so much, excitement as Monday's contest between John Hanlan, of Delaval, and Edward Hawdon, of Tuscania. Certainly none have ever been watched with so much interest from this continent. The attendance was simply enormous, the lowest estimate placing the crowds who lined the banks and thronged the bridges at a hundred thousand. All the forenoon the streets were densely crowded with visitors from the surrounding towns, the miners in the neighbourhood of Delaval Hewick, Benwell and Scotswood turning out to a man to pay their favourite "whip the yankee." But the whipping didn't come off, and Hawdon is now a demolished idol. They believed him without a peer with the oars, and had fondly dreamed that the day was not far distant when Elliott, the champion, would have fallen before his prowess. But they have been disappointed, and Englishmen begin to fear then. In the second time, their championship will go from them. Twelve steamers, most of them small, accompanied the race.

The betting commenced at two to one on Hanlan, three to one being occasionally laid. At the start the price was five to two on him, with few takers. John Bright, who has accompanied Hanlan in his practice, and through whom the match was originally made, showed the Canadian over the course from the bows of an eight-oared cutter, James Percy doing the same for Hawdon. Dr. Lake Armstrong, the referee, took his place on board the official steamer precisely at 1.15, but the scullers did not show until a quarter of an hour later. Hanlan, with his usual never-failing luck, won the choice of sides, and took the northern station, gaining a slight shelter from the wind for the first half mile. Both men looked in the very perfection of condition when they took their places at the starting boats. Hawdon stripped to the buff, and was barebacked. Hanlan wore a cardinal band round his head, and a blue sleeveless guernsey.

THE RACE.

They started by mutual consent at 1.40, and Hawdon getting the first cut at the water drove his boat nearly half a length in front. Hanlan, evidently determined at the outset to do or die, dashed away at a terrific stroke of forty to the minute. Hawdon rowed a light chipping catch of forty-two to the minute. Hanlan who literally sculled twice as fast as his antagonist, was level at the sixth stroke, and when they had gone fifty yards was leading half a length. It was a wonderful piece of sculling, and struck the spectators with amazement. The Canadian with a beautiful long, clean, measured sweep, then rowed completely away from the Tyne sculler and led by three lengths when they had gone a quarter of a mile. Hawdon pulled with all his force and put in the strokes with remarkable rapidity, but they did not seem to tell o'er much on his rival's lead. Hanlan now eased his stroke down to thirty, and afterwards made himself quite comfortable. He did not increase his advantage, but kept looking around and waiting until his pursuer almost got level with his rowlocks, when he would put in a fast half dozen and draw away again.

Hanlan simply played with his man all this distance, and just after passing the two mile point stopped until Hawdon was level. Then he commenced laughing and shot right away. One mile from the finish Hanlan stopped and actually baled the water out of his boat with a sponge, and then dashed off. He led by eight lengths at Scotswood Haughs, and won by five boat lengths in 22min. 5 secs.

THE WINNER'S RECEPTION.

Hanlan had the race safely won after the first quarter of a mile, and although Hawdon sculled in excellent form and pulled right through to the finish, for the first time realising the length and hardness of a stern chase. Hanlan was loudly cheered all the way as he went, and received an extraordinary reception on his return to Newcastle.

HANLAN MATCHED FOR THE CHAMPIONSHIP.

NEWCASTLE, May 5, 11 p. m.—Edward Hanlan was matched definitely to-night to row William Elliott, of Blythe, for the championship, on June the 16th next. A proposition was made on behalf of a London gentleman to match Wallace Ross against Hanlan, the winner to row for the championship, but Ross who was present, finally withdrew from the match, expressing a desire not to stand between his brother Canadian and the championship. When Hanlan had defeated Elliott, as he felt assured he would do, he (Ross) thought it would be time enough to talk about a match between two Canadians on English waters. Ross' friends here have implicit confidence in his rowing powers, and think he would make an excellent fight against Hanlan, an opinion held before to-day's contest and not, strange to say, weakened by the exhibition the American champion made of Hawdon. The betting for the championship match is sixty to forty on Hanlan, which was laid four times and then went a begging.

Appalling Disaster.

Nitro-Glycerine Explosion at Stratford—Three Lives Lost—And many persons injured—Over 200 Cars destroyed—And Shocks shattered to pieces Loss, $200,000.

One of the most disastrous accidents that has ever occurred in the annals of railroading in Canada, occurred at the G. T. R. freight sheds Stratford, on Monday about 11 o'clock. A car of either dynamite or nitro-glycerine, which had been allowed to remain in a car on the track for several nights, and which explosive was shipped by Mr. Vanderbilt's agents from Quebec to Amherstburg as blasting powder, the rules of the company forbidding the shipment under any circumstance of such compounds, was the cause. In one of the cars in the yard were stored 80 cans of dynamite, weighing 3,750 pounds, and when two cars were being coupled

A TERRIBLE EXPLOSION

occurred, shattering to pieces all the freight cars in the yard, and blowing down the freight office; which stood within 200 yards of the cars, and the western end of the freight shed was torn out completely. The heavy beams which traversed the building, were snapped asunder like pipe stems, and the structure left in almost a total wreck. Nearly all the houses in the vicinity were rendered windowless, and in many cases the walls were thrown down. It would be impossible to describe the appearance of the yard after the occurrence. The mangled bodies and limbs of three railway employees were found scattered about the debris, and human limbs were picked up off the adjacent fields. The bodies in some instances were blown several feet in the air. Several others were extricated from the ruins in an unrecognizable condition, and many were badly injured. The loss to the company is very heavy, there being over 100 cars shattered, and 30 freight cars destroyed. The total loss is estimated at between $200,000 and $300,000. A deal of damage was done up town, a mile away from the scene.

The Zulu War.

In the House of Commons on Monday afternoon, Sir Stafford Northcote, Chancellor of the Exchequer, replying to a question of Mr. Bright, said the Government was most anxious to establish peace in South Africa and had furnished Sir Bartle Frere with positive and negative instructions on the subject. The statements made by Sir Stafford Northcote are regarded as being somewhat enigmatical. The accounts received from the Cape are construed as unpromising on the whole. No confidence is felt in the sincerity of King Cetewayo's professions of anxiety or willingness to effect a peaceable understanding.

Death of Dr. Butt.

LONDON, May 5.—Dr. Isaac Butt, the Home Rule leader, died at 4 p.m. to-day. Dr. Butt's death, although known to be imminent for some days past, has cast only caused great regret, but is expected to have important political consequences. He was greatly liked, and respected an influence extending far beyond his own party. He was 66 years of age. The writ for the election of his successor will be soon issued. The city of Limerick has about 1,800 registered voters. The abandonment of the Home Rule party by the O'Connor Don, and the death of Dr. Butt, are serious blows to the organization, and it is thought probable that the election of a successor to Dr. Butt may result in a heated contest. Dr. Butt will have a national funeral.

THE MELBOURNE EXHIBITION

The international exhibition of the products of all nations will be opened at the city of Melbourne, Australia, on the 1st of Oct., 1880, and will afford another excellent opportunity to manufacturers in this country for obtaining a footing in the markets of the southern hemisphere. Besides being the largest and most prosperous city in Australia, Melbourne has long acquired a prominent standing as the great central mart of all the Australian and New Zealand colonies, so that this exhibition will be certain to attract business men from all parts who will have a sharp eye for the best products of every sort, and the best bargains that can be obtained. Intending exhibitors should forward their applications for space, with full particulars, to the Commissioners' secretary as early as possible. Copies of the official form of entry can then be obtained.

Afghan Affairs.

Yakoob Khan Forced to Make Terms by General Frowbles.

LONDON, May 5.—A despatch from Peshawur states that Yakoob Khan resolved to go to Gundamuk because the state of affairs in Afghan Turkestan is such, that in the event of his still refusing British friendship, he might irrevocably lose that province.

A despatch from Gundamuk says, regarding the conference between the representatives of the Viceroy and Yakoob Khan, that Major Cavegnari believes a pacific solution has been virtually reached.

The Silent Lover.

Wrong not, sweet mistress of my heart,
The merit of true passion,
With thinking that he feels no smart
That sues for no compassion.

Since, if my plaints were cast t' approve
The conquest of thy beauty,
It comes not from defect of love,
But fear t' exceed my duty—

Not knowing that I sue to serve
A saint of such perfection
As all desire, but none deserve
A place in her affection.

I rather choose to want relief,
Than venture the revealing;
Where glory recommends the grief,
Despair disdains the healing.

Silence in love betrays more woe
Than words, though ne'er so witty;
A beggar that is dumb, you know,
May challenge double pity.
—*Sir Walter Raleigh, 1600.*

Field Flowers.

Ye field flowers! the gardens eclipse you, 'tis true,
Yet wildlings of nature, I dost mean you:
For ye waft me to summers of old,
When the earth turned around me with fairy delight,
And when daisies and buttercups gladdened my sight,
Like treasures of silver and gold.

Earth's cultureless buds, to my heart ye were dear
Ere the fever of passion or ague of fear
Had crushed my existence's bloom;
Once I welcome you more, in life's pantomime light,
With the visions of youth to revisit my sight,
And I wish you to grow on my tomb.
—*Thomas Campbell.*

"Oats and the N. P."

(Fergus News-Record.)

The Peterborough *Review* claims that the fact of Mr. Clanton of that town and Mr. Duncan of Lindsay having brought oats up from the Provinces of Quebec is proof positive of the advantage of the National Policy to Canada. But it seems to us that our contemporary is rather rash in jumping to that conclusion. We freely confess that we utterly fail to discern the advantage claimed, and in fact we dispute its existence. But the transactions alluded to fully bear out what has appeared time and again in these columns regarding the result of the working out of Protection as applied to oats. We have pointed out that while in the past oats could be imported into Canada from the Western States at from 25 to 30 cents per bushel, our farmers in the Province of Quebec sold their oats for the European market at from 35 to 40 cents per bushel. And we pointed out, further, that the result of unloading American oats would be to bring oats to Western Ontario from districts of Quebec which previously had found a market in Great Britain. This, it appears by the *Review*, is now being done. But we perceive of no advantage that the country is gaining by the change. On the reverse, indeed, we claim that Canada looses at least sixty thousand dollars a year by the arrangement. If eastern millers and lumbermen could procure American oats at 35 to 30 cents per bushel, and Quebec farmers could sell their oats for shipment to Europe at from 35 to 40 cents per bushel, the exclusion of American oats is a loss to Canada of the difference between the price paid for what is imported in the west and the price received for what is exported in the east. This is so self-evident as to the fact that two and two make four. In the west we sold oats at 25 to 40c., so that we had the advantage of ten cents per bushel upon the transaction. And as the imports of American oats last year were about 600,000 bushels, the profits on handling them can not have been less than sixty thousand dollars. The National Policy must at least curtail, if it does not entirely kill off this profitable business, and in our opinion no more convincing proof could be adduced of its ruinous madness. A nation's greatness is usually measured by the volume of its commerce; but according to the practical teaching of the N. P., the less business intercourse we have with our neighbours, and the more we confine our dealings to our own country, there is all the more cause for congratulation.

As regards the advantage to farmers of the high price now paid for oats, it is much more imaginary than real. Oats, like strawberries command a high figure just now, it is true, but the question is, *Who has them to sell?* We know not how it may be down about Peterborough, but in this district oats are so scarce that their high price is of no advantage to the general farming community. Where one farmer has oats to sell there are two who want to buy; and while a few exceptional individuals will undoubtedly derive benefit from the high price it is no advantage whatever to our farmers as a whole. If the much-boasted National Policy secures high prices at the season of the year when farm produce is being disposed of, then it will be entitled to some of the credit so liberally bestowed upon it in advance. But if oats are high only at the time our farmers have none to sell, it will prove a delusion and a snare. There will be ample time to observe us working during the ensuing five years; and we venture the prediction that at the next general election of members to the House of Commons Conservative candidates will base their appeals to the electorate for support upon other grounds than that they are Protectionists. So far the National Policy as it relates to oats is a direct loss to the country of sixty thousand dollars a year; while the advantage to our farmers is, to say the least, problematical—it being one thing to know that oats are worth from 35 to 40 cents a bushel, but a very different thing to have oats to sell at these figures. The woman who complained that her hens always quit laying just when eggs got dear did not derive either benefit or consolation from the fancy figure offered for fresh laid eggs at Christmas. And farmers generally have a very similar feeling regarding the present price of oats. If the National Policy can secure high prices, how is it that peas, oats and barley do not go up? Barley, especially, ought to command a big figure, because in addition to the customs tariff imposed, the excise duty on malt has been reduced one half,—and the Conservative press maintained at the time the malt duty was increased by the Mackenzie government that the increase came out of the farmers' pockets.

Smith.

Council met pursuant to adjournment, on April 28th, 1879. All the members present. The newly elected members, viz., T. H. Fitzgerald, Deputy Reeve, and Wm. Molimyl, Councillor, after making and subscribing the necessary declarations of qualification and office, and depositing the same with the proper officer, took their seats. The minutes of last meeting were read and confirmed. Moved by Mr. Fitzgerald, seconded by Mr. Middleton, that all James Elliott's Statute labor be performed on Road Division No. 16.—T. H. Bell, overseer.—Carried. On motion of Mr. Fitzgerald, seconded by Mr. Middleton, a by-law to provide for the appropriation and expenditure of the sum of thirteen hundred dollars in the general repairs of the roads and bridges in the several road divisions therein mentioned in the Township of Smith, and to appoint commissioners to superintend the expenditure of the same, was passed. It was moved and seconded that the Reeve do issue his order on the Treasurer for the following sums:—

Spearman & Wrightman for Printing	$3 75
M. S. Dunn for goods furnished Mrs. Gage	7 00
R. McRibbin for wood furnished Mrs. Hartly	2 00
W. Pearce for wood furnished Mrs. Hartly	2 00
R. Watson for wood furnished Mr. John Clark	6 00
Thomas Young, to be used for the support of Geo. Parsons	5 00

—Carried.

The Council then adjourned till Monday the 26th day of May.

Read This, Ladies!

You all love flowers, and when the season for them to bloom arrives are tempted to break the tenth commandment by coveting your neighbours' plants. It is much easier to grow a stock for yourselves than people generally suppose, and the pleasure yielded by your floral beauties will be enhanced by the thought that they are of your own production. Here is an example for your imitation, copied from the New York *Tribune*:

"A lady friend who dearly loves flowers, and, like all others who do, succeeds well with them, has no end of 'good luck' in raising young bedding plants of almost all the popular kinds. Her simple but efficient contrivance consists of a deep plate, filled with water, in a warm, sunny window. In this are pinned various cuttings of coleus, geraniums, heliotropes, roses, etc., and in a surprisingly short time white roots are emitted from the base of the cuttings, when they are potted off singly into pots. In winter this plate of cuttings is almost as refreshing to the eye as a plate of cut flowers, so that instead of being objectionable it is really an ornament. Every florist knows that oleander cuttings suspended in bottles of water will always succeed better than when placed in sand, and they really have a pleasing effect in the 'window greenery.' Strange to say, no shade whatever is given the above, but the full rays of the sun are allowed to strike squarely on the cuttings."

The Largest Wheat Farm in the World.

The largest cultivated wheat farm on the globe is said to be the Grandin Farp, not far from the Town of Fargo, Dakota. It embraces some 40,000 acres, both government and railway land, and lies close to the Red River. Divided into four parts, it has dwellings, granaries, machine-shops, elevators, stables for 200 horses, and room for storing 1,500,000 bushels of grain. Besides the wheat farm, there is a stock farm of 20,000 acres. In seeding time, seventy to eighty men are employed, and during harvest 250 to 300 men. Seeding begins about April 9 and continues through the month, and is done very systematically, the machines following one another around the field, some four rods apart. Cutting begins about August 8, and ends the fore part of September, succeeded by the threshing, with eight steam threshers. After threshing, the stubble ground is plowed with great plows, drawn by three horses, and cutting two furrows; and this goes on until the weather is cold enough to freeze, usually about November. There are many other large farms in the Territory and in the same neighborhood, and they are tilled in much the same manner as the Grandin. The surface of the land generally is almost level, and the soil rich and black. The product of one field of 3,215 acres is 57,285 bushels—elevator weights—some 18½ bushels to the acre. The average yield of the Dakota wheat farm is from 20 to 25 bushels per acre, and the concurring testimony is that it is unequaled as a wheat region in world.

A Nation's Boarding School.

Here are some of the scholars, their virtues, traits, etc.:

Dela Ware—A *petite* damsel, generally talkative, but who last year was speechless.

Mary Land—Nocturnal. Always with an ocean before her.

Minnie Soto—The flour of the school.

Flori Day—Displays great taste in her arrangements.

Carrie Lina—To memory dear, yet ever forgotten.

Louisa Anna—A sorrowful maiden. Her tresses are found in tierce.

Mrs. Ippi—It is her namesake, not herself, which has the big mouth.

Miss Ouri—Likes company. Misery always likes company.

Ida Ho—A near relative of "Whoa, Emma."

Miss Chigan—The "sweet singer."

Allie Bama—A tom-boy—she belongs to the soony climb.—*Yonkers Statesman.*

Get Crops in Early.

This is the stereotyped advice of all agricultural and horticultural journals, and the constant aim of all good farmers and gardeners is to act upon it. But it is quite as important to prepare the soil thoroughly as it is to take time by the forelock in the matter of sowing. It is not uncommon for people to sacrifice the condition of the land to the rage for early seeding. This is a mistake. Land ploughed in the fall is often sown too soon, and scratched by the harrows into a lumpy condition. A surface of bullets and cannon balls is not favorable to vegetation. There is a large amount that must either be drained or sewed late. Nothing is gained by putting seed into soil in a mechanically unfit condition. It must be mellow and friable, or the rop will struggle against difficulties during the whole of its history, and be but a poor crop at last.

Secession.

This cry about the secession of British Columbia from the Union, so potent when approved by the present Premier, does not seem likely to amount to much, now that it can no longer be used against the Liberals. Sir John Macdonald is able to tell us now that "anti-secede" is the principle animating the breasts of the virtuous patriots who have been threatening to withdraw on the 1st May, unless Canada fulfils the promises made under the previous administration. And this in the teeth of the fact that representations have been sent direct to London by the Local Assembly demanding separation. Some new trick of legerdemain must have been employed to reconcile Messrs. Bunster, DeCosmos and Thompson to this new reading of the covenant—or have they become convinced that by seceding they would only be stepping out of the frying pan into the fire, with the certainty that they would have to ask permission to step back again on the first opportunity that offered?

Queen Victoria's Abdication.

Ill-Health May Compel Her to Leave the Throne.

The London correspondence of the Dundee *Advertiser* says:—Rumors of a vague but somewhat alarming character have been current for some days with regard to the Queen. I have not hitherto alluded to these reports, but they have become so persistent that it would be useless longer to ignore their existence. It is said that for some time past Her Majesty's health has not been in a very satisfactory state. The death of the Duchess of Hesse gave her a shock from which she has not recovered, and the fatigue incident on the celebration of the marriage of the Duke of Connaught exercised a depressing influence on her health. The journey to Italy is not a mere holiday trip. Sir W. Jenner considered that a change of scene, and an almost entire absence from official duty of any kind, were necessary for the Queen, and this is the reason why she has buried herself on the secluded shores of an Italian lake. It is no doubt in consequence of the gloomy statements regarding her Majesty's health which are gaining belief society that other reports connected with the secession of the throne are always current. It is said that unless a considerable change in her Majesty's health takes place she will no longer be able to discharge the functions which belong to the sovereign of the country, and rumor points to the possibility of an abdication. It is an undoubted fact that since the departure of the Queen for Italy the Prince Minister has several times seen the Prince of Wales. On Tuesday he had an interview with his Royal Highness of more than an hour's duration, and the Prince would seem to be since to some extent discharging the duties of the Queen with regard to public affairs during her absence in Italy. In a matter where there is a good deal of speculation it would be idle to make definite statements, but there are those who think that a somewhat startling surprise is in store for Parliament before the present session closes.

The Campbell Divorce Case.

The Campbell Divorce Bill received its third reading in the Senate on Friday by a majority of nine. It is stated, that after the committee had agreed to reject the Bill, Senator Macdonald, of Cape Breton, who had previously declared his willingness to restore the latter to all rights and privileges, came forward and threw over, instead of a casting vote, the decision of the committee, thereby causing the contest to be renewed. It is said that Senator Macdonald has been induced to change his vote by the Bill [illegible] passed [illegible] session and the third time.

Gilson's Substitution Medicine.

As a *condition* medicine for horses "Darley's Condition Powders and Arabian Heave Remedy," has no equal; its effects in this respect are astonishing; many horses that were supposed to be broken down and almost worthless, have by the use of a few packages been restored to healthy and sound condition, all traces of the disease having been completely removed, and have been sold for from $50 to $75 more than they would previously have brought; when you want a horse medicine get "Darley's Condition Powders and Arabian Heave Remedy," we know you will be perfectly satisfied with the result. Remember the name and see that the signature of Hunt & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

A Common Cold.

Did you ever think that what is termed a common cold when systematically neglected, often leads to that most fatal and distressing disease, consumption, but when attended to at once is generally easy of cure. If you are troubled with a cold or cough, "Bryan's Pulmonic Wafers" will be found most efficacious in removing it. They give immediate relief, and generally effect a cure when used in time. Sold by all druggists and country dealers at 25 cents a box.

The Great Shoshonees Remedy

The Great Shoshonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicinal plants and herbs; the various properties of these different ingredients, when combined as so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys Digestive, Organs, Nervous System, &c. restoring their functions to healthy action, and being purely vegetable, is as harmless as nature's own beverage. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a summer restorative it stands unrivaled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to bilious Colic, Dysentery, Indigestion, &c., should take the Shoshonees Remedy. Price of the Remedy in pint bottles $1; Pills, 25 cts. a box. Sold by all medicine dealers.

Mitchell's Relandeau Improved India Rubber Porous Paster.

There never has been a time when the healing of so many different diseases has been tested by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when scientifically compounded, is full of electricity and when combined with the pure medicinal gums, is found to be one greatest healing articles ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one of these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming supporting and strengthening qualities of all other Plasters. Many who have been relieved of RHEUMATISM, TIODOLOREUX, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a long fasted Consumption.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly; or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$15	40	Each.
"	6	"	13	86	"
"	8	"	17	75	"
"	10	"	15	03	"
"	12	"	13	33	"
"	15	"	11	83	"
"	20	"	10	02	"

In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

MESSRS. POUSSETTE & ROGER,

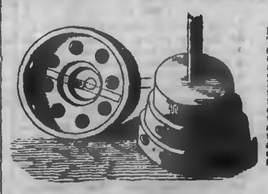
AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.

(Patented July, 1878.)



Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 5 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed,—no machinery about it to get out of order.

For Dealers, Rights, Etc., address—

A. W. TULLY, Smith.

Or W. STOCKS, Peterborough.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

Thousands Applaud its Wonderful Cures.

Hear what a revered Gentleman says of the Constitutional Remedy.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very distressable, and a choking sensation often preventing me from living long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrah, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Port Elgin, Ont., Aug. 24, 1878.

Ask for Littlefield's Constitutional Catarrh Remedy and take no other.

T. J. B. HARDING, Dominion Agent Brockville, Ontario.

For Sale by all Druggists at only $1 per Bottle.

BUY IT! - - TRY IT! 11-1y

AGENTS, READ THIS.

We will pay Agents a Salary of $100 per month and expenses, or allow a large commission to sell our new and wonderful invention. We mean what we say. Sample free. Address SHERMAN & CO., Marshall, Mich. 7-13ins.

MANHOOD: HOW LOST, HOW RESTORED!

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

☞ Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞ This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York.

Post Office Box 4586. 3-1

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address REV. EDWARD A. WILSON, 162 Penn St., Williamsburgh, N. Y.

PILES.—Dr. Weber's Celebrated Pulmonic Ointment is the best ever known for Piles of every kind (*Bleeding Itching, Blind, Internal, Etc.*), and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Chronic cases readily yield to it. No surgical operation required. Try it and relieve your sufferings. Only 50 cents for a large package. Sent free by mail on receipt of price. For sale by all druggists. Dr. J. ASHER, 39 Ann-St., N.Y. 50-52t.

VOLUME XXIV. THE PETERBOROUGH EXAMINER, THURSDAY, MAY 15, 1879. NUMBER 20

The Examiner.

Is Published every Thursday Morning at the Office corner Simcoe Street, Peterborough.

TERMS—$1.50 PER ANNUM IN advance, Postage paid by the Publisher.

J. R. STRATTON, Proprietor.

TERMS OF ADVERTISING.

First Insertion, per line Nonpar; each subsequent insertion 4 cents.

Special Advertisements are measured by a scale of 12 lines to the inch.

All Advertisements without written directions to the contrary will be inserted, and charged for till forbid.

Orders for discontinuing Advertisements must be in writing, otherwise the publisher will not be responsible.

Advertisements for contract advertisers by the year, Quarter or changes of contract advertisements should be handed in not later than Monday morning; and should be of a strictly commercial character, and subject to the approval of the publisher.

Communications intended for publication must be written on one side of the paper only, and must be accompanied by the name of the writer, not necessarily for publication, but as a guarantee of good faith.

No paper will be stopped or discontinued, except at the option of the proprietor. A post office notice to discontinue is not sufficient.

Correspondents should bear in mind that all parts of the country are supplied with correspondence, and therefore only such matter as is likely to prove of interest to the general reader should be sent.

All communications should be addressed to the Publisher, and not to any individual connected with the paper.

Letters containing remittances should be registered, otherwise we will not be responsible for their safe delivery.

The Examiner Job Printing Office is supplied with a great variety of the latest and most fashionable styles of type.

GENERAL INSURANCE AGENCY Established 1846. Fire, Life and Accident. THE OLD AND FIRST CLASS COMPANIES REPRESENTED. GEO. A. COX.

Evening—Twilight.

Give me the stirring twilight,
Give me the twilight warm,—
The parting day and lonely,
Which sees but the wooly lawns.

Give me the stirring twilight;
While the stars begin to lay
My senses with the hour
Lest the night be by and by.

Give me the stirring twilight;
When the day is all done,
It quiets most one by one;

All the feelings of heart-ache
That worry me all by day,
Become like darkness, every,
Or vanish, like dreams, away.

Give me the stirring twilight;
When the day is nearly spent,
The quiet light in the room,
And rising to rest upon event.

It gives such deed of duty,
Such deed of duty and strife,
Such notes of love and beauty,
Sketch'd in the pages of life.

There comes, with stirring twilight,
Old friends,—the living, the dead,
Who recall discarded memories,
Which seem to have just been said.

When stirring has departed,
And night dismembers the day,
The glorious hour of twilight
Are chased by darkness away.

The lamp lights on the table;
The evening meal is ready;
A prayer is sung to the Giver
Of life and our daily bread;

A heartfelt pray'r is offered
To the Master of the bath,
That when life's work is over,
And its stirring draw-nith nigh.

That all its pains and pensions,
All its complications and strife
May die, and day be ended
In the peaceful dusk of life.

Ancient Order of Forresters.

The official statistics relating to the progress of the Foresters during the past year show that on the 1st of January, 1879, the Order numbered 531,-176 benefit and 13,155 honorary members, an increase of 9,760 benefit and 776 honorary members during the year. The court funds amounted to £2,949, 838, and the district funds to £299,331, additional—an increase during the year of £140,590 in the court and of £11,490 in the district funds. The new members admitted numbered 40,-449, and the deaths had been 5,533 members and 3,554 wives and widows. The average sickness had been 8.65 days per member.

A Cruel Crime.

A contemporary, referring to a recent reduction of wages, says: The reduction of wages coming at this crisis is a most deplorable thing—the more so because it was so utterly unexpected by the sufferers, who have been led to expect something vastly different. The worst of it is that the reduction is a wantonly invited calamity; for it could have been foreseen by any one who had the smallest pretension to foresight. There was not the slightest cause for adopting the policy which has as naturally ended in a reduction of wages as a chicken comes from an egg. It stands to reason that if, at a time when the people are unable to purchase freely for want of means, the cost of raw material be added to, there must be either decreased sales or a counterbalancing reduction of wages. The manufacturers have no other escape from the dilemma in which the Government have placed them. At the door of the Government and of the incapable noodles forming the same lies the blame of this calamity—for calamity it is, and a great one too. Every reduction of wages reacts against the prosperity of the country. Just as the farmer's purchasing power has been decreased by the tariff, so has the workingman's purchasing power been decreased also. Till both farmers and workingmen can be made better off it is in the highest degree silly to be talking of any "hum of activity," or any hum except the kind that is "all hum."

Wanted Something Useless.

Gentlemen whose wives, sisters, cousins, and aunts are strongly addicted to the practice of making six or eight Christmases a year by fanatical celebration of birthdays, anniversaries of weddings, and other notable domestic events, have been known, under financial pressure, to resort to the contemptible subterfuge of offering as presents various useful articles for household, table, or personal use, which would necessarily come of themselves if there were no gift-offerings thought of. Sometimes the family unanimously practice this little game, and actually feel that common necessities are somehow invested with new value by the operation. But there are others, doubtless, who look at the practice in another light, and like the little French girl would like a change occasionally. This young lady, it is related, was in the habit of receiving from the prudent father every holiday a useful gift, like a dress, or a hat, or a pair of fine boots. "Pa," finally said the little one, "my birthday comes next week. If you love me and think I have been a real good girl, you might give me something that's useless."

Human Thorns.

There are certain disagreeable people in this world who seem to take a special delight in annoying others by reminding them of things they would willingly forget. They are human thorns, forever torturing their fellow-men for the sake of torture. Has a man met with misfortune in his business, they are forever smiling the fact. Has a man in times past are some remembered indiscretion, they are forever reminding him of it, often by congratulating him that that is past. Has a man blundered, they are forever telling him what "might have been." When the Thorns is of a masculine gender, there is one way of getting relief. He can be knocked down and trampled upon. When the Thorns is of the feminine gender, the case is different and not so easily disposed of. Put Customer hears of one such scrouge in petticoats who got her deserts the other evening. It was a little party, where some score of people were packed together. The Thorn sat near a young man who, in days gone by, had been guilty of follies that cost him dearly. He had put them all behind him. But the Thorn took occasion to recall them, in a subdued and confidential tone. The victim, who had been subjected to the same torture before, spoke so that all could hear. "Madam," he said, "for five years I have been trying to forget all that. You have been trying to remember it. You have succeeded better than I. I congratulate you." The Thorn subsided.

The wretchedest people are the most injured by slander, as we usually find that to be the best fruit which the birds have been pecking at.

A fall thrown over 'besprinkled' with the purest dew is not so beautiful as a child blushing beneath its parent's displeasure, and shedding tears of sorrow for its faults.

EDUCATIONAL COLUMN.

(CONDUCTED BY JAS. C. BROWN, ESQ.)

The Wreck of the Hesperus.—(Continued.)

SYNOPSIS OF LESSON.

On a cloudy winter's night, the captain of the Hesperus, heedless of the various warnings given to him that a storm is coming on, goes forth on a voyage, taking with him his daughter—a fair-haired, rosy-cheeked, blue-eyed girl. The storm which has been threatening, bursts upon them, lashing the water into foam, and tossing the vessel hither and thither like a piece of cork; while the falling rain and snow become encrusted upon it. One after another, the crew succumb; until, at last, the vessel with none to guide her, is left at the mercy of the wind and waves. In the distance, beacons can be seen, and the clang of the fog-bell and the sound of the surf can be heard. On drifts the vessel, like some ghostly apparition, and, at last, is dashed to pieces on the rocks. Next morning, nothing is to be seen, except a few pieces of the wreck floating on the water, and bound to one of these, the body of the Captain's daughter.

QUESTIONS ON THE LESSON.

Explain the words in the title of the piece, and tell why Hesperus begins with a capital. Give a sketch of the author. Name the places mentioned in the lesson, and give a sketch of each. What is meant by 'wintry sea'? 'fairy flax'? 'white as hawthorn buds'? Give the meaning of 'helm,' 'flaw,' 'hurricane,' and name the different kinds of violent winds? In verse 5—Tell what is meant by 'golden ring,' 'scornful laugh'? Give the difference between whiff and puff, and parse laugh. In what way does the second line fulfil the first? Tell the difference between ripple, wave, swell, billow, breaker, and surf. Explain 'amain,' 'frighted steed,' 'weather the gale,' 'fog-bell,' 'open sea,' 'sound of guns,' 'some ship in distress,' and 'gleaming light.' Parse 'weather' in verse 8. What is the difference between spar and mast? In verse 14, who is meant by Him? 'stilled the wave'? Give the story in your own words. Explain 'dark and drear.' What is the difference between 'sleet and snow,' 'beach and shore'? What is meant by 'sheeted ghost'? 'vessel of glass'? and 'hard sea-sand'? Give examples of Pleonasm, Personification, and Simile. Change the following stanzas into prose retaining their meaning, 1, 2, 7, 9, 15, 17, 19 and 20. Give the derivation of the following words:—Hesperus, schooner, fairy, May, veering, cable, distress, corpse, lantern, lake, surf, cruel, and save, &c.

☞Notes on "Observation," and "The Lost Gamut."—Page 6?.

WORDS LIKELY TO BE MISPRONOUNCED.—(CONSULT WORCESTER.)

Venison, route, minute, staves, height, Indian, muzzle, busied, dervise, honey, assertion, Cadi, inquiry, herbage.

ETYMOLOGY OF NON-SAXON WORDS.

Venison.—L., venatio—venor, to hunt.

Notice.—L., notitia—nosco, to know.

Place.—L., platea, a broad way in a city.

Pursuit.—L., pro, onwards, and sequor, I follow.

Tracked.—Fr.—L., trahe, to draw.

Persons.—L., persona—per, through and sono, to sound.

Inquired.—L., inquire, in, into, and quaero, to seek.

Accompanied.—L., ad, to; com, with and panis, bread.

Described.—L., de, down, and scribo, to write.

Desired.—L., desiderare—de, down, and sidus, a star.

Informed.—L., in, into, and forma, —fero, to bear.

Minute,—L., minutus—minuo, to lessen.

Description.—L., de, down, and scribo, to write.

Replied.—L., re, back, and plico, to fold.

Master.—L., magister, a master.

Desert.—L., deserto,—de, down, and sero, to bind.

Certainly.—L., certus, sure.

Doubtless.—Fr., douter—L., duo, two, and bito, to go.

Except.—L., ex, out off, and capio, to take.

Assertion.—L., ad, to, and sero, to join or knit.

Merchant.—Fr., marchand—L., mercans—mercor, to trade.

Evidence—L., evidens, e, out off, and video, to see.

Proceed.—L., pro, forward, and cedo, to go.

Sorcerer.—Fr., sorcier, Low L., sortiarius—sors, a lot.

Perfect.—L., per, through, and facio to make.

Composure.—L., com, together, and pono, to place.

Addressed.—Fr., adresser, L., ad, to, and dirigo, to direct.

Court.—L., cohors—cors, a cattle yard.

Amuse.—Fr., amuser,—Gr., mao, to invent.

Confess.—L., confiteor—L., con, together,and fari, to speak.

Suspicious.—L., sub, under, an specio, to look.

Ample.—L., amplus, large.

Observation.—L., ob, against, an I serve, to keep.

Human.—L., humanus—homo, a man.

Perceived.—L., per, through, and capio, to take.

Impression.—L., in, upon, and premo, to press.

Consulted.—L., con, together, and claudo, to close.

Centre.—L., centrum, the centre.

Composed.—L., com, together, and pono, to place.

Devouring.—L., de, down, from; and voro, to devour.

NOTES ON PROPER NAMES.

Indian.—An aboriginal of America. A name applied by mistake to the inhabitants of the West Indies by Christopher Columbus, when first he came to America. He supposed that he had reached the shores of India.

White man.—A European. In contradistinction to the complexion of the Indian.

Dervise.—A poor man, a beggar; among Mohammedans, a class of monks who profess extreme poverty.

Merchant.—One who carries on trade, as the buying and selling of goods.

Camel.—The word literally means 'horse.' An animal of Asia and Africa, chiefly used as a beast of burden.

Death of Father Leonard.

(*From the Kingston News*).

A few weeks ago the gifted young priest whose name appears above was prostrated by sickness, and not a few were the apprehensions that his serious illness would result in his sleeping the sleep that knows no waking. So low was he at the time that prayers were offered for his recovery. Fortunately, a favourable change set in, and soon afterwards he was able to be out and attend to the duties of his sacred position, which fact justified his many friends and admirers in entertaining the hope that he would be spared for many years to come. But alas! how vain at best are human hopes! how uncertain the tenure of human existence! On Friday last Father Leonard was seen on our streets. In the afternoon he left for Rochester, hoping to benefit his health by travel. Last evening as the business of the day was about closing, at the hour when those engaged in the many pursuits of life were returning to their homes after the labours of the day, the bell of St. Mary's Cathedral pealed forth in solemn tones, and many anxious enquiries were made by those familiar with the sound as to who it was that had been, perhaps unexpectedly, called away. As the answer, "Father Leonard is dead," was spoken, surprise was depicted on the countenances; and when the melancholy fact became generally known that he had been suddenly summoned away from the activities of this terrestial existence, deep sorrow filled many a heart among the hundreds by whom as a spiritual adviser he was loved and revered; while not a few sincere regrets were expressed by others who are not members of the Church of which the deceased priest was a faithful son, to whom he was known as an estimable gentleman and a good citizen. When he started on his journey, how little did he think that his eyes would never more gaze upon the city which for several years had been the scene of his labours—that he would never again join the "great congregation" in the service of the sanctuary—that during his travels his spirit would take its everlasting flight to that land "unpierced by human thought."

John F. Leonard was born in Peterborough on the 5th day of February, 1844, and at the time of his death, which took place at Rochester yesterday morning, was thirty-five years old. At Peterborough he prosecuted his elementary studies, and at Regiopolis College in this city he followed them up, passing with great success through the curriculum of the institution, at which he graduated with the highest honours. In the year 1867 he was ordained Priest at Perth by the late Bishop Horan, having been previously admitted to Deacon's Orders. For some time he was a Director of Regiopolis College, and for several years held the position of Professor of Philosophy, which he retained until its close. He was then appointed to the parish of Napanee, where he remained about five years, after which he was transferred to the important parish of Perth, as assistant to the late Rev. Dr. Chisholm, remaining there a year. He then returned to this city, and has since been connected with the Cathedral. Since that time until his death his health had been poor. The last time he occupied the pulpit of St. Mary's Cathedral was when he lectured on "Canada, three hundred years ago."

During the last two or three years the late Father Leonard's name has been prominently before the people of Kingston. The criticism of a lecture delivered by him by the Rev. Dr. Snodgrass, late Principal of Queen's University, on one of the prominent tenets of the Roman Catholic Church, resulted in a controversy, which was carried on by the two reverend gentlemen in the columns of this journal. The contest was an intellectual one; it was conducted in a manner worthy the educational attainments and subtle reasoning powers of the theological combatants; and it no views were influenced to the extent of effecting a change of belief on the disputed point of dogma, it cannot be said that the feelings of any were injured by the use of an obnoxious expression. As a lecturer, Father Leonard was very popular, the announcement of his intention to dilate upon some important theme in the interest of local Roman Catholic charities never failing to attract many Protestants. As a speaker Father Leonard was ornate, clear, and incisive. The words flowed from his lips in beautiful, polished, and well-rounded sentences. He never used either note or manuscript; yet he never hesitated, never repeated a single word, let alone a sentence, which showed the thoroughness of his preparation. He was a rhetorician of a high order and logician possessing clear faculties and considerable analytical power. His manner was what might be called quiet; but at times an increased volume of vocal utterance accompanied by the ever-graceful and appropriate gesture, the action being suited to the word and the word to the action, proved him to be the possessor of that oratorical skill which is altogether beyond the reach of the unpolished and the unschooled in the art of effective speaking. The listener to Father Leonard, whether in mental sympathy with him or not, could not fail to be impressed with the earnestness of his manner. He possessed a pleasing voice which will continue to ring in the ear of many, although the lips which spoke are for ever sealed in death, never again to exchange the friendly greeting, to repeat the solemn offices of the Church, or to appeal with fervid eloquence on behalf of the suffering portion of humanity, whose lot it is to depend upon the charity of those surrounding them. By the death of this estimable young priest the Church which he delighted to serve loses one of her most proving men, the local clergy an affectionate brother, the congregation of St. Mary's a faithful pastor, and many of those whose condition is poverty and for whom no bright future looms in the distance a true and open-handed friend, all of whom in the days to come will sigh for

"The touch of a vanished hand
And the sound of the voice that is still."

Golden lives fall, impediment and poverty; for from these it gains its strength, throws off the shadows, and lifts its proud head to immortality.

A Texas Man's Prayer.

One night a few weeks ago, a severe "wind-storm," as it is called, prevailed throughout McLennan County. It was especially heavy in the vicinity of Perry, as our subscriber friends out there will remember. Many people became alarmed, and one worthy Perryite (whose name we will not publish just now) came to the conclusion that the gale was going to sweep that part of the world out of existence. He aroused his better half, and they consulted. As the wind moaned and whistled with increased fierceness the citizen grew paler, and at last bethought him of prayer. Either he was not accustomed to daily devotion and was "rusty" in the invocation line, or his fears had confused his ideas, for he began: "Lord, for what we are about to receive, make us truly thankful." "Thankful for what we are about to receive?" she gasped—"You may be, but I'm not, if this hurricane continues." The citizen opened his mouth again, but no prayer came again—he could not think of a suitable word, and, turning in despair to his spouse, he implored: "You pray, then, for I'm dashed if I can." And she did pray. She sank on her knees and the citizen kneeled, too, and for five minutes there was a prayer meeting in that house that was very select and private, but thoroughly earnest. The house was not blown down, the worthy couple is still living, but the joke leaked out on the citizen, and every week when he goes to the postoffice to get his Weekly Telephone some wag exclaims, as the paper is reached for: "Lord, for what we are about to receive, make us truly thankful." But the citizen is a sensible man and takes it all in good part, as we trust he will this harmless sketch, which we tell as it was told us.—(Waco (Tex.) Telephone.

What Teetotalism did for a Canadian Boy.

(*Editor of the Witness.*)

SIR,—A very strong proof in favor of teetotalism for giving strength and muscle to young men is the fact that a young Quebec lad has just taken the highest prize for gymnastic and athletic exercises at Malvern College, England, a large and popular college where over two hundred young men attend and exercise in all that makes the young Englishman so famous. The contest was a very severe one and lasted for two days; the hall and galleries were crowded, and many were the ringing cheers which resounded as some daring feat was successfully performed. The competitors were numerous, and young men older and stronger in build than he who gained the prize. The head master on presenting the oak and silver cup made many complimentary remarks, and ended by saying the contest was the best ever held. The lad himself in writing to Canada about it says, "Teetotal is much the best system; I do believe that is the reason I won the gymnastic first prize. All the fellows trained on a certain amount of bitter ale; I took nothing but water,—of course tea morning and night, porridge at breakfast, meat at dinner and tea and no butter."

It is no small feather in the cap of a Canadian to take the highest prize from English lads for that for which they are so famous, and to do it on water only.

A PARENT.

Quebec, May 1st.

Father Stafford's View.

Rev. Father Stafford, the well-known parish priest, of Lindsay, Ont., ridicules the attacks upon Vice-Chancellor Blake made on the ground that he had insulted the Catholics of Canada. He thinks the Vice-Chancellor, from his stand point, had as much right to urge his fellow churchmen to "put down Popery and infidelity," as Catholics have to "put down Protestantism and infidelity." "That is," says Father Stafford, "we must so shape our lives and language as to convert Protestants and infidels to the true church. No doubt, Mr. Blake merely meant to invite his fellow Protestants to pray for our conversion to his religion, and nothing but the purest charity could have prompted him to this solicitude on our behalf.—Sarnia *Observer*.

Norwood.

CHEESE FACTORY.—Under the management of the new proprietors, the Norwood cheese factory is doing well. Mr. Reynolds estimates that the factory will be supplied with the milk from 270 cows, or even more, as a number of new names are being added to the list of patrons.

PERSONAL.—The following paragraph concerning Mr. John Moore, formerly head master of our High School appears in the New Harmony *Register* of the 25th April. "The New Harmony Graded School closes to-day with an examination of the pupils in High School and Grammar Grades. It is the general opinion that Prof. John Moore has been eminently successful in this, his first, year of superintending the school, and it is hoped his service may be secured for another term."

BASE BALL CLUB.—The Red Stocking Base Ball Club was organized here on the 30th of April, with the following officers: Ralph Carton, Captain; T. J. Williams, President; F. H. Brennan, Secretary; A. Fowler, Treasurer. Committee: G. Hamilton, J. Lewis and E. H. Dewart.

THE TOWN HALL.—At a recent meeting of the Village Council, the Reeve reported that he had, according to the resolution of last meeting, insured the Town Hall at a risk of $1,000 and procured two ladders to be used in case of necessity.

THE BAND.—The Norwood Cornet Band is again enlivening the streets of the village with its music.—*Register*.

Springville.

SCHOOL REPORT.—The following is a report of the pupils who took the highest number of marks in each class for the month of April, in Springville school, (S. S. No. 9 Cavan, and 4 North Monaghan), A. J. H. Strike, Teacher:—

Fifth Class.—Aggie Cronie, 241; Hannah Laing, 233; Minnie Goodfellow, 221.

Fourth Class.—Susie Cronie, 247; Minnie McDowell, 241; Mike Stewart, 219.

Third Class.—William Hunter, 293; Joseph Thompson, [illegible]; Th

PETERBOROUGH, MAY 15, 1879.

MR. SCOTT IN CONCERT WITH —WHOM?

At his first meeting of the campaign in this town last week, Mr. Scott pretended a great deal of virtuous indignation at the mixing up of Dominion and Provincial politics in elections for either House. It is plain from the report of his speech in his own special organ, that he wished it to be inferred that the Mowat Administration had been guilty of this "unpardonable sin." He was, however, careful not to mention any circumstance as a show of proof to this insinuation, for the simple cause that he knew he would be nailed in any such a reckless attempt, and shown to be a Tory "rourbacker." He made the general statement that there was "the most open and unblushing concert between the two governments"—those of Mr. Mackenzie and Mr. Mowat. Of course there was open concert; because in their harmonious conduct of public business with each other there was nothing to conceal. Of course the concert was unblushing, for there was nothing to be ashamed of. In this these two governments differed widely from the interference in Ontario's provincial affairs by the Macdonald government at Ottawa in the old days before the Pacific Scandal, as now. In proof of our statement here we have only to refer to D. L. Macpherson, a partisan Senator of the Dominion, who has issued a pamphlet in the interests of the Tory party in Ontario—which pamphlet is so approved by the leaders of the Ontario Opposition and their candidates, as to be distributed among the electors as their views. Not only so, Tory candidates generally, Tory speakers and Tory writers, draw directly from this pamphlet when trying to discuss Provincial affairs. Well, in this Opposition campaign pamphlet, Mr. Macpherson, on page 5, distinctly states that "it may be assumed that it was at Sir "John Macdonald's instance that Lieu- "tenant-Governor Stisted appointed Mr. "Sandfield Macdonald the first Premier "of Ontario." A Minister in Ontario acknowledged to be made from Ottawa, was not likely to ever get free from him whom Senator Macpherson alludes to as its creator; and it never did. Throughout the whole history of that government and throughout the history of the Tory party of Ontario, it has acknowledged its leaders to be in the government at Ottawa. How are the Ontario Tories managed to-day, but through the United Empire Club? And who is the presiding genius of the U. E. Club, but Sir John Macdonald, present Premier of the Dominion? He it is who would be actual Premier of Ontario, did Mr. Mowat the success in obtaining that title nominally.

In this connection let us turn again to Senator Macpherson as evidence of the fact that there is collusion between the Tory leaders in Ontario and their superiors at Ottawa. In a letter written by TaPhairson on the 10th of October last, addressed to the secretary of the U. E. Club, Senator Macpherson urges the carrying of the Ontario elections. He then proceeds:—"Until they are carried "the good work will not be completed. I "look upon the government of Ontario as "the political citadel of the Dominion, "and until we carry it, the great out- "works which we took on the 17th of "September will not be safe. We must "have the citadel." Here, in the plainest possible language, is the Tory pamphleteer's declaration of the Tory intention to unite the interests of the party leaders in Toronto and at Ottawa. Why have we not heard Mr. Scott's voice raised in holy horror at this? Simply because he is getting to be so great and so gigantesque a portion as the big flat-arse from Simcoe; and bibs help very plum with most stavish cleanly.

But not only have we the evidence of Senator Macpherson on this point. The record of the Ontario Opposition last session furnishes a corroboration. The very first resolution introduced, by Mr. Morris, the man sent by Sir John Macdonald as leader, was one which dropped into the Provincial Chamber a matter purely Dominion in its character. And when in the contest in the West Riding, Mr. Scott finds himself hard pressed, and discovers the danger of losing his seat in the Legislature to Mr. Elliott, we shall not be surprised to see him turning to the same broken reed as a something to clutch at in his despair.

Support a Ministry which has removed millions to the Municipalities to be expended on local improvements, and save the people to this extent from the burdens of local taxation.

THE WEST RIDING.

The contest has fairly commenced in the West Riding of Peterborough, and it behooves every Reformer to set to work for the Reform candidate. We announced a series of meetings embracing the northern portion of the Riding, and this week we announce the southern part. These meetings are held mainly for the purpose of organization, and it is the duty of every Reformer to assist in the canvass in his own section. We expect that they will turn out to a man and leave nothing undone to secure the election of the Reform nominee. Our opponents are trying to introduce all sorts of irrelevant questions into the contest, for the purpose of catching a few stray votes. It will be the duty of our friends to narrow them down to the fair and legitimate issues involved in this election. The great question is, has the Mowat Government administered the affairs of the Province efficiently and economically, and in the interests of the people? If is all well enough to say a change of administration is necessary, but on what ground is the plea urged? What objection have the Conservatives to the measures passed by the present government, and why should they be turned over to such men as Meredith, Scott and Leader. This is the central point of the contest, and our friends should bear this in mind, and in every point nail down our opponents to this issue. The following are a few of the leading acts of the Reform Government in this province:—

Abolition of dual representation.

The disqualification for seats in Parliament of all who are in receipt of pay from the Government. Previously those who were paid salaries were disqualified, but the law was not made to apply to those paid by fees as well.

Securing the rights of married women to their own earnings.

The settlement of the Municipal Loan difficulty, and the distribution of a portion of the surplus.

The introduction of the ballot in elections for the Assembly, for municipal Councils, and on money by-laws.

The extension of the franchise to those who pay an income tax, and also to farmers' sons living with their parents.

The judicial revision of the voters' list before an election.

The improvement of the machinery of the Courts, preventing unnecessary delay, removing old anomalies, and preventing cases being decided on mere matters of form instead of on their merits.

The payment of witnesses in criminal cases, thereby facilitating the administration of justice, by securing their attendance.

Relieving the magistracy from liability for acts done in good faith, but which may subsequently turn out to have been informal.

The revision of the municipality laws, which had previously been scattered through many statute books, and were largely incomprehensible to all municipal officials and others who were not lawyers.

The revision of the school law, and the appointment of a Minister of Education, thus bringing the work of that important department more immediately under the observation of Parliament.

Securing to mechanics and labourers a lien for their wages on the property on which their labor is expended or their materials used.

Facilitating agreements between employees and employers for sharing the profits of business in which they may be engaged.

Facilitating the settlement of disputes between employers and employees.

Enabling societies of all kinds to become incorporated under a general act, without expense.

Legalizing marriages by clergymen of all denominations, and relieving from disability marriages which had been consummated in good faith, but which were illegal from informality.

Providing for the public health when contagious diseases threaten the country.

Giving repose to land titles by shortening the period after which a man's title to the property he possessed may be free from danger.

Providing additional security for holders of policies of insurance, by preventing the companies taking advantage of unjust conditions.

Besides those special acts of legislation, there are other liberal measures in the interests of the people, as for example:

Investing a considerable sum in the purchase of municipal debentures, for the purpose of encouraging the drainage of wet districts.

Grants of money in aid of a large number of railways; in connection with which was the principle of giving Parliament a voice in granting the money, instead of leaving it exclusively in the hands of the Government.

A liberal policy in establishing and supporting a number of charitable institutions for the insane, the blind, the deaf, the dumb, and all other afflicted persons; and at the same time regulating the amount of aid granted to hospitals and charities by the amount of work done and of contributions received from private sources.

Re-arranging the representation in the Assembly on a just basis, according to population, even though the Government had the distinct assurance from those qualified to judge that such an arrangement would be to the advantage of the Opposition, as the result proved it to have been.

1879 "Moore's Centenary." 1879
Mrs. E. G. Caldwell, of Hamilton, Canada's *Friend Donna*, will sing at Moore's Festival. May 23rd.

DIVISION COURT JURISDICTION.

Mr. Scott last session opposed the extension of Division Court jurisdiction. This fact has been alluded to by Mr. Elliott in his canvas; and the attempt is now made to represent Mr. Elliott as entirely wrong, and to leave the inference that Mr. Scott did not oppose the measure to allow suits in the Division Courts for sums up to $200, instead of only $100, as at present. A prominent supporter of the Tory candidate is reported as saying, "that Mr. Mowat himself had moved "the six months hoist to the measure "in question, and Mr. Scott had voted "against it, and therefore in favor of the "very measure Mr. Elliott had condemned "ad him for voting against." Here is an insidious mixture, a little truth with a great deal of falsehood, which mixture it is our duty to analyze. Mr. Mowat did move the six months hoist, because he wished to get the opinions of the judges before deciding on the question. Mr. Scott did vote against Mr. Mowat's amendment, but not for the measure, as his speech at the time shows. On the other hand, he was so strongly opposed to the bill [illegible] discussion that he would have preferred that it should have been given to quieten there and then by an adverse vote, or caused so as to cause further litigation and costs. To show that we say not doing injustice to Mr. Scott, and to place his true position on this question before the electors, we subjoin the report of his speech, as given by the Toronto [illegible] at the time:—

"CLEWS'S" REPORT.

"Mr. Scott said an extension in the jurisdiction of the Division Courts would be an advantage to the legal profession, therefore the insinuations that had been made were not in the line of truth. This extended jurisdiction *should not be allowed*, unless it were accompanied by the right to appeal to a superior court. Neither party would be satisfied with the decision of the lower court, and an appeal would be made. The lawyers of Peterborough had discussed the point in their session, and it had been decided that it would not be wise to grant this increased jurisdiction separately, but that the whole system needed remodelling. As one means of getting over the difficulties, it had been suggested that all jurisdiction in civil matters should be referred to the courts in the county, with one appeal to the court in the city. He claimed that the followers of the Attorney-General had been placed in an anomalous position by the action of the government in this matter."

"MAIL'S" REPORT.

"Mr. Scott was not in favor of enlarging the jurisdiction of the Division Courts unless the right of appeal to a Superior court were accorded the litigants, and under these circumstances he believed the lawyers' fees would be greatly increased, because whenever there was a dispute of a serious nature the case would be certainly appealed, and after discussing the bill at considerable length, the hon. gentleman said he felt it to be his duty to vote against the amendment proposed by the Attorney-General. (Hear, hear.) That hon. gentleman and his colleagues had had plenty of time to get the fullest opinion of the country upon this question before the present time, but it was evident the government wished to shun the question until after the elections." (Hear hear.)

These reports show that Mr. Scott is a most violent opponent of the measure, that the profiteon taken by the Premier was the correct one, and that as Mr. Scott admits the whole system needs remodelling, Mr. Mowat is the only man in parliamentary life in Ontario capable of doing the remodelling in a comprehensive manner.

1879 Solos, Duetts, (sentimental and comical), Readings, &c., 1879
Will be given at Moore's Festival, in Bradburn's Hall, May 23rd.

THE FRANCHISE AND THE FARMERS.

The Tory candidate in the West Riding still avows himself in opposition to the Farmers' Sons' Franchise. He calls it class legislation, an injustice to farmers, and a step toward universal suffrage. The last is a purely metaphysical question; but the others are practical enough to admit of more ready discussion. All legislation is class legislation to some extent. Our most important laws are to *defend* one class from the injustice of others. And it was an injustice to the agriculturists that they should have been outweighed in a popular appeal. It was therefore but right to give greater political power to the farming community. The sons of merchants, mechanics, &c., all vote on income. Why then should not the farmer's son vote, even though he has no fixed salary from his father on the farm? He earns a proportion of the money that comes in, and his fair share of the taxes that are levied on the property. Why should he not have a voice in the affairs of the country he works in and for? But the candidate contradicts his own idea of class legislation, unjust to others, by declaring the Act unjust to the farmers themselves. It might be asked if one injustice did not balance the other, as is sometimes held to be the case with the tariff. It does seem paradoxical that what is called class legislation for the unjust advantage of the agricultural community, should in the next breath be characterised as unjust to the very class in whose favor injustice was first charged. We see the weakness of the pleading when the attempt is made to consider the sons of farmers as not being farmers, and the votes of the sons as the votes of the father. As we have already remarked, the universal suffrage question cannot now be discussed. But the bringing of it into his speech, as well as the diligent attempt to raise every other possible objection, shows how strongly opposed Mr. Scott is to the extension of the agricultural franchise, by giving the same citizenship interest to the young men on farms as is given by the income franchise to those in shops and stores in the towns and cities. But it may be that Mr. Scott is consistent so far as to be opposed also to the income franchise. We wouldn't wonder. The young men of the town, as well as of the country, should see to it that their votes do not go for a man opposed to their full citizenship.

Electors, stand by a Government which has stood by you, and made Ontario one of the best Governed Provinces on the Continent.

Appealing to Bigotry.

What do our readers both Protestant and Roman Catholic think of the following direct appeal for Orange support? It is from the Collingwood *Enterprise*, and refers to the candidate in West Simcoe:—

"Mr. Phelps, the Grit candidate, a gentleman whom we personally esteem, will if elected, no doubt promise to vote for the Orange Bill, and perhaps will also carry out his promise, but if by his election, the Fraser-Mowat Government should be sustained, every Orangeman in the country knows that Incorporation for another five years would be impossible. So long as Mr. Fraser, one of the greatest bigots in the country is at the head of affairs, the Orangemen will never get fair play or justice. We therefore earnestly request the Orangemen throughout this riding to calmly consider this matter, and when they have done this, they will join with us, and at once agree to cordially support and vote for Mr. Long, the nominee of the Conservative party."

Comment is unnecessary.

The Mowat Government after six years of rule, stands to-day unchanged, much less convicted of the perpetration of a single "job."

Our Brother-in-law!!!

On the item of $11,600 to pay expenditure on account of special trade mission to France and Spain. Hon. Mr. Tilley stated that attached to Sir A. T. Galt's report was some correspondence with the Imperial Government, and His Excellency had thought it best to communicate with the Home authorities and ascertain whether there was any objection to this correspondence being submitted. Sir A. T. Galt had been paid $8,000 for five months and Col. Bernard as assistant for three months at $1,500. Hon. Mr. Macdonald (Cornwall) said that when Col. Bernard could not be paid his superannuation allowance and he under salary at the same time. Col. Bernard on retirement of $3,000 a year from the Dominion!!! and for what! In it for any service ever rendered to the country! No! but to keep him in easy indolence in Europe! As Sir A. T. Galt was going to Spain and the opportunity was seized by Sir John, to give his brother-in-law a pleasure trip at public expense! So far so good! but to pay him $600 a month, as much as Sir A. T. Galt got, is rubbing it in rather too thick! *Mahomed Government*, is now the order for Sir John and his connections! but then friends are dear!!!

EDITORIAL NOTES.

Sir John Macdonald tells us that he did not know the contents of the dispatch sent in the name of the Governor-General to England. Sir John, it will be remembered, telegraphed Mr. Boyd, of St. John, that furniture was not to be taxed 35 per cent.

1779 "Fireman's Band" 1879
Will perform a choice selection of Irish Melodies at Moore's Festival, in Bradburn's Hall, May 23rd.

Farmers' sons should remember that the right to vote was conferred upon them by the Liberal Government of Ontario, and that the leader of the Opposition moved an amendment in which it was declared, "*that it was giving an exclusive privilege to a class not charged for the support of legislation.*"

1779 "Home, Sweet Home." 1879
"Jeff Davis."
Will be sung at Moore's Festival by a Chorus of 50 voices.—*May 23rd.*

The National Policy is a success, according to Hon. Mr. Tilley. To prove it, he says that "men are demanding an increase of wages and strikes are going on at Montreal and elsewhere." We never supposed that a move demand for higher wages could be taken as a sign of progress, or that a strike of the workmen would denote the "busy hum of industry."

1779 "The Harp that Once thro' Tara's Hall," 1879
"The Minstrel Boy."
"Believe Me, if All Those Endearing Young Charms."
Will be sung at Moore's Festival by a Chorus of 50 voices.—*May 23rd.*

The following is a summary of the amount given back by the Ontario Government to the people since 1871:—

Education	$2 794 594
Administration of Justice	1 176 262
Public Institutions—maintenance	2 275 325
Hospitals and charities	230 000
Agriculture and arts	626 295
Immigration	509 972
Public works and build ings	2 170 577
Colonization roads	624 627
County gaols	92 521
Crown Lands refunds	147 256
Railway aid	2 270 624
Municipalities fund	471 165
Land improvement fund	151 460
Surplus distribution fund	3 235 379
Miscellaneous	97 670
Drainage Loans	429 822
	$17,569,570

1779 "The Young May Moon," 1879
"Canadian Boat Song."
"The Last Rose of Summer."
Will be sung at Moore's Festival by a Chorus of 50 voices.—*May 23rd.*

When Mr. Scott proposed in the House of Assembly the spending of the University Endowment Fund, he found the Mowat Ministry ready and willing to meet him *half* way, and more. Instead, therefore, of attempting to throw blame on Mr. Mowat and his colleagues in regard to this matter, Mr. Scott should give them hearty thanks, if not his political support.

The Tory press has of late been quoting approvingly from the Cornwall *Freeholder*. That paper last week declared that it had "the best authority for stating that Sir "John told Dr. Bergin that it was presump- "tious of him to ask for a seat in the "Cabinet when he was powerless to return "a candidate against the Mowat Govern- "ment." Isn't this just the interference against which the Tory candidate for West Peterborough inveighs? Every Reformer must remember it on the 5th of June.

From his speech at the Opera House on the 6th inst., it will be seen that Mr. Scott is still in favor of the larger indemnity to members. Tory organs on all sides of him are condemning those who take that position; yet they expect their readers in West Peterborough to vote for Mr. Scott. It is well known that Tory members voted both ways on this question, as their party leaders dictated; that they are bound to blame the Government for the increase and for the reduction as well; and that they jump into any pit of inconsistency in their blind party rage at their more reasonable and honestly-acting opponents.

The Reformers of East Durham have selected Mr. P.B. Randall as their candidate in the approaching Local elections. Mr. Randall is Mayor of Port Hope, having been elected last January to that position by a larger majority than any person has received in that town within the memory of the "oldest inhabitant." The Reformers have done well in choosing him as their standard bearer. He stands high in the estimation of his fellow electors, and is possessed of high legislative abilities. If the Reformers of East Durham will only do their duty, they can elect Mr. Randall as a supporter of the Mowat Administration.—*London Advertiser.*

Tory organs, Tory ministers, Tory ingenuity in any shape, cannot explain how it came about that on the day news of the change of the Canadian tariff was received in London, England, a great fall in Dominion stocks took place, while all other colonial securities went up in price. The explanation is wanting because the Tories hesitate to give the right one: that the fall in Dominion bonds was the direct result of the rise in Canadian import duties. Protectionists should always remember that others will protect themselves against possible loss; and retaliatory policy pickers will do well to wait severely till after they have considered the axiom that re-action is always equal to action.

The Conservative managers in the West Riding must surely feel keenly the dire extremity of their cause when they find it necessary to publish palpably unfair and cooked reports as those of the campaign meetings appearing in the Scott-Calcutt organ. At Mr. Elliott's first meeting at Lakefield, appeared Mr. Crossie, who very modestly saw that the *Review* report had made him a 'conquering hero,' and all that sort of thing,—which character it is well known, never yet and never could be suited to the person in question. It is a bad case that needs this kind of misrepresentation, and the people of Lakefield are not likely to be impressed with coloured reports or with those in whose favour they are issued, and written by the "boys."

Opposition speakers advance the greatest rubbish when they talk of the expenditure increasing as it has done of late years in the Province, while the revenue must decrease. Ontario it is well known is assured of more than enough from the Dominion to carry on the necessary expenses of the province. What has been spent of late years has gone to the furnishing of permanent works, such as asylums, prisons, colleges, &c., as well as votes of the surplus moneys to municipalities, investments in drainage, debentures, subsidies to railways, and the like, which, being once paid, do not continue from year to year. Nobody is silly enough to suppose that new asylums are to be built, new prison extensions made, the same new schools established, and the old grants renewed every year. Yet this is the task Tory candidates expect the electors to accept as argument.

Let every voter remember the 5th day of June, and rally to the support of an able and [illegible] and the worthy and proved Gatherguen.

Letter from Dakota.

To the Editor of the Examiner:

DEAR SIR,—Having received numerous letters of enquiry, about this part of the "North West" from friends in and about Peterborough, many of which I have answered, but it is not always convenient for me to give [illegible] time to them, consequently, some remain unanswered longer than I would like. So believing that a short letter inserted in your paper, would be the best means of giving the information generally asked, I decided to send you this. If you will give this an insertion in your paper, you will oblige me, and perhaps those who seek the information. To those who wish to take up and improve land there is a good opportunity here; the soil is very rich and produces abundant crops when once put in proper condition. The land is all ready for the plow—but it takes time to get the tough sod thoroughly prepared.

At present 320 acres can be had for $34.50 Government fees, and performing the necessary labor to hold the property.

An emigrant should have two or three thousand dollars to make a successful move, though many are successful with much less than this amount, but they have to experience some hardship, and their progress is slower.

Those who have no means, I would advise to stay at home, as their chances for situations are decidedly small, situations being few and applicants many.

The climate is superb, and the roads very good at all seasons in the year.

Very Respectfully Yours,
A. H. DELANEY.

P. S.—There is direct communication here by Rail and Steamboats. Rail to Fisher's Landing and [illegible] or stage to this place. A. H. D.
Grand Forks, D. T., May 1st, 1879.

Compulsory Voting.

(*Bobcaygeon Independent.*)

Voting has usually been regarded as a privilege, but the Legislature of Missouri put an additional construction upon it, and proposes making it a positive duty as well. A bill in before that body which provides that any qualified voter who at three consecutive elections shall fail or refuse to vote shall be deemed guilty of a misdemeanor, and forfeit his right to hold any office of honour or profit under the State. A very good arrangement. Let us suggest also that habitual drunkenness should deprive the individual of his vote, and also of his right to hold office. If this were the law Mr. Wood in South Victoria would be without an opponent and the Dominion without a Premier.

MAPLEWOOD BREEDING AND TRAINING FARM.
Jefferson, O., Dec. 17, 1877.

DR. WILLIAM GILES,
451 Sixth Avenue, New York:

DEAR SIR,—Please send me two quart bottles of your Liniment Iodide Ammonia, (for horses). During the past two years I have used it in my stable to the exclusion of all other Liniments. It is the best thing I have ever seen for either man or beast. I could not do without it.
Enclosed, find draft for $5.
Very truly yours,
H. P. WADE.

To Be Sold Cheap.

1 Child's Carriage and Stand, 1 Sideboard, 1 Bureau (cherry), almost new, 1 Walnut Centre Table, several yards of Oilcloth, Carpet, &c. Can be seen at Allen's Temperance House. 20-1t

NOTICE.

Having purchased the **Book Accounts** of the late Firm of **Stone & Bailey,** Insolvents, I would respectfully request all who are indebted to the late firm, to call at the Rochester Fruit Store, and settle, otherwise costs will be incurred.

E. G. STONE, Agent.

Peterborough, 23rd April 1879. 17-4ins.

CAUTION.

Whereas certain interested parties are by false representations seeking to injure my business and obtain my custom, this is to warn my customers and the public generally not to believe such representations. I am still doing business in Peterborough, and am prepared to turn out Pottery and Earthenware better and cheaper than any other Pottery in town. All orders sent to me here will be promptly attended to.

ROBERT WESTCOTT.

Peterborough March 1879.

Sewing Machine

PROVINCIAL.

Ladies, protect your health by purchasing the

WHEELER & WILSON

which is proven to be

The Lightest Running Sewing Machine in the World!

Mechanical Philosophy proves it, and Common Sense endorses it, as being the best in Economy, while that of a shuttle machine is condemning.

They are more durable than a shuttle machine and far less complicated.

They sew heavier and lighter than any other machine.

They make less noise than any other machine and they do the most and widest range of work, never making the stitch with old or dirt.

They also took the Grand Prize at the Paris Exhibition, held in France, on the 21st of October, 1878, from all the other machines present and, and there were over fifty-two thousand on exhibition.

The above Leading Machines are sold at Peterborough by

G. A. MITCHELL,

The only authorized Agent. He also supplies all kinds of Needles, Shuttles, Bobbins, &c., for all the leading machines. Shop—Hunter-St., Peterborough.

East Peterboro'.

John Vere Ale Stores

Is respectfully removed to

COURT OF REVISION 1879.

TOWNSHIP OF SMITH.

Public Notice is hereby given that the first Sitting of the Court of Revision for the Municipality of the Township of Smith, will be held in the

Town Hall, Bridgenorth

—ON—

Monday, the 26th day of May, 1879,

Commencing at 10 o'clock a.m.

19-3ins. F. J. BELL, Clerk.

Springless Trusses & Supporters.

G. W. HOTCHKIN

Will visit as follows:

Port Hope, Mr. Lawrence Hall, May 28 and 29

Peterborough, Chonic House, June 2 and 3.

Cobourg, Pannil House, June 4, 5 and 6.

G. W. HOTCHKIN'S treatment is practical rational and economical. Its objects are immediate relief and eventual cure. It is based upon scientific principles, and easily demonstrated to the comprehension of every intelligent person that a truss without any steel springs or hard substance, having healed inguinal and umbilical, as well as varicocele, at the advanced ages respectively from 65 to 82 years, must and will stand the test against all Spring trusses. Mr. Hotchkin's Post Office address, Albion, Orleans [illegible] who crowd gets up. 18-2d

STONE EXTRACTOR.

Having secured the right to sell the

Mason Stump Extractor

for Extracting Stumps and Heavy Stones. I am prepared to supply those in need of such, with a good substantial Machine at a small cost and on reasonable terms. Having a

REAPER and MOWER,

I am also prepared to enter into contracts for the cutting of grain, either by the acre or day, at a reasonable rate. A number of first class

Reapers and Mowers

on hand. Prices to suit the times.

OFFICE.—W. Graham's Agricultural Implement Rooms, Hunter Street East.

15-4ins. J. MOORE.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

An Honest Medicine Free of Charge.

Of all medicines advertised to cure any affection of the Throat, Chest or Lungs, we KNOW of none we can recommend so highly as Dr. KING'S NEW DISCOVERY for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness, lurking in the throat, loss of voice, etc. This medicine does positively cure, and that where every thing else has failed. No medicine can show so many positive and permanent cures as have already been effected by this truly wonderful remedy. For Asthma and Bronchitis it is a perfect specific, curing the very worst cases in the shortest time possible. We say by all means give it a trial. Trial bottles free. Regular size $1.00. For sale by F. LAVE & Co., Druggists, Peterborough.

Ask Yourself these Questions.

Are you a despondent sufferer from Sick Headache, Biliousness, General Debility, Impurities of the Blood? Have you Dizziness of the Head? Is your Nervous System depressed? Does your mind dwell upon Self? Have you Coated Tongue? Sour Stomach? Gnawing at the pit of the stomach after eating? Pain, &c. All of these and many more are the direct results of Dyspepsia, Liver Complaint or an Indisposition. Green's August Flower is now acknowledged by all Druggists to be a positive cure. 2,000 bottles were given away as a trial. Two doses will satisfy any person of its wonderful quality in curing the above troubles. Sold by all druggists in this and every other civilized country. Regular size 75 cts. Sold by J. D. TULLY & Co., Druggists, Georgetown, Peterborough.

The Examiner.

PETERBOROUGH, MAY 15, 1879.

LOCAL NEWS.

Another Large Addition.—This week we again issue an edition of 5,000.

For the Ladies.—Larmour's element and varied selection of Ladies Kid and Fine Boots, are admired by all who see them. While the price is extremely moderate the stock is the best imported in town.

Reasonable Boots.—S. White is paying special attention this season to the manufacture of cricket, lacrosse, boating and base ball boots. His widely known reputation for turning out only first-class work is certain at all times to draw liberal patronage.

Blacksmiths' Emblems.—Mr. Geo. E. Shaw and Mr. W. Manson have been re-elected by acclamation, President and Treasurer respectively of the Mechanics Institute for the current year. The election of the remaining officials will be held on Monday evening next.

Queen's Birthday.—In compliance with a time-honored annual custom, His Worship the Mayor has issued a proclamation, setting apart Monday, 23th of May, to be celebrated as the Queen's Birthday, instead of Saturday, 24th. The change will be most acceptable to everyone.

Band Stand.—We are informed that our worthy Mayor is about erecting a stand for the Band, on which they will play one evening in the week during the summer—the lawn on Water Street adjoining the Mechanics' Bank, having been kindly placed at their disposal by Mr. George Dunford.

For the Million.—Owing to the immense run on room paper at Wilson & Davis' during the past two weeks, they have been obliged to largely re-order and replenish their Stock, and have just received four bales of their new stock of cheap papers. A lot of the finer qualities of paper will be received in a few days. Prices from five cents to $1.25 a roll.

Prospering Son of Tonkinese.—Mr. Toole's many friends will be glad to learn that he is fitting up the premises on Sherbrooke Street, formerly used by Mr. Comstock as a furniture factory, and will in a short time be able to fill all orders entrusted to him. Mr. Toole certainly deserved credit for his energy and perseverance in battling against misfortune.

Rice Lake Boating Club.—The season at Idyl Wild will be opened on Monday, 26th of May when a grand regatta is announced under the auspices of the Rice Lake Boating Club. Liberal prizes are offered for competition in the different events of the day, and a good time is expected. The Golden Rod will run an excursion from Peterborough that morning.

Grand Lodge P. A. F. B.—The Grand Lodge of the Protestant Association of Practice Boys of British North America, meets in annual session in the town of Oshawa, on Tuesday, 10th of June. From the rapid progress which the Association has made during the past year it is thought this will be the most successful session held since the introduction of the order into Canada.

"The Situation."—The Times of Saturday last is an editorial commenting on the campaign in West Peterborough, says:—"We have seen Mr. Mitchell's address and approve of a great deal that is contained in it. His ideas as to the necessity of a general annual expenditure for local improvements and encouragement to the industrial classes are good." Then record your vote for Mr. Elliott.

American Buggies.—The country from one end to the other is now being flooded with American carriages. There is a large number in Peterborough now for sale. This is all on account of the National Policy, which threw the raw material to such an alarming extent that our manufacturers will be obliged soon to close their shops. How do the carriage makers of Peterborough like this state of things?

Beauty to Mr. Knowlton.—On Tuesday evening next, in the Opera House, Rev. T. W. Handford, of Toronto, will lecture on "Oliver Cromwell and his Times," at a complimentary benefit to Mr. M. Knowlton, whose numerous friends here have decided on this course owing to Mr. K's late severe afflictions and consequent expenses. We trust a hearty response will be given in this instance. The Rev. Mr. Handford is said to be the best lecturer in the Province, and in this respect, therefore, the expenditure will be more than repaid. The object, too, is a laudible one, and should be largely patronized. Every person should hear the lecture.

Dentistry.—As will be seen by reference to our advertising columns, Messrs. A. Bessanko and W. H. Manning have entered into partnership for the purpose of carrying on all branches of the Dental profession. The rooms formerly occupied by Mr. Bessanko have been handsomely and tastefully furnished, and everything has been placed in thorough and ship shape order. They have the sole right to manufacture Celluloid, a new preparation for the manufacture of artificial gums, a preparation that is rapidly coming into favor wherever used.

Complimentary Supper.—On Monday evening last, Messrs. R. J. Bird and George Walton were entertained by a number of friends to a complimentary supper at the Cheese House, on the eve of their departure for Manitoba. There were about thirty present, and host Cheate amply provided for the inner one. Mr. Merrick, presided. The usual loyal and patriotic toasts were duly proposed and responded to. The toast of "our guests" was heartily received and many were the good wishes tendered them for their happiness and prosperity in the "Garden of the West"

Working Men's Association.—In response to a call by poster, a number of workingmen and Mechanics met on Thursday evening last in the Fleece office, for the purpose of forming an Association, under the name of the "Workingmen's Association of the County of Peterborough." After W. H. Robertson, Secretary, announced the object of the meeting, Mr. Hogan addressed them pro tem. Mr. D. Gamble was subsequently elected President, pro tem. Another meeting was called for Tuesday evening in the Opera House, but as none of the promoters of the Association were present, those present dispersed without transacting any business.

Secretary Appointment.—The following circular has been mailed to the several teachers in the county:—

The third semi-yearly meeting of the Peterborough Teachers' Association will be held in the Central School, Peterborough, on Friday and Saturday, 23rd and 24th May, 1879, the following is the programme for both days:—

THURSDAY.

10 to 11 a.m.—Election of officers after which the usual routine of the By-law for the "Peterborough Teachers' Association" will be read by Wright.
11 to 1 p.m.—"Reading Lessons"—Mr. S. H. Dyer. "Method of Questioning"—Mr. Wright. "Object Lessons"—Mr. Fell—Lessons by J. H. Wright, Esq., M.A., Inspector of Public Schools, Peterborough.
2 to 3 p.m.—"Arithmetic"—Mr. Fell—Lessons by J. H. Wright, Esq., M.A., Inspector of Public Schools, Peterborough.
3 to 4 p.m.—"Grammar"—Mr. Wright—Lesson by J. H. Wright, Esq., M.A., Inspector of Public Schools, Peterborough. Subject:—"The Origin of the Language."

FRIDAY.

9 to 10 a.m.—"Object Lessons," with Class—Mr. Dyer. "Geography"—Mr. Fell. "Grammar"—Mr. Wright.
10 to 11 a.m.—"Reading Lessons" with Class—Mr. Dyer. "Arithmetic"—Mr. Fell. "Grammar"—Mr. Wright.
11 to 12 a.m.—"Arithmetic"—Mr. Fell—Lesson by J. H. Wright, Esq., M.A., Inspector of Public Schools, Peterborough. Subject:—"Mental Arithmetic."
2 to 3 p.m.—"Grammar"—Mr. Wright—Lesson by J. H. Wright, Esq., M.A., Inspector of Public Schools, Peterborough. Subject:—"Analysis."

The above are kindly kindly kindly for teachers attending the meeting.
Trustees and friends of education in general are cordially invited to attend.
By order of the Committee,
JOHN BRADBURN, Chairman.
PERCY BRADBURN, Secretary.

Returned Home.—Messrs Burnham and Holland, have returned home from Ottawa.

The Springbrook Stump and Supporter will be found on sale at the store of Mr. Chester Brown, Peterboro', for $1 each.

Auction Sale of Bargains.—The sale of bargains advertised to take place on Saturday last on the Market Square, but which was unavoidably postponed, will take place on Saturday, the 17th instant, at the same hour and place.

The Writs.—The writs for both East and West Peterborough were received on Monday last by Mr. Sheriff Smith, and Sheriff Hall, Deputy Returning Officer for the respective ridings. The nominations take place on Thursday, 29th of May, and the polling on Thursday, 5th of June.

Fatal Accident.—A lamentable accident occurred in Ashburnham on Thursday morning last which resulted in the death of a two year old daughter of Mr. John Burnett's. The child had been playing on the street and was accidently run over by Mr. Calcutt's four wagons, which was driven by a man named Kennedy. An inquest was held by Dr. Kimmitt, and the jury after hearing the evidence returned a verdict of "accidental death."

Fires.—Yesterday about 11.30 o'clock, the outbuildings in rear of Mr. Robert Walton's residence were discovered to be on fire. An alarm was at once given, and the Fire Brigade was promptly on the spot, through whose exertions and the distance present, the fire was subdued before much damage had been done. The origin of the fire is attributed to the careless use of matches by some boys who had been playing in the vicinity a short time before the fire broke out.

American and European Plans, both have been adopted by the Grand Central Hotel, on Broadway, New York. You can now pay $1.50 per day and upwards, for a nice room at this large first-class hotel, on Broadway, take your breakfast there, on the cheapest restaurant, or go out to the house, at moderate prices, and if you do not return till night you have nothing more to pay. Or you can stop there on the American plan for $2.50 to $3.00 per day, rooms and meals included.

True Blue Grand Lodge.—The Semi-annual meeting of the Grand Lodge of Orange True Blues opened in the Orange Hall here on Tuesday afternoon. The delegates were met at the station by the O. T. Fs, and True Blues of this town, and headed by the Firemen's Band marched to the Hall, when they dispersed for dinner, after which they assembled for the transaction of business. In the evening a procession was again formed, and headed by the band, marched to the Bible Christian Church where an excellent Sermon was delivered by the Rev. Mr. Roberts. On Wednesday, the following officers were elected:—

Grand Master, David Jamieson, Peterborough.
Deputy Grand Master, J. Smith, Hamilton.
Grand Chaplain, W. York, Napanee.
" Secretary, R. Fisk, Toronto.
" Treasurer, W. H. Jenkman, Toronto.
" D. of C., E. Jacobis, Oshawa.
" Lecturer, H. Stevenson, Hamilton.
" Inside Tyler, J. H. G. Nicholls, London.
" Outside Tyler, N. Britton, Port Perry.

Peterborough Furnaces.—We clip the following from the last number of the *Canada*, the official organ of the Furnacers of Canada:—

Bro. Thos. Bithell, the efficient Secretary of Court Peterborough, No. 23, has sent to the Board of Officers, names the medical examinations of twenty candidates who were proposed for membership at the last meeting of the Court. Rest that when can; twenty candidates in one night! The Court Peterborough meets in a prosperous condition and will give a good account of itself in '79, we are sure, on full issue to over to the two month candidate. The Court now proposes to celebrate the 25th anniversary of its existence in a grand style. We hope by the 25th day of June we shall have a number of Courts to report. Peterborough might join in a grand Furnace demonstration at Peterboro.

Literary Association.—The first general meeting of the Literary Association of our Collegiate Institute was held on Wednesday, 30th ultimo, when the following officers were elected for the ensuing year:—President, Mr. E. L. Hunt; Vice-President, Miss E. Johnson; Sec'y-Treas., Mr. F. Adams. In order to give greater effectiveness to the society it is divided in different sections, each section forming a small society by itself, for weekly meetings, and having its own separate officers. A general meeting of the Association will be held on Friday, the 16th inst., at 3 p.m., to which the members of the Board of Education and the friends of the school are cordially invited to be present. The programme will consist of readings, recitations, singing and debate.

Moore's Centenary.—The interest taken in the celebration of Moores Centenary, which will be held in the Opera House on Wednesday evening, 28th instant, is daily increasing. The committee are actively at work preparing the choruses which for melody and richness of harmony cannot be surpassed by any other nation, making them worthy of the name of "Irish Melodies." In addition to our local talent we find the names of Miss E. G. Caldwell of Hamilton, who's services have been secured at great expense. We had much pleasure in hearing this lady a few weeks ago, and was delighted with her. She possesses a voice of remarkably purity and flexibility, thereby making her the finest vocalist that has ever visited Peterboro. The occasion calls upon all Irishmen as well as the admirers of the great bard to fill the Opera House to overflowing on the above date. A meeting of the choir for practice will be held in the Firemen's Hall, this evening. Those concerned will please make note of it.

Don't fail to attend the Lecture of Rev. Mr. Handford in the Opera House, on Tuesday evening, 20th inst.

TOWN COUNCIL.

Council met on Monday evening pursuant to adjournment. Present,—His Worship the Mayor and Councillors Cahill, Taylor, Smith, Paterson, Mills, Yelland, Douglas, Dunne, Griffith, Buller and Rutherford.

The minutes of last meeting were read and confirmed.

COMMUNICATIONS.

From J. Deacon, Mayor of Lindsay, suggesting that His Excellency, the Marquis of Lorne and Princess Louise be invited to visit Lindsay and Peterborough during the coming summer. —Received and the Mayor instructed to communicate with the Warden in the matter.

From F. Rutherford, Captain of No. 3 Ward Fire Company, stating that E. Page was a member of that Company and asking his statute labor to be cancelled.

From John Carnegie, Secretary of Town Trust, a statement of the amounts required by Commissioners of the Town Trust for interest and sinking fund on outstanding debentures for the year 1879. The amounts were: for town debentures, $6,126; school debentures, $3,146.

From W. H. Burritt, M. D., in reference to a man named Walsh, whom he had been attending.

FIREMEN'S TAXES.

Moved by Councillor Smith, seconded by Councillor Paterson,—That any member of a fire or volunteer company furnishing a certificate from the captain of his company, certifying that he was a member of such company during the year 1879, be sufficient to strike of his statute labor tax for that year.—Carried.

PETITIONS.

From Joseph Smith, John Bell, Lewis Spry, E. Burnham and J. L. Hughes, asking for street improvements.—Referred to Street and Bridge Committee.

ACCOUNTS.

An account from James English, amounting to $33.75, was referred to the Finance Committee.

FINANCE COMMITTEE.

Councillor Cahill, Chairman of the Finance Committee read and submitted the following report—recommending the payment of the following accounts:—

Tolmie & Co	$26 69
"	7 69
William Monaghan	4 69
M. O'Donnell	1 69

The balance of Mr. O'Donnell's account has been already paid. Your committee recommend that Messrs. Parsons and Shuttleworth get an additional sum of $25 each for auditing the Police Court accounts. Your committee find that an account presented by Mr. Menzies for timber has been already paid.

The report was adopted.

SYSTEM OF GOVERNMENT OF THIS TOWN.

On motion of Councillor Smith, the Council went into Committee of the Whole on the second reading of the By-law for the "System of Government of the Town," Councillor Yelland in the chair. After reading thirty-nine clauses, the Committee rose with leave to sit again.

TOWN COMMISSION.

On motion of Councillor Smith the resolution passed at the last meeting of the Council in reference to the Fire, Water and Gas Commission was rescinded, and the old Committee requested to act again.

RECITALS OF NOTICE OF MOTION.

The resolution of Councillor Paterson in reference to clearing the Market Square, and one by Councillor Dunne relating to the 15th of June for making application for street improvements, were submitted and carried.

In the absence of Councillor Cameron, Councillor Smith moved, seconded by Councillor Cahill,—That a sidewalk be laid down on the north side of Murray street, from George to Aylmer.

Councillor Dunne objected to dispensing of this motion before some notice referring to the Street and Sidewalk Committee.

Councillor Cahill thought that as it was for the superintendence of a public building it should be attended to at once.

After consideration the work was ordered to be done under the superintendence of the Street and Bridge Committee.

FILLING UP OLD TANK.

The Mayor called the attention of the Council to the dangerous state of the hole (the old tank) in front of the Town Hall buildings. A resolution was passed ordering the work to be done.

ANOTHER WATER TANK.

Moved by Councillor Cahill, seconded by Councillor Taylor,—That the property of building a water tank or cistern for fire purposes in the vicinity of the South Ward School; also an approach for the Fire Hydrant to the lake on the East end of Lake-street be referred to the Fire Committee to report to the Council at its next meeting.

WORK ON SIDEWALK AND BRIDGES.

Moved by Councillor Dunne, seconded by Councillor Paterson,—That the Street and Bridge Committee be empowered to do all necessary repairs to the streets, sidewalks and bridges, and all new work shall be reported to the Council before being performed, and that so much of the resolution passed at the last meeting of the Council as conflicts with this resolution be rescinded.—Carried.

RECONSIDERING STREET COMMITTEE'S REPORT.

Councillor Mills moved for the reconsideration of the report of the Street and Bridge Committee, presented last meeting, but after a short discussion the motion on being put was declared lost.

STATUTE LABOR.

Moved by Councillor Cahill, seconded by Councillor Taylor,—That the Street Inspector be directed to give Michael Monnahan work to pay his statute labor, and that the Collector be instructed to not press the suit against him, and that the Treasurer be instructed to give the Collector credit for the amount.

RECONSIDERING FIRE COMMITTEE'S REPORT.

Councillor Paterson moved for the reconsideration of the report of the Fire, Water and Gas Committee.—Carried.

MISCELLANEOUS.

On motion it was resolved that the Market Square and streets adjoining be watered every Wednesday and Saturday.

Mr. John McNaughton was heard before the Council, complaining of the action of Health Inspector Beavis.

The Council adjourned till the 9th of June.

Remember the Benefit Entertainment in the Opera House, on Tuesday evening next to Mr. Knowlton

FAREWELL ADDRESS BY MISS STRICKLAND.

A Synopsis of Her Discourse in the P. C. A. E. Lobelield.

On Sunday afternoon last, Miss Strickland, who has been conducting evangelistic services in and around Lakefield for the past three years, delivered her farewell address previous to her return to England.

The church was crowded to the doors, and many were turned away, being unable to get standing room within the building.

Miss Strickland's discourse throughout was marked by deep earnestness and simplicity, and one does not wonder, after hearing her, at the great popularity which she has gained, and at the great work which she has been the moving instrument in the accomplishment of. As she concluded her sermon on this occasion a great portion of the congregation was in tears, and profound sorrow was plainly manifested by all at her departure.

Below we give a condensed report of her utterances:—

The lecturer took for the text of her discourse a portion of the 55th chapter of Acts, commencing at the 17th verse, and continuing to the end. She said that she did not intend making a regular address, but would give a parting word, a message that might be remembered when she was gone. She would first say a word to the unsaved. There was no place in the Kingdom of God for the sinner. Perhaps before another week had passed, or another opportunity offered, they would be called away, and there was no pardon for the unsaved in the grave. It might be that some of those unsaved ones had a mother or a friend in the heavenly land, calling them away to be with them. Oh, listen to that voice and be saved. "Believe on the Lord Jesus Christ and thou shalt surely be saved." She would next speak a word to the undecided,—to those who would be for Christ, but had not yet chosen. To these she would read the 6th and 7th verses of the 55th chapter of Isaiah:—"Seek ye the Lord while He may be found, call ye upon Him while He is near: Let the wicked forsake his way and the unrighteous man his thoughts; and let him return unto the Lord and He will have mercy upon him; and to our God, for He will abundantly pardon." Just as that father of old, spying his ragged wanderer while yet in the distance, ran out to meet him and fall on his neck and kissed him, so God rejoices over the return of the prodigal to Him. Strive to enter in at the straight gate and He shall not say "I know ye not." Oh, undecided ones, why halt between two opinions? Would that man in a burning house with all means of escape cut off, think twice about accepting the proffered aid and means of escape,—would he halt between two opinions; or would that shipwrecked seaman upon the deck of the stranded wreck deliberate about jumping into the life-boat? No, he would not. Oh, undecided ones, so wise about the things of this world, and so foolish regarding the things of the world to come. There was an eternity of gloom before the sinner, the time was fast passing, and ruin would be the end. Some of them had come to these meetings for the last three years; some of them had been touched, but they were still in the same position —undecided—drifting along. God knew how she would plead with them to decide now for Christ and seek the Kingdom of God and his righteousness. She would now speak a word to those who knew the truth but had never received it where position was awful. She would rather be a heathen than one of those who knew the truth but would not obey it. How terrible would be their condemnation. It was an awful thought that she might be called to witness against some of them present in the great day of reckoning. Oh, that she might meet them all before the Throne of God. The lecturer here exemplified her position by relating an anecdote of the foolish dwellers in a certain village in Scotland, whose cottages were built close to a great stone wall. One morning the cottagers noticed a small crack in the wall and were much terrified that it might fall down upon them and bring destruction to themselves and their property. At time were on, however, and the wall stood steadfast, their fears were allayed, although the fissure in the wall daily continued to widen. At length, one morning, the great wall fell and brought destruction and ruin to the cottagers with it. Was it not just so with those who knew the truth, but did not obey it? She hoped that they would take timely warning against the day of destruction. She would speak a word to the young Christian. She would have them keep in the sunshine, in the sunshine of Jesus. If a plant were put away in a dark cellar, how soon would it become feeble and die. And it was just so with the young Christians. They must be kept in the sunshine of Jesus. She would say a word to mothers. What a great duty was that which the mother had to discharge. What a work was that of the mother of a Wesley or a Whitfield? Many a great and good man could trace back his success to the counsel and instructions of a godly mother. They should do the work appointed to them, and if they were on their way to heaven they should take their children with them. A mother's prayers and a mother's tears would never go unanswered. Perhaps when they were in their graves, sweeping child, remembering the prayers and tears of his mother, would be moved to repentance and turn with the full gush of feeling. She had a word to say to the young men and women, who were looking forward to life with high hopes. They should take this from one who had fought much in the world, if they desired to be a happy and blessed life, they should take Jesus for their friend. He would never desert them. He would ever be a shield to them in their extremity. She could not conclude without saying a word to the little ones, who when she returned would have grown to be men and women. Jesus would be the children's friend. There were none too small or too young but they might have a place in his bosom. Jesus, when on earth, took the little children into his arms and loved them, and when the disciples reproved he said, "Forbid them not to come unto me, for of such is the Kingdom of Heaven." The lecturer finished by asking the congregation to sing, "Safe in the arms of Jesus." After the closing of the hymn she said:—"Dear friends, we have to say good-bye,—it is always hard to say it. Oh, how can we thank God for the blessings he has showered down upon us during the past three years. I feel how much has been left undone that should have been done, and it makes my heart sad. She would hold up Jesus; let them only accept Him as their Saviour, and they would be saved. Farewell, farewell, dear friends, we may never meet again on earth, but we may meet in heaven

Then and Now.

The following is certainly a poem, and we envy not the happiness of the man whose heart is so callous as to be unmoved by the picture:

BY T. H. GOLD.

The wagons stood in the village, Tom,
They were loaded with hay,
Upon the ordinary home-plain ground,
Which stands around you and me.
But some were there to greet me, Tom,
And few were left to leave
That played with me upon the green,
Some twenty years ago.

The grass is now as green, Tom—
Those meadows are ploughed
Down to the river, as they were
Then, all the old elms
But the master sleeps upon the hill.
Which, crested o'er with snow,
Affords us a view of more,
And twenty years ago.

The old school house is altered now,
The windows are changed
But the same old bricks are in the walls.
The bell swings to and fro;
It's music just the same, Tom,
As twenty years ago!

The spring that bubbled 'neath the hill,
Close by the spreading beech,
Is very low—what once so high,
That we could almost reach;
And kneeling down to get a drink,
Dear Tom, I started me,
To see how much that I have changed,
Since twenty years ago.

Near by the spring, upon the elm,
The name I cut your name—
Your sweetheart's just beneath it, Tom,
And you did mine the same.
Some heart-vines wreaths have rested the bark,
I've dying, sure, but now,
Just as the one whom name we cut,
Died twenty years ago.

My cyclists had been dry, Tom,
I feel tears come to my eyes,
I thought of her I loved so well,
Those merry days gone by,
I visited the old churchyard,
And took some flowers to strew
Upon the graves of those we loved,
Some twenty years ago.

Some are in the churchyard laid,
Some sleep beneath the sea—
But few are left of our old class
Remember you and me;
And when our time shall come, Tom,
And we age called to go,
I hope they'll lay us where we played,
Just twenty years ago.

Too Nice for Use.

Queen Victoria has nine beautiful cream-colored horses stabled at the mews of Buckingham Palace. But these animals are so valuable that they are never used. They were not even harnessed for the late royal wedding, because the roads at Windsor were deemed too hilly for their tender feet. Not since the marriage of the Prince of Wales have the Queen's state carriages, with their accompanying gorgeous liveries, been seen.

The Coachman and the Hired Man.

There's a nice distinction between the tastes of the coachman and the other hired man who is nothing but the hired man. The former marries the daughter invariably, while the latter takes the wife and murders the husband. It may become necessary for an employer to decide whether he wishes to lose his daughter or his wife and hire his help accordingly.—*Chicago Times.*

Singers and Public Speakers.

Coughs and colds, when left to themselves, frequently bring on pulmonary complaints, which lead to that distressing and fatal disease, consumption; but, if attended to in time, "Bryan's Pulmonic Wafers" are a certain remedy. They stop the irritating cough, and sooth and strengthen the bronchial tubes, allaying all irritations and inflammation. They are also particularly adapted for the use of singers and public speakers. Sold by all druggists and country dealers, at 25 cents per box.

A Good Horse.

"There is much pleasure and profit in the service of a good horse, and but very little of either in a bad one;" no person from choice will retain a bad horse; many, however, are in possession of such who need not be. We think there are few horses so bad but that their condition can be improved and rendered more valuable and useful for their owners, to effect which; there is nothing equal to "Darley's Condition Powders and Arabian Horse Remedy;" it has effected astonishing results in thousands of cases. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Pebbles.

A horseshoe is reckoned to be a lucky wedding present—except when it is presented to the groom with an animated mule's leg attachment.

"George, dear, don't you think it's rather extravagant of you to eat butter with that delicious jam?" "No, love, economical; same piece of bread does for both."

"I suppose the bells are sounding an alarm of fire," sneeringly said a man as the church bells were calling the worshippers one Sunday morning. To which a clergyman, who was passing, replied:—"Yes, my friend; but the fire was not in this world."

A little girl at a school read thus:—"The widow lived on a limbacy left her by a relative." "What did you call that word?" asked the teacher. "The word is 'legacy.'" "Ber," said the little girl, "my sister says I must say limb, not ler."

Lady—"You have not been out to service yet; therefore you have no character?" Applicant—"No, mum; but I've got three school-board certificates." Lady—"Ah! well, that is something. Are they for honesty, cleanliness, or——" Applicant—"No, please, mum; for literature, jography, and free 'and drorin.'"

Marriage with a Deceased Wife's Sister.

(From the Montreal Witness.)

The annual attempt in the English Parliament to pass the bill legalizing the marriage of a man with his deceased wife's sister, has once more been made, and has again failed. The failure of the present attempt is noticeable only because the influence of the Prince of Wales was openly exerted in favor of the bill, and it was very naturally supposed would secure its success, or at any rate a grave reconsideration of the question. The arguments both for and against the bill have been so often put forward, so patiently listened to, and so carefully weighed, that it was not expected that much if anything new, or perhaps even that was old, would be heard; but the fact that the Royal family desired its passage so warmly, that a petition in favor of its passage was presented and supported by the future sovereign, would naturally carry great weight, and more particularly in the House of Lords. But the result has not justified these expectations. The bill has been once more pretty summarily dismissed by the Upper House, the Government and spiritual peers, excepting one, voting against the measure, and two royal peers voting in favor of it. It is rather curious that a Government more than usually in accord with the reigning family should thus be found in open opposition. The Government, however, or, at least its representatives in the Upper House, have always voted and worked with the majority against the measure, and one, Lord Cranbrook, has this time acknowledged it. This is not strange. The Baron mind is in a degree what may be termed a combative one, and to not a few, therefore, the fact that an unusual influence apart from the merits of the measure itself is brought to bear upon them, justifies only lead them to take to fierce stand. Upon a moral question such as this, however, great consideration for the wishes of the Royal family could have been safely and generally accorded.

The South-West and the N. P.

The government have done all in their power to educate the Pacific coast, and to believe the settlers prefer the wild lands of Minnesota and Dakota before his own country. They have encouraged the cost of breaking and cultivating a farm in the North-west, with the object they say, of giving our manufacturers the control of the market. It is really too bad that their National Policy should fail in this point, as it has failed in everything but the setting up of a few monopolies. It now appears that our agricultural implement manufactories are farther than ever from getting control of the markets of the North-West. Under the old tariff a fair business was springing up, and would inevitably have increased largely as soon as the period of prostration had gone from the American trade, and the manufacturers of the United States had been enabled to increase their prices to a remunerative point. Under the new tariff the duties on raw material more than counterbalance the increased duties on the finished product in many articles, and among these ploughs. A prominent Hamilton manufacturer says that, under the new tariff, goods in and with Manitoba and the North-West is out of the question. "Take, for instance, the indispensable article of ploughs. With a duty on pig iron of $8 per ton, we cost 80 cents a ton, on steel plates for mould-boards 20 per cent., and with bolts, paints, varnishes—in short, everything that enters into their construction—taxed out of all reason, how in the name of common sense are we going to compete with Western United States manufacturers located on the very line?" It is this manufacturer's opinion that had the Government deliberately gone to work to hand over the entire ploughtrade of the Prairie Provinces to the American manufacturers, it could not have planned a more effective tariff for the purpose. Of itself this is a blunder sufficient to condemn any tariff that could be devised. It is bad enough to rob poor settlers and increase their hardships, but when their is no good derived from the robbery by anybody, the blunder assumes the magnitude of a crime.

Happy Thoughts.

When we have a grievance we must treat it as a weed and pull it up.

Work is the weapon of honor, and who locks up the tradition will never triumph.

Trouble does not come by chance—it is sent to make us wise and not to make us sick.

Reading merely for pastime, without any moral aim, is a thing to be guarded against.

Immortality opens a large hope, that may overpay the most unspeakable bitterness of life.

Be true to your friend; never speak of his faults to another, to show your own discrimination.

None are so tiresome as those who always agree with us; we might as well talk with echoes.

The noblest books and richest jewels depend for their lasting powers upon the sympathy they show.

A man who has a heart in him values a genuine little bit of home more than anything else you can give him.

Advice always infers, however gently it may be given, a certain superiority in the giver over the receiver.

Short Sketch of Hanlan's Victories.

Hanlan's career is so well known that it is unnecessary to give more than a resume of his victories, which now make a long list, and number among them the defeat of the champions of America, and the list will no doubt be further added to before the month of June is over by the defeat of the present champion of Great Britain, whose race with Hanlan is put down for the 16th of next month.

In 1871, at the early age of 16, he defeated, in company with Berry and dissing, Pat Gray and two others, in a two-mile race.

In 1872, he won two skiff races easily.

In 1873, he defeated Williams and McKay, for the championship of Toronto Bay.

In 1874, he won the championship of Burlington Bay, from Louden, at Hamilton.

In 1875 he again defeated Louden in a two mile race.

In the spring of 1876 he defeated McCann and Douglas, and on the 12th of August of the same year won the championship belt offered by Toronto.

Thus far it will be seen that Hanlan's successes had been only local, but in the season of 1876 he sprung to the top of the trees as a single sculler by winning the single scull races for three miles at the Centennial Exhibition Regatta, at Philadelphia, beating the champions of America, including Tom Lusher, who had beaten Higgins, of London, England, the day before, Plaisted and others. On the sixth day of the Centennial regatta Hanlan defeated Brayley for the final heat for the championship. The race was three miles, and was won in 21.09, which was thought very quick until beaten by Courtney's time of 20.47½ at Saratoga.

On the 13th of June, 1877, he pulled Plaisted and others at the Silver Lake regatta, but broke an oar and could not row the race out. A few days after he defeated Prenchy Johnson and Driscoll at the same place.

On the 4th of July he entered for the Boston Civic Regatta, but fouled Plaisted.

On the 15th of October, 1877, he defeated Wallace Ross very badly on Toronto Bay. This race was for $1,000 and the championship of Canada.

On the 18th of May, 1878, he handsomely defeated Plaisted two miles in 10.46.

On June 30th, same year, he defeated E. Morris, of Pittsburg.

On the 1st July at Brockville, Hanlan won $1,000, and disposed of Plaisted, Riley, Tom Eyek, Elliott, Luthe read McKee, with ease.

From Brockville Hanlan, together with Plaisted, Kennedy and McKee, went to Cape Vincent for the Fourth of July regatta at that place, and there he easily won the four mile single skull race, beating the others with his usual ease.

Then came his race with Ross on the Kennebecassis River, N. B., and in which he so badly scared Ross, that soon after the start Ross fell out of his boat and tried a struggle on his own hook to the bottom of the river.

At the Barrie regatta Hanlan again met Ross and defeated him with a batch of others.

On the 2nd of October of last year, at Lachine, he won the proud title of Champion of America from the famous sculler, Courtney, in a five mile race with a turn. Time, 36.32. At this race Hanlan weighed 149 pounds, aged 23, and his opponent 168 pounds, aged 39.

Hanlan's next mate a will os with Elliott, of England, on the 16th of June, for the championship of the world, and it is safe to say that Hanlan, after his easy disposal of Hawdon, will have no difficulty in defeating the present champion of England.

Such is a brief sketch of one of the most brilliant aquatic careers on record.

Philosophy.

Showing How Those Also Advance Two Ways of Looking at Things.

Two boys went to hunt grapes. One was happy because they found grapes. The other was unhappy because the grapes had seeds in them.

Two men, being convalescent, were asked how they were. One said: 'I am better today.' The other said: 'I was worse yesterday.'

When it rains one man says: 'This will make mud.' Another: 'This will lay the dust.'

Two children looking through colored glasses, one said: 'The world is blue.' And the other said: 'It is bright.'

Two boys eating their dinner, one said: 'I would rather have something better than this.' The other said: 'This is better than nothing.'

A moment thinks a man's house is principally kitchen. A guest that it is principally parlor.

'I am glad that I live,' says one man. 'I am sorry that I exist,' says another.

'I am glad,' says one, 'that it is so warm.' 'I am sorry says another, 'that it is not better.'

One man counts everything that he has a gain. Another counts everything else that he considers a loss.

One man spells a good report by thinking of a better report of another. Another enjoys a poor report by contrasting it with none at all.

One hour is thankful for his blessings. Another is morose for his misfortunes.

One man thinks he is entitled to a better world, and is dissatisfied because he hasn't got it. Another thinks he is not justly entitled to any, and is satisfied with this.

One man wakes up his accounts from his wants. Another from his assets.

Recipes.

LEMON AND APPLE PIE.—Grate three large apples: add two lemons, grated rind and juice two beaten eggs, three cups sugar, a little water, butter and salt. This makes three pies; bake between two crusts.

CUP CAKE.—A cup and a half of sugar, half cup each of milk and butter, three eggs, a little over two cups of flour, a cup of currants, teaspoon cream tartar, half teaspoon soda; spice with nutmeg, as you prefer.

TEA GINGERBREAD.—Boil one quart of molasses twenty minutes; add immediately one tablespoonful soda, one cup of butter, ginger to taste, flour to make a paste to roll.

SAUCE FOR ROAST BEEF.—Grate horse-radish on a grater into a bowl; add two tablespoonfuls cream, with a little mustard and salt; mix well together; add four tablespoonfuls of the best vinegar and mix the whole thoroughly. The vinegar and cream are both to be cold.

FRENCH MUSTARD.—Slice an onion into a bowl and cover with good vinegar; after two days, pour off the vinegar; add to it a teaspoonful of cayenne pepper, a teaspoonful of salt, a teaspoonful of sugar, one egg and mustard enough to thicken; set on the stove and stir till it boils; when cold it is fit for use.

SPONGE CAKE.—Four eggs, one cupful sugar, one cup and a half of flour, teaspoon royal baking powder, one teaspoon ginger, half cup of milk, teaspoonful butter, beat the yolks, sugar and butter together; add milk and flower, with baking powder sifted in; lastly, add the whites; beat to a dry froth; bake thirty minutes.

PRUNE PIE.—Two cups French prunes steeped in water over night, one cup sugar, one teaspoonful extract lemon, tablespoonful vinegar, one-third cupful water; wet the edges of the paste with milk; bake twenty-five minutes in rather hot oven.

MACCARONI SOUP.—Make a nice meat broth of beef or fowl, or both; salt and pepper to taste; soak a cup of maccaroni in water an hour after you have broken it up in pieces an inch or two in length; add this to your soup, and boil twenty minutes. Serve hot.

ITALIAN MACCARONI.—Take one-fourth pound maccaroni, boil it in water until tender; thicken one-half pint milk with two tablespoonfuls flour; add two tablespoonfuls cream, one-half tablespoonful mustard, a little white pepper and salt; stir in this one-half pound grated cheese; boil altogether a few minutes; add the maccaroni; boil ten minutes. This is the mode adopted at the best tables in Florence.

COCOANUT PUDDING.—Take the milk out of the cocoanut and put it in a dish; then break the nut, take it out of the shell, cut all the black skin off and put it in water; then grate it and put it on the stove to boil, with the milk at the bottom of the pan; cook about three-quarters of an hour; to one cocoanut take the yolks of four eggs, three-quarters of a pound of sugar, the rind of one large or two small lemons; two teaspoonfuls of rose water; beat them together and then pour in the boiling nut; stir well to prevent burning; bake in a pretty hot oven; when brown, beat your whites of eggs to a stiff froth; add three tablespoonfuls of white sugar and a little vanilla; put on the top.

TO COLOR YELLOW.—For five pounds goods take one-half pound of sugar of lead, dissolved in hot water, one-quarter pound bichromate of potash, dissolved in luke-warm water. Dip first in lead water, then in potash, alternately, until the color suits.

BLUE.—Take two ounces prussiate potash, two tablespoonfuls of copperas, two spoonfuls oil vitrol; bring to a boil; then put in the goods for twenty minutes, stirring often. Color in anything but iron.

GREEN.—This may be had by dropping the yellow rags into the blue dye. This process colors cotton splendidly. Rinse thoroughly as soon as cold.

PARSNIP STEW.—Clean them nicely; slice; have some salt pork cut in small pieces well freshened, but not too much so; stew the pork one hour, then put in the parsnips, with a little pepper; when boiled up, taste to see if it is salt enough; stir until well cooked and very little gravy left. It will be very nice if made in this way. I sometimes put in with the parsnips a few slices of potatoe

ELECTRICITY.

Thomas' Eclectric Electric Oil.—Worth Ten Times its Weight in Gold.—Pain Cannot stay where it is used.

It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent worth has cured crick in the back, and the same quantity lame back of eight years' standing. It cures swelled neck, tumors, rheumatism, neuralgia, contraction of the muscle stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of chronic and bloody dysentary. One tea-spoonful cured colic in 15 minutes. It will cure any case of piles that it is possible to cure. Six or eight applications is warranted to cure any case of excoriated nipples or inflamed breast. For sprains, if applied often and bound up, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils warts, and corns, and wounds of every description on man or beast.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and take no other. Sold by all medicine dealers. Price, 25 cts; NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

NOTE—*Eclectric*—Selected and Electrised

PETITT'S EYE-SALVE.

An Infallible Remedy for all Diseases of the Eye (acute or chronic), Granulation of the Lids, Ulceration of the Cornea, Scrofulous Sores and Weakness after Measles.

THE AMERICAN EYE-SALVE is presented to the public with the assurance of its efficacy as a curative of the most diseases of the eye acute or chronic inflamation whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ. Also for all person whom vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, whereweakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effective remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness both in its application, being used externally, and, of course, incurs the pain and danger which necessarily attends the introduction of minerals and eye-washes. Burrowes and Old Chimney Sweep, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE-SALVE. It is used successfully for Piles. Its soothing effect is immediate, permanent cure requires but a few applications. The proprietors of "Dr. J. PETITT'S AMERICAN EYE-SALVE," while making new and improved machinery for making a more perfect box for the Eye-Salve, have changed the Trade Mark on the cover so as to correspond with the Out on the Wrapper, Circulars, Advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent half yearly; or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	Each.
Equal Annual Instalments of	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	00

In every case the borrower has the choice of day on which to pay both Principal and Interest; and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

MESSRS. POUSSETTE & ROGER.

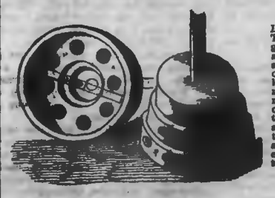
AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.

(*Patented July, 1878.*)



Isfadapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed.—no machinery about it to get out of order.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

T. J. B. HARDING, ESQ., BROCKVILLE, ONT.

DEAR SIR.—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me, I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case described in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from resting long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I received three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister,

Fort Elgin, Ont., Aug. 24, 1878.

Ask for Littlefield's Constitutional Catarrh Remedy and take no other.

MANHOOD:

"A Lecture to Young Men."

We have recently published a New edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent* cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL CO., 41 Ann Street, New York. Post Office Box 4586. 2-1

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dreadful disease, Consumption, by a simple remedy, is anxious to make known to his fellow sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address REV. A. WILSON, 128 Penn Street, Williamsburgh, N. Y.

PILES.—Dr. Peter's Celebrated Pile Remedy has been used in the last ever known for Piles of every kind (Blind Bleeding and Itching Piles, Ulcerated and Protruding Piles), and if directions are strictly followed, will effect a permanent cure in every case. It relieves at once, and subdues the worst cases in a few days. It has never been known to fail. No one who uses it will be without it after once using it. It contains no mercury or other injurious drug, and may be used by the most delicate lady or child with perfect safety. Dr. Peter's Pile Remedy is prepared only by Dr. J. PETER, 1 Queen St. East, Toronto, Ont. Sold by all druggists. Price $1.00 per box. 2-1y

PIMPLES.—I WILL MAIL (FREE of charge) a recipe that will remove Pimples, Flesh Worms, Blackheads, Chapped Hands, Rough Skin, and Baby Blemishes, leaving the skin clear, white and beautiful. Address, with stamp, JOHN H. REDDING, 41 Ann Street, New York. 2-1

ERRORS OF YOUTH.—

A GENTLEMAN who suffered for years from Nervous Debility, Premature Decay, Loss of Manhood, etc., having tried in vain every known remedy, has discovered a simple means of self-cure, which he will send free to his fellow sufferers. Address, J. H. REEVES, 78 Nassau Street, New York. 2-1

The Examiner.

PETERBOROUGH, MAY 22, 1879.

PROPER REPRESENTATION OF THE PEOPLE.

Perceiving the injury done to Mr. Scott's candidature in West Peterborough by that gentleman's persistent opposition to the Farmer's Sons' Franchise, his organ, tries to take the edge off the feeling of the young agriculturists, and old ones too, for that matter—by reproducing an article from the EXAMINER, written over two years ago, when the measure was under discussion. We then pointed out the delicacy of the question, and its danger as a party measure, and events have clearly proved the position we then took on these points. We then said:—"The Opposition will make the bill a strong means of attack on the Ministry." Were we not right? As we then supposed, the franchise is given to farmer's sons' because they are farmers. It must be remembered we were then writing before the Act had been fully explained, but the only change of opinion we have experienced since, is caused by a knowledge of fact which we then did not believe possible. We then stated that the agricultural class "was not overbalanced by any undue preponderance" in political representation. In this we were wrong, and therefor every argument in our then article based on this idea is erroneous. Further inquiry led us to the discovery that the farming community did not possess that numerical power, either on the floor of Parliament, or in the whole voting machinery of the Province that its importance as the leading industry entitles it to. This was to us a revelation, as it no doubt will be to some of our readers, but by a little study of the census returns, voters' lists, &c., the fact will be made too plain for further doubt.

It is somewhat peculiar in this connection, that we should have been led to the discovery of our former error through expressions let fall by Mr. Scott, to the effect that the farming community was not fully represented. It may be that he only referred to the House, but there is a "why" back of this fact into which he should enquire as well as others. Whether he have done so or not, the other fact remains, that he is as violently opposed as he ever was to the extension of the agricultural vote. His arguments against it are just such as were foreshadowed in our article of 1877, and every one of them agrees with what we then said in regard to the probable course of the Opposition.

The whole question as it now stands amounts to just this. Has the agricultural community more voting power than it isfby its importance entitled to? If Mr. Scott, or any other would-be repealer of the Farmer's Sons' Franchise Act, can show that such is the case, he will have some tangible ground for his opposition If he cannot, what does his outcry amount to? What is it at all except an attempt to catch the urban vote by a disparagement of the rural? But the voters in towns who owe their franchise to the liberal government's recognition of the income vote must remember that the man who attacks the measure of justice done to the farmer's son, is also opposed to the income franchise. The young men of the Province, whether they live in town or country, should remember who gave them a part in the affairs of the land that looks to them for its future, and who would take that power from them. Mr. Scott is one who holds the Tory view of a narrow and exclusive franchise, and for that reason, if for no other, he is not so suited to represent the more liberal views of West Peterborough, as is Mr. Elliott. The preservation and equalization of popular power, therefore demands the rejection of Mr. Scott and the election of Mr. Elliott.

Mr. Scott last session voted against the advantage to the people of having a Central Prison for the confinement and employment of criminals, instead of having them lying idle in the County goals, at great expense to the counties. We scarcely think that Mr. Scott's Opposition to the Central Prison will meet the views of the electors of West Peterboro'. This vote was given on the 9th day of March.

TORY DOUBLE DEALINGS.

The Tory candidates in the East and West Ridings of this county, and their particular friends seem to be sorely troubled over the appeal of Messrs. Blezard and Elliott, as Farmer candidates. It is not long ago that Mr. Scott admitted and dwelt somewhat upon the necessity of fuller representation of the agricultural interest in parliament. We do not know that Mr. Calcutt ever expressed a similar opinion, but feel convinced that he would scarce dare to oppose a man's election because of his being a farmer. Indeed we are quite certain the election of farmers to parliament, provided they were Tories, would be pressed, because of their occupation, by Mr. Scott, as is being done by their party friends in other parts of the country. It cannot be denied that farmer's, provided they have the usual qualifications necessary to a member of Parliament., will best represent agricultural constituencies. Both are East and West Peterborough, and we have yet to learn that any of their opponents take the ground that either Mr. Blezard or Mr. Elliott are unfitted for representatives. Both are admitted on all hands to be intelligent, trustworthy, and fully alive to the requirements of their prospective constituents.

So conscious are the Tory clique that stand by Messrs. Scott and Calcutt of the weakness of their cause at the "farmer candidates," that they are attempting a cut-off to the agricultural element by a frantic appeal to the credulity and prejudice they fancy the mindesses of the town and villages to be possessed of. In this, we take it, they will make another mistake—equal to that made by Mr. Scott when he opposed the Farmer's Son's Franchise—for our mechanics read and think too much to be taken in by any cry which depends on the ignorance of those to whom it is uttered. The card by which our opponents would man are trying to cheat the mechanics out of their votes is a declaration that the Mowat Ministry's vote for immigration is against the interest of our artizans, because the labours of the new-comers will compete with that of those already here: There is a smack of knowsothingism in this that flavours ill the saying of those who are but a generation, or at most two, removed from British mechanics or labourers. Worse still does it sound in the mouth of those who are themselves importations, who, by their own representation, enter into unjust competition with native talent. But the "facts" of our Tory mechanic deceivers are, in this case, as in most others, as false as their principles they are intended to sustain. The money voted of late years has not been used to bring in mechanics from Britain; but has been exclusively devoted to the securing of farm labourers and domestic servants for which classes a demand exists in country and town. The miserable class appeal of the hard-fisted Tories had better then be addressed to the hired man on the farm or to the hired girls in the kitchen. The reply would probably be, (as it would certainly be from mechanics, were there indeed imagination of fellow-workmen,) that these already here thought too much of themselves to be scared by the arrival of a few green-horns. Even were the facts as stated by the Scott-Calcutt organ, such a cry could only catch the most worthless of the mechanical classes; for no man of sobriety, industry and independence, would concede that he feared competition in an occupation of which he professes thorough knowledge. The Scott-Calcutt clique must remember that our artizans and mechanics are not like Tory office-seekers, to be caught with any such humbug.

IGNORING THE PEOPLES' RIGHTS.

The principal work of the Dominion parliamentary session just closed, besides the bringing forth of a new tariff, has been the production of another abomination in the shape of a Pacific Railway Policy. It proposes the setting aside of the best lands in the territories, and adjacent to the line of railway, to be sold to defray the cost of building the road. The price of these lands from time to time is to be fixed by the governor in Council, independent of the voice of the people of the Dominion through their representatives in Parliament. The government has also by these resolutions taken the power of locating the line in Manitoba and British Columbia, contracting for its construction, and spending money thereon, without the further sanction of Parliament. The principle of appeal to Parliament for sanction of the particulars of location and cost of public works was that in defence of which Ontario rejected the government of Mr. Sandfield Macdonald; and it is not likely that this province will now rest under the breach of that principle by the present Ministry at Ottawa, the members of which show that they are as eager as ever to take the rights of the people into their own hands for none other than base purposes.

EDITORIAL NOTES.

Last session of the Legislature Mr. Scott voted against the item in Supply for the inspection of collegiate institutes. See proceedings 8th of March.

There seemed to be some doubt as to whether the Reeve of North Monaghan would vote for Mr. Hogan or Mr. Scott. As between Mr. Elliott and Mr. Hogan, there can be no doubt—Elliott is the man for your vote

Mr. Calcutt is entirely mistaken when he talks of "the Hastings dam lowered or taken down as proposed by the Mowat government." Mr. Calcutt gives too ready an ear to the statements of his political crammers, or he allows his imagination to run away with his reason.

Perhaps the farmers will be surprised as they are soon to be disgusted, to learn that Mr. Scott last session actually voted against the necessity of keeping employed at the Agricultural College thoroughly competent Professors. Yet he did so, on the 8th day of March last.

In the Ontario Legislature, on the 8th day of March last, the House expressed its pleasure at hearing "that the affairs of the Immigration Department have during the past year been conducted with strict economy, and that the expense of bringing immigrants to this Province has been reduced from $3.50 in 1876 and $3.96 in 1877 to $2.44 per capita in 1878." Mr. Scott voted against this resolution. Did he not share in the pleasure at economical management? Was he disappointed at the decrease of the rate per immigrant?

When Mr. Calcutt condemns the government for not coming liberally "to the aid of railways in this county" Mr. Calcutt seems to forget that he and his political gull-fathers and god-mothers take advantage of the liberality of the same government to count their large expenditure [illegible] Tory candidates, in that the latter did not ask the government to scrape "to the aid of railways in this County." "A house divided against itself cannot stand."

Says the Hamilton *Times*:

[illegible] appointed governor-general [illegible] "Mr. Scott is to come to this country [illegible] Mowat ministry to pay for the [illegible] "outright manner towards us" for the passage of the secondary award. Then Sir John Macdonald is the man who was guilty of a piece of corruption that made the world shudder, the Pacific Scandal; therefore, we suppose, he could not in any way be the most suitable governor. He or even Lord Dufferin or the Prince of Wales was no truth in the charge that he had sold the [illegible] of the railway—as such he subscribed all [illegible] stock—therefore he is a man of honor, and is to be trusted in some other way. Then, too, of the Governor being to promote trade of the country, we have the assurance from the letter of the Governor-General himself that he was [illegible] with money to leave the country [illegible] his work in Canada and his estate unsold!

We are triumphantly told by the local Protectionists journal that Mr. Stethem has been getting certain goods from the United States at the old rates since the fixing of the new tariff. Where then is the protection that was promised the home manufacturer of such goods? The tariff is a failure, in this particular at least, and the non-protected class has the right, now the principle is established, to demand higher rates of duty to shut out this foreign produce from competition with the home-made article. When imported articles sell at the old price since the duty there must have been a fall in the price in the country of production, as is the case with coal, they must be smuggled or entered at a low valuation, or the producer is losing on the transaction. Which of these is the most likely? When the price falls in the country of production it does not fall proportionately, barring the tariff, in the country to which the commodity is imported. The importers keep up the old prices instead of lowering them—as they [illegible] were in the article of coal. Cases of low entries, smuggling, or even slaughter by the producer, show wherein highly protective tariffs defeat their own objects, and are ineffectual to produce their primary promise.

Afghan Peace Negotiations.

CONSIDERATION OF THE TERMS BY THE VICEREGAL COUNCIL.—SEVERE STIPULATIONS ACCEPTED.

SIMLA, May 19.—The Vice-regal Council has been specially summoned to-day to consider the draft of the Afghan treaty. The Ameer has agreed to such terms as will secure the chief objects of the British policy.

The news from Cashmere is very bad. The increase of urgent distress and famine, joined to the incompetency, corruption and want of organization of the officials is producing a most serious state of affairs.

The cholera in Peshawar is threatening to raise an obstacle to the prompt withdrawal of the troops from Afghanistan. It has appeared in most cities of the Punjaub.

LONDON, May 19.—A correspondent at Simla states that among the principal points of the agreement with Yakoob Khan are British command of the passes, with sufficient territory to constitute a scientific frontier; the appointment of a British resident at Cabul and control of the foreign relations of Afghanistan.

Hostilities in South America.

A PERUVIAN TOWN BOMBARDED AND DESTROYED.

Pisagua has been bombarded and destroyed, causing a loss of 1,000,000 soles, ($800,000). Iquique was bombarded for half an hour; loss trifling. At the bombardment of Pisagua, at the commencement of the fight Rear-Admiral Rogers, of the Pensacola, was putting from the shore to his ship with his family, when a ball from the Chilian boats carried away his ensign. He signalled the Chilian flagship, and Admiral Robaldo went on board the Pensacola and apologized, and seeing that the boats were returning repulsed from shore, he left, asking Admiral Rogers to warn the town that in three hours more he would bombard the place. Accordingly, three hours later the bombardment commenced, and lasted till the town was reduced to ashes.

The Imperial Parliament.

THE IRISH UNIVERSITY BILL READ A FIRST TIME.

LONDON, May 15.—In the House of Commons to-day the O'Conor Don introduced a bill to establish a University of St. Patrick at Dublin with affiliated colleges, making provision for fellowships, scholarships, and exhibitions, at a cost of one and a half million pounds, to be defrayed from the Irish Church temporalities, the Chancellor and Vice-Chancellor of the University to be appointed by the Lord Lieutenant of Ireland, and the members of the Senate to be appointed by the Lord Lieutenant in the first instance, but thereafter to be elected. Several Irish members and Messrs. Foster and Fawcett supported the bill

Sir Stafford Northcote declined to express an opinion until the House had had time to consider the bill.

The bill was read a first time.

COBOURG.

A Case of Insanity Brought on by over Study.

COBOURG, May 19.—A young man in this town named Robt. Libby, became mentally deranged yesterday morning. He is a student attending Victoria College, with the object of at some future time matriculating and becoming a minister. He became so violent yesterday morning that it was found necessary to watch him for fear he would take his life. He attacked one of the students that were watching him, tearing his clothing into pieces. This morning he attempted to throw himself out of a second story window in the College, and would have succeeded but for the timely rescue of a fellow student. When those watching him left the room for a short time to study, he managed to elude them and stole out of the room unobserved, and had got well out of town before they overtook him. They had hard work getting him to come back, and found it necessary to obtain the services of the Chief Constable, who finally got him to walk down town as far as the corner of King and George streets, where they proceeded to take him to the Police Office. They found this no easy task, as he fought so hard that it took five men to hold him, and then only partially, as they had to throw him on his back in the street and put the handcuffs on him, after which he walked over to the Hall and was examined before P. M. Stanton, who committed him to jail.

Great sympathy is felt for the young man and his relatives. He is said to be very clever, and it is thought that over study has brought on his insanity.

HANLAN'S DOINGS.

GOING INTO TRAINING FOR THE ELLIOTT RACE.

MANCHESTER, Eng., May 19.—Hanlan, after his trip through Scotland and his visit to London, spent two days here. He returns to-day to Newcastle where he will go into heavy training for the match with Elliott. He is in excellent health, and speaks confidently of the race.

LONDON, May 19.—Plaisted proceeds to Newcastle to-morrow to arrange the match with Nicholson. Wallace Ross, being unable to obtain an opponent in England, started for America to-day to participate in the great summer regattas. He also hopes to make a match with Courtney or Riley. He proposes to return to England in the autumn, when he may try for the championship. Hanlan has returned to Scotswood, and resumes training to-morrow. He is still the favourite. 100 to 50 in pounds was taken on him to-day.

Pacific Railway.

The following are the Pacific Railway resolutions which Dr. Tupper moved in the House:

1. *Resolved*, That the arrangements have been entered into with British Columbia as a condition of union with Canada, that a line of railway to connect the Atlantic with the Pacific shall be constructed with all practical speed.

2. *Resolved*, That the Pacific railway would form a great Imperial highway across the continent of America entirely on British soil, and would provide a new and important route from England to Australia, to India, and to all the dependencies of Great Britain in the Pacific; as also to China and Japan.

3. *Resolved*, That reports from the Mother Country set forth an unprecedented state of enforced idleness of the working classes, and the possibility of a scheme of relief on a large scale being found indispensible to alleviate the destitution.

4. *Resolved*, That the construction of the Pacific railway would afford immediate employment to numbers of workmen, and would open up vast tracts of fertile land for occupation, and thus would form a ready outlet for the over-populated districts of Great Britain and other European countries.

5. *Resolved*, That it is obvious that it would be of general advantage to find an outlet for the redundant population of the Mother Country within the Empire, and thus build up flourishing colonies on British soil instead of directing a stream of immigration from England to foreign countries.

6. *Resolved*, That in view of the importance of keeping good faith with British Columbia, and completing the consolidation of the Confederation of the provinces in British North America, and for the purpose of extending relief to the unemployed working classes of Great Britain and affording them permanent homes on British soil; and in view of the national character of the undertaking, the Government of Canada is authorized and directed to use its best efforts to secure the co-operation of the Imperial Government in the great undertaking, and to ask further aid by guarantee or otherwise in the construction of this great national work.

7. *Resolved*, That it is further expedient to provide (1) that one hundred millions acres of land and all the minerals they contain be appropriated for the purposes of constructing the Canadian Pacific railway. (2) That the land be vested in commissioners to be specially appointed, and that the Imperial Government be represented on the Commission (3) That all the unpranted land within 20 miles of the line of the Canadian Pacific railway belonging to the Dominion be vested in such Commission; and that when the lands along the line of the Canadian Pacific railway are not of fair average quality for settlement, a corresponding quantity of lands of fair average quality shall be appropriated in other parts of the country, to the extent in all of 100,000,000 of acres. (4) That said Commissioners be authorized to sell from time to time any parties of such land at a price to be fixed by the Governor in Council on their recommendation, at the rate of not less than $2 per acre; and that they be required to invest the proceeds of such sales in Canadian Government securities to be held exclusively for the purpose of defraying the cost of the Canadian Pacific railway.

8 *Resolved*, That the withdrawal for sale and settlement of lands for 20 miles on each side of the located line of the Pacific railway, has in part had the effect of throwing settlements south and west of Lake Manitoba.

9. *Resolved*, That in the existing state of things it is desirable to combine the promotion of colonization with railway construction on the Canada Pacific railway west of Red River.

10. *Resolved*, That the Government be authorized and directed to locate a portion of the railway system of the country from the Red River westerly, running to the south of Lake Manitoba, with a branch to Winnipeg; and if they deem it advisable, to enter into a contract for expending a sum not exceeding $1,000,000 in constructing the said railway with out previously submitting the contracts to Parliament.

11. *Resolved*, That it is expedient to make further explorations in the Peace and Pine River districts, and other sections of the country not yet examined, in order to ascertain the feasibility of a line through the largest extent of fertile territory, before beginning the work of construction in British Columbia.

12. *Resolved*, That in the opinion of the House the selection of the Burrard Inlet terminus was premature.

13. *Resolved*, That it is necessary to keep good faith with British Columbia, and commence the construction of the railway in that province as early as is practicable.

14, *Resolved*, That the Government be authorised and directed to make such further explorations as they may deem necessary for the said purpose, and so soon as they have finally selected and located the line, to enter contracts for constructing a portion of the same, not exceeding 125 miles, without the further sanction of Parliament, so that the work of construction may at latest be commenced during the present season, and thereafter be vigorously prosecuted.

ENNISMORE.

Mr. Jas. Elliott addressed a meeting of the electors of this township, in the town hall on Monday evening, 12th inst., explaining his views on the Administration of the day, our railway policy, class legislation, and other questions now before the country. After the meeting, a large influential committee was appointed. Patrick Gallivan, Esq., being again elected chairman, and Thomas Telford, Esq., secretary of committee. Being now fully organized no time will be lost in pushing forward the work to ensure success on the 5th of June.—Com.

LAKEFIELD.

—Items are hard to obtain this week.

—The weather is very favorable to garden operations, and all who can are engaged in them.

—Messrs. Holmes and Arnott went up to "Ketchum Lake" last week, and in two days caught 35 salmon trout.

—The Orangemen of Lakefield District propose to have a grand excursion and pic-nic up at Burleigh next 12th of July.

—Michael Harrigan, who has rented the Nolan farm, near this village, lost one of his horses on Monday. It dropped down as he was harnessing it after dinner, and died in a few minutes.

—Our village boys have thrown aside their bows and arrows and taken up the fishing rod, and are making sad havoc among the finny tribe. Meanwhile the doctors are getting their knives in order to take the hooks out of fingers, &c., which is the usual result of the small boy's sport.

APSLEY.

(From our own Correspondent.)

—Fine spring weather.

—Thunder and lightning.

—The Good Templars intend giving another entertainment in the Temperance Hall, on the 24th inst. The celebrated Capt. T. O. Bridgewater is expected to be present and deliver a lecture. Admission, 10 cents.

—The following are the officers of Maple Leaf Temple, No. 373, for the current quarter:—Bro. J. W. Rexford, W. C.T.; Sis. M. J. Edgar, W.V.T.; Bro. D. Anderson, W.S.; Bro. Wm. Lamont, W. T.; Bro. John Young, W.C; Bro. T. H. Hales, W. M.; Sis. Isabella McFadden, W.D.M.; Bro. Cyrus McFadden, W. C. G; Sis. Selina Clifford, W.I.G.; Bro. R. M. Anderson, W.F.S.; Bro. pl. Loasby, P.W.C.T.

—A heavy thunder storm passed over this village on Wednesday morning last. The lightning struck the chimney on the store occupied by Mr. J. W. Rexford, and shattered it all to pieces. It then passed down the conveyance through a bedroom, giving the occupants a scare, and continuing its course down the stove pipe into the shop below, tore up the floor into splinters, but the goods were not damaged. It then passed into the church, which it tore up in an unceremonious manner. We are glad to be able to state that no one was injured; but the inmates had a very narrow escape.

Far North West News.

The formation of a cricket club in the town at Battleford is contemplated.

The traffic in the Saskatchewan is now as great as usual at this time of the year.

Saskatchewan opened on the night of the 12th, and became free of ice without much rise of water.

Prairie fires illumined the sky in every direction at night in the early part of last week, and clouds of smoke overhung the town.

Mr. Percy Belcher, of Fort Saskatchewan, convicted, with some other gentlemen, instead to put up a steam saw mill this summer at or about Edmonton.

Mr. George Gunn will erect a saw mill and grist mill this summer at Battleford. This gentleman and his brother intend to farm on a large scale, in which stock raising will form a principal feature.

The *Saskatchewan Herald* of the 21st April appears in the high-toned new-colored paper, its usual supply of white paper not having arrived in time for that issue. The following news items are shipped from its columns:—

It is reported that a company has purchased the sections of land—6,400 acres—east of Pembina, and intends to commence operations in spring with about twenty mule teams. It is proposed to conduct it on the Dalrymple farm principles.—*Emerson Journal*.

As to the climate at Battleford an idea of it may be had from the fact that ploughing and out-door work began during the first week in April. The prairies were dotted with flowers, and the trees and shrubbery on the hills beautiful with opening buds.

1879 Select Doctor sentimental and comical Readings, &c. 1879
Will be given at Moore's Festival, in Bradburn's Hall, *May 26th*.

CANADIAN NEWS.

There are rumors of another rich discovery of gold in the Township of Madoc.

A second vessel has arrived at Montreal with a cargo of sugar from Barbadoes for the Redpath Refinery.

In 1878 there were shipped to Great Britain from Canadian ports 17,989 cattle, 40,000 sheep and 1,614 hogs, the greater part being from Montreal.

The fishery overseer at Belleville has shipped a number of fine black bass to the Department at Ottawa.

The first shipment of lumber over the North Hastings Railroad arrived at Belleville yesterday. It consisted of four car loads.

Mr. and Mrs. McQuarter will bring 120 children from Glasgow to Canada this month. These young people will be placed out with farmers in the west.

The St. John, N.B., Roman Catholics have organized a society to promote the colonization of Crown lands by their brethren.

Arrangements have been completed for the erection of the Stormont cotton mill at Cornwall by Messrs. Gault Bros., of Montreal.

Nearly 1,350 head of fine Canadian cattle were shipped to Britain from Montreal last week, the total arrivals from the west being 1,760 head.

The Circuit Court at St. John, N.B., is engaged in trying a dozen Unionist stonecutters, charged with intimidating and assaulting non-unionists.

It is understood that the lumbering firms at Ottawa and the neighboring section will erect lumber trophies at the forthcoming Dominion Exhibition.

The Water continues to rise in the Ottawa. It is now within five feet of what it was at the time of the great flood in 1878, and the "north water" is not yet down.

Mr. Cox, of Belleville, will ship 20,000 tons of iron ore from his mines in Madoc this season, and Messrs. Pitcoshly and Kelso will commence shipping lumber a few days hence.

The quantity of forest products to be brought down the Moira this season consists of 300,000 pine saw logs, 20,000 pieces of sixteen foot cedar, and about 300 pieces of squared timber. The drive is progressing satisfactorily.

A rumor was afloat at Brockville on Tuesday to the effect that a whole barge load of tea had been smuggled into the town on Monday night last. Search was made by the customs authorities, but no trace of the merchandise was found. Smuggling, however, is undoubtedly being carried on extensively, and the officers are on the watch.

The boggies from the United States recently seized at Belleville for undervaluation have been released under instructions from the Department on the following terms:—An addition of 50 per cent to the entered value and an addition of 20 p.c. to the duty on the amended value as a fine for undervaluation. The duties have been paid and the goods released.

Mr. Wm. Kerr, ex-M.P., was returning home from the country after being at a political meeting at Cold Springs about eleven o'clock he drove into an open drain on King street one of the horses falling on his back and being instantly killed, and the other falling on his feet. Mr. Kerr came off unhurt. The team was very valuable and belonged to Rooney and Plunket, livery stable keepers.

For the six months ending April 30th last, 2,450 emigrants arrived at Halifax, against 1,512 during the same period last year. Of this number, 1,431 were booked for Ontario, but most of them went to the North-West; 310 settled in Quebec, 294 went to the States, and the others remain edin the Lower Provinces.

The Port Hope *Guide* says:—The long looked-for clothing for the 45th Regiment has at last arrived, and when the time comes for our volunteers to don their new uniforms, we think it will be unanimously conceded that it is the finest dress with which our soldiers have yet been supplied.

The Minister of Education (Hon. Adam Crooks) has addressed the electors of South Oxford in a pamphlet which gives a succinct review of the policy and work of the Reform Government in Ontario. It should be read by every one anxious to take a fair view of the respective claims of the Ministerial and Opposition parties in the forthcoming contest.

The triennial Council of Orangemen meets at Ottawa on the 24th of July next. Among the distinguished visitors who will be present are Col. Cole, Lord Arthur-Hervin Hill, Dr. Trevor, and Wm. Johnson, M.P., of Ballykilbeg, Ireland. It is not probable that there will be any celebration in Ottawa on the coming 12th, owing to the meeting of the Council in the same month.

On Sunday afternoon, one of the patients in the small-pox hospital at Ottawa escaped and made a race down to the Rideau River, being followed by an attendant, who succeeded in capturing him just as he reached Cummings' bridge. The patient, who is a young man, had become delirious from his sufferings, and shouted as he ran down towards the bridge. His face presented a revolting appearance, being covered with large blotches.

The polling on the Canada Temperance Act, which was to have taken place on the 20th inst., in the County of Lambton, has been postponed to the 10th June. The Act says that the polling shall not occur on the day of an election to the Dominion or Local Houses of Parliament, and as the 20th inst. is the day of nomination to the Local Legislature and might be considered the day of election, it was considered advisable to change the date of polling for the Act.

The annual report of the Superintendent of Government Railways just printed shows the total mileage to be 7,605, an increase over the previous year of 295 miles. The number of passengers carried was 5,613,982, an increase of 370,663. The earnings during the year were $30,-330,078. The number of persons killed on railways was 97, and the number injured was 261. The number of passengers carried during the year was 5,443,-982, so that the number killed amounted to one in every 892,811, against one killed in every 1,252,805 in the previous year. The number injured was one in every 267,295 carried, against one in every 307,497 carried in the previous year.

Guelph's assessment this year foots up $6,286,870 with a population of 10,071. The latter is an increase of 154 in the year, but the assessors above midnight decreased the assessors having reduced their valuation. This has been done in several towns, and in others no increase is made. We fancy the Lindsay assessment, on the same grounds, will show no increase..... Woodstock comes to the fore with a population of 8,123 and an assessment of $1,-493,355, an increase of 54 and $98,985. Galt, 4,500 and $1,699,547, the famous trip-hammers still remaining silent.

When the mills blew up at Minneapolis there was a question as to whether or not the insurance companies should pay the damage. They claimed that the mills were destroyed by the explosion, and so the insurance was against fire they refused to pay. The owners of the mills held that fire was the cause of the explosion. Governor Washburn proved that fire had been seen before the explosion. The trial lasted a week, but the jury only took ten minutes to bring in a verdict against the companies for the full amount, with interest.

A cotton manufacturing company is projected in Toronto with a capital of $1,-000,000, in 80,000 shares of $25 each. It is proposed to manufacture, bleach and print cotton goods. Not satisfied with the protection afforded by the N.P., it seems "the necessary steps" have already been taken to secure from the Toronto City Council a remission of taxation on the land and property of the proposed corporation.

According to present appearances, the Hon. Mr. Mowat and Dr. Ogden will achieve decisive victories in East and West Toronto. The *Telegram* (Mr. Goldwin Smith's organ), as in favor of the Doctor, who is described as belonging to the better class of politicians who has not made party politics a trade; while his opponent, Mr. Bell, is not by any means a man of marked ability, and does not stand head and shoulders above his followers in integrity and practical usefulness. He is, besides, said to be content with what he has made out of politics.

1879 "Flower's Head" 1879
Will perform a choice selection of Irish Medodies at Moore's Festival, in Bradburn's Hall, May 26th.

Russian Cities in Flames.

SUSPICIOUS CONFLAGRATIONS AT ORENBURG AND URALSK.

ST. PETERSBURG, May 14.—The Governor of Orenburg has telegraphed that another fire occurred there on the 8th inst., which was quickly extinguished. A fire also broke out on the 12th inst., in the Cossack quarter, which was half consumed.

The Governor of Uralsk, in the government of Orenburg, telegraphs on the 11th inst., as follows:—"A fire here has destroyed a considerable portion of the town and is still raging."

ST. PETERSBURG, May 15.—Several conflagrations have occurred in east Russian towns, causing great distress. Seventy arrests have been made at Orenburg on charges of incendiarism.

Four male and six female prisoners are undergoing a court-martial at Kieff, including three noblemen, one Prussian subject, and a daughter of a Privy Councillor. Among other arrests are a titled lady and a leading Nihilist. The streets of Kieff, near the court house, are to be closed during the trial.

Another fire occurred at Irbit on the 13th inst. Four of the poorer quarters were destroyed. The station of the Ural railway and five locomotives were burned.

ST. PETERSBURG, May 17.—Advices from Irbit, dated Wednesday, gave particulars of the attempt at incendiarism at that place. Upwards of eighty houses were destroyed and the inhabitants removed to the fields.

ST. PETERSBURG, May 18.—The Governor of Orenburg telegraphs on the 16th inst., that the fire at Verkne Uralsk had broken out afresh, presumably on the 15th during a violent tempest, and several Government buildings had been destroyed. On the 16th there was another conflagration at Orenburg which destroyed a considerable portion of the suburb which had been spared by the previous fire.

ST. PETERSBURG, May 19.—A great conflagration is raging at Petropanlovski in Siberia. Several quarters of the town are in flames.

AFTER the birth of my babe, one of my limbs became fearfully swollen. *Giles' Lenimont Iodide Ammonia*, after all the K. Brown remedies failed, effected a rapid cure. Mrs. B. LASH, 160 East 66th St., N. Y. Sold by all druggists.

1879 "Home, Sweet Home." 1879
"Katy Darling."
Will be sung at Moore's Festival by a Chorus of 50 Voices—*May 26th*.

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes,—56 lbs, 112 lbs, and 224 lbs. (The bags are all of a superior quality of linen and suitable for bedding or other domestic uses.) It is said by parties of wide experience that one ounce of judiciously in quality of butter and other dairy products has been the use of common [illegible] of Salt; and the difference in cost is slight when compared with the difference in quality. If dairymen and others will give "Windsor Salt" a fair trial, only 56 lbs of salt are required where 70 lbs of common, and only 1 oz. of salt to make 1 lb. butter will suffice of here small importance must in the [illegible] of fine [illegible] ingredients in the manufacture of dairy products.

☞We know that having once used it, you will continue to do so.

T. W. ROBINSON & Co.
Simcoe street.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

Facts that We Know.

If you are suffering with a severe cough, cold, sore throat, bronchitis, loss of voice, pain in the chest or lungs, or any affection of the throat or lungs, we know that Dr. King's New Discovery will give you speedy relief. We know of hundreds of cases it has cured, and we believe and will warrant that where all other treatment has failed, No other medicine can show one half so many genuine cures. Now is give you satisfactory proof that Dr. King's New Discovery will cure you of Asthma, Bronchitis, Hay Fever, Croup, Whooping Cough, Coughs and Colds, Consumption, severe Coughs and Colds, Consumption, or any Throat or Lung disease, if you will call at F. Lane & Co's Drug Store, we will give you a trial bottle free of cost, or a regular \$1.00 bottle for \$1.00.

Enjoy Life.

What a truly beautiful world we live in! Nature gives to grandeur of Mountains, diversified scenery, and charms of ocean for our pleasure. We can desire no better when in perfect health; but how often do the majority of people feel tired, dull, and languid in the morning, when they arise, and with dizziness, when there is no exercise for this feeling, as every thinking and healthy organism naturally craves. Burdock's Antidote Pleasure will banish these and many other ills which harass. Digestively and Liver Complaint is just the ailment for every one to get a bottle of. Sold by druggists generally. Ask your agent. It only costs 50 cts. per bottle. Constipation, Heartburn, Dyspepsia, Disturbance of the Blood, Pulsations of the Heart, and other distressing symptoms will disappear after using "Burdock Antidote." Be sure and try it.

The Examiner.

PETERBOROUGH, MAY 22, 1879.

LOCAL NEWS.

Dominion Day.—Steps are being taken for a Firemen's celebration on Dominion Day.

Change.—The Port Hope Visitor has changed its publication day from Wednesday to Thursday.

Change of Pulpit.—The Rev. Mr. Cameron of Millbrook, preached last Sunday evening in the George Street Methodist Church.

H. P. and Wood.—H. P. advertises no longer draw the most over the eyes of our wood growers, who were promised protection upon this commodity.

For Summer Wear.—Ladies and gentlemen requiring a nice article in summer boots or shoes should call at Larmour's. The stock is large and varied, and you cannot help suiting yourself.

Millinery.—In returning to the contest in the East Riding the Lakefield News says:—"One thing is certain, the Reformers of the East Riding could not have found a better man to represent them."

Personal.—Messrs. Robert Johnston, of Otonabee, and Edward Johnston, of Cavan, 'set up Sunday for a visit to their old home, in Ireland. We wish them a pleasant trip and a safe return to "Canada their Home."

Teacher's Association.—The semi-annual meeting of the County of Peterboro' Teacher's Association, will be held to-day and to-morrow in the Collegiate Institute buildings. There will be lectures both evenings in the Opera House.

Confirmation.—The rite of confirmation will be administered by the Lord Bishop of Toronto, in St. John's and St. Luke's Churches, during the month of July. It is requested that the names of the candidates be handed in during the present week.

The Absconder.—A report was in circulation on Monday morning that Montgomery, of Port Hope, had been arrested in Rochester, but it proved untrue. He is still at large, notwithstanding that there is a reward of \$1,000 offered for his arrest.

The Crops.—The crops promise fair for this season throughout the country. Sowing this spring has been somewhat later than last year, but already considerable spring grain is sown, many farmers being nearly completed. Fall grain, both wheat and rye, gives promise of an average crop.

Vennor's Very Latest.—The prophet thus speaks:—"Judging from the movements of the spring birds, I feel certain we are going to experience a wet summer, with frequent cold returns and severe frosts, the same condition to extend through a large portion, also, of the United States. The winter of 1879-80 will be quite severe, with heavy snow falls."

Boating.—On Wednesday, of last week, a four oared and double scull race game off on the Little Lake, between crews of the Peterborough Boating Club. Although but little publicity had been given of the races, there was a very good attendance of spectators, who seemed to enjoy the sport. The four oared race was won by Ross, (stroke) Bateson, Spilsbury, and Cook. The scull race, through a foul, was declared drawn, and will have to be rowed over again.

New Agricultural Paper.—We have received the first copy of a new agricultural journal published in Montreal, called the *Illustrated Journal of Agriculture*, which promises to be a very valuable publication. It is under the control of Ed. A. Barnard, director of agriculture for the Province of Quebec, and is published by the department of agriculture and public works for that Province. Its veterinary department is edited by Dr. McEachern, of Montreal, who is perhaps the leading man in his profession on this continent, and who is well-known to many in this county. We heartily wish the new journal success.

The Prospect.—The prospect, so far as they can be spoken of at this season, are certainly very good. The fall wheat is said to be in excellent condition. The dry, but genial weather for a season had an excellent seeding time, and the moisture which now prevails is just in time to cause the seed to germinate. If ever a country had occasion to pray for an abundant return of the "kindly fruits of the earth" this country should do so this year. We have every harvest with but one fail, been a responsibility, not only to himself but to his country, to make the portion of land allotted to him yield to its utmost power, and, with a view to this, devote himself to the acquisition and pursuit of a careful but generous system of husbandry.

Get it Pretty Red.—One of the staff of the Belleville *Intelligencer* has been turned out to grass, and sends three-quarters of a column of spring ravings to that paper from Trenton. He says: "This used to be my favorite rambling place when I was a child, and as I had not previously visited the spot for fourteen or fifteen years, it stirred up within me sweet memories of the past. Here when boyhood bound me in its magic bonds, I gathered shells and pebbles from the beach, saying with the playful ocean as it made its fruitless to the silent shore. Here I watched the vessels pursue their missions of industry and wondered what Columbus would say if he could come from his narrow bed and view the result of his discovery. Here I watched the breeze bird play among the driftwood, and here with a little girl for a companion I built miniature cities in the barren sand." Yes, indeed!

A Warning.—The Dominion Government Immigration Agent at Duluth, has addressed a warning to emigrants en route for Manitoba and the North-West Territory. He tells them to be aware of land agents and others stationed at Emerson, Pembina, or railway depots and on board trains, who will use every means in their power to dissuade them from going to Manitoba. They will very likely, he says, tell plausible stories of the severe climate, the unredeemed rascals of the hill, the hateful grasshopper plague, and of the hundreds of their countrymen who, disgusted, would be glad to leave the province if they only had the means. To them men, he would say, turn a deaf ear, on on to your destination, and when there, obtain the right to judge for yourselves. There is no doubt but hundreds of poor people are induced by the above misrepresentations to [illegible] to fill up the numerous "Homes" of the Province and other settlements of the West. The warning is, therefore, timely, and we hope it will be disseminated.

The Queen's Birthday.—The very efficient committee of the cricket club, entrusted with the arrangements for the celebration of the sports on the occasion of the Queen's birthday, so carrying out the work entrusted to them in such a satisfactory manner [illegible] they will be able to give a good account of their stewardship. There are seventeen events on the programme open to competition, including running, jumping, putting weights, bicycle race, walking, and "sitting at the ring" by members of the Peterborough cavalry troop. The celebration promises to be the most successful yet held by this club, and we hope the labors of those having it in charge will be liberally rewarded by the public. There are, we find some, few of our townspeople who do not take a pride in the efficiency of the old Highland clubs, let them, therefore, show their appreciation by their presence on Monday next, both afternoon and evening. A grand stand is being erected capable of seating about 600 people. This branch of accommodation will not only add to the comfort of spectators, but enable them to get a good view of the sports. Admission to park ground and common, 10 cents each.

A Slim Time.—The Mount Pleasant Literary Committee have planned to the Post Office a nice piece of [illegible] work. Enclosed in a frame of about 12 x 2½ inches is a cabinet church, of Brick [illegible] wood, surrounded by photographs of the heads of several of his parishioners. The heads were prepared by Mr. Gadsby, and photographed by Mr. Sproule. The [illegible] lettering is the work of Mr. T. A. Hay, and is exceedingly creditable.

1779 "The Harp that Once Thro' Tara's Hall," 1879
"The Minstrel Boy."
"Believe Me, If All Those Endearing Young Charms,"
Will be sung at Moore's Festival by a Chorus of 60 voices.—May 24th.

CHEESE MARKET.

A meeting of those interested in the manufacture of cheese in the county of Peterborough was held in the Stewart Room, on Saturday last, with the object of establishing, if possible, a regular monthly cheese market in the town of Peterborough. The following are the officers of the meeting elected on by the Secretary pro tem, Mr. A. R. Reid:—

CATARACTA'S HOTEL, May 17th, 1879.

At a meeting of cheesemakers assembling among over or five cheese factories in this county, with a view to the establishment of a regular monthly cheese market in the town of Peterborough. The following are the officers of the meeting elected on by the Secretary pro tem, Mr. A. R. Reid:—

CHAIRMAN—THOS. LONGLEY, Ennismore.
SECRETARY—JAMES PATTEN, Cavan.

Moved by JAMES WHITE, seconded by JAMES PATTEN,—That Mr. A. R. Reid act as secretary pro tem.—Carried.

Resolved,—That the Secretary correspond with cheese men and proprietors of cheese factories in the County of Peterborough, with a view of effecting a sale by auction.—Adopted.

Moved by JAMES PATTEN, seconded by WARREN TAYLOR,—That the President and Secretary [illegible] be a committee to make provisions for the accommodation of "samples" when brought to town.

Resolved,—That this meeting adjourn to meet again on June 2nd, at one o'clock p.m., at Cavanagh's Hotel.—Adopted.

It is to be hoped all those interested will attend, as the establishment of such a market must prove beneficial to the community.

1779 "The Young May Moon" 1879.
"Oh Believe Me If All Those Endearing Young Charms,"
"The Last Rose of Summer."
Will be sung at Moore's Festival by a Chorus of 60 voices.

JULY EXAMINATIONS, 1879.

High School Entrance.

The examination for the admission of pupils to the High Schools and Collegiate Institutes will be held at the several High Schools, commencing at 9 a. m., on Tuesday the 8th day of July, and will not notify the Public School Inspector, in whose jurisdiction the particular High School is situated, not later than the fifth of May, of their intention to present themselves for examination. The examination will continue two days. On Tuesday, candidates will be examined on reading, for which purpose the maximum number of marks is 100; writing, 50; arithmetic, 100; dictation, 25; grammar, 100. On Wednesday, 9th July, geography, 75; composition, 75; fourth book and spelling, 75; history, 75. The total number of marks is 625, the minimum for pass 250. One-third in each subject is required, and one-half of the number for the passing question. The local examiners are now required to publish in one local newspaper, the names of admitted candidates list, by approval by the Inspectors, and the names of the schools at which they were prepared.

THIRD CLASS CERTIFICATES.

The examination for third-class certificates will be held at the county towns, commencing at 9 a. m., on Monday, the 14th day of July, 1879. It is indispensable that candidates, coming from the county or the city, should notify the presiding County Inspector not later than the 1st day of June of their intention to present themselves for examination. Forms of notice to be previously given by the candidates can be obtained on application to any County Inspector.

SECOND CLASS CERTIFICATES, AND INTERMEDIATE.

The examination for second-class and intermediate certificates will commence at the county towns and High Schools on Tuesday, the 8th day of July, at 2 p.m.

On Tuesday, English literature.

Wednesday, grammar, geography and dictation.

Thursday, arithmetic and history.

Friday, algebra, and natural philosophy, or Latin, or French, or German.

Saturday, Euclid, composition, chemistry, and book-keeping.

The subjects will be grouped in the following manner:

(a) Arithmetic, algebra and Euclid.
(b) Grammar, composition and dictation.
(c) History, geography and English literature.
(d) Natural philosophy, chemistry and book-keeping, or French, or German, or Latin.

Candidates who obtain 60 per cent. of the total in each group, and not less than 30 per cent. in each subject, shall be considered as having passed the examination for Grade B; for Grade A 65 and 35 per cent. respectively are required.

Candidates [illegible] to the County Inspector not later than the 1st of June.

FIRST-CLASS CERTIFICATES.

The examinations will commence at the Normal Schools, Toronto and Ottawa, at 9 a.m. on the 16th day of July, 1879.

1779 "Moore's Greeting." 1879.
Dr. E. G. Caldwell, of Hamilton, Canada's *Prima Donna*, will sing at Moore's Festival, May 24th.

MECHANICS' INSTITUTE.

Annual Meeting—Reports, &c.

The Eleventh Annual Meeting of the Peterborough Mechanics' Institute, took place on Monday evening last.

Director's Report.

The President read the following report from the Board of Directors:—

Eleventh Annual Report of the Board of Directors of the Peterborough Mechanics' Institute for the financial year ending 1st May, 1879.

The Board of Directors herewith beg leave to submit, in compliance with the By-laws, their report for the consideration of the members of the Institute:—

MEMBERSHIP.

The number of members, 161, and subscribers, 81, during the past year, is less than the preceding year, which numbered 199 members and 71 subscribers, showing a decrease of 38, which may be accounted for to some extent by the financial depression from which the town of Peterborough, equally with other places, has suffered.

READING ROOM.

The Reading Room has been regularly supplied with the usual number of daily and weekly papers and periodicals.

LIBRARY.

The Library has been increased, as will be shown by the Library Committee's report, to the extent of 371 volumes, as a net cost of \$265. As compared with last year, 320 volumes were added, at a cost of \$305, showing an increase for the past year of 135 volumes, valued at \$185. The total number of books now in the Library is 2,621 volumes, and the Librarian reports having issued during the past year 4,355 volumes. Although public taste inclines to "fiction"—a taste that must be met by a judicious selection, the greatest care has been taken to exclude anything approaching to what is known as the "yellow cover style." The works of men like Dickens, Scott, Thackeray, Lytton and others are now admitted by common [illegible] to have a tendency to do good, and your Directors hope the time is not far distant when such works may be purchased by Legislative aid, in order that the Library Committee may be able to gratify the taste of a large majority of the reading public.

EVENING CLASSES.

Your Directors at the proper season of the year, instructed the Class Committee to take steps to establish evening classes, and Messrs. Grainger and [illegible] were appointed to carry out the instructions of the Board. The Committee have done him and the Rev. Mr. Handford, in the remarkable turn out, and the appreciation of his eloquent picture of that important period of English history and the heroes of it, and expressed a hope that he would always have many auditors of Peterborough and the many warm friends he had here. D. W. Dumble only proposed. The lecture was one of the best ever delivered in the town.

Commercial Hills in Circulation.—The public should be on their guard against dangerous counterfeit bills now in circulation. Last week several of our merchants were victimized, and only because accustomed to the ring of the coin they took their money in the bank. The counterfeits were \$4 bills of the Dominion Bank and \$4 Dominion bills, but other denominations are in circulation throughout the country. The engraving of the \$4 bills is excellent, but the paper is much thin and unsatisfactory, having been substituted to make room to give it an old and genuine look. They are all payable in Toronto, and are known as the "D" issue. The Dominion Bank found they be detected by the presence of the paper and the absence of the work. Those who have counterfeit \$ten of the Bank of Commerce, in which the "o" in the word note is made like an "o," the vignette of the Queen in the centre of the work; the face also is too youthful in the present note. In addition to these genuine counterfeits are in circulation some issue of the Commercial Bank, which has not been issued. The whole issue was thus cancelled, and no genuine note of that Bank have since been issued. Any Commercial [illegible] that may be presented for payment is a forgery.

[illegible] by those in whose behalf it was proposed on motion, the reports was received.

Treasurer's Report.

The TREASURER read the abstract financial report as follows:—

RECEIPTS.

By balance Cash in hand	$27 67
" Members' Subscriptions	52 50
" Fees from Class Pupils	—

Library and Furniture	2,121 15
Subscriptions due	—
Rents	—
Cash in hand	27 67
	$2,654 82

LIABILITIES.

Balance Assets	$2,654 82

We, the Auditors, Leslie Gadsby and Thos. W. Gladman, had reported the accounts correct.

On motion, the statement was received and adopted.

The Rev. V. CLEMENTI read the report of the Library Committee as follows:—

The Library Committee beg to submit the following report:—

During the past twelve months 371 volumes have been added to the Library classified as follows:—

Fiction	40 volumes
History	32 "
Voyages and Travels	31 "
Biography	41 "
Poetry	3 "
Essays and Reviews	10 "
Science and art	23 "
Library of Reference	4 "
Miscellaneous	229 "

The gross amount expended in the purchase of these books has been $295.93, subdivided as follows:—

Fiction	$ 59 40
History	39 05
Voyages and Travels	111 15
Biography	39 [illegible]
Poetry	2 00
Essays and Reviews	27 60
Science and art	73 70
Miscellaneous	183 29

In addition to the above, Ure's valuable Dictionary of Arts and Manufactures, consisting of 3 volumes, has been presented to the Institute by the Ontario Association; and "Debates of the House of Commons," by Mr. Bertram.

There are now 2,621 volumes in the Library, and the Committee much regret that, in consequence of the very confined space at their disposal, the books cannot be arranged on the shelves in a satisfactory manner; so that the members of the Institute experience great difficulty in procuring such books as they require.

The Committee cannot abstain from alluding to the disgraceful manner in which many of the books, not even excepting such as have been recently purchased, are treated by some of those into whose hands they fall.

They are of opinion that the time has arrived when it would be desirable to have a catalogue of the books printed, for which a small sum might be charged to those members desirous of obtaining a copy.

The undersigned, Chairman of the Committee, who had been appointed a delegate to the meeting of the Mechanics' Institute Association, held in Toronto on the eleventh day of February last, had the satisfaction of attending that meeting, of which he was elected Vice-President, and which proved of much interest. He moved a resolution, which was unanimously adopted, to the following effect:—That the Government be petitioned to allow 20 per cent. of the Government grant to be applied to the purchase of standard works of [illegible] subject he remarked that this was a matter that might well be left in the hands of the Library Committees of the various Institutions, who may be supposed competent to discriminate between healthy and injurious literature.

The Committee cannot conclude their report without an expression of the sense they entertain of the valuable service rendered to the Institute, more especially with reference to the Library, by Mr. Robert Robertson. The time expended by him in acting as Honorary Librarian, and in making judicious alterations in the arrangement of the shelves, whereby additional accommodation for the books has been secured, is deserving of their cordial thanks.

All of which is respectfully submitted.

VINCENT CLEMENTI,
Chairman.

He also handed in the three catalogues, viz.; the classified, numerical and alphabetical catalogue, which were complete up to date.

On motion, the report was adopted.

Election of Officers.

The following officers were then elected for the current year:—

PRESIDENT—Mr. G. B. Shaw.
1ST VICE-PRESIDENT—Mr. W. H. Trout.
2ND VICE-PRESIDENT—Mr. W. English.
TREASURER—Mr. W. Masson.
DIRECTORS—Messrs. John R. Belcher, George Dunsford, Jas. English, Alex. McFarlane, Alex. Gillespie, Jas. Jardine, J. F. Jeffers, F. J. Lewis, A. H. Macdougall, W. Patterson, jr., R. Robertson and E. J. Toker.

Votes of thanks were then passed to the retiring officers, Librarian, &c., and the meeting adjourned.

LOCAL MELANGE.

—Large market Saturday.

—Spring suits and hats have blossomed.

—Ice cream parlours are open and soda water fountains are in full blast.

—There is nothing mysterious about mosquitoes. It is easy to show how they may obtain.

—The County Council will meet on the 3rd Tuesday in June.

—No. 5 Ward is to have two polling sub-divisions this election.

—Pure soda water from the fountain is now approachable.

—Chamberpipe is daily receiving consignments of fresh fish—trout, white fish, bass and muskinonge.

—The band gave their first rehearsal, on the new band stand, erected by His Worship, the Mayor, last Friday evening. Quite a number of people were out, but the implementation of the evening took away from the enjoyment.

BIRTHS.

BLOOMFIELD.—At 224 Simcoe street, on Sunday, 18th inst., the wife of C. J. Bloomfield, Esq., of a daughter.

MARRIED.

McBAIN—McPHERSON.—In Peterborough, on the 14th inst., by the Rev. E. B. Harper, all the ceremony of Mr. Walter Baker, John McBain, son of Mr. John McBain, grain dealer, to Margaret, daughter of Mr. John MacPherson, late of Cavan.

DIED.

POLLOCK.—On the 16th inst., at his residence, Aspinall, John Pollock, aged 69 years.

MARSHALL.—On Monday, 19th inst., Mary Ann, only daughter of Mr. John Marshall, aged 13 years and 10 months.

HOWDEN.—At his residence, township of Cavan, on the 16th inst., after a short illness of inflammation of the lungs, Mr. James Howden, aged 47 years.

TENNYSON.—At Ashburnham, on Tuesday, 20th instant, Mary Meade, wife of George E. Tennyson, Esq., aged 38 years.

The funeral will take place from the residence of Mr. Wilson Tompson, Ashburnham, on Friday at 3 o'clock.

"Haunted Heroes."

Under the above heading, the S. Cross Courier, of the 15th inst., has the following:—"Mr. Gilmour, of the Peterborough Examiner, has been in town this week, and has been collecting material for a lecture which he intends delivering in this town. The subject is to be 'Haunted Heroes,' and will be a description of the ghosts which have appeared to the heroes of history. Mr. Gilmour is a fluent speaker, and will no doubt give a very interesting lecture."

Our Manufacturing Interests.

To the Editor of the Examiner.

SIR,—When the Lynx-eyed Editor of the *Review* is on hands on the alert for evidence in favor of the N. P. throughout the Dominion, why pass over the following pithy sentence from the pigeonhole of the Bobcaygeon *Independent*?

The reference in yesterday evening's *Review* to the Toronto Manufacturing Company, with the editorial remarks there annexed, would indicate that the Editor is working up from the state of incubation into which he and his correspondents "Property Owner" and "Mechanic" suddenly subsided, when the offer of a free site for manufacturing purposes was tendered to them or any of them, whose pores and patriotism were equal to the occasion.

The accompanying excerpt from the *Independent* may, under the present state of the political atmosphere, stimulate the gentlemen to another open-mouth effort on behalf of the manufacturing interests in Peterborough.

ARGUS.

May 21st, 1879.

(*From the Bobcaygeon Independent.*)

"A proposal is on foot, which if carried into execution may have a greater influence on the prosperity of Peterborough than even the grand scheme for opening railway blacksmith's shops. The new idea is extremely ingenious. It is to have a big water wheel on Dixon's dam, and to pump air, highly compressed, and salted with an extra quantity of oxygen and ozone, into every house in town. This compressed air would give a motive power, and would drive sewing machines and work churns, and rotary cuts, and turn lathes, and chop sausage meat, and do an immense amount of work now performed by hired labour, and so save the hired labourers [illegible] the lost time and inconvenience which they now have to endure in earning wages. They would, Pumping contends, without the wages, purpose of giving a motive power for the adding oxygen and ozone the houses would be rendered more healthy and the population more vigorous. The idea is a good one, and the only cost in the iron pipes, for the power would be taken from Dixon's Dam and of course Dixon's executors would have to give the power gratuitously. Who's Dixon's executors that they should retain anything which we the sovereign people want. Of course we should take the power, nolens volens, and we should like to see Dixon's executors [illegible] article in the British Constitution that we and all sons of all legislation in the greatest happiness of the greatest number, and are Dixon's executors to stand in the way of the greatest good? We should be have the power of Dixon's, and more than that we mean to teach his Executors a lesson. They spent his money in building a dam and in erecting a water power which did much towards making Peterborough a [illegible] town, —and so now we can grab it, and take it for our own. We have might on our side, and that's all we want. So we will take the dam, and have a big furnace beside it for brewing oxygen and ozone, and then pump Peterborough into perpetual prosperity."

SHERIFF'S SALE
OF LANDS.

By virtue of a Writ of *Fieri Facias*, issued out of Her Majesty's Court of Queen's Bench, and to me directed at the suit of the ONTARIO BANK, Plaintiffs, and against the Lands and Tenements of MOLAND CLEMENT STRICKLAND, ROBERT ALEXANDER STRICKLAND, and JOHN RODGERS, Defendants, I have seized and shall offer for sale by PUBLIC AUCTION at my Office, at the Court House, in the Town of Peterborough, on

Tuesday, the 20th day of July,

1879, at 12 o'clock noon, all the right title, and interest of the above defendant, John Rodgers, in and to the following lands and tenements viz:—

In the Town of Peterborough.

Those parts of Lot Number One, south of London Street, and East of Water Street, otherwise known as Lot Number [illegible] Town Plot, and east of George Street, described as follows: 1st.—Commencing [illegible] of London Street, and Water Street, thence [illegible] Water Street thirty-three feet, then west parallel with London Street to the place of beginning. 2nd.—Commencing on Water Street at a point southerly thirty-three feet from the north-west angle of said lot, then east on a line parallel with London Street sixty-three feet, then south parallel with Water Street thirty-three feet, then west parallel with London Street to Water Street, then north along Water Street to the place of beginning. 3rd.—Commencing at the north-west angle of said lot, then west along London Street sixty-three feet, then south parallel with Water Street sixty-three feet, then east parallel to London Street to the eastern limit of said lot, then north to the place of beginning.

Also, that part of Lot Number Eight west of George Street and north of Hunter Street, described as follows:—Commencing on Aylmer Street at the south angle of said lot, then south along Aylmer Street fifty four feet, then west to the western limit of said lot, then north [illegible] limit of the said lot, then east to the place of beginning.

In the Township of Ennismore.

Lot Number Nine, in the Ninth Concession, containing fifty-three acres, more or less.

In the Township of Burleigh.

Southern Division.—The west halves of Lots Numbers Six and Seven, in the Fifth Concession.

In the Township of Smith.

Lots Numbers Thirty-two and Thirty-three, in the Seventeenth Concession, and Lot Number Thirty-three, in the Fifteenth Concession.

JAS. A. HALL,
Sheriff's Office, Sheriff.
Peterborough, 22nd April, 1879.

TO THE ELECTORS
OF THE
East Riding
OF THE
COUNTY OF PETERBOROUGH.

GENTLEMEN:—

At the earnest solicitation of a large number of my fellow-electors, and at the unanimous request of the largest Reform Convention ever held in the Riding, I have consented to become a candidate for your suffrages at the approaching election of a representative to the Provincial Legislature. In doing so I have not consulted my own pleasure, but rather the wish of a very influential and intelligent portion of my fellow-citizens, whose only aim in the conference of who Legislation in the interests of the whole people.

It is unnecessary for me to state my political opinions, as they are well known to almost every elector in the Riding. I may, however, state, that if elected I shall give a reasonable support to the Mowat Government. I believe it to be a wise and economical one, and [illegible] and I shall hold myself free to support all measures, from whatever quarter they may originate.

I am opposed to all grants aid to such railway schemes as may appear to me most in the interest of the whole County, without regard to any particular locality. In short, in every case where I can [illegible] to the best interests of the people of the Riding, I will be found ready to support [illegible] above all [illegible] to [illegible].

I am opposed to the action of the Mowat Government in refusing the expenses of the Commissioners, and I assure the electors that I will do my utmost to [illegible] in all the departments of the Government, with a view to economy and [illegible] in the public service. In this I am sure I shall have the hearty co-operation of every honest man in the Riding.

If elected I shall endeavour to discharge my duties to the best of my ability, and I trust that my past record as a reformer from my youth, it is needless to say that, therefore, my sympathies are largely with the agricultural interests, and I assure every elector in the Riding, I may, however, state, that if elected I shall give a reasonable support to the Mowat Government. I believe it to be a wise and economical one, and I shall hold myself free to support all measures, from whatever quarter they may originate.

Brought up to honest toil from my youth, I cannot but feel a sympathy with all those who have to labor for a living. The interests of the agricultural community, as [illegible] Canada, are to closely allied to their children and others that [illegible] injurious to one of them, not to be to the others. Knowing this, and having a [illegible] myself from my youth to the present day, I trust I may justly claim your confidence with them in all that I believe would be [illegible] to the best of my ability, but my connection with the business of this County and Town is such a [illegible] guarantee that I would in no legislation detrimental to any class. Indeed, I believe that no legislation is wise, or should [illegible] to encourage the discontentment in favour of class legislation. By mutually [illegible] are these branches of industry so closely allied, that injury to one, or favour, is always injurious to the others,—which should be avoided.

I may also state that, not being connected with any secret association, I can not have any other motive or prejudice against any other candidate or party, than a desire for the best interests of the country, and I assure all [illegible] that if I am returned to represent the Riding, I will feel it a solemn duty to use all my influence to secure equal advantages and privileges to all.

Canada should be free from all religious and national prejudices, and, if you do me the honor to stand me, I shall do my utmost to make her free from the curses and evils of religious intolerance, and [illegible] of religious [illegible].

My mode of life [illegible] my party closely to entirely [illegible] in all departments of government will leave my earnest attention, so as to prevent waste of our revenues [illegible]. I am, however, in favor of spending of our incomes for the good of the present generation. It appears to my [illegible] for us who have borne the burdens and heat of the day in clearing, tilling and improving the soil, building [illegible] to [illegible] and [illegible] [illegible] [illegible]

Have Hope.

The shadow of the mountain falls athwart the lovely plain,
And the [illegible]
And the highest hearts and lowest wear the shadow of some pain,
And the mists in ceaseless flood on the appointed hour is shed.

[illegible] without a shadow,
[illegible] bowed a night;
For without the dreary winter there had never been a year,
And the tempests hide their sorrow in the calmest summer sky.

So this dreary life is passing—and we move amid its [illegible]
And we [illegible] together, half in darkness, half in light;
[illegible] shadowed by the [illegible]
Which you never all in shadow and never [illegible]
And our sins ope ask a lesson and our weary [illegible]
And our sorrow of all life's mysteries seek the meaning of the key;
And a cross appears or at our path way, as it hangs [illegible]
[illegible]
—Father Ryan.

The Very Latest Dodge.

The farmers of this vicinity are cautioned against being victimized by the following latest dodge of rascality. We are told that an eastern county a chicken buyer raised considerable money by a very ingenious fraud. He would go to prosperous farmers, buy [illegible] and [illegible] for the money paid in payroll. When the receipt was just ready for signature, he would break the point of his pencil, and, to have this [illegible], would produce a fountain pen for the [illegible]. Absolutely his politely denied would obtain his pencil receipts and write in ink notes from $100 to $200 above the farmer's signatures.

How Much of the Corn Buzz.

It is very hard to form an opinion of how many [illegible] are now using as seed for a forage crop. On [illegible] average, perhaps, each of our 400,000 farmers has an acre of corn to cut green; in [illegible] [illegible] with [illegible] bushels of [illegible] which in some [illegible] [illegible] and it is [illegible] for every [illegible] [illegible] grow it costs per bushel on 1,200,000 bushels for duty. Or, if the superhumanly cunning tariff of our "friend and the former Government be strictly [illegible] the said corn [illegible] for seed, will be liable to 15 per cent. duty; that is, over 36 cents per bushel. If the spirit of the tariff be carried out, then our farmers will be [illegible] per annum in tax on their seed corn; yet if the tariff be evaded and the corn brought in as if for consumption, they will be robbed of $60,000. Is it not a beautiful thing, now, to be "protected," and to have over you a Government whose members delcare that farmers do not pay enough of taxes, and ought to be made to pay some?

Talmage's Trial.

The long and dreary trial of the Rev. T. De Witt Talmage, of Brooklyn, has at last been brought to a close. The result was almost than was anticipated, there being twenty-five votes for his acquittal, against twenty for conviction. It must be a satisfaction to him that he has been dismissed from the charges that were so deliberately, thoughtlessly and unjustifiably pressed against him, and he may, perhaps, be yet brought to believe that the trial through which he has passed has not been an unalloyed evil. The [illegible] of a man who is destined to come through the fire of tribulation purified and made all the more fit for higher things, and Dr. Talmage will now have the opportunity of proving to the world, more fully than ever, that the devoted confidence of his friends and their unwavering [illegible] for the [illegible] of his ministry will only be a fitting tribute of the good that was in him.

Vanderbilt to Sleep.

W. H. Vanderbilt has turned $65 more tributary to his railway domain, and he is now without doubt the Railway King of America. Last week he went west to Chicago, accompanied by his sons and a few friends, and these it was stated he went over the line of the Chicago & Northwestern to Omaha. It now transpires that he has purchased enough stock in the said line to give him the controlling interest in it, and henceforth this gigantic line of two thousand miles (excluding the branch roads) is destined to pay the tribute of its traffic to the Michigan Central, the Canada Southern, the New York Central, Mr. Vanderbilt's [illegible] Central to reap the fingers at Jay Gould and the Wabash road, for he will take good care that the power he has gained will not slip out of his hands. He is not of the class of stock-jobbers who traffic a railway shares for gain; his great ambition appears to be to build up a railway system complete in itself, and each part of which is a complement of the whole. This last great acquisition makes it more than ever important that every natural obstacle to rapid transit over his lines be removed, and consequently we may look for the pushing forward of the Detroit River Tunnel work with all the vigor that energy and capital can lend to such an undertaking.

He Got a Check.

He wasn't a man who could be classed with tramps, but yet he was shabby, untidy and dead broke. 'You see, my dear man,' he explained to a Griswold-street lawyer, 'I come of an excellent family, have worn diamonds and broadcloth, and am in my present fix simply because my father wouldn't let me wed the girl I love and I ran away. I have concluded to return to him and ask his forgiveness and marry the heiress he has picked out for me. I need only five dollars. As soon as I return to Troy I will forward you a cluster diamond pin as a present. That's the style of a chicken pin I am.'

The lawyer sat right down and wrote him a check for five dollars, and he wouldn't even let the repentant young man return thanks for it. He could do a fellowman a good turn, he was only too glad to do so. What was life worth living for but for its chance to make others happy?

'Just so—Heaven bless you—look out for the diamond pin,' said the young man as he left the office for the bank.

One minute before he presented the check he was all smiles. One minute after the cashier had the paper a voice was heard saying:

'Tom Collins! Who in blazes is Tom Collins? He has no money here! You'd better jump out of this or I'll have you in the cooler in about three minutes!'

The young man jumped. As he went out he saw the lawyer across the street, but he never smiled. He placed the check on the walk, spit on it and descended into the barber-shop and asked if they knew of any citizen who wanted a competent man to take care of a dog and do the marketing for the kitchen.

The Farmer's Creed.

That the soil loves to eat as well as the owner and ought therefore, to be well manured.

In going to the bottom of things, and therefore, in deep ploughing and enough of it. All the better if it be a sub-soil plough.

In large crops, which leave land better than they found it, making both the farm and the owner rich at once.

That every farm should own a good farmer.

That the fertiliser of any soil is a spirit of industry, enterprise and intelligence—without these, gypsum, lime and guano will be of little use.

In good fences, good farm houses, good orchards and shelving enough to gather the fruit.

In [illegible] [illegible] with fuel, a clean cupboard, a clean dairy, and clear cooking.

That to ask a man's advice is not stooping, but a mere matter.

That to keep a place and everything in its place [illegible] pretty sure to find [illegible] and to keep them in order.

That kindness to stock, like good shelters, is a series of fodder.

That it is a good thing to keep an eye on appearances, and pass all—good and bad.

That it is a good thing to grow into farming, and not jump into it.

That all of farming is summed up in the measure heap on the farm.

Terrible Tragedy.

Shocking Story of Delegates Ramsday.

[illegible], Mass., May 6, Cor. Boston Journal.]

Charles F. Freeman, early yesterday morning, deliberately killed his little daughter in obedience to what he says was a command from heaven. His own possession of the deed is probably further, and is evidently more horrible than any version given by his friends. He had for some time been greatly excited and superstitious on religious subjects, and for ten days past imagined that the Lord demanded the sacrifice of life of one of his family, and Wednesday evening his two little [illegible], Mildred, the eldest aged eight, and Edith, the pet daughter, five years old, were put to bed as usual. The father says the Saviour [illegible] to him [illegible] when they kissed him good night that evening. He retired soon after and slept till 2 o'clock, when he suddenly awoke and was [illegible] impressed with the idea that he must slay the little daughter. His wife [illegible] and they talked the matter over for about half an hour. She at first objected but with [illegible], insisted by the bed and prayed. Not receiving the divine help they expected, both being convinced that it was their duty to offer up their child a willing sacrifice to heaven, although longing and half expecting that God would stay his hand at the final moment, as he did that of Abraham over three of old, this strange father prayed that if compelled to pursue the deed to the bitter end the work might be done suddenly and not slowly. Then coming to a decision, the man says a great load was lifted from his mind. He grasp joyfully from his knees and donned [illegible] singing [illegible] the while. He left the house, and going to a small outbuilding a few yards distant, he secured a large sheath knife and with it returned to his chamber. He was accompanied by his wife who carried a light. He went to the room where the child was were sleeping. The lamp was placed on a chair. He bent to the side of the bed where Edith, the youngest child, was sleeping, drew down the coverlets and deliberately plunged the blade into her left side just below the heart. The little one awoke and piercingly raised its cries, saying simply, "oh, papa." The father took his dying child in his arms and held it to his bosom until it expired. The mother meantime carried from the room the older daughter, who had awakened. The little one made no outcry, but quietly nestled in the arms of its executioner as though falling asleep.

The man got into bed with the body of his dead child in his arms and lay until daybreak. On his rising in the morning he went about his work in joyful spirits and carried the mail from the post office to the depot as was his custom.

He told a friend to send word to all the Adventists in the village to attend a meeting at his house in the afternoon, when he would make known his revelation. The company to the number of twenty-five or thirty, assembled, and after [illegible] exercises he related the above facts and invited them to help the next room and view the remains.

The people did so, and this is the strangest part of the whole horrid tale. Shortly afterward they dispersed to their houses. It is almost impossible to conceive of an assembly of people in such a state of mind as to admit of an attempt to conceal such an atrocious deed. They notified no one, but went about their usual vocations. Several of these persons whom your reporter interviewed this evening defended Freeman in his action, saying that he did right in obeying God's command.

The matter did not come to the knowledge of the officers until last evening. Constable Redding learned the facts from a young lady named Minnie Davis, who was present at the meeting at Freeman's house, and after much persuasion told the story. Redding was led to suspect something was wrong by the constrained and frightened manner of the girl.

The officer found Freeman in his house this forenoon, and he made no objection to being put under arrest. He claimed to have done perfectly right, saying that his child would simply rise again in three days. She will then be five, go about with him assisting him to preach the gospel. He was placed under surveillance until the arrival of the county officers from Barnstable, while his wife seconded him in all his statements.

Canada and the Empire.

(From the New York Times.)

Canada's great enterprise for connecting Ontario with the Pacific, and so completing a transcontinental railroad system within British territory, has assumed a new phase. The Dominion Government, after devising a tariff that operates more injuriously upon British than upon American industry and trade, actually confesses that unless the British taxpayers come to its relief the construction of the Pacific Railway must be postponed indefinitely. Of course, the confession is not quite so explicit as our manner of stating it. But the resolutions laid before the Ottawa Parliament by the Minister of Public Works, are not susceptible of any other construction. They affirm the necessity of "keeping good faith with British Columbia" by building the road which was offered as a temptation to that remote Province to join the Confederation; they concede that after spending the greater part of the sum originally named as the cash payment of the Dominion on account of the whole work, a mere fraction of it has been built, while as regards the rest over the route has not been selected; they show that further explorations in various directions are required; and they emphasize the importance of efforts "to secure the co-operation of the Imperial Government" and to "obtain further aid by guarantee or otherwise."

Co-operation of the kind desired means an indorsement equivalent to cash, without limitation as to amount. Canadian Ministers no longer attempt to estimate a sum which is obviously contingent on explorations yet to be undertaken, and on the bribe to be tendered to British Columbia. As, however, the resolutions embody a proposition to set aside a hundred millions of acres of the public domain, with the proviso that two dollars shall be their minimum price, a reasonable inference is that the aid to be solicited from the British Government will in the first instance not fall far short of eighty millions. This gross measure that the cost will not be less than a hundred millions, including the twenty millions, or thereabout, of borrowed money which Canada has already sunk in the project. Having resolved its borrowing limit, and having by the imposition of new taxes to cover a deficit proclaimed the financial difficulties of its position, the Dominion is compelled to choose between a blind jump into bankruptcy and a humble appeal to the magnanimity of the British people, whom but yesterday, by the enactment of a hostile tariff, it defied. Then, it insisted on its right to tax British industry at pleasure. Now, it pleads for British help to save it from embarrassment and its wild project from destruction. Such is the poetical justice which has overtaken it under the administration of a Government whose chief members were driven from office by the exposure of jobbery in connection with this very work.

It might have been supposed that a remembrance of the scandal occasioned by the Allan contract would have kept the Government of the Dominion in [illegible] the recurrence of transactions which by any possibility might be open to suspicion. Nothing appears to the [illegible]. The first [illegible] submitted to Parliament empowers the Government to construct railways for two sections of the route, at the public cost, and to advance [illegible] contractors for the construction of the two sections of road, in one instance amounting to 125 miles, and in the other to the expenditure of a million—all without the further sanction of Parliament. The 125 miles represent the bribe to British Columbia, which gave the Premier a seat in the House of Commons after his rejection by his own constituency, and the motives to corruption are therefore doubly strong. Unless John Bull apply Cholmondeley to Sussex and indorse to the extent of seventy or eighty millions to extricate from difficulty the Canadian politicians who have cruelly used him, the power to execute great jobs, whether Parliament abdicate its constitutional function or not, may not be forthcoming. Mordecai may plant and Tupper may water, but John Bull alone can supply the money. In his present mood he will probably say No. With Canada's new tariff in full view, he must be in the contemplation before he can say ought else.

The blazing with which the contractors profess the call for aid is too glaring to effect its purpose. Nevertheless, the imperial policy is largely influenced by sentiment. Whether in Eastern Europe, in Asia, or in Africa, sentiment has asserted its superiority to cause in the construction of the Transcontinental programme. But even the Queen's confederacy will have difficulty in persuading her advisers that the Canadian Pacific Railway should be built at the cost of British tax-payers for philanthropic reasons. England has quite enough business on its shoulders without adding those which the hypocritical professions of the Canadian Government now present for its acceptance. The natural answer of the British manufacturers and workmen will be: "You have resolved to try to exclude our products from Canada's markets, and now you impudently ask us to supply money and population for the road which you propose to construct through a wilderness as evidence of Canada's greatness. Your statement the employment of labor; and yet you want us to give or loan you millions on the pretence that our workmen should be kept from starvation. We prefer the keeping of our money for other purposes, and when our workmen make up their minds to emigrate, they don't want to go as paupers for the glory of the flag which Canada insults or applauds according to the condition of its pocket."

Since Canada must either obtain encumbered millions from England or defer indefinitely the construction of the Pacific Railway, a bold stand-and-deliver policy would be better than the shivering prolixness which the resolutions offer as reasons for granting the old decision. Practically, the one method might not be more offensive than the other, but at least it would not be contemptible. Left to themselves, the four Provinces which originally formed the Dominion might have gone on tolerably well. Their interests were not in all things identical, but they had certain ideas and interests in common, and these would have prevented serious trouble. Gradually imperial plans made themselves felt, and the Dominion became afflicted with an ambition to whose demands its resources are unequal. The intercolonial Railway is one of the costly results of imperial interference; the admission of British Columbia is another. But for the same baneful influence, the Pacific Railroad project would not have been dreamed of. It is at once a result of imperial influence and effort to consolidate imperial power on this continent. As such in certain circumstances, it might become the basis of a claim for imperial succor. But the imperial authorities were wiser than the Dominion. They encouraged its yearnings after greatness, but prudently set forth in advance the extent of their own liabilities. The Dominion yielded to the temptation, and honestly assumed a load which it cannot carry. Wise rulers would have borne its difficulties in mind when shaping legislation affecting imperial interests. They would have made friends of the British manufacturer and workman in expectation of reverses. They took a different course, and having as far as possible legislated British goods out of the Dominion market, they ought not to wonder if the response to their piteous appeal be unfavorable.

Very Sensible.

Horse dealers who are supposed to know what affects their interest, purchase "Darley's Condition Powders and Arabian Horse Remedy" by the dozen, and feed it to their horses for the purpose of improving their condition, which is always done—others should profit by their example.—Remember the name, and see that the signature of Hord & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Health is Strength.

To prevent or conquer disease is one of the grandest attainments ever aimed at by man, and "Bryan's Pulmonic Wafers" will as sure cure coughs, colds, tickling in the throat and pulmonary complaints, as wax and pestilence will destroy. Severe colds, if not attended to, sooner or later lead to incurable consumption, and the strength of the strongest soon fails if neglected. The readiest and the best means known for the cure of these complaints is "Bryan's Pulmonic Wafers," which have been thoroughly tried for the last twenty years, and have never been known to fail. Singers and public speakers will also derive great benefit from the use of them. Sold by all medicine dealers at 25 cents per box.

ELECTRICITY.

Thomas Eclectric Electric Oil—Worth Ten Times its Weight in Gold—Pain Cannot stay where it is used.

It is the cheapest medicine ever made. Un does cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent worth has cured crick in the back, and the same quantity lame back of eight years standing. It cures swelled neck, tumors, rheumatism, neuralgia, contractions, of the muscle stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise; it always does you good. Twenty-two second worth has cured bad cases of chronic and bloody dysentery. One tea-spoonful cures colic in 15 minutes. It will cure any case of piles that it is possible to cure. Six or eight applications is warranted to cure any case of accumulated nipples or inflamed breast. For uralgia, if applied, often and bound up, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils warts, and corns, and wounds of every description on man or beast.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and take no other. Sold by all medicine dealers. Price, 25 cts, NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

NOTE—*Eclectric*—Selected and Electrised

The Great Sheebeenes Remedy

The Great Sheebeenes Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicine plants and barks; the various properties a Thomas' Eclectric Ingredients, when combined as so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys Digestive, Organs, Nervous System, &c. restoring their functions to healthy action, and being purely vegetable, is as harmless a nature's own beverage. This medicine is a decided benefit to all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Humor, Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, consequently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a summer remedy it stands unrivalled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to Bilious Colic, Dysentery, Indigestion, &c., should take the Sheebeenes Great Pulse of the Remedy in pint bottles $1; Pint, 50 cts. a bot. Sold by all med., also dealers.

PETERBOROUGH, MAY 29, 1879.

ONTARIO FOR THE ONTARIANS

We are glad to see that our contemporary, the *Review*, concurs in our view that the Dominion tariff has nothing whatever to do with the discussion of Provincial affairs on which the Provincial elections must properly be decided. But in holding this position and upholding it so strongly the *Review* condemns the leaders of its party, who are doing all they can, in all places where they think it will pay, to call in the tariff discussion and decision last September, to their aid at the polls next Thursday. Particularly is this the case in Toronto and other city constituencies, in which it is fancied an appeal can be made to certain electors to stand by the Tory party in Ontario, not because of Provincial affairs, but to support the Tories at Ottawa in their tariff schemes. The *Review* states plainly that Mr. Morris, Mr. Meredith and other leaders of its party are appealing to the electors on false grounds. This being the case, it is the plain duty of the electors throughout the whole country to reject them and their supporters at the polls. Men who are forced to drag Dominion issues into a purely Provincial contest, must feel that there are no Provincial issues on which they can object to the record of their opponents and appeal with any hope of acceptance to the country. And this is the great secret of the introduction of the idea of tariff support into a contest, that has no more to do with the tariff than with the Egyptian finances. This is particularly exemplified in the case of Mr. Morris, who prates to the electors of East Toronto on the desirability, of a government at Toronto in concord with that at Ottawa, so that the new tariff may be upheld. The Tory candidate in East Toronto knows so little of Provincial affairs that he is fain to borrow the material for his campaign speeches from the tariff discussions of last fall. He does wrong and the *Review* admits it. Yet the *Review's* pet candidate, Mr. Scott, went to Toronto the other day to assist this same Mr. Morris in his appeal for election. Mr. Scott then also deserves popular condemnation at the polls, if for no other reason than his secondary connection with the false appeal. Let the electors of West Peterborough remember this when they go to deposit their ballots next week. Let them also recollect that in East Toronto, Mr. Morris' constituency the chief among the advocates and supporters of the N. P., last September, are opposing Mr. Morris, in spite of his frantic allusions to that non-Provincial subject. They base their opposition not only on the good government which Mr. Morris would overthrow; but also on the idea that they can probably better guard the fiscal policy they favor by having a government at Toronto that is not in subjection to that at Ottawa, as one composed of such men as Messrs. Scott, and Meredith would be sure to be. Even the greatest of Protectionists deny that the present Dominion tariff must not be changed; indeed many of them demand that changes shall be made. The manufacturers in particular know that they now have the Macdonald-Tilley Ministry largely at their mercy, and they have no desire to add to the strength and independence of their victim by giving it an ally at Toronto that will not be in their power.

While glad to find the *Review* agreeing with us in the view that the tariff is no subject for Provincial election appeals, we are led to wonder if it would have so deprecated the tariff-supporting idea at this time, if it had thought the local candidates it supports, would not have been utterly killed by its introduction in Peterborough. Mr. Scott, however, has put his foot fairly into the mess, by his late visit to Toronto in aid of Mr. Morris, the chief offender, while it is well known that both he and Mr. Calcutt would if they were elected become unswerving allies of the policy advocated by their leaders, of consort with the Ottawa government. It will not do to falter with this danger, therefore the electors should vote to keep Mr. Scott and Mr. Calcutt from any such alliance, and thus preserve Ontario for the Ontarians.

THE REAL CASE AT ISSUE.

The utter want of a policy on which to appeal to the country forces the Opposition to deal in the present campaign with matters which have been decided on their merits by the people years ago, and which have nothing whatever to do with the present aspect of Provincial affairs. Even in their cry regarding increased expenditure they have to go back in nearly every instance to increases made before the last general election, and which were not only satisfactory to the Legislature, Reform and Conservative members alike, but were also justified by the verdict of the people at the poll. The orators and writers of the Opposition are eager to go back to the time of Mr. Sandfield Macdonald for a record. They must be very hard up indeed when they are compelled to take the record of a Reformer; simply because they have none of their own at all worthy of presentation to the electors. But even if Mr. Sandfield Macdonald had not been a Reformer, the present Opposition in the House have no right to claim his acts. There were only two followers of Mr. Sandfield in the late House, Messrs Leader and Boulter, and there are pretty good evidences that neither of them will be returned on the 5th prox. All the others were new members since Mr. Sandfield Macdonald's time, and had no connection with him or his record. And we are pretty safe in saying that not a single follower of Mr. Sandfield Macdonald will be an opponent of Mr. Mowat in the House to be elected next Thursday. What earthly reason have they then for claiming any credit due the Sandfield Macdonald administration, unless it be, as we have said that they have no policy of their own to promulgate? They do not propose, even in expectation of being called on to administer the affairs of the Province, to form a ministry with any resemblance to that of Mr. Sandfield Macdonald. When we look at the measures they have, their claims to Ministerial positions become utterly ridiculous. If they be elected, which is doubtful, to say the least of it, there would only be Mr. Scott, the best man among them—Messrs. Meredith, Morris, and almost anyone else; for the rest can hardly be divided into degrees of incapability. But there is no fear that the people of Ontario will decide against the present capable and diligent Ministers, and for a set of comparative nonentities. The relative capacity for administration of the two sets of men is so well known to the electors, that there can be no possible room for doubting that the Mowat government will be reinstated.

Another significant feature of the campaign, in proof of the want of policy of the Opposition, is that the leaders have not been able to issue an address to the electors of the constituencies to which they appeal for election. Mr. Scott has sent forth no address, neither has Mr. Meredith nor Mr. Morris, others who claim to hold leading positions among the Opposition members are guilty of the same omission. Are they afraid to place their views on Provincial questions in black and white, or are their views of such paucity that they are unable to produce a respectable platform? We can see no other reason why they have not taken their prospective constituents and the country into their confidence. The reasonable return the people must make, is to show at the polls that they have no confidence in such men. The record of Mr. Mowat and his colleagues in the government is in the hands and in the minds of the people, their performances in the past give an earnest of wise and comprehensive legislation in the future. The Opposition, on the contrary, have no record to which they can point with anything but shame and confusion of face, and they have actually no shred of a policy to propose—no proposition as to what they would other than the Mowat administration is expected to do, even if they were placed at the head of affairs in the Province. Can there be any hesitation among intelligent electors under such circumstances, as to which party they must support at the polls? Surely not!

OPPOSITION ACCOUNT COOKING.

It is an old saying that 'figures can't lie.' But the same cannot be said of those who manipulate them for purposes of misrepresentation, as do the Ontario Tories with the figures of the Provincial expenditure. This is seen in the utterances of the whole party from the leader, Mr. Meredith, down to the humblest of his devoted followers. In dealing, therefore, with Mr. Meredith's political arithmetic we deal with the whole tribe of Tory 'financiers.' In the speech of the Tory leader, distributed about the country in a campaign document, from which the lesser lights may borrow ideas, he compares the expenditure in 1868, 1871 and '78 He stated these at $1,058,541, $1,173,897, and $2,100,926. To arrive at the first of these sums Mr. Meredith deducted from the total expenditure in 1868, $1,-182,388 the item of $125,846, for public buildings. From the total expenditure in 1871, $1,816,866, he took; $63,894, payments to municipalities on account of sales of Crown Lands; $94,268, land improvement fund, $30,000, relief to Saugeen and Ottawa sufferers. $19,505, general elections, and $430,620 for public works and buildings. By this arrangement he arrives at $117,086 as the increase of 12 per cent between 1868 and 1871. From the total expenditure in 1878, $2,408,580, 618, the item for public works and buildings, and thus gets $936,327, as the difference between 1871 and 1878, or his 80 per cent increase. This is all very pretty and calculated to impress the elector who has not time to examine the details of expenditure, and who is credulous enough to trust Mr. Morris' party arithmetic. To help the busy voter, and to elicit the truth, we will show the fraud Mr. Morris has attempted to perpetrate. As we have seen he deducts from the Supply of 1868 only the item for public works; but from the Supply of 1871 a number of other exception al items. A perfectly unsuspicious man would suppose that there were no more such items in 1868. But unfortunately for Mr. Morris' honesty there were. The public accounts of that year show that $8,000 was given to the distressed fishermen of Nova Scotia, and $11,000 for facilitating transportation on Lake Superior, certainly as worthy of treatment as exceptional payments as those chosen by Mr. Morris in 1871. But Mr. Morris conveniently missed these because their recognition would have made the difference between 1868 and 1871, greater by $16,000; and his desire was to present as small an increase as he possibly could without too ready detection. Such conduct is unworthy the leader of a party. A man who would stoop to it is not fit to be entrusted with a Ministerial position. Neither are they who follow him to his plan of deceit.

In Mr. Morris' manipulation of the figures of 1878 he is equally dishonest. His desire now is to show as great an increase as he possibly can figure out over 1871. We have seen, that from the Supply of this year, he took the amount paid to municipalities on account of Crown Lands and the land improvement fund. These he leaves in his so-called 'actual expenditure' for 1878. He cheats both ways from 1871 back to 1868, and from 1871 down to 1878. This is the way he and his colleagues—aspiring to be ministers!—attempt to instruct the public. They are not only a party of false pretenses in their cry of economy; they are plainly a party of fraud, in descending to gross falsification of figures.

The following statement will give the reader a fair idea of the respective expenditure in the years 1868 and 1878 as compared with 1871, with proper deductions of the exceptional expenditure in each year:—

Expenditure of 1878, less public Works and Buildings			$2,160,226
Dismt Land Improvement Fund	$	10,741	
Municipalities Fund		57,253	
Refunds on Crown Lands		6,287	
Normal School, Ottawa		11,263	
Training of Teachers		10,374	
Asylum Repairers		6,300	
Maintenance of Asylums and Institutions not in ordinance in 1871		230,674	
Insurance of Public Buildings		10,172	
Collecting of Statistics		11,288	
Expenses of Elections		1,767	
Arbitration between Ontario and Quebec		4,662	
Parie Exhibition		2,000	
Secretary Dominion Exhibition		4,210	
Revision of Voters' Lists		2,770	
Exceptional Items		$360,000	
Given to Colonization Roads in 1878 in excess of 1871		30,223	
Given to Agricultural and Arts Societies		20,754	
Given to Hospitals and Charities		20,413	
Given to Education in excess of 1871		204,730	
Given to County Treasurers in aid Justice		69,919-9	704,035
Expenditure in 1878 as compared with 1871			$2,455,260
Expenditure in 1871			1,172,889
Increase between 71 and 78			232,391
Annual Average Increase			9 33,198
Annual Average Increase in Sandfield's time			9 33,291

Mr. Scott and Orange Incorporation.

It is sometimes difficult to find the right side of a circle, and often more difficult if not impossible to find the right (up right) side of a many sided man. Mr. Scott has lately been in Ennismore addressing the electors of that Township, and from his utterances we would be ready to conclude that to keep him right side up would be a moral impossibility. In Parliament, all know that nose were louder than he in the advocacy of Orange Incorporation. In Ennismore, on Friday evening he gave his reason for so acting and voting. Brought face to face with his Roman Catholic supporters he had to give an account of his stewardship, and among other things, condemned by them was his support of Orange Incorporation. Mr. Scott admitted his course, and gave a reason for his conduct. He said that "he voted for the Orange Incorporation "Bill because opposing them would increase their influence and numbers, but "Incorporation would leave them without a grievance, and in less than five "years they would melt away or disappear like the snow under the summer "sun." According to Mr. Scott's own showing in Ennismore, he voted to incorporate the Association in order to destroy it. We always believed that the Orange Incorporation cry was a sham, a political dodge to keep the less tractable portion of that association together to support Tory candidates. Mr. Scott now gives his reasons for supporting it, and we must believe that he is in sympathy with his party. The inference therefore is, that the Grand Masters and Great Grand Masters only designed the destruction of the Orange Institution by which they gained their little popularity, and that Mr. Scott was assisting in working out this common object. In Toronto and the Monaghan's Mr. Scott rides an Orange charger as purely grey as did William the Third at the Battle of the Boyne. In Ennismore he would wrap himself up in the "sun burst" of Erin. Can Orangemen wink at this duplicity? Can Roman Catholics believe him? Can he be a friend of the one while he is cajoling the other? and is it not time that such subterfuges to conceal his many sidedness should be made known, so that he may be left to study less dubious ways at home, away from the association of men who are fast weakening his fine sense of honor and straightforwardness.

CROWN LANDS EXPENDITURE.

The expenditure in the Crown Lands Department in 1871 was $45,906, in 1878 it reached $70,509, an increase of $24,-602. This is exclusive of refunds and colonization roads, this increase of $6,373.69 was for agents' salaries, commissioners and wood-rangers. Owing to the imperfect returns sent in, it was found necessary to enlarge the system of inspection inaugurated by Mr. Sandfield Macdonald's Government, and increase the number of Wood Rangers. The result in the public interest has been most satisfactory. An increase of $21,025.81 was made for surveys, owing to a larger number of townships surveyed. The Board of Surveyors cost $822,80. This makes in all $37,522.80 deducting $2,920,-10 for inspectors valuing lands in 1871, there being none in 1878 leaves the amount already stated as the net increase.

The following are some items recapitulated to facilitate reference:

	1871	1877	Increase per cent.
Free Grant Townships	55	69	27
Persons located	1,113	1,904	71
Acres located and sold	126,559	302,195	71
Colonization Roads miles made	40	153	285
Colonization Roads miles repaired	122	194	59
Register's letters sent out	17,282	26,614	6

These figures speak for themselves. It must be remembered too, that in this department every act done, or transaction rendered, or letter registered, means attention to matters of detail, questions which often assume a judicial character, points involving a careful search, operations, as in the case of Colonization Roads, calling for a whole series of transactions before they can be even put in hand, still less completed.

The Manitoba mania has spread with surprising rapidity. Thousands of the people of Ontario have become infected by it and are moving to the Canadian Far-West. A few of the fugitives are, no doubt, impelled by a simple desire to 'see the country,' and, perhaps, return; but the vast majority are bound for the Prairie Province, as to a land of promise, for the purpose of improving their fortunes. Doubtless the hard times now prevalent in the older provinces are giving an extra impetus to the westward exodus, though we fear that in many cases the sanguine hopes with which these people are fired at starting, will, in many cases, be dampened by disappointment. Meantime the depletion goes briskly on every day, the passenger trains upon our Trunk lines being of tremendous length, and crowded to their utmost capacity. Should this tide of emigration flow on without ebbing it will have a marked effect in the diminution of the population of the older provinces.

WEST PETERBOROUGH.

Mr. W. H. Scott, one of the candidates now before the electors, or as our genial contemporary in Bobcaygeon facetiously styles him, the Honorable W. H. Scott, longingly looks forward to be able to add the handle to his name. Before he can do so, we propose now to examine some incidents in his career and see what claim he and his friends of the opposition have to take the places of better and abler men in governing this Province. Mr. Scott's political life, although not very long, has been somewhat chequered. This is the fifth time he is appealing to the electors of West Peterborough, in as many years. Twice he has been beaten by large majorities, and twice he has been elected by the narrowest possible majorities. His first appearance was in 1874, as the defender and apologist of Sir John Macdonald's sale of the Pacific Railway Charter. He was defeated, and indeed he had no right at that time to be a candidate at all. Not being measureful for the Commons, his ambition took a lower flight, he next rune for the Local House. But without going into the circumstances of his three next elections, we think it right at the present crisis to look into his public record during the last term of Parliament as shown by the journals of the house, and doing so, we cannot compliment Mr. Scott on his attention to the duties he undertook when elected. Even the most cursory examination reveals his frequent absence when votes were taken in the House. It is notorious, that as a class, lawyers give the worst attention to their parliamentary obligations. They seem fonder of going here and there to earn a fee than to stay where it is their duty to be; and to judge from the number of votes missed, Mr. Scott is one of the worst offenders in this respect. In the session of 1875-6, 37 votes were taken in the House, and Mr. Scott was absent from 10. In 1877, 91 votes were recorded and Mr. Scott was absent from four. In 1878, 33 votes appear on the journals, and Mr. Scott was absent from 13. In the three years this gives a total of 161 votes and Mr. Scott's name did not appear in 27 of them, then is it not borne out by the facts when we charge him with gross negligence of duty. During those three years the members increased their own indemnity from $800 to $900 per session. Mr. Scott therefore received of public money for the three years the sum of $2,400, but if we are to judge what he was entitled to by the number of votes he recorded he should only have received $1,594.32, or in other words he pocketed the nice little sum of $675.66 of Provincial money to which he was not entitled, and West Peterborough, in those three years, lost 27 per cent. of its representation. It ought to be clearly understood that an indemnity being paid to members the country is entitled to their full services. there should be no shirking; and if Mr. Scott will not or cannot attend to the business, there are cleverer men willing to take his place. There is another view, however, of the would-be-Honorable's neglect, that the electors will do well to keep in mind. Mr. Scott is now charging the Mowat Government with extravagance, and we think it pertinent to ask what part he took to try and reduce the expenditure. Motions to reduce the amount of any items are usually made when the House is taking concurrence on the estimates. In 1875-6, four motions of this kind were made, on all of which Mr. Scott voted. There was also a motion to increase the expenditure and Mr. Scott was one of seventeen in the whole house who voted for the increase. In 1877 five votes were taken to reduce expenditure in two of which Mr. Scott did not vote. The vote on the 60th resolution of that year to reduce the expenditure on Colonization Roads from $77,360 to $50,000, Mr. Scott seemed to have shirked, his name is recorded as voting the day before and the day after, but this particular form of reduction was probably not in the interests of the County of Peterborough which is benefitted by this class of expenditure. In 1878, two votes were taken, respecting investment of public money, in neither of which does Mr. Scott's name appear. The same session 14 votes were taken on concurrence, but and to relate, the member for West Peterborough's name only appeared in five of the division lists, he naturally missed nine out of the 14, so that while glibly charging extravagance against the Government, he was not in his place to vote during those three years, in 13 votes of 22. For the session of 1879, we are quite willing to credit Mr Scott with attending fairly to his parliamentary duties, with one important exception. The public accounts committee is composed of 17 members, and is charged with very important functions. Their enquiries into the accounts may be of the most searching character. They may obtain all the accounts in detail. Take evidence; and if there is the slightest illegal spending or payment of money, the committee is charged with the enquiry. They had 19 sittings during the last session, nd out of the 19 Mr. Scott put in an appearance at just two. He and Mr. Morris are the lowest on the list. This shows either great confidence in the Government or extreme negligence on his part. Two out of nineteen; if any private individual attended to his business in the same way, he would very soon be in the Insolvent Court. Finally, in want of a cry, as the opposition were, to go to the country with, the Government literally left them nothing to complain about. They hit upon the aid of reducing all the officials salaries by 10 per cent, this being their highest flight of statesmanship, and brought in a lot of filibustering motions to that effect. To show the utter hollowness of the whole proceeding the only salary they succeeded in reducing was that of the Inspector of Registry Offices, who gets $2,000 per annum and pays his own travelling expenses. His salary was reduced to $1500 without every member of the Government voted again at the reduction, Mr. Scott voted for it and then jumped up and abused the supporters of Mr. Mowat who voted with him in this particular instance. Could absurdity go further. The Hon. Sidney Smith who is the inspector has great reason to thank his friends for their kind attention. Mr. Scott claims credit for voting for an extension of the jurisdiction of the Division Cours, a very doubtful good at the best, but this vote was directly contrary to his own opinions expressed at a meeting of the law society of Peterborough, and yet he is willing for the sake of embarrassing Mowat to swallow his own opinions and convictions and vote for the extension although he did not believe in it. We will give another instance of Mr. Scott's lack of genuine principle, showing that he can vote two ways on the same question either to serve party purposes or at the instance of a little female pressure. The question of Orange incorporation has been before the House for the last four sessions. The first session Mr. Scott voted against the incorporation of that body, and from his antecedents this is how we would naturally have expected him to vote. However by the time the second session came round our friend had got more light on the subject. How this light was conveyed would be an edifying chapter in the moral history of the Conservative Party in this Riding, and we would be pleased from a literary and political point of view if Mr. Scott would publish any communication he has received on the question of Orange Incorporation from any of the Lodges or from Members of the Association. Anyway new light was received, the pressure proved or never was effective. Mr. Scott swallowed his convictions, decidedly ate his hook, and like a good boy forever came stood up and voted straight for the incorporation of the Loyal Orange Association to which whatever else may be said of him, Mr. Scott is evidently open to conviction. As to his consistency that is another question; but really we did not think that a subject of his attainments was so easily humbugged. And then about this salary grab! Mr. Scott was in favor of receiving the additional $200, he did not see why his services in the House were not worth just as much as those of the Secretary of the Minister of Commerce for which $1,200 per session was paid. He did not find the additional $200 hard to digest, in fact on placement was it to take, that when Mr. Treasurer Ovoths moved next session in Committee attempted to restore the amount to $2000, Mr. Scott voted to retain the cash in his pocket. He was further away from a general election at that time, but his conscience thinking it better late than never, he along with others had a fit of repentance, and who were on voting of the public money as they. Down with the salary grab and all other abominations. If their new found zeal had led them to bring in a motion for every member to refund the extra $200 he had received, we would have considered their repentance real, but they could not quite go this length. Either $200 was enough or it was not. If enough as in Scott's judgment it now is, then it follows that a raid was made on the Ontario Treasury, and if Mr. Scott desires to obtain credit for his present advocacy of economy he ought to send back to Mr. Treasurer Wood the sum of $600, labelled conscience money. The whole transaction from beginning to end shows a spirit of the pettiest factionism on the part of the Opposition. Should Mr. Meredith be successful in his attempt to storm the Treasury Benches this election (and we don't think he will) we have only one thing to hope for and that is that he won't be led away by Mr. Scott's easy manner of manipulating figures to make him Treasurer. Before doing so we hope he will consult some of his Tory friends in Peterborough, where Mr. Scott's peculiar financial ability is better understood. We don't think even his Bobcaygeon admirer would advise that he should get control of our surplus. It will be remembered that last Local Election Mr. Scott declared again and again that there was not a dollar left in the public treasury, when as if to show the utter absurdity of this statement his leader Mr. Meredith brought in a motion last session censuring the Government for not bringing down a scheme to distribute the balance of the surplus on hand. This shows that Mr. Scott's assertions are not to be trusted. On the political platform, he can make them with a bold air and unblushing face but the electors will do well to take them cum grano salis.

Mr Scott's friends base his claims for re election on other than political grounds. The *Review* thinks he ought to be elected because he is President of the Toronto & Ottawa Railway. Elect Mr. Scott and help to build the Railway. What connection the two things have we cannot conceive. The town and county voted the enormous bonus of $300,000 to this road, and Mr. Scott assured his friends the road would be built. The town Council even gave him $2000 to help to float his scheme, but all to no purpose. The road refuses to be built, the President is too small for the place, he is ambitious enough no doubt, but then he is lymphatic. In fact he is a somewhat strange mixture of ambition and inertness and then he knows nothing about building railways, his attempts are made in fits and starts, in fact his attempt to go on with this great undertaking considering the means at his command has made both him and his railway a laughing stock to the community and an otherwise good project is being spoilt by his connection with it. How can it be otherwise; can a Company expect to build a great trunk railway when they are unable to pay the odds and ends of debts incurred in the very initiation of their scheme? If Mr. Scott rests his claim for reelection on his connection with this railroad, he will be elected to stay at home. We have many other items of interest in this gentleman's career, which we would like to discuss but our space will not allow of it at present.

EDITORIAL NOTES.

Is it not rather remarkable that when the Conservatives want to point out an example of economy they have to select an old Reformer like Sandfield Macdonald? In all the history of Canada there was not a public man of the Conservative party to whom Conservatives themselves can point as a pattern economist. Mr. Meredith unfortunately for himself, does not belong to a party that ever showed any sign of economy, and it is hard for him to make people believe that a Tory will be more economical than a Reformer.

Besides the millions of money devoted by the Reform Administration to railways and other works for the development of the Province, and to grants to the municipalities, whereby local taxation was decreased, money expended usefully for permanent improvement and the financial depression ameliorated as it was in no other country, there remains in the Provincial treasury a surplus of several millions, sufficient for any sudden emergency that may arise. This is true economy Vote for the Reform candidates.

Mr. Phipps, in a letter to the Liverpool *Daily Post*, prophecies the speedy downfall of the Macdonald Government, basing his opinion on the feeling with regard to the Letellier business, which, he says, will result in an appeal to the electorate, and an endorsation of the course of the Marquis of Lorne in declining to act upon the advice of his Ministers.

The average increase of municipal expenditure in 88 townships from 1871 to 1878 was 79 per cent., in 56 cities, towns, and villages, 100 per cent., and that of the Provincial Government only 32½ per cent. in the same period. The larger portion of the Provincial expenditure has been applied towards municipal objects, thereby relieving the burden of local taxation. What then becomes of the absurd charge of extravagance founded on the slightly increased expenditure of the Mowat Administration?

In 1871, no money was given by the Government for the special training of teachers in our Model Schools. but which amounted to $6,559 in 1877; a new Normal School, at Ottawa, with salaries and other contingencies, cost an additional outlay of something like $15,000, and a retiring allowance was also given to Dr. Ryerson, of $4,000. And it is worthy of remark that, though in 1871, the educational expenditure was $315,687, as compared with $548,792 in 1877, yet the gross revenue for school purposes, which in 1871 was $2,124,471, had increased in 1877, to $3,423,124, or a total increase of $2,208,713.

When we are told that under the Mowat Administration the cost is greater than under the Sandfield Macdonald Government, we are not told that, while in 1871 the number of inmates in the asylums for the insane was 1,366, the number in 1877 had increased to 2,067. Neither are we told that, while in 1871 the inmates in the institutions for the blind was only 11, the number had increased to 120 in 1877. In 1871 the number of inmates in the deaf and dumb institute, was 124, but in 1877 it was 226, and the number of prisoners in the Provincial reformatory which in 1871 was 155, had increased in 1877, to 203. And yet, forsooth, we are told because the government expenses have, in this and similar ways, been increased, therefore the money has been wasted.

We believe we are correct in stating that the Hon. Wm. McDougall is to receive a vote on the Land Commissioner about to be appointed under Section 2 of the 7th Resolution passed by the House of Commons for the building of the Pacific Railway. The appointment would seem to be peculiarly appropriate, considering that Mr. McDougall materially helped in the negotiations which ended in the transfer of the North-West Territories from the Hudson Bay Company to the Dominion Government. Mr. McDougall left for the West last night, but will shortly return to Ottawa.—*Free Press.*

HAMILTON.

Drowned.—On Sunday, the 25th inst. Robert Jackson, aged twenty years, and his two sisters, aged fifteen and twelve, came to their death by drowning in Third Lake in the township of Stanhope, about twelve miles from Haliburton. It appears that the three of them were in a small birch bark canoe and had with them a dog which is supposed to have been the cause of the boat upsetting. The bodies were found on Monday.

The Crisis in Egypt.

LONDON, May 26.—The *Times* learns that France in framing proposals, to which the adhesion of England will be invited, for the establishment of strict European control over Egypt. If the Khedive accepts them France will consent to continuing his reign. If he rejects them France, unlike England, would not shrink from accepting the proffered intervention of the Porte. The *Times* opposes the French plan.

City of Glasgow Bank.

LONDON, May 26.—The *Financier* says the call for £2,500 per share in the City of Glasgow Bank shareholders only yielded sufficient to pay a dividend of 3s 4d. on the pound, making ten shillings on the pound thus far paid. It is believed a far heavier call must be made before enough can be got to pay the liabilities in full, possibly as much as £10,000 or £15,000 per share.

July Examinations, 1879.

Candidates for the approaching Intermediate Examinations, commencing 8th July, 1879, are hereby notified that their names must be communicated to the undersigned before the 3rd day of June.

According to the regulations, candidates, whose names have not been communicated to the Minister of Education by the Inspector, before the 5th of June, cannot be present at the Examinations.

J. STRATTON,

Lot No. 1 in the 44th concession of Dummer, containing 100 acres, more or less.

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes.—224 lbs. 112 lbs, and 56 lbs. (The bags are all of a superior quality of linen and suitable for travelling or other domestic uses.) It is said by persons of wide experience that one cause of inferiority in quality of butter and other dairy products has been the use of common grades of salt; and the difference in cost is slight when compared with the difference in quality. If dairymen and others will consider that in manufacturing, only 2½ lbs of salt are required to make 100 lbs of cheese, and only 1 oz. of salt to make 1 lb. butter, they will recognize of how small importance must be the first cost of one of the most important ingredients in the manufacture of all dairy products.

☞We know that having once used it, you will continue to do so.

T. W. ROBINSON & Co.
Simcoe Street.

Grand Success.

Our Umbrella sale last week was a decided success, over 10 dozen Umbrellas sold on Saturday.

The Examiner.

PETERBOROUGH, MAY 29, 1879.

LOCAL NEWS.

The Springbine Troupe and Supporting Company is coming and can be consulted at the Cheese House, June 2 and 3.

Personal.—The many friends of Mr. J. J. Hall will be glad to learn that he has again taken possession of the office of Inland Revenue Collector, at this port.

"Black List."—Our Saturday contemporary has published a "black list" of parties who are trying to dead beat them out of money due them for subscriptions and job work. Pay up!

Personal.—Mr. Geo. A. Stewart, P.L.S., has been honored with a commission from the Minister of the Interior, to go to the North-West to assist in the sub-division of townships there.

Meeting.—A meeting of citizens willing to assist the Fire Brigade in arranging a celebration on the 24th of May, will be held this evening in the Firemen's Hall at 7.30. A large attendance is requested.

Clerical Appointments.—The Bishop of Toronto has made the following appointments: The Rev. R. A. Rooney, to the Mission of Minden and Stanhope; and the Rev. Jas. E. Cooper, to the Mission of Cameron and parts adjacent.

Open Air Rehearsals.—The band played out both Friday and Saturday evenings of last week—the former evening on their new stand opposite the market, and the latter on the corner of George and Brock streets. Both evenings large numbers of our citizens turned out to enjoy the excellent programme given.

Pastoral Calls.—The Canada Presbyterian says the Rev. Alexander Bell, of St. Andrew's Church, Peterborough, has been called to Leacester as successor to Rev. D. Ross, and the call has been sustained by the Presbytery of Glengarry. The same paper says that the Rev. Isaac Campbell, of Richmond Hill, has been called to Ottawa.

You can now step at the Grand Central Hotel, on Broadway, New York, on the American plan for $2.50 or $3.00 per day, or you can, on the European plan, take your breakfast there, in the morning, take your lunch down town, or dine with a friend, and your room at the hotel will only cost you $1.00 per day, and upwards, and meals are also provided, at moderate prices, at the elegant Restaurant attached to the Hotel.

Boating.—A number of sculling races between members of the Peterborough Boating Club took place on Wednesday, the 21st instant, on Little Lake. The weather was fine and the water in excellent condition, and quite a number of spectators were present. It is the intention of the Club to have fortnightly practice matches of this kind during the season, and the idea is a commendable one, not only for the purpose of affording enjoyment to spectators, but for that better one, of keeping themselves in constant recticc.

The First Pic-Nic of the Season.—On Tuesday next, June 3rd, the Golden-Eye will run a cheap excursion to Idyl-Wild and back, leaving Peterborough wharf at 8 a. m. At Campbellstown the Excursionists will be joined by the members and friends of St. Mark's Church, Otonabee, in whose behalf the pic-nic is held. The steamer will then proceed at once to Idyl-Wild, where luncheon will be provided, and the remainder of the day will be devoted to amusements. The return tickets are placed very low—adults, forty cents; children, half price—so that all can readily patronize it, and we hope many will.

Information Gentle.—Ye pedagogues and fellows who delve in the entrienches of language and the occult meanings of complex and ambiguous sentences and things, look ye here! Comstock, analyze, dissect, reduce to the following:—"One of these tribes drove out the Romans, and settled in the country in the same manner as this country was settled, in little patches, farming and fishing." And then, O antiquarians, or thou, O mythologist, did'st ere believe clam spun on such a fine-twine yarn as this:—"They worshipped various gods made of wood, stone, the sky and heavenly bodies." And here, astute geographer, chew thou the end of chagrin at thy ignorance:—"Sir Charles Carlisle, in his research, dated back to the time when the English Islands were a peninsula and that the river Thames ran into the river Don." And then, anthropologist, here's a tit-bit for thee, too:—"The second race of men were said to be Gaels. 600 years before Christ." You dispute us, eh? Mr. Bechan, sir, is our authority, and the Daily Evening Review, sir, it was that reported him. "Fast, sir; fast, I assure you!"

A Whole Family Poisoned.

Six Persons Suddenly Seized with Illness.

On Tuesday afternoon, Mrs. George Stetham, her three children, and two servants were suddenly taken ill, the symptoms being strongly indicative of poison. Drs. Boucher, Harvey and Fraser were immediately called in and found the several members of the family as above, in a very critical condition. Prompt and judicious treatment was immediately resorted to, and the patients, with the exception of the eldest boy, who was in a state of extreme collapse when first seen by the medical attendants, and who was not pronounced out of danger till near midnight, soon rallied. We are glad to learn as we go to press that all affected is progressing as favourably as can be expected. The cause of the poison is unknown, but is supposed to have been in some articles of food which the family had for dinner, as all those partaking of that meal were sore ; with the same symptoms. We understand the several articles of diet partaken of by the family are undergoing examination in order to solve the mystery.

The Walking Match.

As announced in last week's issue, the three day's pedestrian tournament commenced in the Drill Shed Grounds at 10 o'clock on Thursday morning, continuing till 10 p. m. on Saturday night, the contestants being M. Spencely, J. Kane, D. Gilbert, D. Hartley, W. Drury, D. McCarthy and O. Kelly. In the afternoon of the first day Kane became sick and had to leave the track for some hours. He had also during the last two days several times to retire from a similar cause. Kelly quit the track altogether shortly after 5 o'clock on the first day, after covering 31 miles. At 6 o'clock on Friday, McCarthy after making 91 miles was obliged to leave the track through pains in his legs, and went home. Drury's feet becoming blistered caused him to temporarily leave the track at 5 o'clock with a score of 95 miles, but he again went into game at 10 o'clock on same day morning, on dint also Kane, who had several times to leave the track through sickness. During the last day the contest lay between Spencely, Hartley and Gilbert, who gradually crept to their McLaggand mark, until 10 p.m., when the scores stood as follows: Spencely, 184 miles, 13 laps; Hartley, 183 miles, 11 laps; Gilbert, 180 miles, 14 laps; Drury, 159 miles; Kane, 115 miles.

The ladies race did not come off owing to some misunderstanding as we are informed that arrangements are now going on to have it take place in the Drill Shed some other evening —the proceeds to be devoted to those falling in the recent contest.

THE QUEEN'S BIRTHDAY.

How it was Celebrated in Peterborough.

The sixty-second anniversary of the birthday of Her Most Gracious Majesty Queen Victoria was celebrated in this town with more than ordinary zeal and enthusiasm. In response to a very kindly signed requisition from business men and citizens, the Mayor by proclamation appointed Monday, 24th, instead of Saturday, 24th to be observed as a public holiday, and the request was very generally observed. The first event of the day was the

GOLDEN-EYE'S EXCURSION

to Idyl-Wild, where a grand regatta was announced to take place. Between forty and fifty were on board when the boat left the wharf at 8 o'clock—the chilly air of the morning no doubt deterring many from the enjoyment of this popular sail. The party arrived in good time, and spent a very pleasant day, but owing to the roughness of the lake the regatta was abandoned. It was however arranged, we believe, that the prizes are to be competed for on Dominion Day.

LACROSSE MATCH.

At 10.15 a.m. a lacrosse match commenced on the Cricket Ground, Ashburnham, between two teams composed of members of the Peterborough Lacrosse Club, under the captaincy of James Dolan and John Carbery. After playing for about two hours the match was declared "drawn," both sides having won a game each, with the third unfinished. The Fire Brigade Band was present and enlivened the proceedings with several choice selections. The playing, which was very closely contested, was witnessed by a large number of spectators.

THE CRICKET CLUB SPORTS.

The centre of attraction during the afternoon was the Agricultural Grounds, where between two and three thousand people assembled to witness the athletic sports under the auspices of the Peterborough Cricket Club. Our surmises in last week's EXAMINER regarding the completeness of arrangements and the efforts of the Committee to satisfactorily carry out the programme were fully borne out, it being admitted by all that the affair was the most successful of the kind ever held in this town. Each event was closely contested and as the entries in each were numerous, the interest of the spectators was retained till the programme was ended. The following is a list of the games and the winners:—

HOP, STEP, AND JUMP.—7 entries. 1st, Jas. Billington, 39 feet 7 inches; 2nd, S. Cairns, 38 feet 9 inches.

THROWING THE CRICKET BALL.—9 entries. 1st, George Fitzgerald, 297 feet 6 inches; 2nd, Sam. Cairns, 286 feet 8 inches.

RUNNING LONG JUMP.—1st J. Billington, 16 feet 6 inches; 2nd, S. Cairns, 17 feet 6 inches.

PUTTING WEIGHT.—36 lbs.—1st, R. Hughes, 32 feet 7 inches; 2nd, J. Billington, 32 feet 1 inch.

RUNNING HIGH JUMP.—5 entries. 1st, J. E. Hammond, 4 feet 10 inches; 2nd, J. Billington, 4 feet 7½ inches.

100 YARDS RACE. (Scratch.—23 entries. The first two heats were won by, R. B. Rogers, with T. Kane and J. Billington close seconds. The second prize was taken by Kane. Time 10½ seconds, 11 seconds, 11½ seconds.

OPEN MILE LADIES' PRIZE.—11 entries. 1st, G. C. Rogers, 5 min. 7½ sec.; 2nd, J. Sheehy, 5 min. 9 sec. Rogers ran well but was closely pushed by Sheehy, who came in a good second.

WHEELBARROW RACE (blindfolded).—4 entries. 1st, F. Weir; 2nd, E. Rogers.

HURDLE RACE (220 yards, 5 hurdles).—6 entries. 1st, R. B. Rogers; 2nd, J. Billington.

TUG OF WAR.—Between ten men of the Cavalry Troop and ten men of the Fire Brigade Band. Won by the Troopers.

THREE LEGGED RACE (100 yards).—3 entries. 1st, G. C. and E. Rogers; 2nd, J. Billington and J. Hill. This race was almost a tie between the first and second couples.

QUARTER MILE RACE.—8 entries. 1st, R. B. Rogers, 1 minute; 2nd, Thos. Kane, who gave Rogers a hard run at the finish.

WALKING RACE (3 miles).—9 entries. This was one of the most exciting events of the day. C. H. Huffman took the lead from the first and maintained it till the last lap, when G.C. Rogers who had taken matters easy for the first mile closed upon him and passing him came in a few yards ahead. Time, 29 minutes, 6 seconds.

BICYCLE RACE (1 mile).—3 entries. 1st, W. A. Dixon, 6 min. 40 sec; 2nd, J. Curran 6 min. 50½ sec.

BOYS' HANDICAP (one quarter mile).—1st, Sidney Mitchell, 1 min. 11 sec.; 2nd, Willie Sanderson, 1 min. 11½ sec.; 3rd, M. Huston, 1 min. 12 sec.

CONSOLATION RACE.—1st, H. Carnegie, 39½ seconds; 2nd, D. McGrath, 40 seconds.

TILTING AT THE RING.—Contested by members of the Peterborough Cavalry Troop. 1st, Chas. Stapleton, 14 rings; 2nd, E. Snyder, 12 rings.

The band was present during the afternoon and played between each event. At six o'clock the afternoon programme was ended, when the assemblage dispersed.

PROMENADE CONCERT AND FIREWORKS.

In the evening a promenade concert was held in the drill shed, at which a very large number were present, the Fire Brigade Band furnishing a fine programme. After the presentation of the prizes, which were made by Mrs. C. A. Weller, Mrs. R. H. Donnelsoon and Miss Calcutt, Mr. H. C. Winch introduced his trick horse "Little Toronto," whose performances elicited much applause. The celebration closed by a display of fireworks in the grounds adjoining the drill shed, and were witnessed by an immense gathering. The display, though small, was exceedingly creditable, some parts being very pretty.

We are pleased to learn that the Club will realize about two hundred dollars after paying expenses, a result no doubt as satisfactory to the committee as their efforts to provide suitable entertainment were appreciated by the public.

TEACHERS' ASSOCIATION.

(COMMUNICATED.)

The third semi-annual meeting of the Peterborough Teachers' Association was held on May 22nd and 23rd, in the Collegiate Institute building in this town. It was the most successful meeting yet held; the presence of two High School Inspectors infusing a life and energy which it otherwise would not have had. A large number of teachers were present—who seemed to more than ever realize the importance of their work and the duty of preparing for it.

THURSDAY—MORNING SESSION.

Convention opened at 9 a. m. J. F. Jeffers, Esq., President, in the chair.

Minutes of the previous meeting were read and confirmed.

The financial report was then read by the Secretary. On motion of Mr. Stratton the report was referred to the Auditors.

The election of officers for the ensuing year was then proceeded with. The following being the result:—

PRESIDENT—James Coyle Brown, Esq., Inspector of Public Schools for the County of Peterborough.

FIRST VICE-PRESIDENT—Jos. Stratton, Esq., Inspector of Public Schools of the Town of Peterborough.

SECOND VICE-PRESIDENT—F. J. Lynch, Esq., Peterborough.

SECRETARY-TREASURER—J. Jameson Wright, Bridgenorth.

COMMITTEE ON GENERAL MANAGEMENT—J. Frith Jeffers, M. A., Miss Fenton, and Messrs. Moore, Quinn and Shearer.

After recess "Written Examinations" was treated by J. J. Wright, and after some discussion the Convention adjourned till afternoon.

AFTERNOON SESSION.

Convention opened again at 2 p.m.

Miss FENTON read a very interesting and instructive essay on "Hints on Answering and Questioning." Upon this subject a lively discussion resulted, in which Messrs. STRATTON, Campbell, McPaul, East, and Dr. McLellan took part.

Dr. MCLELLAN addressed the Convention on "Arithmetic." He laid great stress on Addition and its intimate connection with the other rules. The Dr. expressed his ideas in plain, forcible Anglo-Saxon.

In the evening J. M. BUCHAN, M. A., addressed a large meeting in the Opera House. Subject—"The Origin of the English." The address throughout was remarkable for clearness of thought and close reasoning. Below will be found a synopsis of his address:—

Mr. BUCHAN began by referring to the theory that the English are descended from the ten lost tribes of Israel, and remarked that to support this some say, that the word Saxon is only a corruption of Isaac's son. Others say that the English were descended from Tros, and this belief was current till the time of John Milton; but the majority of those who have studied the subject adopt a somewhat different theory. It is said that many years ago, perhaps, the glaciers were just melting off the coasts of England, Ireland and Scotland, and when that country was connected to the Continent by a strip of land where the English Channel now is, it was inhabited by a very barbarous people. They lived upon an animal resembling the elephant, but which does not now exist. Of this original people it is impossible to tell much, unless from relics found in caves and other places, and from the study of the Celtic origin or not it cannot now be determined, but it is known that in the year 55 B.C. when Julius Cæsar came over to Britain, he found Celts inhabiting the country. It was not till about 500 years after their time, that the Saxon conquest commenced the country, but they never, however, subdued the southern or Welsh part of England as much as they did those of France and other [illegible]

they conquered. After the Romans came the Saxons, whose influence upon the country was much more marked. At this time the part of Europe now called Germany, teemed with a restless population, and this surplus population spread out to find new homes. They went as far south as Gibraltar, and even to the Northern shores of Africa. One of these tribes, the Saxons, came to England. They established themselves very slowly as they had to fight for every foot of ground. They settled in small knots or communities, these being, perhaps, the origin of our parishes. These Saxons had by some means acquired a taste for sea-roving, and in fact, little better than pirates. They were polytheistic in religion, and their principal deities were Woden and Thor. Thor was the God of War, and the name is retained in the fifth day of the week, Thursday, or Thor's-day. The next Saxon conquest was that of Scandinavia by the Danes. They inhabited Denmark, Sweden and Norway, and were nearly related to Saxons. They invaded England about four centuries after the Saxons, when they found that it was almost impossible for even himself to comprehend his utterances.

Mr. Bertram replied, and in an exhaustive and eloquent speech brought out the points in favor of the Reform government, and swept away any effect produced by the platitudes of the preceding speaker. Mr. Bertram's address was an admirable one, and made an impression on the audience that will not be without its effect at the polls.

The meeting was large and enthusiastic, and by a large majority friendly to Mr. Blezard.

On Monday evening a meeting was held at Warsaw, which was addressed by the popular candidate, Mr. Blezard, and Mr. Bertram, Mr. Carnegie again appearing for Mr. Calcutt. All his sophistries and special pleading for Mr. Calcutt to be returned as an opponent of the Mowat Administration were refuted in speech of great power delivered by Mr. Bertram who was cheered to the echo. Throughout the whole of the Riding the prospects of Mr. Blezard are very bright.

Fourteen Million Feet of Lumber Burnt.

CARLETON PLACE, ONT., May 27.—About 12.30 p.m. to-day a Mrs. Calloway was walking through the piles of lumber in Peter McLaren's yard here, when she discovered one of them to be on fire. She immediately gave the alarm, but as it was the usual dinner hour and the workmen were all absent from the premises, some twenty minutes elapsed before any people who lived in some small quarter of the town. In fact, little better than useless. They were polytheistic in religion, and their principal deities were Woden and Thor. Thor was the God of War, and the name is retained in the fifth day of the week, Thursday, or Thor's-day. The next Saxon conquest was that of Scandinavia by the Danes. EAST PETERBOROUGH.

Cheering Reform Prospects.

On Saturday night last a meeting was held in the Town Hall Keene, in the interest of Mr. Blezard, the Reform nominee of the East Riding of Peterborough. The chair was occupied by James Miller, Esq., Reeve of the township, who, after a few opening remarks, called on Mr. Blezard, who explained his position in a straightforward manner, and fully gained the good will of the audience, who listened with attention, breaking out with loud applause as he closed.

He was followed by Mr. Bertram, who spoke for upwards of one hour, pointing out the merits of the Mowat government.

Mr. Carnegie who was present in the interest of Mr. Calcutt, dragged along for nearly an hour, "mixing and muddling" the Ontario finances in such a way that it was almost impossible for even himself to comprehend his utterances.

Mr. Bertram replied, and in an exhaustive and eloquent speech brought out the points in favor of the Reform government, and swept away any effect produced by the platitudes of the preceding speaker. Mr. Bertram's address was an admirable one, and made an impression on the audience that will not be without its effect at the polls.

Investiture of the Order of St. Michael and St. George.

At the close of the military review in Montreal on Saturday last, His Excellency the Governor-General held an investiture of the most distinguished order of St. Michael and St. George, when, in obedience to her Majesty's instructions, the following gentlemen were created Knights of the Order.—Hon. S L. Tilley Hon. Alex. Campbell, Hon. Chas. Tupper, Hon. W. P. Howland, Hon. R. J. Cartwright, and Sir N. F. Belleau, Sir A. T. Galt, G.C.M.G., and Sir F. Hincks, K.C.M.G., acted as sponsors. Col. McEachren and Fletcher, C.M.G.'s of the order, were present at the ceremony. Her Royal Highness the Princess Louise, accompanied by Mrs. DeWinton and Mrs. Russell Stephenson, honored the investiture with her presence. Among the incidents of the military review may be mentioned the action of one of the veterans accompanying the Brooklyn regiment who stepped out of the ranks and approaching Miss Royal Highness requested the honor of shaking her hand in token of his respect for Queen Victoria. The Princess smiled pleasantly and shook hands with the Royalist soldier, who of course was highly gratified.

Peace with Afghanistan.

THE TREATY SIGNED BY BOTH SIDES YESTERDAY.

LONDON, May 26.—A despatch from Cape Town says the Dragoon Guards go to the Transvaal, not to Zululand. The scheme for the invasion will undergo important modifications. The Zulus will make a strong stand to cover Ulundi. The system of cutting a drift from the base when an advance commences will be abandoned, and a chain of fortified posts will be constructed as the invasion proceeds. The conviction is general that the war will be prolonged over two campaigns.

Gen. Wolseley has been appointed supreme military and civil commander of Natal, the Transvaal and certain other districts that adjoin and are included in the seat of war, it having been deemed wise in the present emergency to divide the Cape of Good Hope governments into four districts. Sir Bartle Frere remains Governor of Cape Colony.

Earl Beaconsfield announced in the House of Lords this evening the appointment of Sir Garnet Wolseley. He stated General Wolseley's rank gave him supreme command over Lord Chelmsford, but the country would not be immediately deprived of Lord Chelmsford's services.

In the House of Commons to-night Sir Michael Hicks-Beach stated that the instructions given General Wolseley would be consistent with the desire repeatedly expressed by the Government to arrive at a speedy and honourable peace. He would be told it was not the Government's object to extend its territory but to take care of its present possessions. He would be instructed to receive and entertain any bona fide overtures for peace. Lord Hartington said the statement was satisfactory. General Wolseley will probably sail on Friday.

He would be instructed to receive and entertain any bona fide overtures for peace. Lord Hartington said the statement was satisfactory. General Wolseley will probably sail on Friday.

News Items.

The Montreal Herald of yesterday says, the object of Hon. George Brown's visit to Montreal was to personally ask the Governor-General to be allowed to decline the honor of knighthood offered to him.

The Synod of the Presbyterian Church of the Lower Province is in session at Truro. There is a large attendance of members and the public. Rev. Wm. McCollough, D.D., was unanimously elected Moderator for the ensuing year.

John Vincent and four other men, while travelling from Fort Keogh to Fort Assiniboine, were attacked by fifty Yanktonnais Indians. After fighting twenty hours and killing eleven of the redskins, they succeeded in effecting their escape, but were obliged to abandon their horses and waggons. The Indians now Fort Macleod are killing the white men's cattle to avoid starvation.

The plea for the defence in the suit of David Grant, of Montreal, County Master of the Orange order, against the Hon. Jean Louis Beaudry, ex-mayor, is in preparation by his attorney, Mr. Rosaz Roy, Q.C., and will probably be fyled to-day. It will raise as the chief ground of opposition that the Orange order has no legal right to exist and that its members are accordingly violators of the law, in justification of Mr. Beaudry's action in having the plaintiff and others arrested last 12th July.

A Mystery Explained.

Pastor mose: Mrs. Brown, who has spent the last month in Europe, is home in search of health, and who seems to have succeeded in that whole missionary circle without being able to find the slightest trace of Mrs. Brown's ill health. Mrs. Brown, however, has been quite ill, and has only become well enough to attend to her household duties since her return. Other members of the congregation have been equally anxious to have complete their theories and enlightenment from personal observation. Pastor Mose—Dear me, Mrs. White, how well you are looking! If you will not think me impertinent, may I ask what is your secret? I have been so anxious to know, for the sake of my wife, who is in very delicate health, and I know you have been very ill. Mrs. White—Why, Mr. Mose, I am surprised you have not heard. Mrs. Brown, You remember being present at the Centennial? Pastor Mose—Yes, I went there by my self. Dr.—told Mr. White to send me to Europe, but I knew he could not afford it, and I told Dr. Brown I could not go. Mrs. White—Well, Mr. Mose, Dr. Brown told Mr. White that I also tried the Centennial, and that I must go to Europe, to change my air. In my opinion, one hundred dollars for a visit to the Centennial and the Discovery is better than six months of the White Sulphur Springs for a sick woman. I have only been out of the city a couple of times since I came; then my husband [illegible]

MARRIED.

VEGETINE.

The Very Best Medicine
—FOR—
DYSPEPSIA AND INDIGESTION.

NEWTON, N. H., March 27, 1877.

MR. H. R. STEVENS:—

Dear Sir,—Some years I take the pen to praise that blessing of blessings, Vegetine! When I began to take Vegetine two years ago with much doubt and fear, I little thought it was a remedy that would cure me, as I had been troubled with Dyspepsia for many years, and had become so run down that some of my friends said I was in a consumption, and I was not far from the truth. Vegetine has done more for me than all the doctors and all other medicines I ever took. I was so weak that I could not walk across the street, and I write these lines to satisfy those who are afflicted as I was, that Vegetine will cure them. I was recommended to try Vegetine by a gentleman who had used it himself, and I had formed a most unfavorable opinion of patent medicines, and given up to die by the doctors, some of the most skilled in this State. They said I had Dyspepsia of the worst form, and that Vegetine could do me no good. I was confined to my bed for eight months

To Thee, Fair Spring.

BY THOMAS CLAUDE DEANE.

I.

Fair child, from Father Time's embowered isles:
Bright as the morning rose, with rapture gay
We hail thy glad return.
Are you rather than a resurrected lover's sleep:
Or like that beautiful Greek tale to wintery
And cold that she has reached thy sunny room.
Lifts up her voice in song.

II.

Now thou art here again, the laughing rill
Shall cleanse its embrace to the rising sun:
The feathered hosts shall meet in coverts and
The air with music, when the day is done.
The river shall smile triumphantly
Cull forth the music of its warm encomium,
And then bear onward to the great, dark sea.
Its matchless surrender.

III.

Again, amid the precincts of the deep
Impenetrated woods, the fabled dryads, nay,
Shall hold their banquets where the mad bacchanals
Chased by the murmurer of the bubbling spring:
Nay, too, the nodding lily shall bend again
These dear gardens, where the rose shall reign.
Foregoing all the raptures of their reign
Until the night is nigh.

IV.

Again, within the boundaries of the fair
Bright valley, where the tender maidens dwell,
The mirror shall be used and there the assorted air;
At morning, when the flood waves shall swell
And when the day is at its full and its noon,
Glad that the winter storms no longer rave,
Shall gather hem aerials in joyous herds,
Where the school broucher wave.

V.

Again, upon the hills, where years ago
Our fathers gathered strength to ponder and
The early flowers brooding to and fro,
Shall hold communion with the fairy theme.
Here, also, when the joyous day grows old,
Each plant shall by the shining sun be blessed,
And then receive from her a gift of gold.
Ere the sun sets into rest.

IV.

Again, among the dizzy waste of waves,
The happy gulls shall meet in mystic glee,
And hold their revels o'er the unknown graves
Of those who have found rest beneath the sea:
And when the phantom torch of fearful night
Shall old the liquid separation rear,
Again these gulls shall take their homey antithesis
Along the pebbled shore.

VII.

Yes, gentle spring, now thou art here again,
Thou comest to bury the dead and lost,
All living creatures will forget their pain,
Wrapped in the volume of their love for thee,
And all the days pass on towards the dim
Dark country, where the bells of fairies chime,
The moving earth shall throb with praise to Him
Who holds the rings of time.

An Explosion.

The Toronto *Mail* says:—We have much contempt for the brutal pleasure which some take in witnessing three or four hysterical and half-dead fellows limping round a saw-dust track towards the close of the sixth "day [illegible] This is an element of fanaticism in the Anglo Saxon and amongst the dregs of the mixed race of Americans, the ferocity has become the cowardly lust of seeing others suffer. The horrible exhibitions of pedestrianism recently witnessed in the States when men and women are goaded along the track to the verge of insanity and death; and now this unspeakably brutal prize fight fills us with sorrowful indignation. In the interest of fair play, fair sport and gentlemen, we progest against these things as an outrage upon society.

An Enthusiastic Hibernian.

An Irish enthusiast named O'Hart has done his country an eminent service by bringing out a valuable book of genealogical and antiquarian research. He establishes beyond contradiction that the Queen is lineally descended from Heremon, the second monarch of Ireland, who was thirty-seventh in straight line from Adam; that he (O'Hart) is a cousin not very remotely related of Her Majesty; and that Irish was the language spoken in the Garden of Eden, and was on until the confusion of tongues that arrested the building contract at Babel. This is consoling, but for one painful reflection. If Irish was the language of Eden, that must have been the tongue in which the serpent "deluthered" Eve.—*London World.*

An Expedience.

A gentleman, who is very well known, and who is a prominent member of the Order, informs us that he holds a letter, which was written to him prior to the meeting of the Grand Orange Lodge at Peterborough, in which it was stated that the incorporation would again be discussed, but that nothing would be done, inasmuch as the question would be removed as a Conservative expedience at the next (present) general elections in the Province. This letter was read in the Grand Lodge, and the gentleman presiding it was roundly lectured by some of his brethren for so doing. It is still preserved. Now the electors can judge of the truth of the statement contained in the letter. While some are hoaxed in their sideboard of the Orange Pills, the fact remains that many have resorted to the matter as an election subterfuge, of which the addresses to the Orangemen, privately circulated, appealing to religious partyism, is undeniable evidence. The Conservatives desire to use the Orangemen only for a purpose.—*Kingston Whig.*

Woman's Rights in Ontario.

In connection with the Campbell Divorce Bill, a pamphlet headed "Woman's Rights in Ontario," and embracing the speech delivered before the Senate Committee in 1876, by Hon. Mr. Macdougall, has been printed. The introduction states as follows: "The resistance of an intelligent, brave and virtuous woman—as all those best qualified to judge believe her to be—against the persecution and ill-treatment of a coarse, ill-natured, prurience and unprincipled husband, has made the Campbell divorce case not only a *cause célebre*, but has conclusively established the fact that in Ontario, as the law now stands, a married woman has few rights which a husband is bound to respect. If a husband wishes to put away his wife, he need only provide himself with two witnesses to which at her window when some neighbour is paying her a visit, to report a conversation by a statement that the visitor confessed the crime—which neither he nor the accused wife is permitted to contradict in the witness box—and he may then kick her into the street and leave her there to starve, unless some charitable stranger or relative shall come to her relief."

Expatriation.

We have several times of late referred to the exodus going on from the Province of Quebec, a large number of people leaving that section to take up their residence in the Eastern States. It is beyond doubt that the sudden arrival of the outflow of our people has a political reason at the back of it. The people are beginning to see that, in a moment of insanity, they put the reins of power in the hands of a lot of incapable and presumptuous men, who have so upset the conditions of existence as to unfit the country for being the home of poor men. Hitherto Canada has been the place on earth where the industrious poor man had the fairest chance to achieve a competence. We do not say that the country ever held out very great prizes, but we do say that in no country was the general level of prosperity so high as in the Dominion a year ago. But now we are embarked on the sea of class legislation. We have deliberately confiscated a part of every man's wages and have given it to the already rich. We have authorized a few rich men to tax us as much as they please. Small wonder that the altered condition of affairs has come home to the people, and that some who do not care to see their hard-earned savings go to swell the bank balance of a millionaire manufacturer have already shaken the dust from off their feet, and gone to the country which has nearly passed through the folly upon which we are only entering.

Cut to Pieces by a Train.

A most distressing affair, one that is enough to make the heart shiver to think of, occurred on the Grand Trunk on Sunday, near Malding, on Monday last, by which a boy, aged seven years, a son of Mr. Shepherd Wentzell, was literally cut to pieces by a train.

The little fellow was engaged during the day watching some cattle, near the track, where an opening in the fence was made to admit of the train which passed back and forth several times with ballast for the road. Becoming drowsy with his task it is supposed he lay down upon the track, and went to sleep. How long he had been there it is not known.

About seven o'clock in the evening, a train consisting of the locomotive and five flat cars, was sent over the workmen who were employed ballasting. The cars were run ahead of the locomotive, and the place where the boy was lying was just around a curve in the track. One of the cars on the cars saw an object resembling a coat shead, and shouted to the engineer, who immediately reversed his engine; but it was too late. In the twinkling of an eye, the body of the poor little fellow lay a writhing mass. The train passed over him, severing an arm and a leg, crushing his head, and terribly mangling the body; indeed, in such a shocking manner, we are told, that the remains were carried to his father's house in a sheet. Death was almost instantaneous.

An inquest was held, and the jury after visiting the spot in a body, returned a verdict of "Accidental Death."—*Campbellford Herald.*

A Horrible Death.

ELORA, May 22.—A shocking accident occurred in the Elora grist mill about dinner o'clock to-day, by which one of the proprietors, Mr. Henry Horton, aged about sixty-five, lost his life. While in the act of oiling machinery on the second flat his clothing was caught by a revolving shaft making 150 revolutions per minute, and in less than a moment his body was torn to pieces, the limbs being severed from the body, and the entrails strewn on the floor. Deceased had been about from the first floor above half an hour, and was not known to have been upstairs. His son, James Horton, on going to change a slide in the third story, discovered the body of his father revolving in the machinery. He immediately stopped the belt, and ran to the lower flat, stopped the entire machinery and gave the alarm. An inquest was held by Coroner Savage, and a verdict returned of "Accidental Death," attaching no blame to any one.

The Drain and Road.

An exchange mentions the fact that a Baptist clergyman in Wisconsin was thrown from a buggy some time ago, and striking on his head his skull was fractured, so that he was for a long time vibrating between life and death. He finally recovered, but all his religious views had been changed by the blow on the head. He is now a Universalist with strong spiritualistic tendencies, and he expresses the utmost astonishment that he ever could have held the religious belief of the Baptists. This is somewhat remarkable, I true, but we have a case in remembrance which is even more strange. A man in Tecumseh lived to be thirty-five years old without the ability to distinguish one time from another. He had, in fact, not the slightest power of distinguishing differences in the gravity of sounds. At thirty-five he was badly injured by the pernature explosion of a blast. His skull was broken and three ounces of brains were removed. His recovery was regarded as a miracle. But he did recover, and, strange to say, became one of the most skillful musicians in that part of the country. The query is, whether it was the loss of brains or the change of the normal position of the substance thereof that gave him this new and remarkable power?—*Oswego Palladium.*

A Conservative Opinion.

At the nomination of the Hon. Oliver Mowat in East Toronto, Mr. R. W. Elliott, President of the Board of Trade, and a pronounced believer in the national Policy, made an excellent speech in support of the Ontario Premier. Mr. Elliott plainly distinguishes between Dominion and Ontario politics, and recognises the fact that in this Province we have a Government which we should make all efforts to retain Mr. Elliott said:

"Had the approaching election been for the House of Commons, he would have been found among those opposed to Mr. Mowat. He had supported the gentleman who now represented the constituency at Ottawa, and he was a firm believer in the National Policy. (Hear, hear.) But while opposed to Mr. Mowat on some of the questions relating to Dominion politics, he wished to place most decidedly upon record his hearty approval of that honorable gentleman's administration of Provincial affairs. (Cheers.) Mr. Mowat had done a great deal to develop the resources of the country by his railway policy and other measures, and so highly successful had he been that it would be difficult indeed to point to one measure passed by his Government which was branded with disapproval of the community. He was opposed to changing public servants unless for good reasons, and he did not think that any such existed in regard to Mr. Mowat. He pointed out that the Local Opposition were entirely without a policy which to go to the country, and said that their only resource appeared to be abuse of their opponents. They seemed also to calculate a great deal upon the ignorance of the electors of the Province, and reckoned upon a confused idea as to the relation of the National Policy, with purely local issues to help them in their endeavor to obtain possession of the Treasury benches. He (Mr. Elliott) thought that the people had a much clearer idea of the political situation than the Opposition supposed, and when they were served faithfully and well, they were not slow to recognise the fact."

"Gweasly Insulted."

Grip, prints a cartoon of the Secretary of the L. K. Club, the "person" named Macdonell leaving a room somewhat suddenly, with a very suggestive boot not far in the distance. The following letter from accompanies the picture:

"GWOSHY INSULTED.

I am angwy, dweadfully angwy. Of cawth it isn't good fawm to be angwy, because a fellow can't manage his cwiquis unless he controuls his feelings, you know, but I am nawbly neverthelaws. And I think I have very good cause, too. I have been gwossly insulted in the presence of the whole country, and ewy fellow in the Club knows about it. I suppose you wead about it, dear boy; didn't you?—the wow in the House the othaw day. That beastly *Globe* fellow printed a lot about it. But I am not so angwy at the *Globe* fellow, who is a wetched Gwit, and doesn't know any bettaw, as I am at the Speakaw, who belongs to the Liberal-Consewvative Pawty, and ought to have good manaws. The Speakaw actuwly had the pwesumption and to cwoh-ance to awdaw me out of the Chamber! And what for? Why—aw—simply because I took the oppawtunity of upbwaiding my sentiments on the flaw of the House like a twue Buwton; simply because I uttered a few sentences about that vulgaw fellow Huntington, to the effect that he was a wog'ue and a flaw, or something of that sawt, I don't wecollect pwecisely. You see, I was vewy much excited and pwoud to be a weformer! And I *did* weform: though I came back once or twice mawe, just to show them that I wasn't to be cwushed out in that mannaw. And then the cowwespondent of the *Mail*, too—the fellaw who dwinks bwandy and soda with me, and is like a bwothaw—he sheds tears in jolawy by wefewwing to me simply as "a person"—doesn't even mention my name! But the wuffest pawt of the whole dwaadful mawe is that the Wight Hon. Sir John has *hyad* me bwought to the bah of the House. I thought I could take anything from Sir John in the way of a joke, but doesn't you know this is weally going too faw with it. Of cawth, I'm not a wegular cwying Hessy, and stwictly speaking it was a fiasco of fwightfulness on my pawt, to do what I did—but isn't the Pwemiaw a fwiend of mine? But no mawaw; I will weak a tewwible wevenge for this!

Large numbers of men are going back to contract 15, C. P. R., and it is expected that before next pay day the roll will be as large as ever.

A St. George's Society has been formed at Winnipeg with twenty-eight members. The requisite officers have been elected and active steps are being taken to increase the membership.

Rent is fearful high at Emerson. Houses—that is to say shanties—of the cost of $200 are known to be rented from $10 to $40 per month. Capitalists would do well to erect buildings there.

Mr. Chalmers, of Sarnia, is at Emerson carrying on negotiations for the Guelph Lumbering Company, of Parry Harbor, one of the largest lumbering companies of Ontario. Should negotiations now going on prove successful, this company will put in 5,000,000 feet of lumber here, and make that place the grand distributing point for Manitoba.

Immigrants are arriving at Prairie City in large numbers every day, and tell woeful tales of their difficulties in travelling from Winnipeg to that place. They report two bridges carried off at White Mud River, and a long distance of the road between Westbourne and Beautiful Plains under water. The settlers are appealing to the Government for aid to rebuild them.

Canadian Items.

(Orangeville has voted $15,000 to the Credit Valley Railroad.

A quantity of salmon trout fry will shortly be placed in the bay at Belleville.

The Belleville Council have resolved not to impose harbor duties on iron ore mined in the northern part of the county during the present year.

Morristown has been designated as a point for the transhipment of imported merchandize to bond through the United States to and from Canada.

York, Middlesex, and Wentworth occupied respectively the first, second and third on the list of counties with respect to the sale of law stamps during last year.

On Monday evening some party entered the livery stable of Mr. Chas. Hewson, Port Hope, and took away a set of harness valued at $30. An old set was left in place of the new.

Many of the members of the Victoria Rifles of Montreal, having resolved to turn out a company on the 24th, Capt. Stanley has been chosen to take command. A number of 66 and 70 veterans will be in the ranks.

The programme for the visit of the Governor-General to Kingston has been definitely arranged. The levee will take place on Thursday evening, and the concert on Friday evening. The degree of L. L. D. will beconferred upon the Marquis by the Queen's College.

The following are the statistics for the town of Collingwood, for the present year: The assessed value of resident real estate, $626,301; non-resident, $63 554; personal property, $35,985; income, $13,800; total assessment, $931,890; population, 4,094; cattle, 353; horses 167; sheep, 66; hogs, 154; dogs, 226.

Effectual Remedy for Coughs.

Twenty years experience in using "Bryan's Pulmonic Wafers" have proved them to be the most effectual remedy for coughs and irritation of the throat, caused by cold, or unusual exertion of the vocal organs: public speakers and singers will find them most beneficial. The entire freedom from all deleterious ingredients renders "Bryan's Pulmonic Wafers," or Cough and Voice Lozenges, a safe remedy for the most delicate person, and has caused them to be held in high esteem by all who have used them. Sold by all medicine dealers at 25 cents a box.

A Question.

Why will people keep four or five ill-looking sickly horses to do the work that one good horse might perform? The answer is, "Oh heaves, is broke-winded, has a cough or cold, or an wind in any way affected; if his appetite is bad, or his digestive organs deranged, has a rough skin or is hide bound, we would in all cases recommend the use of Dr. Darley's Condition Powders and Arsenical Heave Remedy—it never fails to benefit and almost always removes the disease; it is free from anything that can injure, but may be used at all times with safety. Try it and you will be satisfied. Remember the name, and see that the signature of Hard & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

PETTIT'S EYE-SALVE.

An Infallible Remedy for all Diseases the Eye (acute or chronic), Granulation of the Lids, Inflammation of the Lachrymal Canals, Film, and Weakness of the Vision from any cause.

THE AMERICAN EYE-SALVE is presented the public with the assurance of its efficacy as a curative of the most diseases of the eye acute or chronic inflamation whether induced by scrofulous origin or otherwise, weakness or defect of vision diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ Also for all persons whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, when weakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effective remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness safe is its application, being used externally, and, of course, lessening the pain and danger, which necessarily attends the introduction of minerals and eye-washes. Rosewood and Oil Cinnamon Soaps, of Arcadian origin, of resulting from whatever cause, yield to the AMERICAN EYE-SALVE. It is used successfully for Piles. Its searching effect is immediate, permanent cure requires but a few applications. The proprietors of "Dr. J. Pettit's Ambrosial Eye-Salve," while making new and improved machinery for making a more perfect box for the Eye-Salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the Wrapper, Circulars, Advertisements, &c. We call attention to this, as it might otherwise be regarded as counterfeiting.

PETTIT & BARKER,

NORTHROP & LYMAN,
Toronto, Agents for Canada. 36-1f.

Mitchell's Bellandona Improved India Rubber Person Protector.

There never has been a time when the healing of so many different diseases has been rested by outward application as the present. It is to be undiguised fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Leather, and Burgundy Pitch which, when scientifically compounded, is full of electricity and when combined with the pure medicinal drums, is found to be the greatest healing mediums ever brought before the human race.

They are acknowledged by all who have used them to act quicker than any other Plaster they ever before tried, and that one of these Plasters will do more good than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with them it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming supporting and strengthening qualities of a other Plasters, while they have been relieved of its irritating, TIGHTENING, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it to safely done by the external qualities which the Person Plasters contain, and which is imparted to the system, thus removing them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS, PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a bad case of Cancer.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent. half yearly, or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	2	Equal Annual Instalments of	$52	60 Each.
"	3	" " "	35	22 "
"	5	" " "	21	75 "
"	10	" " "	12	33 "
"	12	" " "	11	08 "
"	15	" " "	10	02 "
"	20	" " "	9	43 "

In every case the borrower has the choice of day on which to pay both Principal and Interest, and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

APPLICATIONS TO BE MADE TO THE MANAGERS,

MESSRS. POUSSETTE & ROGER,

AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.

(*Patented July*, 1878.)

Is adapted to all the old fashioned Round Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or figure is an Air Chamber, which forces a large volume of atmospheric gases into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed.—no machinery about it to get out of order.

For Dealers, Rights, &c., address—

WILSON & DAVIS,
Agents.
CAPT. SHERWOOD,
Port Hope. 25-

General.

Sewing Machine
PROTECTION.
Ladies, protect your health by purchasing the
WHEELER & WILSON
which is proven to be
The Lightest Running Sewing Machine in the World!
Natural Philosophy proves it, and Common sense sanctions it, as their motion is Rotating, while that of a shuttle machine is reciprocating. They are more durable than a shuttle machine and far less complicated.
They sew heavier and lighter than any other machine.
They make less noise than any other machine and they do the nicest and greatest range of work, never soiling the thread with oil or dirt. They also took the **Grand Prize at the Paris Exposition**, held in France, on the 21st of October, 1878, from all the other machines present, and there were over fifty-two thousand on exhibition.
The above Leading Machines are sold at Peterborough by
G. A. MITCHELL,
The only authorized Agent. ☞He also repairs all classes of Sewing Machines, and guarantees his work. Office, Hunter-St., Peterborough.

CHICAGO LAUNDRY!
Washing and Ironing
Done in the Best Style. Ladies' Skirts, Dresses &c., and all kinds of Wearing Apparel done in the Neatest Style. Also all kinds of Gents Washing, Pants, Coats, Vests and all kinds of Heavy Washing a specialty. Lace Curtains, Blankets, Quilts, &c. done up at moderate rates. Pillow Shams Crimped and done up neatly. Family Washing taken at low prices. Your patronage respectfully solicited. Corner of Sherbrooke and Rubidge Sts., opposite First Ward School.
MRS. LACHAUR.

P.S.—Parcels sent for and delivered to any part of the Town 13-1y.

GENERAL INSURANCE AGENCY
Established 1836
Fire, Life and Accident.
NONE BUT FIRST CLASS COMPANIES REPRESENTED.
EQUITABLE RATES,
ABSOLUTE SECURITY,
LIBERAL ADJUSTMENT,

GEO. A. COX.
Dec. 24th 1878. 52tf

Springless Trusses & Supporters.
G. W. HOTCHKIN
Will visit as follows:
Port Hope, St. Lawrence Hall, May 28 and 29
Lindsay, Benson House, May 30 and 31.
Peterborough, Chemic House, June 2 and 3.
Cobourg, Parell House, June 4, 5 and 6.
G. W. HOTCHKIN'S treatment is practical rational and economical. Its objects are immediate relief and eventual cure. It is based upon scientific principles, and easily demonstrated to the comprehension of every intelligent person that a truss without any steel springs or hard substances, having healed inguinal and umbilical, as well as variocele, at the advanced ages respectively from 65 to 81 years, must and will stand the test against all Spring Trusses. Mr. Hotchkin's Post Office address, Albion, Orleans Co., N. Y. Go the first day before the crowd goes in. 15-6d

NOTICE.

Dissolution of Partnership

THE partnership heretofore existing between TRUSH, ELLIOTT & MORROW, has this day been dissolved by mutual consent.
HENRY RUSH,
ALEXANDER ELLIOTT,
BERNARD MORROW.

☞All accounts due the late firm, must be paid before the 1st July, 1879. If not settled by that time, will be put in court for collection.
Peterborough, April 23rd, 1879. 17-10ins.

"Sequel to Nancy Lee."

["Jack," Nancy's husband, having been remarkably successful, in a pecuniary point of view during his wanderings, is returning from his last voyage. His faithful little wife stands on the quay, waiting the in-coming of the vessel.]

The joyful news I've heard this day,
Makes my heart to dance with glee;
My sailor lad is coming back
From o'er the stormy sea.

Dear Jack! he's been so long away,
And I have been so lone;
And many an anxious thought had a way
When I heard the wind's sad moan.

The sufferings of the bygone hours
Are now as nought to me.
For soon do we forget the past,
When grief gives place to glee.

The cottage looks so trim and neat,
The supper table's set,
And everything a smile does wear,
To greet its master back.

What do I see! A small, white speck
Out on the waters wide—
It is a ship! His ship! My ship!
And hurrily doth it glide.

I see his dear, old sunburnt face
Full of smiles for me;
Did ever woman feel more glad
Than Little Nancy Lee!

We meet—ah! who can tell
The joy of that embrace!
I gaze at him—dear happy joy
The tears streams down his face.

Now that my darling's home again,
For aye no more to roam;
God grant the happy days he'll spend
In our dear cottage home.

Death of Mr. James L. Biggar.

WITH A SHORT SKETCH OF HIS LIFE.

We announce with deep regret the sudden death of Mr. James Lyons Biggar, the late member of the House of Commons for East Northumberland. Mr. Biggar was the Liberal candidate at the last general election, and the fatigue and excitement of this contest brought on a serious illness, from which he sought relief by a sojourn at the Water Cure at Clifton Springs, in the State of New York. Rest and recreation had in the course of a few months apparently worked a complete cure, and he had written to his family his intention to return home in a few days, when on Saturday afternoon he was, while conversing with some friends, seized with a fit of apoplexy and instantly expired.

Mr. Biggar was the son of the late Mr. Charles Biggar, of the Carrying Place, one of the best known amongst the early settlers in the Bay of Quinte district, and his maternal grandfather was a U. E. Loyalist. He was born in 1824, and was educated at Victoria College, then the Upper Canada Academy. He intended at one time to follow the profession of civil engineering, but this intention was subsequently abandoned, and he became a business partner of his father at the Carrying Place. He married in 1846 Miss Hodgins, a daughter of Mr. Wm. Hodgins, of Sandymount, Dublin, and sister of J. G. Hodgins, L.L.D., and Thos. Hodgins, Q.C., of this city. Very early in life he took an active part in politics, and in 1857 was offered a nomination as the Liberal candidate for the county of Northumberland, which then included the present constituencies of East and West Northumberland. He declined the nomination, but in 1861 he ran in the Liberal interest for the East Riding, and was elected over the then member, Mr. Adam H. Meyers. He continued to sit for that constituency in the old Parliament of Canada until 1866, when he again declined to be a candidate. In 1872 he ran, but was defeated in 1874. Being unseated on petition, he was opposed by the Hon. James Cockburn, whom he defeated by a large majority. At the last general election he was, as already mentioned, once more a candidate, and was defeated by a narrow majority. A man of unusually genial and kindly nature, of quick and comprehensive intellect, sound judgment and great decision of character, his death is a loss not only to his family and the community among whom he lived, but to the Liberal party, of which he was all his life a strong, though not a slavish supporter and champion.—*Toronto Globe.*

Advantages of Staying in Bed.

Taking an occasional day in bed, simply on account of indisposition, is, however, a very simple and rudimentary notion of this glorious institution. Bed is the natural domicile of every man:

"In bed we laugh, in bed we cry:
And born in bed, in bed we die."

Bavard the French physiologist, maintained that man is an animal who exercises the thinking faculty best in a horizontal position. Thus, there are high artistic, social, and intellectual uses connected with an occasional day in bed, which imperatively claim discussion. Brinley, the great engineer, when he was fairly bothered and puzzled by some tough problem, always betook himself to bed until he had solved it. Most people must have a great kindness for Lord Melbourne, who, under the affectation of frivolity, used to get up Hebrew and the Fathers and imperturbable good humor to bear with his wife. Lady Caroline, while the pretty Byron-struck termagant used to smash the drawing-room furniture. His intimate friends would find the Premier calmly taking breakfast in bed, with letters and dispatches strowed all over the counterpane. The poets have been terrible fellows to get out of bed. I suppose it is because the visions of the day and of the night sweetly intermingle. The poet Thomson cultivated laziness as a fine art and thought out his poems in bed. Pope was a still worse fellow. When he had a fit of inspiration on him, he would keep the servants running about for him all through the night. He made amends to them by the pleasantness of his "vails." We take a later instance. Bismarck says, according to Dr. Busch, "I was troubled with varicose veins in 1866. I lay full length on the bed, and had to answer letters of a very desperate sort with a pencil." He has given us one of his experiences when lying in bed. "I used to lie awake full of all sorts of thoughts and troubles. Then Varzin would suddenly come up before me, perfectly distinct in the minutest particulars, like a great picture, with even all its colors fresh—the green trees, the sunshine on the stems, the blue sky above. I saw every individual there. I struggled to shake the thing off; and when at last I ceased to see it, others things came in—reports, notes, dispatches, and so on; but I fell over about morning." Bismarck at Vermilles used to lie in bed a great deal, "because he cannot keep himself reasonably warm in any other way." I sympathize with Bismarck. Accept, Prince, the marks of my most distinguished consideration.—*London Society.*

EDUCATIONAL COLUMN.

(CONDUCTED BY JAS. C. BROWN, ESQ.)

III.—"Boots and His Brothers."—Page 51.

The author of this selection lived about the close of the eighteenth or the commencement of the nineteenth century. His chief works are translations of Norse and Icelandic Tales.

It will be seen, on an inspection of the words of this tale, that comparatively few of them are of classic origin; this may be accounted for by the fact that the selection is a simple narrative in which is given the language of persons in lower life.

This selection is a fable or apologue, that is, a fictitious story or tale, founded on supposed actions of brutes, or inanimate things, and designed to enforce some moral precept. From this fable we are taught the advantages which are derived from cultivating habits of observation, perseverance and self reliance. We would do well to imitate Boots in our manner of life; like him, we should endeavor to make ourselves acquainted with the causes and the results of those events that come within our notice from day to day, and we would be amply rewarded for our toil.

NOTES.

"Boots."—A cant term for one who cleans boots.

"He began life as a boots: he will probably end as a peer."
—*Hood.*

John was boots, &c.—That is, being the youngest he had to wait on the others.

Corno.—Lat., curro, cursum, to run. Because—A. S., be, by, and Lat. causa—a hybrid word. Give other examples from the selection.

One penny to rub, &c.—He was a poor man.

Must.—To be obliged physically or morally. Is must, unfermented juice of the grape, derived from the same root?

Palace.—(Fr., palais, Lat., Palatium, one of the seven hills upon which Rome was built, and where Augustus had his residence)—a royal house; a house eminently splendid.

Big.—Dan., bug, bulge—swelled out or bulky, large or great. Distinguish between stout and big.

Many, many.—Epizeuxis, a rejoining or repeating the same word emphatically.

Distinguish between man, l. 14, and man, l. 15.

Chip.—Ger., kippen, to pare.

Trunk.—Fr., tronc, Lat., truncus, the stem—the body. Give other meanings.

Money.—Perhaps from the Lat. moneta, a sur-name for Juno, in whose temple at Rome money was coined. —See Chamber's Ety. Dic

Living rock.—A permanent, enduring, continuing rock, that is, rock not quarried. Cf. living water, also living force.

Set his heart, &c.—He was zealous or ardent about having the work done.

Fell—A transitive verb. Fall is intransitive. Give a list of transitive verbs derived from intransitive.

Him, l. 29.—Indirect object of get.

Princess.—Lat., primus, first, and capio, to take.

Imagine—Lat., imago, an image, from the root of imitor, to imitate—to conceive or fancy.

Luck.—Good or bad fortune.

Was in vain.—Was without success.

Would set off—would enter on their journey. Give different meanings of set off, also define to set about, to set against, to set apart, to set aside, to set before, to set by, to set before, &c.

Chance—Lat. cado, to fall.

Master—one who has servants or other persons in subjection. Give other meanings.

Went off from—i.e. went away from.

Among—Amoug and amongst always imply number. What do the words amid and amidst imply? Is it correct to say we are among enemies? Why?

Peter and Paul both—i.e. Peter and also Paul. What kind of a conjunction is both?

What wonder is it, pray—i.e. I ask you to tell us what wonder it is &c.

Still—i.e. notwithstanding what you have said.

Oh, if you are such, &c—sarcasm, a keen reproachful expression uttered with scorn or contempt.

Did not care—did not feel concerned.

Climbed—ascended with difficulty. Is this word from the same root as climate?

From whence—from whence, Dr. Johnson styles a vicious mode of speech. It is a pleonasm, like from hence and from thence; it is, however, sanctioned by custom and good usage.

Why, l. 64—why is used here merely as an emphatic expletive.

All by &c, l. 65—completely, wholly, altogether by &c. All is an adverb relating to the phrase by itself.

Good-day—(may you have an agreeable, pleasant, advantageous day), a salutation at meeting and parting.

All alone—completely alone.

Long, long time—the word is repeated for emphasis, the figure is epizeuxis.

Waiting—O. Fr., waiter, to watch, to attend.

Well, l. 70—is here used colloquially as an expletive.

Wallet—perhaps from the Ger. waller, a traveller, walleo, to go.

Haft—that part of any instrument which you have or hold in the hand, a handle.

To jeer and laugh at—to direct their derisive reflections against, to mock, to scoff at

And now what funny, &c—an ironical expression, i.e., a mode of speech by which that which is said is contrary to that which is meant.

Further—to a greater distance; distinguish between further and farther.

Clever—(O. E. deliver) the ancient forms for what we call clever and cleverly were deliver and delivery. Deliver rapidly pronounced became dliver and that was converted into clever by the euphonic genius of the language, (See Ety.)

Well, well, l. 86—denotes concession or admission.

Made game of him—made sport o him, ridiculed him. Give other meaning of game.

A bit—in the smallest degree. Give other meanings.

Rare—Lat. rarus. Strange, fat. extra, without.

A good way—a considerable way Give other meanings.

All these, l. 109—in apposition with they.

Wonder—a state of mind produced by something new, and which cannot be explained.

Right in your head—(right, lat. rectus, rego, ' ' rule) of strong mind.

Fancy—(Gr. phaino, to bring to light, to show) to conceive in the mind. Give other meanings.

In spite—(spite, probably a corruption of despite) in opposition.

Trickled—flowed in drops or in a small stream.

(To be continued next week.)

The Evening Star, Venus.

Many who admire the beautiful star which now adorns the western sky until more than three hours after the commencement of the twilight, may not be aware that its splendor is derived from the sun; that in it, like on the earth, night curtains the landscape, morning dawns and seasons in quick succession come and go. Lofty mountains show that forces which upheaved the Alps and lifted the summit of the Andes above the regions of eternal snow have rigged its surface and covered it with hills and vales. Variable spots prove that clouds float in its atmosphere, and gleams of light, which dart across the sky, afford evidence that in it lightning seams the sky and the thunder's roll reverberates through the valleys.

But three hundred miles less in diameter than the earth and revolving on its axis in nearly the same time, Venus makes thirteen revolutions around the sun while the former makes eight. As the inclination of the planet to the plane of its orbit is at least 54 degrees, its torrid zone is double that extent, or 108 degrees, and its polar circles 54 degrees from the poles. It therefore has two frigid and a torrid, but no temperate zone. Since the sun must arrive at the equator and depart from it to the distance of 54 degrees twice in each year, there must be two summers and two winters annually in the torrid zone and a winter and a summer in each of the frigid. Venus becomes the morning star after its superior conjunction, when it appears, through the telescope, crescent-shaped like the new moon. The orbits of this planet and of Mercury are within the orbits of the earth and consequently they are never seen in opposition to the sun, that is in the east when the sun is in the west, or in the west when the sun is the east. At its inferior conjunction, Venus is nearer to the earth than any other except the moon, and sometimes when approaching the greatest distance, which it seems to recede from the sun, casts a shadow and is visible in the full light of day. If at the period when it is nearest the earth, the enlightened part were fully turned toward the latter, this planet would appear twenty times as brilliant as it now does and almost vie with the moon in dissipating the darkness of night. Being situated at about one-third less distance from the sun than the earth, Venus receives more light from that luminary than is received by the former planet, and seems not to require the aid of a moon. Nevertheless, several astronomers have even gone so far as to calculate the orbit of the supposed satellite, but their observations have not been verified.

The transits of Venus, or its passage between the earth and the sun, when it appears as a round dark spot moving slowly across the solar disc, have been made to assist in determining the distance of the earth from the central luminary. The last transit occurred in December, 1874, and the next will take place in December, 1882. As this can be viewed in the Canada it will awaken a greater interest than the transit which Rittenhouse and others observed more than a century ago. But four transits of Venus have been observed, and after 1882, 121½ years will elapse before the alternately morning and evening star will pursue its seeming pathway across the surface of the orb of day.

Advice to Young Men.

A lady, who signs herself "A Martyr to Late Hours," offers the following sensible suggestions to young men: Dear gentlemen, between the ages of "eighteen and forty-five" (!), listen to a few words of gratuitous advice. When you make a social call of an evening, on a young lady, go away at a reasonable hour. Say you come at eight o'clock. An hour and a half is certainly as long as the most fascinating of you in conversation can or, rather, ought to desire to use his charms. Two hours, indeed, can be very pleasantly spent, with music, chess, or other games, to lend variety; but, kind sirs, by no means stay longer. Make shorter calls and come oftener. A girl—that is, a sensible, true-hearted girl—will enjoy it better and really value your acquaintance more. Just conceive the agony of a girl who, well knowing the feelings of a father and mother upon the subject, hears the clock strike ten, and yet must sit on the edge of her chair, in mortal terror lest papa should put his oft-repeated threat into execution—that of coming down and inviting the gentleman to breakfast. And we girls all understand it by experience, and know what it is to dread the prognostic of displeasure. In such cases, a sigh of relief generally accompanies the closing of the door behind the gallant; and one don't get over the feeling of trouble till safe in the arms of Morpheus. Even then, sometimes the dreams are troubled with some phantom of an angry father and distressed (for all parties) mother; and all because a young man will make a longer call than he ought to.

Now, young gentlemen friends, I'll tell you what we girls will do. For an hour and a half we will be most irresistably charming and fascinating; then beware! monosyllabic responses will be all you need expect. And if, when the limits shall have been passed, a startling query shall be heard coming down stairs, "Isn't it time to close up?" you must consider it a righteous punishment, and, taking your hat, meekly depart—a sadder, and it is to be hoped, a wiser man. Do not get angry, but, the next time you come, be careful to keep within bounds. We want to rise early these pleasant mornings and improve the "shining hours

The Examiner.

PETERBOROUGH, JUNE 5, 1879.

TO THE POLLS, ELECTORS!

To-day the political campaign in Ontario is to be decided by the vote of the electors, and a decision arrived at as to whether or not the Mowat Administration shall be sustained Our readers have already been pretty thoroughly advised on the different aspects sought to have been presented in the contest; and it only remains now to say a last word on the necessity for a full and complete expression of the popular will at the polls. We would remind the electors of the honourable record of the Mowat Government, and of the character of the men who compose the Ministry, in order that they may with full deliberation contrast their record, and their personal fitness as well, with those who appeal to the people to replace them in the Departments. There is not one of the leaders of the Opposition whose record in or out of the House can inspire that confidence which has always been accorded, even by their political opponents, to Mr. Mowat and his colleagues. Who is the man in the Opposition ranks capable of taking Mr. Mowat's place? Who among them could form anything like a respectable Ministry? This is the pertinent inquiry to which we would specially invite the thoughts of the electors when depositing their ballots to day.

The great amount of wise legislation that has characterized the Mowat Administration is only part of a comprehensive system of law reform to be further elaborated. This can only be done by men thoroughly conversant with the principles and purposes of the Acts already passed—the men who have been instrumental in what has already been done. It would be nothing short of a calamity to now replace these men with others who have not the ability to continue the work, and who have the will only to spoil what has been accomplished.

The cry of "extravagance" has already been thoroughly exploded in the minds of all who are at all willing to listen to reason on the subject of expenditure. We would merely remind the electors that no Tory Government in any place, or in any age, has earned a character for economy. We only need point to the late Tory Government of Quebec, and to that now in power at Ottawa, to show how really extravagant Tory Administrations are. With them the people's money has been spent in jobbery for political friends, and in corrupting the electorate for their own ends. But in Ontario the money spent has gone to purely Provincial objects, or has been given back to the people to be expended in local objects, so as to keep down municipal taxation. Increases in departmental expenses have been always below the ratio of the growth of work accomplished, and have had the countenance and approval of the Opposition at all times when made. There can be no danger whatever of a resort to "direct taxation" of which Opposition pleaders often prate; for while the Provincial receipts average about two and a half millions, the expenditure on governmental proper, averages only about half a million, leaving a surplus of two millions to be devoted to such popular benefits as have been bestowed by the Reform Administration. If the Opposition were in power to-morrow they would be called on to administer the expenditure of this money, and we are fully convinced that they could not do it so as to do the same amount of good to the Province, as has been conferred by its management at the hands of the Reformers.

Another important reason why a Conservative government should not be formed in Ontario is, that such a government would be merely the creation of the Tory Ministry at Ottawa. The latter has done an injustice to Ontario in not ratifying promptly the award of the arbitrators who settled the Provincial boundary to the west. The omission was probably to satisfy some of the Conservative provinces who look with alarm on the growing influence of Ontario. A government at Toronto subservient to the mixed powers at Ottawa, could not strive for justice to Ontario in this matter.

Lastly, there is the protective policy of the Ottawa government, which has already been so disappointing to many of those who had hoped much from it. A ministry at Toronto that could be controlled by that at Ottawa, as any Tory Government that could be found necessarily would be, could only tend to make fairer the present unsatisfactory state of things, which the strongest Protectionists hope to have amended. For this reason we see on all hands that honest Protectionists take strong ground in favor of the Mowat Administration.

We only ask that the electors of East and West Peterborough will calmly ponder these things and vote with judgment upon these questions.

Electors stand by a Government that has stood by you, and made Ontario one of the best governed provinces on the continent.

LACHRYMOSE.

The *Review* of Monday is somewhat hurt over the course the EXAMINER and Mr. Bertram has pursued toward Mr. Scott, but to judge from the tears, rather because Mr. Bertram has met the editor in chief in combat and worsted him. Mr. Carnegie should not adopt Mr. Scott's tone of injured innocence and shed so many tears, because foisted at a few political meetings. It is very plain that the Conservative cause is very low indeed, when the leaders here have to put on a melancholy gloom to arouse public sympathy. Mr. Carnegie complains of Mr. Bertram's tactics, but the former is an adept in political wiles, and when foisted with his own petard, he should bear it like a man and give over whining. Mr. Scott's case is hopeless indeed, when his whole meetings are taken up in self-defence, without a word about the Opposition policy or proposed policy, should they attain to power, of which, we admit there is no great danger just now.

The tactics of the *Review* are without precedent in this or any other campaign. What has the electors to do just now with Mr. Bertram's votes at Ottawa, any more than they have to do with the votes of Mr. Carnegie when he was in Toronto? Mr. Bertram is not now seeking re-election, nor is he a candidate in any sense of the word. On the contrary, Mr. Scott is appealing to the electors and it is right, and fair and just, if he has neglected his duty in the past, to make him give an account of himself. If he neglected his duty from session, why should he be sent back to continue to seek his own interests only, to the neglect of the interests of his constituents? The question of Mr. Bertram's votes in the Commons may be discussed when he seeks re-election, but it is irrelevant to the issues now before the people. This is a side issue to draw attention from Mr. Scott's delinquencies and will be treated so by the electors. If Mr. Carnegie has any question of public or political importance to ventilate, which he cannot without the aid of Mr. Bertram, we feel satisfied that Mr. Bertram will gratify him by rendering whatever assistance he can spare the time for. In the meantime, Mr. Carnegie should dry up his tears, meet his opponents in a manly and honorable way, discuss public questions in chaste language and leave the result to the people. Let who will suffer, Mr. Carnegie should not allow his good name to become tarnished by such language as he used at Norwood, by slang, by feminine wailings, or over hasty, angry, ill-tempered words.

Mr. Scott's votes on the Orange Incorporation Bill cannot be defended. He was in a "tight" place and got out at the expense of his own constituency. He is now before the people and cannot explain away that inconsistency, and if he (Mr. Scott) cannot do so, Mr. Carnegie should not attempt to go himself where angels fear to tread. This raising the dust over Mr. J. B. McWilliams letters to Mr. Scott, only shows the weakness of the cause Mr. Carnegie attempts to defend. They were written after Mr. Scott had voted, and at any rate left him to follow his judgment. Wily Mr. Scott thought to hide behind the advice of the Orangemen, but he was left to his own course and that has been double enough. Like muddy water, the more it is stirred the more does it show its sediment. We advise both Mr. Scott and Mr. Carnegie to keep cool, the pain will soon be over.

Workingmen cast your ballots in favor of Messrs. Elliott and Blezard, the champions of pure and honest Government, and the friends of the poor man.

A CANADIAN EXODUS.

Papers on the eastern boundary as well as leading journals at the west, inform us that the immigration from Canada to the United States is greater than it has ever been before. Why should this be? The imposition on Canada of a high tariff has been suggested as the reason, but an attempt was made to scout such an idea by the declaration that people cannot hope to escape the burdens of a high tariff in Canada by going to a country still more highly protected. It must be remembered here that Protection in the United States has reached a more advanced stage than is possible yet in Canada for some years. As we have frequently pointed out in these columns, a Protective era naturally divides itself into three distinct terms as time goes on. First, there is the period of high prices, by reason of little or no foreign competition, next the overstocking of the fenced home market, extreme local competition, and a consequent cutting of prices, and finally the period of ruin to industries born only of Protection, commercial disorganisation and financial panic. Now in Canada we have merely entered upon the first stage—high prices—while in the United States there prevails, if indeed it is not already practically passed, the second—that of low prices. It can readily be seen, then, why the United States attracts, while Canada repels the seeker for a location when the cost of supplies forms a first consideration; and how almost irresistable inducements can be offered by 'touters' for lands in the United States to those who, cost of supplies being equal, would certainly prefer settlement within the borders of their own Canada. This we believe to be the correct explanation of the trouble. Even those who cannot agree with us, cannot but admit their disappointment that the so-called National Policy, which they fondly imagined was to people our territory with a teeming and industrious population, has been (to put it in the mildest form) powerless to prevent a most unprecedented exodus of our people, and that, too, without any counterbalancing influx from other lands. If not the Protective tariff, what then is the cause of this very unsatisfactory state of affairs? We would like some of the Protectionist journals would give their explanation of the position.

THE LIGHTNING CALCULATOR.

Mr. Scott is fond of trying to startle his hearers at political gatherings by a little calculation as to what the Provincial expenditure will amount to if it goes on increasing as it has done since confederation; or, as he puts it, under *Reform* rule. This new "lightning calculator" must either be a great fool, or is rogue enough to presume on supposed folly of those he addresses. He knows full well, or should know, that a great amount of the money that has been expended under Mr. Mowat's administration has been for permanent works like the Central Prison, Agricultural College, Normal School at Ottawa and a number of institutions for the care of the unfortunate and destitute. These having been provided, do not need to be provided from year to year as Mr. Scott would infer from his silence regarding how the money has been invested This is the kind of twaddle Mr. Scott serves for the deception of those who choose to take his statements. Such tactics are positively dishonest—and yet Mr. Scott is addressed in the House of Assembly as "the honorable gentleman;" and would wish to be called the Honourable Mr. Scott! It would take much charity to reconcile his tricks with the title to which he aspires.

The prosperity of Ontario for the next four years depends upon the retention in power of the Mowat Government.

THE THREE CANDIDATES IN THE WEST.

The Reform electors of West Peterborough will do well to notice the similarity of position assumed by Messrs. Hogan and Scott, evinced in the fallacious references of each of them to the financial management of the Mowat Administration. They both confound the very distinct terms "expenditure" and "extravagance;" and both on that ground try to beget an unreasoning opposition to the Reform Government, which, while it has laid out more money than was spent seven or eight years ago, has laid it out to better purpose, and has more to show for the expenditure of any stated amount than can be shown by any government that exists or has existed in this or any other country. This is the wise, just and truly economical government that Mr. Elliott is prepared to support on its merits, and to which Mr. Hogan and Mr. Scott are opposed. Let who will vote for Mr. Scott or Mr. Hogan, it is clearly the duty of every Reform elector in the Riding to cast his ballot for Mr. Elliott, the nominee of the party and the friend of good government.

Support the Government candidates and secure to power a government always attentive to the interests of the people.

MR SCOTT AND ORANGE INCORPORATION.

At Mr. Elliott's meeting in Eamismore, on Tuesday evening, a large majority who were also present at Mr. Scott's meeting a few days before, distinctly confirmed the EXAMINER report of Mr. Scott's explanation of his vote on this question. While Mr. Bertram was referring to this matter they informed the meeting that Mr. Scott's explanation was:

"That he voted for the Orange Incorporation Bill because opposing them "would increase their influence and numbers, but Incorporation would leave them "without a grievance, and in less than "five years they would melt away or disappear like the snow under the summer "sun."

Notwithstanding W. H. Scott, John Carnegie and P. McCarthy to the contrary.

EDITORIAL NOTES.

The Ontario Tories give fuller evidence day by day of how hard up they are in the present campaign. They have now struck hands with Mr. Goldwin Smith, an avowed annexationist!

In spite of their strong desire to do so, the Tories have been unable to point to a single item of the "enormous expenditure" they prate about as having taken place during the last four years in which they can show corruption or wrong-doing, much less blundering or folly. Where would they have saved? In what particulars would they have gone cheese-paring?

Said Mrs. Josiah Allen to her maiden friend Betsy Bobbet: "Betsy, you can't be married and single both; you can't stand up and sit down at the same time.' Josiah Allen's wife had far more good sense than the Ontario Opposition, who contend that a Government can expend its funds and keep them at the same time. It would be unfair to compare Josiah Allen's wife to Mr. Carnegie. That old dame was a much better "man" than he.

Montreal City Council voted the sum of ten thousand dollars to the sufferers by the St. John fire, at the same time that Peterborough, and other towns and cities were sending in their subscriptions. People said Montreal deserved great credit, and that such charity as this was touching. But it turned out that Montreal never sent the money. The reason for not sending it was that the City Council had no power to make such a grant, as it was not for legitimate municipal purposes. It is quite true that the City Council of Montreal had no power, speaking in the strict legal sense, to make such a grant; but neither had the council of any other town. Yet no other place voted money and then repudiated the grant. Montreal ought to be ashamed of itself. It may want help itself sometime.

Mr. Blezard asked his friends to attend a committee meeting as soon as Mr. Bertram had finished speaking.—*Peterborough Review.*

That is a whopper, and the writer knows it. Mr. Blezard requested his friends to attend a committee meeting in the basement of the Town Hall, at the close of the meeting *and not at the close* of Mr. Bertram's speech. If Mr. B. was anxious to have a committee meeting while the speaking was going on, he had no better opportunity than when Mr. Carnegie was addressing the few that remained to hear him. Give us the *Review* for garbled reports.

IMMIGRATION from Canada to the Western States was never, according to the Chicago *Tribune*, within the memory of man so brisk as at present. There can be no doubt that large numbers of those who are now leaving this Province were aided in coming here, with the money of the Canadian taxpayer, so that indirectly our Government agents have been assisting people to get easy access to the United States. How this is to be prevented in future will become a question for the consideration of both the Dominion and Provincial Governments. A system of settlement on wild lands under Government supervision would seem the easiest way of getting out of the difficulty. It is not very likely that emigrants poured into the North West via Hudson Bay, would be subject to the wiles of the American land and railroad agents, who are all the time operating with a view to enticing away those who are sent out to settle in Ontario and Manitoba.

NOMINATIONS.

WEST RIDING.

MESSRS. ELLIOTT, SCOTT AND HOGAN, NOMINATED.

The nomination of candidates for the Local Legislature, took place last Thursday. A fair sized audience was present and listened with good attention. The proceedings were opened by Sheriff Hall, reading the writ, after which

Geo. A. Cox, Esq., said he had much pleasure in nominating Mr. Jas. Elliott as candidate for the Local Legislature. He would not take up much time speaking, but was prepared to give an honest, loyal support to a liberal government.

Mr. Michael Sanderson in seconding the nomination of Mr. Elliott, was of opinion that a change of government would be injurious to the best interests of the country, and that there should be more farmer representatives. He considered Mr. Elliott a young and well informed man, and thought he would make a good representative.

Mr. Henry Collins, on rising said that just as doctors differed, he would differ with the last speaker. He thought farmers were good in their place, but of little use as representatives. He wondered how many farmers returned an honest assessment? He could not see the consistency of kicking out a pettifogging lawyer and leaving five lawyers in the present cabinet. He did not like the "salary grab," and was honest enough to confess it, otherwise he was well satisfied with Mr. Scott, and moved that he should be the representative of the county of Peterboro.

It afforded Dr. O'Sullivan pleasure to second the nomination. He did not do so as a politician, but as a citizen of Peterborough. He took pride in his native land, and sought the best man and best representative. He referred to the EXAMINER and denied that Mr. Scott did not attend to his parliamentary business, and declared that Mr. Scott had paired with other members. To his own personal knowledge Mr. Scott had paired with Hon. Mr. Crooks for a whole week and always assiduously attended to his duties. He blamed the government for the "salary grab" but said if he had been present he would have made the indemnity one thousand dollars. As a citizen he felt pardonable pride in the able and intelligent representation of Mr. Scott, and hoped that he would have a voice among the members of the government.

Mr. Dumble thought that the inconsistency of the former speakers was amusing He did not agree with Mr. Collins that the farmer was poor only on assessing days. He wished Mr. Scott to make several explanations, and concluded by nominating Mr. Geo. Bertram.

Mr. Elias Burnham said his candidate had cast himself aloof from party politics. He would endeavor to cut down the expenses of government, and was of opinion that politics should be excluded from provincial issues. He denied that there was a collusion between Mr. Elliott and Mr. Hogan. He affirmed he was the first man who had asked Mr. Hogan to run. He therefore nominated Mr. Hogan as a fit and proper person to represent them.

Mr. J. O'Neil after a few preliminary remarks seconded the nomination of Mr. Hogan.

Mr. Hilliard had much pleasure in moving a man to meet the views of a large class, Mr. Henry Collins, who as a farmer would well represent the riding. He accused the present government of extravagance and retired.

Mr. R. W. Errett seconded the nomination.

Mr. Elliott being called for said that all were aware of his being a farmer. He had been brought here by a large number of farmers, and thought that farmers were not sufficiently represented. He came before them to vote according to his conscience.

Mr. Scott did not wish to take up time. He referred to Mr. Elliott and certain statements which had been promulgated in regard to himself. He vented his ire on the EXAMINER for an article complaining of his absence from duty and in a lame and unsatisfactory manner tried to refute the charges. He confessed in the three years 1876, 77, 78, he had been absent twelve days. After glossing over his escapades on the Orange Bill, he referred to the "Duration of Parliament," blaming the government for not bringing down their measures more quickly. Rambling over the preceding ground, he dropped upon the "Salary Grab," and held that both parties were responsible. The Farmers' Son's Franchise claimed his attention for a short time, after which he gave place to

Mr. Geo. Bertram who said that he had expected an able attack from Mr. Scott on the administration, but that his hopes had been belied. He criticized very severely Mr. Scott's negligence of duty, and took as example the public accounts committee, where out of 19 sittings only two had been attended by Mr. Scott. He was satisfied that Mr. Elliott was an intelligent man, and would look after the interests of the riding in a proper manner. He gave a full history of the indemnity question, and justly blamed Mr. Scott and his colleagues for their unmanly course. As far as the Mowat administration was concerned, during the whole term of their service not one single charge of corruption was brought against it. He praised the present administration for their aid given to railways, drainage, public buildings, &c., proved that the administration was carried on squarely and within their income. He reviewed the financial condition of the province, comparing it with the Sandfield Macdonald Government, and conclusively shewed the absurdity of the Opposition "cries." He commended the present administration for opening up and developing our resources while depression was hanging over the land, for alleviating public misery by wise expenditure, and concluded by asking every man who had the good of his country at heart to cast his vote in favor of a wise and economical administration.

Mr. Hogan had very little to say on the matter. He considered that both parties were inclined to the stool of repentance on the "Salary Grab" question. He took hold of the principle, and would lay down the following platform: No opposition to just legislation, but support to just legislation. He contended that it was unfair for members to exact more than $600 indemnity. He was of opinion that legislation costs too much and would support a reduction. He regretted that Mr. Elliott was advocating the same platform as himself, and thought that party lines were drawn too closely in provincial politics.

Mr. Collins after making a few cursory remarks, paid a high eulogium to Mr. Elliott, and then declined nomination.

Mr. Elliott in a few words corrected a false opinion in regard to Mr. Hogan. He did not know that Mr. Hogan was in the field first. He was followed by Mr. Scott after which the meeting broke up with three cheers for the Queen.

EAST RIDING.

THOS. BLEZARD AND HENRY CALCUTT THE NOMINEES.

The nomination of candidates for the representation of the East Riding of Peterborough in the Local Legislature took place on Thursday last, in the Town Hall, Norwood. At the hour of 12.30 p. m., Lieut. Col. Haultain, Returning Officer, took his position, and after the Proclamation, read the writ authorizing the election. The nominations were then formally proceeded with.

Mr. Thomas Blezard was nominated by Mr. James Millar of Otonabee, and seconded by Mr. Jas. Bibby of Asphodel.

Mr. Henry Calcutt was nominated by Mr. W. W. Armstrong of Belmont, and seconded by Mr. J. Moloney of Douro.

Messrs. Bertram and Carnegie were also nominated. The Returning Officer announced that he would wait one hour for further nominations, at the expiration of which speaking would commence. During the interim, Mr. J. Burnham, M. P., demanded a poll on behalf of Mr. Calcutt, and Mr. J. R. Stratton demanded a poll on behalf of Mr. Blezard.

At the expiration of the hour the hall was well filled, and Mr. P. M. Grover was moved to the chair.

Mr. Blezard being the first nominated, as he seconded the platform was received with sounds of applause, and for 45 minutes, explained his position as a candidate, refuted the charges made against the Government by the Opposition speakers, defended the policy of the Mowat Government, and belittled the means that his opponents were using against him, and dared them to point to one instance where he had stooped to any unmanly act to injure the election of his opponent during the whole of this campaign, and closed by telling his hearers that when he came back from Parliament he would be better able to speak at length on public matters. He believed the electors were in favor of an independent supporter of an honest government, and that they would so pronounce on the 5th of June.

Mr. Blezard sat down amid loud and prolonged cheers.

Mr. Calcutt for twenty minutes held up to public gaze the many public enterprises that he had been engaged in since coming to Ashburnham, charged the government with extravagance, and asked for the support of the electors to defeat the government.

Mr. Bertram then addressed the electors for two hours and ten minutes. His speech was a masterly one giving a clear statement of the finances of Ontario, and left an excellent impression.

Mr. Carnegie was the next speaker. He dwelt principally on the Dominion Government affairs, and urged the defeat of Mr. Mowat because he was not economical. He had wasted the money of the people, and proved untrue to the interests of the country. The speech which occupied nearly an hour and a half in delivery, fell rather flat upon the audience which had dwindled down to about a baker's dozen. Compared with the speech of Mr. Bertram, it was weak and ineffective.

A very large portion of the audience was Reform.

A vote of thanks was then given to the chairman. Three cheers for the Queen, three for Mr. Blezard and three for Mr. Calcutt, closed the meeting.

The colors of the different candidates are: Mr. Blezard, RED, and Mr. Calcutt, BLUE.

A HORRIBLE CRIME.

A WATCHMAN AT MONTREAL MURDERED AT HIS POST.—DESPERATE STRUGGLE FOR LIFE.—THE PREMISES FIRED BY THE ASSASSINS—VALUABLE CARRIAGES DESTROYED.

MONTREAL, June 1.—About two o'clock this morning a fire was discovered in Morey's livery stable Lagauchetiere street, and the reels were quickly on the spot. The firemen first succeeded in freeing seventy-five horses in the rear of the building by a back entrance, and while this was in progress the firemen from the central station had succeeded in entering by the Lagauchetiere street doors, and soon had a stream playing on the carriages and the parts of the building which were on fire. In a short space of time the fire was conquered, and as the smoke cleared away, it was found that the flames had been set in a carriage near the door. Nineteen of Morey's coupes and carriages were destroyed, or seriously injured, amongst others being those which did service for the Princess Louise and Marquis of Lorne. The coupes were of the latest New York style, and Mr. Morey says that they cannot be replaced for some months. The fire was first discovered by two constables, and while one ran to give the alarm, Constable Gravel went across to the door of the office, inside of which he heard strange noises, as though a struggle was going on. He tried the door, but it was locked. With a strong effort he forced it open, when he was horrified by

A MOST GHASTLY SPECTACLE.

Through the strange unnatural light which the flames cast through the office, he saw a form advancing towards him, and as he stepped forward, the almost lifeless body of the watchman fell helplessly into his arms, besmearing his clothes with blood. He conducted the half unconscious man into the street, and crossing over, set him on the sidewalk, but the unfortunate man, with last failing strength, stood up and staggered forward toward the burning building. He was restrained by the policeman, who conducted him to Juror's street police station, where he was given in charge of constable Guyon. He was quite unconscious, and his features bruised distorted and covered with blood, could not be recognized. Constable Guyon assisted him over to the water tap, and then bathed his head. As the water trickled over his face, he shivered slightly and returned to consciousness for a few moments. His head and neck were covered with wounds, but when the constable asked him who caused them he made no reply. On being asked if he suffered much pain, he lifted his head and answered in English. "I suffer very much where they stabbed me with the knife." He spoke with great difficulty, gasping out every word, but before the stupor returned over him he uttered the words, "I prevented them anyway." After which he sank back and did not speak again. He was conveyed to the hospital at 2.30, and died at 10 this morning, without having recovered consciousness. An examination of the office showed that a desperate struggle for life had taken place between the watchman and his assassins. The chair on which he had been sitting when surprised by the ruffians was standing in the middle of the office, the rug, which had doubtless covered his knees, being stained with blood. The wall and wainscoating were smeared with blood from the saturated clothes of the victim, while the floor in several places was covered with crimson marks. The stove was leaning, the pipe broken and several pictures which had been on the wall were lying on the floor, their glass frames having been shattered to atoms. An old iron dumbbell, covered with clotted blood, lay on the floor. It did not belong to the office, but had been brought by the murderers and was doubtless the instrument with which they first struck the unfortunate man.

The side of the wall is spattered with blood which must have followed the crashing in of his skull, and the side of the door is daubed with blood in such a manner as would result from his head falling against it and sliding downwards to the floor, whereon he lay in a pool of blood when he was found. Quenville leaves a wife and three children. He was a sober, industrious man. It is supposed the murder was committed and premises fired by carters, who have long had an animosity against Morey for having deprived them of the Ottawa and Windsor Hotel custom. The loss is estimated at $15,000. The Insurance is destributed as follows:—North British and Mercantile, $6,000 on vehicles; Ætna, $4,000 on vehicles and $1,000 on horses; Hartford and Scottish Commercial, $4,500 each on horses and vehicles.

A reward of $1,000 will be offered for the detection of the murderers, in the hope that one of them will give Queen's evidence.

CABINET CHANGES IN MANITOBA.

Resignation of the French Members of the Cabinet.

WINNIPEG, May 29.—In the Local Legislature to-day Premier Norquay announced the resignation of Mr. Royal, Minister of Public Works, which has been accepted. Full explanations were deferred. It appears that the French members, nine in number, and all supporters of the Ministry, expressed considerable dissatisfaction because the Government had not the support of a majority of the English members. Mr. Norquay demanded the resignation of Mr. Royal, whose French colleague, Mr. Delorme, also resigned. The English members immediately combined to support the Government, which will be reconstructed after the conclusion of the labors of the present session. The French party under the new state of affairs will be left unrepresented in the Cabinet.

Great changes are looked for in consequence of the altered state of affairs, both in the personnel of the Government and the nature of the legislation. It is regarded as not improbable that the parties will be divided by nationality. The English are largely in the majority, holding 15 out of 24 seats.

A bill has been introduced by the Government in the Legislature permitting members of the House to vote at local parliamentary elections either by ballot or open vote.

The St. Hyacinthe Election.

The result of the contest in St. Hyacinthe, to which all eyes have for some time past been anxiously turned, in the election of the Hon. M. Mercier by a majority of over 300. The significance of this result is perfectly plain to the most casual observer. When Mr. Joly's Ministry was formed a year ago, his Treasurer, the Hon. Mr. Beehand, a strong candidate in many respects, was elected for the city by a narrow majority over the man who was opposed to Mr. Mercier on Tuesday. Mr. Joly's Government was forced to depend on the vote of the Speaker to carry their measures through Parliament, and some time ago the party suffered a severe loss through the untimely death of Mr. Beehand. It has been most persistently and boastingly predicted ever since that St. Hyacinthe would be this time carried by the Conservatives, and that the Joly Administration would then be driven from power. The very gratifying victory of Tuesday settles for the present the fate of the Government. Mr. Joly will be at least as strong next session as he was last, and probably stronger. There are two other constituencies about to elect members, Rouville and Chambly. The former of these is Liberal, but was temporally lost at the last election. There is now the very strongest reason for believing that both constituencies will return supporters of the Joly Administration, and that instead of a majority of one, he will meet the Legislature with a majority of four at the very least.

Smith.

FIRE.—On Friday last the barns and outbuildings belonging to Mr. Stabler of Smith, were consumed by fire, together with about fifty bushels of oats, a combined reaper and mower and a number of other articles. The loss is estimated between $250 and $300. No insurance. The fire was caused through a neighboy lighting stumps on an adjoining farm to keep black flies from his cattle.

COURT OF REVISION.—The Court of Revision on the assessment roll of the township of Smith for the year 1879, was held at the town hall Bridgenorth, on Monday 26th May. Two appeals were tried namely: T. Beavis, Sen., to have T. Beavis, Jr., assessed for his property, but not being *bona fide* owner or tenant the assessment was confirmed. The Secretary of the C. P. & M. R. & M. Company appeared on behalf of the Company, complaining of excess of land on roll, and overcharge on same, but the explanation of the Assessor being satisfactory the Assessment was confirmed. The names of Wm. Preston, Jr., and R. J. Deyell, were inserted in the roll as Farmers' Sons. After altering the assessment of some property which had changed owners, and erasing some lots from the non-resident roll and inserting them in the resident roll, the Court passed the roll and ordered the Clerk to certify to the same.

COUNCIL MEETING.—After finally passing the roll the members went into Council. *Minutes of last meeting* read and confirmed. A By-law to make provision for re-dividing the Township of Smith into four polling subdivisions, in conformity with the provisions of the Revised Statutes of Ontario, and to repeal a By-law, received its several readings and was signed and sealed. The Clerk was instructed to procure a copy of the latest edition of Harrison's Municipal Manual for the use of the Council. Provision was made for rendering such aid to George Parsons, and John Clark, as may seem imperatively necessary, the cost not to exceed one dollar per week each. The Reeve and Councillor McIlmoyle were instructed to have the side roads, between lots 24 & 25 in the 13th con., and between lots 27 & 28 in the 17th con., properly surveyed and located. The following claims were ordered to be paid —Geo. Hilliard for flour furnished Mrs. Hartley, $18.25; J. R. Stratton for printing 700 copies of collectors receipts, $7; C. A. Weller for advising Reeve as to mode of running quarter line between lots 6 & 7 in 2nd con., $2; Henry Bowie for work on road, $2; R. Waram for support of John Clark, $4. The Council then adjourned.

Says the Toronto *Telegram*:—The Chicago *Tribune* affirms that "within the memory of man, emigration from Canada was never so brisk as at present." We shall probably be told by the Grit organs that this is owing to the adoption of the National Policy, despite the fact that the country to which these people are going to is protected to a far greater degree than the country they are leaving. Under the head of "a great many dollars in promoting immigration from the old country. It is a question if it is wise to spend money in bringing out immigrants from the old country for the doubtful pleasure of seeing those immigrants betake themselves to the States, or even to the North-west.

The Solargraph Watch!

ONLY $1.00.

A perfect Time-keeper, Hunting-Case, and Heavy Plated Chain, latest style. We warrant it for five years to denote time as accurately as a $100 Chronometer Watch, and will give the exact time in any part of the world. It also contains a **First-class Compass**, worth alone the price we charge for the Time-keeper. For Men Boys, Mechanics, School Teachers, Travellers, and Farmers it is indispensable. They are as good as a high-priced watch, and in many cases more reliable. Boys, think of it! A Hunting-Case Watch and Chain for $1.00. The SOLARGRAPH WATCH is used by the Principal of the Somerville High School, and is being fast introduced into all the schools throughout the United States, and is destined to become the most useful Time-keeper ever invented. The SOLARGRAPH WATCH received a Medal at the Mechanics Fair, at Boston, in 1878.

This is no toy, but is made on scientific principles, and every one warranted to be accurate and reliable. We have made the price very low simply to introduce them at once, after which the price will be raised.

The Solargraph Watch and Chain is put up in a neat outside case, and sent by mail to any address for $1.00. We have made the price so low, please send two stamps if convenient to help to pay postage. Address plainly,

will be held under the

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes—224 lbs, 112 lbs, and 56 lbs. (The bags are all of a superior quality of linen and suitable for bedclothing or other domestic uses.) It is said by persons of wide experience that one cause of inferiority in quality of butter and other dairy products has been the use of common grades of Salt; and the difference is cost is slight when compared with the difference in quality. If dairymen and others will consider this in manufacturing, only 28 lbs of salt are required to make 100 lbs of cheese, and only 1 oz. of salt to make 1 lb. butter, they will recognize of how small importance must be the first cost of one of the most important ingredients in the manufacture of all dairy products.

☞We know that having once used it, you will continue to do so.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, *Station D, New York City.*

The Greatest Remedy) Known.

Dr. King's New Discovery for consumption is certainly the greatest medical remedy ever placed within the reach of suffering humanity. Thousands of once hopeless sufferers, now loudly proclaim their praise for this wonderful Discovery, to which they owe their lives. Not only does it *positively* cure Consumption, but Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness and all affections of the Throat, Chest, and Lungs yield at once to its wonderful curative powers as if by magic. We do not ask you to buy until you know what you are getting. We therefore *earnestly* request that you call on F. Lane & Co., Druggists, and get a trial bottle *free of charge*, which will convince the most skeptical of its wonderful merits, and show you what a regular one dollar size bottle will do.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of Mountains, gleus and ocuans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up disheartened, discouraged and worried out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when born. Dyspepsia and Liver Complaint is the direct cause of seventy-five per cent. of such maladies as Sick Headache, Depression, Sick Headache, Constipation, Nervous Prostration, Dizziness in the Head, Palpitation of the Heart, and a host of distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it.

The Examiner.

PETERBOROUGH, JUNE 5, 1879.

LOCAL NEWS.

☞The Nicest Government after six years of rule stands to-day unchanged, much less convicted, of the perpetration of a single job.

Town Council.—The next meeting of the Town Council will be held on Monday evening.

Baptist Church.—The pulpit of the Baptist Church was occupied by Mr. Metcalf, on Sunday evening last, in the absence of the Pastor.

Returned.—Mr. Hodge, of the firm of Hall & Hodge, of this town, returned home on Monday from a visit to England, where he has been for the past two months.

Ashburnham Council.—There was no meeting of the Ashburnham Council on Monday evening last—a quorum not being present. Councillors Mowry and Wand, were the only representatives who filed an appearance.

Cleaning Up.—Health Inspectors McGhee and Beavis are threatening summarily punishment to all who neglect having their back yards cleaned up. As they evidently mean "business" offenders should lose no time in complying with instructions.

Personal.—His Honour the Lieutenant-Governor has been pleased to make the following appointment, viz.:—James Henry Lowe, of the Village of Haliburton, Esquire, M. D., to be an Associate Coroner in and for the Provisional County of Haliburton.

Complaining.—The winners in the late three days walking match, complain through the columns of our evening contemporary that they have not as yet received the amount of their prizes, and speak in pretty strong language of the conduct of the promoters of the tournament.

Presentation.—At the close of the exercises at the Ontario Commercial College, Belleville, on Thursday last, the students composing the graduating class presented the principals, Messrs. W. B. Johnston and J. W. Johnston, with an address expressive of the high estimate in which those gentlemen and the College are held.

Style, elegance, location, moderate prices, and choice of either the American plan $2.50 to $3.00, or the European plan $1.00 per day, and upwards, *meals* in the elegant Restaurant attached to the house, *all* units in giving the traveller more, for the same money, at the Grand Central Hotel, New York, than elsewhere.

Contentment is a jewel worth scouring, but its possession is very often prevented through a tight, bad-fitting pair o boots. Larmour is now making the new style of shoe, known as "The Contentment," from the fact that its patrons are wearing them enjoy so much pleasure that any trouble they may have vanishes as soon as they fit them on.

A Lucky Boy.—Last Thursday, while the workmen were engaged tearing up the old sidewalk on Simcoe street, in front of W. Rogers' son & Co's store, a boy standing by luckily found a $5.00 bill lying in the rubbish close to the grating. It is needless to endeavor to describe that boy's feelings as he quietly pocketed his new found treasure and proceeded to the nearest store, where he invested in a rubber ball.

Ladies' Walking Match.—The ladies' walking match announced in last issue came off in the Drill Shed on Friday evening. There were three entries, namely: Mrs. Curtis, Mrs. Kelly and Miss Carpenter. The race commenced at 6.30 o'clock, and continued for three hours and a half, resulting as follows:—Mrs. Curtis, first, 14 miles, 10 laps; Mrs. Kelly, second, 14 miles; Miss Carpenter, third, 13 miles, 10 laps.

A Correction.—The rumor that Mr. S. White had received a Government order for supplying the North-West Mounted Police with boots for the coming year is, we learn, without foundation. Mr. White having all he can at present attend to in filling orders for his custom trade, which during the present season has far exceeded his anticipations. He does not at present purpose going into the wholesale manufacture.

"White's New Foundry."—The Campbellford *Herald* of last week contains the following:—

"Mr. White, of the firm of White & Co., of Peterborough, was here last week, and made arrangements for the erection of his branch works, which, we believe, will commence immediately. The building will be built of brick, the contract for the foundation and brick work being let to Mr. William Johnston. Success to its completion, arrangement and operation."

Seasonable Advice.—One of the highest authorities in the commercial community of New York says:—

"Practical business men, when acting for themselves, do their advertising through papers of circulation and influence."

As the EXAMINER has both the largest circulation and most influence of any paper published in the County of Peterborough, the benefits to be derived from advertisements inserted in it will be apparent to any business man who wishes to extend his business and secure for his trade the best class of customers in the county. "A word to the wise is sufficient."

Grangers' Annual Pic-Nic.—The annual Pic-Nic of the Division Grange, comprising the counties of Peterborough, Northumberland and Durham, will be held at Idyl-Wild, on Wednesday next, 11th instant, when addresses will be delivered by W. Hill, Esq., Ex-Master, Dominion Grange; R. J. Doyle, Esq., Owen Sound; Jas. Daly, Esq., Napanee; J. Trout, Esq., Oshawa, and others. Athletic Sports will be held under the management of the committee, and a brass band will enliven the proceedings by music. The "Golden-Eye" will leave Peterborough Wharf, at 7.30 a. m., to convey excursionists to the Pic-nic grounds, calling at all points on the river. A cordial invitation is extended to all friends.

Foresters' Celebration.—The managing committee are now actually engaged in arranging for the celebration which is to take place in this town on Tuesday, 17th instant, under the auspices of the members of Court Peterboro', No. 99. It is expected that several Courts will be represented in the procession, which will leave the Court Room on Water Street, at 1 p. m., and proceed through the principal streets to the Agricultural Grounds, where the afternoon will be engaged in contesting athletic sports and games for which a large number of prizes are offered. A masquerade promenade concert is spoken of for the evening. The regalia and uniform of the order is said to be very handsome and the procession will no doubt be an imposing one.

Polling Places.—The following is a list of the polling places in the Town of Peterborough:

WARD NO. ONE.

No. 1.—House on corner of Perry and Aylmer Streets.
No. 2.—Minden School House.
" 3.—T. E. Fitzgerald's Shop.

WARD NO. TWO.

No. 4.—Council Chamber.
" 5.—George McComb's Shop.
" 6.—T. Beavis' Shop.

WARD NO. THREE.

No. 7.—Lockhart & Chevren's Shop.
" 8.—John Cash's Shop.
" 9.—F. C. Hill's Shop.

WARD NO. FOUR.

No. 10.—W. Lee's Shop.
" 11.—Hall's New Cooper Shop.

Support a Ministry which has removed millions in unnecessary taxation to be expended in local improvements, and saved the people to this extent from the burdens of local campaign.

Temple Anniversary.—The first anniversary of Peterborough Temple will be celebrated on *Friday evening*, 20th June, by a strawberry festival and literary entertainment.

A Well-Almond Man.—One of the best almond men in the county just now is Mr. John Bertram, and when Tory spirits and cruisers begin to shower their billingsgate upon any man—to spend columns of words in trying to demonstrate that he is nobody—it may be taken for granted that he is a man who is making himself felt. Of his ability he has given full evidence in the eloquent and stirring addresses he has delivered during the campaign. He has not hesitated to characterize in plain terms the conduct of the Opposition, and the more plainly and truthfully he pictures them the more uncomfortable they feel.

The Midland Railway.—The Port Hope *Guide* of Tuesday, says:—

"Mr. Cox seems determined to make the Midland Railway pay its own way, if, by economy, it is possible to do so. As a consequence of this policy Messrs. A. White and H. O. Taylor have already received notice of a reduction of salary after the termination of their present engagement. Mr. Butler, bridge keeper; Mr. Pope, road master; and Mr. Clarke, civil engineer have all been relieved of their positions. The latter has been acting as bookkeeper in the office in one person. W. J. Forrest, of the freight department, has been entrusted to the public. Conductor Reynolds has been relieved of duty at the same time; although in his case the company have been influenced by the result of the law suit arising out of an accident at Bowmanton. These changes and reductions will doubtless effect a considerable saving in the working expenses of the road, and in connection with other economical measures tend to place the road in a paying position.

Dominion Day.

During the reign of Her Majesty, the 24th of May will always be honored in the Dominion with becoming demonstrations of loyalty. Her Majesty is personally popular, and this fact alone has attracted towards her the personal good will of her subjects in every quarter of the globe. When she came to the throne, British North America was a thinly populated and little thought of place. Now, however, the Dominion of Canada is an important part of the British Empire, and its importance appears to be growing every day. But the Queen cannot live for ever. Much as Her Majesty's subjects desire her long life and happiness, yet she must die just the same as any other mortal, and when she dies the 24th of May, as a day of popular rejoicing, dies too. Will the people of the Dominion then celebrate the birthday of the King? We doubt it. In the future Dominion Day will be the day for popular rejoicings in Canada. Now that Dominion Day has been made a statutory holiday, it becomes the people to honour it, by such acts as will prove that they take some pride in Canadian Nationhood. We are not less loyal to the Crown because we are loyal to ourselves, and pride in promoting the greatness of the land in which we live. Even as the day approaches now, something more than pic-nicking should be undertaken. It is properly handled on Dominion Day all hands can be joined, and another great step made towards promoting that harmony and good will which every citizen so much desires, but *for which only a few* appeared prepared to make much sacrifice.

The Firemen are making arrangements for the celebration, and we hope that the citizen's generally will give them any assistance that is in their power.

Mark your ballots for the people's candidates—Messrs. Elliott and Hazard, and show to the country that the Peterboroughs are alive to their interests and welfare.

THE MOORE CENTENARY.

The centenary anniversary of Thomas Moore, the immortal Bard of Ireland, was celebrated in Peterborough by a concert in the Opera House on Wednesday evening, the 28th of May.

Moore was pre-eminently the bard of Irish Liberty, and his melodies have created a spirit of freedom wherever civilization has established her reign. He was born at an adventitious time. His country was the victim of statutes even more intolerant than those of the Puritans. But he gave all its wrongs a voice that pierced the ear of the oppressor. With Englishmen, Moore is popular, because he was an Englishman in customs; with Irishmen he is popular, because he was National in spirit; and with Americans he is not over-beloved, because he was a monarchist, who sneered at the pretentions of the colonists, while with all lovers of the muse, Moore is admired from cover to cover. His "Travels of an Irish Gentleman in Search of a Religion" influenced public opinion as Dryden's "Hind and Panther" influenced the public mind years before Moore was heard of. He was born one hundred years ago, at No. 12 Angier street, in the city of Dublin. It is an ordinary public thoroughfare of that metropolis. Not far from it is the locality which derives its historic prominence from being the birth place of Dean Swift. It is known as Hoey's Court. To-day it is in a ruinous condition, like the celebrated "Court of Missing Chairs" in Dickens' dilapidated section of the town. Our poet rose to greatness before he had attained his majority. His sharp and bitter sallies at tyranical members of Parliament soon gave him notoriety. He was pre-eminently social—a banqueter in the hall sense of the meaning of every table he sat by. his songs, anecdotes and repartee, and he, therefore, became a general favorite. His fame soon reached the ears of Walter Scott and young Byron, and they became afterwards bound together by literary fame, if not by social tastes. Whether living at Mayfield or Sloperton, in Paris or in Italy, or enjoying the hospitality of the Marquis of Normandy, Lord Carew or Sir Walter Scott, Moore was always the same staunch friend of the Irish national cause, and he won a great deal to Thomas Moore. It was he who took "The Harp that once through Tara's Hall's" from its decaying embers and struck its chords anew, when all the world thought those chords were hushed for ever. It was he who awoke the poetic genius of Irish patriotism in his own day, and it was he who left on public record that typical virtue of a race, who although

"They love woman and golden store,
Sir Knight, they love honor and virtue more."

It would be tedious to catalogue the works of Moore, which were so varied in character as they were delightful in execution, suffice it to say that after painting the glories of his own land in verse which *will live for all time*, arousing the national spirit of his countrymen by patriotic poems of the most fervent character, and displaying his versatility by the publication of many productions ranging from witty satire to sacred songs of the most exalted character. He wrote the most lovely poem "Lalla Rookh," in which, although he had not visited the East, he yet produced such a *lively picture* of Eastern life that the poem was translated into Persian, and excited the wonder and admiration of the people of that country. But it was not only as a poet that Moore excelled, as about 1807 he commenced the publication of his "Melodies," which still charm the ear. Our reference to the works of Moore would be incomplete did we not mention *his visit to America*, concerning which some of his sweetest memoir poems were written. The "Canadian Boat Song," the pretty air which he heard on the Ottawa, was one of these.

The audience was one of the largest ever witnessed in the Opera House, the success of which is due to the untiring efforts of Messrs. McClelland, Galletly and Miller.

The entertainment was opened by a selection of "Irish Airs" by the Firemen's Band, which performance was on the whole creditable, and shows that the Band is making good progress under the leadership of Prof. Miller. The well-trained choristers under the alternate lead of Messrs. Galletly and McClelland gave their different selections during the evening in an excellent manner, proving that attentive practice and careful tuition had been expended previous to the concert. "I Pose na Fos," by Mr. Davis, received the well-merited applause of the whole audience. Mrs. Bowman, as is usual with this Peterborough favorite, fully sustained the high laurels she has won for herself as a sweet vocalist. Mr. Geddes, of Millbrook, sang the "Tar's Farewell," and was encored. The singers all were hearty applause, and Mrs. Caldwell received an ovation on her appearance on the platform from those who recalled the pleasure she had given them on a former occasion. Her song from Verdi, "Exsaui la vitesmi," was especially well given and an encore, "Croquet," rewarded her excellent rendering of the same. Mr. J. C. Brown gave a reading from Moore, "The Ring." It is useless to follow the programme through in our comments; suffice it to say that the selections were of that cheerful, popular character so well appreciated by all lovers of music. It was in keeping with the cheerful springtime, and one could almost hear the twitter of birds in the echoes of the sweet melodies. The National Anthem concluded the proceedings, which were throughout of a pleasing character, and was deserving the sustained support given it.

If we might be permitted, we would suggest the desirability of the leaders of the choir secure keeping the members of the choir together, so that they might be able to present to the public at some future day another such entertainment as that given on Wednesday night last.

The Fergusonians of Peopia.

The Oxford Professor who, to avoid the wind when talking small, turned around, but forgot to turn back, and walked six miles into the country, was no more forgetful than those who still run the bogs, drastic, cathartic pills, forgetting that Dr. Pierce's Pleasant Purgative Pellets, which are sugar-coated, and little larger than mustard seeds, are a painless and reliable cathartic, readily correcting all irregularities of the stomach, liver and bowels. Sold by druggists.

Literary Notices.

FROM READING.—*Wood's* Magazine from January to April, 1879, inclusive, contains over 200 handsomely illustrated stories, poems, essays, etc., concerning as many different topics of universal interest. The price of these numbers is 40 cents; but they will be mailed, postpaid, together with a $3 Oil Chromo, for only 20 cents (in stamps) to any person who has not seen the Magazine since its recent enlargement and improvement. Also, these numbers may be returned in good order after being read, in which case the four succeeding numbers will be mailed in exchange for them. An agent wanted at every post-office in the United States and Canada. Particulars free. Address S. S. Wood, 256 Broadway, New York City.

THE PHRENOLOGICAL JOURNAL AND SCIENCE OF HEALTH.—The number for June of this excellent family magazine closes its sixty-eighth volume. Its reading matter consists chiefly of a fine Sketch of Governor Prescott, of New Hampshire; a masterly Reply to an Attack on Phrenology; which recently appeared in an English magazine; an entertaining description of Two Curious Orchids; a very instructive paper on The World's Work for Women; a fine portrait and sketch of the late Lydia Folger Fowler; the consummation of the excellent juvenile story, Uncle Jimmie, the Cripple; some suggestive remarks on House Attraction, which are illustrated; a highly esthetic bit of writing entitled The Search after the Ideal, by an English contributor; a valuable contribution to therapeutics in Traumatic Tetanus; a lively little sketch, Piety vs. Health, and other good things. It is also offered "on trial" six months for $1.00. Single numbers, 20 cents. Address S. R. Wells & Co., Publishers, 737 Broadway, New York.

THE NEW WEST ILLUSTRATED.—One of the latest claimants for favor in the literary line is a large and beautifully printed journal of the above title. It is a valuable compendium for far west resources and attractions, published quarterly, and hailing from Omaha, Nebraska. Robt. E. Strahorn, the well-known author and correspondent, is at the helm. Its field is the wide, the boundless West, and judging from the number before us, it will do much toward occupying it. The great mines, the vast stock and agricultural regions, and the glorious attractions of Rocky Mountain climate, scenery and hunting and fishing resorts, are treated in a manner to at once instruct and instruct all. The current number, elaborately illustrated with scenes of far west scenery, contains 48 long columns devoted especially to the great advantages afforded by Colorado for the capitalist, homeseeker and tourist. A sample copy will be sent to any one free.

Vote for Elliott and Hazard and maintain an honest, just, and economical Government.

SCHOOL BOARD.

The regular monthly meeting of the School Board was held in the Council Chamber on Tuesday evening last. Present, James Stevenson, Esq., Chairman, and Messrs. Erratt, Shaw, Edmison, Cook, Menzies, Macdonald, Edwards, Toole, Wrighton, Dumble and Cox.

The minutes of last meeting were read, and after amending, confirmed.

ENQUIRIES.

In reply to Mr. Shaw, the SECRETARY stated that permission had been obtained from the Town Clerk for the use of the Council Chamber for Board meetings.

FEES RECEIVED.

The SECRETARY stated that during the past month he had received from pupils in the the Institute $77, and from non-resident pupils in the Common School $37.

COMMUNICATIONS.

From J. J. Wright, secretary of the Peterboro' Teachers' Association.—Received.

From Miss Brooke, making application for the first vacancy in the Public Schools.—Received.

PRINCIPAL'S REPORT.

The Principal's monthly report of attendance was handed in and read, showing the attendance to be as follows:—

	On Roll.	Average.
Collegiate Institute	142	126
Central School	208	168
South Ward School	198	157
Third Ward School	171	138
Auburn School	71	46
	1090	835

The report was on motion received.

REPORT OF FINANCE COMMITTEE.

Mr. SHAW, Chairman of the Finance Committee read and submitted the following report:

Your Committee beg leave to report that they have carefully considered the estimates required for the maintenance of the Collegiate Institute and Public Schools for the year ending 31st December 1879, and find that it will require an assessment of $3,316 for the Collegiate Institute and $6,275.80 for the Public School, making a total of $12,594.80, and your Committee recommend that the Secretary-Treasurer of the Board do make the necessary demand on the corporation of this municipality to provide and pay over to this Board the above sum of $12,594.80 on or before the 31st day of March 1880 next.

A detailed statement showing the items of revenue and and expenditure for the current year was annexed to the report for information of the Board.

Mr. SHAW in moving the adoption of the report, said that although the estimates this year might seem excessive, yet on examination they would be found less, proportionately, than those of last year. In 1878 the Collegiate Institute had a balance on hand of $1,494.34, besides which they demanded from the town $2,450, making a total of $3,944.34. This year the Institute had a balance on hand of $255.99 and demanded from the town $3,316.00, or a total of $3,665.5, a decrease of $118.35. In 1878 the Public Schools had a balance on hand of $321.02, and demanded from the town $7,950.00. This year they had a balance on hand of $37.50, and demanded from the town $6,938.30, an increase including payment of steam heating apparatus, &c., $893.28. When properly considered he believed the ratepayers should be satisfied with the manner in which the affairs of the Board had been conducted.

The report was adopted.

THIRD WARD SCHOOL REPAIRS.

Mr. ERRETT said he was informed by the tinsmith who went up to fix the furnace in the Third Ward School that it was about burnt out, and would have to be replaced. There was something wrong about the chimneys and flues. He was also informed that the walls behind the wainscoting had not been plastered, the wainscoting being merely attached to the naked bricks. The coldness of the building, he thought, might perhaps be attributed to this.

Mr. EDMISON thought it strange the architect let such work pass. He suggested that the matter be referred to the Property Committee to report.

Mr. ERRETT thought the Committee should have power to fix the chimneys and have the wainscoting and plastering done.

Mr. DUMBLE thought the furnace too small. A larger one would burn less coal.

Moved by Mr. ERRETT, seconded by Mr. TOOLE.—That the Property Committee be and are hereby directed to have the chimneys in the Third Ward School properly fixed and the wainscoting on outside walls made tight and the outside walls under the same plastered, and that the work be let by tender.

Mr. SHAW thought the Committee should report first as to the repairs needed. There would be plenty of time to have the work done after the July meeting.

The motion on being put was carried.

REDUCTION OF SALARIES.

Mr. EDWARDS moved the following resolution:—

That whereas the masters of the reduction and arranging the teachers' salaries have been twice referred to committees whose reports, when submitted to the Board, have been rejected, it is nevertheless expedient and correct that this Board should record its opinion on the question. Be it therefore resolved, that this Board, in view of the severe and universal depression of trade and business, deem it binding on them to practice the strictest economy consistent with the efficiency of the working of the schools, and to this end would recommend that a scale of reduction and management of the salaries be at once made as the several cases may require, and that the Board do now go into a Committee of the Whole, for that purpose.

Mr. MACDONALD seconded the resolution.

Mr. EDMISON raised a point of order, as the matter had previously been decided, and by the Rules of Order could not be discussed unless a majority of the whole Board were in favor of it. The resolution was finally left over as a notice of motion.

Board adjourned.

Vote for Messrs. Elliott and Hazard and prevent the party of scandals, jobbing and corruption from returning to power.

The Review wastes a column of useless verbiage on Mr. Bertram; but utterly fails to disprove that gentleman's position on the wise expenditure of the Reform government for Administration of Justice, maintainance of Public institutions and education. The thing can't be done.

The Health Department's census shows that Baltimore has 321,745 inhabitants and 54,443 buildings. The *American* insists that the number of buildings is much too small.

One Mormon has been convicted of bigamy and sent to prison. This was a test case, and was very pleasant to everybody except the victim.

COUNTY COURT.

Before His Honor Judge Dean.

A sitting of the County Court and General Sessions was opened in the Court House here on Tuesday last, before His Honor, Judge Dean, of Lindsay. The following gentlemen were empanelled as the

GRAND JURY.

Henry Le Fevre, Foreman,
David Breese, John Bird,
Aaron Comstock, Duncan Campbell,
James Clotworthy Richard Mowry,
Patrick D. Drain, Westley Dafoe,
John Douglas, John Flavelle,
George Hewic, Jacob Hick,
Adam Hall, John Isbister,
Duncan McFarlane Edward Reid,
Chas. Richardson James Taylor,
Kenneth Urquhart John L. Williamson.

His Honor in addressing them congratulated them on the absence of a criminal calendar at the present sessions, and remarked that he had been on each of his visits, much surprised at the small number of criminal cases coming before him. The number of such cases in the neighboring county he found much larger. On a former visit he had expressed himself on the wretched court room accommodation, but he was pleased to see the County of Peterborough had now a room which, with a few improvements, would be one of the most elegant in the Province. After regretting the inopportune time at which the Court was being held—on the eve of a general election—and expressing the hope that none would be prevented from exercising their franchise through it, he dismissed the Jury to inspect the buildings and report.

BRECKENRIDGE VS. LINDSAY.—This was the first case which was an appeal from a conviction, made by Hugh Drain, dated 24th of March, 1879, the appellant, J. Breckenridge being charged with feloniously stealing a plough alleged to be the property of the respondent, Ephraim Lindsay. Conviction quashed with cost.

DUMBLE VS. BROWN ET AL.—Replevin. J. F. Dennistoun, Esq., Q. C., counsel for Plaintiff, J. J. B. Flint for Defendant. Verdict reserved till first day of term.

MENZIES VS. THORNTON.—W. H. Moore for Plaintiff, G. Edmison for Defendant. Verdict by consent for Plaintiff, $102.96 damages. Order for execution in four days.

HATTON VS. REDMAN *et al.*—N. D. Beck, Esq., for Plaintiff, W. H. Scott, Esq., for Defendant. Verdict reserved till 1st day of Term.

MENZIES VS. PERRY.—W. H. Moore, Esq., for Plaintiff, R. H. Dennistoun, Esq., for Defendant. Verdict by consent for Plaintiff for $150, subject to award of G. T. Leonard, Esq.

HAGGART *et al* vs. COUGHLIN.—W. H. Scott, Esq., for Plaintiff; W. H. Moore, Esq., for Defendant. Verdict for Defendant.

WEDNESDAY.

DUNSFORD VS. BROWN.—R. H. Dennistown, Esq., counsel for Plaintiff. Verdict for Plaintiff, $184.60

O'DONNELL VS. DWYER.—E. B. Edwards, Esq., for Plaintiff, W. H. Moore, Esq., for Defendant. Not finished.

A Terrible Cyclone.

FRIGHTFUL DEVASTATION IN KANSAS, NEBRASKA AND MISSOURI.—GREAT LOSS OF LIFE.—HUNDREDS OF PEOPLE KILLED AND WOUNDED.

ATCHISON, Kansas, June 1.—A terrible storm of wind and rain passed over northern Kansas and Southern Nebraska on Friday evening. It was most violent between Blue Rapids and Centennial stations on the Branch railroad. The storm moved in a direction a little north of east and passed into Nebraska through Richardson county. The town of Irving, ninety miles west of this place, was nearly destroyed. At this point the storm took the character of a cyclone and levelled everything in its path. Forty buildings were destroyed and fifteen persons killed. Thirty to forty persons were wounded. Among the casualties are the following: John Keeley, wife, father and son killed; Mr. W. J. Williams, killed; Mrs. Brickmaster and five children killed; Jacob Sabius and wife fatally injured; E. Sheldon and wife and sister dangerously hurt; Mrs. W. C. Bates and two children badly hurt; one has since died, and Mrs. Noah, Mrs. George Martin, and several others more or less severely wounded. Among the buildings blown down are two churches, one a fine stone building, a public school, a grain elevator, a railroad depot, and the Watmore Institute. In the neighbourhood of Frankfort four or five farm houses were blown over. At Centralia several houses were unroofed, and great damage done to the crops. At Beatrice, on the St. Joseph and Denver railway, numerous houses were blown down. At Denison Mills, Nebraska, the Catholic church was totally demolished, as also the store of Meade, Reilley & Co. One lady was severely injured.

MANHATTAN, Kas., June 1.—The cyclone crossed Big Blue river at the mouth of Mill Creek on Friday night, uprooted trees, destroyed grain cribs, fences and crops. The house of M. Caudray was unroofed and crushed. Fifteen persons were in it at the time. Mr. Caudray was somewhat injured. Mrs. Tattlock and child were killed.

INDEPENDENCE, Mo., June 1.—A cyclone struck the earth four miles from Lees summit on Friday evening, and took a furrow through the country a hundred yards wide and ten miles long, levelling everything in its track. The house of Mr. Warren was totally destroyed. Two members of the family were killed. Others were severely wounded. The house of Alex. Scruggs was unroofed. His wife's scull was fractured. The residence of Mr. Hutchins was torn to pieces and the family badly hurt. The house of Mr. Harris, near Blue Springs was demolished. Harris, his wife and little girl were killed. Three other children were mortally wounded. Harris was lifted high up into the air, carried 200 feet, and then dashed to the earth, while his wife and child were carried some distance in an opposite direction. At this point the storm-cloud burst, but came together again almost instantly with a terrible crash, bounded from the earth, and came down again near the dwelling of Mr Gore, which it passed through, leaving the side walls standing, funnel shaped. The cloud then rose high up in the air and disappeared in the north-west. The heaviest rain ever known in this section accompanied the tornado, deluging the country it passed.

At Irving 12 persons were killed outright and 40 wounded, most of the latter seriously. Many will die. A Concordia despatch states that the storm was extremely violent in the vicinity of Delphos, Ottawa County. Fifteen dead bodies were brought in from two square miles of territory. One man from Beloit was taken up in his waggon thrown to the ground again, and instantly killed. A woman and a child were thrown against a wire fence and killed. Five persons were killed in one house near Delphos. Crops were severely injured all along the line of the storm. The citizens of Atchison have raised $1,300 for the relief of the sufferers.

BIRTHS.

WAND.—At Ashburnham on Sunday the 1st instant, the wife of Wm. Wand, Esq., of a daughter.

TENNYSON.—At Ashburnham, on Saturday, 31st of May, the wife of Mr. J. Wilson Tennyson of a son.

STEELE.—On the 29th instant, at Mount Pleasant, in the Township of Douro, the wife of Mr. Nicholas Steele, of a son.

MARRIED.

HOWDEN—KEEVE.—On Tuesday the 27th May, at the residence of the bride's father, Asphodel, by the Rev. W. T. Smithson, D.D., Mr. James Howden, Peterborough, to Miss Anna M. Keeve.

MOORE—STABLER.—On the 28th May, at the residence of the bride's father, by the Rev. F. Ratcliff, Mr. Robert Moore, to Miss Mary Stabler, eldest daughter of William Stabler, Esq., all of Smith.

DIED.

GARBUTT.—At Smith, on the 3rd of June, Isaac Jackson, eldest son of John Garbutt, Jun., aged 19 years and 1 months.

The funeral will leave the family residence, Third Concession of Smith, to-day, Thursday, at three o'clock p.m.

YETTS.—At Smith, on the 3rd of June, Mr. Jesse Yetts, aged 75 years.

VEGETINE.

The Very Best Medicine

—FOR—

DYSPEPSIA AND INDIGESTION.

NEWTON, N. H., March 27, 1877.

MR. H. R. STEVENS:—

Dear Sir,—Once more I take the pen to praise that king of medicines, Vegetine. When I began to take Vegetine two years ago with much marked benefit, my friends thought it was a stimulant effect, and would soon vanish, leaving me as bad as before. Thinking that some of those who read the testimonial which I wrote at that time, might think the same, I write once more to satisfy them on that point. Since I began to take Vegetine, almost two years ago, I have gained steadily until the present time, at which I am enjoying my former health, and consider myself cured by Vegetine. Two years ago I was as low as man could be and live. I was confined to the bed for eight months, and given up to die by eight doctors, some of the most skilled in the State. They said I had several diseases, including consumption, heart disease, and several others, equally fatal, and must die. But Vegetine, taken as a last resort, nourished me through, and

A Gentle Word.

A gentle word is never lost;
Oh! never, then, refuse one,
It cheers the heart when tempest-tossed,
And tells the cares that broke one;
It restores sunshine o'er our way,
And turns our thorns to roses;
It changes weary night to day,
And hope and love discloses.
A gentle word is never lost,
Thy fallen brother needs it;
How easy said, how small the cost,
How peace and comfort speeds it.
Then drive the shadow from thy cheek,
A smile can well replace it;
Your voice in music when you speak,
With gentle words to grace it.

When All is Done.

The sun comes up and the sun goes down
And the day and the night are the same as one;
The year grows green and the year grows brown,
And what is it all when all is done?
Grains of sombre or shining sand
Sliding into and out of the hand.

And men go down in ships to the sea,
And a hundred ships are the same as one;
And backward and forward blows the breeze,
And what is it all when all is done?
A tide with never a shore in sight
Setting steadily on toward night.

The fisherman droppeth his net in the stream,
And a hundred streams are the same as one;
The maiden dreameth her love-lit dream,
And what is it all when all is done?
The fisher's net the burden breaks,
And after the dreaming the dreamer wakes.

—Harrison Millard.

The Mechanics' Bank Suspends.

To-day the Mechanics' Bank quietly closed its doors. As this did not occur until this afternoon, and the fact was not generally known, little excitement was shown over it. At 2.30 p.m. there were several people at the bank corner, including a couple of bankers, discussing the situation, but they did not think the failure fraught with results of much consequence. The immediate cause of the suspension was the fact that Molson's Bank refused to make any further advances to enable the Mechanic's to continue business, and the capital being small the concern could not go on. On referring to the monthly statement of the bank for last month we find that its notes in circulation amounted to $168,132, a large amount when the limited business of the Bank is considered. However, the management inflated the circulation by the per centage system. The opinion of a leading banker is that the Bank is too small for its suspension to have any perceptible effect in banking and that depositors will be all right. The authorised capital of the Bank is $1,000,000; subscribed capital, $243,274; paid up capital, $194,794; circulation, $168,132; Dominion Government deposits, $6,026; other deposits on demand, $230,362; after notice, $31,150; due other banks, $113,839; total liabilities, $547,23?. —*Witness, May 29.*

America's Fifteen Inventions.

An English journal frankly gives credit to the American genius for at least fifteen inventions and discoveries which, it says, has been adopted all over the world. These triumphs of American genius are thus enumerated: First, the cotton gin; second, the planing machine; third, the grass mower and grain reaper; fourth, the rotary printing press; fifth, navigation by steam; seventh, the sewing machine; eighth, the India rubber industry; ninth, the machine manufacture of horse shoes; tenth, the sand blast for carving; eleventh, the guage lathe; twelfth, the grain elevator; thirteenth, artificial ice manufacture on a large scale; fourteenth, the electro-magnet and its practical application; fifteenth, the composing machine for printers. It is not often that American achievements in this direction receive due credit from such a source. *New York Sun.*

Shall the Sun be Executioner?

Apropos of the death of the French headsman a curious article by Camille Desmoulins on capital punishment has been unearthed. He advocates the selection from among the imprisoned murderers of the most ferocious of their number to be employed as headsman, that "In the punishment of criminals these wretches might always behold the doom they had merited and perhaps were not to escape." It might be urged that these executioners would bungle their work. Camille proposed a plan "which should be welcomed by all gentle minds, and which has already been proposed in the National Assembly by a just and merciful man, Dr. Guillotin. Employ a purely mechanical instrument, where their will be nothing to do but to cut a rope and let an axe fall." But Camille saw that it might be objected to that the opprobrium of being an executioner would still rest upon the man that held the scissors, and made provision for the objection thus: "Place an astronomical machine upon the scaffold; and at the hour of noon the action of the sun will detach the spring and the celestial body which beholds the crimes of the universe will become also their avenger."

The Pulpit Voice.

Many clergymen have a pulpit voice. When they are out of church they speak as other people do. They do not employ a deep chest-note when they inquire of the butcher respecting roast beef, and they do not use a dismal monotone when they discuss domestic matters with their wives and children. But as soon as they get into church they unconsciously assume an artificial tone; and they are apt to do this when they have any devotional functions to perform. It has often been observed that if a minister who is chatting easy and naturally at table should be asked to say grace, he will suddenly assume his pulpit voice, articulate with it during the ceremony, and then resume the conversation in his proper voice with the dexterity of a ventriloquist. The pulpit voice is probably attributable in a large degree to a desire to give solemnity and impressiveness to the performance. It results from an effort to convey to the hearers the deep sense of awe which may fairly be supposed to suffuse the clerical mind. But the result to the listener is far more likely to be an almost irresistible tendency to go to sleep. The effective voice is always the natural voice. The skillful actor touches every chord in the entire gamut of passion, and he gives force and effect to every phase of sentiment, without putting any undue strain upon his vocal machinery. A great truth must be far more impressive when it is urged in the speakers ordinary tones modified only by whatever influences of sincere feeling may govern the speaker's mind, than when it is offered in an artificial voice, about which there can be no suspicion of genuine pasie.—*Philadelphia Bulletin.*

He Knew the Machine.

One day just before the harvest, an Ohio farmer went to Cincinnati to buy a reaper. A delighted agent collared the granger and dragged him to his warehouse. As they walked down the well-stocked room, the farmer, in a meditative mood, quoted the line, "There is a reaper whose name is Death," but before he could start the second line the agent broke in: "Ah, yes, I know it, sir. I know it like a book. We handled that reaper one season, sir, and I'd take $5,000 out of my pocket this minute if it would undo the damage that reaper did our business in that one year. You dont want it, sir. You don't want to look at it. The machinery is complicated; it gets out of order easily; you have to send clear to Akron for a new piece of gearing; it doesn't cut clean, and it nearly kills the horses. Jams their shoulders all to pieces, sir. I know that reaper, sir. It is an old, old style, sir, and you don't want it. Now here, sir, I can show you a reaper that"—— But the astonished farmer just interrupted him to say that he knew the reaper he mentioned was an old style, but he was certain that it did its work well, though, all the same; it wasn't the kind he wanted, and he had no idea of buying it to work on his farm. He bought another reaper, bloodthirsty as a Cossack, and red as an autumn sunset, and the agent told how nicely he sold a reaper to an old fellow who came in there just dead set for some old machine that he had never heard of before.—*Western Farmer.*

Singular Verification of a Dream.

Two young men, residents of North Agawock, says the Fairfield (Me.) *Chronicle*, met one morning and one of them said: "Charles, I dreamed last night that you were a judge of the Supreme Court of Maine, that I was a minister, and that you called on me to open your court with prayer." Just thirty years after this the Rev. Dr. Charles F. Allen, late President of the State College, happened to step into the Supreme Court room in Augusta. Judge Charles Danforth beckoned to him, and asked him to open his court with prayer, and behold, the dream of thirty years was verified. The Rev. Dr. Allen is now pastor of the Methodist Church at Fairfield.

Lazy Farmers' Sons.

We had a little to say recently on "lazy farmers," and now we find in an exchange, the opinion expressed that laziness is at the bottom of the exodus of young men from the country to the city.

"There is one class who leave the farm at the earliest opportunity and intend never to return. They think that farming is altogether "too hard work" for them and they hope to find some easier way of getting a livelihood. They are afraid of hard work and are looking out for an easy chance."

If this be so it is quite certain that these young men are doomed to bitter disappointment. Work, and hard work, too, is the condition of success in the city as truly as in the country. There is no "royal road" to success anywhere. The upward, rugged pathway of toil is the only way to advancement. Young men who are looking for small work and large pay are not in request. There is no demand for them. Henry Ward Beecher once told a young man of his class who was looking for "an easy place," that the only place he knew of, answering to his description, was the grave. It is young men who are not afraid of hard work; young men who are not all the while hunting for a "soft thing;" it is these the world wants, and such, whether their sphere be a town or country one, are bound to get on and do well.

Country Girls.

Meta Victoria Fuller, in a sisterly way, thus talks of country girls:

"The farmers' daughters are soon to be the life, as well as the pride of this country—a glorious race of woman, which no other land can show. I seek not to flatter them; for before they can become this they will have to make an earnest effort of one or two kinds. There are some who deprecate their condition; and some who have a false pride in it, because they demand more consideration than they merit. A want of intelligence upon all the subjects of the day and of a refined education is no more excusable in a country than a town bred girl, in these days of many books and periodicals.

"Many girls are discouraged because they cannot be sent away from home to boarding-schools; but men of superior minds and knowledge of the world would rather have for wives women well and properly educated at home. And this education can be had whenever the desire is not wanting. A taste for reading does wonders; and an earnest thirst after knowledge is almost certain to attain a sweet draught from the Pierian spring. There is a farmer's daughter in this very room in which I am writing—a beautiful, refined, and intelligent woman—in whose girlhood books were not so plenty as now, and who obtained her fine education under difficulties which would have discouraged any but one who had a true love for study."—*Ohio Cultivator.*

The Wool Market.

(From the Chatham Banner.)

Farmers in this locality are talking a good deal just now of the effect of the N. P. on the price of wool. They were promised last summer such a tariff as would greatly advance the price of that staple, and put lots of money in their pockets. Strange to say wool is now lower than it has been for a score of years, and is actually a drug in the market at 18 to 20 cents a pound. While hardware, groceries, clothing, and everything the farmer has to buy has advanced, owing to the imposition of higher duties, wool has actually fallen, and is still allowed to come in free. No wonder the farmers are dissatisfied. They have good reason to be; and we fancy they will not be so ready to trust to the delusive promises of the Tory canvassers hereafter.

The Second Adventist Tragedy.

The Mother of the Murdered Little One Comes to Her Senses She Mourns for Her Child and will not be Comforted.

(Correspondence of the New York Sun.)

BARNSTABLE, U. S.—It was announced this morning that Mrs. Freeman was dying, and an investigation shows that she will live a short time only. She is weeping and starving herself to death, although she does not seek to commit suicide. Confined alone in the cell on the upper floor of the barn-like building, she has, since the first Sunday after the killing of Edith, wept constantly day and night. She has tried to eat, believing that it was her duty to do so, but in the ten days of her imprisonment she has eaten less than would make an ordinary meal. When the Sunday passed and the little girl was not resurrected, as she firmly believed she would be, Mrs. Freeman at once admitted that she and her husband had made an awful mistake, and with this acknowledgment the maternal instinct that pleaded so strongly in prayer that her child might be spared, has returned. She has said that she could not have consented to the sacrifice had she not firmly believed that Edith would be restored to life on the third day. She also says that it was revealed to her husband thirty-six hours before the sacrifice that Edith's immolation was demanded. He went to the barn and prayed for four hours that God would take the cup from him, and she at length went to the barn, and, kneeling on the hay beside her husband, put her arm around his neck, and both of them prayed to be spared the necessity of doing the act, but they got no peace until they determined to do it. Her sorrow is most distressing now. She is in entire possession of her reasoning faculties, and the jailer's wife thinks that it would be a mercy if she could be bereft of reason. She moans "Oh, my little darling Edie, my darling child, how could God have permitted us, who loved Him so and tried to follow Him, to do such a wrong?" and then she bursts into the most passionate sobbing that lasts for hours. The seraphic look that was on her face when she was brought before the Justice is gone. Her face was wasted, leaving her cheek bones prominent, and both are bright red with a hectic flush which indicates fever. Her otherwise white face and bloodless lips, and her great eyes that are red with weeping, her tottering step, and her inability to eat or sleep, are regarded as indications that very soon the reserve nervous strength will be exhausted and that she will rapidly decline. Her love for the baby and her remorse have overshadowed her religious faith.

Her husband knows nothing of this. He is perfectly self-contained and contented, and eats and sleeps well, still confident that God commanded the act. He has been reading "Fremont's explorations." He said to-day to the *Sun* correspondent that he did not want any pettifoggers to defend him for notoriety, but that if an eminent lawyer of Boston or New York would take his case and conduct the defence on the principles of the right of every man to follow the honest convictions of his conscience, he would accept such defence. Justice Hopkins, in his verdict given on coroner, and fixed to-day, says that Edith Freeman's death was caused by the act of her father, who premeditated it, and who committed it without any provocation, abetted by the mother, and that such act was done because both honestly believed that they were commanded by God to do it to illustrate their faith. The Justice believes that if any lawyer dares to go before the court and argue that the act is consistent with a belief in the literal or supernatural teachings of the Bible, and liable to be therefore repeated again, one of the most remarkable points will be placed before the courts of Massachusetts which they have ever been called on to consider.

Happy Thoughts.

Public opinion is a second conscience.

It is weak and vicious people who cast the blame on fate.

A sweet temper is to the household what sunshine is to trees and flowers.

Those who trample on the helpless are disposed to cringe to the powerful.

Adversity does not take from us true friends; it only dispels those who pretend to be such.

He who shows kindness toward animals will display the same characteristics to his fellowmen.

The flower which we do not pluck is the only one which never loses its beauty or its fragrance.

The grandest of heroic deeds are those which are performed within four walls, and in domestic privacy.

The pebbles in our path weary us and make us footsore more than the rocks, which require only a bold effort to surmount.

Work is a necessity in one way or another to all of us. Overwork is of our own making and, like all self-imposed burdens, is beyond our strength.

Kindness is stowed away in the heart like rose-leaves in a drawer, to sweeten every object around them, and to bring hope to the weary-hearted.

Never permit the most resolute curiosity, or the most friendly concern, to find the lowest depth of your character. Gain the reputation for reserve power by reserving it.

Laziness grows on people; it begins in cobwebs and ends in chains. The more business a man has to do, the more he is able to accomplish, for he learns to economise his time.

As the storm goes and the stars come so will trouble go and joy come, if we but live for the within, but not in selfishness. Days will look all the brighter for the clouds across the sunshine.

The best recipe for going through life in an exquisite way, with beautiful manners, is to feel that everybody, no matter how rich or how poor, needs all the kindness they can get from others in this world.

Many a timid child postpones his first attempt at walking simply because he lacks the courage to exercise an ability which he fully possesses; and many a man lets a noble scheme and grand enterprise fall to the ground from the same cause.

Some men fill the air with their strength and sweetness, as the orchards in October fill the air with the ripe fruit. Some women cling to their own houses like the honeysuckle over the door, yet, like it, fill all the region with subtle fragrance of their goodness.

God, who in His mercy gives the flowers each summer to His world, leaves no life to be all winter; but as he "sends rain on the just and the unjust," so to every one there comes some help when it is most needed—some color, some blossom of happiness or of hope.

Pulmonary Disease.

A common cough or cold should never be trifled with: often when neglected it is converted into a serious and generally fatal pulmonary disease. The more prudent, aware of this, promptly use "*Bryan's Pulmonic Wafers*," a curative which has sustained its reputation for over twenty years. They are always efficacious and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all druggists and country dealers at 25 cents per box

How to Make Money.

A horse dealer residing in the vicinity of Keyport, N. J., and who buys up horses for the New York market, purchases "Darley's Condition Powders and Arabian Heave Remedy" by the dozen and feeds it to his horses; he says it is superior to anything he has ever used as a condition medicine, that the horses are so much more improved by its use as to sell more readily and command higher prices. Two other horse dealers, one residing at Huntingdon, the other at Glen Cove, L. I., also purchase it by the dozen and for the same purpose; these men, as well as many others similarly engaged, know too well the value and importance of this medicine ever to be without it.—Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

ELECTRICITY.

Thomas Excelsior Electric Oil—Worth Ten Times its Weight in Gold—Pain Cannot stay where it is used.

It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cent worth has cured crick in the back, and the same quantity lame back of eight years standing. It cures stiff neck, tumors, rheumatism, neuralgia, contraction, of the muscle stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of chronic and bloody dysentery. One tea-spoonful cures colic in 15 minutes. It will cure any case of piles that it is possible to cure. Six or eight applications is warranted to cure any case of excoriated nipples or inflamed breast. For uraises, if applied, often and bound on, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils warts, and corns, and wounds of every description on man or beast.

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and take no other. Sold by all medicine dealers. Price, 25 cts, NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

NOTE—*Eclectric*—Selected and Electrised

Mitchell's Bellandona Improved India Rubber Porous Plaster.

There never has been a time when the healing of so many different diseases has been treated by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

The principal ingredients used in making these Plasters are Gum Olibanum—or better known as the Frankincense of the Bible—Rubber, and Burgundy Pitch which, when scientifically compounded, is full of electricity and when combined with the pure medicinal gums, is found to be one greatest healing mediums ever brought before the human race

They are acknowledged by all who have used them to act quicker than any other Plasters they ever before tried, and that one o these Plasters will do more real service than a hundred of the ordinary kind. All other Plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one applied the patient will feel its effect.

They possess all the soothing, warming supporting and strengthening qualities of al other Plasters. Many who have been relieved of RHEUMATISM, TICDOLOREUX, and various other pains in the KIDNEYS, BREAST or SIDE, and believe it is solely done by the electrical qualities which the Porous Plasters contain, and which is imparted to the system, thus restoring them to a healthy condition.

They are very soft and pliable, still very adhesive; and a sure cure for WEAK BACKS PAINS IN THE SIDE AND BREAST, and are invaluable to those who have a COLD of long standing, and often prevents CONSUMPTION. Some even tell us they believe they were entirely cured by the use of them of a long fleshed Consumption.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent. half yearly, or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	Equal Annual Instalments of	Each.
6	$26 00	..
8	17 75	..
10	15 25	..
12	13 55	..
15	12 05	..
20	10 60	..

In every case the borrower has the choice of day on which to pay both Principal and Interest, and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

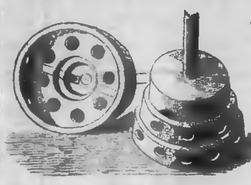
MESSRS. POUSSETTE & ROGER,

AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric

IMPROVED CHURN DASHER.



(Patented July, 1878.)

Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed, no machinery about it to get out of order.

For Dashers, Rights, Etc., address—

A. W. TULLY, Smith.

Or W. TOOLE, Peterborough.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

T. J. B. HARDING, ESQ., BROCKVILLE, ONT.

DEAR SIR,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you. as at first the happy effects seemed to me to be "too good to be true."

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often protracting me from lying long, I would feel like smothering, and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister,

Fort Elgin, Ont., Aug. 24, 1878.

MANHOOD:

"A Lecture to Young Men."

We have recently published a new edition of **Dr. Culverwell's Celebrated Essay** on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and *radically*.

This Lecture should be in the hands of every youth and every man in the land.

Address, **THE CULVERWELL MEDICAL Co., 41 Ann Street, New York.**

Post Office Box 4586. 3-1

TO CONSUMPTIVES.—The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address E. A. WILSON, 149 Penn St., Williamsburgh N Y

PILES.—Dr. Faber's Celebrated Painless Remedy is the best ever known for Piles of every kind (*Bleeding Itching, Blind, Pruxent, Etc.,*) and all diseases of the Rectum, whether recent or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Chronic cases readily yield to it. No surgical operation required. Try it and relieve your sufferings Only 50 cents for a large package. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ABER, 32 Ann-St., N.Y. 25-6m

PIMPLES.—I WILL MAIL (FREE) the recipe for a Simple Vegetable Balm that will remove TAN, FRECKLES, PIMPLES and BLOTCHES, leaving the skin soft, clear and beautiful: also instructions for producing a luxuriant growth of hair on a bald head or smooth face. Address, inclosing 3c stamps, REV. NARCELLE & Co., 59 Ann-St., N.Y. 25-6m

Sewing Machine

PROTECTION.

Ladies, protect your health by purchasing the

WHEELER & WILSON

which is proven to be

The Lightest Running Sewing Machine in the World!

Natural Philosophy proves it, and Common sense sanctions it, as their motion is Rotating, while that of a shuttle machine is reciprocating. They are more durable than a shuttle machine and far less complicated.

They sew heavier and lighter than any other machine.

They make less noise than any other machine and they do the nicest and greatest range of work, never soiling the thread with oil or dirt.

The above took the Grand Prize at the Paris Exposition, held in France, on the 21st of October, 1878, from all the other machines present, and there were over fifty-two thousand on exhibition.

The above Leading Machines are sold at Peterborough by

G. A. MITCHELL,

The only authorized Agent. ☞He also repairs all classes of Sewing Machines, and guarantees his work. Office, Hunter-St., Peterborough.

Rock Me to Sleep, Mother.

Backward, turn backward! oh, time in your flight;
Make me a child again, just for to-night!
Mother come back from the echoless shore,
Take me again to your heart as of yore.
Kiss from my forehead the furrows of care,
Smooth the few silver threads out of my hair;
Over my slumbers your loving watch keep,
Rock me to sleep, mother, rock me to sleep!

Backward, flow backward, O swift tide of years!
I am weary of toil, I am weary of tears;
Toil without recompense, tears all in vain,
Take them, and give me my childhood again!
I have grown weary of dust and decay,
Weary of flinging my soul-wealth away,
Weary of sowing for others to reap;
Rock me to sleep, mother, rock me to sleep!

Tired of the hollow, the base, the untrue,
Mother, O, mother my heart calls for you!
Many a mourner the grass has grown green,
Bloomed and faded, our faces between;
Yet with strong yearning and passionate pain,
Long I to-night for your presence again;
Come from the silence so long and so deep—
Rock me to sleep, mother, rock me to sleep!

Over my heart in the days that have flown,
No love like mother-love ever hath shone;
No other worship abides and endures,
Faithful, unselfish and patient like yours!
None like a mother can charm away pain
From the sick soul and world weary brain,
Slumber's soft calm o'er my heavy lids creep.
Rock me to sleep, mother, rock me to sleep!

Come, let your brown hair, just lighted with gold,
Fall on your shoulders again as of old;
Let it drop over my forehead to-night,
Shading my weak eyes away from the light!
For with it sunny-edged shadows come more,
Happy will throng the sweet visions of yore,
Lovely, softly, its bright billows sweep,
Rock me to sleep, mother, rock me to sleep!

Mother, dear mother! the years have been long
Since last I was hushed by your lullaby song
Since then again—so my soul it shall seem
Womanhood's years have been only a dream:
Clasped to your arms in a loving embrace,
With your soft lashes just sweeping my face,
Never hereafter to wake or to weep;
Rock me to sleep, mother, rock me to sleep!

Henry Ward Beecher in Montreal

His Reply to a Toast.

In company with the 13th Brooklyn Regiment the Rev. Henry Ward Beecher attended the celebration of the Queen's Birthday in Montreal. At the public dinner in the evening, at the Windsor Hotel, he made the following reply to the toast of "The President of the United States:"

"I confess the chief magistracy with us is not permanent in the lifetime of anyone. Every four years obliges us to gather again the choice of the people as to their chief ruler, and so a term of eight years at the farthest, and often but four years, measures out to us the services of our most eminent citizens. In the brevity of the term we must find a reason for many things that must otherwise be open to criticism. Four years are not more than enough for one to learn how to govern. Another four years may give one an opportunity of displaying more wisdom in the management of the Government. In the case of Mr. Hayes, he has come to the magistracy at a time of peculiar embarrassment. Indeed, what President for the last twenty years has not been in embarrassment? Surely Mr. Buchanan was—of whom let me say nothing, because there is nothing to be said.—(Laughter.) When President Lincoln was elected we were on the eve of the greatest civil war that the world probably has ever known. His first most honest endeavor was to prevent it. (Cheers.) But it burst on him like a southern tornado, and the whole country was wrapped in a flame of war. After it had ended in the surrender of Lee and Jackson, it seemed as though Lincoln might have at least one term in which he would not be obstructed by the uncertainties of the great conflict. It pleased God to give him the crown of martyrdom. Johnson, who was the Vice-President, and who succeeded him, was a man of most honest intentions, who undertook to carry out the policy declared by Lincoln in the reconciliation of the country. But Mr. Johnson was a man too liberal and too obstinate. He did not know how to change front upon the battlefield, nor how to adapt himself to the nature of the soil over which he had to march, and so, settling himself in one particular position, he very soon began to conflict with his own party, and when out of office was more welcomed than when he entered it. After him the choice of the people fell on General Grant. (Loud applause.) General Grant has been, and is, a man of luck, and I think he was lucky in his father and his mother, lucky in the body and in the mind given him as a birthright. When he went into the war it was from the utmost obscurity he rose, although he had had a military education. He very soon had the good luck to succeed. Our nation was a great military academy for the first two years, and our best men were learning their trades. We were certainly surpassed in the art of obtaining victories by the armies of the South, of whose undoubted courage, and of whose performance of what they believed in their own honest hearts to be their duty, all must be convinced. (Loud applause.) We were learning of them the art of war; and if we succeeded in overcoming them it was not because, man for man, we were better than they, but because the Northern men had behind them the industries, the moral sense of that indomitable spirit which education gives to a population of workingmen. For two terms—and they were difficult ones—General Grant administered so that he continued to have good luck; and now having gone, after eight years of service to his country, he has good luck abroad, and if the cheers which he has received in every nation could be expressed in language they would encircle the world as a polyglot. (Cheers.) Contrary to the course of the sun, he rose in the West. (Laughter.) He has gone East. He is coming back to the Western horizon. Whether he will rise again time will tell. At this crisis it was that President Hayes was called to the chair of the magistracy. He represented the opinion of those men who felt that every vestige of the war as a moral force-producing power should be removed. (Cheers.) Now this task was not an easy one, and the presidential bed is not a bed of down. With great patience, gentleness, and benignity he has maintained his front, and bids fair now to come out in confidence not only of the party that elected him, but also in the judgment of the whole nation, second to no President we have had during the past score of years. The Government of the United States desires to express upon all occasions the principle of good will to all nations. We are not a nation destitute of the capacity for war, but we are not a warlike people; we understand the era in which we live; we know that intelligence, industry, and the building up of the common people in competence and power are the great ambitions of the time in which we live; and our Government embraces those views and desires no vain excuses. Why should we wish to extend our territory with a territory which we cannot for a couple of score of years fill up; even with a scattered population? We want no more mountains, no more gold and silver. We want a population peacefully resting between the mountains, and cultivating the valley. We want no neighbor's territory. (Applause.) If there be any territory that would naturally be coveted in a sense that does not break the commandment, it is your territory, gentlemen. (Laughter.) Once or twice we tried to take it, but did not get it. (Renewed laughter.) A fringe of Fenians once tried to take it and got it—(laughter)—a good deal more than they wanted. But they were no Americans. They came from the Green Isle. I think it may be said to the immortal honor of the 13th that it is the first regiment that has conquered Canada. (Loud laughter and cheers.) I might without irreverence be permitted to say, in the language of the Apostles, our weapons are not carnal. We brought our hearts and you accepted them. You may be sure that in so thrifty a people as we are, who count, and count accurately, the dollars, although we do not always equitably make them (all the more necessity for close counting) that men who earn their money by the honest sweat of the brow—and I am proud to say that the men of the Brooklyn 13th are workingmen—do not leave their homes a thousand miles away as a fancy. No. We came here animated by the generous sentiment of common neighborhood. (Applause.) Canada is better to us as a neighbor than she would be as a subject. She is better between us and the North than she would be if we were jammed close into the North. There is much territory in Canada which we prefer that you should cultivate. But your institutions are kindred to our own; they were drawn from the same source. Indeed, what have we in America that we do not owe to dear old England? (Cheers.) First ourselves—(laughter)—then our literature, or religion, or jurisprudence, and that which goes under neither of these designations, that genious of nations which leaves them to prefer one rather than another's career, the progressive element, the expanding element, that element which dispels ignorance and brings in intelligence. It happened to our people a hundred years ago or more when we had come to our majority, to disagree with our father and mother on the other side, and they undertook to whip us; and after the little unpleasantness passed away, I recollect very well that the term of anger towards Englishmen was "a Britisher." I use it without the adjective. (Laughter.) That feeling died out since our interests were reciprocal. Interest in the long run over-rule prejudices. It happened during that memorable struggle that France opened her hospitable lands to our ambassadors. I know not whether the struggle could have been issued successfully if we had not had the benefit of her navies that hugged our shores and her soldiers and generals who aided our people. But there has always been in the bosom of our people a feeling of gratitude, and we shall count it an ill day indeed in which any hand shall be raised to harm that nation that in our birth struggle gave a mid wife's help to us. Yet we do not derive from France our jurisprudence, nor our literature, nor our religion, nor our stability. We honor her, again, and again, and again. But blood is stronger than water, and after all, in spite of all, our hearts are towards our Motherland. (Loud cheers.) These are not only my sentiments, but the sentiments of every man who has had the happiness and the honor, which he will cherish as long as he lives, of expressing here the neighborly friendship of the people of the United States. We wish to disturb no nation by combination or otherwise. Yet it would be a most unnatural thing if everywhere on the globe the interests of a common civilization should be imperilled, and the flags of Great Britain and the United States be not wrapped together in a common cause. (Loud applause.) Our competition with you is a better industry—see to it that we do not surpass you; a better educational system—see that we do not outrun you; a better citizenship—it is for you to determine whether you will be passed in that. You have our heartiest good wishes and with the utmost generosity we saw marching past us such regiments as the Queens' Own, wishing fervently that we might be thought worthy to share the honors with these men who were so well drilled. Our people deserve to be even with you in every great industry that becomes a great nation. (Cheers.) I cannot sit down without being permitted to add one single word, and that is to express the great gratification which I have tonight in being present at a meeting presided over by the Governor General of the Dominion, whose father and whose mother I personally knew and revered and honored, and that he represents, not alone officially, but in yet dearer and more intimate relations, the most noble Queen and Empress that sits upon any throne in the present era. (Loud applause.) It is necessary in every form of government that there should be more or less a policy and watchfulness in politics. Their grow up around the throne as around the Presidental chair, and may at times become an atmosphere in which truth is refracted. But in our land there are no politics to us around the British throne. We do not look to the Queen as a Tory or a Whig, as a Conservative or a Radical. We look to her as a wonderful type of womanhood, preserving throughout a long life—and may it be doubled in strength—(cheers)—such integrity and such goodness as to draw to her the sympathy, not only of her own subjects, but the admiration of our people—and now, where in the world is a purer, simpler, and kinder feeling, and more ardent admiration, than among the intelligent population of the Queen towards Victoria, by the grace of God, Queen of Great Britain and Empress of India. (Loud cheers)

A Ladies' Economy Club.

There is a ladies' economy club in Philadelphia. The members have husbands who get small salaries, and to make these salaries go as far as possible is one of the objects of their organization. It is managed at every meeting that the next meeting will be at the house of Mrs. ———, one of the members, and in this way each member has one of the meetings in her parlor. These gatherings are conducted upon the principle of experience meetings, a member rising in place and without embarrassment (because she knows by virtue of their presence, the pecuniary situation of those that surround her), telling how she manages to get along on her husband's small salary. These experiences are intended as lessons by which all who listen are to profit. Gentlemen are not supposed to invade these places, but often they get in under pretense of deep interest in the cause, and it was such a subterfuge that accounts for a newspaper reporter's presence at one a few days ago. It was in the parlor of a modest house in the north western section. The hostess welcomed her callers with a bright smile, and, as the ladies were all good talkers, it was not long before they proceeded to business. It started with making children's clothing, and the manner in which "papa's" old breeches were put to a new service after he had doffed them, was astonishing to listen to. Old coats, hats, shirts, &c., were under the skillful manipulation of the housewife, twisted into some useful garment for some little one at home. The talk took a wide range, and fairly turned inside out every department of the household. One lady declared that her husband received only $600 per annum yet she kept her two children nicely dressed.

NORTHWESTERN BREEZE.

A Prosperous and Solid City.

IMPRESSIONS OF WINNIPEG.

WINNIPEG, May 28, 1879.—To the visitor entering Winnipeg on a wet day the most impressive and impressionable thing is the mud. It is safe to say that for breadth, depth and general tenacity of purpose no mud on this continent can approach it. It is peculiar to the country, and notwithstanding its disagreeable qualities one very soon becomes accustomed to it and—well, not exactly glories in it, but does not hold it altogether in contempt. Strange stories are here related of men who in the old days rashly attempted to cross the main street on a muddy day and were never seen afterwards, being engulfed alive in its slippery, sticky depths. But as no bones have yet been dug up, these yarns may be put down as yarns.

IN CONVERSATION WITH THE RESIDENTS

one is struck with their energy, and above all, with their unbounded confidence in the future Manitoba. To them no country in the world has a more glorious future, and anticipating it gives them a lustre quite refreshing to the eastern palate. And no doubt times will prove the correctness of their belief, for the province already has given wonderful evidences of her capabilities as a wheat growing country. The writer has already alluded to the orderliness of the city. A great deal of this is owing to or a concomitant of the steady support accorded by all sects to their churches. The Presbyterians have now almost completed a large and handsome brick edifice which would be a credit to a much larger city. The congregation subscribed over $40,000 for it in a wonderfully short space of time. The Trinity Church (Episcopal) people have been improving also in the way of putting in a splendid new organ. Other denominations are equally prosperous and all live together in mutual harmony. One thing strikes the stranger fresh from western Americans towns, and that is the universal observance of Sunday which exists in Winnipeg. The streets are quiet and the churches fuller than is the case in many Ontario places of equal or larger proportions.

TEMPERANCE HAS OF LATE

years made wonderful strides in the Prairie City. One body of temperance people have a very large hall all their own, and a great number of prominent people are members of the different lodges. This desirable state of affairs is undoubtedly due in part to the example set by the ladies. At the same time, however, no one denies that the fact that whiskey costs fifteen cents a drink has considerably more to do with it than even the fair ones. Talking of this sort of thing, they have peculiar names for very ordinary things here. For instance, if a man is only a little "tight" they say he is "loaded for duck: if he is "pretty well on" they call it being "loaded for deer," and if he is thoroughly intoxicated they say "O, he's loaded for moose," and the parable is excellent, as it requires a very heavy charge to kill a moose!

WINNIPEG HOTELS,

with the exception of one or two, are not even fair. The sleeping accommodation in almost every case is very limited, and the food good, but as a rule, badly prepared. Of course the rates are high, indeed, higher than the cheapness of nearly every article of food would seem to justify. The Canada Pacific Hotel, kept by Mr. John Haverty, and managed by his brother "Tommy," is the hotel of the city and has the best trade of the country. The manager is a genial, accommodating Irishman who gains the good-will of everybody in a very short time, doing his best like a "little man." The Havertys' are talking of building a grand new place in the centre of the town, and if they do there is no doubt they will be largely patronized.

IN POLITICS WINNIPEGGERS

are broadly of no stripe recognized in Ontario, but are to a man Manitobans, going in for nothing that does not concern the province, and paying but little attention to Dominion affairs. In dress, etc., the people are generally a season or so behind us, and in manner rather American. There are few of the genus "swell," and not many of the order of snobs, albeit Thackeray might once in a while seem to be alluding to one or two so-called men about town. But of coarse this is mostly conjecture. They have volunteer companies of cavalry, infantry and artillery, commanded by excellent officers. There is also a dramatic club of decided talent, and last, but not least, an excellent well-to-do club. The 'Manitoba' is a flourishing club

The Examiner.

PETERBOROUGH, JUNE 12, 1879.

THE ONTARIO ELECTIONS AND THE N. P.

The most satisfactory feature of the decisive defeat of the Ontario Conservatives at the polls on Thursday last is the telling rebuke given to their proposed subordination of Provincial affairs to Dominion interests. If they advanced any platform at all it was contained in the miserable and begging plea that they should be given the official positions in the Province because they are in accord with the Ministry at Ottawa on its fiscal policy. They could not show that a Reform government in Ontario could interfere successfully in opposition to matters exclusively Dominion in their purpose, but their plea rested on the moral effect of a decision adverse to the Conservative cause so soon after the astonishing success snatched by their party last September in this province, as well as over the Dominion. Now, as then, their whole care was for the party and not for love of country. Their sole desire was to retain for their party those votes captured by a specious plea at the late Dominion elections. To this end they appealed in the most direct manner to all who voted for a Protective tariff, to continue their allegiance to the Conservative party in the Province, lest the success of the Reformers should be taken as a declaration against the thing called a National Policy. Leading Conservative journals and leading Conservative speakers, stated in so many words, that the success of the Mowat administration in its appeal to the electors, would be a condemnation of the fiscal policy of the government at Ottawa. If their anti-election utterances be now brought up in judgment against them they are themselves to blame for the self-imposed conclusion. They have either to admit that the tariff is unsatisfactory to Ontario, or eat their own words. With so much former practice they will not find it difficult to do the latter, and they will probably prefer it, both from ease and inclination.

We are not of those who would strive to tie these over-zealous Tory partisans strictly down to their declarations on this subject, for besides the general unsoundness of Tory utterances, these were evidently drawn from them at a time when they felt the great need of something to say in the campaign, other than the poor twaddle they had been indulging in concerning Provincial finances, and which had been recognised by the electors in its true character of bad shoddy. They found no basis of assault on the Provincial administration, and in their desperation were forced, for party reasons, to drag in Dominion matters. In this they were if possible more unfortunate than they had been with their financial cookery, for only to a resentment of it can we account for the majority returned for the Mowat Administration, beyond what the most closely calculating of its friends figured out for it prior to polling day. Our estimate of the result had led us to expect a larger majority for the Government than it had in the former Parliament, yet not so great as has been secured at the polls. In this, as in some of the results in particular constituencies, we have to acknowledge error of judgment. We are willing to admit that the result is not so much a condemnation of the tariff itself as of the Tory intention to make that tariff a Provincial question, and thus to mix up Dominion issues with Provincial affairs, and thus destroy the Home Rule that should exist in the Provinces—and which must so exist if our confederation is to be prevented from sinking to a mere federal union, ruled by a centralized power. It is this, we take it, that has been so thoroughly condemned by the vote of Thursday last, and it is this condemnation which has led to the general satisfaction, not to say gladness, expressed in the other Provinces over the result of the Ontario elections.

As far as the National Policy itself is concerned, the Tory government has made plain to it by the Ontario Provincial verdict, that the one grand mistake they have made, is in using the popular vote of last September, as though it were a purely party triumph for the Conservatives. That it is so used, was at once evinced by the party songs of joy raised by Tory journals and orators immediately—to the intense chagrin of many a Reformer who had, however mistakenly, still not as a turncoat, voted for the bringing in of the "white elephant" fraud. Then the Tory leader promptly used his advantage as a purely party triumph by committing an outrage on the feelings of many in his own party as well as on those of all Reformers, when he formed his new Cabinet of as much of the old Pacific Scandal timber as he could lay hands on. Subsequent Ministerial acts have further proved that the grand end and aim of the rehabilitated charter sellers is to bolster up and tack together by any and all means the formerly discredited and disgraced Conservative party of Canada. This is shown in their dismissals and appointments of officials; and more extensively in their Pacific Railway policy. This cannot go on long without a still greater reminder than the gentle one given the Tory Ministry at Ottawa by the Ontario elections. The House of Commons is more of a "National Policy" chamber than a Tory assembly. Although there are undoubtedly men there who would forget if allowed so to do, that they are sent as Protectionists, and not as Tories; yet there are not a few who must in the very nature of things respect their constituents so far as to remember their true position, and for what they were sent to Parliament. Some of those who would like to forget are likely to get very sharp reminders from their constituents of the particular promises on which they were chosen as representatives, and of the special purposes, which have not yet been effected, for which they were elected. The Ontario elections is a sharp awakening to these men, at least that they are not, and must not be mere Tory partisans; but that their first, their sole spring of action, based on personal pledges to their constituents, is National in purpose, and not Tory in design. Those who forget this for the future will only engage in the grim occupation of digging their own political graves, and that too so deep that they will experience no resurrection.

It is useless at this time, and in such a connection to discuss the probable dissatisfaction of the Ontario people, with the present Dominion tariff; for as we have before stated we do not believe this was a direct issue at the polls last Thursday. But their can be no doubt that, independent entirely of Provincial politics, there is a growing discontent with the thing called a National Policy, even among those Ontarians who were dazzled with it in phantasmagoria. What their hopeful imaginations clothed with beauty and goodness, has in the reality proved a hideous demon, that devours our commerce, plays havoc with home trade, and disorganizes business so that the former hard times are made still harder and the ideal "starving workingman" has become, and is becoming from week to week more of a reality. These are the bad effects of the present tariff: and there are no counterbalancing good ones to be enumerated. What wonder then that people in Ontario, as in other Provinces, are disgusted with it and with those who still try to speak in favour of the delusion?

A PUBLIC PARK.

The matter of a public park, (to which "New Comer" refers in another column,) is one which has been more or less talked of for a considerable time, and all that is required to the consummation of such an object, is its being taken in hand by some energetic citizen or citizens, and placed squarely before the people. The advantages that would accrue to the town from such an establishment are patent to all who think of the matter, and the disadvantage under which the town labors in not possessing a public park are equally obvious. Time will come when it will be demanded, and the sooner it is seen to the better. It is not probable that a more fitting opportunity than the present for the purchase of such a property will be in the future, and by "taking time by the forelock" now, much expense may be saved. The payments could be spread over a considerable number of (say twenty) years, and by the collection from the different clubs, societies &c., for the use of the grounds for their purposes, of a rental sufficient to pay off the interest from time to time falling due on the loan which would require to be made, the additional tax *per capita* would scarcely be felt, and at the end of the time mentioned the town would be in possession of a property which would be almost invaluable and certainly indispensable to it.

The present is the more fitting time, too, for such an acquisition, since this year the Central Exhibition is to be held here, and the premises at present available for such a purpose are altogether insufficient. The Agricultural Societies, also, might be constrained to make a contribution to such an object.

We shall be glad to give expression to the views of others of our citizens on this subject.

RAILWAY MEETING.

Now that people have settled down to regular business, they begin to discuss railway matters, and for this purpose a public meeting will be held to-morrow (Friday) evening, in the Council Chamber, to consider the best course to pursue in regard to the Ottawa and Toronto Railway. This is an important question to the people of the Town and County, as it concerns them to the amount of $300,000, and must in some way affect the progress of the Town and the trade of the County, either advantageously, or the contrary. If built, it will affect every ratepayer, as to build it means money, and this Town and County must supply that article largely in proportion to their wealth and anticipated advantages. We therefore advise a full attendance at the meeting. All along we have favoured the project, because we believed it would be in the interest of the Town and County; but there are those who have contrary views, and to them we say,—do not fail to be at the meeting, so as to make public your reasons for so thinking. In these times of financial tightness everyone should be ready to use his influence and advice for the general welfare, and in no case more than where large sums of money are involved. Perhaps, too, there are sufficiently weighty reasons to be adduced to convince the promoters of this scheme that it is premature to enter upon so costly an enterprise. If this be so, we should have the benefit of those reasons and arguments. We are still prepared to assist in promoting all enterprises calculated to build up the Town and develop the resources of the County, so far as it is in our power. The only question of real vital importance is, what is our duty in this matter; and, to enable us to discover that, we hope that Friday evening's meeting will be well attended by all who are prepared to give timely counsel.

Mr. Lyon, the Ministerial candidate, has been elected for Algoma.

ONTARIO ELECTIONS

A Splendid Victory for the Mowat Government.

THE REFORMERS SWEEP THE COUNTRY.

Their Majority Doubled.

TORY TRICKSTERS AND N.P. ADVOCATES ROUTED.

East Peterborough Redeemed.

Mr. Blezard's Majority 130.

MR. SCOTT RE-ELECTED FOR THE WEST RIDING.

It is with feelings of more than usual pleasure we record the vote of Thursday last. The Conservative Party threw down the gauntlet everywhere in Ontario, and were loud in their prediction of the defeat of the Reform Party. We were aware that it was the swagger of the braggarts, and were willing to leave the questions of the day to the decision of the electors of the Province. In September last the Tories, through wile and cunning, had snatched a victory, largely owing to the popular desire to grasp at any promise that would hold out the faintest hope for better times, and in this general feeling a number of staunch Reformers were carried away for the time; but we never for one moment doubted their soundness on all general questions of reform, and our anticipations were fully realized on the 5th instant.

Our satisfaction at the successful carrying of the East Riding is participated in by all true Reformers in that Riding, as well as in the Province, and we cannot refrain from congratulating Mr. Blezard on his great success. We do not do this in the spirit of exultation over his opponent, as we incline to allow all feelings generated during the contest to die out as soon as possible. We have not one word to say against Mr. Calcutt. He made as good a run as we anticipated, and he must now bow to the decision of the people. And why should victors glory over him unduly? The East riding is redeemed, and that is matter enough for rejoicing this time, and our opponents would admit it; but the welfare and harmony of society are not increased by over-exultation.

In the West we have not been so successful. But now that the Mowat Government has been sustained everywhere with a majority double that of the last parliament and two to one in the next parliament, it is as well that Mr. Scott was elected, for without him the Opposition would be almost a farce. Mr. Elliott made a noble effort with such odds against him, and had Mr. Hogan not allowed himself to be made the creature of two or three dissatisfied minds, a different tale might now be told. The Conservatives made good use of the opportunity his candidature afforded to represent him as a Reformer, and thereby caught a large number of Reform votes. But we are very sure that neither Mr. Hogan nor his friends made any such claim, as their avowed object was to weaken Mr. Elliott and thus secure Mr. Scott's election. Mr. Elliott managed his canvass admirably for one that had never been through a campaign in so prominent a position before, and we are sure that he has nothing to regret so far as his own conduct is concerned. Some of his opponents, however, acted a not very creditable part. It is a "peety" that some of Mr. Scott's friends cannot be more honorable and gentlemanly in a contest. If they could learn lessons of moderation, there would be less personal bitterness after the battle.

The central counties, from Kingston to Toronto, with two exceptions, (East Durham and West Peterborough), have gone Reform. The former riding has chosen to return Mr. Rosevear again, and as he is merely the source of laughter in the House, he will be a counterpart to the more sober countenance and assumed innocence of the member elect for West Peterborough. Mr. Rosevear, therefore, may perform a useful purpose in the next parliament. Mr. Mowat's majority will be so large that the Opposition may be hopeless of serving any good purpose in the House, and some of them may yet retire, as is already bruited 'round, but may lack confirmation.

We may congratulate ourselves and our Reform friends everywhere on the overwhelming victory; but we at the same time purpose not to spend the time in unnecessary transport, which serves no good end. The visages of our Conservative friends are already elongated enough.

The following is the result at the polls in the East and West Ridings:—

EAST RIDING.

		Blezard.	Calcutt.
Ashburnham,	No. 1	24	60
	No. 2	33	59
Asphodel,	No. 1	79	35

Majority for Scott, 252

EDITORIAL NOTES.

The question about the sixty-six dollars worth of flower-pots for the Government House, so enthusiastically "knocked up-on" by Mr. Carnegie, in the East Riding, does not appear to have had much effect on the electors.

It is believed in London that Lord Dufferin will be appointed Governor of Asia Minor, where the Reform about to be initiated necessitate the employment of a master mind, and that he is not likely to return to St. Petersburg.

The assertion made by the *Review*, that Mr. Bertram spoke against time at Norwood or Nomination day, is a deliberate Carnegieism, and Mr. Bertram was not told by any of his friends to "shut up" in the middle of his speech, as was Mr. Carnegie.

The most unhappy people in town at present are those Tories who were calculating upon being comfortably provided for in the "woods and forests" the moment the Mowat Government was turned out. They go about refusing to be comforted.

Canada has invested in railways $257,042,705, of which $55,574,481 have been contributed by the Government and by municipalities. The aggregate net profit for the year ending June 30, 1878, was $4,419,925, or less than 2 per cent. on the capital invested

Two gorgeous railway carriages are being built at Troy, N.Y., for the use of the Marquis of Lorne, by order of the Dominion Government. The Sarnia *Observer* asks, why could these cars not have been built at London, or some other Canadian city, where car works have been established? Is this the Tory way of keeping "Canada for the Canadians?"

WOOL.—The National Policy will be the ruination of the farmers if it continues to have the same effect upon them that it has at present. Wool has fallen, and now rules so low that farmers cannot make any money on it, they really get no return for their work. This retaliation on the Americans has not been of any particular benefit to our agricultural friends.

The Duke of Argyll, his son, Lord Walter Campbell, and his daughters, Lady Mary and Elizabeth Campbell, arrived in New York on Tuesday of last week by the *Scythia*. They remained there but one day and left for Canada to join the Marquis of Lorne. They will stay in Canada about six weeks, and leave for Europe about the middle of July.

A large party of farmers from the County of Elgin, some 400 or 500 in number, including many prominent Grangers, visited the Model Farm, Guelph, to view the works of that institution last week. They were shown over the premises by the Principal, Mr. Johnston, and the officers of the college, and expressed very great satisfaction with their visit, and with the work that was being done in the interest of scientific agriculture. A resolution was adopted affirming the necessity for the college, and commending the expenditure of public money that had taken place in the undertaking.

In referring to the recent local election the Toronto *Telegram* says: The Reform press are very jubilant over the result of the elections. And they certainly have a right to be, for they were more successful than anybody thought they would be. No little of the credit of the victory is due to Mr. Blake, who did yeoman service for his old friends by taking the platform in their behalf. The result shows that Mr. Blake is still a strong man in his native province, and makes plain the wisdom of those who were advocating for a change in the Reform leadership that would bring this Liberal leader to the front.

A despatch from Montreal states:—"The Hon. Mr. Joly arrived in this city last night by the evening train from Quebec, having just returned from England, where he went in regard to questions affecting the position of Lieutenant-Governor Letellier. Mr. Joly was very much gratified by the reception he met with on his arrival in London, and said that he had every opportunity afforded him of placing the views of himself and his colleagues before the Imperial Government. He entertains no doubt, and does not appear at all anxious about their decision. He and some of his Ministers set out on their return to Quebec this morning."

What a delightful piece of irony it was, and how the electors present enjoyed it, when Mr. Carnegie was forced to prove out of his own books, that his own assertion was wrong. At Lakefield in addressing a meeting he blamed the Government for spending Public money sodding the Lieu. Governor's grounds, and charging it to Public Works. Mr. Bertram, we are informed, made the statement that an item for sod appeared under the same heading in 1868. This, Mr. Carnegie as usual denied, and he was handed his own volume of the Public Accounts, told where to look for it, and had to acknowledge amidst the cheers and laughter of the audience, that "yes it was there."

Says the *Review*:—

"At Mr. Elliott's meeting on Saturday evening, Mr. Bertram said, Mr. Carnegie has read a couple of letters written by J. H. McWilliams, whoever he may be. Could audacity of statement go further."

The *Review* readers probably can see the joke, but it would take the proverbial surgical operation to get it into the head of Mr. Carnegie. It is on a par with his thick-witted reasoning, when at the same meeting he undertook to prove that Mr. J. B. McWilliams, caused Mr. W. H. Scott, to vote against the Orange Bill. The evidence produced being a letter written on the 20th when the vote in the House was taken on the 19th, and the purport of the letter being that the Orange society had no instructions to send to Mr. Scott about the Bill.

We heartily endorse the sentiments contained in the following paragraph taken from the Ottawa *Free Press* of Saturday:

Mr. Nicholas Flood Davin, a talented Young Irish Protestant and a Conservative journalist, became a candidate some time ago for East Toronto and failed to secure election. Mr. James Fahey, a talented young Irish Catholic and also a Conservative journalist, became a candidate the other day for South Grey, and was ignominiously beaten by Mr. Hunter, who polled a majority of 817 votes. Both gentlemen are able writers and eloquent speakers, but they had the misfortune to be weighted with the support of Mr. Patrick Boyle of the *Irish Canadian*, who insisted that the fact of their being Irish men entitled them to the support of the people. Is it not about time we heard the last of this rot about national and sectional representation? Is there any good or sufficient reason why creed and nationality should be imported into our Federal and Provincial issues? We are all Canadians, and we cannot see why we should not unite on the best men without regard to either origin or religious belief. Surely the time cannot be far distant when journals of the *Irish Canadian* class will cease to exercise influence over any portion of our population. To use a homely aphorism, "their good words are no credit, and their bad words no scandal."

NOTES FROM THE CAPITAL.

DESERTERS IN OTTAWA.

June 8.—The workmen of Ottawa are rapidly discovering that they were sold in September last. Several of the unemployed have been interviewed within the past few days, and each agrees in saying that the last three months were the hardest ever experienced by them. One of the workmen told his story in effect thus: "I have been living in Ottawa several years, and during the time Mr. Mackenzie was in office I was employed in the construction shop of the Public Works Department. On the advent of the new Administration I was discharged, along with several others, but shortly afterwards an increased number of men were taken on in our places, and among them was from a distance. I have only had a few hours' work since I was discharged. He said:—I have lived in Ottawa thirty-four years. I have not earned a cent during the past four months. On Tuesday next, through the assistance of my friends, I am going to Minnesota, where I hope to earn a livelihood." Yesterday about 200 workmen besieged the Mayor's office, and angry words and epithets not very complimentary to the Mayor were used. After some delay His Worship arrived, and the men explained that they desired assistance to leave the city. The Mayor could not promise assistance for the whole, but said that he would endeavor to get passes to Thunder Bay for 50 men. These illustrations should suffice to show the extent of the destitution now existing in the city. It is of the most appalling character, and those persons who are subscribing for foreign charities, etc., would do well to divert a portion of their subscriptions to relieve the wretchedness of unemployed hundreds at the capital of the Dominion.

THE PREMIER'S NEGLECT OF BUSINESS.

On Friday week several persons in the city on public business were informed by the Premier that he could not attend to it till Tuesday, when he would return from a visit to Toronto. That visit was made and Tuesday came 'round, no Premier returned, and day after day passed on, and still the public business was neglected. The Premier was pleased to arrive at the capital on Saturday morning, and the bulk of those who have been waiting are compelled to remain over until to-morrow, thus wasting over a week at the capital, because the Premier, neglecting the public business, was electioneering in Toronto.

THE NEW BOARD OF APPRAISERS.

June 9.—Messrs. W. H. Fraser and David Sinclair, the newly-appointed Chief Appraisers, go to Montreal to-morrow to discharge their first official duties, where they will attend a convention of all the Government Appraisers in Ontario, Quebec, and the Eastern Provinces. The object of the convention is to endeavor to adopt a uniform reading of the Tilley tariff. The new chief appraisers will immediately thereafter enter upon the discharge of their duties. All invoices will be submitted to them, also samples in cases of disputs. It is probable that occasional visits will be paid to the principal and other ports of entry. The name of the third member of the Board is not yet known.

SMALL-POX.

Small-pox and diptheria are raging with incredible violence in the city. A grave responsibility rests on the health officers in not acquainting the public with the true state of affairs and enforcing the exercise of ordinary caution. The health officers contend that the number of cases is small, while private practitioners report daily both diseases to be alarmingly prevalent.

THE PRINCESS.

A number of men have been employed by the Princess Louise for some time past in manufacturing splints and bandages for soldiers wounded in the Zulu campaign. A bundle will be sent to the Cape of Good Hope in a few days.

Deceased Wife's Sisters.

(From the Montreal Star.)

To many it has been a source of sincere regret that the state of the law has been such as to interfere with attachments that not unnaturally may have sprung up between one who had been deprived of his wife, and the sister of his deceased partner. We have used the term not unnatural; since possibly during the wearisome nights and troublesome days that have attended a protracted sickness, no persons were so likely to be thrown into each others company, and to share each others sorrows, as the two who, of all others, were the most closely connected with the sufferer. Besides, in the event of there being a family of motherless little ones towards whom step-mother's tender mercies are proverbially cruel, the dead parent's sister, it would not be out of the bounds of reason to expect, would be more likely than any one else to fill the aching void that the mother's departure must have left. In many instances, too, the last dying request of that mother has been that the sister should fill the vacant chair. Some sisters have in fulfilment of this death-bed command, sacrificed their future and condemned themselves to perpetual celibacy, while others considering that although the calender of prohibition was against them there was nothing in the Divine law that they would be violating, have secured honorable marriages in countries where there was not so much as even a human restriction, forgetful, however, of the disabilities under which the children of the union were likely to be placed. For long the topic has been agitated, and reform demanded both in Great Britain and the Colonies, in some of which latter the legislation on the subject was, it is true, in direct antagonism to that at home. In consequence, we suppose, of this agitation, and there being a necessity for legislative assimilation, as the mouth-piece of a large number of the people of England, the Heir of the Crown has, himself, presented a petition to the House of Lords—a body which, year after year, has been deaf to appeals of the kind, but which, through his own personal influence, it is expected will no longer be unmindful. There will be those who will raise the old objections to what they will term an unwarranted innovation, but by his first official act in the House of Lords, there can be no doubt the Heir-apparent will have earned for himself the gratitude of many, who to-day find themselves, we cannot say in an improper, but certainly in an equivocal position. We fail to see why the petition should not be acceded to, and why, of all other connections, it should be unlawful to make that a more close one which subsists between a widower and the sister of his deceased wife.

Sporting News.

THE COMING INTERNATIONAL BOAT RACE.—HEAVY BETTING ON THE CANADIAN CHAMPION.

The great international boat race between Wm. Elliott, of Pegswood, champion of Great Britain, and Edward Hanlan, of Toronto, the Canadian champion, which is to be rowed over the Tyne on the 16th inst., is attracting great interest. Never before was there so much betting done on a boat race, or such long odds offered as are given on the Canadian. Elliott has found that Hanlan's style of rowing is a failure, and has resumed his own style, thinking he can make better time. Heavy betting still continues. Elliott's backers and admirers readily accept all offers of £500 to £100 offered by Messrs. Ward, Davis, Renwick and Hanlan's American admirers. Both the oarsmen are in steady training on the Tyne. Elliott appears to be in the best condition and shows over the course daily, and takes a little exercise on land. Hanlan seldom rows the full course, owing to the fact that Elliott's friends book-makers watch his practice to find out how fast he can row. Hanlan is only a few pounds heavier than when he rowed Hawdon, but he is in better condition. At the clubs at London several large wagers have been laid on Hanlan. Ward of Windsor, Canada, laid £800 to £370, and a noted American wagered £300 to £100 three times that Hanlan would win. Elliott is reported to have made wonderful time over the course, which has made his backers confident that he will win.

LONDON, June 7.—The *Sporting Life* says:—"Hanlan and Elliott are in capital health and within three or four pounds of their racing weight. In the presence of a large number of people Hanlan yesterday twice did the full distance from High Level Bridge to Scotswood, in a most satisfactory manner. His rowing is faultless. Any amount of money is forthcoming on his chance at two to one. Elliott also yesterday rowed over the course at full speed the entire distance. He made 36 to 36 strokes, and with his long slide made his boat travel very rapidly."

NEWCASTLE, June 8.—Twenty thousand people witnessed the practice of Elliott to-day. He made 36 to 38 strokes to the minute, and outpaced an eight-oared cutter of which Wm. Renforth was stroke. Hanlan did not exceed his customary stroke.

NEWCASTLE, June 9.—This forenoon Hanlan rowed seven miles. There was a strong wind blowing, and the water was very rough In the afternoon he rowed six miles. The water was then smooth, and he made some very fast time. Elliott's new boat was launched to-day. She is called the *England*.

Hanlan gave Bright a long start to-day, and passed him at the end of the half mile. Betting 12 to 5 on Hanlan.

June 10.—There is no special feature to record to-day. Hanlan in the morning had a spin of five miles. His rowing was excellent. In the afternoon he went over the same course, maintaining his usual admirable stroke. Elliott is also doing good, steady work.

A Murderer's Escape.

CROSSING THE NIAGARA RIVER ON A SINGLE WIRE.

MEDINA, N.Y., May 30.—Asa Broughton, who killed Covert Bancroft in this place on May 14, and who was arrested in Canada on Wednesday, performed, in effecting his escape into Canada, one of the most perilous feats on record. Broughton has a remarkably handsome wife, and he was desperately jealous of Covert Bancroft a prominent business man of Medina. He had forbidden his wife to speak to Bancroft. On the day of the murder Broughton went home. His little boy was eating an apple, and the father asked the boy where he obtained the apple, and the child replied that Mr. Bancroft had been there and given him the apple. This led to a quarrel between Broughton and his wife, and he drove her from the house. Later he went to the residence of Bancroft, summoned him to the door, and demanded to know where Mrs. Broughton had gone. A quarrel ensued, and Bancroft with the aid of his hired man, put Broughton off the piazza. Broughton drew a pistol and shot Bancroft dead. He then went home, bade his children good-bye, and went away.

Broughton went to the house of a cousin in the town of Hartland. On the Friday after the murder the cousin saw the account of it in a newspaper. He refused longer to give shelter to Broughton. The latter started at once for the Niagara River. At Lewiston a suspension bridge formerly spanned the river. Some of the old wires still extend across the stream at an elevation of 100 feet above it. Broughton, confident that officers were on his track, reached the site of this old bridge. Fearful that by trying to cross the river at Suspension Bridge he would endanger his safety, he determined to gain the Canadian shore by means of the old wires. He sat on the bank of the river all night Friday night, and at daybreak on Saturday began his perilous crossing. Hand over hand, suspended in air 100 feet above the river, he made his way toward the opposite shore. The wire swayed to and fro with his weight. Several times he had to pull himself up and clasp his legs and arms around the wire to rest his hands, which were badly blistered and cut. When about half way over Broughton says he thought he must have lost his hold so nearly exhausted was he. By frequent rests, as stated however, he finally completed his precarious journey. When he landed on the other shore he was unable to proceed further for over an hour. Officers Fuller and Allen, of Medina, who were in pursuit of him, arrived on one river bank as Broughton landed on the other. He went to Hagerville, Ont., where he was apprehended on Wednesday. He returned to New York State without making opposition. He says he killed Bancroft in self-defence.

Severe Gale in the Gulf.

THE STREETS OF RIMOUSKI INVADED BY THE SEA—GREAT DESTRUCTION OF PROPERTY.

RIMOUSKI, Que., June 7.—A north-east wind commenced at 10 p.m. yesterday, blowing 35 miles an hour, and at 5 a.m. 60 miles. Now (at noon) it is diminishing. The schooners Marie Lace, Shamrock, St. Lawrence, and the bateau Levis were blown ashore here. A great amount of damage has been done to the wharf and buildings. Several of the latter were blown down and carried away. The sea rolled into the streets, and carried away the side walks, &c. The shore is strewn with smashed boats, wood, &c. The light-house at the long wharf was washed away, and the railway track on the wharf torn up. The loss is estimated at about $30,000.

GENERAL NEWS.

Further discoveries of gold are reported from Madoc and prospecting is going on vigorously.

Large quantities of shad, the fry of which were deposited in the Bay of Quinte two years ago, are now being caught and marketed at Belleville.

The London *Times* says the recent rise in cotton in Liverpool is a great relief to the long suffering commercial centre, and will have the effect of preventing what appeared to be an inevitable crash.

In Utah, where the law allows criminals to choose death by shooting, it took nearly half an hour for three marksmen to shoot one murderer to death.

I HAVE had much experience among athletics, ball players, gymnasts, etc., and can testify to the virtues of *Gibb's Iodide Ammonia Liniment* for discoloration Bruises, and Soreness of the Muscles and Cords after violent exercise. Wm. McMahon, Argyle Room, 6th Avenue, cor. 30th St., N. Y.

A young lady of prepossessing appearance was actively engaged all day on Thursday last, at Bowmanville, taking voters to the poll.

A storehouse at Port Hope was recently broken into and about $60 worth of tea load stolen.

Charles—"What did that spring suit cost you Al?" Alfred—"Can't say, dear boy—haven't been sued for it yet."

A new by-law has recently came into force in Winnipeg by which all parties hating three or more boarders are compelled to register and take out a license, for which a fee of $5 is charged. A fine is imposed in default.

Port Perry has adopted a sort of compromise by-law. Its pound keeper is instructed to impound all milch cows running at large upon the streets between eight o'clock in the evening and seven in the morning, and all other horses and cattle found at large at any time.

The Victoria *Warder* says:—From all parts of the country we continue to receive the most encouraging reports respecting the crops. A much greater area of land has this year, compared with former years, been sown, and the late grateful showers have brought on all kinds of grain amazingly. In this county the fall wheat never looked better. If no untoward circumstances arise the anticipations of a bountiful harvest will be more than realized.

A gentleman writing from Fort Walsh on the 3rd of May says: "My impression is that the Government will soon have to feed the Indians or fight them. They are beginning to grumble a great deal, and there is a great scarcity of buffalo. Sitting Bull is encamped near Wood Mountain Police Post, and has six hundred lodges with him. His warriors number about fourteen hundred, and are splendidly armed and mounted. Their arms are Winchester and Sharpe carbines and Colt revolvers. War parties of young bucks are continually crossing the line on horse stealing and scalp-taking expeditions. The chiefs of the nation have little control over the young men. They try to prevent these parties from going out, but cannot do so. The Sioux, for the most part, are fine-looking men, but have "cut-throat" plainly written on their faces. The latest I can learn of the manner of General Custer's death is that when all was lost, he first shot his interpreter and then himself, so that they would not be taken prisoners. I think this is likely correct, as Custer was not scalped, the Indians never scalping a man after he shoots himself."

Montreal Post: The Reformers have won Ontario and we are glad of it. If the Conservatives had won they would have been too powerful and the local affairs of the sister Province would be manipulated from Ottawa. In the present ratio of parties in the Dominion House of Commons, where a weak Opposition faces a powerful Ministry, it is better for the interests of the public that Ontario should be Reform. When one party acquires too much power there is danger in the air. Now the Ontario Legislature will act as a vigilance committee over the doings of the Dominion. This is one but not the most important reason, why we are glad that the Mowat administration has been sustained. Our principal reason is that the Reformers of Ontario are the best friends of Order. The Mowat Government have not, and we are sure will not, coquette with fanaticism on any side. So long as they are in power, their past career warrants us in expecting that all creeds and nationalities will be fairly dealt with. This is, we know, the view taken of the situation previous to yesterday by the people particularly interested in securing fair play.

MILLINERY.
MISS SEMPLE
Has REMOVED her Millinery Establishment to the double shop—lately occupied by Mr. Robert Walton, next door to Messrs. ORMOND & WALSH, thereby giving larger and more attractive premises, which her rapidly increasing business required.
She is now receiving a large assortment of STRAW GOODS, These, with the remainder of the Spring importations, will be sold cheap, to make room for the Fall business.

DAIRY PRODUCTS.

JUST RECEIVED:

1 CAR-LOAD LIVERPOOL FACTORY FILLED

SALT.

—Expressly for Dairy Use.—

It is packed in pure white linen bags of three sizes,—56 lbs, 112 lbs, and 56 lbs. (The bags are all of a superior quality of linen and suitable for travelling or other domestic uses.) It is said by persons of wide experience that one cause of inferiority in quality of butter and other dairy products has been the use of common grades of fish; and the difference in cost is slight when compared with the difference in quality. If dairymen and others will consider that in manufacturing, only ½ lbs of salt are required to make 100 lbs of cheese, and only 1 oz. of salt to make 1 lb. butter, they will recognize of how small importance must be the first cost of one of the most important ingredients in the manufacture of all dairy products.

☞We know that having once used it, you will continue to do so.

T. W. ROBINSON & Co.
Simcoe Street.

Hackett & Shirley's

Special Lines for this Week.

7/4 Cream Tabling, only 20 cents a yard.
5/4 Cream Tabling, only 25 cents a yard.
Extra Heavy Tabling, 30 cents a yard.

The Examiner.

PETERBOROUGH, JUNE 12, 1879.

LOCAL NEWS.

Personal.—Rev. N. R. Willoughby was in town over Sunday, paying a visit with some of his old friends.

What, Never?—No, never, emphatically never, were you, gentlemen, able to buy boots and shoes so cheap as at the ever popular Boot and Shoe store of Mr. S. White.

Sewing Machine Repairing.—It would be to the advantage of those whose sewing machines need repairing to patronize Mr. G. A. Mitchell, who does the work thoroughly.

The Pulpit.—The Rev. Mr. Hewitt will occupy the pulpit of the Methodist Church, in place of Rev. Mr. Harper on Sunday next. Mr. Harper being out of town attending conference.

Take Warning.—Those who are in the habit of handling small silver would do well to exercise caution, as there is a large quantity of counterfeit five, ten and twenty-five cent pieces in circulation.

Boots and Shoes.—Another lot of fine summer boots and shoes received at Larmours. The variety is so extensive that he feels confident everyone, no matter how fastidious their taste may be, can be suited.

Methodist Conference.—The Annual meeting of the Toronto Conference of the Methodist Church of Canada, takes place this year at Port Hope. The session began on Tuesday and will continue till well on in next week.

Confirmation Services.—The Bishop of Toronto will visit the Parish of Ashburnham early next month. The rite of confirmation will be administered by him on Wednesday evening, the 9th of July, in St. Luke's Church.

Removed.—Miss Semple has removed her millinery rooms to the shop recently occupied by R. Walton, two doors south of the old stand. Increased accommodation will enable her to show to much better advantage, her large and desirable stock.

A Large Engine.—Mr. William Hamilton is this week shipping a 130 horse power Corliss Engine to Messrs. McLaughlin & Moore of Toronto. This, we are informed, is the largest engine of the kind yet built in this country. Good for Peterborough!

Personal.—Miss Panton read a paper on "The art of Questioning," and Mr. Earle took us the mysteries of "Literature for Intermediate Examinations," showing how the poetry selected should be taught, at the East Victoria Teachers' Association, held at Lindsay on the 30th and 31st ult.

Cricket Match.—A cricket match was play ed Saturday afternoon, between some of th small boys of the Cricket Club. There were two sides represented, the County and Town respectively. The Town won on the first innings, the game not being played out. Some heavy hitting for juveniles was remarked.

Accident.—A young man named George Shields, of Ashburnham, met with a very serious accident on Thursday, in Mr. Baptie's planing mill. While working near a circular saw his hand by some chance came in contact with it, and several of his fingers were almost taken off. Dr. Harvay dressed the fingers, and it is to be hoped that he will not lose the use of them.

"The Christian Helper."—*The Christian Helper*, a fortnightly Baptist paper, has just entered upon its third volume. It is published on the 1st and 15th of each month, and sent free for seventy-five cents per annum. The paper is a sheet that is deservedly popular among our Baptist friends, and will no doubt continue to prosper. Mr. Thos. Bengough is the literary manager—and a better could not have been selected.

Election Bets.—The Toronto *Telegram* says: New bets are beginning to make their appearance on the streets as a consequence of the election. It is a good idea to have the general election this time of the year, for this is just the time when new bets are most seasonable. There is a wild suspicion that the man who devised the idea of determining popular representation by elections was a hatter, and that he did it in order to encourage business in his own particular line. But this is probably a fiction.

Returning.—During the past week quite number of those who a short time ago, left these parts for Manitoba, have returned. While some speak in favorable terms of the prairie province, others hold quite a different opinion. The greatest drawback this season has been the amount of mud and water met with on the prairies, making travelling all but impossible, and thus preventing parties from locating themselves. The drawback, will, of course, disappear as the season advances, and those who emigrate after this may wonder at difficulties now reported; but it is evident that they have discouraged many of those who went out early in the season, and that Ontario will receive back a considerable number of those who intended to leave it forever.

"Carping."—The editor of the *Review* seems somewhat annoyed at our taking the headings for a short sketch of Moore, from the Mo ntreal *Evening Post*. Well, if we did, we really don't see what our carping contemporary is continually doing. Not very long ago the "growler" clipped an article from the Montreal *Witness*, "holus bolus," without even an interline, and headed the article to make it if possible appear as original. Our contemporary may as well keep cool, nearly every issue of the daily contains matter from journals at a distance, and no credit given them. When we have to "take water" twice in the same week, by giving incorrect reports to publically inju re two of our most respected citizens, we will quit the business. Those who live in glass houses, etc."

Forester's Fete.—On Tuesday next, the members of Court Peterboro. No. 99, I. O. F., will celebrate the anniversary of the introduction of the order into Canada, by a grand *fete*, in which they will be assisted by members of Courts from a distance. At one o'clock a procession will be formed at their hall, Water street, when they will march through the principal streets, headed by the Fire Brigade Band, to the Agricultural Grounds, where a large number of prizes will be competed for in athletic sports, games, and amusements. In the evening a musical promenade concert will be held in the drill shed at which the Firemen's Band will play a select programme. The prizes won in the afternoon will be presented to the successful competitors, during the progress of the promenade. An exhibition of dancing will also be given in the evening. Everything secure well for a gala day, and the committee are very energetic in making it an affair worthy of the first celebration of the order of Foresters in this town.

Littell's Living Age.—The numbers of THE LIVING AGE for the weeks ending May 31 and 31 and June 7, respectively, contain the following articles: William Cobbett, and South Africa, *Blackwood's Review*; The Plateau of the Northwest frontier of India, *Blackwood*; The Expedition of Philip II to England, *Fortnightly*; Mauritius and Dr. John Aiken, *Fraser*; Two Impostors of the Eighteenth Century, *Cornhill*; Mr. Gladstone's "Probability as to the Guide of Conduct;" Mr. Goschen's "Calculation of the Imagination;" The Melancholy of the Educated English, and Republican Intolerance in France, *Spectator*; The Evolution of Games and Hard Up, *Saturday Review*; with continuation of Jean Ingelow's "Sarah de Berenger;" the whole of a Story by Thomas Hardy, and the opening chapters of a new work by the author of "Patty;" and the usual poetical selections. For fifty-two such numbers of sixty-four large pages each (or more than 3,000 pages a year), the subscription price ($10 is low; while for $12.50 the publishers offer to send any one of the American $4 monthlies or weeklies with *The Living Age* for one year, both postpaid. Littell & Co., Publishers.

Fenelon Falls.—A Long Trip.—On Monday last Messrs. Jno. Manning, Edward Coleman, James Milne, Thomas Gardner, Walter Porter and James Schofield, six young men of Bowmanville, left home for a pleasure trip estimated at nearly a thousand miles, and which it will take them about ten weeks to accomplish. Travelling by waggon to the nearest point of Lake Scugog, they there took water in three large canoes, which afforded ample storage for their tent, cooking utensils, provisions solid and fluid, arms and ammunition of all kinds and plenty of fishing tackle. *Being* delayed a good deal by the weather, and having to stop on their way to replace a broken mast, their stay at Fenelon Falls, which they reached about 10 a. m. on Wednesday, was very brief, as they wished to go to Minden before night, and at one o'clock they had got as far as Coboconk. We could not obtain any particulars as to their projected route, except that they intended to go a tremendous distance north, leading a jolly sporting life among the beautiful scenery of the back lakes and rivers, to spend considerable time along the shores of Georgian Bay, and finally, returning *overland* to Toronto, paddle home on Lake Ontario. A more delightful trip than that which they will enjoy can scarcely be imagined, and we sincerely hope that nothing will occur to mar their anticipated pleasure.—*Gazette*.

Fire.—Passing strange that the glorious N. P. does not encourage capitalists to start more manufactures. Few places have a more reliable water-power than Peterboro', yet where in this section is the "busy hum" of more flourishing work &c? Echo answers, where?

Shamrocks and Pic-Nic.—Arrangements are now being made by the Carswell Lodge of Good Templars for their annual Pic-Nic and Excursion to Burleigh Falls which is announced to take place on Thursday, 26th of June, and as this is the first pic-nic of the season to this favorite resort, no doubt there will be a large number take advantage of the same. For furth er particulars see posters which will be issued in a few days.

The Colleen Bawn.—The popular domestic drama, in three acts, entitled the "Colleen Bawn; or the Brides of Garryowen." by Dion Boucicault, is now in preparation by the members of the Fire Brigade Band, assisted by a number of lady and gentlemen amateurs. The piece has been in rehearsal during the past month and is now attaining a state of perfection. Their first appearance is announced for Friday evening, 27th instant, in the Opera House, when we believe they will give a good account of themselves.

That the Phonograph can "bottle up" the voice and pass it down to future ages is indeed a wonder, but is not the restoration of a *lost voice more wonderful?* And yet Dr. Pierce's Golden Medical Discovery speedily restores a lost voice, hoarseness, sore throat, bronchitis, and consumption. Many ministers who had abandoned the pulpit, by reason of sore throat and general debility, have, by the use of the Discovery, been restored to perfect health and strength. Sold by druggists.

Ballad Poetry.—In press, and will be issued in a few days, selections from the Ballad Poetry of Ireland, selected and published by Mr. P. D. Harty. These selections are from the melodies of his native land, by Moore and others, and will, no doubt, meet a ready sale among the lovers of sweet and patriotic songs. About two years ago Mr. Harty published a collection of songs, but the present selection is made with greater care, and from a wider range of poetry. We understand that *Mr. Harty will soon* publish a book, containing copious extracts from writers of eminence, on the "Immortality of the Soul;" "The Reality of the Future State and the Recognition of the Elect." A work that he feels certain will meet with ready sale.

From Winnipeg.—We clip the following items from a late number of the Winnipeg *Daily Times*:—

"A new jewelry shop is about to be opened by Mr. J. H. Ormond, watchmaker, on Main street, adjoining Radiger's block. The stock has already arrived, and he is fitting up the place for its accommodation."

"The manner in which railway men bang luggage around is proverbial, but an exception to the case of Mr. Cass came to light. Three large cases of jewellery, and several cases of vases, globes, glass-ware and Bohemian-ware, consigned to J. R. Ormond, who is opening business here, were on arrival found to be smashed beyond redemption. Although the goods were carefully packed, the damage will amount to $200. At first, Mr. Ormond thought he would institute legal proceedings for the recovery of the damages, but on consideration the number of men by whom the goods were handled, he thought the task hopeless, and so abandoned it."

Cattle By-law.—As will be seen by our report of the Town Council proceedings a very largely signed requisition from the ratepayers was presented to the members of that body on Monday evening last, praying that a by-law be passed preventing horses, cattle, &c., from running at large. It is to be hoped that the Councillors to whom the matter has been referred will act promptly in having such action taken that will effectually remove the nuisance, especially in the case of cows and young cattle. Not to speak of the damage that is being continually done to shade trees and gardens, many of our pleasantest streets and promenades bear more resemblance to a barn yard than public thoroughfares. In the interests of the health of our citizens, if not for the sake of appearance, we trust the Council will treat this matter as it becomes their duty.

County Court.—The following are the concluding cases at County Court and General Sessions before His Honor Judge Dean, in the Court House here, last week, the others being reported in our last issue:—

O'Donnell vs. Dwyer.—Suit for wages. Verdict for Plaintiff $120. E. B. Edwards for plaintiff, W. H. Moore for defendant.

Thompson vs. Rourke.—Action of replevin of goods distrained for rent. Verdict for plaintiff $5 with costs. E. B. Edwards for plaintiff. Ed wards for plaintiff, no defence.

Scott *et al* vs. Irwin.—Action to recover bill of costs. Verdict for plaintiff for $300. F. B. Edwards for plaintiff, no defence.

Haggart *et al* vs. McFarland.—Record withdrawn and case settled by the parties. R. B. Wood for plaintiff. R. H. Deanistoun for defendant.

John Green was admitted to bail in his own recognizances to keep the peace towards his father and mother.

Lacrosse.—The first foreign lacrosse match of the season in this town, will take place on Friday afternoon, the 20th inst. The game will be between a team chosen from the Peterboro Club, and the "Maple Leaf" Club of Oshawa. This is, perhaps, rather a deep venture for our boys, considering they have been in practice only about six weeks, and that the "Maple Leafs" are an old-established club bearing a provincial reputation for dexterity with the "stix." However, if they should prove successful so much the more honor to them. The Peterborough Club is a promising one, and with proper training we dare hazard a hope that they may yet go to the Queen City and take the redoubtable Torontos "by the beard." The game to be played on the 20th, will doubtless be of an exciting nature, and we trust that admirers of this our national game, will not be remiss in giving encouragement to it by teeming out in large numbers on the occasion.

The Problem Solved.—Considerable amusement was created the other day in Ottawa at the sale of unclaimed goods at the express office in that city. The packages were put up without being opened, and while some of the purchasers secured good bargains, several got badly sold. The *Free Press* says:

"Among other articles sold was a valise which brought $2.50. The contents, though, were almost valueless; an old pair of pants, a well-worn coat and vest, part of a box of paper collars, a pair of tough looking shoes and a seedy cap, together with several newspapers, composed the lot. It is presumed that the valise must have originally belonged to some country newspaper publisher, who started his second suit of clothing on the way to the capital, in the borrowed article, with the hope that when he reached here on foot he would be able to borrow money enough from the Government to pay express charges. But the Government must have gone back on the party, or else the genius failed to arrive through 'Shank's mare or Grand Trunk.'

We understood it was to New York the editor of our Saturday contemporary betook himself last summer, but the sale of this valise leads us to believe we were laboring under a misapprehension.

Dominion Day.—A committee of the Fire Brigade are now actively engaged in preparing for Dominion Day celebration. Invitations have been extended to the Brigades of Cobourg, Lindsay and Port Hope, and accepted by the two first named; but, owing to a celebration in Port Hope on the same day, the last named Brigade have declined acceptance. The programme of the day's celebration as submitted at the last meeting of the Brigade, is as follows:

That the Peterborough Brigade meet at the Hall and proceed in a body to the cars and band to welcome the visitors and escort them to dinner.

In the afternoon a procession is to be formed and march through the principal streets, followed by a cavalcade and playdays, to the Agricultural Grounds, where a baby show, for children of the members of the celebration, will be held, and athletic sports given. There they will have a procession and contest the visitors to the trains and boats. In the evening there will be a promenade concert and other amusements at the Drill Shed, followed by a torch-light procession through the principal streets, after which a display of fireworks will be given.

The following have been appointed an executive committee, with power to add to their numbers, to carry out the arrangements, and to solicit aid from the citizens in furthering the same, viz., Messrs. J. Rogers, Geo. Hall, J. W. Jenkins, J. G. Macdonald, A. Mathie, A. Hoodgerms and W. Rutherglass. It is to be hoped their efforts will be sustained by general response from our town people.

Personal.—Dr. Herbert Burnham, son of Dr George Burnham, Sen., returned home yesterday from England, where for the past few years he has been completing his studies in Medicine.

Pleuplus.—A meeting of all those desirous of taking part in the excursion and pleuplus on Dominion Day, will be held in the Council Chamber, next Tuesday evening, when the executive committee will be present to take down their names and give the necessary information.

Elevated Railroads, Lines of Stages, Places of Amusement, Depots and Steamers—all these radiate from, or are situated in, the immediate neighborhood of the Grand Central Hotel, Bowmanville, New York, which is now kept on both plans, the American $2.00 or $2.50, and the European plan $1.00 per day, and upwards. An elegant Restaurant, at moderate prices, is conducted by the Grand Central.

Cricket.—A friendly game of cricket was played on the Ashburnham cricket ground yesterday, between the Westwood and a 2nd eleven of the Peterborough Cricket Clubs. The home team batted splendidly, and were in better form in general than the rivals. In the first innings of the Peterborough team the next score of 102 was run up, W. A. Stratton making 28, not out, W. Gilbert, 23, and D. Burris, 16. In their two innings the Westwood Club made 31 and 76, respectively, Brown and Lancaster running double figures. The Peterborough club then winning by one innings and 6 runs.

University of Toronto.—We learn by the Toronto papers of yesterday, that Mr. F. W. G. Haultain, and Mr. A. T. Hamlin of this town, had the degree of B.A. conferred on them at University Convocation held on Tuesday. The following gentlemen were found to have passed the late May examinations successfully: In the third year, Mr. J. M. Lydgate, with honors in history and modern languages; Mr. W. A. Stratton, with honors in classics; Mr. R. H. Myers, with honors in mental and moral philosophy. In the second year, Mr. Peter Miller also passed with honors in classics. In the 'Faculty of Law,' Mr. N. D. Beck, Mr. E. B. Edwards and Mr. J. Henry are noticed. We congratulate the above gentlemen for having distinguished themselves in their examination, with so high honors.

TOWN COUNCIL.

Council met on Monday evening last, pursuant to adjournment. Present, His Worship the Mayor, and Councillors Cahill, Taylor, Smith, Beller, Peterson, Douglas, Deane, Griffith, Mills, Robertson and Rutherford.

Minutes of last meeting read and confirmed.

COMMUNICATIONS.

From Scott & Edwards, as to the respective duties of the Police Court Magistrate and Constable in the collection of penalties and costs.

From the Treasurer, submitting a statement of the receipts and expenditures for the month of May.

From Vincent Clementi, President of the Little Lake Cemetery Company, drawing the attention of the Council to the street leading to the cemetery, which is being washed away by the action of the water on it.

From John McGhee, constable, complaining that the gas lamps on Hunter and George streets were not lit on Sunday evening, till after the people had returned from church.

From Scott & Edwards, Town Solicitors, giving as their opinion, that until particulars were given in the account from the Board of License Commissioners, the Council could not be compelled to pay their account.

From W. A. Morrow, Secretary-Treasurer of the School Board, submitting a statement of the money required by the Board for the current year.

From James Edwards, Secretary-Treasurer of the Little Lake Cemetery Company, in reference to the squatter on the street adjoining the cemetery, and asking that he be removed.

The communications were received.

PETITIONS.

From Wm. Logan and others, Robert Dennistoun and others, John Babb and others, D. Pentland and others, E. Whitefield and others, Henery Wheelpley, W. Loch, A. Clegg, Joseph Sprouls and others, George Bazvie and others, asking for street improvements in their respective neighborhoods. Referred to the Street and Bridge Committee.

From W. Masson, Secretary of the Mechanic's Institute, and requesting the Council to make their usual grant of $100 to the Institute. Referred to the Finance Committee.

From Robert B. Lundy and others, asking that the Monaghan drain be cleaned out. Referred to the Street and Bridge Committee.

From W. H. Burritt and others, asking that Water and Murray streets be watered. Referred to Fire, Water and Gas Committee.

From A. Moffat, Captain of Protection Fire Brigade, asking the Council to grant the Brigade the sum of $200 to assist in the celebration of Dominion Day.—Received.

From Chas. Ormond and 136 others, asking that a by-law be passed preventing the running at large of horses, cows and pigs. Received.

THE COW BY-LAW.

Moved by Councillor Smith, seconded by Councillor Taylor,—That the petition of Chas. Ormond and others be referred to a special committee, consisting of Messrs. Mills, Taylor, Griffith and Douglas, with instructions to consider the same and to report at the next meeting of the Council, as to the propriety of granting the prayer of the petitioners and as to the present state of the law on the subject. Mr. Mills to be chairman of committee.—Carried.

Councillor Smith in moving the resolution, said he objected to the passage of a similar by-law when brought up some time ago, as he thought it would be a hardship to the poor man. He had now, however, changed his mind. He read from the Ontario Statutes a clause of the Railway Act, which prevented cattle running at large of cattle within half a mile of a railway track. If this was enforced he thought it prevented these animals from becoming a nuisance in the central part of the town.

NEW HOSE TOWER.

Councillor Paterson, chairman of the Fire Committee, reported as follows:—

The Committee met to consider the report of May 12th, when it was resolved that Mr. Belcher prepare a plan of Hose Tower, in the rear of our present Engine House, and an estimate of same competent builder, which we now submit to the Council for approval. The estimate cost of building Hose Tower is as received, six hundred and fifty dollars.

W. PATERSON, Jnr., Chairman.

REPORT OF STREET AND BRIDGE COMMITTEE.

Councillor Mills, chairman of the Street and Bridge Committee, submitted the following report:—

The Chairman of the Committee on Streets and Bridges, and the members of the same, deem it desirable for you to consider the offer of Mr. Metheral to sell to the town two hundred cubic yards of gravel, at 10 cents per cubic yard. The Street Inspector has informed the said Committee that it is wanting for the town. The Council has not a very large quantity to repair the streets. We think the offer ought to be accepted.

In relation to the drain on Downie street, I have made enquiries, and from evidence I have received from Angus Williams, he was employed as overseer of the Streets and Bridges, and he employed workmen to repair the drain on said street. On our national and other holidays, such a place would give facilities for the congregation here of large crowds of people from all sections of the country, which means an increase of the circulation of money in your midst and an enlargement of your business relations and transactions. It would be difficult to not down just to what extent the institution of a public park in your town would be of benefit to you; but the very fact that the larger cities pay so great attention to this matter shows that they, at all events, are alive to its advantages.

I merely mention the matter at present, Mr. Editor, confident that its discussion by the Council would early convince them of the desirability—nay, necessity of such a provision being made.

Yours, &c.,
NEW COMER.

Peterborough, June 9th.

Card of Thanks.

To the Editor of the Examiner :—

Dear Sir,—The friends of Mr. Blezard have reason to thank Mr. John Carnegie for his assistance in helping them to pile up Mr. Blezard's majority. His venomous style of speaking at public meetings, his outrageous assertions added to the dirty story he told in his speech on nomination day, and which I will not dare to outrage decency by asking you to publish, had such a baneful effect on Mr. Calcutt's candidature as to outweigh his own personal merits, and if he has any reason to be thankful for being left at home to wind his own business, he should tender them to his man of all work Mr. John Carnegie. I know myself of three who were supporters of Mr. Calcutt in nomination day, who voted against that gentleman being disgusted with his "henchman."

Yours truly,
NORWOOD.

Norwood, June 9th 1879.

The project of erecting in New York a magnificent Episcopal Cathedral of St. John the Divine, which was shocked by the panic of 1873, has been revived. Two hundred thousand dollars has already been promised, and a suitable site is being sought for.

LOCAL MELANGE.

—Flowers are calling cheap.

—Weather a trifle Warmer.

—Linen dusters have made their appearance.

—Complaints are made of the many holes in the plank sidewalks.

—Reformers look well in their new hats.

Minden.

Gun Accident.—A young man named Thos. Gardner, of Bowmanville, was shot on Friday morning, half a mile from Minden. He was lifting a gun by the muzzle out of a waggon which was portaging the effects of a hunting party from Bowmanville with which he came, when the trigger caught in a bag, and the whole charge was emptied into the lower part of the left lung. He has since died from his wounds.—*Globe*.

Springville School.

The following is a report of the pupils who took the highest number of marks in each class for the month of May, in S. S. No. 9, Cavan and 4 North Monaghan. A. J. H. Strike, Teacher.

Fifth Class.—1st Hannah Laing, 236; 2nd Minnie B. Goodfellow, 234.

Fourth Class.—1st Lulu Brown, 234; 2nd Minnie L. B. McDowell, 228; 3rd Lucretia M. McCall, 227.

Third Class.—1st William Preston, 379; 2nd Eben Laing, 361; 3rd John L. Patterson, 356.

Second Class.—1st Grace Eamerson, 337; Minnie McNeily, 322; 3rd Minnie Cookson, 321.

Part First.—1st Lonie S. McDowell, 316; 2nd Carrie Madill, 314; 3rd Mandy Marvin, 310.

Villiers.

—Mr. West who has spent the past nine months in Oregon, for the purpose of trying the different seasons of the year, is expected home towards the end of this month. He will have a happy welcome from his family after so long an absence.

—The election passed off quietly here. The majority, according to report, for Mr. Blezard being 47. This is a very small majority compared with what the people around here expected.

—The "Blezard" Cheese Factory is running again this year, but not as before—under Mr. Blezard's superintendence—Mr. Bean, the cheese manufacturer, has all in his hands. He gets the name of a good cheese-maker. Over 2,000 lbs. of milk is taken in, making between three and four "cheesee," daily.

—The crops have a beautiful appearance. Everything seems to be further on than it was this time last year, notwithstanding the backward spring.

—We have had rain every day for a whole week—election day excepted.

Fenelon Falls.

A Long Trip.—On Monday last Messrs. Jno. Manning, Edward Coleman, James Milne, Thomas Gardner, Walter Porter and James Schofield, six young men of Bowmanville, left home for a pleasure trip estimated at nearly a thousand miles, and which it will take them about ten weeks to accomplish. Travelling by waggon to the nearest point of Lake Scugog, they there took water in three large canoes, which afforded ample storage for their tent, cooking utensils, provisions solid and fluid, arms and ammunition of all kinds and plenty of fishing tackle. *Being* delayed a good deal by the weather, and having to stop on their way to replace a broken mast, their stay at Fenelon Falls, which they reached about 10 a. m. on Wednesday, was very brief, as they wished to go to Minden before night, and at one o'clock they had got as far as Coboconk. We could not obtain any particulars as to their projected route, except that they intended to go a tremendous distance north, leading a jolly sporting life among the beautiful scenery of the back lakes and rivers, to spend considerable time along the shores of Georgian Bay, and finally, returning *overland* to Toronto, paddle home on Lake Ontario. A more delightful trip than that which they will enjoy can scarcely be imagined, and we sincerely hope that nothing will occur to mar their anticipated pleasure.—*Gazette*.

North Monaghan.

Court of Revision.—The Reeve and members of the Council met on 26th May as a Court of Revision on the assessment roll, of the Municipality for 1879. All the members present. Mr. Collins in the chair. Having severally subscribed to the oath of office, the following appeals were heard. James Campbell, for over assessment on 55 acres in lot 12, con., 13, reduced from $15,000 to $12,000. Mrs. Cottingham, reduced from $10,000 to $9,000. Chas. Spilsbury's assessment confirmed; Wm. Robson's appeal withdrawn. Applications for changes were received. From Mr. Breckenridge to be assessed on roll for park lots 5, 6, 15, 16, in lot 12, con., 12; J. C. Fitzgerald owner,—Granted. From Wm. Eyres, to have John Rickerby assessed for 20 acres in north part of lot 7, in 9th con., and to have same deducted from his assessment, —Granted. From R. A. Laing, to have John Campbell assessed for 75 acres, in west half of lot 7, in the 8th concession, as Tenant,—Granted. From John McIntosh to be assessed as tenant, for east half of lot 2, in 11th concession, Wm. Bradburn owner,—granted. After making the above changes, the Clerk was on the motion of Mr. Leary, seconded by Mr. Foster, directed to append the proper certificate to the roll. John Dobbin, Jas. Wallis, and Jas. Campbell Esqrs., are the three highest assessed in the Municipality, being respectively $25,692, $18,980, and $14,986. A short session of the Council was held, and an order given to the assessor for part of salary—and Postage account. Council adjourned to the second Monday in August at 1 o'clock. —*Com*.

Six licensed cotton samplers were arrested in New York on Friday for stealing cotton from bales. John and Nicholas Costello, cotton brokers, to whom the stolen cotton was traced, have been indicted. The cotton merchants estimate their loss from this cause to be $50,000 yearly.

The New York *Tribune* says the proposed advance in the price of coal is more imaginary than real. It is true some sales have been made at from 10 to 15 cts above the lowest prices, but it is remarked that buyers are discovering that the coal delivered is slaty, and they do not want it. Hence the tendency of the market is downwards.

Five hundred tons of vitrol let loose by the burning of the Merrimac Chemical Works on Monday ran into Richardson's pond at Woodburn, Mass., poisoning large quantities of fish which floated down the stream choking the water-wheel of Richardson's mill a mile distant. The water of this stream eventually reaches a pond supplying the Charleston water works, and it is feared the poison will affect that supply.

The Queen's age, 60, has been exceeded by eleven only of the Sovereigns of England, dating from the Norman Conquest—namely, Henry I, who lived to the age of 67 years; Henry III, who lived 65 years; Edward I, who lived to be 67 years old; Edward III, 65 years; Queen Elizabeth, who reached 69 years; James II, 68 years; George I, 67 years; George II, 77 years; George III, 82 years; George IV, 68 years; and William IV, who lived 72 years. Her Majesty will have reigned 42 years on the 20 of June next, a period which has not been exceeded by more than four of our English sovereigns—namely, Henry III, who reigned 56 years; Edward III, who reigned 50 years; Queen Elizabeth who reigned 45 years; and George the III, 60 years.

VEGETINE.

The Very Best Medicine
—FOR—
DYSPEPSIA AND INDIGESTION.

Newport, N. H., March 27, 1877.

Mr. H. R. Stevens:—

Dear Sir,—Some years I take the pen to praise that thing of excellence, Vegetine. When I began to take Vegetine two years ago with much scarred breast, my friends thought it was a case of consumption, and vegetine stands, having me as well as before. Wishing that some of those who read the testimonial which I wrote at that time, might think the same, I write once more to satisfy them of that point. Since I began to take Vegetine, almost two years ago, I have gained steadily until 25 pounds than at which I am adjusting my former health, and consider myself cured by Vegetine. Two years ago I was to low as man could be and live. I was confined to the bed for eight months, and given up to die by eight doctors, some of the most skilled in this State. They said I had nervous diseases, including consumption, heart disease, and several others, equally as bad, and must die. But Vegetine, taken as a medicine, has brought

By the River.

I am sitting alone by the river,
And the willows are sweeping its brink;
The shadows of twilight are falling,
And I sit by the river and think.

The shadows of twilight grow deeper.
The river is fading from sight;
I can see the gray willows no longer,
And I am alone with the night.

In darkness and gloom, noble river,
You are solemnly floating away;
In darkness and gloom I am floating,
And whither, Oh say! do I stray?

The learning of Plato and Paschal
Is madly at work in my brain;
I am puzzled about nothing—
I feel and I reason in vain.

Does justice exist? Oh, where is it?
Still the heart of the tyrant is stone;
Still his victims are toiling, despairing,
Still he heeds not, he hears not, their moans.

'Tis in vain that you tell me hereafter
Those things are not to be so.
We are only akin to reason,
From that which we see and we know.

For centuries long have the curses
Of the heart-broken pierced to the skies.
For centuries long has no answer
Returned to their desolate cries.

If I ask upon nature for comfort,
It is silent and grim as the grave:
The winds will not stop at my question,
No reply from the lone-sounding wave.

And the stars, as they glitter above me,
Calm and pure as the flakes of the snow,
Look as cold on the sorrows of mortals
As they looked in the years long ago.

I am sitting alone by the river,
And the willows are sweeping its brink;
The twilight has deepened to midnight,
And I sit by the river and think.

Soon I sit not alone by the river,
Soon the willows decay on its brink;
E'en this twilight of thought proves but darkness,
As we float down life's river, and sink.

Dolphin, N. Y.

TWO YARDS OF JACONET.

BY JAMES GORDON BENNET.

'I wish,' said Mary Ann, 'I had two yards of jaconet. I want it very much to complete this dress for the next birthday at Richmond. I want besides a pretty large length of pea-green ribbon. I want a feather—a white feather—to my last bonnet. I want—'

'Well, my dear,' said Louisa, her companion, 'well, my dear, it seems you have never enough. Pray how many more things do you want besides?'

'More?' returned Mary Ann; 'why a hundred more, to be sure said she laughing; 'but I'll name them all in one—I want a husband, a real downright husband.'

'Indeed?' said Louisa, 'this is the first time I ever heard you talk of such an article. Can't you select one from among your many admirers?'

'A fig for my admirers! I'm tired, I'm sick, I'm disgusted with the admirers. All come and make silly compliments; one says, Miss B——, how pretty you look to-day; another declares me with his silly looks; another is so desperately in love with me that he can't tell it; another is so dispassionately in love with himself that he talks forever. Oh! how I wish I were married! I wish I had a husband; or at least two yards of jaconet to finish the dress for the Richmond campaign.

Mary Ann B—— was a gay, young rattling creature, who had lost her father and part of her heart at fourteen. She was now seventeen; possessed a fine figure, rather embonpoint; not tall, but very gracefully rounded off. Her profuse auburn ringlets clustered negligently round a pair of cheeks in which the pure red and white mingled so delicately that where the one began or the other ended no one could tell. Her eyes were dark blue but possessing a lustre, when lighted up with feeling or enthusiasm, which defied any one to distinguish them from burning black. Her motions were light, airy and graceful. Her foot and ankle were most elegantly formed, and her two small white hands, with soft, tapering fingers, were as aristocratic as could be imagined by a Byron or an Ali Pasha. Since the death of her father, which was a period of about two years or more, she had many decided offers, and not a few who had hoped, but dare not venture upon the fatal question. She laughed at their offers, ridiculed her admirers, and protested that she would never marry until she had brought at least a hundred to her feet. For several counties round up and down the James river she was quite a toast among the young planters.

In those days the White Sulphur, Blue Sulphur and Hot Sulphur Springs were not much frequented; but people of fashion in lower Virginia, the wealthy planters, were just beginning to escape to Blue Mountains during the Autumn months. In one of these excursions the party of which Mary Ann made a lively member was overtaken one afternoon in a sudden rainstorm at the entrance of one of the gorges of the mountains. The party was travelling in an open carriage with a sort of top resembling that of a gig, to spread out when a shower broke over them with sudden violence. On the present occasion the leather top afforded to the ladies a very inadequate shelter from the torrent which fell down from the dark, heavy clouds above. The first house they approached was, therefore, truly welcomed. They dismounted, went in and found several young gentlemen surrounding the hickory fire which was crackling merrily on a large, wide hearth.

A young man of rather modest, easy, but unobtrusive manners rose at the approach of Mary Ann and offered her his chair. She accepted it, with a slight inclination of the head and a quiet glance at his general appearance. Nothing remarkable took place at this interview, but a few days after, when they had reached the foot of one of the mountains, which was appropriated as the place of gayety and fashion, the young gentleman was formally introduced to Mary Ann as Mr. C——, from Williamsburg, in Western Virginia. In a very short time he became the devoted admirer of Mary Ann—extremely and delicately attentive and, of course, gave rise to many surmises among the match-makers and match-breakers of the Springs. At the close of the season he put forth his pretensions in form. He offered himself formally to Mary Ann. As usual, she spent a whole night, in thinking, crying, deliberating, grieving, wondering, and next morning sent him a flat refusal. So this affair, which is a specimen of about thirty or forty she managed in this way, was considered closed beyond all hopes of revival. The parties never again met till the moment we have now reached threw them accidently into each other's company.

Since the period just referred to Mary Ann had considerably altered in her feeling and views. She had pursued the game of catching admirers of leading them on to declare themselves, and of then rejecting, with tears and regrets in abundance, till she and the whole world of young men became mutually disgusted with each other. Yet she had many excellent qualities—was a fast and enduring friend, knew as well as any one the folly of her course of life; but her ambition, her love of conquest, her pride of talents, her desire of winning away the admirers of her female rivals, entirely clouded and obscured her more amiable qualities of mind and heart.

'How long have you been in Williamsburg, Mary Ann?' asked her cheracm.

'Only three days, and I have only picked up three beaus. What a dull place this is. It is called the 'classic shade'—the 'academic groves of the Old Dominion,' and all that sort of thing. One of the professors entertained me a good two hours the other evening with the law of Dido and Æneas. I wish I had a couple of yards of jaconet.'

'Or a husband'——

'Or a husband, either. I don't care which. Come, my love, let's go a shopping in this classic town.'

The two ladies immediately rose, it was about noonday, put on their bonnets, took their parasols and sallied forth.

'For a husband or a jaconet, you say?'

'Two yards of jaconet, or a husband.'

The town of Williamsburg, like every other little town in Virginia or even in New York, does not contain many stores. A shopping expedition is therefore soon accomplished. The two ladies sauntered into this shop, then into that, sometimself making the poor fellow of a shopkeeper turn out his whole stock and trade, and rewarding his pains by the purchase of a sixpenny worth of tape. They had proceeded for an hour in this lounging, lazy style, when Louisa said:

'Oh! Mary Ann, here is an old beau of yours in that store with red gingham flapping at the door like a pirate's flag; come, let us go and plague him for 'auld lang syne,' as Mrs. McDonald, the Scotch lady of Norfolk, says.'

'Certainly,' said Mary Ann, 'but which of my old admirers is it?'

'Have you got the list in your pocket?'

'Not at all; I have left it as my grandfather's at Richmond; what a pity?'

The two wild creatures, bounding like a couple of fawns over the forest glade, for they were reckless of the public opinion among the old dowagers and staid matrons of Williamsburg, entered the store and asked for a sight of gloves, needles and ribbon. Mary Ann did not seem to pay much attention to the fine articles shown her. She over and anon cast eyes by stealth round and round the store, endeavoring to discover if she recognized any of the faces as that of an old acquaintance. She could not see anything to repay the effort. Not a face had she ever seen before. She commenced up to her recollection all her former admirers. They passed through her mind like the ghosts of 'Macbeth,' for, notwithstanding her rejection of so many lovers, she ever retained a certain portion of regard for every poor fellow who had fallen a victim to her whim, beauty, witchery and caprice.

'This is an Arabian desert, said Mary Ann, sighing to Louisa, as she split a pair of kid gloves in endeavoring to get them on.

'Oh! no,' said a gay young shopman; 'indeed, miss, they are the best French kid.'

'Pray,' said Louisa, in a low tone, 'don't you see anything in the back room of the store?'

In a remote corner of the store there stood at the desk a plainly-dressed gentleman, leaning over the corner of a wooden railing, with his eyes firmly fixed upon the two ladies now so actively engaged in tossing over the counter all sorts of merchandize and light French goods.

'As I live,' said Mary Ann, 'there is my old Blue Ridge beau. Oh! how wet it was,' whispered she, 'drenched with a summer shower, when first I was thrown into his society. I believe the poor fellow loved me sincerely. Come, let us sound upon him at least $10 in jaconet; he spent $100 upon me in balls, dancing, cakes, cough-drops and drives, and got a neat billet-doux declining his poor heart and soft hand. Poor fellow!'

With this sally the ladies bought several articles, scarcely caring whether they suited them or not. When they left the store Mary Ann fell into a reverie, was quite silent, which for her was unusual and singular. Louisa's quizzing on the contrary, gathered life and energy as those of her companion sank away. She talked, she laughed, she ridiculed her beaus, she rallied Mary Ann, and looking into her for once melancholy face, said:

'So, my love, you are caught at last.'

'Caught,' said Mary Ann; indeed you are much mistaken. I do not think—that is to say, I fancy I should not like to marry my Blue Ridge beau. Oh! Louisa,' said she, after a pause, with a tear in her eye, 'what a foolish creature I have been. Mr. Collingwood, for that is his name, I am sure, quite sure, does not think of me; but I cannot remember the attentions he once paid me without a feeling of regret.

'Why! now what's the matter with you? After refusing so many, are you going to throw yourself away on a shopkeeper? A descendent of one of the most ancient families in Virginia to marry a shopkeeper!'

'Alas! alas! Louisa, what is descent? what is fashion? what is all the life I have led? Do you see that little white house with green Venetian blinds across the street? I was one evening in that house, and saw enough to satisfy me that I have been pursuing pleasure, not happiness. Oh, if I could only feel as that young wife does!

You laugh. I am sure I do not think of Mr. Collingwood; but there was a time when his soft, quiet and affectionate manner did touch me most sensitively.'

'Have you got the gloves you bought?' asked Louisa.

Mary Ann looked. She had forgotten them on the counter or lost them.

'We must return, then,' said Louisa.

'Never,' said Mary Ann. 'I never dare look at him. I am sure he despises me. Oh, if he only knew what I feel—what pangs pass through this heart—I am sure he would not.'

'Come, come,' said Louisa; 'we must return and get the gloves'

'Never.'

'Oh! the jaconet or a husband, most assuredly. You remember your resolution when we set out?'

Mary Ann smiled, while her eyes glistened with a tear. They returned home, however, and sent Cato, the colored servant, for the articles they had forgotten.

After this adventure it was observed that a visible change came over the manners and spirits of Mary Ann. Her gay, brilliant sallies of wit and ridicule were moderated amazingly. She became quite pensive; singularly thoughtful for a girl of her unusual flow of spirits. When Louisa rallied her on the shop-excursion she replied: 'Indeed, Louisa, I do not think I could marry Mr. Collingwood; besides he has forgotten every feeling he may have entertained towards me.'

In a few days after this event a party was given one evening at a neighbouring house. The family in which Mary Ann resided were all invited. The moment of reunion approached, and Mary Ann, dressed with great elegance but far less splendor than usual, found herself at the head of a commotion, surrounded by several young gentlemen, students of William and Mary, professors, planters and merchants, who were pressing forward in every direction, talking or catching a word or two from so celebrated a circle. Mary Ann, however, did not appear to enjoy the group that surrounded her.

She was shooting her dark blue eyes easily and negligently towards the entrance, as every new face came forward to see all the party. The music struck up, and rallying her attention, she immediately stepped off on a *dos-a-dos* with that elegance and grace for which she was so particularly remarkable. At the close, as she stood up beside her partner, throwing a beautiful auburn ringlet back upon her white, round neck, her eye caught with sudden emotion, a quiet genteel-looking person at the other end of the room. It was Mr. Collingwood. She immediately dropped her eyes to the floor and looked very narrowly at her left foot as she moved it on the toe and backwards and forwards, as it were, for want of thought or to divert her thoughts. In a few seconds she looked up in the same direction. Mr. Collingwood still stood in the same position, watching every motion she made and every look she cast around her. She blushed, felt embarrassed and went altogether wrong in the cotillion.

'What in the world are you thinking of?' asked Louisa.

'I scarcely know myself,' said Mary Ann.

In a few seconds the cotillion was brought to a close, and Mary Ann's partner escorted her to a seat. Mr. Collingwood approached through the crowd and stood before her.

'How is Miss ——?' asked Mr. Collingwood, with suppressed emotion.

Mary Ann muttered out a few words in reply. She dropped her glove. Mr. Collingwood picked it up.

'This is not the first time you have lost a glove,' said he, with a smile.

She received it and cast a look upon him of inconceivable sweetness.

'Do you dance again, Miss ——?'

'I believe not; I am going home.'

'Going home!' said he; 'why the amusements are scarcely begun.'

'They are ended with me,' said she, 'for the night. I wish my servant would fetch my cloak and bonnet.'

'Oh, you can't be going home already.'

'Indeed I am,' said she.

'Well,' said he, with a smile, 'I know your positive temper of old. Allow me to get your cloak for you?'

'Certainly.'

Mr. Collingwood left the room. Louisa and several other female friends gathered around her, persuading her on all sides not to leave the party ere it was begun. She would not remain. Mr. Collingwood appeared at the door. In the hall, for it was the fashion then and there to do so, Mr. Collingwood took her bonnet and put it on. 'Allow me,' said he, 'to tie the strings?' She nodded assent, and while he was tying the ribbons under her chin he could not help touching her soft cheek. He was in ecstasy—she was quiet and resigned. He took the cloak—he unfolded it and stood in front of her—their eyes met—both blushed—he pulled the cloak around her shoulders—he folded it around and around her bosom. He trembled like a leaf; she trembled also. He pressed her warmly to his heart, whispering in her ear, 'Oh, Mary Ann, if I may hope—yet indulge a hope?' For a moment they were left alone, her head sank upon his breast. She could not speak, but her heart was like to burst.

'Will I—dare I expect to be yet happy?' Their warm cheeks met; their lips realized it in one long, long, long respiration. They tore away from each other without another word—everything was perfectly understood between them.

At this moment Mrs. Jamieson, the good lady of the mansion, approached and insisted that Mary Ann should not go so early. 'It is really shameful, my dear,' said she, 'to think of leaving us at this hour. When I go to Richmond do I leave you this abruptly? Why, Mr. Collingwood, can't you prevail upon her to stay a little longer?'

He shook his head. 'All my rhetoric has been exhausted,' said he, and it has proved unavailing.'

Mary Ann looked at him very archly.

'Well, now,' continued the lady, 'I insist upon your staying,' and she forthwith proceeded to take off her bonnet, untie her cloak, and sent the servant with them into the side apartment. Mary Ann was unresisting. She was again led into the room. Collingwood danced with her all the evening. He escorted her home in the beautiful moonlight, and every now and then he pressed the cloak around her with which she appeared not by any means to find fault.

In about a month Mary Ann became Mrs. Collingwood; and immediately, as the parson had finished this great business of the evening Louisa, who was one of her maids, whispered in her ear: 'Two yards of jaconet, or a husband.' She smiled and passed her arm around Louisa's waist. 'Both, my love—both, my love. Jaconet and a husband, a husband and jaconet.'

The Effect of Walking.

Only a few days ago, says the Waterford *Star*, after a walking match at Simcoe, one of the contestants was so crippled up that his medical attendants compared his condition to that of a foundered horse; and last Saturday at Port Dover, one of the competitors, after running for three hours, fell down in a faint and had to be carried off the course. Had any one driven his horse till it fell down in the harness he would be prosecuted (and justly too) for cruelty to animals; and can it be that men do with impunity to themselves what they do not do to their animals? The law prohibits a man from burning or destroying his own property, but prizes and premiums are offered to encourage men to injure their bodies. This is certainly wrong. We can enjoy harmless amusement as well as most men, but we think when men are incited by premiums to walk for hours or even days, without proper rest or food, it does violence not only to the individuals concerned but to the feelings of our common humanity.

Cure Your Horses.

It is to the interest of all who own horses to keep them in a healthy and sound condition; experience has proved that "Darley's Condition Powders and Arabian Heave Remedy" is the most efficacious and has been used by thousands who will cheerfully confirm this statement. For Heaves, Coughs Colds, and all diseases which affect the wind of horses it has no equal, nor is it equalled as a condition medicine; it purifies the blood, corrects and improves the appetite, and softens the skin; in fact, so great is the improvement in the condition and appearance of the animal as to have led many to doubt if it could have been the same horse. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

Consumption.

Two or three colds in succession will, with many constitutions, securely establish the seeds of consumption in the system, thus converting what was originally a simple, curable affection, into one generally fatal. Ordinary prudence, therefore makes it the business of every one to take care of a cold until it is got rid of. Fortunately "Bryan's Pulmonic Wafers" are thoroughly adapted to remove speedily all coughs and colds, and are equally effective in the primary stages of consumption, asthma, and bronchitis. Sold by all druggists and country dealers; price 25 cents per box.

The Great Shoshonees Remedy

The Great Shoshonees Remedy is an Indian vegetable compound composed of the juices of a variety of remarkable medicine plants and herbs; the various properties of these different ingredients, when combined as so constituted as to act simultaneously upon the Blood, Lungs, Liver, Kidneys digestive, Organs, Nervous System, &c. restoring their functions to healthy action, and being purely vegetable, is as harmless a beverage as water. This medicine is a decided benefit in all, and a permanent cure in a large majority of diseases of the blood, such as Scrofula, Erysipelas, Salt Rheum Canker Pimples, &c. In prescribing this medicine we do not claim that it always performs cures; but this we do say, that it purifies and enriches the blood, permanently curing a large majority of diseases arising from its impurities. It stands far ahead and unequalled among the hundreds of competing medicines of the day. It has stood the test of ten years, and is to day more popular than ever. As a nerve restorative it stands unrivaled; it enables the system to bear up against the constant drain to which it is subjected by a high temperature. Persons who are subject to bilious Colic, Dysentery, Indigestion, &c., should take the Shoshonees Remedy. Price of the Remedy in pint bottles $1; Pills, 25 cts. a box. Sold by all sted cine dealers.

PETITT'S EYE-SALVE.

An Infallible Remedy for all Diseases of the Eye (acute or chronic). Gran a box of the Eye Salve. Ventalin of the Lachrymal Canals. Piles, and all diseases of the Vision from any cause.

THE AMERICAN EYE-SALVE is presented to the public with the assurance of its efficacy as a remedy of the most diseases of the eye acute or chronic inflammation whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting that organ. Also for all person whose vocation requires an incessant action of the eyes, the Salve will act as a charm in restoring a uniform healthy action, wherewrakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effective remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness safe in its application, being used externally, and, of course, removing the pain and danger, which necessarily attends the introduction of ointments and eye-washes. Removes any Old Chronic Sores, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE-SALVE. It is used most carefully for Piles. Its soothing effect is immediate, permanent cure requires but a few applications. The proprietors of "Dr. J. Petitt's AMERICAN EYE-SALVE," while making new and improved machinery for making a more perfect box for the Eye Salve, have changed the Trade Mark of the cover so as to correspond with the Outside Wrapper, Circulars, Advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

MONEY TO LEND.

The Peterborough Real Estate Investment Co.

(LIMITED.)

CAPITAL, - $2,000,000.

This Company is now prepared to Make Loans upon Security of Improved Farm Property on the following Terms:

Interest at 8 per cent. half yearly, or 8½ per cent yearly; when principal is repayable at expiration of term, or by fixed instalments.

Interest at 8½ per cent. half yearly; or nine per cent. yearly; when the whole or any part of the Principal is repayable at any time without notice.

Both Principal and Interest are repayable by instalments of the same amount every year according to the following table:—

Each $100 will be Repaid by	5	Equal Annual Instalments of	$23	09	Each.
"	6	"	19	33	"
"	10	"	13	70	"
"	15	"	10	25	"
"	12	"	11	02	"
"	15	"	10	02	"
"	20	"	9	60	"

In every case the Lender has the choice of day on which to pay both Principal and Interest, and even when he agrees to pay the Principal by instalments, may allow the instalments to remain unpaid to the end of the term, without extra charge.

As this is the only Company having its management in Peterborough, loans can be procured from it more expeditiously than with any other Company.

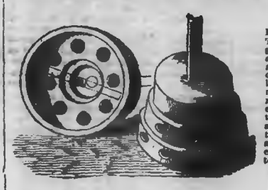
APPLICATIONS TO BE MADE TO THE MANAGERS,

MESSRS. POUSSETTE & ROGER,

AT THEIR OFFICE, WATER-ST., PETERBOROUGH.

Peterborough, December 5th, 1878.—50-1yr.

Ellsworths' Pyramidical Atmospheric IMPROVED CHURN DASHER.



(Patented July, 1878.)

Is adapted to all the old fashioned Round, Tub or Crock Churns. It will churn and gather the butter in from 4 to 10 minutes, and turn out 10 per cent more butter than anything of the kind in use. Each section or flange is an Air Chamber, which forces a large volume of atmosphere down into the milk or cream at each stroke, the cream or milk at the same time is forced over upward of four hundred inches of surface, and is thrown with such great velocity square against the walls of the churn that it ruptures the globules and frees the butter with a few strokes. It is perfectly simple and easily constructed,—no machinery about it to get out of order.

For Dashers, Rights, Etc., address—

A. W. TULLY, Smith.

Or W. TOOLE, Peterborough.

Who is now manufacturing them, and who are sole proprietors of the Right for this County.

CATARRH.

Constitutional Catarrh Remedy, Cures Catarrh.

T. J. B. HARDING, Esq., BROCKVILLE, ONT.

DEAR SIR,—It is now two years since your "Constitutional Catarrh Remedy" was introduced to me. I have waited this long to see if the cure would remain permanent before doing this, my duty, to you, as at first the happy effects seemed to me to be too good to be true.

I was afflicted in my head for years before I suspected it to be Catarrh. In reading in your Circular I saw my case decided in many particulars. The inward "drop" from the head had become very disagreeable, and a choking sensation often preventing me from lying long, I would feel like smothering and be compelled to sit up in the bed. My health and spirits were seriously affected. When your Agent came to Walkerton in August 1877, I secured three bottles. Before I had used a quarter of the contents of one bottle I found decided relief, and when I had used two bottles and a third, I quit taking it, feeling quite cured of that ailment, and have not used any since until of late I have taken some for a cold in my head.

A sense of duty to sufferers from that loathsome disease, Catarrh, prompts me to send you this Certificate, unsolicited, with leave to make what use of it you may see proper. Yours truly,

W. TINDALL, Methodist minister.

Fort Elgin, Ont., Aug. 24, 1878.

Ask for Littlejohn's Constitutional Catarrh Remedy and take no other.

T. J. B. HARDING, Dominion Agent Brockville, Ontario.

For sale by all Druggists at only $1 per Bottle.

BUY IT! - - TRY IT! 11-1y

MANHOOD:

"A Lecture to Young Men."

We have recent published a new edition of Dr. Culverwell's Celebrated Essay on the *radical and permanent cure* (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

Address, THE CULVERWELL MEDICAL Co. 41 Ann Street, New York. Post Office Box 4586. 3-1

TO CONSUMPTIVES.—

The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used, (free of charge,) with the directions for preparing and using the same, which they will find a sure cure for Consumption, Asthma, Bronchitis, &c. Parties wishing the prescription will please address R. A. WILSON, 149 Penn St., Williamsburgh N Y

PILES.—Dr. Palmer's Celebrated Pile-loan Remedy is the best ever known for Pile of every kind (*Bleeding Itching, Blind, Passive, &c.*) and all diseases of the Rectum, whether of long or standing. It gives instant relief, and effects a radical and permanent Cure. It is prescribed by all physicians who are acquainted with it. Chronic cases readily yield to it. No surgical operation need be performed, and nothing pour suffering Guilty Secrets for a large pamphlet. Sent by mail on receipt of price. For sale by all druggists. Dr. J. ASHE, 29 Ann St. N.Y. 20-6m

PIMPLES.—I WILL MAIL (FREE) the receipt for a Simple Vegetable Balm that will remove TAN, FRECKLES, PIMPLES and BLOTCHES, leaving the skin soft, clear and beautiful; also instructions for producing a luxuriant growth of hair on a bald head or smooth face. Address, JOHN H. GARDNER, & Co., 24 Lloyd St. Station D, N.Y. 20-6m

ERRORS OF YOUTH.—A gentleman who suffered for years from Nervous Debility, Premature Decay, and all the effects of youthful indiscretion, will, for the sake of suffering humanity, send free to all who need it, the recipe and directions for making the simple remedy by which he was cured. Sufferers wishing to profit by the advertiser's experience can do so by addressing, in perfect confidence, JOHN B. OGDEN, 42 Cedar St. New York. 20-6m

WHEELER & WILSON

which is proven to be

The Lightest Running Sewing Machine in the World!

Natural Philosophy proves it, and Common sense sanctions it, as their motion is Rotative, while that of a shuttle machine is reciprocating. They are more durable than a shuttle machine and far less complicated.

They sew heavier and lighter than any other machine.

They make less noise than any other machine and they do the nicest and greatest range of work, never soiling the thread with oil or dirt.

They also took the Grand Prize at the Paris Exposition, held in France, on the 31st of October, 1878, from all the other machines present, and there were over fifty-two thousand on exhibition.

The above Leading Machines are sold at Peterborough by

G. A. MITCHELL,

The only authorized Agent. ☞He also repairs all classes of Sewing Machines, and guarantees his work. Office, Hunter-St., Peterborough.

NOTICE.

Dissolution of Partnership

The heretofore existing between RUSH, ELLIOTT & MORROW, has this day been dissolved by mutual consent.

HENRY RUSH,
ALEXANDER ELLIOTT,
RICHARD MORROW.

☞All accounts due the late firm, must be paid before the 1st July, 1879. If not settled by that time, will be put in court for collection.

Peterborough, April 23rd, 1879. 17-16mo.

"When the mists have rolled away,"
"We shall meet beyond the river,"
"Horace Greely," "making hay,"
"Near the banks of that lone river,"
"Woman's rights," "No tongue can tell,"
"Whoa, Emma!" "The cold winds whistle,"
"Say good-by, yet not farewell."

Synod of Toronto.

Bishop Sweatman's Inaugural Address.

At the opening of the Synod of Toronto Bishop Sweatman delivered a very lengthy address. At the outset he referred to the circumstances under which he had been called on to assume the administration of affairs in the large and important Diocese of Toronto. He referred to the contest at the election as having attracted the attention not only of the members of the Church of England, but of all Protestants throughout the Dominion, and congratulated the members of the Synod on the happy termination of the difficulty by both of the parties joining hands and electing one who was a comparative stranger. His Lordship next referred to the different schools of thought in the Church, and said that it would always be his aim while holding distinct evangelical views himself to have a tenderness in judging and gentleness of dealing that is ready to make all allowance for errors that are of the head only, and a firmness of hand that will hold the reins of power evenly with a strict justice that is undeviating, and will steer a straight course of equity and right without fear or favor. He then reviewed the points of doctrine over which disputes were arising in the Church, referring particularly to "Confession" and the "Real Presence," and unhesitatingly condemned the impressions which were cropping in under the guise of Ritualism. Reference was made to the death of his predecessor, Bishop Bethune, to whose memory he paid a high tribute. He drew attention to the state of the several mission funds of the Diocese, the working of the Sunday Schools, and called upon all Churchmen to rally and do what they could to advance the Master's kingdom, concluding with the following earnest appeal: "We have a nobler, more blessed warfare to wage than settling internal dissensions about the minor, less vital, matters in which as Churchmen we may differ, the warfare to which as Christians we were baptised, as good soldiers of the Cross, under the Captain of our salvation, against His foes and ours. When the Church, which we all love better than our Church theories, is in danger from active, proselytizing bodies without, when the truth, which is dearer to us than life, is assailed by open and insidious infidelity undermining us in our very congregations, stealing its way into our families as well as boldly asserting itself through the press; when the world is a more powerful seducer of our tender flocks than ever with its multiplied forms of pleasurable temptation; when sin stalks abroad with unblushing front, and challenges the very principle of purity and holiness to God which we are endeavoring to instil, indeed it is no time for us to be wasting our energies in fighting the shadows cast by our own forms. Oh! may the love of the blessed Lord who so loved us, and may the sense of the immortal souls for whom He died, swallow up all our little jealousies and differences, and unite us as an undivided host in manfully fighting His battle against the giants of sin and unbelief."

During the delivery of his address the Bishop was several times loudly applauded, and judging from expressions made use of by his bold stand meets with a hearty support from a large majority of both clergy and laity.

The Roman Catholic Vote.

We ask our Roman Catholics friends in the Peterborough's to read the following from the *Mail*, and to bear it in mind, so that when the same stripe of politicians are endeavoring to gain their votes at the next election, they will resent the pain that would if they dare, bring on their church:

"If the Roman Catholics of Ontario were oppressed, or if they suffered from any political disability, or if they were not equal before the law with the members of other creeds, we could understand theirvoting in a solid body, and as Roman Catholics, for the party that promised them a way out of their troubles. But even Mr. Fraser will not connect that the law or society places them or their church at a disadvantage. They suffer no social persecution such as they endured twenty years ago, when the Liberal party abused their creed, hierarchy, and religious institutions. Their Church is free to teach and administer, and they enjoy the consistency in the admission of their children. No class in the community, as no sect or denomination among the other churches, seeks to deprive them of or curtail their rights. This being the case, why do they stand aloof from the body politic as though they were aliens? Why is the "Catholic vote" a isolated factor, a

MARKSMAN

commodity in political contests! Why do they vote as Roman Catholics and not as citizen electors? In this Province the Roman Catholics are in the proportion of one in six of the population. If the Protestant majority were to unite and vote as Protestants; the Roman Catholics would have just reason to complain of the menace; and yet they are threatening Protestant interests by a similar course of action. The Protestant majority is pretty evenly divided between Reformers and Conservatives, and with the solid Catholic vote rests the balance of power. Practically, the Church controls the situation. This state of affairs *will not be tolerated much longer*. If the Church will not disband her phalanx, the majority must, in self-defence, meet it with a counter-organization. We speak plainly because the time for plain speaking has come. In the contest just closed, our friends bore with Mr. Fraser patiently, both loth to precipitate a religious conflict, and stir up bad blood. He travelled through the Province brandishing letters and telegrams from bishops, exhibiting his credentials as the duly authorized emissary of the Church, and calling upon his co-religionists to support him as such. The hon. gentleman had silent but active agents in every constituency where the Catholic vote is strong. In one Riding where an Irish Roman Catholic was the Opposition candidate, the priest said to the Catholic Conservatives: "Gentlemen, if you vote for Mr. So-and-So, you will vote against Mr. Fraser, and if you vote against Mr. Fraser you will vote against the Church." It is useless to say that the ballot protects the Catholic voter from this sort of influence. We all know that it does not. It is not so much, however, because Catholics were coerced and inflamed that we object to this mode of warfare, as that the presence of an isolated body of electors controlled by a Church and voting with the party that will promise it most or that will serve it best, is a source of danger to the State. We believe in giving the Roman Catholic people and the Roman Catholic Church the fullest and the most ample measure of justice in all things, civil and religious; but we protest against the whole system of the "Catholic vote." The Baptist vote is a quantity unknown in politics, nor do we hear of the Methodist vote, nor of the Episcopalian vote, nor of the Presbyterian vote. The majority vote not as Church members but as electors; and if the minority will not do likewise, if it persists in going on as a unit with whichever side its Church can drive the best bargain with, then a remedy must be sought and found for a condition of things so utterly opposed to the spirit of our institutions."

The Walking Mania.

At a church in the Southern States, a colored elder, in addressing his congation, thus alluded to the present walking mania, and advised his congregation to have nothing to do with it. He said:

"My beloved bredern and sistors, dar is one ting I'm bound to say to you, befo' I close de exercises dis nite, and dat is, don't you take no stock in dis here walkin, bisiness. Let dem white tramps, men and wimmen, alone; don't you spen' your money or your presbus time runnin' round arter dem; and for de Lord's sake and your own, don't try to make fools of yourselfes by trying to do likewise. You men will find plenty ob exercise in attendin' to your work, and you wimmin enuff to do ober your washtubs and nussin' your babies, instead of trampin' roun' an' roun' de sawdust, day on an' day off, just to please a passel of fools an' ruin your own self. Besides, my b'loved frens, all de braggin' dat dey dus about dere long walks, long times and what dey calles fizsikle endoorinse ain't worth shucks wen you comes to compare dem wid one performance dat tuk place thousands of years ago, an' de reason dey don't mention it is bekase none ob dese sportin' folks ober roads dere Bibles. Well, I'll tell you what it wuz, an' its de greatest sportin' match, as dey call it, dat ober come off on de face ob dis yearf. None ob your hippy drum bisiness hesh. No sah! No sah! Fair heel-an'-toe walkin', judges appinted, track measured, time kept accordin' to de Scriptures, and a rec cord made—yes, an' a rec cord dat can't be denied, 'cause here it is—yes, here it is, in de preshus book! Now jist turn ober your Bibles, my frens, and look at fift chapter of Genesis, twenty-second vum, and what do you find? Why, you find dat "Enoch—walked—wid—God!—(after he begatted Mestoosaly)—three—hundred—years! Three—hundred—years! Dar was a walk for you. Jiss shut yo' eyes an' 'flect on it! Three—hundred—years!! Besides de reckerd says dat when de ole man made dat march an' had dat chile (who kept on livin' until he was nine hundred and sixty-nine year old—(monsus good stuff in dat family!)—I say wen de ole made dat match an' had dis chile he was sixty-five years of age, an' den walked—three—hundred—years! Talk 'bout yo' "fizzikle endoorance" after dat! Talk 'bout yo' "pluck" and yo' "grit" after dat! Why, de ole man has done laid out all ob dese now-a-days blowers as flat as a dead shad! So much for dis "strodinary performance." But dat ain't all ob it. Dere's more yet. If you'll jiss look at de twenty-fourth vum ob de same chapter, you will find my b'loved friends what awful warnin' is in dat vum to yo' foolish creatures, who has de conceit to make sich comical matches. Did any good come ob de ole man Enoch's walk? Did he make anything outen it? No, my bredern an' sisters. No! No! He los by it—lose sheryting by it—never 'peared in de ring agin—in fack he went up. Jiss read de vum: "An'—Enoch—walked—wid—God—and—he—was—not" (dat is he wasn't nowhar) 'for God took him! God took him!' To be shush he took him! He held out for a long time, de ole man did; he was game to de last; he was doing his level best, but 'Ole Master' was too long in de stride an' too sound in de wind for him, an' took him on de last vum'. Yes, my b'loved frens, an' he'll take anybody dat tries dat game on him an' kinse him. Sisperia a kite', jist as he did Ole [illegible] Enoch. So take warnin' be ole enuff bones, be all dis kind ob fastideous shame, an' 'tend to your proper callin's like good Christeuns. An' now let us pray."—*Rochester.*

A Brutal Jeer.

The brutality with which the Tory press of Lower Canada assailed the Marquis of Lorne during the late session will not soon pass from memory. There was this, however, to be said for the offenders—they were in a state of violent excitement, and their leader had skilfully diverted their wrath from himself, and, by pointing them to a defenceless victim, had removed the last restraint on the expression of their passion. Still they did not assail the Princess, who could not possibly be held guilty because her husband was a man of sense and courage. The sneer at the lady who is our Queen's daughter and our guest, was reserved for the moment when she trusted herself more peculiarly to the hospitality of Quebec, when every man in that city capable of a generous emotion should have longed to make her visit a happy one, and if opposed to the course of the Marquis should have found in that circumstance a stronger reason for welcoming his gracious wife. Who obtrudes disagreeable recollections and makes sarcastic remarks on those nearest and dearest to a guest? And if that guest be a woman! This is what *Le Canadian* welcomed the Princess with:

"Our Quebec sun did not wish to welcome the Marquis of Lorne. To the pretty eyes of the Princess it would, doubtless, have been more gallant had she been alone.

"It rains; the streets are like streams of mud; and people find enthusiasm difficult at such a time.

"Money is scarce; there is more than one father who has not enough for his family. It is hard to see thousands and thousands of pounds spent on luxury and simulated rejoicing.

"We must be respectful towards the husband of the daughter of our Sovereign, but be careful not to contract inflammation of the lungs by shouting too loud."

We are not eager to see the people grovel before royalty, nor writhing with the contortions of abject flunkeyism. But the courtesy which is due to one another—to any stranger—to any lady—is particularly due to the Princess who is the guest of each and all of us. To be insolent to her is the act of a coward, contemptible beyond language to express. That distinguished position is occupied by *Le Canadien*, edited by Mr. Tarte, one of the leaders of the ultra Blens. The utterances of this sheet have been commented on with much anger by the respectable papers of Quebec, and if a spark of the chivalric feelings of their forefathers lingers in the breasts of the gentlemen of the province they will take care that Mr. Tarte suffers no less than his organ.—*Globe.*

A Girl whose Life Discounts a Dime Novel.

A queer story of the strangely eventful life of a girl comes from Pennsylvania, as the sequel to what was years ago a much talked of mystery in the lumber regions of the northern part of that state. Kate Hanson, aged 18, an intelligent girl of good family and unsullied reputation, but with a fondness for hunting, fishing and other masculine sports, left her home in Tioga county with her ride on her arm one day 22 years ago, and never returned to it. And as diligent search and advertisement throughout the country failed to bring any trace of her, her parents came to the conclusion that she had either perished in the woods, or run away to a life of shame with a worthless young fellow named Johnston, whose attentions they had forbidden her to receive. In the winter of 1876, however, Col. Grant Wilson, of Philadelphia, met in Cuba, Maj. James Hopkins, formerly from Ohio, who served in General Thomas's division during the war, and spent some time with him and his handsome and dignified wife and two children, at their plantation in the interior. During his stay, Mrs. Hopkins told Col. Wilson that she was Kate Hanson, and gave this remarkable story of her adventures: The young man Johnston, whom her parents disliked because of his bad character, was a congenial companion to her, because of his skill as a woodman, and she rebelled against the order to cease associating with him. But after she left her home on that eventful day she decided her parents were right, but could see no way to break off the intimacy except by leaving home. She passed that night in the woods, and the next day appropriated a suit of men's clothes which she found in the cabin of some hunters. Thus attired she reached Dunkirk, N. Y., and secured a position, which she liked well enough, on a lake boat running between Detroit and Buffalo. But one day at Buffalo she saw a minute description of herself in a paper, so she fled to Cincinnatti, and became a roustabout on an Ohio steamer, where she stayed till the war broke out, when she enlisted in an Ohio regiment, was in all the engagements of Gen. Thomas's division, and was promoted to sergeant. One day in 1864, on returning from stationing a guard, the captain suddenly charged her with being a woman, and she was surprised into telling the truth, and was taken before Gen. Thomas, who ordered her to the rear, and to resume woman's apparel. She then became a nurse in the hospital, and soon had her captain as a patient, he having been wounded in a skirmish. A strong affection sprung up between them, and after the war they were married, though the influential family of the captain, who was by that time major, refused to recognize his wife. But she had saved about $900 in her various wanderings, and with this the couple went to Cuba, where
